

 Intercorp Financial Services

Investor Presentation

January 2021

Safe Harbor for Forward-Looking Statements

This corporate presentation contains “forward looking statements” within the meaning of Section 21E of the Securities Exchange Act of 1934. All statements other than statements of historical facts included in this corporate presentation regarding IFS’ business, financial condition, results of operations and certain of IFS’ plans, objectives, assumptions, projections, expectations or beliefs and statements regarding other future events or prospects are forward-looking statements. These statements include, without limitation, those concerning: IFS’ strategy and IFS’ ability to achieve it; IFS’ recent developments; expectations regarding sales, profitability and growth; IFS’ possible or assumed future results of operations; capital expenditures and investment plans; adequacy of capital; and financing plans. In addition, this corporate presentation includes forward-looking statements relating to IFS’ potential exposure to various types of market risks, such as macroeconomic risk, Peru specific risks, foreign exchange rate risk, interest rate risks and other risks related to IFS’ financial performance. The words “aim,” “may,” “will,” “expect,” “is expected to,” “anticipate,” “believe,” “future,” “continue,” “help,” “estimate,” “plan,” “schedule,” “intend,” “should,” “would be,” “seeks,” “estimates,” “shall,” or the negative or other variations thereof, as well as other similar expressions regarding matters that are not historical facts, are or may indicate forward-looking statements.

IFS has based these forward-looking statements on its management’s current views with respect to future events and financial performance. These views reflect the best judgment of IFS’ management but involve a number of risks and uncertainties which could cause actual results to differ materially from those predicted in IFS’ forward-looking statements and from past results, performance or achievements. Although we believe that the estimates reflected in the forward-looking statements are reasonable, such estimates may prove to be incorrect. By their nature, forward-looking statements involve risk and uncertainty because they relate to events and depend on circumstances that will occur in the future. There are a number of factors that could cause actual results and developments to differ materially from those expressed or implied by these forward-looking statements. These factors include, among other things: (a) IFS’ holding company structure; (b) economic, business and political developments in Peru and globally; (c) changes in Peruvian, Panamanian and Bahamian and other foreign laws and regulations, including the adoption of new capital requirements for banks or insurance companies; (d) increased competition in the Peruvian financial services and insurance markets; (e) increased inflation; (f) exchange rate instability and government measures to control foreign exchange rates; (g) developments affecting the purchasing power of middle income consumers or consumer spending generally; (h) increases in interest rates; (i) downturns in the capital markets and changes in capital markets in general that affect policies or attitudes towards lending to Peru or Peruvian companies or securities issued by Peruvian companies; (j) IFS’ ability to keep up with technological changes; (k) the inability to obtain the capital we need for further expansion of IFS’ businesses; (l) the inability to attract and retain key personnel; (m) changes in tax laws; (n) severe weather, natural disasters and adverse climate changes; (o) changes in regional or global markets; (p) dependence on sovereign debt in IFS’ investment portfolios; (q) credit and other risks of lending, such as increases in defaults of borrowers; (r) increased costs of funding or IFS’ inability to obtain additional debt or equity financing on attractive terms or at all; (s) a deterioration in the quality of IFS’ assets; (t) allowances for impairment losses may be inadequate; (u) changes to accounting standards; (v) changes in actuarial assumptions upon which IFS’ annuity business is based; (w) failure to adequately price insurance premiums; (x) decreases in the spread between investment yields and implied interest rates in annuities; (y) dependence on information technology systems and cybersecurity risks; and (z) other risks and uncertainties.

Additionally, new risks and uncertainties can emerge from time to time, and it is not possible for IFS to predict all future risks and uncertainties, nor can IFS assess their potential impact. Accordingly, you should not place undue reliance on forward-looking statements as a prediction of actual results.

All forward-looking statements included in this corporate presentation are based on information available to IFS on the date of this corporate presentation. IFS undertakes no obligation to update publicly or revise any forward-looking statement, whether as a result of new information, future events or otherwise, except as may be required by applicable law. All other written and oral forward-looking statements attributable to IFS or persons acting on IFS’ behalf are expressly qualified in their entirety by the cautionary statements contained throughout this corporate presentation.

The Company prepares the financial information included in the presentation in accordance with International Financial Reporting Standards (IFRS). We have included in this presentation certain information reported by the Peruvian Superintendency of Banks, Insurance and Private Pension Fund Administrators (Superintendencia de Banca, Seguros y AFPs, or “SBS”) and the Peruvian Securities Commission (Superintendencia del Mercado de Valores, or “SMV”) for the Peruvian banking and insurance sector as a whole as well as for individual financial institutions in Peru, including Interbank and Interseguro, our subsidiaries, which report to the SBS and the SMV in accordance with accounting principles prescribed by the SBS (“Peruvian SBS GAAP” or “Local GAAP”). All financial information in this presentation regarding our relative market position and financial performance vis-a-vis the banking and insurance sectors in Peru are based, out of necessity, on information obtained from SBS and SMV statistics. Information in this presentation regarding our relative market position and financial performance relating to Inteligo, our subsidiary, may have been obtained from public sources, as Inteligo is not regulated by and does not report to the SBS or the SMV. In addition, for certain financial information related to our compound annual growth rate we have included such information pursuant to Peruvian SBS GAAP in order to be able to show our growth over a certain number of years. IFRS differs in certain respects from Peruvian SBS GAAP. Consequently, information presented in this presentation in accordance with Peruvian SBS GAAP or based on information from the SBS or SMV may not be comparable with our financial information prepared in accordance with IFRS.

Focus on efficiency ratio

Efficiency ratio ⁽¹⁾

Reducing other expenses following cost containment measures

Main actions and impacts

- As of November 2020, we have closed 22 branches, accumulating almost a 20% reduction from its peak in 2016, down to 233 branches
- Lower credit card and marketing variable expenses
- Lower HR variable expenses
- Specific cost containment programs implemented across all IFS' subsidiaries

Source: Company information as of September 2020.

1) Efficiency ratio is defined as (Salaries and employee benefits + Administrative expenses + Depreciation and amortization) / (Net interest and similar income + Fee income + Other income + Net premiums earned). Efficiency ratio excludes (i) the aggregate negative effect of new mortality tables in our insurance segment for S/144.8 million in 2018, (ii) the one-off impact of a Liability Management transaction in our banking segment for S/ 42.3 million in 2019, and (iii) the one-off impact from the modification of contractual cash flows due to the loan rescheduling schemes offered to customers affected by the COVID-19 pandemic in our banking segment for S/ 151.1 million in 9M20. Including these effects, efficiency ratio was 35.6%, 34.3% and 32.4% in 2018, 2019 and 9M20, respectively.
