**Securities registered or to be registered pursuant to Section 12(b) of the Act:**

Title of each class	Trading Symbol(s)	Name of each exchange on which registered
Common Shares	IFS	NYSE and Lima

**Securities registered or to be registered pursuant to Section 12(g) of the Act:**

None  
(Title of Class)

**Securities for which there is a reporting obligation pursuant to Section 15(d) of the Act:**

None  
(Title of Class)

Indicate the number of outstanding shares of each of the issuer's classes of capital or common stock as of the close of the period covered by the annual report:

**Shares of common stock: 115,422,881**

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes ☐ No ☒

If this report is an annual or transition report, indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or 15 (d) of the Securities Exchange Act of 1934. Yes ☐ No ☒

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes ☒ No ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or an emerging growth company. See definition of "large accelerated filer," "accelerated filer," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer ☒ Accelerated filer ☐ Non-accelerated filer ☐  
Emerging growth company ☐

If an emerging growth company that prepares its financial statements in accordance with U.S. GAAP, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards<sup>†</sup> provided pursuant to Section 13 (a) of the Exchange Act. ☐

<sup>†</sup> The term "new or revised financial accounting standard" refers to any update issued by the Financial Accounting Standards Board to its Accounting Standards Codification after April 5, 2012.

Indicate by check mark whether the registrant has filed a report on and attestation to its management's assessment of the effectiveness of its internal control over financial reporting under Section 404(b) of the Sarbanes-Oxley Act (15 U.S.C. 7262(b)) by the registered public accounting firm that prepared or issued its audit report. ☒

Indicate by check mark which basis of accounting the registrant has used to prepare the financial statements included in this filing:

U.S. GAAP ☐ International Financial Reporting Standards as issued by the International Accounting Standards Board ☒ Other ☐

If "Other" has been checked in response to the previous question, indicate by check mark which financial statement item the registrant has elected to follow. ☐ Item 17 ☐ Item 18

If this is an annual report, indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes ☐ No ☒

(APPLICABLE ONLY TO ISSUERS INVOLVED IN BANKRUPTCY PROCEEDINGS DURING THE PAST FIVE YEARS)

Indicate by check mark whether the registrant has filed all documents and reports required to be filed by Sections 12, 13 or 15(d) of the Securities Exchange Act of 1934 subsequent to the distribution of securities under a plan confirmed by a court. Yes ☐ No ☐

## INTRODUCTION

All references to “we”, “us”, “our company”, and “IFS” in this Annual Report on Form 20-F are to Intercorp Financial Services Inc., a corporation (*sociedad anónima*) organized under the laws of the Republic of Panama (“Panama”).

In this Annual Report on Form 20-F, we refer to and the discussion of our business includes the business of our principal subsidiaries as follows: (i) in our banking segment: Banco Internacional del Perú, S.A.A.—Interbank, an open-stock corporation (*sociedad anónima abierta*) organized under the laws of Peru, as “Interbank”; (ii) in our insurance segment: Interseguro Compañía de Seguros, S.A., a corporation (*sociedad anónima*) organized under the laws of Peru, as “Interseguro”; and (iii) in our wealth management segment: Inteligo Group Corp., a corporation (*sociedad anónima*) organized under the laws of Panama, as “Inteligo”; Inteligo Bank Ltd., a corporation organized under the laws of The Bahamas, as “Inteligo Bank”; Inteligo Sociedad Agente de Bolsa S.A., a corporation (*sociedad anónima*) organized under the laws of Peru, as “Inteligo SAB”; Inteligo USA Inc., a corporation organized under the laws of New York, as “Inteligo USA”, and Interfondos S.A. Sociedad Administradora de Fondos, a corporation organized under the laws of Peru, as “Interfondos SAFM” or “Interfondos”.

In this Annual Report on Form 20-F, we also refer to our parent company, Intercorp Perú Ltd. (“Intercorp Peru” or “Intercorp”), a holding company for a group of companies operating mainly in Peru under the name “Intercorp”. Intercorp Peru’s main subsidiaries include our company and Intercorp Retail Inc. (“Intercorp Retail”). Intercorp Retail acts as a holding company for the retail and real estate operations of Intercorp Peru in Peru. Through its subsidiary InRetail Peru Corp whose shares are listed on the Lima Stock Exchange under the symbol “INRETAILC1,” Intercorp Retail has controlling stakes in (i) Supermercados Peruanos S.A. (“Supermercados Peruanos”), a supermarket chain, primarily operating under the: “Plaza Vea,” “Vivanda”, “MASS” and “Makro” brands, (ii) InRetail Pharma S.A., consisting of a chain of pharmacies operating under the “Inkafarma” and “MiFarma” brands with a distribution and marketing business as well as manufacturing some pharmaceutical products and (iii) InRetail Real Estate Corp., an owner, developer and operator of shopping malls under the “Real Plaza” brand. Intercorp Retail also controls directly (a) Tiendas Peruanas S.A., a department store chain operating under the “Oechsle” brand that started operations in 2009, (ii) Financiera Oh! S.A., a consumer finance company that started operations in 2010, and (iii) Homecenters Peruanos S.A. (“Homecenters Peruanos”), a home improvement company operating under the “Promart” brand. Our parent company Intercorp Peru also controls the following companies involved in the private education and healthcare businesses under the following brands: “Innova Schools,” “Zegel IPAE,” “UTP” “IDAT” and “Aviva”.

## SUMMARY OF RISK FACTORS

*An investment in our common shares is subject to a number of risks, including risks relating to the nature of our business as a holding company of banking, insurance and financial institutions, our operations in Peru and our common shares. The following list summarizes some, but not all, of these risks. Please read the information in the section entitled “Risk Factors” for a more thorough description of these and other risks.*

### ***Risks Relating to Our Businesses***

- As a holding company, all of our operations are conducted through our subsidiaries and our right to receive any distribution of assets of our subsidiaries will be effectively subordinated to the rights of our subsidiaries’ creditors, which may in turn impact our ability to pay dividends, if any, and corporate expenses.
- Our subsidiaries are subject to extensive regulation and supervision, and changes in existing regulations, implementation of future regulations, or non-compliance with license and operating requirements and capital requirements may have a material adverse effect on our financial condition and results of operations.
- The adoption of new international banking and insurance guidelines may cause our subsidiaries to require additional capital and could cause their cost of funds to increase, which could have a material adverse effect on our financial condition and results of operations.
- The banking and insurance markets are exposed to macroeconomic shocks that may negatively impact household income and, consequently, could have a material adverse effect on our financial condition and results of operations.
- We could sustain losses if Interbank’s asset quality declines, its portfolio becomes less diverse, its impairment losses are inadequate or if it is unable to obtain required funding for growth.
- Our financial results may be negatively affected by changes to IFRS accounting standards, investment losses and interest rate changes, including changes resulting from the LIBOR transition.
- Actual mortality and morbidity rates and other factors may differ from those assumed in the calculation of technical reserves. Such differences, as well as Interseguro’s failure to underwrite and price insurance premiums accurately, may have a material adverse effect on Interseguro’s financial condition and results of operations.
- A reduction in our subsidiaries’ credit ratings could increase their cost of borrowing funds and make their ability to raise new funds and renew maturing debt more difficult.
- Our subsidiaries may suffer losses in their investment portfolio because of risks associated with real estate investments and reliance on Peruvian sovereign and global bonds.
- Cyber-security events and interruption, mismanagement or failure in our subsidiaries’ information technology systems may adversely affect their operations, negatively impact our operations, and result in litigation.
- Our subsidiaries are susceptible to fraud, unauthorized transactions and operational errors.
- Any failure to comply with anti-corruption, anti-bribery, anti-money laundering, anti-terrorist financing and antitrust laws and regulations could damage our reputation or expose us to penalties.

### ***Risks Relating to Peru***

- Global and local health concerns, including in relation to the ongoing COVID-19 pandemic, other outbreaks of disease, government response measures to the same and their macroeconomic effects may adversely affect our business and results of operations.
- Economic, social and political developments in Peru, including political instability, inflation and unemployment, could have a material adverse effect on our businesses.

- The degree to which dollarization of the Peruvian economy hampers monetary policy, which may in turn adversely affect our business.
- Corruption and ongoing high profile corruption investigations may hinder the growth of the Peruvian economy and have a negative impact on our business and operations.
- Fluctuations in the value of the *sol* could have a material adverse effect on our financial condition and results of operations.
- Potential exchange controls implemented by the Peruvian government could adversely affect our ability to pay dividends and have a material adverse effect on our financial condition and results of operations.
- The Peruvian economy could be adversely affected by economic developments in regional or global markets.
- The market volatility generated by distortions in the international financial markets may affect the Peruvian capital markets and the Peruvian banking system.
- The operations of our subsidiaries could be adversely affected by an earthquake or other natural disasters.

#### ***Risks Relating to the Common Shares***

- There may be a lack of liquidity and market for our common shares, the price of which may be volatile.
- We may raise additional capital in the future through the issuance of other securities, which may result in dilution of the interests of our shareholders.
- The significant share ownership of our controlling shareholder may conflict with the interests of the holders of our common shares and may have an adverse effect on the future market price of our shares.
- Holders of our common shares may have fewer and less well-defined rights than shareholders of a company organized in other jurisdictions, such as the United States.
- Holders of our common shares may have difficulty enforcing judgments against us, our officers and directors in Peruvian courts and such judgments with respect to our common shares will be payable only in *soles*.
- We are subject to different corporate disclosure and accounting standards than those holders of our common shares may be familiar with in the United States.
- We or one or more of our subsidiaries could be considered a passive foreign investment company for U.S. federal income tax purposes, which could result in adverse U.S. tax consequences for U.S. investors.
- If we are unable to implement and maintain effective internal control over financial reporting in the future, our results of operations and the price of our common shares could be adversely affected.
- Our status as a foreign private issuer allows us to follow alternate standards to the corporate governance standards of the NYSE, which may limit the protections afforded to investors.
- Peruvian corporations, including our subsidiaries, may be jointly and severally liable for any unpaid Peruvian capital gains tax related to the transfer of the common shares.

## FORWARD-LOOKING STATEMENTS

This Annual Report on Form 20-F contains forward-looking statements. All statements other than statements of historical facts included in this Annual Report on Form 20-F regarding our business, financial condition, results of operations and certain of our plans, objectives, assumptions, projections, expectations or beliefs and statements regarding other future events or prospects are forward-looking statements. These statements include, without limitation, those concerning: our strategy and our ability to achieve it; expectations regarding sales, profitability and growth; our possible or assumed future results of operations; capital expenditures and investment plans; adequacy of capital; and financing plans. In addition, this Annual Report on Form 20-F includes forward-looking statements relating to our potential exposure to various types of market risks, such as macroeconomic risk, Peru specific risks, foreign exchange rate risk, interest rate risks and other risks related to our financial performance. The words “aim,” “may,” “will,” “expect,” “is expected to,” “anticipate,” “believe,” “future,” “continue,” “help,” “estimate,” “plan,” “schedule,” “intend,” “should,” “would be,” “seeks,” “estimates,” “shall,” or the negative or other variations thereof, as well as other similar expressions regarding matters that are not historical facts, are or may indicate forward-looking statements.

We have based these forward-looking statements on our management’s current views with respect to future events and financial performance. These views reflect the best judgment of our management but involve a number of risks and uncertainties which could cause actual results to differ materially from those predicted in our forward-looking statements and from past results, performance or achievements. Although we believe that the estimates reflected in the forward-looking statements are reasonable, such estimates may prove to be incorrect. By their nature, forward-looking statements involve risk and uncertainty because they relate to events and depend on circumstances that will occur in the future. There are a number of factors that could cause actual results and developments to differ materially from those expressed or implied by these forward-looking statements. These factors include, among other things:

- our holding company structure;
- economic, business and political developments in Peru and globally, including corruption scandals involving the Peruvian government and related political instability;
- health epidemics and pandemics (including the current novel coronavirus (“COVID-19”) pandemic) and other outbreaks, government measures to contain the spread of these pandemics or outbreaks, their effects on the economy of Peru, and their impact on global and regional economic growth prospects, creditworthiness, counter-party risk, as well as any logistical, operational or labor disruptions, among others;
- changes in Peruvian, Panamanian and Bahamian and other foreign laws and regulations, including the adoption of new capital requirements for banks or insurance companies;
- the dollarization of the Peruvian economy;
- increased competition in the Peruvian financial services and insurance markets;
- increased inflation;
- exchange rate instability and government measures to control foreign exchange rates;
- developments affecting the purchasing power of middle-income consumers or consumer spending generally;
- changes in interest rates;
- downturns in the capital markets and changes in capital markets in general that affect policies or attitudes towards lending to Peru or Peruvian companies or securities issued by Peruvian companies;
- our ability to keep up with technological changes;
- the inability to obtain the capital we need for further expansion of our businesses;
- the inability to attract and retain key personnel;
- any future acquisitions may not bring anticipated benefits;
- changes in tax laws;
- severe weather, adverse climate changes and natural disasters;

- changes and volatility in regional or global markets;
- dependence on sovereign debt in our investment portfolios;
- credit and other risks of lending, such as increases in defaults of borrowers;
- increased costs of funding or our inability to obtain additional debt or equity financing on attractive terms or at all;
- a deterioration in the quality of our assets;
- allowances for impairment losses may be inadequate;
- changes to accounting standards;
- changes in actuarial assumptions upon which our annuity business is based;
- failure to adequately price insurance premiums;
- decreases in the spread between investment yields and implied interest rates in annuities;
- dependence on information technology (“IT”) systems and cybersecurity risks; and
- other risks and uncertainties described in “Item 3. Key Information—Risk Factors.”

We urge holders of our common shares to read the sections of this Annual Report on Form 20-F entitled “Item 3. Key Information—Risk Factors”, “Item 4. Information on the Company— Business Overview” and “Item 5. Operating and Financial Review and Prospects” for a more complete discussion of the factors that could affect our future performance and the industries in which we operate. Additionally, new risks and uncertainties can emerge from time to time, and it is not possible for us to predict all future risks and uncertainties, nor can we assess their potential impact. In particular, the COVID-19 pandemic, and governments’ extraordinary measures to limit the spread of the virus, are disrupting the global economy and adversely affecting the Peruvian economy and impacting our business, results of operation and cash flows. Accordingly, holders of our common shares should not place undue reliance on forward-looking statements as a prediction of actual results.

All forward-looking statements included in this Annual Report on Form 20-F are based on information available to us on the date of this Annual Report on Form 20-F. We undertake no obligation to update publicly or revise any forward-looking statement, whether as a result of new information, future events or otherwise, except as may be required by applicable law. All other written and oral forward-looking statements attributable to us or persons acting on our behalf are expressly qualified in their entirety by the cautionary statements contained throughout this Annual Report on Form 20-F.

## PRESENTATION OF FINANCIAL INFORMATION

Our audited annual consolidated financial statements as of December 31, 2020 and 2019 and for each of the three years ended December 31, 2020, 2019 and 2018 included in this Annual Report on Form 20-F have been prepared in *soles* and in accordance with International Financial Reporting Standards (“IFRS”) issued by the International Accounting Standards Board (“IASB”) and audited by Paredes, Burga & Asociados Sociedad Civil de Responsabilidad Limitada, a member firm of Ernst & Young Global Limited (“EY Peru”).

For a description of our significant accounting policies, see Note 3 to our audited annual consolidated financial statements.

For regulatory purposes, including regulations of the *Banco Central de Reserva del Perú* (the “Central Reserve Bank of Peru”) and regulations and the reporting requirements of the *Superintendencia del Mercado de Valores* (“SMV”), our Peruvian subsidiaries, Interbank and Interseguro, also prepare in Spanish and make available to shareholders statutory financial statements as prescribed by the Peruvian Superintendency of Banks, Insurance and Private Pension Fund Administrators (*Superintendencia de Banca, Seguros y AFPs*, or “SBS”), hereinafter “SBS GAAP”.

We have included in this Annual Report on Form 20-F certain information reported by the SBS for the Peruvian banking and insurance sectors as a whole as well as for individual financial institutions in Peru, including Interbank and Interseguro, which report to the SBS in SBS GAAP. The information under SBS GAAP has been presented for comparative market purposes. All statements in this Annual Report on Form 20-F regarding our relative market position and financial performance vis-à-vis the financial services and insurance sectors in Peru are based, out of necessity, on information obtained from the SBS and the SMV. With respect to comparative banking information we typically compare ourselves against certain peer banks or against the system as a whole. With respect to comparative insurance information we typically compare ourselves against the industry as a whole. Statements in this Annual Report on Form 20-F regarding our relative market position and financial performance, however, do not include information relating to Inteligo as Inteligo is not regulated by and does not report to the SBS or the SMV.

Certain comparative financial information related to our compound annual growth rate (“CAGR”) included in this Annual Report on Form 20-F has been prepared based on information reported pursuant to SBS GAAP, except for Inteligo. Compound Annual Growth Rate (“CAGR”) is calculated by (i) dividing the value of a variable on year X (ending value) by the value of this same variable on year Y (beginning value), then (ii) raising this to an exponent of one divided by (X-Y) and (iii) subtracting one from the result. In addition, our Peruvian subsidiaries pay dividends to us on the basis of the SBS GAAP financial statements as further described in this Annual Report on Form 20-F. See “Item 8. Financial Information—Consolidated Statements and Other Financial Information—Dividends and dividends policy” and “Item 3. Key Information—Risk Factors—We are a holding company and all of our operations are conducted through our subsidiaries. Our ability to pay dividends to holders of our common shares will depend on the ability of our subsidiaries to pay dividends and make other distributions to us.”

IFRS differs in certain significant respects from SBS GAAP. Consequently, information presented in this Annual Report on Form 20-F in accordance with SBS GAAP or based on information from the SBS or SMV may not be comparable with our financial information prepared in accordance with IFRS. Unless otherwise indicated, all financial information provided in this Annual Report on Form 20-F has been prepared in accordance with IFRS.

### Change in Accounting Policies and Estimates

During 2020, we have only adopted standards, interpretations or amendments that were effective in such year. Therefore, those that became effective in 2021 or later were not early adopted. In this context, on January 1, 2020, we adopted for the first time the following standards, interpretations or amendments: (i) Amendments to IFRS 3 “Business Combinations”, (ii) Amendments to IAS 1 “Presentation of Financial Statements” and IAS 8 “Accounting Policies, Changes in Accounting Estimates and Errors”, (iii) Conceptual Framework for Financial Reporting issued on March 29, 2018 and (iv) Amendments to IFRS 16 “Leases”. Such standards, interpretations or amendments have not had a significant impact on our consolidated financial statements. See Note 3.2 to our audited annual consolidated financial statements.

Since January 1, 2019, we are applying: (i) IFRS 16 “Leases”, which accounting policies and impacts are described in Notes 3.4(j) and 8(e) to our audited annual consolidated financial statements; and (ii) Amendments to IFRS 9 “Financial Instruments”, IAS 39 “Financial Instruments: Recognition and Measurement”, and IFRS 7 “Financial Instruments: Disclosures”, in connection with the interest rate benchmark reform, which accounting policies and impacts are described in Notes 3.4(ag) and 10(b)(vi) to our audited annual consolidated financial statements.

Furthermore, since January 1, 2018, we are applying: (i) IFRS 15 “Revenue from Contracts with Customers”, which did not present any significant impacts or differences in our consolidated financial statements with respect to its predecessor IAS 18, in relation with the moment at which we recognize revenues or when revenues must be recognized at gross amount, as principal, or net,

as agent; and (ii) IFRS 9 “Financial Instruments”, which according to what is allowed by the standard, was applied by us without restating the financial statements for the year ended December 31, 2017 or any previous years. Therefore, the information for the year ended December 31, 2017 or any prior periods were presented in accordance with IAS 39 and it is not comparable to the information of the years 2018, 2019 and 2020, which is presented in accordance with IFRS 9. The differences that arose due to the first adoption of IFRS 9 were recognized directly in retained earnings as of January 1, 2018.

In addition, in 2018, Interseguro adopted new mortality tables to reflect recent changes in life expectancy. Likewise, it modified the assumptions used in the determination of the discount rate with the purpose of reflecting the business nature in the long term, through the Matching Adjustment Method. The effects of the first application of the new mortality tables as of June 1, 2018, amounted to S/144,777,000, which, in accordance with IAS 8, has been recognized prospectively affecting 2018 results within the caption “Net premiums earned” and the effects of the first application of the Matching Adjustment Method as of June 1, 2018, amounted to S/423,080,000; which, according to IAS 8, was prospectively recognized and was part of the 2018 movement in other comprehensive results within the caption “Unrealized results, net”. See Note 3.4(d) to our audited annual consolidated financial statements.

## Currency Translation

The term “sol” and the symbol “S/” refer to the legal currency of Peru, and the term “U.S. dollar” and the symbol “U.S.\$” refer to the legal currency of the United States.

We have translated some of the *soles* amounts contained in this Annual Report on Form 20-F into U.S. dollars for convenience purposes only. Unless otherwise indicated or the context otherwise requires, the rate used to translate *soles* amounts to U.S. dollars as of December 31, 2020 was S/3.621 = U.S.\$1.00, which was the exchange rate reported for December 31, 2020 by the SBS. The Federal Reserve Bank of New York does not report a noon buying rate for *soles*. The U.S. dollar equivalent information presented in this Annual Report on Form 20-F is provided solely for convenience of investors and should not be construed as implying that the *soles* or other currency amounts represent, or could have been or could be converted into, U.S. dollars at such rates or at any other rate.

## Effect of Rounding

Certain figures included in this Annual Report on Form 20-F and in our consolidated financial statements have been rounded for ease of presentation. Percentage figures included in this Annual Report on Form 20-F have not in all cases been calculated on the basis of such rounded figures but on the basis of such amounts prior to rounding. For this reason, percentage amounts in this Annual Report on Form 20-F may vary from those obtained by performing the same calculations using the figures in our consolidated financial statements. Certain numerical figures shown as totals in some tables may not be an arithmetic aggregation of the figures that preceded them due to rounding.

## Market and Industry Data

In this Annual Report on Form 20-F, unless otherwise indicated, all macroeconomic data relating to Peru is based on information published by the SBS, the Central Reserve Bank of Peru, the Peruvian Ministry of the Economy and Finance (*Ministerio de Economía y Finanzas*, or “MEF”), and the Peruvian National Institute of Statistics and Information Processing (*Instituto Nacional de Estadística e Informática*, or “INEI”). References in this Annual Report on Form 20-F to “GDP” refer to real gross domestic product, except for GDP per capita and penetration ratios of loan products.

References in this Annual Report on Form 20-F to “peer countries” in Latin America refer to Brazil, Chile, Colombia and Mexico. Certain information about peer countries in Latin America have been derived from the Economist Intelligence Unit (“EIU”), the Chilean Superintendency of Banks and Financial Institutions (*Superintendencia de Bancos e Instituciones Financieras*, or “SBIF”), the Central Bank of Brazil (*Banco Central do Brasil*), the Colombian Financial Superintendency (*Superintendencia Financiera de Colombia*), and the Mexican Commission for Banking and Securities (*Comisión Nacional Bancaria y de Valores*). References in this Annual Report on Form 20-F to the “four largest banks in Peru” or the “four largest Peruvian banks” refer to *Banco de Crédito del Perú* (“BCP”), BBVA Continental, Interbank and Scotiabank Perú S.A.A.

Unless otherwise indicated, statistical information in this Annual Report on Form 20-F relating to our Peruvian subsidiaries Interbank and Interseguro, regarding market share, ranking, and other measures, as well as information on other Peruvian financial institutions and the Peruvian financial system generally, has been derived from reports and information published by the SBS, the SMV, the Central Reserve Bank of Peru, the Association of Peruvian Banks (*Asociación de Bancos del Perú*, or “ASBANC”) or from other publicly available sources and industry publications.

Socioeconomic levels are determined based on the data collected by INEI in their national annual survey *Encuesta Nacional de Hogares* (“ENAHOG”). INEI assigns a score to each household based on their ranking on the following four factors: (i) characteristics of the household living space, (ii) level of living space overcrowding, (iii) level of education of household head and (iv) ownership of durable goods/properties; and then groups them in five socioeconomic segments (A, B, C, D, E).

Other market share information and other statistical information and quantitative statements in this Annual Report on Form 20-F regarding our market position relative to our competitors, except where otherwise indicated, is not based on published statistical data or information obtained from independent third parties. Rather, such information and statements reflect management estimates based upon our internal records and surveys, statistics published by providers of industry data, information published by our competitors, and information published by trade and business organizations and associations and other sources within the industry in which we operate. We have not independently verified any data produced by third parties or industry or general publications, although we believe such data and publications are reliable. In addition, while we believe our internal data and surveys to be reliable, such data and surveys have not been verified by any independent sources.

### **Loan Portfolio Data**

Unless otherwise indicated, references in this Annual Report on Form 20-F to performing loans refer to loans in compliance with their original contractual obligations. References to past-due loans refer to overdue loans defined as follows: commercial loans are considered past-due once amortization payments are 15 days overdue; loans to micro-businesses are considered past-due once amortization payments are 30 days overdue; and in the case of consumer, mortgage and leasing loans, the amortization portion of a coupon is considered past-due once 30 days overdue and the total amount of the loan is considered past-due once an amortization payment is 90 days overdue. For IFRS 7 and IFRS 9 disclosure purposes, the entire loan balance is considered past due when debtors have failed to make a payment when contractually due. Past-due loans do not include refinanced and restructured loans. References to total gross loans include total loans outstanding, including past-due loans, refinanced loans and restructured loans, and references to total net loans refer to gross loans plus accrued interest less allowances for loan losses and deferred interest.

In response to the COVID-19 crisis and with the support and permission of the SBS, Interbank has offered various payment rescheduling options to its clients to help them overcome the major economic shock related to the pandemic and the lockdown measures implemented by the Government. These rescheduling options refer to the following three schemes:

- Unilateral: loans proactively rescheduled by Interbank on a portion of the loan balance, in consideration of the client’s debt burden.
- Landing: loans rescheduled at client’s request on a portion of the loan balance.
- Structural: loans proactively rescheduled by Interbank or at client’s request over the entire loan balance.

The rescheduling of loans can involve modifying payment schedules, granting grace periods, and lowering interest rates, among other measures.

### **Certain Financial Definitions and Conventions**

We present return on assets, or “ROA”, return on equity or “ROE”, net interest margin or “NIM”, risk adjusted net interest margin or “risk adjusted NIM”, cost of risk and efficiency ratio in this Annual Report on Form 20-F. We define our ROA as net profit for the period divided by average total assets; our ROE as net profit for the period divided by average shareholders’ equity; NIM as (x) net interest and similar income divided (y) average interest earning assets; risk adjusted NIM as net interest margin after impairment loss on loans, net of recoveries; Cost of risk is defined as impairment loss on loans, net of recoveries divided by average gross loans. Efficiency ratio as the division of (x) salaries and employee benefits plus administrative expenses plus depreciation and amortization by (y) net interest and similar income plus other income, plus net premiums earned.

We present average balances and nominal average interest rates in this Annual Report on Form 20-F. Except as otherwise indicated, average balances are based on quarterly balances. Nominal average interest rates have been calculated by dividing interest earned on assets or paid on liabilities by the corresponding average balances on such assets or liabilities.

### **Non-GAAP Financial Measures**

In this Annual Report on Form 20-F, we present adjusted net profit, adjusted ROE and adjusted ROA, which are non-GAAP financial measures. A non-IFRS financial measure does not have a standardized meaning prescribed by IFRS. A non-GAAP financial measure is generally defined as a numerical measure of an issuer’s historical or future financial performance, financial position or cash flows that: (i) excludes amounts, or is subject to adjustments that have the effect of excluding amounts, that are included in the most directly comparable measure calculated and presented in accordance with IFRS in the statement of income, balance sheet or statement of cash flows (or equivalent statements) of the issuer; or (ii) includes amounts, or is subject to adjustments that have the effect of including amounts, that are excluded from the most directly comparable measure so calculated and presented.

For the year ended December 31, 2018, we define adjusted net profit as net (loss) / profit for the year plus the effect on our insurance technical reserves of the adoption of new mortality tables published by the SBS through Resolution No. 886-2018 in March, 2018. The Resolution adopts the new Peruvian mortality and morbidity tables to be used in mathematical reserve calculations of pensions. These tables gather updated information and show the recent changes in the life expectancy in Peru. As international actuarial and accounting standards, mortality tables need to be updated on a regular basis with information reflecting the reality of the insured, beginning June 1, 2018, we decided to use these new tables for Interseguro's pension reserve calculation. See Note 14(b) to the audited annual consolidated financial statements. As a result we had a negative impact of S/144.8 million due to the aggregate effect recorded in technical reserves on insurance policies issued prior to the date of adoption of the new mortality tables. We believe that the adoption of further changes to the mortality tables within the next two years is not reasonably likely to occur. We believe that by excluding this effect, supplemental information is provided for our management and investors to analyze our core operating performance on a consistent basis from period to period. The technical reserves calculation is recorded on the income statement in the caption "total net premiums, earned," except for the interest rate effect that is recorded in the other comprehensive income statement in the caption "unrealized results, net". See Note 22 to our audited annual consolidated financial statements.

For the year ended December 31, 2019, we define IFS's adjusted net profit as net profit excluding the financial expense of S/29.0 million after taxes from the execution of a liability management transaction in the banking segment. Likewise, we define Interbank's adjusted net profit as net profit excluding (i) financial expense of S/29.0 million after taxes from the execution of a liability management transaction and (ii) the gain of S/32.4 million after taxes on the sale of Interfondos to Inteligo in the banking segment, which is eliminated upon consolidation. Finally, for our wealth management segment we defined adjusted net profit as net profit excluding financial expense of S/3.8 million related to the amortization of assets acquired as part of the Interfondos discussed above, which is also eliminated upon consolidation. See "Item 4. Information on the Company—Business Overview—Non-GAAP Financial Measures" and "Item 5. Operating and Financial Review and Prospects—Operating Results—Results of Operations for the Year Ended December 31, 2019 Compared to the Year Ended December 31, 2018."

For the year ended December 31, 2020, we define IFS's and Interbank's adjusted net profits as net profits excluding the initial negative impact on interest and similar income from the modification of contractual cash flows due to the loan rescheduling schemes offered to customers affected by the COVID-19 pandemic, which amounted to S/130.4 million after taxes. This initial negative impact on interest and similar income from the modification of contractual cash flows does not consider the positive impact of the recovery over time of any part of such amount, between the date of initial recording and December 31, 2020. See "Item 4. Information on the Company—Business Overview—Non-GAAP Financial Measures" and "Item 5. Operating and Financial Review and Prospects—Operating Results—Results of Operations for the Year Ended December 31, 2020 Compared to the Year Ended December 31, 2019."

Additionally, for each of the years ended December 31, 2020, 2019 and 2018, we define: (i) adjusted ROE as adjusted net profit, divided by average shareholders' equity, and (ii) adjusted ROA as adjusted net profit, divided by average total assets. See "Item 4. Information on the Company—Business Overview—Non-GAAP Financial Measures."

There may be limits in the usefulness of these measures to investors. As a result, we encourage readers to consider the consolidated financial statements and other financial information contained in this Annual Report on Form 20-F in their entirety, and not to rely on any single financial measure.

Not Applicable.

### ITEM 3. KEY INFORMATION

#### A. [RESERVED]

#### B. Capitalization and Indebtedness

Not Applicable.

#### C. Reasons for the Offer and Use of Proceeds

Not Applicable.

#### D. Risk Factors

*An investment in our common shares involves a high degree of risk. In addition to the other information contained in this Annual Report on Form 20-F, holders of our common shares should carefully consider the following risk factors before purchasing our common shares. If any of the possible events described below occurs, our businesses, financial condition, results of operations or prospects could be materially and adversely affected. As a result, the market prices of our common shares could decline and holders of our common shares could lose all or part of their investment. The risks and uncertainties below are those known to us and that we currently believe may materially affect us and our common shares. We may face additional risks and uncertainties not currently known to us or which as of the date of this Annual Report on Form 20-F we might not consider significant, which may also adversely affect our businesses.*

#### Risks Relating to Our Businesses

***We are a holding company and all of our operations are conducted through our subsidiaries. Our ability to pay corporate expenses and to pay dividends, if any, to holders of our common shares will depend on the ability of our subsidiaries to pay dividends and make other distributions to us.***

As a holding company, all of our operations are conducted through our subsidiaries. Accordingly, our ability to pay corporate expenses and to pay dividends, if any, to holders of our common shares, will depend upon our receipt of dividends and other distributions from our subsidiaries.

There are various regulatory restrictions in Peru and other jurisdictions, including as a result of additional preventative regulatory measures imposed to mitigate the effects of the COVID-19 pandemic, that may limit our subsidiaries' ability to pay dividends or make other payments to us, such as their obligations to maintain minimum regulatory capital and minimum liquidity. See "—Global and local health concerns, including in relation to the ongoing COVID-19 pandemic or other outbreaks of pandemics or contagious diseases, may adversely affect our and our subsidiaries' business, financial condition and results of operations".

In addition, our Peruvian subsidiaries pay dividends to us on the basis of the SBS GAAP financial statements, which differ from IFRS, and from which gain/losses from real estate investment are excluded from net income for purposes of dividend payment calculations. For example, Interseguro had a net profit of S/141.1 million under IFRS but of S/256.6 million under SBS GAAP, which resulted in a dividend payment to us of S/200 million in 2020. Therefore, there is no assurance that the differences in accounting treatment will not render the opposite result, namely that lower or no dividends would be payable to us by any of our Peruvian subsidiaries under SBS GAAP than what it would appear to be able to pay under IFRS, or that dividends will continue to be payable under SBS GAAP in the future.

Furthermore, our subsidiaries may incur indebtedness or enter into other arrangements containing terms that may restrict or prohibit the payment of dividends, the making of other distributions, or the making of loans to us. We cannot assure holders of our common shares that the agreements governing the future indebtedness of our subsidiaries will permit them to provide us with sufficient dividends, distributions or the making of loans to fund dividend payments.

To the extent our subsidiaries do not have funds available or are otherwise restricted from paying dividends to us, our ability to pay dividends to our shareholders will be adversely affected.

***As a holding company, our right to receive any distribution of assets of our subsidiaries will be effectively subordinated to the rights of our subsidiaries' creditors, and holders of our common shares may have limited recourse against our subsidiaries' assets in case of our liquidation.***

As a holding company, our right to receive any distribution of assets of our subsidiaries upon any subsidiary's liquidation or reorganization or otherwise will be subject to the prior claims of creditors of that subsidiary, except to the extent that any claims by us as a creditor of such subsidiary may be recognized as such. Accordingly, holders of our common shares will have rights that will effectively be subordinated to all existing and future indebtedness of our subsidiaries, and, in the event of any claim against us, our shareholders may have recourse only against our assets, and not those of our subsidiaries, for payments. The only significant assets that we currently hold are our equity interests in our subsidiaries.

***Global and local health concerns, including in relation to the ongoing COVID-19 pandemic or other outbreaks of pandemics or contagious diseases, may adversely affect our and our subsidiaries' business, financial condition and results of operations.***

Global and local health concerns, including the outbreak of pandemics or contagious diseases including the ongoing COVID-19 pandemic, may disrupt economic activity and adversely affect us. In particular, the COVID-19 pandemic has and may continue to adversely affect our and our subsidiaries' business, financial condition and results of operations. The business of our subsidiaries is dependent upon the willingness and ability of their customers to conduct banking and other financial transactions. The spread of COVID-19 has caused severe disruptions in the world economy, which has and continues to disrupt the business, activities, and operations of the customers of our subsidiaries, as well as their business and operations. The extent to which COVID-19 affects our and our subsidiaries' results will depend on future developments, which are highly uncertain and cannot be predicted, particularly in light of new information which may emerge concerning virus mutations, vaccine efficacy, infection rates, and additional government COVID-19 response measures, among others.

In order to contain the spread of COVID-19 in Peru, the Peruvian government announced and implemented several measures during 2020 such as declaring a state of emergency and ordering a mandatory lockdown and the total closure of Peru's borders, while guaranteeing access to essential goods and services, including banking and financial services, pharmacies, food stores and markets, among others. As a result of these measures, the business operations of our subsidiaries were disrupted as a significant portion of their offices and financial stores were closed temporarily. While these initial restrictions were lifted in connection with the Peruvian government's phased approach to re-opening the economy, we can offer no assurance that they will not be re-imposed, and changes in existing regulations or implementation of future regulations in response to the spread of COVID-19 may further restrict their existing operations, limit the expansion of their business and require extensive system and operating changes that may be difficult or costly for them to implement. For example, because of the emergence of new variants of the COVID-19 virus, beginning on January 4, 2021, the Peruvian government implemented mandatory quarantine procedures and as of January 15, 2021, new measures aimed at containing the spread of COVID-19 came into effect given the spike in cases throughout the country. See "Regulation and Supervision—COVID-19 Response." Furthermore, continued spread of COVID-19 and additional government restrictions in response to such outbreaks could also negatively impact the business and operations of third-party service providers who perform critical services for their business.

Moreover, the COVID-19 pandemic has caused significant disruption and volatility in the financial markets globally, causing equity levels to fluctuate sharply, which may continue to worsen in the future. The global spread of COVID-19 has and may continue to result in a significant decrease in business activities. The COVID-19 pandemic has also resulted in increased volatility in both the local and the international financial markets and economic indicators, such as exchange rates, interest rates, credit spreads and commodity prices.

COVID-19 has generated a simultaneous shock on supply and demand – a supply shock resulting from the abrupt paralysis of production in multiple sectors and a demand shock as a result of reduced consumption – which amplifies the negative effects on the economy. Further shocks or unexpected movements in these market factors could result in financial losses. Moreover, the current COVID-19 pandemic and its potential impact on the global economy may affect our ability to meet our financial targets. While the business of most of our subsidiaries, except for Interbank, has returned to profitability in the months following the initial outbreak of COVID-19, we have been materially adversely affected by the protracted downturn in local, regional or global economic conditions. As a result, certain of our subsidiaries adopted measures to ensure we meet our minimum capital objectives, such as Interbank's strengthening of its capitalization to weather the unprecedented economic impact caused by the COVID-19 pandemic by (i) increasing the capitalization ratio of its 2019 earnings from 55% to 75% and fully capitalizing its earnings for the three months ended March 31, 2020 and (ii) issuing a U.S.\$300 million subordinated bond due in 2030 with a call option in 2025. These actions or measures may result in material adverse effects on our business, results of operations or strategic plans and targets, the prices of or our ability to make payments on our securities.

As a result of the economic impact of the pandemic, in addition to public health measures, the Peruvian government has also announced the adoption of other measures to generate monetary and fiscal stimulus and alleviate the financial stress on households and companies. Measures such as loan rescheduling and the allowance for partial withdrawals from CTS accounts may impact our interest income and our funding base, respectively. In addition, the cumulative impact of such government relief measures in response to COVID-19 may materially impact various line items in our financial statements such as those relating to loan and deposits growth, net interest income, impairment loss on financial assets, net income from commissions and fees, gross profit from sales of goods and services, net trading income, among others, as result our overall business, financial condition and results of operations may be materially and adversely impacted.

If such measures fail to achieve their intended results, our customers may be unable to meet existing payment or other obligations to us, as well as result in the filing and granting of insurance claims under insurance policies approved by Interseguro, all of which could materially and adversely affect our business, financial condition and results of operations. We cannot predict whether and to what extent new or changes to laws and regulations that affect our subsidiaries' business will be adopted in response to the COVID-19 outbreak or other pandemics and what effect such laws and regulations would have on our revenue sources and hence on our financial condition and results of operations.

To the extent the COVID-19 pandemic adversely affects our business and financial results, it may also have the effect of heightening many of the other risks described in this "Item 3. Key Information—Risk Factors" section, such as those relating to interest rate changes, economic, social and political developments in Peru, the market volatility generated by distortions in the international financial markets, cybersecurity, etc.

***Our subsidiaries are subject to extensive regulation and supervision, and changes in existing regulations or the implementation of future regulations may have a material adverse effect on our financial condition and results of operations.***

Interbank and Interseguro are subject to extensive regulation and supervision by the SBS. The SBS also oversees all of Interbank's and Interseguro's subsidiaries and their operations. Interbank is also subject to regulation and oversight by the Central Reserve Bank of Peru, which, together with the SBS, have general administrative responsibilities over banks and other financial institutions, including the authority to set loan loss provisions, limits on fees, regulatory capital requirements and other minimum capital adequacy and reserve requirements. In addition, banks are required to provide the SBS, on a periodic basis, with all information necessary to allow for its evaluation of the bank's financial performance. Similarly, insurance companies are required to periodically provide the SBS, with all information necessary for the SBS to evaluate the company's management, measure systems, solvency, profitability and liquidity.

Similarly, Inteligo's subsidiaries are regulated by governmental entities and other financial services regulators in The Bahamas, Panama and Peru. Inteligo Bank is subject to the regulation and supervision of the Central Bank of The Bahamas. Additionally, Inteligo Bank's asset management activities and securities custody and trading activities are subject to supervision by the Securities Commission of The Bahamas. Inteligo Bank holds licenses from the Securities Commission of The Bahamas for dealing in securities as agent or principal, arranging deals, managing securities and advising on securities. Inteligo Bank is licensed to undertake all securities-related activities ancillary to its banking business. Inteligo Bank and its branch are subject to regulation by the Superintendency of Banks of Panama (*Superintendencia de Bancos de Panamá*), while Inteligo SAB and Interfondos are subject to the regulation and supervision of the SMV in Peru. Also, Interbank and Interseguro are subject to the regulations of the SMV. In addition, IFS, Interbank, Interseguro, Inteligo Bank and Inteligo SAB are subject to other regulations, such as the U.S. Foreign Account Tax Compliance Act (FATCA), which could increase compliance costs and, in case of non-compliance could result in liability, additional costs or sanctions imposed by the U.S. Internal Revenue Service.

Changes in the regulation and supervision of Interbank, Interseguro and Inteligo or the implementation of future regulations could have a material adverse effect on our financial condition and results of operations by restricting our existing operations, limiting the expansion of our business and requiring extensive system and operating changes that may be difficult or costly to implement. For example, the SBS and the Central Reserve Bank of Peru regulate, and have in the past changed, capital structure and deposit reserve requirements, interest paid on deposit reserves, the amount of deposit reserves for which no interest is payable, rules regarding provisions for loan losses and legal lending limits applicable to Peruvian commercial banks. In addition, Interbank could be subject to limits on fees or commissions charged to clients. If legislation or governmental or regulatory action is enacted limiting the amount of ATM fees or surcharges that Interbank may receive or on its ability to charge overdraft or other fees, it could adversely impact our financial results. Furthermore, Interbank could be required to increase its level of provisions in response to pro-cyclical provisioning requirements that could be activated by regulators under certain favorable macroeconomic conditions. Additional changes in the regulation and supervision of our subsidiaries have been imposed as a result of the COVID-19 pandemic. For example, the Central Reserve Bank of Peru took several measures, such as reducing the reference interest rate by 200 basis points from 2.25% to 0.25% and approving a new liquidity instrument to provide funds to financial entities, consisting of repurchase operations using Peruvian government guaranteed loans as collateral, which could affect our results of operations. Moreover, in March 2021, the Peruvian Congress approved a bill under which (i) the Central Reserve Bank of Peru will semi-annually establish caps on compensatory and moratorium interest rates that banks can charge to consumers and small businesses, and (ii) in cases of default, the debtor shall only

pay interest which may not be capitalized and may not be charged with commissions or additional expenses. The executive branch of the Peruvian government has made public its intention to challenge the bill before the Peruvian Supreme Court. However, if the bill goes into effect, such new law could have a material adverse effect on our business, financial condition and results of operations. See “—Global and local health concerns, including in relation to the ongoing COVID-19 pandemic or other outbreaks of pandemics or contagious diseases, may adversely affect our and our subsidiaries’ business, financial condition and results of operations”.

Since 1998, Interseguro has been subjected to strict local regulations that required significant changes in reserve requirements. For example, in March 2018, changes by the SBS to mortality tables used for calculating reserves for new annuities resulted in a higher reserve requirement, which in turn could adversely affect Interseguro’s results of operations, or could result in lowered implied interest rates on Interseguro’s annuities. For further information, see Note 3.4(d) to our audited annual consolidated financial statements. New legislation or regulations applicable to the insurance industry may adversely affect Interseguro’s ability to underwrite and price risks accurately as well as affect its revenues and net income. For example, whereas retirees formerly had to choose between remaining with their pension fund or choosing an annuity, since 2016 a law has allowed retirees to withdraw 95.5% of their capital accumulated in cash upon retirement, which has resulted in a significant reduction of annuities sold by Peruvian insurance companies, including Interseguro. In addition, the SBS may change the types of and limits on eligible investments, which could force Interseguro to liquidate current investments on less favorable terms than if they were held to maturity and restrict Interseguro from making investments that its management deems to be beneficial. Additional regulations affecting pension funds have been put in place by the Peruvian government as part of the response to the COVID-19 pandemic, including measures permitting extraordinary withdrawals of funds from the private pension system. In addition, the Peruvian government permitted companies to suspend employee contracts without pay in certain cases until the end of the COVID-19 pandemic, which caused these companies to stop making the corresponding monthly contribution to the pension funds of their worker, affecting the private pension system.

The Bahamas has enacted the Commercial Entities (Substance Requirements) Act, 2018 which requires substantial economic presence in The Bahamas for certain Bahamian entities that conduct relevant activities. A relevant activity includes the business of banking as conducted by Inteligo Bank. Inteligo Bank has made the appropriate registration in order to seek exemption from this legislation as it considers itself to be tax resident in another jurisdiction, Panama, despite being a licensed bank in The Bahamas. As a tax resident in Panama, Inteligo Bank is exempt from the requirements of the Commercial Entities (Substance Requirements) Act, 2018 if it fulfills certain disclosure and governance requirements of the applicable legislation. If Inteligo Bank is not considered to be tax resident in Panama or does not fulfill the requirements of the applicable legislation, it would have to enhance its economic and business presence in The Bahamas in order to comply with the Commercial Entities (Substance Requirements) Act, 2018.

We cannot predict whether and to what extent new laws and regulations, or changes to existing laws and regulations, affecting our subsidiaries’ business will be adopted in the future, the timing of any such adoption and what effect such events would have on our financial condition and results of operations.

***The operations of our subsidiaries require the maintenance of banking, insurance and other licenses and any non-compliance with applicable license and operating obligations could have a material adverse effect on our business, financial condition and results of operations.***

All banks and insurance companies established in Peru require certain authorizations issued by the SBS in order to operate in Peru. In addition, all brokerage firms operating in Peru require certain authorizations issued by the SMV in order to operate in Peru. In The Bahamas and Panama, all banks require a license to operate. Governmental authorities, such as the SBS or the Central Reserve Bank of Peru, the Central Bank of The Bahamas, or the Superintendency of Banks of Panama, have general administrative responsibilities over banks and other financial institutions, including authority to set loan loss provisions, limits on fees, regulatory capital requirements and other minimum capital adequacy and reserve requirements. In addition, banks are generally required to provide the relevant banking supervisory agency, on a periodic basis, with all information that is necessary to allow for its evaluation of a bank’s financial performance. Insurance companies are regulated and supervised by the SBS which has the ability, among other things, to set reserve requirements for insurance companies. Similarly, the SMV and the Securities Commission of the Bahamas have general administrative responsibilities over brokerage firms, including the authority to set minimum capital requirements.

Our subsidiaries currently have the required licenses in order to conduct their operations in their corresponding jurisdictions for all of their operations. Although we believe our subsidiaries are currently in compliance with their respective existing material license and reporting obligations, there is no assurance that our subsidiaries will be able to maintain the necessary licenses in the future. We can offer no assurance that future changes to existing laws and regulations, or stricter interpretation or enforcement of existing laws and regulations, will not impair our ability to comply with such laws and regulations and thus with the terms of our licenses.

The loss of a license, a breach of the terms of a license by any of our subsidiaries or the failure to obtain any further required licenses in the future could have a material adverse effect on our business, financial condition and results of operations. If any of our subsidiaries loses its licenses or is required to seek additional licenses, then such subsidiary will be unable to perform its operations as it is currently authorized.

***Under certain circumstances, the SBS, the SMV, the Superintendency of Banks of Panama or the Central Bank of The Bahamas, as applicable, may intervene in our subsidiaries' operations in order to prevent, control and reduce the effects of a failure of our operations.***

Under the Peruvian Banking and Insurance Law and the regulations thereunder, the SBS may intervene in Interbank's and Interseguro's operations upon the occurrence of any of the following events:

- Interbank or Interseguro suspends payment of its obligations or is unable to pay its obligations as they come due;
- Interbank or Interseguro breaches any of their respective commitments to the SBS under a surveillance regime imposed by the SBS;
- Interbank's regulatory capital is less than 50% of the minimum regulatory capital required under the Peruvian Banking and Insurance Law;
- Interbank or Interseguro experiences a deficit or reduction of more than 50% of its regulatory capital during the preceding 12-month period; or
- Interseguro experiences a deficit or reduction of the regulatory capital of more than 50% of its solvency equity.

In the event of an intervention, the SBS has the power to institute measures, such as limiting the decisions that could be taken at a shareholders' meeting, suspending our normal activities and segregating certain of Interbank's or Interseguro's assets and liabilities for transfer to third parties, among others. Furthermore, the SBS has the power under the Peruvian Banking and Insurance Law to declare the wind-up or liquidation of any bank or insurance company if an intervention extends for longer than 45 days, which period may be extended for another 45 days at the sole discretion of the SBS, and/or upon the occurrence of a wind-up or liquidation pursuant to the Peruvian General Corporations Law (*Ley General de Sociedades*).

Under Peruvian capital markets law and the regulations thereunder, the SMV may revoke the license of Inteligo SAB and/or Interfondos, among others, upon the occurrence of (i) significant irregularities that put the companies at risk to carry out their operations as permitted by law or (ii) significant violations of the law, statutes and regulations promulgated by the SMV.

Under Bahamian banking regulations, the Central Bank of The Bahamas may intervene in Inteligo Bank's operations upon the occurrence of any of the following events:

- Inteligo Bank carries on its business in a manner detrimental to the public interest or the interests of its depositors or other creditors; or
- Inteligo Bank contravenes the provisions of Bahamian banking law or any other law, order or regulation made thereunder, or any term or condition subject to which its license was issued, either in The Bahamas or elsewhere.

In addition, under Bahamian securities laws and regulations, the Securities Commission of the Bahamas may revoke Inteligo Bank's registration and license to deal in securities, arrange deals, manage securities and/or advise on securities for noncompliance with laws and regulations.

Under Law Decree 9 of 1998, as amended, the Superintendency of Banks of Panama may seize administrative and operating control of the branch of Inteligo Bank in Panama, based on any of the following grounds:

- upon a reasoned request of Inteligo Bank itself;
- if Inteligo Bank cannot continue operations without endangering the interests of the depositors;
- as a consequence of the evaluation of the report submitted by an appointed advisor;
- non-compliance with the corrective measures ordered by the Superintendency of Banks of Panama;
- if Inteligo Bank carries out its operations in an illegal, negligent or fraudulent manner;
- if Inteligo Bank has suspended payment on its obligations; or
- if the Superintendency of Banks of Panama confirms that the capital adequacy, solvency or liquidity of Inteligo Bank has deteriorated so as to require action by the Superintendency of Banks of Panama.

***The adoption of new international banking and insurance guidelines may cause our subsidiaries to require additional capital and could cause their cost of funds to increase, which could have a material adverse effect on our financial condition and results of operations.***

In December 2009, the Basel Committee announced its intention to issue a new framework related to the regulation, supervision and risk management of the banking industry. This was followed by an agreement reached in June 2011 regarding the overall design of the capital and liquidity reform package (now referred to as “Basel III”). This new capital framework revises and strengthens the three pillars established by Basel II.

In July 2011, the SBS issued SBS Resolution No. 8425-2011 (as amended from time to time), establishing the final methodologies in the calculation and the implementation schedule of the additional capital requirements to be implemented in Peru, which, although not completely consistent with Basel III, includes requirements to cover concentration, interest rate and systemic risk, as well as certain pro-cyclical capital requirements. These additional requirements were fully implemented in July 2016. As of the date of this Annual Report on Form 20-F, we are fully compliant with these additional capital requirements.

In February 2016, the SBS issued Resolution No. 975-2016 (as amended from time to time), which aims to improve the quality of the total regulatory capital (*patrimonio efectivo*) and align Peruvian regulations towards Basel III. This resolution changed the conditions that subordinated debt must meet in order to be considered in the calculation of additional capital and the calculation methodology applicable to risk-weighted assets. This resolution is applicable to subordinated debt incurred or created from the date of its approval. However, as established in this regulation, subordinated debt incurred or created prior to its approval (and which does not meet the requirements of this new regulation) will still be considered in the calculation of regulatory capital, subject to certain rules specified therein. For further details, see “—Regulation and Supervision—The Peruvian Financial and Insurance Systems”.

Interbank expects to continue to be in compliance with these additional capital requirements; however, Interbank’s assumptions with respect to compliance may turn out to be incorrect, and, consequently, have a material adverse effect on its financial condition and results of operations. In addition, the complete adoption of the new Basel III framework may have a material adverse effect on Interbank’s financial condition and results of operations.

With respect to Interseguro, Solvency II, a new regulatory framework for the European insurance industry implemented in early 2016, is under consideration by international regulatory bodies, which could result in the SBS raising solvency ratio requirements for insurance companies in Peru in the future.

With respect to Inteligo Bank, The Bahamas currently adheres to Basel I, and has effectively implemented Pillar I and Pillar II of the Basel II framework. The Pillar I framework focuses on the capital adequacy ratio requirements and Pillar II focuses on the ICAAP (the guidelines in relation to the ICAAP were released in August 2016). In 2016, the Central Bank of The Bahamas rolled out the capital component of the Basel III framework. The Central Bank of The Bahamas has published the Second Round of Industry Consultation on The Draft Bahamas Capital Regulations, 2020, which would alter the requirements and composition of accepted regulatory capital for Bahamian licensed banks. If implemented in its current form, the new framework could require Inteligo Bank to make revisions to its capital structure and investments which could have an adverse effect on the profitability of Inteligo Bank.

Furthermore, in 2018, the Central Bank of The Bahamas published two discussion papers focused on Minimum Disclosures (Pillar III of the Basel II framework), the Net Stable Funding Ratio and the Liquidity Coverage Ratio (main components of Basel III). In 2019, the Central Bank of The Bahamas informed through its quarterly letter that the Basel III implementation timeline with respect to these ratios was deferred to 2021.

We cannot assess the compliance with, or the completion, or the implementation of, the above-mentioned requirements and the impact of any such requirements in the future on our financial condition or results of operations.

***Our controlling shareholder, Intercorp Peru, is subject to capital requirements imposed by the SBS, and Intercorp Peru’s failure to comply with these requirements could have a material adverse effect on our financial condition and results of operations.***

The SBS has established minimum capital requirements for financial services holding companies on a fully consolidated basis, which the SBS evaluates on an annual basis. As a result of its direct and indirect equity interest in Interbank and Interseguro, our controlling shareholder, Intercorp Peru, is subject to these minimum capital requirements. Intercorp Peru owns other businesses in addition to ours, and financial information relating to both our business and those other businesses is used to determine compliance with the minimum capital requirements.

According to Peruvian regulations, the subsidiaries directly and indirectly owned by Intercorp Peru qualify as a mixed conglomerate in which three different groups are identified: (i) consolidable group of the financial system; (ii) consolidable group of the insurance system; and (iii) financial group. Pursuant to Peruvian regulations, Intercorp Peru must maintain a higher regulatory capital requirement than the regulatory capital requirements for its groups.

If Intercorp Peru fails to comply with these requirements, the SBS may request Intercorp Peru to take certain corrective actions to ensure compliance. If Intercorp Peru fails to take such actions, the SBS could suspend or revoke Interbank's and Interseguro's licenses to operate in Peru, which would have a material adverse effect on our financial condition and results of operations.

***Our subsidiaries face intense competition from other banking, insurance and financial institutions, and from other players including providers of emerging financial technologies and failure to compete successfully could have a material adverse effect on our financial condition and results of operations.***

The banking market in Peru is highly competitive. Interbank has experienced strong competition from local and foreign banks, including new entrants attracted by Peru's low banking penetration, as well as from department stores that offer credit cards, from emerging financial technology companies that offer digital banking and other services both on a regulated and unregulated basis, and from the local and international capital markets that lend to commercial customers. Competition may reduce the average interest rates that Interbank can charge its customers, increase the average rates Interbank must pay on its deposits, and may negatively affect its loan growth and place pressure on margins. Some of Interbank's competitors may have access to greater resources and be more successful in the development of products and services that compete directly with Interbank's products and services. If Interbank's competitors are successful in developing products and services that are more effective or less expensive than the products and services offered by it, Interbank may be unable to compete successfully. Even if Interbank's products and services prove to be more effective than those developed by other competitors, such other competitors may be more successful in marketing their products and services because of their greater financial resources or marketing strategies, among other factors. Interbank may not be able to grow or maintain its market share if it is not able to match its competitors' pricing or keep pace with their development of new products, services and technological innovation and developments.

The Peruvian insurance market, particularly the annuity and life insurance sectors, is also highly competitive. Interseguro's principal competitors are large insurance companies that may have greater resources and offer a wider range of products. These insurance companies may have better access to independent brokers who sell insurance to customers. In addition, Interseguro may also face competition from private pension funds (AFPs), which could in the future be allowed to offer annuities. Moreover, under the private pension system, upon retirement, retirees have the option of choosing to remain with their pension fund, choose an annuity or, since 2016, withdraw 95.5% of their capital accumulated in cash, which potentially reduces demand for Interseguro's annuities. Any adverse impact on Interseguro resulting from increased competition, as well as a reform of the private pension system, could have a material adverse effect on our financial condition and results of operations.

Similarly, if Inteligo Bank's competitors are successful in developing products and services that are more effective or less expensive than the products and services offered by Inteligo Bank, it may be unable to compete successfully. Even if Inteligo Bank's products and services prove to be more effective than those developed by other competitors, such other competitors may be more successful in marketing their products and services because of their greater financial resources or marketing strategies, and other factors. Competitors may also dedicate greater resources to, and be more successful in, the development of products and services that may compete directly with Inteligo Bank's products and services. Inteligo Bank competes in a global market for wealth management services, including wealth management divisions of global banks. Such competition would adversely affect the acceptance of Inteligo Bank's products and/or lead to adverse changes in the investing habits of Inteligo Bank's customer base. Inteligo Bank may not be able to grow or maintain its market share if it is not able to keep pace with its competitors' development of new products and services. Any adverse impact on Inteligo Bank resulting from increased competition could have a material adverse effect on our financial condition and results of operations.

***Our failure to effectively anticipate or adapt to emerging technologies or changes in customer behavior could have a material adverse effect on our financial conditions and results of operations.***

Our failure to effectively anticipate or adapt to emerging technologies or changes in customer behavior, including among younger customers, could delay or prevent our access to new digital-based markets. Furthermore, the widespread adoption of new technologies, including payment systems, could require substantial expenditures to modify or adapt our existing products and services as we continue to grow our digital capabilities. Our customers may choose to conduct business or offer products on alternative or emerging platforms. Such new technologies could negatively impact our investments in bank premises, equipment and personnel for our branch network, or if we do not properly anticipate trends, render our existing investments in our digital platform moot. If we fail to adapt quickly, or at all, to changes in technologies or changes in customer behavior, it may have an adverse impact on Interbank resulting from increased competition, which could have a material adverse effect on our financial condition and results of operations.

***The banking and insurance markets are exposed to macroeconomic shocks that may negatively impact household income and, consequently, could have a material adverse effect on our financial condition and results of operations.***

Interbank's strategy is to focus on the retail and commercial banking sectors and to grow and gain market share profitably. As a result, Interbank's loan portfolio will become increasingly vulnerable to macroeconomic shocks that could negatively impact the

household income of Interbank's customers and result in increased loan losses. Furthermore, because the penetration of bank lending products in the Peruvian retail sector has been historically low, there is no basis on which to evaluate how the retail sector will perform in the event of an economic crisis, such as a recession or a significant devaluation of the *sol*, and Interbank's historical loan loss experience may not be indicative of the performance of its loan portfolio in the future. In addition, our commercial clients could be negatively affected by global and local macroeconomic trends. For example in past years, our provisions for loan losses, in particular related to credit cards granted to certain vulnerable sectors of the Peruvian economy, have significantly increased during slowdowns of the Peruvian economy. Additionally, in part due to the de-dollarization policy sponsored by the Peruvian government there is a mismatch between our dollar denominated deposits and *sol* denominated loans. See "Item 5. Operating and Financial Review and Prospects—Depreciation and Appreciation of the *Sol*".

In the event of a macroeconomic shock, the value of Interseguro's investments may also suffer losses, including in its investment property. In addition, the amount of savings available to potential annuity holders may be negatively impacted by unemployment or a decline in wages. A macroeconomic shock may also negatively impact wealth generation in Peru and, in turn, impact the demand for our wealth management services.

***Prior to the impact of the COVID-19 pandemic, loans, deposits and profits at our banking subsidiaries had all experienced substantial growth, benefitting from growth in the Peruvian economy. We may not be able to resume strong levels of growth in the future.***

Prior to the impact of the COVID-19 pandemic, we had experienced significant growth over the prior 10 years and loans, deposits and profits at our banking subsidiaries had all experienced substantial growth. We may not be able to resume growing strongly or at all in the future due to factors beyond our control, in particular considering the economic shocks triggered by the COVID-19 pandemic and the resulting damage to the Peruvian economy, which could have a material adverse effect on our financial condition and results of operations.

***We could sustain losses if Interbank's asset quality declines.***

Our earnings are significantly affected by Interbank's ability to properly originate, underwrite and service loans. We could sustain losses if Interbank incorrectly assesses the creditworthiness of its borrowers or fails to detect or respond to deterioration in asset quality in a timely manner. Problems with asset quality could cause our net interest and similar income to decrease and our provisions for loan losses to increase, which could adversely affect our financial condition and results of operations. More recently, the ongoing COVID-19 pandemic may affect Interbank's ability to accurately assess the creditworthiness of its borrowers, which would lead to a deterioration of risk profile and adversely affect our business, financial condition and results of operations.

***Reduced diversification in Interbank's loan portfolio could have a material adverse effect on our financial condition and results of operations.***

While loan portfolio risk associated with lending to certain economic sectors or clients in certain market segments can be mitigated through adequate diversification policies, Interbank's pursuit of opportunities in which it can charge higher interest rates may reduce diversification of the loan portfolio and expose Interbank to greater credit risk. Reduced diversification could expose Interbank to greater risks in the event of a decline in asset quality. In addition, given the relatively small size of the Peruvian economy, Interbank's lending diversification is by necessity lower than that of banks with operations in larger economies. Moreover, certain concentrations of borrowers' commercial sectors may be unavoidable in Peru—principally the natural resources, fishing, agriculture and mining sectors—and deteriorations in such sectors could have a material adverse effect on Interbank's deposits, loan performance and other businesses.

Furthermore, as of December 31, 2020 and December 31, 2019, retail banking loans accounted for approximately 46.4% and 55.4% of Interbank's loan portfolio, respectively. Higher than average exposure to retail banking could be accompanied by greater credit risk due to higher risk profiles compared, particularly, to loans to large corporate customers. Given the significant recent growth of Interbank's loan portfolio, historical loss experience may not be indicative of future doubtful loan experience. Moreover, since the ongoing COVID-19 pandemic is impacting Interbank's retail and commercial clients, we expect our risk profile to deteriorate, which would adversely affect our business, financial condition and results of operations.

***The allowances of Interbank for impairment losses may not be adequate to cover the future losses to its loan portfolio or other assets, which could have a material adverse effect on our financial condition and results of operations.***

Interbank records allowances for impairment losses on loans and other assets. The amount of allowances recorded is based on Interbank's current assessment of and expectations concerning various factors affecting the quality of its loan portfolio. These factors include, among other things, Interbank's borrowers' financial condition, repayment abilities and repayment intentions, the realizable value of any collateral, the prospects for support from any guarantor, Peru's economy, government macroeconomic policies, interest rates and the legal and regulatory environment. Many of these factors are beyond Interbank's control. In addition, as these factors evolve, the models Interbank uses to determine the appropriate level of allowance for impairment losses on loans and other assets may require recalibration, which can lead to increased allowances.

Allowances for impairment losses on loans have significantly increased as a result of the risks and uncertainties associated with the impact of the COVID-19 pandemic, which has resulted in increased monitoring of those loans that have been rescheduled. Interbank applied several post-model adjustments for these loan exposures, such as proactive migration of certain clients from Stage 1 to Stage 2, and from Stage 2 to Stage 3, with the aim of more accurately predicting expected credit losses in 2020. See “Selected Statistical Information—Classification of Our Loan Portfolio.” If Interbank’s assessment of and expectations concerning the above-mentioned factors differ from actual developments, or if the quality of its loan portfolio deteriorates or the future actual losses exceed its estimates, Interbank’s allowance for impairment losses may not be adequate to cover actual losses and it may need to make additional allowances for impairment losses, which could have a material adverse effect on our financial condition and results of operations.

***Our financial results may be negatively affected by changes to IFRS accounting standards.***

We report our results and financial position in accordance with IFRS as issued by the IASB. Changes to IFRS thereof may cause our future reported results and financial position to differ from current expectations, or historical results to differ from those previously reported due to the adoption of new accounting standards on a retrospective basis. We monitor potential accounting changes and, when possible, we determine their potential impact and disclose significant future changes in our financial statements that we expect as a result of those changes. Currently, there are standards issued but not yet effective such as IFRS 17 “Insurance Contracts”, which will impact our consolidated financial statements. IFRS 17 “Insurance Contracts”, which will go into effect on January 1, 2023, provides a comprehensive accounting model for all types of insurance contracts that provides a more consistent framework for insurers, covering all relevant aspects as recognition, measurement, presentation and disclosures, whereas the requirements in IFRS 4 are largely based on grandfathering local accounting policies. We are currently monitoring and evaluating but have not yet determined the potential impact that IFRS 17 may on financial statements or results of operations. For further information on IFRS 17, see Note 3.5 to our audited annual consolidated financial statements.

IFRS 16 “Leases” which became effective on January 1, 2019, established that at the commencement date of a lease, a lessee recognizes a liability to reflect lease payments and the asset that represents the right-of-use of the underlying leased asset during the lease term is recorded. Lessees are required to separately recognize the interest expense on the lease liability and the depreciation expense on the right-of-use asset. As permitted by the transitional provisions of IFRS 16, we elected to apply the modified retrospective approach and we have not restated comparative figures. Under this method, we recognized lease liabilities for an amount equivalent to the present value of future payments agreed as of January 1, 2019. The effect of the adoption of IFRS 16 as of January 1, 2019 amounted to S/341.7 million, increasing the caption “Property, furniture and equipment (Right-of-use assets)” and simultaneously, for the same amount, the caption “Accounts payable, provisions and other liabilities (Lease liabilities)”. The adoption of IFRS 16 had no impact on the consolidated statements of changes in equity as of January 1, 2019. For the year ended December 31, 2020, we recorded S/15.3 million as interest expense on the lease liabilities and S/65.8 million as depreciation expense on a right-of-use asset, which were recorded in captions “interest and similar expense” and “depreciation and amortization”. Likewise, for the year ended December 31, 2019, we recorded S/16.6 million as interest expense on the lease liabilities and S/73.7 million as depreciation expense on a right-of-use asset. See Notes 19 and 8, respectively, of the audited annual consolidated financial statements.

***Our financial results may be negatively affected by investment losses.***

The investment activities of our subsidiaries are subject to factors beyond their control, and losses from their exposures could result in a material adverse effect on our financial condition and results of operations.

As part of its treasury operations, Interbank trades various financial instruments and other assets, including debt, equity, fixed income, currency and related derivatives, as both agent and principal, and derives a proportion of its non-financial income from trading profits. Interbank has established position limits for *sol* and foreign currency-denominated securities in accordance with its overall risk management policy and with the SBS requirements. However, Interbank is exposed to numerous factors that are beyond its control, including overall market trading activity, interest rate levels, the credit risk of its counterparties and general market volatility. For example, the COVID-19 pandemic increased the volatility of our investment portfolio, especially during March 2020. In addition, a significant part of Interbank’s trading is related to customer transactions, and Interbank could be exposed to a number of risks related to the movement of market prices in the underlying instruments, including the risk of unfavorable market price movements relative to its long or short positions, a decline in the market liquidity of the related instruments, volatility in market prices, interest rates or foreign currency exchange rates relating to these positions, and the risk that the instruments with which Interbank chooses to hedge certain positions do not track the fair value of those positions. If Interbank incurs any losses from these exposures, it could reduce Interbank’s trading profits or cause it to suffer losses from trading activities, either of which could have a material adverse effect on our financial condition and results of operations.

Inteligo Bank is exposed to similar investment and trading risks as Interbank.

Interseguro is exposed to the risk of a decrease in the value of its investments due to volatility in market conditions, real estate prices, equity values and interest rates, among other factors, many of which are beyond Interseguro's control. In addition, as a holder of a large portfolio of debt investments and fixed income securities, Interseguro is exposed to the risk that the issuers of its fixed income securities may default.

Furthermore, in all of our segments, our investments may be subject to impairment, due to mark-to-market which could cause volatility in our financial condition and results of operations.

***Interest rate changes could have a material adverse effect on our financial condition and results of operations.***

Interbank's and Inteligo's financial condition and results of operations depend to a large extent on their financial margin, which in turn depends on their ability to charge interest on interest-earning assets, such as loans to customers, that is higher than the interest they pay on interest-bearing liabilities, such as deposits. Changes in interest rates, could influence not only the interest we receive on loans and securities and the amount of interest we pay on deposits and borrowings, but such changes could also adversely affect our ability to originate loans and obtain deposits. We cannot control or predict with certainty changes in interest rates since market interest rates are sensitive to many factors beyond our control, including the interest rate policies of the Central Reserve Bank of Peru and the U.S. Federal Reserve. It is unclear whether interest rates on U.S. dollar or *soles* denominated debt will rise in the future or whether increases in market interest rates in Peru could require Interbank or Inteligo to increase the interest rates they pay on deposits. If Interbank or Inteligo were unable to implement commensurate and timely increases in interest rates on loans they originate, their margins would decline. As a result of the COVID-19 pandemic, the Central Reserve Bank of Peru took several measures, such as reducing the reference interest rate by 200 basis points from 2.25% to 0.25%. In addition, recent concerns regarding low interest rates generally and potential negative interest rates may negatively affect Interbank's and Inteligo's net interest income, which may have an adverse impact on their profitability. A continued or protracted period of low interest rates, or a move to negative interest rates, could result in lower revenue, and maintain or increase pressure on net-interest income, which may materially and adversely affect our results of operations.

Interbank's primary sources of funds are retail deposits with no specific or contractual maturity, and a substantial portion of the loans it originates have a longer term. The difference in maturities between deposits and loans could magnify the effect of any interest rate mismatch, as well as pose a liquidity risk if Interbank were not able to obtain funding as its liabilities mature.

Interseguro faces interest rate risk as a result of the potential variation in interest rates when it reinvests debt instruments to cover its obligations. Interseguro may reinvest when the term of its investments differs from that of its obligations. Interseguro tries to match the cash flows of its obligations with the maturities of its portfolio, but the shortage of instruments with the appropriate maturity profile may result in mismatches with its obligations and, as a result, expose it to interest rate risk.

Furthermore, in 2017, the United Kingdom Financial Conduct Authority (the authority that regulates the London Interbank Offered Rate ("LIBOR")) announced that it will stop compelling banks to submit rates for the calculation of LIBOR after the end of 2021, creating considerable uncertainty regarding the publication of such rates beyond 2021. There are currently no agreed upon alternative reference rates. Currently, we cannot reasonably estimate the impact that the transition to alternative reference rates may have on the valuation, pricing and operation of our LIBOR-based financial instruments or obligations, however such changes and could have a material adverse effect on our financial condition and results of operations.

***Interseguro is exposed to the impact of changes in interest rates on other comprehensive income.***

Before 2018, Interseguro estimated its technical reserves within the income statement under IFRS by using a discount rate that reflected the interest rate performance of the debt instruments in its portfolio, adjusted for credit risk, and the company's asset-liability mismatch. As a consequence, Interseguro's results of operations under IFRS were affected by the volatility in the interest rate.

However, starting in the second quarter of 2018, Interseguro estimates its technical reserves under IFRS on the basis of an updated discount risk-free rate obtained by a matching adjustment methodology. See Note 3.4(d) to our audited annual consolidated financial statements. The volatility of this interest rate is reflected in Interseguro's balance sheet, under other comprehensive income which could have a material adverse effect on our balance sheet. See Note 14(c) to our audited annual consolidated financial statements.

***Actual mortality and morbidity rates and other factors may differ from those assumed in the calculation of technical reserves and may have a material adverse effect on Interseguro's financial condition and results of operations.***

Actual mortality and morbidity rates may differ from those assumed in the initial calculation of annuity reserves at the time of the issuance of the policy and their periodic adjustments. If Interseguro's assumptions differ materially from actual mortality and morbidity rates, Interseguro could be required to make payments under its annuities for a longer period of time than originally estimated, and existing reserves could fall short of actual payments. Significant shortfalls could have a material adverse effect on our financial condition and results of operations.

Before 2018, Interseguro used the mortality tables approved by the Chilean Superintendency of Securities and Insurance (*Superintendencia de Valores y Seguros*) and the Chilean Superintendency of Pensions (*Superintendencia de Pensiones*) which incorporated more up-to-date mortality information than the ones prescribed by the SBS before the approval of Resolution No. 886-2018 by the SBS on March 2018.

Starting in 2018, Interseguro adopted new mortality tables approved by the SBS, which showed recent changes in Peruvian life expectancy and longer estimated lives for the calculation of the annuities reserves. As a result, Interseguro had an adjustment of S/144.8 million in technical reserves during the second quarter of 2018. Future changes in mortality tables could have a material adverse effect on our financial condition and results of operations.

***Interbank may not be able to obtain the funding required to support growth and implement its strategy.***

Interbank's strategy to grow its loan portfolio will require it to continue to have an active funding strategy. Interbank's access to funding will depend on many factors, including factors beyond our control, such as any credit crunch, public health crises and epidemics/pandemics (such as the on-going COVID-19 pandemic) or other conditions in global capital markets and investors' perceptions of the risks of investing in Peru and emerging markets generally. The 2008 and 2009 global financial and economic crisis, the debt crisis in Europe and general market volatility, for example, had a negative impact on the liquidity of global financial markets. In the case of similar events, any equity or debt financing, if available at all, may be on terms that are not favorable to Interbank. If access to funding is limited, Interbank may not be able to implement its strategy, which could have a material adverse effect on our financial condition and results of operations.

***A reduction in our subsidiaries' credit ratings could increase their cost of borrowing funds and make their ability to raise new funds and renew maturing debt more difficult.***

Our subsidiaries' credit ratings are an important component of their respective liquidity profile. Among other factors, Interbank's credit ratings are based on its financial strength, the credit quality and concentrations in its loan portfolio, the level and volatility of its earnings, its capital adequacy, the quality of management, the liquidity of its balance sheet, the availability of a significant base of core retail and commercial deposits and its ability to access a broad array of funding sources. In addition, our subsidiaries' lenders may be sensitive to the risk of a ratings downgrade, which could increase the cost of refinancing their existing obligations, raising funds in the capital markets and borrowing funds from private lenders, and could in turn have a material adverse effect on our financial condition and results of operations. On April 21, 2020, Fitch revised Interbank's outlook from stable to negative in light of increased downside risks from the economic implications of the COVID-19 pandemic. In addition, our creditors may be sensitive to this ratings downgrade and the risk of a future ratings downgrade, which could increase the cost of refinancing our existing obligations, raising funds in the capital markets and borrowing funds from private lenders, and could in turn have a material adverse effect on our financial condition and results of operations.

***Interseguro's failure to underwrite and price insurance premiums accurately for the products it offers would have a material adverse effect on its financial condition and results of operations.***

Interseguro's financial condition and results of operations depend on its ability to underwrite insurance policies and set premium rates accurately. Interseguro must generate sufficient premiums to offset claim losses and cover operating and underwriting expenses to make a profit. In order to price insurance policies accurately, Interseguro must collect and analyze a substantial volume of data, develop, test and apply appropriate rating formulae, closely monitor changes in trends in a timely fashion and project both severity and frequency of loss with reasonable accuracy. If Interseguro fails to assess accurately the risks that it assumes or does not reinsure an appropriate level of risk, it may fail to establish adequate premium rates, which could reduce income and have a material adverse effect on its financial condition and results of operations.

***Interbank's and Interseguro's reliance on Peruvian sovereign and global bonds in their respective investment portfolios leaves us vulnerable to a default on such debt.***

A substantial portion of our investment portfolio consists of Peruvian sovereign and global bonds and Central Reserve Bank of Peru certificates of deposit, which represented 47.3% of our investment portfolio (before accrued interest) as of December 31, 2020. A default on Peruvian sovereign debt could have a material adverse effect on our financial condition and results of operations.

***Interseguro may suffer losses in its investment portfolio because of risks associated with its real estate investments.***

Interseguro's investment portfolio includes real estate investments located solely in Peru. As of December 31, 2020, Interseguro's investments in real estate projects totaled S/1,044.0 million, which represented 7.5% of Interseguro's total investment portfolio. Real estate investments are relatively illiquid, and Interseguro's ability to vary its portfolio of properties in response to

changes in economic and other conditions is limited. If Interseguro wants or needs to sell a property, it may not be able to do so in the desired time period or on favorable terms, which could have a material adverse effect on our financial condition and results of operations.

Furthermore, Interseguro is exposed to risk in respect of its real estate investments that are under development, including delays in receiving zoning permits, construction delays, changes in regulation or lack of demand.

Interseguro also faces credit risks with respect to its real estate investments. Interseguro generally invests in land in order to develop commercial real estate projects. For these projects, Interseguro enters into long-term leases with “built-to-suit” tenants (typically 25 to 30 years) and medium-term leases with office tenants (typically two to five years). In the case of long- and medium-term leases, Interseguro’s tenants may experience a downturn in their businesses, which could weaken their financial condition and result in the tenants’ inability to make lease payments to Interseguro in a timely manner or at all. In particular, the COVID-19 pandemic has adversely impacted the ability of such tenants to make lease payments, as stores considered non-essential businesses were unable to operate during the government-mandated shutdown. For the year ended December 31, 2020, 7.7% of Interseguro’s tenants defaulted on payments and 57.7% deferred payments, as compared to 12% and 0%, respectively, for the year ended December 31, 2019. We can offer no assurance that additional tenants will not default, or that tenants who have deferred payments will ultimately be able to make them. For additional information on the impact of the COVID-19 pandemic on our subsidiaries, see “—Global and local health concerns, including in relation to the ongoing COVID-19 pandemic or other outbreaks of pandemics or contagious diseases, may adversely affect our and our subsidiaries’ business, financial condition and results of operations.”

Interseguro’s investment properties are carried at fair value, which could result in the value of such investment properties declining if market conditions deteriorate. As a result, we could suffer an adverse impact on our financial condition and results of operations.

***Tax exemptions applicable to a substantial portion of Interseguro’s investment earnings could be changed in the future.***

Interseguro pays no income tax, primarily because its investment earnings in respect of its life insurance technical reserves are entirely exempt from income tax. Future changes in tax laws or regulations limiting or eliminating the current tax exemption could have an adverse effect on our financial condition and results of operations.

***We and our subsidiaries are dependent on key personnel.***

Our development, operation and growth have depended significantly upon the efforts and experience of our and our subsidiaries’ board of directors, senior management and key personnel. Most of the members of our senior management have held management positions with other major financial institutions in the United States, Latin America and Europe. Although we currently expect that our and our subsidiaries’ board of directors and other senior managers will continue in their positions, the loss of their services, or our inability to attract and retain qualified personnel to replace them, could have a material adverse effect on our financial condition and results of operations.

***Interruption, mismanagement or failure in our subsidiaries’ information technology systems may adversely affect their operations.***

As financial and insurance institutions, our success depends on the efficient and uninterrupted operation of our subsidiaries’ computer and communications hardware systems and our applications, including systems and applications that support the operation of Interbank’s financial stores, ATMs, Interbank Agente (correspondent agents), mobile applications and website, as well as the infrastructure components that support our operations (communication devices, networking, etc.). Our subsidiaries’ computer and communications systems and operations could be damaged or interrupted by fire, flood, power loss, telecommunications failure, sabotage, computer viruses, cyber-attacks, physical or electronic break-ins and similar events or disruptions. Any of these events could cause system interruptions, delays and losses of critical data and could prevent our subsidiaries from operating at optimal levels or at all.

Any failure, interruption or breach in security of our subsidiaries’ information systems could result in failures or interruptions in their risk management, general ledger, deposit servicing, loan organization and/or other important operations, as applicable. Although our subsidiaries have developed back-up systems and a disaster recovery center, and may continue some of their operations in case of emergency, if their information systems fail, even for a short period of time, then they may be unable to serve some or all of their customers’ needs on a timely basis. Likewise, a temporary shutdown of our subsidiaries’ information systems could result in additional costs for information retrieval and verification. In addition, failure to update and develop our subsidiaries’ existing information systems as effectively as their competitors may result in a loss of the competitive advantages that each subsidiary believes its information systems provide. Furthermore, our subsidiaries may not have adequate insurance coverage or insurance limits to be compensated for losses from a major interruption.

If our subsidiaries experience a data security breach and confidential customer information is disclosed to or accessed by third parties, their customers could be adversely affected. The collection of data and processing of transactions require our subsidiaries to receive and store a large amount of personally identifiable data. This type of data is subject to legislation and regulation in various jurisdictions, including Peru. Data security breaches suffered by well-known companies and institutions have attracted a substantial amount of media attention, prompting U.S. state and federal legislative proposals addressing data privacy and security. Our Peruvian subsidiaries are subject to requirements to protect the personally identifiable information that they process in connection with their services. Our Peruvian subsidiaries may become exposed to potential liabilities with respect to the data that they collect, manage and process, and may incur legal costs if their information security policies and procedures are not effective or if they are required to defend their methods of collection, processing and storage of personal data. Security breaches, lawsuits or adverse publicity relating to our subsidiaries' methods of handling personal data could have a material adverse effect on their business, financial condition and results of operations due to the costs and negative market reaction relating to such developments.

In addition, our current strategy involves significant investments to expand and develop our IT, applications and systems in order to unify and simplify them, and increase the volume of transactions and operations performed online by our personnel and clients. We have also contracted with a third-party provider to ensure the stability and security of our systems and IT infrastructure and to also bear the risk of the failure of that third party. However, there can be no assurance that such strategy or its implementation will be successful, or whether it will result in failures, shutdowns or damage to our business and operations.

The occurrence of any failures or interruptions in our subsidiaries' IT systems, or the failure of our subsidiaries to adequately address them if they do occur, as well as data security breaches incurred by our subsidiaries, could have a material adverse effect on our reputation, financial condition and results of operations, including as a result of facing significant fines, customer notice obligations or costly litigation, maintaining or upgrading their IT systems, or performing other IT services on a timely basis.

***Cyber-security events could negatively affect our reputation or results of operations and may result in litigation.***

Information security risks have generally increased in recent years as a result of the proliferation of new technologies and the increased sophistication and activities of cyber-attacks as well as increased connections of equipment and systems to the internet. Recently, data security breaches suffered by well-known companies and institutions have attracted a substantial amount of media attention, prompting U.S. state and federal legislative proposals addressing data privacy and security. We depend on a variety of internet-based data processing applications, communication, and information exchange platforms and networks as part of our operations and our digital strategy.

Recently, as a result of the COVID-19 pandemic, cyber-security risks have increased primarily due to the remote workforce. In this sense, we have implemented additional cyber-security measures to prevent, detect, and respond to these enhanced cyber-security risks. These measures focus primarily on strengthening the security of the devices used by our employees working remotely, improving the authentication methods used on remote connections, increasing the frequency of our cyber-security awareness program and enhancing the capacity of our cyber-security threat intelligence procedures.

Although we continuously assess and strive to improve the effectiveness and security of our systems, we cannot assure holders of our common shares that all of our systems are free from vulnerability, in line with the security standards of companies operating in more developed markets or that the measures taken will be successful in preventing cyber-attacks. In the event of a cyber-attack, we could have our business operations disrupted, experience losses and incur response costs, and could be subject to litigation and damage to our reputation. A cyber-attack could have a material adverse effect on our business, financial condition and results of operations. For further information on our cybersecurity protections and details of our information technology units, see "Item 4. Information on the Company—Business Overview—Information Technology Unit." for each of our three business segments.

***Our subsidiaries are susceptible to fraud, unauthorized transactions and operational errors.***

Our subsidiaries are susceptible to, among other things, fraud or bad faith by employees or outsiders, unauthorized transactions by employees and other operational errors (including clerical or record keeping errors and errors resulting from faulty computer or telecommunications systems). Given a high volume of transactions that may occur at a financial institution, errors could be repeated or compounded before they are discovered and remedied. In addition, a number of transactions are not fully automated, which may further increase the risk that human error or employee tampering could result in losses that may be difficult to detect quickly or at all.

While our subsidiaries maintain a system of internal controls designed to monitor and control operational risk, losses from the failure of their system of internal controls to discover and rectify such risks could have a material adverse effect on our reputation, our financial condition and results of operations.

***Our existing insurance coverage may be insufficient and future coverage may be difficult or expensive to obtain.***

Although we believe that our insurance policies provide adequate coverage for the risks inherent in our businesses, these insurance policies typically exclude certain risks and are subject to certain thresholds and limits. We cannot assure holders of our common shares that our properties, equipment, inventories and other assets will not suffer damage due to unforeseen events or that the proceeds available from our insurance policies will be sufficient to protect us from all possible loss or damage resulting from such events. Our subsidiaries renew our insurance policies on an annual basis. The cost of coverage may increase to an extent that we may choose to reduce our policy limits or agree to certain exclusions from our coverage. Among other factors, adverse political developments, security concerns and natural disasters may materially adversely affect available insurance coverage and result in increased premiums for available coverage and additional exclusions from coverage. As a result, our insurance coverage may prove to be inadequate for events that may cause significant disruption to our operations, which could have a material adverse effect on our financial condition and results of operations.

***Our employees could join labor unions and we could be subject to organized labor actions, including work stoppages that could have a material adverse effect on our business.***

Even though the employees of our subsidiaries are not unionized and have not entered into any collective bargaining agreement, nothing prevents them from doing so in the future. Conflicts with our employees and organized labor actions such as work disruptions or stoppages or requirements to increase employee salaries and/or benefits as a result of future collective bargaining agreements, governmental regulations or policies or otherwise could cause us to suffer a material adverse effect on our financial condition and results of operations.

***Our trademarks and trade names may be misappropriated or challenged by others.***

We own the material trademark and trade name rights used in connection with our brands and businesses and the marketing and sale of their respective products and services. We believe our brand names and related intellectual property are important to our continued success. We attempt to protect our trademarks and trade names by exercising our rights under applicable trademark and copyright laws. Any infringement of our intellectual property rights would likely result in a commitment of our time and resources to protect these rights through litigation or otherwise, which could be expensive and time-consuming. If we were to fail to protect our intellectual property rights for any reason, it could have a material adverse effect on our financial condition and results of operations.

***Any failure to comply with anti-corruption, anti-bribery, anti-money laundering, anti-terrorist financing and antitrust laws and regulations could damage our reputation or expose us to penalties.***

We are subject to anti-corruption, anti-bribery, anti-money laundering, anti-terrorist financing, antitrust and other international laws and regulations and are required to comply with the applicable laws and regulations of Peru, Panama, Bahamas and certain other jurisdictions. In addition, we are subject to economic sanctions regulations that restrict our transactions with certain sanctioned countries, individuals and entities. The Peruvian regulatory regime related to anti-bribery and anti-corruption legislation could be less developed and stringent than similar regulations in other jurisdictions.

Subsidiaries are in compliance with the applicable anti-money laundering and counter-terrorist financing laws and regulations and have adopted policies and procedures, including a “know-your-client” client identification program, and enhanced their due diligence procedures, internal controls, quality assurance and anticorruption program. Our compliance program is based upon the applicable Peruvian, Panamanian and Bahamian laws and best international practices. In addition, we perform due diligence on financial institutions to ensure that they have the same stand on anti-money laundering policies and procedures. Although these measures mitigate money laundering and terrorist financing risks, these risks are not fully eliminated. Therefore, when subsidiaries identify suspicious activities, such activities are reported to the authorities as well as risks included in an internal “black list” to block future transactions and protect us against reputational risk. However, these measures, procedures and compliance may not be completely effective in preventing third parties from using any of our subsidiaries (and our correspondent banks) as a conduit for money laundering (including illegal cash operations) or terrorist financing without our (and our correspondent banks’ and reinsurance institutions’) knowledge. If any of our subsidiaries were to be associated with money laundering (including illegal cash operations) or terrorist financing, our reputation as a group could suffer and/or they could become subject to fines, sanctions or legal enforcement, including being added to any “blacklists” that would prohibit certain parties from engaging in transactions with us, which could have a material adverse effect on our business, financial condition and results of operations.

Our subsidiaries are in compliance with applicable anti-bribery and anti-corruption laws, rules and regulations, including policies regarding government officials and other stakeholders. We have not been subject to fines or other penalties, and we have not suffered business or other reputational impact, as a result of alleged money laundering activities in the past. However, there can be no assurance that our internal policies and procedures will be sufficient to prevent or detect all inappropriate practices, fraud or violations of law by our affiliates, employees, directors, officers, partners, agents and service providers or that any such persons will not take actions in violation of our policies and procedures. We may in the future discover instances in which we have failed to comply with applicable laws and regulations or internal controls. If any of our employees, contractors, agents, officers or other persons with whom we conduct business engage in fraudulent, corrupt or other improper or unethical business practices or otherwise violate applicable

laws, regulations or our own internal compliance systems, we could become subject to one or more enforcement actions by Peruvian or foreign authorities (including the U.S. Department of Justice) or otherwise be found to be in violation of such laws, which may result in penalties, fines and sanctions and in turn adversely affect our reputation, business, financial condition and results of operations.

***We and our subsidiaries are subject to litigation and other legal, administrative and regulatory proceedings.***

We and our subsidiaries are regularly party to litigation and other legal proceedings relating to claims resulting from operations in the normal course of business. Even though we and our subsidiaries do not have any material litigation, the interpretation and enforcement of certain provisions of existing or any additional agreements may result in disputes among us and customers or third-parties. Litigation is subject to inherent uncertainties, and unfavorable rulings may occur. We cannot assure holders of our common shares that the legal, administrative and regulatory proceedings in which we and our subsidiaries are involved will not materially and adversely affect our ability to conduct our respective business in the manner that we and they expect or otherwise adversely affect our respective results of operations and financial position should an unfavorable ruling occur.

***Legal restrictions on our clients may reduce the demand for our services.***

We may be materially affected not only by regulations applicable to us, but also by regulations and changes in enforcement practices applicable to our clients. Our business could be affected by, among other things, existing and proposed tax legislation, antitrust and competition policies, corporate governance initiatives, consumer protection laws, data use regulation and other governmental regulation and policies, and changes in the interpretation or enforcement of existing laws and rules, that affect our clients' businesses and the financial markets. For example, a focus on tax compliance and changes in enforcement practices could lead to asset outflows from our private banking businesses, including at our subsidiary Inteligo.

**Risks Relating to Peru**

***Economic, social and political developments in Peru, including political instability, inflation and unemployment, could have a material adverse effect on our businesses.***

Substantially all of the operations and customers of our subsidiaries are located in Peru. Accordingly, our financial condition and results of operations will be dependent on the level of economic activity in Peru. Our financial condition and results of operations could be affected by changes in economic and other policies of the Peruvian government (which has exercised and continues to exercise substantial influence over many aspects of the private sector) and by other economic and political developments in Peru, including devaluation, currency exchange controls, inflation, economic downturns, corruption scandals, social unrest and terrorism.

In the past, Peru has experienced political instability that has included a succession of regimes with differing economic policies and programs, followed by periods of stability. While Peru has been stable democracy having completed a peaceful transition from the administration of President Ollanta Humala to President Pedro Pablo Kuczynski, who took office in July 2016, in 2018, Peru suffered a government institutional crisis due to, among other incidents, the resignation of former President Pedro Pablo Kuczynski following allegations of corruption, several other corruption scandals involving prominent members of the judicial system and the public ministry who are now facing prosecution, and the fragmentation of the most prominent political party in Congress. Following President Kuczynski's resignation on March 23, 2018, Vice President Martín Vizcarra was sworn in as president to complete the term through 2021. Following political disputes during 2019, President Vizcarra took executive action on September 30, 2019 that dissolved Congress and called for early legislative elections, which were held on January 26, 2020. Political disagreements continued during 2020 and on November 9, 2020, with the affirmative vote of the required qualified members of Congress, President Vizcarra was impeached. The current rules of succession require the vice president to assume the role as acting president, and in case of absence of the first vice president, the second vice president shall assume such role. In case of absence of both vice presidents, the president of Congress shall assume such role. Currently, Peru does not have designated vice presidents (in 2016, Martin Vizcarra assumed the presidency as first vice president, and the former second vice president, Mercedes Araoz, resigned), so in accordance with the aforementioned rules of succession, on November 10, 2020 the then president of the Congress, Manuel Arturo Merino de Lama, assumed the role of acting President. Immediately thereafter, Peru underwent nationwide protests and President Merino resigned as acting President. Subsequently, on November 17, 2020, Francisco Sagasti was sworn in as acting President of the Republic for the remaining presidential term.

A general election was held in on April 11, 2021 to elect a new President and Congress. The Peruvian president is elected for a five-year term and the President Elect would take office on July 28, 2021. If no candidate receives a majority in the first round of voting, a run-off election would be held between the two candidates that received the most votes, which increases the uncertainty surrounding the Peruvian economy. A run-off election is scheduled to take place on June 6, 2021 between the two candidates that finished with the highest number of votes in the first round of voting: José Pedro Castillo Terrones (*Partido Político Nacional Perú Libre*), a far-left candidate, and Keiko Sofia Fujimori Higuchi (*Fuerza Popular*), a center-right candidate. Although it is not known who will win the run-off elections, according to the preliminary results, the Peruvian Congress will continue to be fragmented, since it

would be composed by members of nine (9) political parties with no single party holding control. A fragmented Congress with no clear majority or controlling blocks, may make it difficult for any such new President to govern and garner support to pass legislation. The economic and social impact resulting from the political uncertainty generated by these occurrences at the highest levels of government raises concerns on the ability of the government to implement long-term and consistent economic and social policies required to combat social and economic issues in the future, including those designed to promote economic growth and to counteract the impact of the COVID-19 pandemic. The government's failure to do so could materially impact our business and operations.

President Vizcarra was known for pursuing business-friendly and open-market economic policies, which have remained in place during President Sagasti's term. However, previous governments have imposed controls on prices, exchange rates, local and foreign investment and international trade, restricted the ability of companies to dismiss employees, expropriated private sector assets and prohibited the remittance of profits to foreign investors. Accordingly, there is no certainty that the new President will continue to pursue business-friendly and open-market economic policies that stimulate economic growth and stability. Such political uncertainty could impact interest rates and currency volatility, as well as adversely and materially affect the Peruvian economy, which could have a material adverse effect on our financial condition and results of operations.

Peru's GDP growth rates, low inflation, and external surplus reflect, in part, the strength of Peru's economic fundamentals. However, a deterioration of the global economy or a sharp decrease in commodity prices may adversely affect Peru's economy. In addition, an economic contraction or weak economic growth in Peru's trading partners may have an adverse effect on Peru's economy. Despite Peru's ongoing economic growth and stabilization, social and political tensions and high levels of poverty and unemployment continue. The combination of these factors may be exacerbated by the macroeconomic impact of the ongoing COVID-19 pandemic and the government's response to prevent the spread and mitigate its effects, which may lead to economic, social and/or political crises which can spark a wave of protests and social unrest.

Moreover, during the 1980s and the early 1990s, Peru experienced severe terrorist activity targeted against, among others, the government and the private sector. Despite the suppression of terrorist activity, a resurgence of terrorism in Peru may occur, which could disrupt the economy of Peru and our business.

There can be no assurance that Peru will not face political, economic or social problems in the future or that these problems will not adversely affect our business, financial condition and results of operations. Future government policies to pre-empt or respond to social unrest could include, among other things, expropriation, nationalization, suspension of the enforcement of creditors' rights and new taxation policies.

***Public health crises and epidemics/pandemics, such as that being caused by the COVID-19 pandemic, may materially and adversely affect Peru's economy. Additionally, the Peruvian government measures adopted in order to address these health crises and epidemic/pandemics, such as the ongoing COVID-19 pandemic, may not be sufficient to address their impact.***

The Peruvian government is deploying various economic and public health measures to address the pandemic caused by COVID-19. These measures are part of an economic stimulus plan that includes tax incentives among other tools intended to address the immediate impacts of the national state of emergency invoked by the Peruvian government to attempt to contain spread of the virus and lessen the strain on the health care system and the impact on the overall economy. The MEF, the Central Reserve Bank of Peru, the SBS, as well as other government entities have adopted specific measures to provide economic support to segments of the population, such as vulnerable population and small enterprises, which are most at risk in this crisis.

The COVID-19 pandemic has had a material adverse impact on the Peruvian economy resulting in lower prices for primary goods, volatility in the financial markets, reduced international trade and lower activity in certain of the key drivers of the local economy. Prior to the pandemic, the Central Reserve Bank of Peru (the "Central Bank") had predicted economic growth of 3.8% for 2020; however, as a result of the COVID-19 pandemic, Gross Domestic Product ("GDP") dropped 11.1% in 2020 as compared to 2019. The COVID-19 pandemic has also adversely affected the global economy, including the economies of China and the United States, resulting in, among other things, decreased demand for goods and services and a negative impact on trade activity, which, in turn, may adversely affect Peru's economy.

In addition, social distancing and stay-at-home quarantine measures imposed to minimize pressure on the healthcare system and contain social costs, are adversely affecting dynamism of various productive sectors of the economy. Reduced activity in these economic sectors has resulted in reduced employment and less income for families and companies. COVID-19 has generated a simultaneous shock on supply and demand – a supply shock resulting from the abrupt paralysis of production in multiple sectors and on demand as a result of reduced consumption – which amplifies the negative effects on the economy. Both the primary and secondary sectors of the Peruvian economy have been affected, among the most impacted being: (i) tourism, restaurants and travel agencies, (ii) transportation, warehousing and messengers and (iii) art and entertainment, in particular because of the suspension of group activities and self-isolation/social distancing mandates.

As such, in addition to public health measures, the Peruvian government has also announced the adoption of other measures to generate monetary and fiscal stimulus and alleviate the financial stress on households and companies, equivalent to approximately 20% of GDP. Peru has committed to dedicate significant resources to strengthening the public health system. Social support to the neediest families has been approved to provide a public safety net to soften the impact of the consequences of the virus on Peru's most vulnerable citizens. However, there can be no assurance that these measures will be successful or sufficient to address the effects of the COVID-19 pandemic. Economic stagnation, contraction and decreased income levels and increased unemployment levels could adversely impact our results of operation in the long term, even after COVID-19 related restrictions are lifted. For example, according to National Institute of Statistics and Informatics (*Instituto Nacional de Estadística e Informática*) for the period from March 30, 2020 to September 30, 2020, 9,662.4 thousand jobs were lost in Peru. Over the long-term, we cannot assure you that the measures adopted by the Peruvian government to counteract the effects of the COVID-19 pandemic will be sufficient to restore public confidence in the economy or to restore economic growth.

***Fluctuations in the value of the sol could have a material adverse effect on our financial condition and results of operations.***

As the Peruvian banking system is highly dollarized, with 25.4% of gross loans and 37.9% of deposits denominated in U.S. dollars as of December 31, 2020, devaluation of the *sol* against the U.S. dollar could have a negative impact on the ability of Interbank's clients to repay loans and make premium payments. Within our insurance segment, a similar adverse effect could occur on Interseguro's local debt holdings denominated in foreign currency. Despite any devaluation, and absent any change in foreign exchange regulations, Interbank and Interseguro would be required to continue to repay dollar-denominated deposits in U.S. dollars. In addition, while we seek to manage the gap between Interbank's and Interseguro's foreign currency-denominated assets and liabilities, by matching, for example, the volumes and maturities of Interbank's *sol*-denominated loans against Interbank's *sol*-denominated deposits, we may not be successful in doing so. Therefore, any significant devaluation of the *sol* against the U.S. dollar could have a material adverse effect on our financial condition and results of operations. In addition, a devaluation of the *sol* against the U.S. dollar would decrease the dollar value of any dividends paid to us by our subsidiaries, and, as a result, our ability to pay dividends could be materially and adversely affected. An appreciation of the *sol* could also have an adverse impact on our results of operations as reported in *soles*, as Inteligo's operations are denominated in U.S. dollars but our reporting currency is in *soles*.

***Potential exchange controls implemented by the Peruvian government could adversely affect our ability to pay dividends and have a material adverse effect on our financial condition and results of operations.***

Since 1991, the Peruvian economy has undergone a major transformation from a highly protected and regulated system to a free market economy. During this period, protectionist and interventionist laws and policies have been dismantled gradually to create a liberal economy dominated by the private sector. Exchange controls and restrictions on remittances of profits, dividends and royalties have ceased. Prior to 1991, Peru exercised control over the foreign exchange markets by imposing multiple exchange rates and placing restrictions on the possession and use of foreign currencies. The Peruvian economy has responded to this transformation by growing at a compound average annual rate of 9.7% during the period from 1994 to 2013, which growth rate has slowed down in recent years. Currently, foreign exchange rates are determined by market conditions, with regular open-market operations by the Central Reserve Bank of Peru in the foreign exchange market to reduce volatility in the value of Peru's currency against the U.S. dollar.

Any dividends paid to us by Interbank, Interseguro and Inteligo SAB will be paid in *soles*. Peruvian law does not impose any restrictions on the ability of companies having operations in Peru to transfer foreign currencies from Peru to other countries, except for restrictions applicable to companies that have been convicted or have admitted to and/or acknowledged committing crimes against the Peruvian public administration or money laundering or equivalent crimes, as set forth in Urgency Decree No. 003-2017 (Urgency Decree to Ensure Continuity of Public Utility Investment Projects and Safeguard Compensation to the State in Cases of Corruption), which restricts the transfer of both local and foreign currency abroad. Except for the restrictions set forth in such Urgency Decree, companies having operations in Peru may freely transfer foreign currency from Peru to other countries. If the Peruvian government were to implement restrictive exchange rate controls in the future, we might be obligated to seek an authorization from the Peruvian government to make dividend payments. We cannot assure holders of our common shares that such an authorization would be obtained. Any such exchange rate restrictions or the failure to obtain such an authorization could materially and adversely affect our ability to pay our shareholders.

***Increased inflation in Peru could have an adverse effect on the Peruvian long-term credit market as well as the Peruvian economy generally and, therefore, on our financial condition and results of operations.***

In the past, Peru has suffered through periods of high and hyper-inflation, which has materially undermined the Peruvian economy and the government's ability to create conditions that support economic growth. In response to increased inflation, the Central Reserve Bank of Peru, which sets the Peruvian basic interest rate, may increase or decrease the basic interest rate in an attempt to control inflation or foster economic growth. Increases in the base interest rate could adversely affect our results of operations, increasing the cost of certain funding. Additionally, a return to a high inflation environment would also undermine Peru's foreign competitiveness, with negative effects on the level of economic activity and employment, while increasing our operating costs and adversely impacting our operating margins.

***The stability of the Peruvian financial system depends on public confidence in Peruvian banking and financial institutions.***

Financial institutions, including Interbank and Interseguro, depend on public confidence in the Peruvian financial system. In the event of adverse developments affecting Peru's economic, political or social conditions or if a bank faces liquidity problems, the general public may withdraw deposits and savings from the troubled bank or from banks generally, thereby precipitating a liquidity crisis, as occurred in Peru in the late 1990s.

If depositors withdraw significant holdings from banks generally, including Interbank, there will be a substantial adverse impact on the manner in which financial institutions, including Interbank and Interseguro, conduct their business, on their ability to operate as financial intermediaries and on their financial condition, which could have a material adverse effect on our financial condition and results of operations.

***The Peruvian economy could be adversely affected by economic developments in regional or global markets.***

Financial and securities markets in Peru are influenced by economic and market conditions in regional or global markets. Although economic conditions vary from country to country, investors' perceptions of the events occurring in one country may adversely affect cash flows and securities from issuers in other countries, including Peru. For example, the Peruvian economy was adversely affected by the political and economic events that occurred in several emerging economies in the 1990s, including in Mexico in 1994, which impacted the fair value of securities issued by companies from markets throughout Latin America. The crisis in the Asian markets beginning in 1997 also negatively affected markets throughout Latin America. Similar adverse consequences resulted from the economic crisis in Russia in 1998, the Brazilian devaluation in 1999 and the Argentine crisis in 2001. In addition, Peru's economy continues to be affected by events in the economies of its major regional partners and in developed economies that are trading partners or that affect the global economy.

The 2008 and 2009 global financial and economic crisis, principally driven by the subprime mortgage market in the United States, substantially affected the international financial system, including Peru's securities market and economy. Additionally, the debt crisis in Europe, which began with the financial crises in Greece, Spain, Italy and Portugal, reduced the confidence of foreign investors, which caused volatility in the securities markets and affected the ability of companies to obtain financing globally. Doubts about the pace of global growth, particularly in the United States, contributed to already weak international growth in 2011, 2012 and 2013. More recently Brexit and regional developments in China and other Asian countries have contributed to increased volatility and uncertainty in a number of financial markets. In addition, the crisis affecting emerging markets that began in the second quarter of 2018 as a result of the rise in interest rates by the U.S. Federal Reserve and the trade war between the United States and China, among other factors, could have an impact on the Peruvian economy. Any interruption to the recovery of the developed economies, the continued effects of the global crises, a worsening or resurgence of the debt crisis in Europe, impacts due to Brexit or a new economic and/or financial crisis, or a combination of the above, could affect the Peruvian economy, and, consequently, materially adversely affect our business. In particular, the Peruvian economy has recently suffered the effects of lower commodity prices in the international markets, a decrease in export volumes, a decrease in foreign direct investment inflows and, as a result, a decline in foreign reserves and an increase in its current account deficit. Our business is particularly sensitive to economic and market conditions which affect products of various export industries, including textile, fishing, and agriculture. In addition, we are active in the real estate sector, which can also be highly sensitive to macroeconomic developments. Although we have relatively little exposure to the mining sector, a decline in commodity prices could negatively affect the Peruvian economy as a whole. Any increase in the number of delinquencies or defaults would result in higher levels of non-performing assets and provisions for loan losses, which could have a material adverse effect on our financial condition and results of operations.

Additionally, adverse developments in regional or global markets or an increase in the perceived risks associated with investing in emerging markets in the future could adversely affect the Peruvian economy and, as a result, adversely affect our businesses.

Finally, the outbreak of COVID-19 has affected the economy of some of our main trade partners, such as China, the United States and the European Union. In this sense, Peru's revenues from trade activity have been negatively impacted in 2020. Furthermore, other adverse developments in regional or global markets or an increase in the perceived risks associated with investing in emerging markets in the future could adversely affect the Peruvian economy and, as a result, adversely affect our businesses.

***A decline in the prices of certain commodities in the international markets could have a material adverse effect on our financial condition and results of operations.***

In 2020, traditional exports, in particular mineral products, fishing products, agricultural products and petroleum and its derivatives, represented 69.3% of Peru's total exports compared to a 70.8% in 2019, according to the Central Reserve Bank of Peru

figures. A decline in commodity prices in the international markets, especially traditional minerals which represented 60.8% and 58.9% of exports by value in 2020 and 2019, respectively, may have an adverse impact on government finances, which could affect both investor confidence and the sustainability of government expenditure and social programs. Thus, a decline in commodity prices could, ultimately, affect the political environment in Peru, especially as regional and local governments are particularly reliant on tax revenue from mining concerns. By potentially affecting private sector demand and investor confidence, lower commodity prices could also affect the banking and insurance sector, leading to, for example, lower credit demand, deteriorating asset quality and currency devaluation. A decline in commodity prices could also materially affect the finances of some of our clients that rely on revenue from natural resources.

***The market volatility generated by distortions in the international financial markets may affect the Peruvian capital markets and the Peruvian banking system.***

The global financial and economic crisis of 2008 and 2009 adversely affected and increased the volatility of the performance of the Lima Stock Exchange. In recent years, the Lima Stock Exchange has experienced increased participation from local and international retail investors that react rapidly to the effects from international markets. The general index of the Lima Stock Exchange decreased by 3.1% in 2018 and increased by 6.1% and 1.4% in 2019 and 2020, respectively. Volatility in the international markets may adversely affect the Peruvian capital markets and could therefore impact our ability to raise funds from local capital markets at a level necessary to fund our operations.

The Peruvian banking system has not experienced any significant liquidity problems as a result of the recent international liquidity environment, primarily because the major source of funds for local banks, including Interbank, is represented by the deposit base. Future market volatility, however, may affect the Peruvian banking system, including Interbank, and such volatility could have a material adverse effect on our financial condition and results of operations.

***The operations of Interbank, Interseguro, Interfondos and Inteligo SAB could be adversely affected by an earthquake or other natural disasters.***

Peru is affected by *El Niño*, an oceanic and atmospheric phenomenon that causes a warming of temperatures in the Pacific Ocean, resulting in heavy rains off the coast of Peru and various other effects in other parts of the world. The effects of *El Niño*, which typically occurs every two to seven years, include flooding and the destruction of fish populations and agriculture, and it accordingly can have a negative impact on Peru's economy. For example, in early 2017, *El Niño* adversely affected agricultural production, transportation services, tourism and commercial activity, caused widespread damage to infrastructure and displaced people and resulted in a 1.5% drop in GDP growth in 2017 relative to 2016 figures. The Peruvian government estimated that *El Niño* caused U.S.\$2.8 billion in damages in affected regions in the first half of 2017. In particular, *El Niño* has affected and could in the future affect our loan activity and asset quality, as loan agreements typically allow borrowers to extend payments for a certain amount of time due to *El Niño* and it could ultimately affect their payment capacity when the extensions run out.

Peru is also located in an area that experiences seismic activity and occasionally is affected by earthquakes. For example, in 2007, an earthquake with a magnitude of 7.9 on the Richter scale struck the central coast of Peru, severely damaging the region south of Lima, and on May 26, 2019, an earthquake with a magnitude of 8.0 struck a remote part of the Amazon in Peru, resulting in collapsed buildings, power failures and two reported deaths. Although Interbank's, Interseguro's and Inteligo's headquarters and financial stores in Peru have not been materially affected by an earthquake, a major earthquake could damage the infrastructure necessary to their operations.

Although we have insured against damage caused by an earthquake and other natural disasters, accidents and other similar events (including coverage for losses due to resulting business interruption), the occurrence of an earthquake in particular and any other natural disasters in general could adversely affect our results of operations and financial condition and we may be subject to further requirements from the SBS in order to provide temporary measures for the victims of the natural disasters, such as re-scheduling their credit payments. Further, any natural disaster will increase the probability of Interseguro having to pay the corresponding indemnification to customers under insurance policies that Interseguro sold, which would negatively affect its operating margins.

***Corruption and ongoing high profile corruption investigations may hinder the growth of the Peruvian economy and have a negative impact on our business and operations.***

In 2018, Peru suffered a government institutional crisis due, among other incidents, to the resignation of former President Pedro Pablo Kuczynski following allegations of corruption, several other corruption scandals involving prominent members of the judicial system and the public ministry who are now facing prosecution, and the fragmentation of the most prominent political party in Congress. Following President Kuczynski's resignation on March 23, 2018, Vice President Martín Vizcarra was sworn in as president to complete the term through 2021. Following political disputes during 2019, President Vizcarra took executive action on September 30, 2019 that dissolved Congress and called for early legislative elections, which were held on January 26, 2020. On

November 9, 2020 with the affirmative vote of the required qualified members of Congress, President Vizcarra was impeached. The current rules of succession require the vice president to assume the role as acting president, and in case of absence of the first vice president, the second vice president shall assume such role. In case of absence of both vice presidents, the president of Congress shall assume such role. Currently Peru does not have designated vice presidents (in 2016, Martin Vizcarra assumed the presidency as first vice president, and the former second vice president, Mercedes Araoz, resigned), so in accordance with the aforementioned rules of succession, on November 10, 2020 the then president of the Congress, Manuel Arturo Merino de Lama, assumed the role of acting President. Immediately thereafter, Peru underwent nationwide protests and President Merino resigned as acting President. Subsequently, on November 17, 2020, Francisco Sagasti was sworn in as acting President of the Republic for the remaining presidential term. The economic and social impact resulting from the political uncertainty generated by these occurrences at the highest levels of government raises concerns on the ability of the government to implement long-term and consistent economic and social policies required to combat social and economic issues in the future, including those designed to promote economic growth and to counteract the impact of the COVID-19 pandemic. The government's failure to do so could materially impact our business and operations.

In addition, several corruption scandals regarding authorities at municipal, regional and national government levels are also ongoing, and former and current government officials have been detained. Relatedly, Peruvian authorities are currently conducting several high profile corruption investigations relating to the activities of certain Brazilian companies and their Peruvian partners in the construction and infrastructure sectors, which have resulted in suspension or delay of important infrastructure projects, which were otherwise operational and permitted. Due to the cooperation agreement signed between the Peruvian government and Odebrecht S.A. in 2019, additional investigations and/or corruption scandals may arise. We cannot predict how these or future corruption scandals or investigations may affect the Peruvian economy, hinder the growth of the Peruvian economy and indirectly have a material adverse effect on our business, financial condition and results of operations.

***Changes in tax laws may increase our tax liabilities and, as a result, have a material and adverse effect on us.***

The Peruvian government regularly implements changes to its tax regulations and interpretations. Potential changes may include modifications in the taxable events, the taxable bases or the tax rates, or the enactment of temporary taxes that, in some cases, could become permanent taxes. These changes could, if enacted, indirectly affect us. The Peruvian government has recently introduced several changes related, among others, to thin capitalization rules (which prevents companies from deducting interests for tax purposes when certain thresholds are exceeded) and to the general anti-avoidance rule or GAAR (which entitles the tax and customs national superintendency to challenge the taxation of certain transactions with a substance-over-form criteria), which may have an impact on our subsidiaries' tax burden. We are currently unable to estimate the impact that such reforms may have on our business. The effects of any tax reform that could be proposed in the future and any other changes that could result from the enactment of additional reform or changes in interpretation have not been, and cannot be, quantified. Any changes to the Peruvian tax regime may increase our and our subsidiaries' tax liabilities or overall compliance costs, which could have a material adverse impact on our business, financial condition and results of operations.

***The dollarization of the Peruvian economy hampers monetary policy, which in turn may have an effect on our business.***

Dollarization generally refers to the degree to which the U.S. dollar has displaced the *sol* in the economy. Despite the positive effect that it may have on reducing cross-border transaction costs and preserving purchasing power, the dollarization of the Peruvian economy has also hampered monetary policy by undermining the Central Reserve Bank of Peru's ability to control the money supply. Despite the government's efforts to "solarize" the economy, the high degree of dollarization of the economy affects the Peruvian financial system by forcing the Central Reserve Bank of Peru to establish high levels of reserve requirements in U.S. dollars while also adding a risk to participating banks' balance sheets, including Interbank. An appreciation of the U.S. dollar poses a risk to us and a systemic risk to the Peruvian financial system because of the levels of U.S. dollar-denominated assets and liabilities in the Peruvian financial system. This risk comes from the potential imbalance that a bank's clients may experience when borrowing in U.S. dollars and earning in *soles*. As a result, the SBS has been enacting rules aimed to make banks capable of identifying clients with potential imbalances and establishing reserves if necessary.

Under the Peruvian Banking and Insurance Law, all financial institutions regulated by the SBS (except for small-business development non-bank institutions) are required to maintain a legal reserve (*encaje*) for certain obligations. The Central Reserve Bank of Peru may require additional and marginal reserves. The exact level and method of calculation of the reserve requirement is set by the Central Reserve Bank of Peru, which has issued different sets of regulations for foreign and local currency-denominated obligations of banks. We cannot assure you that the Central Reserve Bank of Peru will not increase the base rate or impose additional requirements in the future, or that such changes in the regulatory environment will not have an adverse effect on our business, financial condition or results of operations.

## **Risks Relating to the Common Shares**

### ***There may be a lack of liquidity and market for our common shares.***

An active and liquid market for our common shares may not be maintained. Active, liquid trading markets generally result in lower price volatility and respond more efficiently to orders from investors to purchase or sell securities. Liquidity of a securities' market is often a function of the volume of the underlying shares that are publicly-held by unrelated parties. Our common shares are listed on the Lima Stock Exchange, which is generally a less liquid trading market than the New York Stock Exchange ("NYSE").

In addition, investing in securities traded in emerging market countries, such as Peru, frequently involves a greater degree of risk when compared to investments in securities of issuers located in international securities markets with more stable economic conditions and are generally considered being more speculative in nature.

These factors affect the ability of holders of our common to sell common shares at a desirable price and time, which could have a material adverse effect on the price of our common shares. In the event an active and liquid market for our common shares does not develop or is not maintained, the market price of our common shares that could be negatively impacted.

### ***The price of our common shares may be volatile.***

The trading price of our common shares may fluctuate substantially and may be higher or lower than the price holders of our common shares pay, depending on many factors, some of which are beyond our control and may not be related to our operating performance. These fluctuations could cause holders of our common shares to lose part or all of their investment in our common shares. The factors that could cause fluctuations include, but are not limited to, the following:

- overall price and volume fluctuations affecting the stock exchanges on which our common shares are listed;
- significant volatility in the market price and trading volume of banking or insurance company securities generally, which are not necessarily related to the operating performance of these companies;
- actual or anticipated changes in our earnings, fluctuations in our operating results or the failure to meet the expectations of financial market analysts and investors;
- risks relating to the global economy and the economies of the United States, Peru and the other countries in which we operate;
- investors' perceptions of the banking and insurance industries in general and our company in particular;
- potential differences between our actual financial condition and results of operations and those expected by investors;
- additions or departures of key management personnel;
- announcements by us or our competitors of significant acquisitions, divestitures, strategic partnerships, joint ventures or capital commitments;
- increase in interest rates in Peru and the United States;
- reputational issues;
- the operating and stock performance of comparable companies;
- general economic conditions and trends;
- catastrophic events;
- changes in accounting standards, policies, guidance, interpretation or principles;
- regulatory changes;
- loss of external funding sources; or
- sales of large blocks of our stock or sales by insiders.

***We may raise additional capital in the future through the issuance of equity securities, which may result in dilution of the interests of our shareholders.***

We may need to raise additional capital and may opt for obtaining such capital through the public or private placement of common shares or securities convertible into our common shares. Our articles of incorporation do not provide for preemptive rights for our shareholders in the event of a public or private equity raise, or financing through the issuance of securities convertible into our common shares, such additional funds may dilute the percentage interests of investors in our common shares.

***The significant share ownership of our controlling shareholder may conflict with the interests of the holders of our common shares and may have an adverse effect on the future market price of our shares.***

As of December 31, 2020 our controlling shareholder (Intercorp Peru) owned, directly and indirectly, 70.64% of our capital stock. Actions by Intercorp Peru with respect to the disposition of any of our common shares that it beneficially owns or the perception that such actions will occur, may negatively affect the trading price of our common shares.

In addition, Intercorp Peru has and will continue to have the ability to elect a majority of the members of our board of directors and thus determine our business strategies, as well as determine the outcome of actions that require shareholder approval, including the approval of mergers and other extraordinary transactions and the payment of dividends. The controlling shareholder of Intercorp Peru may have interests that differ from those of the holders of our common shares and may take actions that may be adverse to their interests. The concentration of ownership may also delay, prevent or deter a change in control of our company, could deprive our shareholders of an opportunity to receive a premium for their common shares as part of a sale of our company and might ultimately affect the market price of our common shares.

In addition, we and our subsidiaries engage in numerous related party transactions with companies controlled by Intercorp Peru as well as other affiliated companies. Although Peruvian, Panamanian and Bahamian law regulate the amount of credit exposure our subsidiaries are permitted to have with our related parties, conflicts of interest may arise in the future. See “Item 7. Major Shareholders and Related Party Transactions—Related Party Transactions.”

***Holders of our common shares may have fewer and less well-defined rights than shareholders of a company organized in other jurisdictions, such as the United States.***

We are a *sociedad anónima* (corporation) organized under the laws of Panama. Our corporate affairs are governed by our organizational documents and the laws of Panama. Under such documents and laws, our shareholders, and therefore holders of our common shares, may have fewer or less well-defined rights than they might have as shareholders of a corporation incorporated in other jurisdictions, such as in the United States.

***Holders of our common shares may have difficulty enforcing judgments against us, our officers and directors.***

Substantially all of our directors, officers and certain of the experts named herein reside outside the United States, and all or substantial portions of our assets are located outside the United States. As a result, it may not be possible for holders of our common shares to effect service of process within the United States upon such persons or upon us, including with respect to matters arising under the federal securities laws of the United States, or to enforce against such persons or against us judgments of courts of the United States predicated upon the civil liability provisions of the federal securities laws of the United States.

We have been advised by our Peruvian counsel that any final and conclusive judgment for a fixed and final sum obtained against us in any foreign court having jurisdiction in respect of any suit, action or proceeding against us for the enforcement of any of the obligations assumed under this Annual Report on Form 20-F would, upon request, will be deemed valid and enforceable in Peru through an exequatur judiciary proceeding (which does not involve the reopening of the case), provided that (a) there is a treaty in effect between the country where said foreign court sits and Peru regarding the recognition and enforcement of foreign judgments or, (b) in the absence of such a treaty, the original judgment is ratified by the Peruvian courts under such *exequatur* proceeding, subject to the provisions of the Peruvian Civil Code and the Peruvian Civil Procedure Code, *provided, further*, that the following conditions and requirements are met: (i) the foreign judgment does not resolve matters under the exclusive jurisdiction of Peruvian courts, (ii) such foreign court had jurisdiction under its own private international conflicts of law rules and under general principles of international procedural jurisdiction, (iii) the defendant was served in accordance with the laws of the place where such proceeding took place, was granted a reasonable opportunity to appear before such foreign court and was guaranteed due process rights, (iv) the foreign judgment has the status of *res judicata* in the jurisdiction of the court rendering such judgment, (v) there is no pending litigation in Peru between the same parties for the same dispute, which shall have been initiated before the commencement of the proceeding that concluded with the foreign judgment, (vi) the foreign judgment is not incompatible with another judgment that fulfills the requirements of recognition and enforceability established by Peruvian law unless such foreign judgment was rendered first, (vii) the foreign judgment is not contrary to public order (*orden público*) or good morals (*buenas costumbres*), (viii) it is not proven that such foreign court denies enforcement of Peruvian judgments or engages in a review of the merits thereof, (ix) the judgment has been (a) duly apostilled by the competent authority of the jurisdiction of the issuing court, in case of jurisdictions that are parties to the Hague Apostille Convention,

or (b) certified by Peruvian consular authorities, in case of jurisdictions that are not parties to the Hague Apostille Convention, and is accompanied by a certified and officially translated copy of such judgment into Spanish, and (x) the applicable court taxes and filing fees have been paid.

We have been advised by our Panamanian counsel that there is uncertainty as to the enforceability in original actions in Panamanian courts of liabilities predicated solely on the U.S. federal securities laws and as to the enforceability in Panamanian courts of judgments of U.S. courts obtained in actions predicated upon the civil liability provisions of the federal securities laws of the United States. There is no existing treaty between the United States and Panama for the reciprocal enforcement of foreign judgments of courts outside Panama, including without limitation, judgments of U.S. courts. Panamanian courts, however, have enforced judgments rendered in the United States based on legal principles of reciprocity and comity. We have been advised by our Panamanian counsel that judgments rendered by foreign courts may only be recognized and enforced by the courts of Panama in the event that the Supreme Court of Panama validates such judgment by the issuance of a writ of exequatur. Subject to a writ of exequatur, any final judgment rendered by any U.S. court will be recognized, conclusive and enforceable in the courts of Panama without reconsideration of the merits, provided that: (i) such foreign court grants reciprocity to the enforcement of judgments of the courts of Panama; (ii) the party against which the judgment was rendered was personally served (service by mail not being sufficient) in such action within such foreign jurisdiction; (iii) the judgment arises out of a personal action against the defendant; (iv) the obligation in respect of which the judgment was rendered is lawful in Panama and does not contradict the public policy of Panama; (v) the judgment is properly authenticated by diplomatic or consular officers of Panama or pursuant to the 1961 Hague Convention on the Legalization of Documents; and (vi) a copy of the final judgment is translated into Spanish by a licensed translator in Panama. We have no reason to believe that any of our obligations relating to the shares would be contrary to Panamanian law.

The laws of Peru and Panama may not be as favorable to the interests of holders of our common shares as the laws of jurisdictions with which they are familiar. The application of these laws, or any conflict among them, could call into question what and how the laws of each jurisdiction should apply.

In addition, our articles of incorporation contain a general indemnification provision for our officers and directors for any loss, change or payment arising out of any claim or right of action, both individually and on our behalf, against any of them. Directors and officers and their successors and their property will be compensated for and kept safe, during the time devoted to the Company in relation to any of the affairs thereof, from any action, costs, charges, losses, damages and expenses which any of them may incur or sustain by reason of any act or omission done in the performance of their duties, and none of them will be liable for the acts, neglect or omissions of others, even if his signature or action has been provided as internal or external requirement. The indemnity provision does not cover any damage or loss resulting from malice or inexcusable negligence on the part of any of our officers or directors.

***Judgments of Peruvian courts with respect to our common shares will be payable only in soles.***

If proceedings are brought in the courts of Peru seeking to enforce our obligations in respect of our common shares, we will not be required to discharge our obligations in a currency other than *soles*. Under Peruvian exchange control limitations, an obligation in Peru to pay amounts denominated in a currency other than *soles* may be satisfied in Peruvian currency only at the exchange rate, as determined by the Central Reserve Bank of Peru, in effect on the date the judgment is obtained, and such amounts are then adjusted to reflect exchange rate variations through the effective payment date. The then prevailing exchange rate may not afford non-Peruvian investors with full compensation for any claim arising out of or related to our obligations under our common shares.

***We are subject to different corporate disclosure and accounting standards than those holders of our common shares may be familiar with in the United States.***

As a corporation organized under the laws of Panama, our corporate affairs are governed by the laws of Panama. In addition, as our common shares are listed on the Lima Stock Exchange and the majority of our subsidiaries' operations are in Peru, we follow Panamanian and most Peruvian practices concerning corporate governance and intend to continue to do so. Financial reporting and securities disclosure requirements in Panama and Peru differ in certain significant respects from those required in the United States. There are also material differences among IFRS, SBS GAAP and U.S. GAAP. Accordingly, the information about us available to holders of our common shares will not be the same as the information available to holders of shares issued by a U.S. company. Furthermore, we recently adopted IFRS 9 and, as a result, some of our financial data may not be easily comparable from period to period.

In addition, the Peruvian Securities Market Law, which governs open or publicly listed companies, such as us, imposes disclosure requirements that are more limited than those in the U.S. in certain important respects. Although Peruvian law imposes restrictions on insider trading and price manipulation, applicable Peruvian laws are different from those in the United States, and the Peruvian securities markets are not as highly regulated and supervised as the U.S. securities markets.

***We could be considered a passive foreign investment company for U.S. federal income tax purposes, which could result in adverse U.S. tax consequences for U.S. investors.***

Based on our current expectations regarding the value and nature of our assets, the sources and nature of our income, relevant market and shareholder data and our current business plans, we believe that we will not be treated as a passive foreign investment company, or PFIC, for U.S. federal income tax purposes with respect to our 2020 and current taxable years, and we do not anticipate becoming a PFIC in the future. Characterization as a PFIC could result in adverse U.S. tax consequences to holders of our common shares if they are U.S. investors. Certain elections may be available to mitigate the consequences if we are treated as a PFIC for U.S. federal income tax purposes. See “Item 10. Additional Information—Taxation—United States Federal Income Tax Considerations—Passive Foreign Investment Companies” included elsewhere in this Annual Report on Form 20-F.

***One or more of our subsidiaries could be classified as a PFIC for U.S. federal income tax purposes.***

As discussed in more detail in “Taxation—United States Federal Income Tax Considerations,” U.S. investors face unique U.S. tax issues from indirectly owning interests in a PFIC that may result in adverse U.S. tax consequences to them. See “Item 10. Additional Information—Taxation—United States Federal Income Tax Considerations—Passive Foreign Investment Companies” included elsewhere in this Annual Report on Form 20-F.

***If we are unable to maintain effective internal control over financial reporting in the future, our results of operations and the price of our common shares could be adversely affected.***

Pursuant to Section 404 of the Sarbanes-Oxley Act of 2002, beginning with this Annual Report on Form 20-F, our management will be required to report on, and our independent registered public accounting firm to attest to, the effectiveness of our internal control over financial reporting.

The rules governing the standards that must be met for management to assess our internal control over financial reporting are complex and require significant documentation, testing and possible remediation. We can provide no assurance that from time to time we will not identify concerns that could require remediation. Any failure to implement required new or improved controls, or difficulties encountered in their implementation, could harm our operating results or cause us to fail to meet our reporting obligations in the future. If we are unable to conclude that we have effective internal control over financial reporting, or if our independent registered public accounting firm is unable to provide us with an unqualified opinion regarding the effectiveness of our internal control over financial reporting in subsequent years as required by Section 404, investors could lose confidence in the reliability of our financial statements, which could result in a decrease in the value of our common shares.

Failure to comply with Section 404 could also potentially subject us to sanctions or investigations by the SEC, the NYSE or other regulatory authorities.

***The requirements of being a public company may strain our resources, divert management’s attention and affect our ability to attract and retain qualified board members or executive officers.***

As a public company, we incur significant legal, accounting and other expenses that we have not incurred as a private company, including costs associated with public company reporting requirements. We also have incurred and will incur costs to establish systems to comply with the Sarbanes-Oxley Act of 2002, as amended, and related rules implemented by the SEC. The expenses incurred by public companies generally for reporting and corporate governance purposes have been increasing. We expect these rules and regulations to increase our legal and financial compliance costs and to make some activities more time consuming and costly, although we are currently unable to estimate these costs with any degree of certainty. These laws and regulations could also make it more difficult or costly for us to obtain certain types of insurance, including director and officer liability insurance, and we may be forced to accept reduced policy limits and coverage or incur substantially higher costs to obtain the same or similar coverage. These laws and regulations could also make it more difficult for us to attract and retain qualified persons to serve on our board of directors, our board committees or as our executive officers and may divert management’s attention. Furthermore, if we are unable to satisfy our obligations as a public company, we could be subject to delisting of our common shares, fines, sanctions and other regulatory action and potentially civil litigation which may adversely affect us.

***Our status as a foreign private issuer allows us to follow alternate standards to the corporate governance standards of the NYSE, which may limit the protections afforded to investors.***

We are a “foreign private issuer” within the meaning of the NYSE corporate governance standards. Under NYSE rules, a foreign private issuer may elect to comply with the practices of its home country and not comply with certain corporate governance requirements applicable to U.S. companies with securities listed on the exchange. We currently follow certain Panamanian and most Peruvian practices concerning corporate governance and intend to continue to do so. Accordingly, holders of our common shares will not have the same protections afforded to shareholders of companies that are subject to all of the NYSE corporate governance requirements.

For example, the NYSE listing standards provide that the board of directors of a U.S. listed company must have a majority of independent directors at the time the company ceases to be a “controlled company”. The listing standards for the NYSE also require that U.S. listed companies, at the time they cease to be “controlled companies,” have a nominating/corporate governance committee and a compensation committee (in addition to an audit committee). Each of these committees must consist solely of independent directors and must have a written charter that addresses certain matters specified in the listing standards. Under both Panamanian and Peruvian law, companies may, but are not required to, form special governance committees, which may be composed partially or entirely of non-independent directors. In addition, NYSE rules require the independent non-executive directors of U.S. listed companies to meet on a regular basis without management being present. There is no similar requirement under Peruvian and Panamanian law.

The NYSE’s listing standards also require U.S. listed companies to adopt and disclose corporate governance guidelines. In December 2013, the SMV published the new Code of Good Governance for Peruvian Companies. Although we have implemented most of these measures, those principles are not mandatory and therefore we are not legally required to comply with the corporate governance guidelines, but are required to disclose whether or not we are in compliance. We are fully compliant with Panamanian corporate law and are part of the Index of Good Corporate Governance (*Índice de Buen Gobierno Corporativo*) maintained by the Lima Stock Exchange.

***If securities or industry analysts do not actively follow our business, or if they publish unfavorable research about our business, the price and trading volume of our common shares could decline.***

The trading market for our common shares will depend, in part, on the research and reports that securities or industry analysts publish about us or our business. If analysts do not cover our company, the trading price for our common shares may be negatively impacted. If one or more of the analysts who covers us downgrades our common shares or publishes unfavorable research about our business, the price of our common shares would likely decline. If one or more of these analysts ceases coverage of our company or fails to publish reports on us regularly, demand for our common shares could decrease, which could cause the price and trading volume of our common shares to decline.

***Future offerings of debt or preferred securities may limit our operating and financial flexibility and may materially adversely affect the market price of, and dilute the value of, the common shares.***

If we decide to issue debt or preferred securities in the future or otherwise incur indebtedness, it is possible that these debt or preferred securities or indebtedness will be governed by an indenture or credit agreement or other instrument containing covenants restricting our operating flexibility and limiting our ability to make distributions to holders of the common shares. Additionally, any convertible or exchangeable securities that we issue in the future may have rights, preferences and privileges, including with respect to distributions, more favorable than those of the common shares and may result in dilution to holders of the common shares. Because our decision to issue securities in any future offering or otherwise incur indebtedness will depend on market conditions and other factors beyond our control, we cannot predict or estimate the amount, timing or nature of our future offerings or financings, any of which could materially reduce the market price of the common shares and dilute the value of the common shares.

***Peruvian corporations, including our subsidiaries, may be jointly and severally liable for any unpaid Peruvian capital gains tax related to the transfer of the common shares.***

Peruvian corporations, including our subsidiaries, may be jointly and severally liable for any unpaid Peruvian capital gains tax related to the transfer of shares issued by their foreign holding company.

In accordance with Peruvian income tax laws and regulations, in the case of the direct or indirect transfer by a non-Peruvian resident of shares issued by a Peruvian corporation, the Peruvian corporation whose shares were directly or indirectly transacted will be jointly liable with the non-Peruvian transferor for any unpaid capital gain tax obligations (plus accrued interest and penalties) arising from such sale/purchase, if during any of the 12 months preceding the transaction, *inter alia*, (i) the non-Peruvian transferor held an indirect or direct interest of more than 10% in the equity of the Peruvian corporation that issued the shares being directly or indirectly transferred, or (ii) the non-Peruvian transferor and the Peruvian corporation that issued the shares being transferred consolidate financial statements. If such a transfer were to occur and the resulting Peruvian capital gains tax were not paid by the transferor, it could have a material adverse effect on our business, financial condition or results of operations.

#### **ITEM 4. INFORMATION ON THE COMPANY**

##### **A. History and Development of the Company**

Our legal name is Intercorp Financial Services Inc. and we are organized as a corporation (*sociedad anónima*) under the laws of Panama since 2006. Our principal executive offices are located at Av. Carlos Villarán 140, 5th Floor, Urbanización Santa Catalina, La Victoria, Lima 13, Peru. Our telephone number is +(511) 615-9011. Our website is [www.ifs.com.pe](http://www.ifs.com.pe).

We are the majority owner and controlling shareholder of our subsidiaries, Interbank, Interseguro and Inteligo, which comprise our banking, insurance and wealth management segments, respectively. We are responsible for coordinating, supervising and establishing their strategy and management policies. In 2007, we conducted an initial public offering of our common shares publicly in Peru and privately outside of Peru. Our parent company is Intercorp Peru, a holding company for a group of companies operating mainly in Peru under the name “Intercorp”. Intercorp Peru’s main subsidiaries include our company and Intercorp Retail. Intercorp Retail acts as a holding company for the retail and real estate operations of Intercorp Peru in Peru. As of December 31, 2020, Intercorp Peru owns, directly and indirectly, 70.64% of IFS’ capital stock.

Interbank is an open-stock corporation (*sociedad anónima abierta*). Interbank was incorporated in Lima, Peru in 1897 and formerly conducted business under the names “Banco Internacional del Perú S.A.” and “Interbank”. In August 1994, as part of the government’s privatization efforts, 91% of Interbank’s share capital was acquired by Corporación Interbank, which subsequently transferred its holdings in Interbank to the Rodríguez-Pastor family through Intercorp Peru, a limited liability company organized under the laws of the Commonwealth of The Bahamas that is listed on the Lima Stock Exchange. After Interbank’s acquisition by Intercorp Peru in 1994, Interbank began conducting business under the name “Interbank” as part of a rebranding and modernization effort, and has become a leading universal bank in Peru. As of December 31, 2020, IFS holds 99.30% of the capital stock of Interbank.

Interseguro is a corporation (*sociedad anónima*) that was incorporated in 1998 by Intercorp Peru, pursuant to an agreement between Intercorp Peru and The Bankers Trust Company (“Bankers Trust”) (at the time the controlling shareholder of Consorcio Nacional de Seguros S.A.A., the largest insurer in Chile) to benefit from the expansion of the insurance business in Peru. In connection with the sale of Bankers Trust to Deutsche Bank AG in 1999, Bankers Trust’s interest in Interseguro was sold to a group of Chilean investors, and in 2000 Intercorp Peru acquired the portion of Interseguro that it did not own.

On May 31, 2017, we entered into a share purchase agreement with Sura Asset Management Company (“SUAM”) and “Grupo Wiese” to acquire 100% of the capital stock of Seguros Sura S.A. (“Seguros Sura”) and Hipotecaria Sura Empresa Administradora Hipotecaria S.A. (“Hipotecaria Sura”) (the “Sura Acquisition”) for an initial base price of U.S.\$268 million. The transaction became effective on November 2, 2017 and the approval by SBS was granted on September 28, 2017. This merger consolidated Interseguro’s leadership in the annuities market, as well as strengthened its position in credit life insurance.

Inteligo was incorporated under the laws of the Republic of Panama in 2006. Inteligo Bank is a corporation that was incorporated in 1995 in The Bahamas and formerly conducted business under the names of Interbank Overseas Ltd. and Blubank Ltd. Inteligo SAB is a corporation (*sociedad anónima*) that started operations in 1993. On July 18, 2014, the board of directors of IFS approved the acquisition of Inteligo, effective on August 1, 2014. This reorganization entailed the acquisition of 100% of Intercorp Peru’s shares in Inteligo by IFS in exchange for 19.5 million IFS common shares. Inteligo SAB is organized under the laws of Peru, and is licensed by the SMV to operate in Peru and conduct brokerage, custody, portfolio management and advisory services.

Interfondos S.A., Sociedad Administradora de Fondos (“Interfondos”) is a corporation (*sociedad anónima*) that started operations in 1994. It is organized under the laws of Peru, and is licensed by the SMV to operate in Peru and conduct mutual funds and investment funds management services.

In January 2019, we announced the consolidation of our wealth management activities at Inteligo by transferring Interbank’s mutual funds subsidiary, Interfondos, to Inteligo Group, where asset management is the core business.

Finally, in July 2019 we, together with Interbank, Intercorp Peru and a non-related shareholder conducted a SEC-registered initial public offering as a result of which IFS sold 1,150,000 newly-issued common shares and 2,418,754 treasury common shares (including shares sold by Interbank), Intercorp Peru sold 2,531,246 common shares and the non-related shareholder sold 3,000,000 common shares. In addition, the underwriters partially exercised their option to purchase 1,350,000 additional shares, which resulted in the purchase of 1,186,841 newly-issued common shares.

Although historically we have delivered returns for our shareholders supported by a strong bottom-line generation, our distribution of dividends in 2021, based on our 2020 results, were negatively affected by the COVID-19 pandemic. We first paid dividends in 2008 for a total amount of U.S.\$40 million, based on U.S.\$89 million net profit under SBS GAAP in 2007. In 2015, one year after Inteligo was incorporated into IFS, we declared dividends for U.S.\$181 million on 2014 results, which reached S/964 million under IFRS. In 2020, dividends were U.S.\$202 million based on 2019 results. In such year, net profit was S/1,450 million under IFRS. In 2021, dividends will be U.S.\$88.9 million based on 2020 results. In such year, net profit was S/384 million under IFRS. Furthermore, our market capitalization has increased from U.S.\$1.2 billion in 2007 to U.S.\$3.7 billion as of December 31, 2020, based on a price of U.S.\$32.40, as reported by the NYSE.

We also continue to make significant digital and physical infrastructure capital expenditure investments in our different segments. For a description of our capital expenditures, see “Item 5. Operating and Financial Review and Prospects—Liquidity and Capital Resources—Capital Expenditures Program”.

The SEC maintains an Internet site that contains reports, proxy and information statements, and other information regarding issuers that file electronically with the SEC (<http://www.sec.gov>). The materials included in this Annual Report on Form 20-F may be downloaded at the SEC's website: <http://www.sec.gov>. ## B. Business Overview

### Overview

IFS is a leading provider of banking, insurance and wealth management services for retail customers and commercial clients in Peru. Our purpose is to empower all Peruvians to achieve financial well-being, and as such, we have built an integrated financial services platform in the fast-growing, underpenetrated and profitable Peruvian financial system. We have invested in building a leading and scalable digital platform (mobile and online), which is rapidly being adopted by existing and new customers. Our digital platform is complemented by one of the largest distribution networks in the country which includes financial stores, ATMs, correspondent agents, dedicated sales forces, financial advisors, and call centers. Together our digital platform and distribution network provide our more than 6.0 million customers, a potential market of more than 32 million Peruvians and close to 10 million businesses with access to our products and services and a distinctive and convenient customer experience.

We manage our business in three segments, banking, insurance and wealth management, which complement each other and represent diversified sources of revenue. Our banking segment operates through our subsidiary Interbank, which is the second largest provider of consumer loans in Peru, according to the SBS. Interbank provides a full range of retail banking and commercial banking products, and services to individuals, large companies, and small and medium enterprises. Our insurance segment operates through our subsidiary Interseguro, which is the leading provider of annuities in Peru by premiums and one of the leading life insurance companies in the country according to the SBS. Interseguro provides a wide range of retirement, savings, life, unemployment and other insurance products mainly to retail customers. Our wealth management segment operates mainly through our subsidiaries Inteligo Bank, Inteligo SAB and Interfondos, which together provide wealth management, private banking, financing, brokerage, advisory and other investment services mainly to high net worth individuals.

Our key strategic priority is to achieve digital excellence for our customers by providing them with a world-class, flexible and secure digital platform. We believe our digital transformation is vital to our continued growth and profitability, and for this reason we have been investing in developing the capabilities necessary to offer digital products and services to our customers. In December 2020, more than 1,718,000 retail customers used our digital platform compared to more than 600,000 in December 2017. More than 1,317,000 retail customers no longer utilize physical channels other than ATMs in December 2020. We are aiming to allow our customers to have a 100% digital relationship with us in an efficient and secure manner. We have also streamlined our physical presence and reduced the number of branches by approximately 21% since December 2017, focusing on educating our customers in the use of our digital platform. To accompany this transformation, we are in the process of redesigning our physical presence in order to better serve the evolving needs of our customers. We have substantially increased migration of low-value-added transactions to more efficient digital channels, and we have increased sales of products to existing customers, as well as increased new customer acquisition of which a growing number are being acquired digitally or "born-digital." This process of digital customer acquisition and sales has been accelerating, for example, in December 2020, 44% of new retail clients were acquired digitally compared to 22% in December 2019, and more than 51% of sales of new products to retail customers were performed digitally compared to 42% in December 2019.

We aim to be the company that best knows the needs of Peruvians. Our advanced analytics and CRM capabilities are being enriched with new sources of data and new tools that technology offers, such as cloud, real-time decision, machine learning and artificial intelligence. We believe that a deep knowledge of our current and potential customers allows us to offer them the best solutions for their financial needs across our banking, insurance and wealth management segments. Through this deep knowledge we have also been able to enhance our risk models, helping us to propel growth and continue to improve our profitability.

The following table shows the evolution of our reported net profit, dividends, ROE and ROA and our adjusted net profit, ROE and ROA, from 2018 through 2020:

	For the years ended December 31,			
	2020	2020	2019	2018
	(U.S.\$ in millions) <sup>(3)</sup>	(S/ in millions)		
Net profit	105.9	383.5	1,450.1	1,091.4
Adjusted net profit <sup>(1)</sup>	141.9	513.9	1,479.1	1,236.2
Dividends declared for the year <sup>(2)</sup>	88.9	332.1	698.2	654.5

	For the years ended December 31,			
	2020	2020	2019	2018
	(U.S.\$ in millions) <sup>(3)</sup>	(S/ in millions)		
ROE	—	4.5%	18.3%	16.6%
Adjusted ROE <sup>(1)</sup>	—	6.0%	18.6%	18.6%
ROA	—	0.5%	2.1%	1.8%
Adjusted ROA <sup>(1)</sup>	—	0.6%	2.2%	2.0%

- (1) Net profit, ROA and ROE for the year ended December 31, 2020, excluding S/130.4 million after taxes related to the initial negative impact on interest and similar income from the modification of contractual cash flows due to the loan rescheduling schemes offered to customers of Interbank affected by the COVID-19 pandemic, not considering the positive impact of the recovery over time of any part of such amount, between the date of initial recording and December 31, 2020; for the year ended December 31, 2019, excluding financial expense of S/29.0 million after taxes from the execution of a liability management transaction at Interbank; and for the year ended December 31, 2018, excluding S/144.8 million, which is the aggregate effect recorded in our insurance segment's technical reserves due to a change in accounting estimates driven by the publication by the SBS of new mortality tables. Adjusted net profit, adjusted ROA and adjusted ROE are non-GAAP accounting measures and should not be considered in isolation or as a substitute for net profit, ROA or ROE, or other performance measures. See "Presentation of Financial Information—Non-GAAP financial measures" and "Item 4. Information on the Company—Business Overview—Non-GAAP Financial Measures."
- (2) Dividends are declared and paid in U.S. dollars. Dividends declared for fiscal year 2020 will be paid in 2021, dividends declared in 2019 and 2018 were paid in 2020 and 2019 and amounted to U.S.\$202 million and U.S.\$197.2 million, respectively. See "Item 8. Financial Information—Consolidated Statements and Other Financial Information—Dividends and dividends policy".
- (3) Amounts stated in U.S. dollars as of and for the year ended December 31, 2020 have been translated from *soles* at the exchange rate of S/3.621 = U.S.\$1.00.

As of December 31, 2020, we had total assets of S/88.2 billion (approximately U.S.\$24.4 billion), total gross loans of S/43.1 billion (approximately U.S.\$11.9 billion), total deposits and obligations of S/47.1 billion (approximately U.S.\$13.0 billion) and shareholders' equity of S/8.9 billion (approximately U.S.\$2.5 billion).

While the business of most of our subsidiaries, except for Interbank, returned to profitability in the months following the initial outbreak of COVID-19, our consolidated net profit was materially adversely affected. For the year ended December 31, 2020, our consolidated net profit was S/383.5 million as compared to S/1,450.1 million in 2019.

We operate the following three business segments:

- **Banking:** Interbank is the second largest provider of consumer loans in Peru with a 22.0% market share in terms of total gross consumer loans outstanding as of December 31, 2020, according to the SBS. Interbank is the largest provider of consumer credit card loans with a 27.5% market share and the largest provider (among non-government owned banks) of payroll deduction loans to public sector employees with a 26.7% market share as of December 31, 2020, according to the SBS. Additionally, it is the fourth largest bank in Peru in terms of outstanding retail mortgages and the fourth largest bank in Peru in terms of commercial lending, total deposits and total assets. Interbank has built one of the most convenient and extensive retail banking distribution platforms in Peru including, online banking, mobile applications, a total of 215 financial stores, 1,640 ATMs and 3,331 correspondent agents, as of December 31, 2020.

As of and for the year ended December 31, 2020, Interbank represented 77.1% of our total assets.

For the 2020 fiscal year, Interbank did not declare a dividend.

With a significant focus on the emerging middle class, Interbank has a higher percentage of retail loans, which account for 46.4% of its total loan portfolio, compared to the banking system's average of 31.8% as of December 31, 2020.

Interbank's CAGR in gross loans, and deposits and obligations between 2016 and 2020 was 12.1% and 13.4%, respectively. For the year ended December 31, 2020, Interbank reported a loss of S/5.7 million attributed to the effect of the COVID-19 pandemic.

- **Insurance:** Interseguro is the leading provider of annuities (excluding private annuities) in Peru, with a 27.3% market share as measured by total premiums collected during 2020, according to the SBS, and is one of the leading life insurance companies in Peru. In addition, Interseguro offers private annuities, individual life insurance, disability and survivorship insurance, as well as low premium retail insurance products, including credit life, mandatory traffic accident insurance ("**SOAT**"), car insurance and credit card protection insurance, through a comprehensive multi-channel distribution platform which includes Interseguro's sales force, which is a key component of Interseguro's sales. Interseguro also distributes through Interbank, retailers and its own digital channels. Due to the COVID-19 pandemic, Interseguro retooled its sales force to provide customers with a 100% remote assistance and digital operation. Prior to the pandemic, sales in annuities and life insurance products were only conducted in-person, but digitalization of these sales was accelerated.

According to the SBS, in 2020 Interseguro was the second largest insurance company measured by reserves, driven both by organic growth and the acquisition of Seguros Sura in November 2017, which both improved its ROE and doubled its asset size.

As of and for the year ended December 31, 2020, Interseguro represented 17.4% of our total assets.

For the 2020 fiscal year, Interseguro declared a dividend of S/200 million (or U.S.\$55.2 million), which represents 59.2% of total dividends to be received by IFS. For the year ended December 31, 2020, Interseguro's net profit was S/141.1 million and its ROE was 18.9%.

- *Wealth management:* Inteligo is a provider of wealth management services, which includes banking, financing, brokerage and investing activities for high net worth individuals through three operating subsidiaries: Inteligo Bank, Inteligo SAB (brokerage) and Interfondos (mutual funds).

As of and for the year ended December 31, 2020, Inteligo represented 4.9% of our total assets.

For the 2020 fiscal year, Inteligo Bank declared a dividend of U.S.\$38 million (or approximately S/137.6 million), which represents 40.8% of total dividends to be received by IFS.

Inteligo's CAGR in assets under management was 8.1% between 2016 and 2020. In addition, for the year ended December 31, 2020, Inteligo's net profit was S/243.1 million and ROE was 28.0%.

The following tables provide certain financial and other information about our three business segments for the period indicated.

	As of and for the year ended December 31, 2020							
	Assets		Equity		Net Profit/(Loss)		Adjusted Net Profit/(Loss) <sup>(1)</sup>	
	(S/ in millions)	%	(S/ in millions)	%	(S/ in millions)	%	(S/ in millions)	%
Banking	68,038.6	77.1%	6,224.5	69.5%	(5.7)	(1.5)%	124.7	24.3%
Insurance	15,311.3	17.4%	935.3	10.4%	141.1	36.8%	141.1	27.5%
Wealth management	4,308.6	4.9%	1,074.9	12.0%	243.1	63.4%	243.1	47.3%
Holding and eliminations <sup>(2)</sup>	577.5	0.7%	719.2	8.0%	5.0	1.3%	5.0	1.0%
<b>Total</b>	<b>88,236.0</b>	<b>100.0%</b>	<b>8,953.9</b>	<b>100.0%</b>	<b>383.5</b>	<b>100.0%</b>	<b>513.9</b>	<b>100.0%</b>

- (1) Adjusted net profit of the banking segment, for the year ended December 31, 2020, is calculated excluding S/130.4 million after taxes related to the negative impact on interest and similar income from as a result of the modification of contractual cash flows due to the loan rescheduling schemes offered to customers of Interbank affected by the COVID-19 pandemic, not considering the positive impact of the recovery over time of any part of such amount, between the date of initial recording and December 31, 2020. Adjusted net profit is a non-GAAP financial measure and should not be considered in isolation or as a substitute for net profit, or other performance measures. See "Presentation of Financial Information—Non-GAAP financial measures" and "Item 4. Information on the Company—Business Overview—Non-GAAP Financial Measures."
- (2) Holding and eliminations corresponds to expenses of IFS and elimination of intercompany transactions.

The following table provides relevant information about dividends declared by each of our subsidiaries:

	SBS GAAP						IFRS		
	Interbank		Interseguro				Inteligo Bank		
			For the years ended December 31,						
	2020	2019	2018	2020	2019	2018	2020	2019	2018
	(S/ in millions)						(U.S.\$ in millions)		
Net profit for the period <sup>(1)</sup>	264.9	1,221.5	1,040.1	256.6	435.9	361.1	71.6	58.1	56.2
Dividends declared <sup>(2)</sup>	—	302.3	467.0	200.0	200.0	245.0	38.0	30.0	40.0
Payout ratio	—	24.7%	44.9%	77.9%	45.9%	67.8%	53.1%	51.6%	71.2%

- (1) For Interbank and Interseguro, this information is calculated using SBS GAAP. This table is presented in this manner because our Peruvian subsidiaries pay dividends to us on the basis of SBS GAAP and Inteligo pays dividends to us on the basis of IFRS. In all cases, the information is derived from stand-alone information from each entity.
- (2) Represents dividends for the fiscal year which are declared and paid in the following year.

The following tables provide certain financial and other information about our consolidated business.

- (1) Our consolidated financial information for 2017 and 2016 was restated as a result of a voluntary change in accounting policy regarding our method of accounting the variation in market interest rates on insurance contract liabilities. See Note 3.4(d) to our audited annual consolidated financial statements.
- (2) Amounts stated in U.S. dollars as of and for the year ended December 31, 2020 have been translated from *soles* at the exchange rate of S/3.621 = U.S.\$1.00.
- (3) Except for percentages and ratios and distribution and customer data.
- (4) Adjusted net profit, adjusted ROA and adjusted ROE for the year ended December 31, 2020, excluding S/130.4 million after taxes related to the negative impact on interest and similar income from the modification of contractual cash flows due to the loan rescheduling schemes offered to customers of Interbank affected by the COVID-19 pandemic, not considering the positive impact of the recovery over time of any part of such amount, between the date of initial recording and December 31, 2020; for the year ended December 31, 2019, are calculated excluding financial expense of S/29.0 million after taxes from the execution of a liability management transaction at Interbank; and for the year ended December 31, 2018, are calculated excluding the effect of S/144.8 million due to a change in accounting estimates driven by the publication by the SBS of new mortality tables. Net profit was not adjusted for 2017 and 2016. For the year ended December 31, 2019, adjusted net profit for the banking segment is calculated excluding (i) financial expense of S/29.0 million after taxes from the execution of a liability management transaction and (ii) the gain of S/32.4 million after taxes on the sale of Interfondos to Inteligo, which is eliminated upon consolidation. For our wealth management segment, we defined adjusted net profit as net profit excluding financial expense of S/3.8 million related to the amortization of assets acquired as part of the Interfondos discussed above, which is also eliminated upon consolidation. Adjusted net profit, adjusted ROE and adjusted ROA are non-GAAP financial measures and should not be considered in isolation or as a substitute for net profit, ROE or ROA, or other performance measures. See "Presentation of Financial Information—Non-GAAP financial measures" and "Item 4. Information on the Company—Business Overview—Non-GAAP Financial Measures."

- (5) Net interest margin is defined as (x) net interest and similar income divided by (y) average interest-earning assets. See “Item 4. Information on the Company—Selected Statistical Information.”
- (6) Risk adjusted net interest margin is defined as net interest margin after impairment loss on loans, net of recoveries.
- (7) Efficiency ratio is calculated by dividing (x) salaries and employee benefits plus administrative expenses plus depreciation and amortization by (y) net interest and similar income plus other income plus net premiums earned.
- (8) At end of period. See “Presentation of Financial Information—Loan Portfolio Data”.
- (9) Cost of risk is defined as impairment loss on loans, net of recoveries divided by average gross loans.
- (10) Calculated for Interbank only pursuant to SBS regulations.
- (11) ASBANC estimates, for 2016-2019 and Company estimates for 2020.

(12) In the month of December for each full year.

(13) Percentage of digital users over total clients that interact with Interbank.

## Non-GAAP Financial Measures

In this Annual Report on Form 20-F, we use adjusted net profit, adjusted ROE and adjusted ROA. These measures are not calculated in accordance with IFRS and we collectively refer to these as non-GAAP financial measures. For more information see “Presentation of Financial Information—Non-GAAP Financial Measures”.

The following table presents adjusted net profit, adjusted ROE and adjusted ROA on a consolidated basis and for each of our three business segments, as of and for the years ended December 31, 2020, 2019 and 2018:

As of December 31, 2020										
	Net profit	Adjustment <sup>(1)</sup>	Adjusted Net Profit	Average total assets	ROA	Adjusted ROA	Average total equity	ROE	Adjusted average total equity	Adjusted ROE
Banking	(5.7)	130.4	124.7	60,922.4	0.0%	0.2%	6,140.0	(0.1)%	6,166.1	2.0%
Insurance	141.1	—	141.1	14,285.2	1.0%	1.0%	748.6	18.9%	748.6	18.9%
Wealth Management	243.1	—	243.1	4,215.9	5.8%	5.8%	868.0	28.0%	868.0	28.0%
Holding and eliminations	5.0	—	5.0	456.8	—	—	758.5	—	758.5	—
<b>Total</b>	<b>383.5</b>	<b>130.4</b>	<b>513.9</b>	<b>79,880.4</b>	<b>0.5%</b>	<b>0.6%</b>	<b>8,515.1</b>	<b>4.5%</b>	<b>8,541.2</b>	<b>6.0%</b>

- (1) Adjusted net profit of the banking segment, for the year ended December 31, 2020, is calculated excluding S/130.4 million after taxes related to the negative impact on interest and similar income from the modification of contractual cash flows due to the loan rescheduling schemes offered to customers of Interbank affected by the COVID-19 pandemic, not considering the positive impact of the recovery over time of any part of such amount, between the date of initial recording and December 31, 2020. Adjusted net profit is a non-GAAP financial measure and should not be considered in isolation or as a substitute for net profit, or other performance measures. See “Presentation of Financial Information—Non-GAAP financial measures.”

As of December 31, 2019										
	Net profit	Adjustment <sup>(1)</sup>	Adjusted Net Profit	Average total assets	ROA	Adjusted ROA	Average total equity	ROE	Adjusted average total equity	Adjusted ROE
Banking	1,228.5	(3.4)	1,225.2	50,536.3	2.4%	2.4%	5,783.6	21.2%	5,763.5	21.3%
Insurance	130.4	—	130.4	13,382.1	1.0%	1.0%	921.4	14.2%	921.4	14.2%

## Market Opportunity

We believe that the ongoing growth of the Peruvian economy, the expanding middle class, the growth of private wealth creation in Peru, the low penetration of financial services and the well-capitalized and profitable Peruvian financial system offer significant opportunities for our continued growth. Moreover, the economic impact caused by the ongoing COVID-19 pandemic and the response measures implemented by the Peruvian government opened up new opportunities to accelerate our digital transformation and growth in deposits and loans, enabling us to efficiently acquire and serve more clients, while providing distinctive and convenient customer service and greater access and inclusion to financial services to previously underserved Peruvians.

### *Growing economy with solid macroeconomic fundamentals*

Although the effects of the COVID-19 pandemic that led to a GDP contraction of 11.1% in 2020 in Peru (compared to contractions of 6.8% in Colombia, 6.0% in Chile, 8.2% Mexico and 4.1% in Brazil), prior to the pandemic, Peru's average GDP growth rate was 3.2% between 2015 and 2019, according to the World Bank, a higher rate than those of Peru's peer countries in Latin America during the same period (Colombia at 2.4%, Chile at 2.0%, Mexico at 2.0%, and Brazil at negative 0.6%). Additionally, Peru's average inflation rate was 2.7% between 2015 and 2019, which was lower than the inflation rates of each of the peer countries in Latin America during the same period (Brazil at 5.7%, Colombia at 4.7%, Mexico at 4.0% and Chile at 3.1%). The Peruvian government's prudent management of the economy, conservative fiscal policy, coupled with the Central Reserve Bank of Peru's cautious management of inflation and international reserves have contributed to economic development, increased internal consumption and strong macroeconomic fundamentals, including low levels of public debt, low inflation, low fiscal deficit and high levels of international reserves. Peru's strong track record of macroeconomic policy credibility, consistency and ability to adapt to changes has helped it to achieve investment grade ratings of A3 by Moody's Investor Service ("Moody's"), BBB+ by Standard & Poor's Rating Services ("S&P") and BBB+ by Fitch Ratings Ltd. ("Fitch") as of December 31, 2020. On June 3, 2020, in light of the COVID-19 pandemic, Fitch reduced Peru's local currency rating from A- to BBB+. In its most recent forecast as of March 2021, the Central Reserve Bank of Peru has estimated real GDP growth for Peru of 10.7% for 2021 and 4.5% for 2022, as compared to an 11.1% decrease registered in 2020.

### *Expansion of the middle class and affluent population*

The core of our customer base is Peru's growing middle class and affluent population. According to INEI, the poverty rate in Peru has declined to 20.2% in 2019, from 30.8% in 2010, and GDP per capita in U.S. dollars has grown from U.S.\$5,082 in 2010 to U.S.\$6,978 in 2019, according to the World Bank. Peru has a total population of 32.8 million, and according to the *Asociación Peruana de Empresas de Investigación de Mercados* (APEIM), Peru's middle and upper socioeconomic segments (segments A, B and C) have significantly expanded and, as of 2019, represented 51% of the population compared to 42% in 2010. We believe that the increase in the number of people belonging to the middle class and affluent population creates a greater need for financial services, particularly for increasingly sophisticated banking, insurance and wealth management products. The expansion of these segments of the population drives growth and profitability across our business. Additionally, based on macroeconomic trends, we expect the number of high net worth individuals in Peru and the size of their investable assets to continue to grow and further increase the market for wealth management services.

### ***Low financial services penetration***

We believe that growth potential in Peru's financial services sector continues to be significant. Despite sustained recent growth of 8.5% CAGR in total gross loans between 2016 and 2020, banking penetration in Peru, measured as the ratio of loans-to-GDP, was 45.8% as of December 31, 2020, according to the SBS and the Central Reserve Bank of Peru. This increase represents a significant improvement over the 37.2% registered as of December 31, 2019, and is mainly explained by the execution of programs such as Reactiva Peru. We believe this demonstrates that it is feasible to rapidly increase financial penetration in Peru through these types of programs. Moreover, within the retail banking segment, we believe that penetration potential is even more significant in mortgages given that as of December 31, 2020, there were approximately 0.2 million mortgages outstanding in Peru for a population of approximately 32.8 million, compared to approximately 1.9 million mortgages outstanding in Chile for a population of approximately 19.5 million. Similarly, according to industry sources, insurance penetration in Peru, measured as the ratio of premiums-to-GDP as of December 31, 2019, is estimated to be 1.8%, which is lower than the average ratio of 3.0% for the group of peer countries in Latin America, and less than half the ratio of 4.7% for Chile.

### ***Introduction of Reactiva Peru government-sponsored credit guarantee program amidst the COVID-19 pandemic***

In response to the COVID-19 pandemic, in April 2020, the Peruvian government introduced a S/30 billion credit guarantee program ("Reactiva Peru"). The program, which was subsequently expanded to S/60 billion, was designed to ensure the continuity of payments to lenders and stabilize the economy by allowing Peruvian banks to originate low interest-rate, Central Bank-funded, commercial loans, guaranteed between 80% and 98% by the Peruvian government. This program allowed companies to obtain working capital loans and comply with their short-term obligations to workers and suppliers of goods and services. As initially designed, the Reactiva Peru loans will have a maximum duration of 36 months with a 12-month grace period. Given the low risk and their interest in supporting the financial needs of their customers, Peruvian banks have been growing their Reactiva Peru loan segments substantially. In 2020, according to the Central Bank, loans to the private sector grew 12.3% mainly due to disbursements under the Reactiva Peru program. Excluding the effect of the Reactiva Peru program, loans to the private sector would have decreased 4.6% in 2020. In March 2021 the Peruvian government approved an initiative to provide further relief for loans disbursed under the Reactiva Peru program, by providing for a rescheduling process for such loans, including a new grace period of up to 12 months. The rescheduling program covers up to S/16 billion (27% of the initial program) in loans disbursed and companies will have until July 15, 2021 to request the rescheduling of their outstanding loans under certain conditions, which will be assessed by the respective financial institutions according to the size of the company and of the loan that was initially granted.

These measures may help to alleviate the financial burden of some customers within the financial system, paving the way for the rollover of such debts during normalized conditions after the Reactiva Peru loans mature. As such, banks may be able to extend their respective credit facilities and maintain increased loans within the customer segments who benefit from the Reactiva Peru program.

### ***Systemic loan rescheduling schemes in response to the COVID-19 pandemic***

Customers of the Peruvian financial system have been able to request the rescheduling of their debts and postponement of their obligations under different schemes implemented in response to the COVID-19 pandemic, some of which do not require payment of additional interest or fees. As of January 1, 2021, S/82.0 billion, or approximately 24% of the banking system's loan portfolio, had been rescheduled, of which S/44.2 billion were retail loans (approximately 41% of the banking system's retail loan portfolio) and S/37.7 billion were commercial loans (approximately 17% of the banking system's commercial loan portfolio) according to ASBANC. As of December 31, 2020, loans that were subject to some kind of rescheduling represented S/10.5 billion or 25.2% of Interbank's total portfolio. Of these, S/7.5 billion were retail loans (39.1% of Interbank's total retail loans), and the remaining S/3.0 billion were commercial loans (13.2% of Interbank's total commercial loans).

### ***Well-capitalized financial system***

As a result of sound regulation and prudent management, the Peruvian financial system is well-capitalized, according to figures published by the SBS. Gross loans in Peru (measured in *soles*) have grown at a CAGR of 8.5% between December 31, 2016 and December 31, 2020, while the banking system's asset quality has remained strong with a ratio of past-due loans as a percentage of total gross loans of 3.8% and a ratio of impairment allowance for loans as a percentage of past-due loans of 177.7% as of December 31, 2020, according to the SBS. Capitalization of the Peruvian banking system has consistently been well above regulatory requirements with a total capital ratio of the banking system of 15.5% as of December 31, 2020, according to the SBS. Interbank's capitalization ratio was 17.0% and Interseguro's regulatory solvency ratio was 165.7%, according to the SBS as of December 31, 2020.

### ***Development of new technologies and distribution channels***

There are many technological trends currently impacting the financial services industry worldwide. For example, the penetration of cell phones, Internet and the 5G mobile network, the ability to process large quantities of data through big data, cloud and machine learning, and the opportunity to utilize robotics and artificial intelligence. As a result, many large banks have started digital transformations with large increases in their level of technological investments and are working on developing their product offerings.

Due to improved technology, banks are now able to offer a better value proposition to their customers that include better solutions with features tailored to the customer's needs, contextual banking (whereby the customer is offered a connected banking experience, including tailored product offerings), enhanced 24 hour customer support and access and faster approval and response times, all at a lower per capita cost. Additionally, banks are now able to reach a broader base of customers both in terms of income levels and geographic locations and will be able to gradually offer them more products and services and make them a part of the banked segment of the Peruvian population, which constitutes a very important growth opportunity in the country.

### **Competitive Strengths**

We have established a premier financial group with leading market positions in each of our primary business segments. We believe that our market share, focus on targeted and profitable segments, scale and highly recognized and trusted brands, combined with adoption of innovative technologies, a well-structured digital platform and increasing integration across our business segments, strongly position us to capitalize on the future expansion of the Peruvian economy.

### ***Leading financial services provider focused on retail customers and highly attractive businesses***

We target retail customers and growing and profitable businesses in Peru. We have highly recognized and trusted brands in each of our segments, Interbank in banking, Interseguro in insurance and Inteligo in wealth management. Within our banking segment, Interbank focuses primarily on retail banking, where we believe we are able to obtain higher profitability, with 46.4% of its loan portfolio constituting retail loans, compared to 31.8% for the Peruvian banking system, as of December 31, 2020, according to the SBS. Interbank is the second largest provider of consumer loans among banks in Peru, with a 22.0% market share as measured by gross consumer loans as of December 31, 2020, compared with 24.7% for BCP, 16.9% for Scotiabank and 12.6% for BBVA. Interbank is also the largest provider of consumer credit card loans among banks in Peru, with a 27.5% market share by credit card loans, and the largest privately owned bank provider of payroll deduction loans to public sector employees, with a 26.7% market share by payroll deduction loans, in each case as of December 31, 2020.

We believe that our focus on the retail market has allowed Interbank to obtain a higher ROE than the banking system on average. This higher ROE is driven by a balanced consumer loan portfolio where two of our most profitable products are credit cards and payroll deduction loans. Interbank has the highest net interest margins when compared to the three largest banks in Peru, due to its higher weighting in retail banking and credit cards when compared to its peers. Low delinquency rates on our payroll deduction loans reduce the overall credit risk exposure of our consumer loans portfolio.

Our commercial banking business serves a range of clients spanning large corporates, mid-corporates and SMEs. We are focusing on increasing our market share in mid-corporates and SMEs while maintaining our large corporate business with a profit-oriented approach. In this context, our participation in the Reactiva Peru program allowed us to start new business relationships with clients from the mid-corporate and SME segments, reaching a market share of 7.9% for mid-corporates and 6.9% for SMEs as of December 31, 2020, according to the SBS. We believe that these segments will continue to provide additional growth opportunities in the coming years. Moreover, our overall commercial loan portfolio provides us with a lower risk component that balances our total loan portfolio.

We believe that Interseguro provides us with a fast-growing and profitable business. In our insurance segment, Interseguro is the leading provider of annuities in Peru, despite the effect of the COVID-19 pandemic, with a market share of total annuities (excluding private annuities) of 27.3% as measured by premiums collected for the year ended December 31, 2020, according to the SBS. We focus on the middle class and affluent population in Peru, a segment we believe is substantially underpenetrated in insurance services. During April 2016, the Peruvian Congress enacted a law that allowed retirees to withdraw up to 95.5% of their accumulated capital in cash in their mandatory pension account upon retirement, resulting in a significant reduction of retirement annuities sold by Peruvian insurance companies, including Interseguro. In this context, in order to keep its position as a leading provider in annuities, in 2016, Interseguro launched its private annuities product which allows retirees to receive a fixed income either for life or a fixed period. As of the date of this Annual Report on Form 20-F, most of the customers of private annuities and their funds originate from retirees who choose to buy a product from an insurance company rather than from a private pension fund. Interseguro is also a leading provider of life insurance with the acquisition of Seguros Sura and we believe this market provides an additional opportunity for growth. Finally, the company's digital channels are taking a leading role inside the company's structure.

Within our wealth management segment, Inteligo is well positioned to capture an increasing share of the number of wealthy individuals and their related wealth resulting from economic growth in Peru. Inteligo's CAGR in assets under management was 8.1% between December 31, 2016 and December 31, 2020. We believe that both Inteligo's position as a provider of tailored wealth management services and its ability to provide its customers with both local and international investment products will help increase its share of wallet among high-net-worth individuals, while delivering high levels of growth and profitability.

#### ***Track record of sustained growth supported by our strong market share and high profitability***

Our strong track record of growth is supported by our increased market share, improvements in efficiency, and high profitability across our business segments. At Interbank, we have gained significant market share over the years. Our market share in total gross loans has increased from 9.4% in 2007, to 11.1% in 2015, and increased to 12.8% in 2020, while our market share in total deposits has grown from 9.3% in 2007, to 12.1% in 2015, and increased to 13.3% in 2020. We are focused primarily on retail banking because we believe that it presents significant growth opportunities and higher profitability. In retail banking, Interbank's outstanding retail loans, including consumer and mortgage loans, decreased 3.8% between December 2019 and December 2020, as compared to the 1.4% decrease registered for the Peruvian banking system, according to the SBS. Our market share was 27.5% in credit card loans in December 2020, the largest in the market. In the same period, Interbank has held a strong position across retail products, with market shares of 17.3% and 18.6% of total retail loans in 2016 and December 2020, respectively, according to the SBS. With respect to mortgage loans, Interbank's market share increased from 13.1% in 2016 to 15.1% in December 2020, according to the SBS. Interbank's increasing market shares have been accompanied by high profitability, with ROE averaging 18.3% compared to 15.9% for the Peruvian banking system, from 2016 to 2020. The commercial banking division at Interbank has also grown faster than the Peruvian banking system, and was recently boosted by our participation in the Reactiva Peru program. Interbank's outstanding commercial loans grew 38.4% between December 2019 and December 2020, as compared to the 22.9% increase registered for the system, according to the SBS.

Interseguro's positioning in the industry increased, with market shares in annuities by premiums (excluding private annuities) of 22.7% in 2007, 24.5% in 2015 and 27.3% in December 2020. Interseguro's assets increased at a CAGR of 23.4% compared to 9.2% for the Peruvian insurance industry between 2016 and 2020. Between 2016 and 2020, Interseguro's ROE averaged 25.8% compared to 14.7% for the Peruvian insurance industry, both according to the SBS. Interseguro's recent results have been driven in large part by the acquisition of Seguros Sura. Interseguro's ROE was 18.0% for the year ended December 31, 2020, according to the SBS.

Inteligo's assets under management grew at a CAGR of 8.1% between 2016 and 2020. Similarly, net profit grew at a CAGR of 8.0% between December 31, 2016 and December 31, 2020, supported by both strong fees on assets under management and consistently positive results on investments. Inteligo's ROAE averaged 26.1% for the three-year period ended December 31, 2020. Inteligo's ROAE was 28.0% for the year ended December 31, 2020.

#### ***Digital suite of products and services with rapidly increasing levels of adoption***

IFS is striving to reshape the banking space in Peru, creating a new digital experience driven by convenience and simplicity. Although we believe physical channels are still necessary in an underpenetrated financial system like Peru's, our digital platform has substantially increased our customers' interactions with Interbank and provided us with new business opportunities to build on consumer loyalty and cross-sell services, as well as accelerate new customer acquisition and inclusion of previously underserved segments of the population, including individuals, entrepreneurs and micro-businesses. Additionally, our agile framework enabled us to act on opportunities that emerged as a result of the COVID-19 pandemic and allowed us to create and provide the only digital wallet available in the first disbursement of monetary transfers offered by the Peruvian government to the people most affected by the crisis. We have a wide offering of digital products and services for existing and new clients, enabling them to get what they want, when they want it, and how they want it.

We believe our digital platform is one of our competitive advantages as evidenced by our increased market share. In 2020, Interbank relaunched one mobile application, targeting P2P and P2MB transactions, and made available a new digital service for the usage of mobile banking: (i) Tunki, which is a free application that allows users to create a 100% digital mobile wallet and that doesn't require them to have an account with Interbank; and (ii) Plin which is a digital service that allows users to transfer money among account holders at Interbank, Scotiabank, BBVA, BanBif, and, beginning in 2021, Caja Arequipa, using their mobile number, as well as enabling customers to pay small merchants free of charge using only the recipient's mobile number or a QR code. As a result of the lockdown put in place in Peru in the spring of 2020, Interbank's customers have increased the use of digital channels to interact with us, such as using them to pay for utility bills, credit cards and money transfers, transactions that previously were often executed by some customers at our financial stores. Moreover, as of December 31, 2020, the number of Tunki users was 762,000, with 307,000 accounts opened in 2020; and during Plin's first year live, the total number of users reached 2,628,000, of which Interbank's share was 39%. Tunki's exponential growth is partially explained by its new functionality which allows families to receive the Peruvian government's COVID-19 related financial aid digitally.

As of December 2020, 75.3% of Interbank's retail customers interacted digitally with the bank, up from 62.2% in December 2019, and 100% digital customers reached 57.8% in December 2020 up from 31.9% in December 2019. Our digital transformation allows our customers to interact more frequently with us and customers' monthly interactions through our digital platform increased substantially, from 19.4 times per month in December 2019 to 20.4 times per month in December 2020, while interactions in branches decreased from 2.3 times to 2.1 times in the same period. Our penetration of digital sales increased to 50.7% from 42.4% in December 2019, while self-service transactions increased to 57.8% from 47.2% in the same period.

Furthermore, digital customer acquisition, or clients that were 'born digital', reached approximately 44,000 in December 2020, or 44.2% of new individual clients, compared to approximately 16,000 in December 2019, 21.6% of new individual clients. Similarly, we are continuously improving our digital capabilities for SME and corporate clients, enhancing our value-added proposition and tools to foster our commercial customers' growth despite the disruptions caused by the COVID-19 pandemic. For example, we have streamlined our account opening process for businesses ("Cuenta Negocios") from 15 days to a digital 10-minute process, which allowed us to 100% digitally assist our SME customers that required an account to apply for government facilities. This innovation has driven growth in customer acquisition for small companies through our digital platform, accounting for 54% of our total new small business accounts in December 2020 compared to 70% in December 2019.

Supported by our digital platform, we have also increased the number of products held by a digital customer. The number of products held by our digital customers has increased 164% from December 2019 to December 2020. As a result of the growth in digital customers, the cross-selling ratio for such clients decreased from 2.00 products per digital customer in December 2019 to 1.86 products per digital customer in December 2020. The cross-selling ratio is calculated as the sum of the number of products held by any given group of customers divided by the number of customers in such group. Similarly, the number of products held by our total customers increased by 5.2%, however, given the growth in our total customer base, this resulted in a lower cross-selling ratio for total customers, which decreased from 1.70 products per customer in December 2019 to 1.61 products per customer in December 2020.

As part of our digital transformation, we have introduced new technologies and processes which enable us to improve time-to-market of new solutions. We have also made significant changes in the way we work. We are currently working with 84 teams using an agile framework on a number of projects, ranging from applications, digital products, new functionalities, and we are currently exploring different solutions targeting new customer segments and piloting new initiatives. For example, we have an innovation lab called "LaBentana", which focuses on continuous innovation and development of new ideas and pilot initiatives, using design thinking methodologies developed together with the consulting firm IDEO.

### ***Convenient and innovative nationwide omni-channel distribution network with a distinctive customer-oriented approach***

We believe that our convenient and innovative nationwide retail distribution network together with a dedicated sales force and financial advisors, allow us to better reach our customers, and this combination has differentiated us from our competitors. Interbank has one of the most convenient and extensive retail banking distribution networks in Peru and is currently present in almost all of Peru's regions. Our focus on digital transformation allows us to help our customers to interact with us in an easier and more efficient way and allows customers to migrate from the use of physical infrastructure to digital platforms. For instance, we have shifted monetary transactions operated through our branches to digital channels. Total monetary transactions have been increasing at a CAGR of 13.1% from 2016 to 2020 driven by monetary transactions through our mobile and internet banking which have increased at a 78.1% CAGR for the corresponding period, even though monetary transactions through our financial stores have been decreasing at a CAGR of 15.9% from 2016 to 2020. We believe this optimization of our distribution footprint has enabled us to reach our clients more efficiently, allowing them to perform transactions when and how they want to, at lower marginal costs for Interbank.

Interbank has built a convenient omni-channel distribution network in Peru, serving over 4.0 million customers. As of December 31, 2020, Interbank had 215 financial stores and operated the third-largest ATM network in Peru with 1,640 ATMs, which includes one of the largest out-of-branch ATM network (under our Global Net brand). Interbank has the largest number of financial stores inside supermarkets in Peru. Moreover, with the intention of providing underserved customers with more convenient services, Interbank operates a network of correspondent agents, called Interbank Agentes. The correspondent agent concept consists of providing third-party commercial establishments with low-cost electronic terminals which allow Interbank's customers to perform basic cash-based operations such as cash withdrawals, credit card and bill payments, and deposits at a lower marginal cost to Interbank relative to transactions performed in our financial stores. As of December 31, 2020, Interbank had 3,331 correspondent agents.

Since 2013 and in line with our strategy, we have implemented a profitability model for financial stores and ATMs which ranks them according to certain profitability metrics relevant to each distribution channel. This has allowed us to identify the less profitable units in order to close them and to prioritize new openings in more strategic locations with higher demand for value-added financial services. As a result, the number of financial stores, which peaked at 290 in 2016, has decreased by 25.9% to 215 as of December 31, 2020, while productivity of financial stores, measured as the volume of retail deposits sold per branch, has increased. This drove retail deposits per branch to grow from approximately S/40.5 million per branch as of December 2016 to approximately

S/96.8 million per branch as of December 2020. Likewise, Interbank's market share in retail deposits under SBS GAAP grew from 12.8% as of December 31, 2016 to 13.9% as of December 31, 2020. Additionally, the number of ATMs has decreased to 1,640 in December 2020 from 2,159 in 2016. Furthermore, the number of Interbank and Interseguro sales agents has increased from 897 in 2016 to 899 in 2020, while call center agents decreased from 390 to 322 in the same period. Given the lockdown implemented by the Peruvian government in the spring of 2020 in response to the COVID-19 pandemic, the call center became a more relevant channel to interact with our customers as well as to answer questions regarding assistance to help address the crisis. Likewise attending to queries via Whatsapp also became a common and efficient point of contact with our customers.

Interseguro offers and sells its annuities and individual life insurance products through its own dedicated sales force to ensure the delivery of high-quality service and advice to customers. Interseguro's specialized sales force is trained to provide a differentiated service for various customer types. As of December 31, 2020, Interseguro employed 103 agents exclusively dedicated to selling annuities and 287 agents to selling life insurance products. As a result of the COVID-19 pandemic, the commercial activity of the sales force was suspended and the sales force was granted paid leave from mid-March to mid-May, but, since then, it has since gradually resumed its commercial activities. Due to the COVID-19 pandemic, Interseguro retooled its sales force to provide customers with a 100% remote assistance and digital operation. Prior to the pandemic, sales in annuities and life insurance products were only conducted in-person, but digitalization of these sales was accelerated.

In addition to its own sales force, Interseguro leverages on the retail distribution capabilities of Interbank and those of InterCorp and of InterCorp Retail to offer simple low-cost premium insurance products, such as credit life insurance, SOAT, card protection, loan protection, extended warranty and accident insurance.

Inteligo has developed a proprietary financial advisory model that has been a key pillar in sustaining its growth. The model takes into account the financial objectives of its customers and emphasizes risk analysis and continuous monitoring with portfolio rebalancing. Along with this, Inteligo has been able to successfully serve its customer base in order to deliver tailored products and advice.

#### ***Prudent risk management resulting in high asset quality, strong liquidity and high investment returns***

Risk management has been and will continue to be a primary focus of our operations and at the center of our culture. Our experienced risk management teams focus on monitoring and managing risks across all business areas, including credit, market, liquidity and operational risks, among others. We believe our risk management expertise has allowed us to achieve strong asset quality and high investment returns. Our prudent management has allowed us to build up sufficient capital to allow us to grow strategically, invest in opportunities and pay dividends to our shareholders.

Interbank's underwriting procedures are based on strong analytics and proprietary models. Additionally, Interbank's investments in technology and improvements in its ability to process and apply data have enriched our risk models and enhanced their accuracy and predictiveness. Interbank's credit risk policies are approved by its risk committee and board of directors. Despite Interbank's concentration in retail loans, which tend to have higher levels of delinquency, Interbank's past-due loans as a percentage of total gross loans ratio as of December 31, 2020 was 3.4%, lower than the 3.9% average of the three largest banks in Peru. As of December 31, 2020, Interbank's past-due loans coverage ratio was 202.3%, which compares favorably with the average for the Peruvian banking system of 177.7%, according to the SBS. In general, coverage ratios for Peruvian banks increased during 2020 due to the higher impairment allowances recorded as a consequence of the risks and uncertainties arising from the COVID-19 pandemic, in particular related to those loans that have been rescheduled.

Interbank's capitalization ratio, which is calculated as Interbank's regulatory capital divided by its risk-weighted assets, was the highest compared to the other three largest banks. Additionally, as of December 31, 2020, Interbank's capitalization ratio stood at 17.0% as compared to 15.5% for the Peruvian banking system, according to the SBS. The minimum capitalization ratio required by Peruvian banking regulations is 10.0% plus an additional capital requirement which depends on certain levels of loan concentration in each institution. For Interbank, this additional capital requirement amounts to 0.7% as of December 31, 2020. Interbank's core equity tier 1 ratio was 11.5% as of December 31, 2020. In addition, Interbank strengthened its capitalization to weather the unprecedented economic impact caused by the COVID-19 pandemic by (i) increasing the capitalization ratio of its 2019 earnings from 55% to 75% and fully capitalizing its earnings for the three months ended March 31, 2020, and (ii) issuing a U.S.\$300 million subordinated bond due in 2030 with a call option in 2025.

Interseguro's investment team and its investment management approach have achieved a 6.0% investment return for the year ended December 31, 2020, compared to the Peruvian insurance industry's 6.2%, according to the SBS, while maintaining prudent levels of risk and following the SBS risk guidelines. The COVID-19 pandemic led to a general decline in the global economy and financial markets. Accordingly, Interseguro's investment strategy was focused on identifying and reducing potential risks in the portfolio and looking for assets of solid companies with strong credit metrics.

Inteligo's lending services are offered through Inteligo Bank to complement its wealth management business. The decision to make loans to wealth management customers only results in Inteligo's loan portfolio being fully collateralized by its customers' assets and which to date have had no delinquencies. Regarding the management of capital, Inteligo Bank's capitalization ratio, which is calculated as Inteligo Bank's regulatory capital divided by its risk-weighted assets, was 28.4% as of December 31, 2020, above the minimum capitalization ratio required by the Central Bank of Bahamas of 8.0%.

#### ***Cost containment measures in 2020 offset negative impacts resulting from the COVID-19 pandemic***

We took a disciplined and proactive approach to management of costs as a response to the COVID-19 pandemic, which has allowed us to achieve an annual reduction in other expenses, as well as to improve our efficiency ratio both at IFS and at our subsidiaries. As an example of the cost containment measures implemented throughout 2020, we accelerated our branch optimization program, which started in 2016. Moreover, some variable costs related to credit card activities and incentives have decreased substantially during the year, in line with lower activity in relevant segments of our business.

#### ***Diversified funding base with strength in retail deposits***

IFS has a competitive funding structure. We have access to diverse sources of funding, including deposits and debt securities placed in local and international capital markets. The majority of our funding comes from low cost customer deposits, which demonstrate our customers' trust in our franchise and enables us to achieve attractive lending spreads. At Interbank, as of December 31, 2020, 73.7% of its total funding base was comprised of deposits. Interbank's deposit base is broad and fragmented, such that it is not dependent on a certain type of customer, which provides Interbank with an average cost of funding of 2.0% for the year ended December 31, 2020 and 3.0% for the year ended December 31, 2019.

Interbank has been a significant player in the Peruvian banking industry with a market share of demand, savings, and term deposits of 10.0%, 15.8%, and 15.0%, respectively, as of December 31, 2020, according to SBS. Moreover, our strategic focus on retail has allowed Interbank to gain market share in retail deposits over the years reaching 13.9% as of December 31, 2020 as compared to 12.8% as of December 31, 2016, providing us with a healthy funding base.

Given our competitive advantage in the retail segment, in 2020, increased growth in deposits was attributable to an increase in our clients' liquidity as the result of (i) partial cash withdrawals from CTS accounts systemwide and the private pension system, (ii) commercial deposits related to unused funds from the Reactiva Peru program, and (iii) the widespread adoption of a "savings" mindset, all as a result of the effects of the COVID-19 pandemic.

Interbank's strong asset quality and capital and liquidity position have resulted in two of the highest local ratings levels possible, which have allowed it to secure local funding through local short-term and long-term debt market issuances.

#### ***Experienced management team with proven ability to foster a merit-based culture and a highly motivated work force***

We believe that the strength of our senior and middle management team has enhanced and will continue to be a key driver of our successful business model. We benefit from an experienced, diverse and talented management team. Most of the members of our senior management have held management positions with other major financial institutions in the United States, Latin America and Europe.

We are focused on attracting, developing and retaining highly qualified personnel and believe that a merit-based culture that emphasizes teamwork enables us to maintain a motivated workforce that delivers high-quality service. Interbank is the only Peruvian company that has been chosen by the Peruvian Great Place to Work Institute as one of the 20 best places to work in Peru for the past 19 consecutive years and one of the top 20 places to work in Latin America in the past nine years. In the most recent rankings, Interbank was selected number two best company to work for in Peru in the large size category (2020), number eight in Latin America (2020) number six for women in Peru (2020) and number four for millennials in Peru (2020). Similarly, Interseguro is the only Peruvian insurance company that has been chosen as one of the top 10 best places to work in Peru (medium-size category) by the Peruvian Great Place to Work Institute for the past nine consecutive years until 2019. Additionally, Inteligo SAB was ranked among the top 15 companies in its category (companies with 30 to 250 employees) in Peru between 2011 and 2019, when it participated in the Great Place to Work Institute survey. Furthermore, it ranked second for 2019. Inteligo Bank's branch in Panama began participating in the Great Place to Work Institute survey in 2014 and since 2015 has been ranked among the top 10 companies in its category (companies with 30 to 250 employees) in Panama. Furthermore, Interbank ranked first in its category (companies with over 1,000 employees) for 2019.

Finally, we believe that Interbank's strategy, which is closely aligned with that of IFS, together with its deep knowledge of its customers and solid culture has allowed Interbank to be named Bank of the Year in Peru by The Banker and LatinFinance, and Best Bank in Peru by Euromoney, even in a year as challenging as 2020. We believe this recognition confirms that we are on the right track to achieve Interbank's purpose.

### ***Developing strategic alliances to challenge us continuously to offer high quality digital services to our customers***

In September 2020, Interbank announced a strategic alliance with Rappi, a leading super app in Peru and in Latin America, to deliver 100% digital products in Peru under the RappiBank brand, exclusively available through the Rappi App. The announcement included the launch of a savings account and, in the last quarter of 2020, the first number-less and name-less beta-tested debit and credit cards in the market. As of the date of this Annual Report on Form 20-F, these products are currently available to our customers. Under this alliance, we expect to take advantage of both Rappi's exponential growth and high level of customer engagement together with Interbank's solid risk management to allow Peruvians to access financial products and services in an agile, contextual and 100% digital manner, while at the same time enabling us to interact with customers wherever they are and expand the scope of our business.

### ***Increasingly integrated business platform with synergy potential supported by a strong parent group***

Since the introduction of our insurance and wealth management operations alongside our banking operations, we have strived to share and leverage key resources and capabilities across all three segments, which has resulted in enhanced revenues.

Our banking operations remain our core competency that binds together all our operations, while our insurance and wealth management operations are expected to continue supporting our growth. We believe that our continuous efforts to better integrate our three segments, combined with our focus on digital transformation, our existing distribution channels, experience and knowledge of our customer base and the Peruvian market, is a significant competitive advantage.

Furthermore, our parent company, Intercorp Peru, is one of Peru's largest economic conglomerates, with activities spanning financial services, retail, education and real estate, among others. In 2020, Intercorp Peru's businesses represented approximately 3.7% of Peru's GDP, while generating U.S.\$7,209 million in revenues. We believe that being part of this group gives us a competitive edge, because of the group's deep knowledge of the Peruvian consumer, extensive focus and know-how in the Peruvian retail market, highly visible in-country presence and rapid decision-making capabilities. Intercorp provides significant synergy and cross-selling opportunities for IFS. For example, starting in 2018, we, jointly with Intercorp Peru, launched an effort to strengthen our presence and commercial efforts in seven of Peru's main regions: Arequipa, Cusco, Trujillo, Chiclayo, Ica, Huancayo and Piura, by leveraging on Intercorp's already established network.

## **Strategy**

Our purpose is to empower all Peruvians to achieve financial well-being. By doing so, we believe that we can help our clients to access the same opportunities to build and assure their futures. To achieve this purpose, we have defined the following objectives to increase the value added by our services and help our customers with their day-to-day financial needs:

### ***Become the payment solution for Peruvians, both in the retail and commercial segments***

We strive to provide solutions to address the payment needs of people and companies by creating a payment ecosystem that seeks to build a strong bond with our customers, focusing on four pillars: (i) increasing current person to business ("P2B") offline purchases by extending merchant coverage, improving customer experience and banking the unbanked, (ii) increasing current P2B online purchases by optimizing adoption and fostering usage, (iii) improving the convenience of person to person ("P2P") payments for customers by developing a better experience, and (iv) eliminating cash by banking unbanked accounts, through pre-paid cards and through our open application programming interfaces ("APIs") that allow partners to access our account opening and basic financial-transaction services.

Our goal is to develop an ecosystem which creates loyalty from customers and allows us to fulfil their financial needs digitally, leveraged on Interbank's payment model. As an example, in 2020 Interbank became the only private bank to offer a 100% digital solution to distribute the monetary transfers offered by the Peruvian government to the people most affected by the COVID-19 crisis. We implemented a biometric authentication system in order to allow users (including both clients and non-clients) to enroll in Tunki, and receive the government's financial aid offered in the context of the COVID-19 pandemic. As a result, Tunki users grew more than three times over between March 2020 and December 2020, from around 162,000 to 762,000.

Moreover, and also in 2020, we launched *Cobro Simple*, a 100% digital payment solution that allows companies to collect charges through Interbank's distribution channels by paying a fee to the bank. These fees are different depending on which distribution channel is being used, however, in the case of our internet and mobile banking services, *Cobro Simple* is free of charge.

### ***Create and scale-up new businesses by targeting new customers, segments and businesses***

We seek to accelerate growth in the underpenetrated Peruvian market by creating tools that allow people and companies to access financial solutions faster, as well as by giving them the opportunity to access credit. For this purpose, we carry out thorough research through our innovation lab LaBentana, alongside consumers, to identify areas for improvement and develop a variety of new initiatives to address “pain points” and make our offering more seamless. One of these pain points is related to the high levels of informality in the country’s economy, which makes it difficult to estimate the payment behavior of those customers whose income derives from the informal economy. In this context, our consumer research helps us to develop tools to estimate an individual score for such clients, allowing us to address more precisely the real risk associated with their payment abilities, target new customer segments, and offer customers the necessary tools to better control their finances. We expect that our Open Banking alliance will help us to offer these tools not just to our customers but also to Peru’s unbanked persons.

### ***Become the foremost financial services company in the heart and mind of Peruvians by building a widespread suite of financial solutions to fulfil their finance, investments and insurance needs, attracting and retaining them with a superior experience***

We aim to become the preferred option for our individual and commercial customers and to help them to achieve financial well-being and growth by knowing and anticipating their needs, as well as by offering financial solutions that can be deployed at every contact point, including in person, digitally, and in real time. We believe that maintaining a trustworthy and transparent relationship with our customers, together with the superior, simple, mobile, agile and personalized experience that we offer, brings us closer to this goal. We believe we have highly recognized and trusted brands in each of our segments, Interbank in banking, Interseguro in insurance and Inteligo in wealth management, which we believe are a testament to our focus on this objective. Our subsidiaries are leaders in their respective industries and, by focusing on our strengths, values and solid relationships, we plan to continue evolving and growing.

Moreover, we help our individual customers throughout their journeys with a personalized approach based on customer segment, which includes Joven, Preferente, Emprendedor, Premium and Select within Interbank and CERTIA and Private within Inteligo. IFS’s three subsidiaries are working on continuing to develop customers’ journeys to provide customers with the best experience possible. These customer journeys begin with new client acquisition and on-boarding, continue with customer development and loyalty, and finally, are maintained through retention and our win-back efforts. We have been implementing various initiatives to improve the customer relationship cycle.

In the case of Interbank, we are continuously improving our value proposition for different customer segments including improvements to basic products such as accounts, payments and financing. We have developed several digital features and products to serve different customer needs, such as: the loyalty program Interbank Benefit, the digital wallet Tunki, the budget tool *Mis Finanzas*, the digital savings account Piggybank, and the customer relationship program “Interbank Cares”. In order to ensure we deliver customer-oriented products, we use design thinking, which we have learned through several partnerships with IDEO.

Within commercial banking, our priority is also growth with a strong focus on profitability. We aim to provide the best self-service credit experience for commercial clients by digitally providing them with the information and features necessary to manage their financial needs, and by offering easy and transparent ways of managing their cash flow and payments, such as *Cobro Simple*. For this purpose, we are in the process of implementing a new internet banking platform that will deliver most of these features.

Furthermore, our cash management platform has three types of client groups based on sales volume, which allows us to employ different strategies accordingly. For large corporates, we focus our efforts on generation of fees from cash management and corporate finance; for medium-sized companies we focus on growth, productivity and cash management; and for small companies we focus on sustainable growth and productivity with strong support from analytics and collection. For small businesses, since its introduction in August 2018, our Cuenta Negocios, an account that can be opened 100% digitally and within 10 minutes, has grown from no accounts to 122,476 accounts as of December 2020. Moreover, we are testing an application which provides an alternative method of financing based on digital tools and information.

Likewise, at Interseguro our customer journey is focused on an end-to-end experience, from the issuance of a policy to the after-sale services we offer to clients. In this context, our digital offering is gaining relevance. As an example, digital sales of mandatory individual car accident insurance (“SOAT”) policies reached 81% of total SOAT sales in the month of December 2020, compared to 70% in the month of December 2019. Moreover, our after-sale offerings are expected to become a virtual self-service experience, with the aim of ensuring customers have a simple and positive interaction with us.

Finally, Inteligo’s approach is focused on its value proposition, offering digital onboarding and products and services by segment, with a 360-degree view of its customers. An example of these services is the introduction of CERTIA in 2019. Inteligo’s brand focuses on onshore wealth management services and has launched a digital platform that allows on-boarding, financial planning, and advisory and execution services to be part of our digital customer journey.

We believe that our unique key capabilities will play a key role in achieving our aforementioned strategies. Accordingly, we have focused on:

***Digital excellence to attract and retain customers with a superior experience and a world-class scalable platform***

We want to deliver a seamless and superior experience that integrates our physical and digital platforms for our customers, while becoming more relevant to them. We believe this combination will allow us to more effectively serve our customers, enabling them to get what they want, when they want it, and how they want it. Additionally, we believe that the key to ensure that our customers will have the best experience when interacting with us is to create unique experiences throughout their customer journey, meaning the acquisition, onboarding, development, loyalty and retention stages. Finally, we target two main attributes that our customers value in us: (i) total control to grow and develop their finances and (ii) a simple and customer-centric banking experience.

At Interbank, we have developed the capabilities to digitally serve 90.8% of total day-to-day transactions as of December 31, 2020. The percentage of transactions performed off branches has continued to increase, reaching 98.7% as of December 31, 2020. Digital sales and other self-service interactions have significantly increased during the last 12 months reaching 55.4% in December 2020, from 45.4% in December 2019, respectively. This represents an increase of 22.4% in the volume of digital sales and self-service interactions.

Through our physical channels we continue to focus on providing a superior customer experience and are improving productivity and efficiency through new paperless and digital processes, tools and more advanced analytics. Additionally, we continue to invest in educating our customers to encourage the use of digital and other channels. Deposits, withdrawals, bills and credit cards payments are being redirected to other more convenient and cost-efficient channels. In digital, we are focusing our efforts on expanding the products and self-service interactions, continuing to foster the adoption of digital channels by our customers, adding new features, such as chatbots for employees and customers, and ensuring that interactions with our customers are safe and secure.

At Interseguro, we are expanding our product offering through our digital platform, which started with the launch of the online sale of SOAT in 2016 and continued with the sale of new digital products such as travel insurance and car insurance. In 2020, premiums for retail insurance products sold through digital channels accounted for 5.5% of gross premiums, as compared to 2.7% of gross premiums in 2019. In addition, due to the COVID-19 pandemic, Interseguro accelerated the digitalization of its sales of annuities and life insurance products.

At Inteligo, as mentioned previously, we introduced CERTIA in 2019, and have continued our efforts to prepare the grounds for growth in the next few years.

To achieve all of the above, a scalable, flexible, trustworthy, stable and secure technological platform is essential. We believe that we have deployed the key initial investments necessary to scale our platform and are committed to continue improving by maintaining and updating our current levels of investment in technology. Our IT strategy is focused on dedicating more resources to projects that add value for the customer. In this context, Interbank continuously invests in core applications with the aim of keeping them up-to-date while additional effort and resources are invested in the digitalization and transformation of processes and channels in order to provide a 100% digital experience to internal and external customers. Our ongoing focus is based on four main areas of work: (i) development of a new digital platform based on open technologies and APIs, (ii) focus on the high performance and stability of our technological platforms, including cloud services, (iii) new processes for continuous delivery of new developments, and (iv) focus on cybersecurity.

Moreover, we have moved from working with 17 agile teams in 2017 to 84 in 2020, allowing us to substantially decrease time-to-market and to develop more innovative ideas.

***Analytical excellence as a tool to become the company with the deepest knowledge of Peruvians***

Our advanced analytics capabilities are being enriched with new sources of data and new tools that technology offers, such as cloud, real-time decision, machine learning, artificial intelligence and big data. We aim to have the deepest understanding of Peruvians, both individuals and companies, as we believe that a deep knowledge of our current and potential customers' characteristics and adapting to their behavior is important to better serve them, and to offer them the best solutions according to their needs and risk profile.

Investments in technology represent the pillar of this strategic initiative, and we are working in a variety of areas to achieve this goal, including data and infrastructure, advanced marketing analytics, and risk profiling and pricing models, as well as improving our CRM capabilities, including contextual marketing. With the support of our team of data scientists, we centrally design and distribute most of our sales campaigns, have substantially improved our campaign effectiveness and are currently employing real-time decision making on certain campaigns. This combination of investments has helped make us more dynamic and able to approach customers in real time, by offering easy-to-understand information and agile and transparent processes that generate trust in us. Additionally, we have bolstered our investments in cybersecurity as we believe it is fundamental to provide a secure platform to be able to continue with our digital transformation.

These efforts also include different actions undertaken to have a better understanding of the self-employed segment of the population, which constitute a significant opportunity for financial services given the current low penetration levels. We are working on alternative risk profile models for new customer acquisition using new sources and non-traditional sources of data.

Our analytics vision is to have a fully deployed online customer management system which relies on real-time data, cloud processing, automated and reusable variables, real-time decision and actions, and an integrated infrastructure to support these new processes.

### ***Retain top talent with a unique culture, fostering a strong sense of achievement***

We believe that a motivated workforce leads to high-quality customer service, which leads to satisfied customers and better results. Our commitment to fostering a motivated workforce and performance-based culture is demonstrated by being ranked among the top Peruvian and Latin American companies in all our core segments by the Great Place to Work Institute and recently also in the specific rankings for women and millennials.

In the past years, we have been focusing on changing the way we work to agile methodologies, developing digital and analytical capabilities and changing the mindset of our people to align with these objectives. Furthermore, we are attracting and retaining talent, focusing on diversity, inclusion, innovation and of course, our values.

For this purpose, we have introduced a series of initiatives such as Demo Days, Expo Analytics, Interbank Hackathon, Innovaton, Interbank Datathon, as well as Innovation Day at the InterCorp Peru level. We have also created training programs including the Agile Academy, Tribk, and the Interbank Tek program.

Interbank, Interseguro and Inteligo will continue their efforts to attract, develop and retain highly qualified personnel and to maintain a performance-based culture that emphasizes teamwork to keep a motivated workforce that delivers high-quality service and strong results. In this context, the COVID-19 pandemic offers us the opportunity to attract talented people from all around the world without asking them to be physically located in Peru by allowing them to work under a home-office scheme.

### ***Focus on efficiency and productivity***

We will continue to focus on our digital transformation to enhance efficiency through the automation of internal processes and use of technology. Our goal is to be more efficient while utilizing fewer resources in our customer interactions by focusing our efforts on four main areas: (i) becoming paperless, (ii) implementing more independent robot usage which includes artificial intelligence features, (iii) digitalizing end-to-end customer processes and (iv) eliminating low value-added activities.

During 2018, 2019 and 2020, we focused on reducing paper-based processes, mainly targeting intensive back-office processes and branch processes. During 2018, we implemented our first 38 robotic process automations at Interbank with the aim of improving customer and operational processing times (in particular for low value-added processes) and reducing operational errors. Likewise, in 2019 and 2020 we implemented more than 120 and 220 robotic process automations at Interbank, respectively.

As a result of the adverse economic effects of the COVID-19 pandemic, a key target for us in 2020 was executing efficient and successful cost control measures to offset such effects on our business. In this context, we have improved our efficiency ratio from 38.0% in 2016 to 32.2% in 2020, with initiatives such as branch rationalization, reductions in marketing and variable personnel-related expenses, and increases in sales productivity. We plan to continue to pursue such initiatives which are bolstered by new digital features and processes.

### ***Focus on ESG as a means to positively impact our stakeholders and contribute to Peru's development***

We are adopting stronger and more widespread ESG practices to drive value creation not only for shareholders, but for all stakeholders over the long term. Some of the achievements in the environmental pillar include recycling and waste management efforts. In the scope of social impact, we encourage diversity, equity, and inclusion and have developed a number of strategic alliances and programs focused on these goals. With respect to our corporate governance practices, we highlight the longstanding majority of independent directors on our board of directors, our highly supervised related party exposure and strict compliance policies.

Furthermore, IFS is one of nine Peruvian companies included in the Lima Stock Exchange's Good Corporate Governance Index. Additionally, IFS stock was recently included in the MSCI Peru Investable Market Index.

Overall, IFS's strategy is in line with Intercorp Peru's purpose: "To make Peru the best place to raise a family in Latin America". We believe that our role in achieving this goal is to continue to focus on offering high quality products and services so that all Peruvians can achieve financial well-being.

## **Banking Segment**

### ***Overview***

Interbank provides retail and commercial banking services to more than 4.0 million total customers as of December 31, 2020, which includes more than 4.0 million retail customers and approximately 103,670 commercial clients. It is the fourth largest bank in Peru in terms of total assets, total loans and total deposits, with market shares of 13.2%, 12.8% and 13.3%, respectively, as of December 31, 2020 according to the SBS. Interbank is focused on fast-growing and highly profitable retail banking businesses, such as credit card financing, payroll deduction loans to public employees and mortgages, as well as Peruvian corporates and medium-size companies within commercial banking.

Given this focus, 46.4% of Interbank's gross loans as of December 31, 2020 correspond to retail banking, compared to 31.8% for the Peruvian banking system, according to the SBS. Interbank is the second largest provider of consumer loans, the leading player among private banks in payroll deduction loans to public sector employees, the largest provider of credit card financing and the third largest bank in retail deposits in Peru. As part of its strategy to serve retail banking customers, Interbank has one of the most convenient and extensive retail banking distribution networks in Peru and is currently present in 23 of Peru's 25 regions. Interbank serves its customers through 215 financial stores, 1,640 ATMs throughout Peru, which is the third largest ATM network nationwide and one of the largest out of branch ATM networks, and 3,331 correspondent agents, and a digital platform including a mobile app with 75% digital users and 58% of 100%-digital customers as of December 31, 2020.

In the commercial banking line of business, which represents 53.6% of Interbank's gross loans as of December 31, 2020 according to the SBS, Interbank focuses on high margin and fee generating products such as leasing, structured finance, cash management, trade finance and factoring in its commercial lending business. These products and services are attractive not only for the financial margins they offer, but also for the fee income they generate. In addition, these products and services enhance customer loyalty and provide significant cross-selling opportunities.

For the years ended December 31, 2020, 2019 and 2018, Interbank's net results were a net loss of S/5.7 million (U.S.\$1.6 million), and net profits of S/1,228.5 million (U.S.\$370.7 million) and S/1,010.9 million (U.S.\$ 305.0 million), respectively. As of December 31, 2020, 2019 and 2018 Interbank had shareholders' equity of S/6,224.5 million (U.S.\$ 1,719.0 million), S/6,342.9 million (U.S.\$ 1,914.0 million) and S/5,454.0 million (U.S.\$1,645.7 million), respectively. Interbank's ROE and ROA for the year ended December 31, 2020 were negative. However, adjusted ROE and adjusted ROA were 2.0% and 0.2%, respectively (See "Item 4. Information on the Company—Business Overview—Non-GAAP Financial Measures" for an explanation of the adjustments made in 2020). Interbank's ROE for the years ended December 31, 2019 and 2018 was 21.2% and 20.2%, respectively, and ROA for the years ended December 31, 2019 and 2018 were 2.4% and 2.2%, respectively. (See "Item 4. Information on the Company—Business Overview—Non-GAAP Financial Measures" for an explanation of the adjustments made in 2019 and 2018).

### ***COVID-19 Measures***

Interbank responded to the COVID-19 pandemic in 2020 in accordance with its business continuity plan, taking actions across the various different levels in the organization, including the following:

#### ***Operations***

- Providing critical employees with technological tools.
- Implementing new protocols for the continuity of businesses under the current circumstances.

- Monitoring of supplier operations related to the supply of cash.
- Reinforcing IT systems and cybersecurity.

#### *Distribution channels*

- Implementing flexible operating hours at our financial stores.
- Maintaining ATMs at full capacity and ensuring availability of cash.
- Increasing number of phone operators in call centers.
- Promoting adoption of apps and internet banking.

#### *Employees*

- Implementing COVID-19 health protocols and surveillance.
- Implementing a work from home protocol for employees whose work allows it.
- Implementing daily health tracking for employees through the ConsultAPP program.
- Purchasing COVID-19 testing kits for employees.

In addition to these measures, Interbank has enacted policies to provide flexibility to clients. For example, clients have been able to request the rescheduling of their debts and postponement of their obligations under different schemes, some of which do not require payment of any additional interest or fees. As of December 31, 2020, 400,000 clients had their loans rescheduled, of which approximately 385,000 were retail clients and around 14,000 were commercial clients. Rescheduled loans represented S/10.5 billion or 25.2% of Interbank's total portfolio. Of these, S/7.5 billion were retail loans (39.1% of Interbank's total retail loans), and the remaining S/3.0 billion were commercial loans (13.2% of Interbank's total commercial loans).

Interbank has also participated in the Reactiva Peru Program, which was designed to ensure the continuity of payments to lenders and stabilize the economy by allowing Peruvian banks to originate low interest-rate, Central Bank-funded, commercial loans, guaranteed between 80% and 98% by the Peruvian government. These loans have tenors of up to 36 months and grace periods of up to 12 months. As of December 31, 2020, outstanding loans disbursed by Interbank under the program amounted to S/6,616.5 million, or approximately 30% of the total commercial loan portfolio.

Finally, Interbank has taken steps to protect its solvency and liquidity positions, including remaining active in the Central Bank's daily operations and using and renewing external lines of credit with correspondent banks abroad. Interbank also reduced its 2019 earnings payout ratio from 45% to 25% and agreed to fully capitalize first quarter earnings for 2020. In addition, in early July 2020, Interbank issued a U.S.\$300 million subordinated bond due in 2030 with a call option in 2025. These steps were intended to strengthen Interbank's capital ratios and support Interbank in weathering market volatility.

Furthermore, the Peruvian government and institutions such as the Central Reserve Bank of Peru responded quickly to the crisis and implemented expansionary fiscal and monetary measures immediately, aiming to provide liquidity, including, among others:

- Two 100-basis point cuts in the reference rate, from 2.25% to 1.25%, and from 1.25% to 0.25%;
- Several liquidity injections into the economy;
- Reductions in reserve requirements, both in *soles* and in dollars;
- Repo auctions and FX swaps;
- Cash transfers ordered by the MEF to over 3.8 million low-income families and over 700 thousand non-salaried workers;
- Allowance of withdrawals of up to S/2,400 from compensation for service time accounts;
- Allowance of withdrawals of S/2,000 of workers' private pension funds, only if not registered in a payroll during the last six months;

- Suspension of employee contributions to private pension funds in April 2020;
- Schemes for rescheduling loans for up to six months, depending on the type of loan;
- Implementation of the Fondo de Apoyo Empresarial a las MYPE, a S/800 million fund to support SMEs, in addition to approximately S/1,100 million available from the Fondo Crecer, another fund with a similar purpose;
- Postponement of income tax payments by companies and households;
- Subsidies of 35% of companies' payrolls (for employees with salaries up to S/1,500); and
- Launch of the Reactiva Peru program and related loan rescheduling schemes.

### **Business Lines**

Interbank has three business lines: (1) retail banking, (2) commercial banking and (3) treasury and institutional.

### **Retail Banking**

Interbank's retail banking business line provides a variety of financial products and services to individuals including retail loans and retail deposits. Interbank's retail banking strategy consists of providing the best customer experience through convenient, agile and friendly service. Interbank's key objectives include increasing its market share in its core products through acquiring new clients, increasing its share of wallet and cross-selling products to its existing customers. Interbank seeks to meet the financial service needs of Peru's growing middle class. Interbank believes the retail banking sector presents significant opportunities to continue to grow and sustain high margins, while taking on reasonable risk.

As of December 31, 2020, retail loans represented 46.4% of Interbank's total loan portfolio outstanding as compared to 31.8% for the Peruvian banking system under SBS GAAP. Furthermore, Interbank's strategy also seeks to continue capturing low-cost funding through a stable and diversified deposit base. The following charts show Interbank's and the Peruvian banking system's retail gross loans breakdown according to the SBS as of December 31, 2020.

Source: SBS.

### Retail Loans

Retail loans consist of consumer and mortgage loans. Interbank classifies its consumer loans into two categories: (i) credit cards; and (ii) payroll deduction and other consumer loans.

#### *Consumer Loans*

*Credit cards.* Credit cards represent the largest portion of Interbank's consumer loan portfolio in terms of outstanding loans. Interbank offers its retail customers all three major credit cards: VISA, MasterCard and American Express. Interbank has an exclusivity agreement with American Express for its Centurion line of credit cards in Peru. Interbank also offers credit cards with different value propositions catering to each customer segment.

Interbank's credit card loans had a CAGR of 4.6% between December 31, 2016 and December 31, 2020 and represented a market share of 27.5% as of December 31, 2020. For the year ended December 31, 2020, credit card loans decreased by 18.9% as compared to 2019 due to decreased consumer financing as a result of the COVID-19 pandemic. For the year ended December 31, 2019, credit card loans increased by 20.7% as compared to 2018. As of December 31, 2020, credit cards represented 26.4% of Interbank's retail loan portfolio as compared to 17.8% for the Peruvian banking system, and its past-due loan ratio in credit cards stood at 9.9%. As of December 31, 2019, credit cards represented 31.3% of Interbank's retail loan portfolio as compared to 21.9% for the Peruvian banking system, and its past-due loan ratio in credit cards stood at 4.2%. Interbank's past-due loan ratio results from its strategy of targeting customers through enhanced and proprietary credit scores and offering differentiated pricing based on each customer's risk profile through improved credit scoring and origination models.

Beginning in January 2021, the SBS introduced a reporting rule whereby non-revolving credit card loans must be reported as other non-revolving consumer loans. This is expected to result in a reduction to Interbank's credit card loan balances, and a change in its retail loans portfolio mix.

*Payroll deduction loans.* Payroll deduction loans to public sector employees such as police officers, teachers and army employees, Interbank ranks first among private banks in Peru in terms of payroll deduction loans to public sector employees, with a market share of 26.7% as of December 31, 2020 as compared to 26.3% as of December 31, 2019.

The risk of default under payroll deduction loans is low, because the employer deducts the loan payments from the employee's salary and makes payments directly to Interbank. Additionally, these payroll deduction loans are legally required to be insured by an insurance company against the death and disability of the borrower. Interseguro provides substantially all of the insurance policies for these loans although customers are free to purchase insurance from other providers.

*Personal loans.* Personal loans include cash loans, vehicle loans, student loans, express loans and collateralized cash loans. Cash loans have a term of up to 60 months and a grace period of up to 2 months. Vehicle loans finance first-time car purchases for up to 100% of the price of the vehicle, have terms of up to 60 months and allow customers to postpone one installment, if required. Student loans finance up to 100% of postgraduate courses, have a term of up to 60 months and a grace period of up to 2 years. Express loans offer up to three loan alternatives to customers, with different terms, interest rates and principal amounts, according to each customer's needs. Finally, collateralized cash loans allow customers to include savings accounts or real estate as collateral, have a term of up to 60 months and a grace period of up to 2 months.

#### *Mortgage Loans*

Interbank offers fixed rate mortgage loans with a typical term of 20 years and a typical down payment of 20% denominated in either U.S. dollars or soles.

Interbank's mortgage loans outstanding grew at a CAGR of 11.4% between December 31, 2016 and December 31, 2020 compared to a CAGR of 7.5% for the Peruvian banking system in the same period. Between December 31, 2019 and December 31, 2020, Interbank's growth in mortgage loans outstanding was 7.4%, compared to 4.6% for the Peruvian banking system over the same period. For 2019, Interbank's growth in mortgage loans outstanding was 12.4% with respect to 2018, as compared to 8.7% for the Peruvian banking system over the same period. For the year ended December 31, 2020, Interbank's mortgage loan disbursements amounted to approximately S/7,755 million, of which 89.0% were denominated in soles and the remaining 11.0% in U.S. dollars. For 2019, Interbank's mortgage loan disbursements amounted to approximately S/7,221 million, of which 87.8% were denominated in soles and the remaining 12.2% in U.S. dollars.

Interbank also provides residential construction loans to real estate developers. Although these loans are reported within the commercial banking portfolio, they are managed together with retail banking mortgages because of the synergies between the businesses. Financing real estate projects provides Interbank with an opportunity to market mortgage loans to home buyers.

In 2001, the Peruvian government launched the *Nuevo Crédito Mivivienda* program, a social initiative to promote the construction of low-income housing, of which Interbank is an active participant. As of December 2020, the Mivivienda program had successfully disbursed 157,278 loans, mainly to develop multi-family buildings. The *Nuevo Crédito Mivivienda* program provides direct funding to match each loan underwritten by banks, as well as credit risk coverage for one-third of any realized loss. Furthermore, the program subsidizes interest rates by rewarding the end customer with direct financial incentives if payments are kept current.

### Retail Deposits

Interbank offers a wide range of *sol* and U.S. dollar denominated transactional, savings and investment accounts through one of the largest distribution networks, as measured by total financial stores, ATMs and correspondent agents. These products satisfy key consumer needs and position Interbank as an attractive financial institution for retail customers.

### *Transactional accounts*

Within retail deposits, Interbank offers transactional accounts with different interest rates, maintenance fees and options for accessing funds.

*Cuenta Sueldo* is a payroll account into which an employer may deposit an accountholder's salary on a regular basis. These payroll accounts provide debit cards for employees, as well as monthly interest on account balances and discounts at restaurants and retailers, among other benefits. Interbank offers these payroll account services to employers in conjunction with other commercial banking products, and also markets directly to employees.

*Cuenta Simple* is used by customers for their everyday banking needs and does not have a maintenance fee. Transactions are free of charge for up to a certain number of monthly transactions through physical channels. In addition, all transactions performed through online banking and other electronic devices are free of charge. This transactional account is of low cost for Interbank as most of the transactions are conducted through electronic channels. Customers are also able to receive incoming wire transfers in this account.

### *Savings accounts*

Interbank offers savings accounts with a variety of interest rates, maintenance charges and options for alternative access channels, such as ATM cards, and free Internet access and mobile access.

*Cuenta Millonaria* is Interbank's fastest growing savings accounts, which may be denominated in *soles* or U.S. dollars. The *Cuenta Millonaria* account allows accountholders to participate in sweepstakes to win prizes such as an apartment and a car.

*Cuenta Super Tasa* are savings accounts that permit unlimited transactions in electronic channels, carry no monthly maintenance fee and provide additional benefits tailored to the needs of different customer types.

*Alcancía Virtual* is a digitally-enabled feature of a transactional or payroll account in either *soles* or U.S. Dollars, which encourages our customers to save. This virtual piggy bank allows customers to easily transfer or "swipe" certain amounts from other accounts to their piggy bank. The funds allocated to the piggy bank are not subject to maintenance fees and benefit from higher rates than those applied to the associated transactional account. Amounts in customers' piggy bank do not show as funds available for ATM withdrawals or for debit card purchases. As such, money deposited in piggy bank accounts improve Interbank's funding base. Customers retain full flexibility to transfer any funds in their piggy bank account to their transactional accounts through mobile banking or online banking.

### *Investment accounts*

Interbank offers time deposits, certificates of deposit (CDs) and compensation for service time accounts ("CTS", by its Spanish acronym) accounts denominated in *soles* and U.S. dollars, to customers who may or may not have a checking or savings account with Interbank.

Interbank offers time deposits and CDs, with maturities ranging from 31 days to 10 years. Time deposits with maturities of 31 days or more may be opened with a minimum initial balance of S/2,000 or U.S.\$1,000. Time deposits with maturities ranging from one year to 10 years are only offered in *soles* and can be opened with a minimum initial balance of S/50,000.

CTS accounts are severance accounts that employers must open for the benefit of their employees pursuant to Peruvian law. Employers must deposit into these accounts twice a year (in May and November) an amount equal to one half of an employee's month salary. Employees may withdraw from their CTS account any amount exceeding the sum of such employee's four months' salary calculated based on the most recent monthly salary.

## ***Commercial Banking***

Interbank's commercial banking business line primarily target Peruvian corporations and medium-size companies. The commercial banking unit has three business units: (1) corporate; (2) medium-size business and (3) small business.

Interbank markets its cash management services, including payroll services, collection and account payments, to commercial clients that provide it with opportunities to cross-sell retail products. As of December 31, 2020, Interbank was the fourth largest bank in terms of commercial loans outstanding, with a total commercial loan portfolio amounting to S/22.3 billion, representing a 10.0% market share, while its past-due loan ratio stood at 1.5%, the lowest among the largest four banks in Peru. Other traditional products offered to Interbank's commercial clients include working capital loans and letters of credit.

The following charts show Interbank's and the Peruvian banking system's commercial gross loans breakdown according to the SBS as of December 31, 2020:

Source: SBS.

According to the SBS, in general terms, corporate loans are loans offered to companies with annual sales exceeding S/200.0 million in the previous two years; large loans are offered to companies with annual sales between S/20.0 million and S/200.0 million in the previous two years, medium loans are offered to companies with a total debt in the Peruvian financial system above S/300,000 in the last six months that cannot be classified as corporate or large companies; small size loans are offered to companies with a total debt in the Peruvian financial system between S/20,000 and S/300,000 in the last six months; micro-company loans are offered to companies with total debt in the Peruvian financial system no higher than S/20,000 in the last six months.

## ***Corporate Banking***

Interbank's corporate banking unit is primarily responsible for providing services to companies with annual sales exceeding S/100.0 million or are part of a large economic group. Interbank's corporate banking unit provides investment banking, structured finance and other sophisticated banking products to meet the needs of its target clients. Furthermore, Interbank focuses on developing a relationship with each client and promoting fee-related and low-risk products, such as letters of credit, collections, transfers and foreign exchange services, tailored to meet the particular requirements of each client.

## ***Medium-Size Business Banking***

Interbank's medium-size business banking unit offers many of the same products as those of the corporate banking unit mainly to medium-size enterprises with annual sales between S/3.0 million and S/100.0 million. The unit primarily provides Interbank's clients with working capital loans secured by accounts receivable and other products, including financing for medium and long-term investment programs. Medium-size businesses also constitute an important source of deposits.

Medium-size enterprises in Peru generally do not have access to financing through local or international capital markets or to term loans from foreign banks. Interbank expects to capitalize on the significant growth opportunities in this sector and to profit from the margins that it offers when taking into account the reasonable degree of risk involved. We believe that this sector will continue to grow along with the Peruvian economy. In this sector, financial entities are the main competitors of banks.

### Small Business Banking

Interbank's small business banking unit serves companies with annual sales between S/500,000 and S/3.0 million. Interbank offers working capital loans, fixed asset financing, revolving lines of credit and transactional accounts to small businesses. Interbank has invested in building an experienced team and developing a strong IT platform, with online and automated processes to better serve these customers.

### Main Commercial Banking Products

*Medium-Term Loans.* Interbank offers Term Loans, which are loans with tenors over 1 year and with average duration of 3.2 years. These loans are usually collateralized with mortgages and/or other assets in order to secure the credit facility. Furthermore, Interbank earns structuring fees from these transactions.

*Leasing.* Interbank provides financial leasing including commercial real estate, vehicles, machinery and other goods. At the end of the term of a leasing agreement, the customer has the option to purchase the leased assets. According to the SBS, as of December 31, 2020, Interbank's market share was 7.4% by gross loans. Leasing products generate high margins and present lower credit risk compared to other financial products.

In recent years, the growth in Interbank's leasing business has been driven by economic growth and related private sector investments. We expect this trend to continue in the future. Furthermore, Interbank is actively pursuing leasing and financing opportunities for machinery and equipment to grow its leasing business.

*Cuenta Negocios* is a 100% digital current account for businesses. Upon certain brief procedures and control checks, the account is opened for customers' use. The process lasts about an hour and is completely paperless. Customers may request to open a *Cuenta Negocios* every day of the week. Account statements are sent to clients by email and are also made available through internet banking. The business account is associated with a maintenance plan that may be digital (free of charge) or transactional (subject to a fee), and that is mainly related to the different channels that clients can use to perform transactions.

*Cash management.* Interbank offers products and services that strengthen its relationship with clients, build loyalty and reduce costs by using electronic channels and by increasing fee income. Services managed by this unit include collection services (automated trade bill collection), automated payments (payroll and payments to suppliers) and digital banking and cash management. Interbank earns fees from cash management services by charging its clients a fixed fee and a variable fee based on the volume and frequency of the transactions.

*Trade finance.* Interbank provides short-term loans for trade, funded with internal resources or with credit lines from foreign banks. In addition, the trade finance unit offers medium-term credit lines using funds granted by international commercial banks and foreign governmental institutions. The trade finance unit also earns fees by providing customers with letters of credit, international collection and foreign exchange services. According to the SBS, as of December 31, 2020, Interbank had a market share of 10.5% in the trade finance business.

Interbank intends to take advantage of the growing importance of China in Peru's foreign trade by facilitating trade and investment with both countries. In 2007, Interbank established a Commercial Representative Office in China in order to provide financial services to Peruvian and Chinese companies wishing to trade in either markets.

*Factoring.* Through its electronic factoring product, customers are able to send their invoices to Interbank on a continuous basis up to a certain credit limit and borrow against these invoices. Once the customer reaches this limit and no additional receivables are generated, the customer stops receiving advances from Interbank.

### ***Treasury and Institutional***

The main activities of Interbank's treasury and institutional business line include treasury and institutional banking, as well as securitization services through Internacional de Títulos Sociedad Titulizadora S.A. ("Intertítulos").

### Treasury

Interbank is an active participant in the money and foreign exchange trading markets in Peru. Its money market desk plays an active role in the *sol* and foreign currency short-term money markets. In addition, the money market desk participates in the auction of certificates of deposit issued by the Central Reserve Bank of Peru. Interbank's proprietary trading activities focus on foreign exchange trading and short-term investments in securities, which primarily include certificates of deposit of the Central Reserve Bank of Peru, Peruvian global bonds and sovereign debt instruments.

### Institutional Banking

Interbank's institutional banking unit serves primarily non-profit public and private organizations, international entities, educational institutions and nongovernmental organizations. As of December 31, 2020, the institutional banking unit had more than 750 clients and S/8.2 billion in deposits, accounting for 18.3% of Interbank's total deposits.

The institutional banking unit is strategically important to Interbank as it provides Interbank with a stable and low cost deposit base, as well as opportunities for fee income generation. The clients for the institutional banking unit require mainly transactional products, such as remote office banking, collection services, automated payroll payment services and investment management. Interbank's strategy is focused on building customer loyalty with these clients by offering customized services at competitive rates and by providing high-quality customer service.

### **Securitization Services**

In addition, Interbank provides securitization services through its wholly-owned subsidiary, Intertítulos, which is regulated by the SMV. Intertítulos, acting as a trustee, enables its clients to issue securities in order to obtain funds directly from financial markets.

### **Distribution Channels**

Interbank has built and developed one of the best omni-channel platforms that combine physical and digital presence, serving over 4 million customers as well as non-customers across Peru.

In terms of physical presence, Interbank has developed a highly convenient network. As of December 31, 2020, Interbank had 215 financial stores and operated 1,640 ATMs, the third-largest ATM network in Peru. Interbank has the largest number of financial stores within retail locations in Peru, under our *Global Net* brand. Moreover, with the intention of offering greater convenience as well as providing underserved customers with greater access to financial services, Interbank operates a network of over 3,331 correspondent agents as of December 31, 2020, known as *Interbank Agente*.

In terms of online channels, Interbank provides any customer or non-customer with the option to have a completely digital experience with the bank; from acquisition to onboarding and use of its financial products. Its public website, [www.interbank.com.pe](http://www.interbank.com.pe), has a strong commercial focus and manages the bank's digital acquisition of new customers. Its online banking and mobile application give customers immediate access to its day-to-day transactions and after-sales services and uses those interactions to capture cross-sell opportunities. Furthermore, Interbank has developed other channels that serve specific segments or customer needs. For example, a separate website, [www.interbankbenefit.pe](http://www.interbankbenefit.pe), serves customers under the Interbank Benefit loyalty program, and "Cuenta Sueldo" is a mobile application for payroll account customers that gives access to discounts and benefits.

The following table shows the number of monetary transactions of each distribution channel:

<b>Number of transactions in December, in millions</b>	<b>2016</b>	<b>2017</b>	<b>2018</b>	<b>2019</b>	<b>2020</b>	<b>CAGR 2016-2020</b>
Financial stores	3.0	2.7	2.6	2.7	1.5	(15.9)%
Off-branch	9.2	10.0	11.3	14.4	18.4	19.0%
ATMs	6.2	6.3	6.7	6.5	5.5	(3.1)%
Correspondent agents	1.9	2.0	2.0	2.8	3.4	16.2%
Mobile banking	0.9	1.6	2.4	4.9	9.4	78.1%
Other	0.2	0.2	0.1	0.1	0.1	(9.1)%
<b>Total</b>	<b>12.2</b>	<b>12.7</b>	<b>13.9</b>	<b>17.0</b>	<b>19.9</b>	<b>13.1%</b>

The following table shows the percentage of use of each distribution channel, reflecting a transition from the use of traditional channels (branches, ATMs and correspondent agents) to mobile banking:

**As of December, Percentage of total**

	In December,				
	2016	2017	2018	2019	2020
Financial stores	24.5%	21.4%	18.7%	15.7%	7.5%

<b>Total general</b>	<b>100%</b>	<b>100%</b>	<b>100%</b>	<b>100%</b>	<b>100%</b>

### Financial Stores

As of December 31, 2020, Interbank had 215 financial stores in Peru. After peaking at 290 financial stores in 2016, the number of financial stores decreased mainly due to the success in transferring basic transactions from the stores to more efficient channels, the education of customers in the use of online banking and mobile applications, and process improvements. However, Interbank maintains the fourth largest network of financial stores among Peruvian banks, covering 23 of Peru's 25 regions. A large number of the financial stores are located in convenient, high traffic areas, such as supermarkets and shopping malls, to maximize client coverage.

In May 2013, Interbank introduced "Imagine" financial stores, a concept jointly developed with IDEO, a design and innovation consulting firm. "Imagine" fosters a more pleasant and inviting environment to Interbank's customers and is designed to educate customers on the use of electronic channels in order to migrate low value transactions to more efficient channels, while continuing to capture new customers and exploit cross-selling opportunities. Imagine has set new service standards in the industry and many of its elements have been adopted by Interbank's main competitors.

To further strengthen the "Imagine" model, since 2016 Interbank introduced the role of digital education in its stores, offering new and existing customers an assisted onboarding process onto its digital channels. In 2020, 7.9% of new digital users utilized the onboarding process offered at its stores.

The following chart illustrates Interbank's financial stores evolution according to the SBS.

### ATMs

Interbank's strategy is to offer its customers increased convenience and as of December 31, 2020, had the third largest ATM network in Peru with more than 1,600 ATMs located across Peru. Although this number represents a reduction from the 2,159 ATMs in 2016, the streamlining of the network has allowed Interbank to relocate ATMs to higher convenience locations as well as invest in renewing and upgrading its equipment, while monetary transactions kept growing year-over-year in this channel. The reduction of the network in 2019, responds to Interbank's decision to discontinue the operation of 359 coin-dispensing ATMs, migrating those transactions to more efficient channels like regular ATMs or correspondent agents.

Approximately 69.4% of Interbank's ATMs are located away from its financial stores in high foot traffic areas like shopping malls, supermarket and airports. These 1,133 ATMs make up one of the largest out-of-branch networks in Peru, as reported by ASBANC. The ATM channel is the second-largest channel in terms of monetary transactions, with a 27.6% share and has advanced features, including cardless withdrawals, the ability to receive cash and check deposits, bill and credit card payments in cash, as well

as disburse payroll advances, pre-approved cash loans or sell insurance products. To offer this increased convenience in an efficient way, Interbank operates under the *Global Net* brand which is also a business line that provides ATM services to 45% of the financial institutions in Peru and acquires ATM transactions for all major global brands, including Visa, MasterCard, American Express, JCB, Union Pay, Diners and Discovery.

The following chart illustrates the evolution in number of Interbank's ATMs according to ASBANC.

### Correspondent Agents

This channel operates under the *Interbank Agente* brand and consists of providing traditional merchants, for example *bodegas* and internet cafés, with low-cost electronic terminals that allow customers to perform basic cash-based transactions, such as withdrawals, deposits and payment of utility bills. Interbank expanded its network from over 3,200 as of December 31, 2019 to 3,331 as of December 31, 2020. Over the same period, the expanded network and the focus in migrating low value cash-based transactions from stores to more efficient channels, contributed to an increase in transactions in this channel, from 2.8 million to 3.4 million.

The following chart illustrates the evolution of Interbank's Correspondent Agents according to ASBANC and Interbank's information.

### Mobile Banking

Interbank has developed a robust digital ecosystem that allows its customers to fulfil their financial needs and goals with a 100% digital experience. Its objective is to provide a journey which does not require physical contact so that its clients do not need to physically visit a branch or contact the call center, unless the customer chooses to do so. Interbank offers digital banking to its new and existing customers through its website and its mobile application. As of December 31, 2020, Interbank had more than 1.7 million monthly active users and registered over 9.4 million monetary transactions as well as 106.9 million non-monetary transactions. Its mobile application was the highest rated in the Google Play Store among the four largest banks in Peru. In addition to its website and mobile banking channels, Interbank has also developed other digital solutions that address specific customer segments or needs such as Interbank Benefit, a loyalty program, and *Cuenta Sueldo* APP, where our payroll account customers can access special discounts and benefits. Furthermore, in 2019, Interbank launched *Crédito por Convenio* APP, which services our public sector payroll deduction loan customers.

Interbank's website provides general information about the bank and its products and services and has a commercial orientation, allowing non-customers to acquire credit cards or open a savings or transactional account. In 2019, Interbank also introduced the ability to request a personal loan through its website.

Interbank's mobile banking is available to existing customers and its services include: (i) transactions: account balance and transaction inquiries, transfers between accounts, credit card, bills and loan payments, mutual funds investments and cardless ATM withdrawal requests; (ii) after-sales services: lock your card, enable or disable card usage online or abroad, turn on notifications for card usage, mobile transactions and/or ATM withdrawals and divide card transactions into installments; (iii) product cross-sell: credit cards, credit card line extension, pre-approved loans, savings accounts and insurance products; and (iv) personal financial management tools: view your credit score and tips to improve it, spending, creating a budget. As of December 31, 2020, more than 95% of Interbank's transactions, 69% of the after-sales services and 50% of Interbank's products were available online. Furthermore, as part of its strategy to enhance the digital experience and incentivize its customers to migrate to digital channels, Interbank has digital-only services, such as access to the loyalty program "Interbank Benefit", the digital savings account "Piggy Bank", the personal financial management tool *Mis Finanzas* and a personalized credit score based on customers' financial behavior.

Increased monthly usage of digital solutions among customers is key to Interbank's strategy as mobile banking customers interact monthly more than eight times the amount that branch customers do, have lower transactional costs and have a better net promoter score and churn indicators as of December 31, 2020. Furthermore, in December 2020, 75.3% of our retail customers that interacted with the bank through any channel were digital customers, that is, customers that also access Interbank's services through internet and mobile banking, while monetary transactions in this channel grew by 93.6% from December 31, 2019 to December 31, 2020.

## ***Other Channels***

### **Inbound Call Center**

Interbank offers its customers telephone banking services through which they can obtain balance information, make credit card payments, transfer money between accounts and pay their utilities, insurance, tuition and cellular phone bills.

Interbank has a state-of-the-art call center, which managed an average of over 432,862 calls per month in 2020, answering inquiries from clients, offering assistance and information, and selling new products to customers.

### **Outbound Call Center**

Interbank has a dedicated telephone sales force of 217 employees as of December 31, 2020, which primarily sells credit cards and some other retail products. The dedicated sales force is a key resource for customer acquisition and for our cross-selling campaigns.

## ***Information Technology Unit***

Interbank continuously invests in new technology and the maintenance of its existing equipment and infrastructure in order to improve its value proposition to its customers, increase its efficiency and support business growth. The Information Technology Unit focuses on assuring 24-hour channel availability, enhancing the timeliness of data processing, guaranteeing data protection and anti-fraud security, updating and maintaining hardware platforms and software systems, developing contingency plans and implementing technology projects. Interbank's IT system also processes credit card, personal and commercial loans, and electronic transactions.

In order to comply with business and regulatory requirements, Interbank has strengthened its IT governance model incorporating best practices for IT quality assurance, risk evaluation, project management and dividing responsibilities within the teams that operate the technology and the teams that develop new solutions. It has also fortified its business continuity program through increased redundancy programs and upgraded hardware and software components. This model includes establishing operating partnerships with various leading world-class IT vendors.

Interbank has also made significant investments to upgrade its data centers and central technology platforms. These platforms provide a stable and secure environment for Interbank's operations, a better understanding of cost drivers, and improve its processes.

As part of its cybersecurity strategy, Interbank continued to strengthen the maturity level of its cybersecurity capabilities, processes and tools, based on the cybersecurity framework of the National Institute of Standards and Technology (NIST), as well as the definitions established by the bank. In 2019, Interbank defined a roadmap that started to unfold in 2020 and will continue developing further in the coming years, focusing on the development of cybersecurity capabilities that enable the bank's digital transformation strategy and mitigate emerging cybersecurity risks. During 2020, Interbank made progress in important initiatives related to strengthening the security of remote work, the implementation of new standards for payment card security (PCI DSS 3.2.1) and the implementation of new capabilities to strengthen the security of technology operations in the cloud.

Interbank's IT strategy is focused on dedicating more resources to projects that add more value to the customer and help to accelerate digital transformation. Interbank invests in back end applications with the aim of keeping applications current while more effort and resources are dedicated to customer facing applications in order to provide a seamless digital experience to internal and external customers through all our channels.

A high percentage of IT investment is aimed at deepening the understanding of the customer to achieve service that exceed their expectations, providing solutions to their problems and enabling a selling platform with contextual and real time offerings. To provide this, Interbank IT Unit fully utilizes the new technologies that allow the flexibility, scalability and availability required to fulfill customer demands. APIs, micro services and multicloud environments have been implemented since 2018 to reach these objectives. A close relationship with fintechs also helps Interbank to leverage some capabilities and creates opportunities to learn about the way to approach different solutions. An important fact to consider is the transformation of the working model from a waterfall scheme to an agile framework, based on new processes, tools and cultural changes. Today, all IT teams work following this framework. During 2020, we have evolved this model to allow remote work, redesigning processes and adopting new tools to achieve an optimal work experience for technology teams while taking care of their communication needs, security and productivity.

## ***Insurance Segment***

### ***Overview***

Interseguro is an insurance company that caters to Peru's growing middle class. Interseguro is focused on annuities and life insurance, two of the fastest growing insurance market segments in Peru, which are driven by the sale of annuities mostly to individuals that reached retirement or became disabled or died and individuals seeking life protection with savings options. Interseguro has been the leader in the Peruvian annuities (excluding private annuities) segment since 2010, with market shares in terms of premiums of 27.3% and 28.9% for the years ended December 31, 2020 and 2019, respectively. The overall activity of the industry, including annuities, was adversely affected by the national lockdown implemented in response to the COVID-19 pandemic, recovering to pre-COVID-19 levels in the fourth quarter of 2020.

For the four-year period ended December 31, 2020, Interseguro's ROE averaged 25.8% compared to 14.7% for the Peruvian insurance industry. For the year ended December 31, 2020, Interseguro's premiums (excluding disability and survivorship gross premiums) decreased 11.3% as compared to 2019, according to the SBS, related to lower sales as a result of the COVID-19 pandemic. For the year ended December 31, 2019, Interseguro's premiums (excluding disability and survivorship gross premiums) increased 6.6% compared to 2018, compared to the industry's 9.9% increase, according to the SBS.

Interseguro intends to leverage its leading position in annuities, as well as Intercorp Peru's and Interbank's retail distribution capacity to continue capturing growth opportunities in the insurance industry. In addition, Interseguro expects to continue developing new products to satisfy increasing demand for insurance products by middle class families in Peru.

The growth of annuities is expected to accelerate as the number of Peruvian private pension system affiliates and the Peruvian salaries average increases. From 2010 to 2020, the growth of Peruvian private pension system affiliates was 67.6%, according to the SBS, and the annual average growth of Peruvian salaries from 2009 to 2020 was 4.5%, according to INEI. In Peru, employees may choose to accumulate their mandatory retirement contribution in the public or the private pension system. Under the mandatory private pension system, a retiree has the option of converting the capital accumulated in a personal account maintained with an AFP into an annuity offered by a life insurance company, such as Interseguro. In addition to retirement annuities, Interseguro also offers disability annuities to members of the Peruvian private pension system who have been declared permanently or partially disabled. Moreover, Interseguro offers survivorship annuities to beneficiaries of deceased members of the system. Once an annuity client chooses an insurance company, the decision is irrevocable. Besides private pension system annuities, Interseguro offers private annuities, a product that was launched in 2016 and that is sold to any owner of private funds and is not restricted to members of the system and their accumulated capital. This product is aimed at retirees that choose to withdraw the 95.5% of their pension funds and are looking for an option to capitalize such funds.

Interseguro also offers traditional life insurance products, as well as low-cost premium retail insurance products, including credit life, SOAT, credit card protection insurance, among others, mainly sold through Interbank and Intercorp Peru's complementary channels, as well as digital channels. Interseguro's life and retail insurance business lines have grown significantly over the last five years. As of December 31, 2020, Interseguro was the fifth largest consolidated insurance company and the fifth largest life insurance company in Peru in terms of premiums. In addition, in terms of the size of its portfolio, Interseguro was the largest insurance company in Peru as of December 31, 2020.

For the years ended December 31, 2020, 2019 and 2018, Interseguro's net results were net profit of S/141.1 million (U.S.\$ 39.0 million), net profit of S/130.4 million (U.S.\$39.3 million) and net loss of S/61.5 million (U.S.\$18.6 million), respectively. As of December 31, 2020, 2019 and 2018 Interseguro had shareholders' equity of S/935.3 million (U.S.\$ 258.3 million), S/973.9 million (U.S.\$293.9 million) and S/777.1 million (U.S.\$234.5 million), respectively. Interseguro's ROE for the year ended December 31, 2020 was 18.9% while ROA was 1.0%. Interseguro's ROE for the year ended December 31, 2019 and 2018 was 14.2% and 10.4% (excluding one-time adjustment of S/144.8 million in 2018 as a result of the full adoption of new mortality tables), respectively, and ROA for the years ended December 31, 2019 and 2018 were 1.0% and 0.7%, respectively.

For the years ended December 31, 2020 and 2019, Interseguro's net profits under SBS GAAP were S/256.6 million and S/435.9 million, respectively. The decrease in Interseguro's net profit under SBS GAAP for the year ended December 31, 2020 as compared to 2019 was primarily a result of a S/235.3 million reduction in valuation of real estate investments attributed to a temporary regulatory exception in the valuation of real estate investments in connection with a measure adopted by SBS in response to the COVID-19 pandemic. According to SBS, as of December 31, 2020, Interseguro had shareholders' equity of S/1,577 million as compared to S/1,531 million for 2019. Interseguro's ROE under SBS GAAP for the year ended December 31, 2020 was 18.0%, as compared to 31.9% for the year ended December 31, 2019. According to the SBS, for the year ended December 31, 2020, Interseguro was the second most profitable insurance company by ROE, when compared to the five other largest insurance companies in Peru.

Interseguro acquired Seguros Sura in November 2017 and merged with Interseguro in March 2018. According to the SBS, for the period ended December 31, 2016, Seguros Sura was the fourth largest company by assets and the third largest company in the annuities and individual life segment in Peru with a 17.4% market share and a 10.4% market share by premiums, respectively. As a result, Seguros Sura's results of operations are now reflected in Interseguro's results. For more information on the impact of this acquisition, see "Item 5. Operating and Financial Review and Prospects—A. Operating Results—Factors Affecting Our Results of Operations—*Impact of Acquisition of Seguros Sura.*"

### **COVID-19 Measures**

Interseguro had a rapid and effective response to the COVID-19 pandemic, deploying response measures targeting its operations, financial profile and investments, and customers and employees.

In the interest of safeguarding the integrity of the organization and health of its employees, Interseguro implemented a home office scheme for all of its administrative staff, while suspending all activities of its sales force for the first 60 days of the lockdown implemented by the Peruvian government in the spring of 2020 in response to the pandemic. Interseguro's sales force was granted paid leave from mid-March to mid-May of 2020 and has since gradually resumed its commercial activities. Currently, 100% of Interseguro's operational sales force is working through remote assistance and digital channels. Interseguro's customer service offices initially reopened with limited capacity during the pandemic but as of the date of this Annual Report on Form 20-F, most of the customer service force is also working 100% remotely. Interseguro's digital channels are expected to take a leading role in the company's recovery and adjustment to operations in the COVID-19 era.

Interseguro's investment strategy during the pandemic was focused on identifying and reducing potential risks in its portfolio and looking for assets of solid companies with strong credit metrics. As a result of this strategy, the portfolio was rebalanced, which resulted in the sale of positions involving higher risk and the purchase of assets we believe have a safer risk-return profile. In addition, despite the negative impacts of the COVID-19 pandemic in 2020, the real estate portfolio performed well. Most contracts with tenants were renegotiated independently, resulting in arrangements designed to increase payment flexibility and reduce payment defaults. Interseguro also implemented cost control measures resulting in both one-off and ongoing savings to protect net income from potential impairments and increased claims as a result of the impact of higher mortality rates on our life insurance business.

Finally, Interseguro is closely monitoring the collection of life insurance premiums and offering rescheduling of payments to life insurance policyholders, while advancing pension payments to annuity clients within the same month during which they were originally due, in order to ensure that the liquidity and security needs of its clients are met.

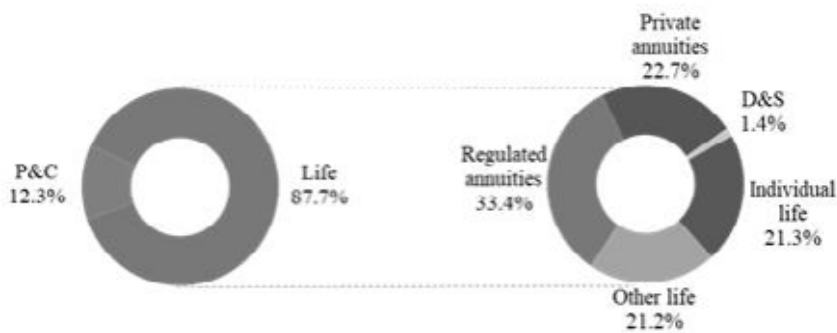

**Interseguro's Business Lines**

Interseguro has three business lines: (1) annuities, (2) retail insurance and (3) individual life.

The following chart shows Interseguro's and the Peruvian insurance system's breakdown by life insurance premiums plus collections according to the SBS as of December 31, 2020:

**Interseguro**

The following chart shows Interseguro's gross premiums and collections, according to SBS for the periods indicated.

Source: SBS.

(1) Excluding gross premiums from disability and survivorship.

### Annuities

An annuity is a type of insurance policy that, in exchange for an initial lump sum payment, provides regular monthly payments. Interseguro offers three types of annuities: *Soles*, U.S. dollars and *soles* indexed to CPI, adjusted by 2% per year.

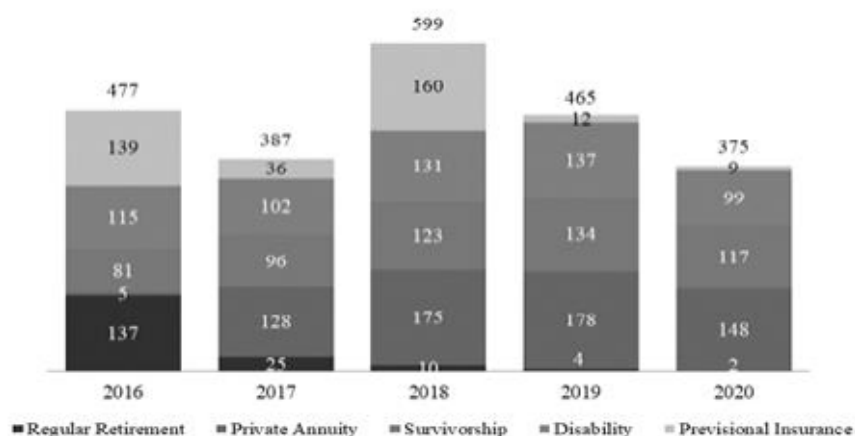

There are two groups of annuities: (i) Regular Retirement Annuities are the annuities sold under the Peruvian private pension system, and (ii) Private Annuities which include the *Renta Privada* product. In Peru, employees may choose to deposit their cumulative contributions in the public or the private pension system. Under the private pension system, upon retirement, a retiree has the option of converting the capital accumulated into a personal account maintained with an AFP, collecting 95.5% of their accumulated capital or converting the capital into an annuity offered by an insurance company, such as Interseguro.

In 2016, following the enactment of law No. 30,425, retirees are allowed to withdraw up to 95.5% of their accumulated capital in cash upon retirement. As a result, there was a significant reduction of annuities sold by Peruvian insurance companies, including Interseguro. In order to maintain the leadership in annuities, Interseguro launched Private Annuities. This product allows retirees to receive a fixed income either for life or temporarily. Interseguro was the first insurance company to introduce this type of product to the market in response to the new law. As of the date of this Annual Report on Form 20-F, most of the clients of Private Annuities and their funds originate from retirees that choose to withdraw the 95.5% of their pension funds.

In addition to Regular Retirement Annuities and Private Annuities, Interseguro also offers disability annuities to members of the Peruvian private pension system who have been declared permanently or partially disabled before reaching retirement age and thus unable to access a sufficient pension and survivorship annuities for beneficiaries of deceased members of the system.

The following table shows Interseguro's Annuity Gross Premiums by type from 2016-2020.

**Annuities Gross Premiums (\$/ in Millions)**

Source: Company information.

Interseguro's annuities products include:

#### Regular Retirement Annuities

**Retirement.** The retirement annuity product is directed to members of the Peruvian private pension system who are 65 years of age or older and retiring. This product represented 0.4% of annuities sold by Interseguro for the year ended December 31, 2020 as compared to 0.5% and 0.9% for the years ended December 31, 2019 and 2018, respectively.

**Early Retirement.** The early retirement product was offered to members of the Peruvian private pension system who are not yet 65 years of age, but who are permitted to have access to their Peruvian private pension system accounts if the savings in such accounts allow for a pension of at least 40% of the average last 120 months' compensation. The early retirement annuity products represented 0.1% of annuities sold by Interseguro for the year ended December 31, 2020 as compared to 0.1% and 0.1% for the years ended December 31, 2019 and 2018, respectively. Peruvian law was modified and since May, 2019, in order to access this product, men must be at least 55 years old and women 50 years old. This change is intended to fill a loophole in the law that allowed affiliates to deliberately increase their funds with additional deposits, in order to access early retirement and withdraw 95.5% of their total pension funds, regardless of age. This modification closed the loophole should positively impact the annuities market slightly, as it helps in retaining affiliates in the private pension system for longer.

**Special Early Retirement.** The special early retirement product was offered until December 2018 to members of the Peruvian private pension system who are 55 years of age or older and male, or 50 years of age or older and female, and are retiring and have not been contributing to the Peruvian private pension system for at least 12 months. Since May, 2019, the Peruvian law established that this regime is permanent and in order to access this product, if a retiree receives income during the period in which they have not been contributing, total income must be less than or equal to 7 UIT (*Unidad Impositiva Tributaria*).

This product is more flexible than the standard early retirement annuity product. The special early retirement annuity product represented 0.0% of annuities sold by Interseguro for the year ended December 31, 2020 as compared to 0.2% and 0.7% for the years ended December 31, 2019 and 2018, respectively.

**Private Annuities.** The Private Annuities product was launched in 2016 allowing the recovery of Interseguro's premiums and collections from the effects of the law No. 30,425, enacted in 2016. This product can be sold to any owner of private funds and is not restricted to members of the system and their accumulated capital. The annuity can have any duration and the lump sum invested can be partially or totally repaid at the end of the annuity, if it has one. As of the date of this Annual Report on Form 20-F, most of the clients and their funds come from retirees that chose to withdraw 95.5% of their accumulated capital. Private Annuities represented 39.4% of annuities sold by Interseguro for the year ended December 31, 2020 as compared to 38.2% and 29.1% for the years ended December 31, 2019 and 2018, respectively.

### Disability and Survivorship Annuities

*Disability and Survivorship.* Under Peruvian law there is a mandatory insurance coverage for all members of the pension system paid monthly in addition to their contribution. In case a member has been declared permanently or partially disabled, or deceased while having legal beneficiaries, this insurance completes the accumulated capital as if the individual had worked until retirement age, allowing a better pension when applying for the retirement. While this insurance is not an annuity, it is closely related to the one we describe next. Disability and survivorship represented 2.5% of annuities sold by Interseguro for the year ended December 31, 2020 as compared to 2.6% and 26.8% for the years ended December 31, 2019 and 2018, respectively. The growth is explained in part by the acquisition of Seguros Sura.

The SBS conducts a Dutch auction every two years inviting insurance companies to bid to determine which insurance company will be the provider for this insurance in a two-year period. Interseguro was successful in the 2015 auction, and as a result of the merger with Seguros Sura, they were also a provider for 2017. Interseguro participated in the 2021-2022 year auction but were not successful; they expect to bid again at the next auction. Although this will represent a decrease in gross premiums in the following years, Interseguro ceded almost 100% of disability and survivorship gross premiums; therefore the effect on net profit is minimal.

*Disability and Survivorship Annuities.* The disability and survivorship product is offered to members of the Peruvian private pension system who have been declared permanently or partially disabled and to beneficiaries of deceased members of the Peruvian private pension system. This annuity is offered in conjunction with the disability and survivorship mandatory insurance. Disability and survivorship annuity products accounted for 57.6% annuities sold by Interseguro for the year period ended December 31, 2020 as compared to 58.3% and 42.4% for the years ended December 31, 2019 and 2018, respectively.

All retirement annuities sold under the Peruvian private pension system offer monthly payments for the life of the policyholder and thus the initial lump sum is never recovered. A retiree's joint choice of an insurance company, currency denomination and retirement modality is irrevocable.

Product differentiation is limited in the Peruvian annuities sector, as product features are regulated by the SBS. The market position of each insurance company is driven instead by its sales strategy and quality of service. Interseguro's sales strategy, consisting of providing ongoing sales force training, and implementing innovative control and management mechanisms, has permitted Interseguro to be the market leader in the annuities sector over the past four years, with an increasing advantage over the second largest market participant.

For the year ended December 31, 2020, Interseguro's market share by annuity premiums (including Private Annuities and excluding Previsional Insurance) was 21.0%, nearly 150 basis points lower than its next competitor's market share.

### **Retail Insurance**

Interseguro offers simple, low-cost premium products targeted to middle class families and sold mainly through Interbank financial stores, as well as channels owned by InterCorp Peru, including InterCorp Retail points of sale (Plaza Vea and Oechsle) and digital channels. In 2016, Interseguro expanded its retail insurance portfolio with an online sale for the launch of the digital SOAT and in 2018, with travel insurance and vehicle insurance.

Interseguro offers the following retail insurance products:

*Credit Life Insurance.* The credit life insurance product protects against death or disability of the insured and is designed to pay the debt owed by a customer to the financial institution. This product is available for mortgages, credit cards and personal loans. Credit life insurance represented 59.7% of total retail insurance premiums assumed by Interseguro for the year ended December 31, 2020 as compared to 56.8% and 52.4% for the years ended December 31, 2019 and 2018, respectively.

*Debit and Credit Card Protection Insurance.* The debit and credit card protection insurance product protects the insured against financial loss, medical expenses for hospitalization or accidental death as a result of theft, assault and abduction. Debit and credit card protection insurance represented 10.4% of total retail insurance premiums assumed by Interseguro for the year ended December 31, 2020 as compared to 8.9% and 15.7% for the years ended December 31, 2019 and 2018, respectively.

*SOAT (Seguro Obligatorio de Accidentes de Tránsito).* The SOAT product protects against the risk of death or injury to occupants and third parties involved in an automobile accident. The SOAT product is mandatory, and coverage is limited to cover personal injury, excluding any physical damage to the vehicle. The SOAT product accounted for 19.7% of total retail insurance premiums assumed by Interseguro for the year ended December 31, 2020 as compared to 17.0% and 16.2% for the years ended December 31, 2019 and 2018, respectively.

*Vehicle Insurance.* The vehicle insurance coverage includes damage to vehicles due to traffic accidents, total loss, theft, fire, nature risks, strikes or vandalism and civil liability for occupants and third parties. Occupants' damages such as permanent disability, healing expenses, funeral expenses and death are also covered. In addition, this insurance includes replacement drivers, cranes and mechanical assistance, among others. Vehicle Insurance represented 3.0% and 1.6% of total retail insurance premiums assumed by Interseguro for the year ended December 31, 2020 and the year ended December 31, 2019, respectively.

*Loan Protection Insurance.* The loan protection insurance covers a specific number of payments of a loan in case the insured loses his job. Loan protection insurance accounted for 3.8% of total retail insurance premiums assumed by Interseguro for the year ended December 31, 2020 as compared to 12.5% and 12.2% for the years ended December 31, 2019 and 2018, respectively.

*Extended Warranty.* The extended warranty product extends the product's original warranty period by about 12–24 months. Extended warranty product accounted for 0.5% of total retail insurance premiums assumed by Interseguro for the year ended December 31, 2020 as compared to 0.5% and 0.7% for the years ended December 31, 2019 and 2018, respectively.

*Others.* The other products category protects against personal accidents. Other products accounted for 2.8% of total retail insurance premiums assumed by Interseguro for the year ended December 31, 2020 as compared to 2.6% and 2.7% for the years ended December 31, 2019 and 2018, respectively.

### ***Individual Life***

Although the individual life insurance market remains relatively small in Peru, the market has grown at a CAGR of 14.4% between December 31, 2016 and December 31, 2020. For the year ended December 31, 2020, the decrease of the individual life insurance market was 1.9% as compared to 2019, mainly explained by the impact of the COVID-19 pandemic in the first half of 2020. The recovery of the Peruvian economy and digitalization of the sales processes are expected to boost sales of individual life products.

Interseguro offers a variety of individual life insurance products, providing a wide range of coverage for the length of a policyholder's life. Most of Interseguro's products also provide savings features.

Interseguro's strategy in individual life insurance consists in adapting its products to the emerging Peruvian middle class, developing a highly trained sales force, achieving high standards of sales efficiency and leveraging digitalization to increase sales of life insurance. For the year ended December 31, 2020, Interseguro positioned itself as the third largest participant in the individual life insurance market, with a 11.7% market share by premiums.

### ***Sales Force***

Interseguro markets its annuities and individual life insurance products through its own dedicated sales force both in Lima and across Peru's provinces, without a third-party intermediary. Due to the COVID-19 pandemic, Interseguro retooled its sales force to provide customers with a 100% remote assistance and digital operation. Prior to the pandemic, sales in annuities and life insurance products were only conducted in-person, but digitalization of these sales was accelerated.

In annuities, Interseguro employed 103 agents, 60 in Lima and 43 outside of Lima as of December 31, 2020. Each salesperson receives continuous training through a multiple-level program, which includes training in macroeconomic background, financial statement analysis, investment policy, marketing techniques and time management. In addition, Interseguro's annuity sales agents specialize in the sale of different types of annuity products. As a result, Interseguro's sales force is trained to satisfy each customer's needs.

In life insurance, Interseguro employed 287 agents, 219 in Lima and 68 outside of Lima, as of December 31, 2020. In addition, Interseguro employs servicing agents with the aim of servicing existing life insurance policies. We believe that constant training develops effective sales techniques and the skills to assess customer needs, which we believe is one of Interseguro's critical competitive advantages. Interseguro has a specialized team focused on setting a training curriculum for each sales person in the first three years with the company as well as in assigning a mentor to each new recruit.

As of December 31, 2020, Interseguro works with three brokers nationwide to offer SOAT. Interseguro also works with insurance brokers to sell SOAT to increase coverage in Peru with limited capital investment. As of December 31, 2020, the brokerage channel accounts for approximately 18.5% of Interseguro's total SOAT sales.

### ***Strategic Partners***

Interseguro offers its retail insurance, such as credit life insurance, debit and credit card protection insurance, loan protection insurance, SOAT and extended warranty through non-traditional channels, including partnerships with Interbank and InterCorp Retail.

Through its partner companies, Interseguro reaches a large number of customers, offering a convenient and reliable payment mechanism. This distribution network represents one of Interseguro's strongest competitive advantages, as it allows for a broad insurance product offering through several points of sales.

Interseguro's retail insurance division used the following distribution channels to sell its products as of December 31, 2020:

<u>Strategic Partners</u>	<u>Points of Sale</u>
Interbank	Financial Stores: 74
	Plaza Vea: 71 stores
Intercorp Retail	Oechsle: 24 stores

Interseguro's retail insurance premiums breakdown by distribution channel as of December 31, 2020 is the following:

<u>Strategic Partners</u>	<u>Retail insurance premiums breakdown</u>
Interbank	92%
Intercorp Retail (Plaza Vea and Oeschle)	8%

## ***Investments and Investment Management***

### ***Investment Portfolio***

Interseguro invests the insurance premiums yet to be paid out in claims in its investment portfolio, based on a policy of capital conservation and adequate diversification.

The main objective of Interseguro's investment portfolio is to cover its future payment obligations, associated mainly with its annuities business. Interseguro maintains a conservative asset liability management approach, matching its obligations by currency and maturity. Interseguro's portfolio focuses on investment grade fixed-income instruments in U.S. dollars, *soles* and inflation linked notes, mitigating interest rate, inflation, and currency risks. Interseguro's obligations consist of technical obligations related to annuities that are sold at a fixed interest rate, thus Interseguro prioritizes the investments on fixed income securities that hedge such obligations. Based on Interseguro's investment strategy, its portfolio shows asset sufficiency to cover insurance liabilities at a currency, duration, inflation and interest rate levels that hedge against volatility in these factors.

Given that the Peruvian market offers a limited range of long-term investment instruments, Interseguro has sought to increase its investments outside of Peru and explore alternative investments in the local market, such as real estate projects.

Interseguro is required to comply with the following investment management principles according to the SBS:

- *Security Principle.* Based on the protection and preservation of the economic value of assets over time.
- *Liquidity Principle.* Consist of the availability of an asset to be converted into cash at the required time and without significantly affecting its value.
- *Diversification Principle.* Based on the set of assets that contribute to the diversification of the risk factors of the portfolio and reduction of the potential impact of adverse effects.
- *Parity Principle.* Parity between the characteristics of the asset and the obligations that it supports. These features include the term or horizon, the degree of liquidity or enforceability, currency, volatility in valuation, predictability and timing of flows, among others.
- *Profitability Principle.* Based on generation of returns that would cover at least the commitments offered to policyholders.

Additionally, as established by the investment regulation of insurance companies, Interseguro must meet its technical obligations. As part of the coverage of the technical obligations proceeds, Interseguro must follow the investment management principles established in the regulation and comply with the eligibility requirements of its investments by type of assets.

Regarding the investment eligibility, to consider an asset as eligible, it must not be affected or be subject to any precautionary measure. The custody agreements of the eligible investment must not contain any clause that allows use of such assets as collateral to back other company obligations and that there are no other measures that limit the free transfer of the assets. Furthermore, eligible investments must comply with certain investment limits, by issuer, economic group, asset and foreign issuers. In addition, assets rated in categories below the investment grade cannot be considered as an eligible investment.

Interseguro's investment management complies with the limits and requirements indicated in the regulation in order to minimize non-eligible investments and comply with the coverage of its technical reserves, minimum solvency capital required and guaranty fund.

As of December 31, 2020, Interseguro's investments amounted to S/13,939.0 million, of which S/11,645.1 million and S/1,249.9 million were fixed income securities, and equity securities and fund investments, respectively as compared to S/12,435.8 million, of which S/10,400.9 million and S/1,062.8 million were fixed income securities, and equity securities and fund investments, respectively for 2019. As of December 31, 2020, investments in real estate projects were S/1,044.0 million (approximately U.S.\$ 288.3 million) as compared to S/972.1 million (approximately U.S.\$293.3 million) for 2019.

The following tables present a breakdown of Interseguro's investment portfolio by type of investment as of the dates indicated.

### Investments by Type

<b>Total</b>	<b>13,939.0</b>	<b>12,435.8</b>	<b>11,236.3</b>

(1) Real-estate and equity investments.

#### Fixed-Income

The fixed-income securities portfolio is mainly composed of long-term fixed rate debt that are eligible instruments to cover reserves, in compliance with the requirements established by the SBS.

As of December 31, 2020, Interseguro's fixed-income investments represented 83.5% of its total portfolio, of which 47.4% were corporate bonds, 25.1% were Peruvian sovereign bonds, 27.5% were foreign bonds as compared to 83.6% and 83.6%, respectively, of its total portfolio, of which 50.2% and 52.7%, respectively, were corporate bonds, 23.9% and 23.1%, respectively, were Peruvian sovereign bonds, 25.9% and 24.3%, respectively, were foreign bonds for 2019 and 2018.

As of December 31, 2020, 100% of bonds with local ratings and 95.1% of bonds with international ratings had investment grade status.

#### Equity and Funds

Substantially all of Interseguro's equity and funds portfolio is invested in companies with low beta and relatively stable and predictable cash flows. Interseguro's equity and funds portfolio is invested across Latin America and the United States. As of December 31, 2020 Interseguro's equity and funds portfolio represented 9.0% and of its total portfolio, of which 67.6% was invested in foreign securities and 32.4% in local securities. As of December 31, 2019 and December 31, 2018, Interseguro's equity and funds portfolio represented 8.5% and 7.7%, respectively, of its total portfolio, of which 66.8% and 79.5%, respectively, was invested in foreign securities and 33.2% and 20.5%, respectively, in local securities.

#### Real Estate

Interseguro's investments in real estate are made across the different types of properties: office, industrial, retail and land for development. Interseguro leverages advice from its affiliates, InRetail Shopping Malls and Real Plaza, in order to maximize its real estate portfolio. InRetail Properties Management is specialized in securing new locations and developing shopping malls based on its proprietary consumer demand analytics and projected yield targets. Real Plaza is focused on operating shopping malls in Peru.

Real estate income derives from the appreciation of real estate property and from rental income from its tenants. Interseguro's rental income comes primarily from Orquideas (offices building) and Tabacalera (industrial asset). Tabacalera is an industrial property leased to Teleatento Peru S.A.C, which is a company dedicated to call centers. As of December 31, 2020, Interseguro's investments in real estate projects represented 7.5% of its total portfolio, as compared to 7.8% and 8.8% for the years ended December 31, 2019 and 2018, respectively.

### ***Reinsurance***

Interseguro transfers risks to reinsurers in order to limit its maximum aggregate potential loss and minimize exposures on large particular individual risks. Reinsurance is placed with reinsurance companies based on its reinsurance policy, which is annually approved by Interseguro's board of directors and its risk committee. Interseguro's main reinsurers are six international reinsurance companies: Scor Global Life, Munich Re, Gen Re and Hannover.

Premiums ceded to reinsurers represented 1.6%, 1.5% and 1.4% of Interseguro's premiums assumed for the years ended December 31, 2020, 2019 and 2018, respectively (these percentages do not include the reinsurance for the pension-related insurance (disability and survivorship)).

Interseguro also has catastrophe reinsurance that covers individual and group life insurance products, except annuities. These contracts are intended to limit Interseguro's risk exposure in the event of low-probability but high-cost events, such as natural or man-made disasters.

### ***Information Technology Unit***

Interseguro's IT unit is responsible for managing its technology infrastructure, telecommunications network and computer systems. The unit is also responsible for designing and implementing in-house solutions or third-party technological developments to support Interseguro's operation.

Interseguro has undertaken investments in technology with the aim of providing a stable and secure platform to support its rapidly expanding business. In 2012, Interseguro's insurance company decided to invest in the implementation of an operations system in order to support Interseguro's planned growth in life and retail insurance, a CRM platform, and business intelligence capabilities, among others. Interseguro invested approximately S/1.7 million in projects for the year ended December 31, 2020 and approximately S/1.8 million and S/1.3 million, in projects for the years ended December 31, 2019 and 2018, respectively. Interseguro plans to invest approximately S/10.5 million over the next three years in technology.

Recently, as a result of the COVID-19 pandemic, cyber-security risks have increased primarily due to implementation of remote work policies. In response, Interseguro has implemented additional cyber-security measures to prevent, detect, and respond to these enhanced cyber-security risks. These measures focus primarily on the improvement of access management processes within the company, implementation of processes to supervise access to the company's systems, implementation and updates of the company's information security policies and procedures, and continuous evaluation of new threats in cyber-security.

## **Wealth Management Segment**

### ***Overview***

Inteligo is a provider of wealth management services through Inteligo Bank, brokerage services through Inteligo SAB and mutual funds management services through Interfondos. Inteligo Bank primarily focuses on individuals with investable assets in the range of U.S.\$500,000 and U.S.\$10.0 million, where Inteligo believes there is higher growth potential. Inteligo SAB and Interfondos focus on providing brokerage, mutual funds and financial planning services to individuals with investable assets under U.S.\$500,000. As of December 31, 2020, Inteligo had assets under management of S/20,988.8 million (U.S.\$ 5,796.4 million) as compared to S/18,292.9 million (U.S.\$5,519.9 million) in 2019. Inteligo's assets under management grew at a CAGR of 8.1% between December 31, 2016 and December 31, 2020. Increased wealth generation in Peru is expected to continue to create a market for wealth management services for Peruvian clients. Inteligo conducts various types of banking, trust, financing, brokerage and investing activities for high net worth individuals.

Inteligo SAB also provides sales and trading operations for individual and institutional customers primarily in the Peruvian capital markets. As of December 31, 2020, Inteligo SAB was the eighth largest broker by market share in equities trading, according to the SMV. Interfondos is the fourth largest mutual fund manager in Peru with a 13.0% market share based on assets under management, according to the SMV.

Inteligo's net profit for the year ended December 31, 2020 was S/243.1 million as compared to S/200.3 million in 2019. As of December 31, 2020, Inteligo had shareholders' equity of S/1,074.9 million as compared to S/853.8 million in 2019. Inteligo's ROE for the year ended December 31, 2020 was 28.0% as compared to 24.7% in 2019.

### **COVID-19 Measures**

Inteligo deployed several strategies across the organization to mitigate the impact of the COVID-19 pandemic on both its operations and on its employees. Inteligo Bank, Inteligo SAB and Interfondos have operated under a 100% home-office scheme since lockdown measures and social mobility restrictions were enacted by the governments of Peru, Panama and The Bahamas in March 2020. These companies were able to remain close to their clients by using technology to maintain frequent communication and to ensure agile execution. In addition, all banking, investment advisory and execution services remain available to clients in compliance with social-distancing, hygiene, and constant health-monitoring protocols, as we aim to safeguard the well-being of our clients and employees alike.

Given the economic impact of the pandemic, improved liquidity levels and strong capital adequacy ratios have been a business priority. As of December 31, 2020, Inteligo Bank held up to 13.3% of its assets in cash and equivalents, while such ratio for Interfondos stood at 27.7%. Additionally, Inteligo Bank's capital adequacy ratio stood at 28.4% as of December 31, 2020, as compared to a minimum regulatory requirement of 8.0%.

### **Business Lines**

Inteligo has three business lines: (1) financial advisory; (2) lending; and (3) portfolio investments.

### **Financial Advisory**

Inteligo provides financial advisory services to high net worth individuals regarding investments, including equities, fixed income, structured products, alternative investments and managed accounts. Through its team of investment analysts, Inteligo designs financial strategies to satisfy the investment objectives of each client in the Peruvian and international financial markets. Furthermore, Inteligo provides regular updates to its clients on market conditions through reports from its in-house research team.

In 2018, Inteligo, through its subsidiary Inteligo SAB, launched a new brand, CERTIA. The main aim of CERTIA is to offer financial advisory and planning services to clients with investable assets between U.S.\$90,000 and U.S.\$500,000. To that end, CERTIA is constantly upgrading its digital channels to provide its customers with an efficient and self-servicing experience. Inteligo expects that CERTIA will increase cross-selling opportunities with Interbank and Interseguro as CERTIA will include not only investment products, but also retirement planning and banking services in its product portfolio.

The strength of Inteligo's financial advisory services has contributed to the growth of its fee income as a percentage of its revenues. Inteligo's fee income from financial services, net decreased from S/164.3 million for 2019 to S/164.0 million for 2020, showing stability despite the adverse global economic scenario. Fee income represented 42.8% of Inteligo's total sources of revenue in 2020.

### **Lending**

Inteligo offers lending services through Inteligo Bank to complement its wealth management business only to its existing clients. Most of the loans are categorized as consumer financing.

Inteligo Bank's loan portfolio had no delinquencies and was fully collateralized by its clients' assets as of December 31, 2020. Inteligo's net loan portfolio totaled S/1,660.5 million as of December 31, 2020, increasing 2.2%, from S/1,624.5 million, as of December 31, 2019. Inteligo's net loan portfolio represented 38.5% of its total assets as of December 31, 2020 as compared to 39.6% for 2019.

## Portfolio Investments

Inteligo manages a proprietary portfolio primarily composed of medium-term investments in fixed-income securities. Inteligo's investment team uses third-party funds as well as individual fixed income and equity securities. For 2020, revenues from Inteligo's proprietary portfolio represented 27.8% of total revenue compared to 17.8% for 2019.

Inteligo's investment portfolio as of December 31, 2020 totaled S/1,881.0 million, an increase of 18.2%, from S/1,592.0 million as of December 31, 2019, mainly explained by an appreciation of equity investments and the implementation of long-short mandates. In addition, Inteligo's investment portfolio represented 43.7% of total assets as of December 31, 2020 as compared to 38.8% for 2019. Inteligo's investment portfolio as of December 31, 2019 totaled S/1,592.0 million, a decrease of 1.7% from S/1,620.3 million as of December 31, 2018.

The following tables show the composition of Inteligo's portfolio by asset class as of the dates indicated.

### Investments by Asset Class

Asset Class	As of December 31,		
	2020	2019	2018
	(S/ in millions)		
Fixed income	424.9	404.9	427.4
Equity	367.3	277.4	169.6
Managed accounts (Fixed income)	291.2	270.7	301.5
Managed accounts (Long-Short)	103.1	0.0	0.0
Mutual funds & investment funds	694.6	639.0	721.8
<b>Total</b>	<b>1,881.0</b>	<b>1,592.0</b>	<b>1,620.3</b>

### Investments by Maturity

Maturity	As of December 31,		
	2020	2019	2018
	(S/ in millions)		
0-5 years	260.1	305.7	381.0
6-10 years	370.1	295.5	223.9
11+ years	70.1	64.2	87.7
No maturity <sup>(1)</sup>	1,180.8	926.5	927.7
<b>Total</b>	<b>1,881.0</b>	<b>1,592.0</b>	<b>1,620.3</b>

(1) Mutual Funds, equity and private equity investments.

Inteligo's successful strategy is reflected by the strong growth of its assets under management which had a CAGR of 8.1% between December 31, 2016 and December 31, 2020, surpassing Peru's GDP growth. For the year ended December 31, 2020, Inteligo's growth in assets under management was 14.7%, as compared to 2019. For the year ended December 31, 2019, Inteligo's growth in assets under management was 4.0% as compared to 2018.

The following table shows the composition of Inteligo's assets under management by asset class as of the dates indicated.

### Assets under Management by Asset Class

Asset Class	As of December 31,		
	2020	2019	2018
	(S/ in millions)		
Fixed income	11,082	9,122	8,319
Equity	8,993	7,527	7,822
Alternative investments	915	1,644	1,451
<b>Total</b>	<b>20,989</b>	<b>18,293</b>	<b>17,593</b>

Inteligo's net profit grew at a CAGR of 8.0% between December 31, 2016 and December 31, 2020, supported by strong fees on assets under management, which remained at 0.8% in 2020. For the year ended December 31, 2020, Inteligo's net profit increased 21.4% as compared to 2019. For the year ended December 31, 2019, Inteligo's net profit increased 1.4% as compared to 2018.

### **Market Segmentation**

Inteligo Bank primarily focuses on individuals with investable assets in the range of U.S.\$500,000 and U.S.\$10 million, where Inteligo believes there is higher growth potential. Inteligo SAB and Interfondos focus on providing brokerage, mutual funds and financial planning services to individuals with investable assets under U.S.\$500,000. Through the recently launched CERTIA, Inteligo expects to offer financial solutions to individuals with investable assets between U.S.\$90,000 and U.S.\$500,000 through an advisory platform leveraged by technology and self-servicing, while creating cross-selling opportunities with Interbank and Interseguro. As of December 31, 2020, Inteligo Bank, Inteligo SAB and Interfondos had approximately 3,313, 1,339 and 75,904 clients, respectively, as compared to approximately 3,200, 1,307 and 76,652 clients, respectively, in 2019.

Inteligo's strategy consists of establishing long-term relationships with its broad and profitable client base, segmenting its customers effectively and proactively providing financial advisory services. Inteligo's committed advisory service, supported by a local investment team that possess extensive knowledge of its Peruvian clients' preferences for financial products, and delivered through an experienced group of relationship managers is a key pillar of Inteligo's success. Inteligo's position further benefits from its leading brokerage operation in Peru through Inteligo SAB, an important mutual fund manager in Peru, Interfondos, and from being a part of one of Peru's leading economic groups.

### **Financial Advisory Team**

Inteligo serves its customers through its advisory team of approximately 44 people. Through its relationship managers, Inteligo establishes strong client relationships which result in a loyal and growing customer base. Inteligo's experienced relationship managers team has acquired specialized product knowledge and deep understanding of its customers' needs.

### **Information Technology Unit**

Inteligo's IT unit is responsible for managing its network infrastructure, telecommunications and computer systems. The unit is also responsible for developing and evaluating in-house technologies and third-party software solutions.

Inteligo Bank has implemented a new core system to support its rapidly expanding operations. As of December 31, 2020, and 2019, Inteligo Bank had invested S/5.0 million and S/2.7 million, respectively, in the development of its technology platform, which will allow it to leverage its existing CRM platform and develop stronger business intelligence capabilities. Inteligo SAB and Inteligo Perú Holding will be implementing a new core IT system in 2021.

As a part of its cybersecurity strategy, Inteligo continued to strengthen its identification, protection, detection and action cybersecurity plans, which reduced the occurrence of attacks and mitigated the risk of cyber threats. This strategy is based on the cybersecurity framework of the National Institute of Standards and Technology (NIST), and other standards such as ISO 27000 and 27032. Inteligo's cybersecurity strategy includes improvements to security on different fronts, including mobile devices, workstations, in the cloud and on premises. Inteligo uses updated technology such as behavior analysis and artificial intelligence, which allow its human resources to reduce time spent on threat detection and analysis.

## COMPETITION

We face intense competition in all of our segments, which can affect our margins, growth and profitability.

### Peruvian Banking System and Competition

During the 1990s, the Peruvian economy underwent a major transformation, from being a highly protected and regulated system prevailing in the 1980s to a free-market economy. During this period, protectionist and interventionist laws and policies were gradually dismantled to create a liberal economy dominated by the private sector. Similarly, the Peruvian financial industry underwent deep structural changes that resulted in a significant expansion of credit. From 1993 to 1998, performing loans in the Peruvian financial system grew at a five-year CAGR of 45.9%, and banking penetration in Peru, measured as the ratio of loans-to-GDP, rose from 10.2% to 26.4% according to the SBS.

In 1998, the rise in international interest rates that followed the Russian default led to large outflows of capital from Peru, resulting in a 15.8% depreciation of the *Sol*. The strong depreciation of the *Sol*, coupled with the strong dollarization of the Peruvian Banking system prevalent at that time (81% of the loans were denominated in U.S. dollars) led to a sharp deterioration of the Peruvian banking system's loan portfolio quality and to a contraction in total loans. Past-due loans in the system peaked at 9.4% of total gross loans as of January 31, 2000, resulting in increased provisions and large capital losses for financial institutions.

However, from 2001 onwards, as macroeconomic conditions improved, the general banking industry indicators in Peru began also to improve. Past-due loans dropped from 9.0% of total gross loans as of December 31, 2001 to 3.7% as of December 31, 2004, and loan reserves over past-due loans increased from 118.9% as of December 31, 2001 to 176.5% as of December 31, 2004 according to the SBS.

From 2005 to 2008, fostered by a steady and sustained improvement in Peru's macroeconomic indicators, credit expanded again, with performing loans growing 25.2% in 2005, 18.0% in 2006, 34.7% in 2007 and 38.2% in 2008. The global financial crisis that started in late 2008 temporarily reduced credit growth as performing loans remained flat in 2009. Growth returned following the crisis, with the banking system in Peru experiencing a significant expansion of credit from December 31, 2008 to December 31, 2013. During this period, gross loans in the Peruvian banking system grew at a five-year CAGR of 13.0% and banking penetration in Peru, measured as the ratio of loans-to-GDP, rose from 24.8% to 30.4%, according to the SBS and the Central Reserve Bank of Peru.

From December 31, 2016 to December 31, 2020, the banking system in Peru continued to grow steadily, with gross loans expanding at a four-year CAGR of 8.5%, according to the SBS. A significant part of the growth experienced by the Peruvian financial system since 2016 has been generated by the retail banking sector. Retail loans (including consumer loans and mortgages) grew at a four-year CAGR of 6.6% for the period ended December 31, 2020. As of December 31, 2020, approximately 31.8% of the Peruvian banking sector's total loans were retail loans, up from 34.2% as of December 31, 2016.

According to the SBS, the total number of credit cards issued by the Peruvian Banking system as of December 31, 2020 was approximately 5.6 million. For the period ended December 31, 2020, the Peruvian banking system's credit card loans decreased 20.1% between December 31, 2019 and December 31, 2020 primarily as a result of the impact of the COVID-19 pandemic.

Although mortgage loans in the Peruvian banking system grew at a four-year CAGR of 7.5% for the period ended December 31, 2020 and 4.6% between December 31, 2019 and December 31, 2020, there is still substantial room for growth, with only approximately 0.2 million mortgages outstanding in Peru among a population of approximately 32.8 million, compared to approximately 1.9 million mortgages outstanding in Chile for a population of 19.5 million, each as of December 31, 2020. A responsible macroeconomic approach and the promotion of housing programs over the past five years have been the main drivers of mortgage loan growth in Peru and are expected to continue fueling mortgage lending.

The Peruvian banking system is highly concentrated in a small number of relatively large participants. The four largest banks accounted for 84.7% of total gross loans and 83.7% of total deposits in the system as of December 31, 2020. Furthermore, foreign banks play a significant role in the Peruvian financial system. As of December 31, 2020, BBVA and Scotiabank, two of the four largest banks in the system, which accounted for a combined 37.2% of total gross loans and 35.1% of total deposits, according to the SBS, were under foreign control. Although other major global banks such as BNP Paribas, Standard Chartered, Intesa, BankBoston, HSBC and Deutsche Bank have ceased operations in Peru over the past 15 years, other foreign banks have entered or have shown interest in entering or increasing their exposure in the Peruvian market.

Interbank is currently the fourth largest bank in Peru, as measured by commercial lending, total assets and total deposits, as of December 31, 2020, and has faced strong competition, including increased pressure on margins, primarily as a result of the presence of commercial banks in the Peruvian market with substantial capital, technology and marketing resources, as well as from Peruvian pension funds that lend to Interbank's current and potential commercial customers. This increased competition has affected the average interest rates that the Peruvian banking system has been able to charge its customers. Despite being the fourth largest bank in Peru, Interbank is strongly positioned in the consumer sector, being the second largest bank in gross consumer loans and largest in consumer credit cards as of December 31, 2020, according to the SBS.

The following tables show Interbank, the rest of the Peruvian banking system and their respective market shares as of December 31, 2020.

	As of December 31, 2020								
	Assets			Total Gross Loans			Deposits

(1) Under SBS criteria.

Note: ROE calculated as net income for the period divided by the average of total equity at the end of the last five quarters. ROA calculated as net income for the period divided by the average of total assets at the end of the last five quarters.

The Peruvian banking system's net profit was S/2,112 million in 2020, a decrease of 76.8% as compared to 2019 due to lower revenues and higher provisions as a result of the COVID-19 pandemic. The following chart shows the evolution of the banking system's net profit between 2016 and 2020.

**Banking system's Net Profit 2016 — 2020 (S/ in millions)**

Source: SBS.

The following chart sets forth, for the metrics indicated below, the year-over-year performance as of December 31, 2020 for the four largest banks in Peru under SBS GAAP.

### Year-Over-Year Performance by Net Profit (As of December 31, 2020 vs. As of December 31, 2019)

Source: SBS.

Note: Banks include international branches.

The banking system's total loans has shown high growth in the past years, reaching a 8.5% four-year CAGR from 2016 to 2020. In 2020, according to the Central Bank, loans to the private sector grew 12.3% mainly due to disbursements under the Reactiva Peru program. Excluding the effect of the Reactiva Peru program, loans to the private sector would have decreased 4.6% in 2020. The following chart shows the evolution of the Peruvian banking system's retail and commercial loans between 2016 and 2020 under SBS GAAP.

### Banking system's total loan 2016-2020 (S/ in billion)

Source: SBS.

The following chart sets forth the four-year CAGR from 2016 to 2020 and the year-over-year growth as of December 31, 2020 of total loans under SBS GAAP for the four largest banks in Peru.

**Total Loans CAGR (2016 - 2020) and  
Year-Over-Year Growth (As of December 31, 2020 vs. As of December 31, 2019)**

Source: SBS

Note: Banks include international branches.

The following chart sets forth the CAGR from 2016 to 2020 and the year-over-year growth as of December 31, 2020 of total deposits for the four largest banks in Peru. In 2020, increased growth in deposits was primarily due to an increase in our clients' liquidity as the result of (i) partial cash withdrawals from CTS accounts systemwide and the private pension system, (ii) commercial deposits related to unused funds from the Reactiva Peru program, and (iii) the widespread adoption of a "savings" mindset, all as a result of the effects of the COVID-19 pandemic.

**Total Deposits CAGR (2016 - 2020) and  
Year-Over-Year Growth (As of December 31, 2020 vs. As of December 31, 2019)**

Source: SBS.

Note: Banks include international branches.

Interbank's past-due-loan ratio was the third lowest among the four largest Peruvian banks, and lower than the banking system's average of 3.8%. The following chart sets forth the past-due-loan and coverage ratios under Peruvian SBS GAAP for the four largest banks in Peru as of December 31, 2020.

### Past-Due-Loan and Coverage Ratios (As of December 31, 2020)

Source: SBS.

Note: Banks include international branches.

As of December 31, 2020 Interbank's past-due-loan ratio in retail and consumer loans was the second and third highest, respectively among the four largest Peruvian banks, due to our clients' profile and the importance of credit cards in our portfolio. The following charts set forth the past-due-loan ratios in retail and consumer loans for the four largest banks in Peru as of December 31, 2020.

### Retail Loans Past-Due-Loan Ratio (As of December 31, 2020)

### Fintech Landscape

In recent years, fintech entities have gained global relevance in financial services, with a focus on financial inclusion, payments solutions for individuals and companies, lending activities, insurance and investment needs. According to industry sources, investments in fintech entities on a global basis fell 2% between 2019 and 2020, while fintech-related investments in Latin America grew 64% over the same period. In this region, investments in fintech entities have mostly targeted companies in countries like Brazil, Mexico and Colombia, which have critical mass populations. However, in Peru, partnerships between traditional financial institutions and fintech entities have started to occur, which we expect will expand opportunities to share competitive advantages and result in mutually beneficial opportunities to better serve current markets or access new ones. For example, in 2020, Interbank announced a partnership with Rappi, a leading super app in Latin America, to deliver 100% digital financial products in Peru and is constantly working closely with fintech entities to find other collaboration opportunities. More recently, in 2021, Interbank also announced an alliance with Kambista, a Peruvian fintech entity which allows users to exchange U.S. dollars to *soles* through an online currency exchange platform.

### Peruvian Insurance Industry and Competition

The Peruvian insurance industry is well-capitalized, with a solvency ratio (*patrimonio efectivo / requerimientos patrimoniales*) of 142.2% under Peruvian SBS GAAP as of December 31, 2020, and operates under a well-established regulatory framework. Over the past years, the industry has experienced strong growth. Insurance premiums grew at a four-year CAGR of 5.6% for the period ended December 31, 2020. Insurance premiums in Peru reached S/14.0 billion for the year ended December 31, 2020, representing a 0.7% year-over-year slight decrease.

Life insurance premiums represented approximately 47.5% of total insurance premiums for the year ended December 31, 2020. In April 2016, a new regulation was approved in Peru, allowing pensioners to withdraw up to 95.5% of their retirement funds. This measure had a negative impact on life insurance annuities, which have decreased at a CAGR of 13.5% from 2016 to 2020.

Growth of the annuities' segment is expected to resume as the number of Peruvian private pension system's retirees and their respective average pension balances increase. Currently, Peru's private pension system covers eight million citizens, 97.0% of which are under 65 years (legal retirement age).

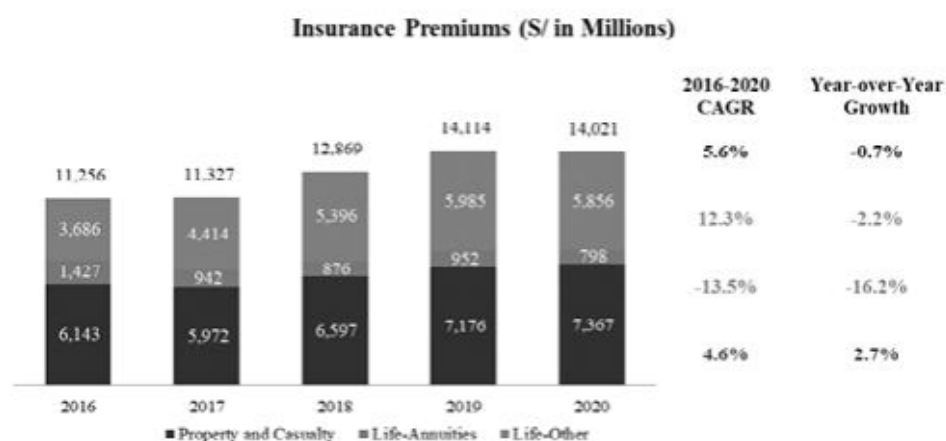

From 2008 to 2020, approximately 73,116 people retired under the Peruvian private pension system compared to a total of approximately 738,00 and more than 4.3 million expected retirees over the next 10 and 30 years, respectively, according to the SBS as of December 31, 2020.

The table below sets forth the number of members in the Peruvian private pension system as of December 31, 2020.

As of December 31, 2020		
Age (years)	Number of Members (in thousands)	Percentage of Total
Less than 25	994	12.8%
26-35	2,224	28.6%
36-45	2,078	26.7%
46-55	1,512	19.4%
56-65	738	9.5%
More than 65	235	3.0%
<b>Total</b>	<b>7,781</b>	<b>100.0%</b>

Source: SBS

The chart below sets forth Peruvian insurance premiums for the periods indicated.

Source: SBS.

The chart below shows market share by annuities premiums from 2016 to 2020.

Source: SBS.

Note: Interseguro's figures incorporate Seguros Sura starting November 2017.

As of December 31, 2020, a total of 18 companies comprised the Peruvian insurance industry. As of December 31, 2020, in terms of assets, on a consolidated basis, the four largest insurance companies had an 82.9% market share, and the leading two insurance companies had a combined market share of 52.4%. The Peruvian insurance industry is largely represented by Peruvian companies with three of the six largest companies controlled by Peruvian economic groups.

The following table presents market shares by assets and premiums of the six largest insurance companies in Peru as of and for the year ended December 31, 2020.

Company	Life	Non-Life	Total Assets as of December 31, 2020		Total Net Premiums for the year ended December 31, 2020	
			(S/ in million)	Market Share (%)	(S/ in million)	Market Share (%)
Rimac	✓	✓	16,838.9	28.0%	4,295.9	30.6%
Pacífico Seguros	✓	✓	14,673.7	24.4%	3,653.4	26.1%
Interseguro	✓	✓	13,327.7	22.2%	743.5	5.3%
La Positiva (1)	✓	✓	6,857.7	11.4%	1,855.0	13.2%
Mapfre (1)	✓	✓	3,774.1	6.3%	1,838.9	13.1%

## Insurtech Landscape

In the last ten years, advances in technology and data analytics have been accelerating the potential development of insurtechs in different parts of the value chain of the insurance industry. At a global level, insurtechs have captured almost U.S.\$20 billion in investments from venture capital firms, seed funding and corporate venture capital firms financed by digital-based technology companies and large incumbents. According to industry sources, North America and Asia have led the development in insurtechs since 2010, concentrating approximately more than 80% of global investments in insurtechs (U.S.\$15 billion). Insurtechs in Latin America are still in the initial financing stage compared to the United States and China. Latin America has invested approximately U.S.\$131 million in insurtechs, which represents 0.7% of the global investment. In addition, according to industry sources, the main countries in Latin America that have developed insurtechs are Brazil (77), Mexico (42), Argentina (34), Colombia (14) and Chile (13) with a total of 180 insurtechs at the end of 2019. Most of these insurtechs have focused their business on the sales and distribution and pricing and underwriting processes with very few "full stack" business models. In Peru, investments in the insurtech segment are in the early stages. However, many incumbents, including us, are betting on digital product developments that could eventually leverage insurtech capabilities.

## Wealth Management Industry and Competition

Inteligo Bank operates in the highly competitive and regulated wealth management industry, competing with independent advisors, global banks and Peruvian firms, such as its main competitor Credicorp Ltd. through its subsidiary Atlantic Security Bank (“ASB”). The Peruvian wealth management industry has also recently attracted several new participants, including representative offices of global banks such as JP Morgan, UBS, RBC, Credit Suisse, and Julius Baer, among others.

The chart below shows assets under management in U.S. dollars for Inteligo Bank and ASB, from December 31, 2017 to December 31, 2020.

Source: Company information and Credicorp Ltd.’s quarterly reports.

The following chart compares ROE for Inteligo Bank and ASB from 2017 to 2020.

Source: Company information and Credicorp Ltd.’s quarterly reports.

Note: ROE is calculated as net profit divided by the average shareholders’ equity, computed as the simple equity average of the last five quarters.

The following chart sets forth fee income as a percentage of average assets under management for Inteligo Bank and ASB from 2017 to 2020.

Source: Company information and Credicorp Ltd.'s quarterly reports.

Note: Figures as of December 31, 2020 are calculated using the fee income for the period times four divided by the average assets under management of the last two quarters.

Interfondos provides mutual fund management services in Peru. Interfondos has been the fourth largest mutual fund manager in Peru in each of the last five years according to the SMV. As of December 31, 2020, Interfondos had a 13.0% market share based on assets under management.

Inteligo SAB provides brokerage services, including sales and trading operations, in Peru's domestic capital markets. As of December 31, 2020, the Peruvian brokerage industry consisted of 21 brokerage firms. Inteligo SAB has ranked among the largest equity trading platforms in the last five years in terms of trading volumes on the Lima Stock Exchange.

## REGULATION AND SUPERVISION

### The Peruvian Financial and Insurance Systems

A substantial part of our activities are conducted through Interbank and Interseguro, our banking and insurance subsidiaries, respectively, operating in Peru. A summary of the Peruvian financial and insurance regulatory framework is set forth below.

#### *General Overview of the Peruvian Financial Regulatory Framework*

Peruvian banking regulation follows the standards set by the Basel Committee on Banking Supervision. Peruvian banks and other Peruvian financial institutions are primarily governed by two banking regulatory authorities: the SBS and the Central Reserve Bank of Peru. The Peruvian Constitution establishes that the SBS's main function and responsibility is to protect depositors of the Peruvian financial system, while the main function of the Central Reserve Bank of Peru is to preserve monetary stability. In addition, Peruvian banks are subject to certain regulations of the SMV.

The regulatory framework for the operation of the Peruvian financial and insurance sector is set in the Peruvian Banking and Insurance Law (*Ley General del Sistema Financiero y del Sistema de Seguros y Orgánica de la Superintendencia de Banca y Seguros*), which was enacted in December 1996. The Peruvian Banking and Insurance Law regulates Peruvian financial and insurance companies and private pension funds administrators. In accordance with the Peruvian Banking and Insurance Law, the SBS is responsible for issuing banking regulations and for monitoring the Peruvian banking financial and insurance sector. The SBS supervises and regulates financial institutions such as commercial banks, financial companies, financial leasing companies, small business financial companies, savings and loan corporations, financial services companies such as trust companies and investment banks, insurance companies, private pension fund administrators and savings and loans cooperatives (other financial institutions such as stock brokerage houses and mutual fund managers are subject to different legal frameworks and to the supervision of the SMV). The SBS became operational in 1931.

Financial and insurance institutions must seek the authorization of the SBS before initiating operations. The SBS has administrative and financial autonomy, and its head office is located in Lima. The current chairman of the SBS, María del Socorro Heysen Zegarra, was appointed by former President Kuczynski in August 2016.

In June 2008, as a way to facilitate the adoption process to the Basel II standards, the Peruvian Banking and Insurance Law was amended by Legislative Decree No. 1028 and Legislative Decree No. 1052, to comply with the international standards. In December 2009, the Basel Committee announced its intention to issue a new framework, related to the regulation, supervision and risk management of the banking industry. This was followed by an agreement reached in June 2011 regarding the overall design of the capital and liquidity reform package ("Basel III"). The changes introduced have been designed to be implemented progressively. The SBS, by use of its regulatory attributes, has issued several regulations that seek to adapt the Peruvian financial system to the new Basel Capital Accords. This new capital framework revises and strengthens the three pillars established by Basel II. The accord is also extended with new capital buffers (including a capital conservation buffer, a countercyclical capital buffer, and a global systemically important banks buffer), a leverage ratio and liquidity requirements.

In July 2011, the SBS issued SBS Resolution No. 8425-2011 (as amended from time to time), establishing the final methodologies in the calculation and the implementation schedule of the additional capital requirements to be implemented in Peru, which, although not completely consistent with Basel III, includes requirements to cover concentration, interest rate and systemic risk, as well as certain pro-cyclical capital requirements. These additional requirements were fully implemented in July 2016.

As noted, Peruvian banks, financial institutions and insurance companies are mainly regulated and supervised by the following administrative institutions:

#### *The SBS*

The SBS is the regulatory authority charged with the implementation and enforcement of the requirements contained in the Peruvian Banking and Insurance Law approved by Law No. 26702, and, more generally, with the regulation and supervision of all financial and insurance companies in Peru and, since July 2005, the private pension funds administrators.

Its objectives include: (i) protecting the public interest; (ii) safeguarding the financial stability of the institutions over which it has authority; and (iii) punishing violators of its regulations.

Its main responsibilities include: (i) reviewing and approving, with the assistance of the Central Reserve Bank of Peru, the establishment, organization and operations of the institutions it regulates and their subsidiaries; (ii) overseeing mergers, dissolutions and reorganizations of banks, financial institutions and insurance companies; (iii) supervising financial, insurance and related companies from which information on an individual or consolidated basis is required, through changes in ownership and management

control (this supervision also applies to non-bank holding companies, such as us and InterCorp Peru); (iv) reviewing the by-laws and amendments thereto of these companies; (v) setting forth criteria governing the transfer of bank shares, when permitted by law, for valuation of assets and liabilities and for minimum capital requirements; (vi) controlling the *Central de Riesgos* (Bank Risk Assessment Center), to which all banks are legally required to provide information regarding all businesses and individuals with whom they deal without regard to the amount of credit risk (the information provided is made available to all banks to allow them to monitor individual borrowers' overall exposure to Peru's financial system); and (vii) supervising the anti-money laundering system through the financial intelligence unit.

The SBS enforces the Peruvian Banking and Insurance Law on an ongoing basis through periodic resolutions. The Peruvian Banking and Insurance Law provides for stringent loan loss reserve standards, brings asset risk weighing in line with the Basel Committee on Banking Supervision guidelines and includes the supervision of holding companies of financial institutions by the SBS.

For the foregoing purpose, the SBS requires banks, financial and insurance companies to report, on a periodic basis, all relevant information necessary for off-site evaluation of its financial performance. The relevant information for off-site evaluation includes audited financial statements on a consolidated basis, board of directors' reports, auditor's reports and any other reports which reflect the operation of a bank's business. Under current practice, such reporting is required on a daily, weekly, monthly, quarterly and semi-annual basis, depending on the nature of the reported information.

The SBS is also responsible for conducting on-site examinations of banks on an annual basis, implementing the provisions of the Peruvian Banking and Insurance Law and other related legislation, examining all banking and insurance operations, and analyzing the relationship between assets, liabilities, net worth, profit and loss accounts and all other factors affecting a bank's financial structure.

The SBS has the power to impose administrative sanctions on financial institutions and their directors and employees as a result of any violation of the Peruvian financial and insurance system rules. Sanctions vary from monetary fines to license cancellation. The SBS may also sanction directors and other officers of financial institutions for breach of regulations under the supervision of the SBS.

#### *The Central Reserve Bank of Peru*

The Central Reserve Bank of Peru was incorporated in 1922 and performs the functions common to a central or reserve bank, such as issuing bank notes, implementing governmental monetary policies, regulating the money supply, managing official gold and foreign exchange reserves and managing the interbank cash clearance system. The Central Reserve Bank of Peru exercises its power and authority independently and is responsible for its affairs in accordance with the government's policies. The Central Reserve Bank of Peru is empowered to determine the inflation target and to adopt a monetary policy in accordance thereof and is also responsible for establishing mandatory minimum liquidity reserves. The Central Reserve Bank of Peru manages Peruvian international reserves and gathers and publishes data on its finances and is also the sole issuer of Peruvian currency.

#### *The SMV*

The SMV is the Peruvian securities market regulatory authority, attached to the Ministry of Economy and Finance (*Ministerio de Economía y Finanzas*). The main purpose of the SMV is promoting, overseeing and regulating the securities market, supervising and controlling all individuals and entities that intervene in such market, and enforcing compliance with the provisions of the Peruvian Securities Market Law and its regulations.

Pursuant to Article 29 of the Peruvian Banking and Insurance Law, the issued and outstanding shares of Peruvian banks must be registered with the SMV and listed with the BVL. Therefore, according to the Peruvian Securities Market Law and its regulations, listed companies such as banks and insurance companies are required to file with the SMV and the BVL, in Spanish and on a going forward basis, quarterly and annual reports.

In addition, these companies are required to disclose to the market in a timely manner (on the same day when the event occurs) all information that investors are reasonably likely to consider material. Specific regulations provide for specific parameters to determine what is considered material information (*hechos de importancia*).

In March 2014, regulations related to disclosure of material information were amended. By virtue of such regulations, issuers under supervision of the SMV are required to disclose all material information in connection with the issuer of registered securities (such as our common shares) and its activities or securities issued or secured by such issuer which may influence the liquidity or price of such securities.

Also, issuers whose securities are also traded in foreign markets must file with the SMV all information that is required to be disclosed to investors on such foreign market as soon as such information is delivered to foreign regulators.

## COVID-19 Response

The Peruvian government has implemented a number of measures aimed at strengthening the financial sector in response to the COVID-19 pandemic, including:

- Modifying the limit for swap and forward operations for the sale of foreign currency in exchange for local currency from U.S.\$575 million per week to U.S.\$675 million per week per financial institution, without requiring additional reserves, in order to support foreign exchange hedges.
- Reducing the reference interest rate by 200 basis points from 2.25% to 0.25%.
- Reducing the minimum legal reserve requirement in *soles* from 5% to 4%.
- Decreasing the minimum current account requirement in *soles* from 1.0% to 0.75% of the obligations subject to reserve requirements.
- Reducing the reserve requirement from 50% to 9% for obligations in foreign currency with average terms equal to or less than two years entered into with foreign financial entities.
- Suspending the additional reserve requirement associated with lines of credit in foreign currency for the remainder of 2020.
- Establishing the National Government Guarantee Program for Financial Institutions (*Programa de Garantía del Gobierno Nacional a las Empresas del Sistema Financiero*) for an amount of S/7,000 million, pursuant to Legislative Decree No. 1508 enacted on May 11, 2020. Financial institutions may apply to this program in order to enter into repurchase agreements with the Central Reserve Bank of Peru in connection with their loan portfolios. The objective of this measure is to provide Peruvian financial institutions with extraordinary liquidity, but only up to 80% of the loan portfolio's value may be paid by the Peruvian government under the program as per the repurchase agreement. In addition, eligible loan portfolios must have been qualified as "Normal" or with "Potential Problem" –as per the SBS categorization– as of February 29, 2020. The term for financial institutions to apply and enter into repurchase agreements with the Central Reserve Bank of Peru within the framework of the program expires on December 31, 2022, and the maximum term to repurchase the corresponding transferred loan portfolio expires on December 31, 2024.
- Authorizing financial institutions to modify contractual loan obligations, including rescheduling of maturities, without characterizing such modifications as refinanced loans, provided that the term of any loan is not extended for more than six months from the original term, and for no more than twelve months in case of retail loans and loans granted to mid-sized corporations, respectively, so that debtors can meet payment obligations. See "Presentation of Financial Information—Loan Portfolio Data." As of January 1, 2021, S/82.0 billion, or approximately 24% of the banking system's loan portfolio, had been rescheduled, of which S/44.2 billion were retail loans (approximately 41% of the banking system's retail loan portfolio) and S/37.7 billion were commercial loans (approximately 17% of the banking system's commercial loan portfolio), according to ASBANC.
- Increasing monetary limits per operation (wire transfers, electronic money exchange, among others) to be carried out through electronic money accounts.
- Establishing procedures for extraordinary withdrawals from pension fund accounts as set forth in the Urgency Decree No. 034-2020 and Law No. 31,017. In addition, Urgency Decree 056-2020 was enacted to permit banks to open individual or retail bank accounts (such that no consent or signed documentation is required from individuals) to enable receipt of government subsidies as well as of pension payments in connection with withdrawals from pension fund accounts.
- Establishing that the allowance rate for loan loss reserves applicable to loans guaranteed pursuant to the *Reactiva Peru* program would be 0%, such that any allowance for loan loss is undertaken by the counterparty granting the guarantee rather than the banks granting the loan, pursuant to SBS Resolution No. 1314-2020 enacted on April 27, 2020. The program, pursuant to Legislative Decree No. 1455 enacted on April 6, 2020, aims to promote the financing of working capital in order to ensure continuity in the chain of payments in the Peruvian economy. The granted guarantee covers an amount that is equal to three months of average monthly sales in 2019 (according to SUNAT's information), and is channeled through two mechanisms: (i) guarantees to credit portfolios implemented through a trust, and (ii) individual guarantees implemented through a trust commission (*comisión de confianza*) or other instrument of similar nature. The debtor companies must not pre-pay financial obligations in force before paying off the loans covered by the guarantee, and must not distribute dividends or approve and/or split profits during the term of the loans, except for the amount and/or percentage corresponding to the

workers' profit share. The term for loans must not exceed thirty-six months, including a twelve-month grace period. The program has a duration of four years counted from the execution of the agreement between COFIDE and the financial institution. Recently, the Peruvian government authorized, on an exceptional basis, the rescheduling of loans guaranteed by the Reactiva Perú program for up to S/16.0 billion in order to provide greater payment flexibility to the beneficiaries of this program. Companies may apply for rescheduling until July 15, 2021. The loans rescheduled by financial institutions under this program are guaranteed by the national government for up to the unpaid principal.

- Establishing that the allowance rate for loan loss reserves applicable to the loans guaranteed pursuant to the *Fondo de Apoyo Empresarial a la MYPE* (FAE-MYPE) would be 0% when the counterparty credit risk substitution enters into effect, pursuant to SBS Resolution No. 1315-2020 enacted on April 28, 2020. The FAE-MYPE program, created pursuant to Urgency Decree No. 029-2020, enacted on March 25, 2020, aims to secure loans for working capital granted to the SMEs (MYPEs), which cannot exceed thirty-six months, and, within the periods indicated, financial institutions are allowed to grant a grace period of up to twelve months. The term for SMEs to obtain a loan within the framework of the FAE-MYPE expired on December 31, 2020, and the duration of the program is five years from the execution of the respective trust agreement.
- Establishing the *Fondo de Apoyo Empresarial a las MYPE del Sector Turismo* (FAE-TURISMO), pursuant to Urgency Decree No. 076-2020, enacted on June 30, 2020. The objective of this fund is to guarantee credits for working capital of SMEs that carry out hospitality activities and accommodation, transport of passengers, tourist transport, travel and tourism agencies, restaurants, leisure activities, organization of conferences, conventions and events, tourist guiding, and production and marketing of handicrafts. The operations guaranteed by FAE-TURISMO are carried out in the form of a loan portfolio. Guarantees granted through FAE-TURISMO covers a maximum amount equivalent to three times the average monthly working capital debt registered by the MYPE in the year 2019 before financial institutions. The loans term must not exceed sixty months, including an 18-month grace period. The term for SMEs to obtain a loan within the framework of the FAE-TURISMO expires on June 30, 2021, and the duration of the program is six years from the execution of the respective trust agreement. Because of the emergence of new variants of COVID-19, the government modified the operating rules of the FAE-TURISMO for MYPEs to facilitate working capital loans to these entities.
- Establishing debt freeze and rescheduling, under the Guarantee Program COVID-19 pursuant Law No. 31050, enacted on October 8, 2020. The law establishes extraordinary measures for rescheduling credit payments of certain debtors affected by the state of national emergency subject to the granting of guarantees by the Peruvian National Government. These guarantees will only be applicable if the financial institutions reduce the cost of the loan as to the percentages established by the law, reduce interest rates, or condones one or more debt installments, or a combination of such measures. The measure is applicable to consumer, personal, housing mortgage, vehicle and SMEs (MYPEs) loans. The minimum term for rescheduled loans must be six months (except for mortgage loans, in which case, will be nine months) and the maximum term for the credits shall be thirty-six months, including the grace period. The duration of the program is four years from the execution of the respective agreement. Because of the emergence of new variants of COVID-19, the government extended until August 31, 2021 the period during which debtors may enroll in the Guarantee Program COVID-19 in order to maintain the soundness and solvency of the national financial system and to protect financial clients.
- Granting of an exceptional subsidy of S/600 to certain beneficiary households based on specific criteria (e.g. poverty level, among others) in order to reduce the impact of the compulsory social isolation measures on different departments of Peru. Food kits were also distributed to the most vulnerable members of the population.
- Establishing the *Programa de Apoyo Empresarial a las micro y pequeñas empresas* (PAE-MYPE), pursuant to Urgency Decree No. 019-2021 (as amended from time to time), enacted on February 12, 2021. The objective of this fund is to promote financing for working capital for SMEs through the granting of a national government guarantee, by means of a trust, to loan portfolios up to the amount of S/2.0 billion. Guarantees granted through PAE-MYPE cover (a) 98% of the total amount in the case of loans up to S/20,000 and (b) 90% of the total amount in the case of loans between S/20,001 and S/60,000. The term of such loans must not exceed thirty-six months, including a 12-month grace period. The term for SMEs to obtain a loan within the framework of the PAE-MYPE expires on June 30, 2021, and the duration of the program is four years from the execution of the respective trust agreement.

Despite this comprehensive package of measures adopted by the Peruvian government, the ongoing COVID-19 pandemic may require the Peruvian government to implement additional or revise measures, which may further adversely impact Peru's economy and consequently materially and adversely impact our results of operations and financial condition. We cannot assure you that Peruvian government's measures will be effective or sufficient to address the economic impact of the COVID-19 pandemic.

## Banking Regulation and Supervision

Banking regulations and capital adequacy in Peru take into account the recommendations of the Basel Committee. The SBS has adopted the principles and guidelines of Basel II and Basel III. So far, in adopting certain Basel III recommendations approved in September 2010, the SBS has increased the minimum regulatory capital required for Peruvian banks. However, Basel III has not yet been totally implemented, and we cannot provide any assurances whether or as to the extent to which the SBS may adopt it.

### Implementation of Basel II Principles

To carry out the implementation of Basel II, the SBS has approved a schedule of two (2) phases: a first mandatory phase and a second voluntary phase. During the first phase, which started in 2008 and ended in June 2009, the SBS performed quantitative impact studies and drafted the most important regulations. On June 22, 2008, Legislative Decree No. 1028 was issued, which contains certain amendments to the current Peruvian Banking and Insurance Law, most of which were aimed to adapt it to Basel II standards.

In order to conform to Basel II standards, the methodology for measuring credit, market and operational risks has been amended to allow both standardized and internal model-based methods for measuring market and credit risks. All Peruvian financial institutions and insurance companies were to have implemented the standardized approach methodology by June 2009. Financial institutions and insurance companies will have the opportunity to request the validation and approval to implement the internal rating-based (“IRB”) methodology. Only those financial institutions and insurance companies that apply to use the IRB methodology will follow the second phase of implementation of Basel II standards.

The second phase consists of a validation process of the IRB methodology by the SBS and its subsequent approval. Once the IRB methodology has been validated and approved by the SBS, the pertinent financial institution will use regulatory capital floors to calculate their capital requirements. The amount of required capital may not be less than the percentage of capital requirements obtained under the previous methodology.

	First Year	Second Year	Third Year
Basic IRB and Internal Models of Credit Risk	95%	90%	80%
Advanced Models of Credit Risk and/or Operational Risk	90%	90% <sup>(1)</sup>	—

(1) 80% for operational risk.

### Capital Adequacy Requirements—Basel II

Under the amended provisions of Article 199 of the Peruvian Banking and Insurance Law, and on an unconsolidated basis, the regulatory capital (*patrimonio efectivo*) may not be lower than 10% of its total weighted assets, the latter being defined as the sum of: (i) ten times the regulatory capital allocated to cover market risks; (ii) ten times the regulatory capital allocated to cover operational risks; and (iii) the total amount of credit risk-weighted assets.

According to the amended provisions of Articles 184 and 185 of the Peruvian Banking and Insurance Law, regulatory capital is defined as the sum of: (i) Tier I Regulatory Capital or Basic Capital; and Supplementary Capital.

Basic Capital or Tier I Regulatory Capital is comprised of paid-in capital (which includes common stock and non-cumulative perpetual preferred shares), legal reserves, supplementary capital premiums, voluntary reserves distributable only with prior SBS approval and retained earnings of past years and of the current year, which are committed for capitalization. It also includes instruments having the characteristics of permanence and loss absorption issued in compliance with regulations recently enacted by the SBS. Basic Capital is subject to the following deductions: losses of prior years and of the current year, any deficit due to allowances, and goodwill resulting from corporate reorganizations and acquisitions. Basic Capital is also subject to certain additional deductions (e.g., 50% of the investments in shares and subordinated debt issued by other local or foreign financial institutions or financial insurance companies, etc.).

Supplementary Capital is constituted by the sum of Tier II and Tier III Regulatory Capital. Tier II Regulatory Capital consists of voluntary reserves (which may be reduced without prior consent from the SBS), the eligible portion of redeemable subordinated debt instruments that have mixed debt and equity features, and the generic loan loss provision (up to certain limits). Tier II Regulatory Capital is subject to certain deductions under the law (e.g., 50% of the investments in shares and subordinated debt issued by other local or foreign financial institutions or financial insurance companies, etc.). Tier III Regulatory Capital consists of redeemable subordinated debt that is incurred for the exclusive purpose of covering market risk.

Banks are required to prepare and submit to the SBS, within the first 15 days of each month, a report analyzing the bank’s assets for the previous month and the total amount of the bank’s regulatory capital. Foreign currency denominated assets are valued in *soles* at an average exchange rate published by the SBS in effect as of the date of such report.

In February 2016, the SBS issued SBS Resolution No. 975-2016, which changed the conditions that subordinated debt must meet in order to be considered in the calculation of additional capital and the calculation methodology applicable to risk-weighted assets. This resolution is applicable to subordinated debt incurred or created from the date of its approval. However, as established in this regulation, subordinated debt incurred or created prior to its approval (and which does not meet the requirements of this new regulation) will still be considered in the calculation of regulatory capital, subject to certain rules specified therein.

In addition, SBS Resolution No. 975-2016 also includes changes to the calculation of risk-weighted assets for intangibles (excluding goodwill), deferred tax assets that originate from operating losses and deferred tax assets that exceed the threshold of 10% of “adjusted total capital.” To replicate the deductions established by Basel III, these assets will experience a gradual increase in their risk weightings until they reach a maximum of 1,000% in 2026. The risk-weighted assets calculated based on these risk weightings will be used exclusively for calculating Basel III ratios. SBS Resolution No. 4280-2018, adopted in October 2018, modified the risk weight applied to intangibles (excluding goodwill) to speed up the increase in this risk weighting to 1,000% in order to close the regulatory gap with Basel III guidelines, which clearly require intangibles to be fully deducted from core capital measurements.

### ***Implementation of Basel III Principles***

In July 2011, the SBS approved SBS Resolution No. 8425-2011 (as amended from time to time), which requires additional regulatory capital based on the risk profile of each financial institution in accordance with the guidelines approved by the SBS, to cover risks not contemplated in Pillar I of Basel II. Consistent with certain aspects of Basel III, the resolution also included capital requirements based on the Basel III principles related to capital conservation in order to mitigate the following risks: (a) economic cycle risk, (b) business concentration risk (by individual Section and/or region), (c) market concentration risk, (d) interest risk on the banking book and (e) other risks. These additional requirements were fully implemented in July 2016. Nevertheless, the SBS has not fully adopted Basel III.

As of the date of this Annual Report on Form 20-F, Interbank is in compliance with the additional regulatory capital requirement approved by the SBS.

### ***Liquidity Requirement of Basel III Principles***

In December 2012, the SBS approved SBS Resolution No. 9075-2012, requiring a new calculation of the liquidity ratio coverage. The liquidity ratio coverage is a ratio for financial institutions to ensure the maintenance of adequate levels of high-quality liquidity assets that could easily be converted into cash to meet liquidity needs, for a 30 calendar day period, under a stress liquidity scenario. High-quality liquidity assets are defined as assets that are easily and immediately converted into cash.

To date, Interbank is in full compliance with all regulatory limits. In addition, Interbank’s alert system monitors any deviations so Interbank may take any preventive measures.

Pursuant to SBS Resolution No. 6694-2015, the SBS has defined a plan for the implementation of this ratio, as detailed below:

	Period Jan 2014-Dec. 2017	Period Jan. 2018-Dec. 2018	Period Jan. 2019-forward
Liquidity Ratio Coverage Ratio	80%	90%	100%

### ***Classification of the Loan Portfolio***

According to SBS regulations, the provision for loan losses is calculated and recorded following SBS Resolution No. 11356-2008, which sets parameters to determine the calculation of provisions which is based on formulas and the use of specific percentages over the balances of loans and collateral received. For example, banks must consider certain criteria with respect to the borrower, including securities; credit category; borrower’s liquidity, borrower’s equity and outstanding debt, among others. Also, it requires constitution of generic provisions based on total loan portfolio, including generic provisions on not-impaired loans. The loan portfolio provisions which result from such classification differ materially from the loan portfolio provisions which result from our application of IFRS. For a discussion of our loan portfolio classification policies and the resulting allowances, see “Item 4. Information on the Company—Selected Statistical Information—Classification of our Loan Portfolio and—Impairment Allowance for Loans” and “Note 30.1 Credit Risk” to our audited annual consolidated financial statements.

Beginning in January 2021, the SBS introduced a reporting rule whereby non-revolving credit card loans must be reported as other non-revolving consumer loans. This is expected to result in a reduction to Interbank’s credit card loan balances, and a change in its retail loans portfolio mix.

### ***Risk of Over-Indebtedness by Consumer Banking Customers***

According to SBS Resolution No. 6941-2008, as amended, banks and other financial entities must adopt a system to manage the risk of over-indebtedness that (a) allows the mitigation of such risk before and after making the loan, (b) permits the performance of a permanent monitoring of the portfolio to identify over-indebted borrowers and (c) includes the periodic evaluation of the control mechanisms being used and of the corrective actions or required improvements, as the case may be. The board of directors of such banks and other financial entities are responsible for (i) establishing and reviewing the policies and proceedings for the identification, measuring, treatment, control, reporting and monitoring of the risk from the level of indebtedness of its consumer banking customers and (ii) causing the management to adopt the necessary measures to monitor and control such risks. In addition, the board of directors must cause the bank and/or financial entity to have an organizational structure that guarantees total independence between the risk and the commercial divisions and that the incentive schemes for employees' performance does not cause a conflict of interest with risk management policies.

Banks and financial entities that are not able to monitor, control and identify the risk of over-indebtedness are obliged to maintain a special loan loss reserve. Banks and financial entities that comply with the requirements described above are not required to maintain any such specific allowance.

### ***Legal Reserve Requirements***

Pursuant to Article 67 of the Peruvian Banking and Insurance Law, all banks must create a legal reserve.

Each year a bank must allocate 10% of its net profit to its legal reserve until its legal reserve is equal to 35% of its paid-in capital. Any subsequent increases in paid-in capital will imply a corresponding increase in the required level of the legal reserves to be funded as described above.

### ***Lending Limits***

Under Article 206 of the Peruvian Banking and Insurance Law, the total amount of direct and indirect credits and financings granted in favor of a person shall not exceed 10% of the bank's regulatory capital. A person is defined for the purposes therein as a person or group of persons or entities representing a common or single risk.

The SBS has issued special regulations establishing the guidelines that must be followed by banks when determining legal reserves for legal proceedings for past-due loans and foreclosures.

For purposes of Peruvian Banking and Insurance Law, a single borrower includes an individual or an economic group. An economic group constituting a single or common risk, according to Peruvian Banking and Insurance Law, includes a person, such person's close relatives and companies in which such person or close relatives have significant share ownership or decision-making capability. According to current regulations, shareholders who own or control directly or indirectly at least 4% of a company's shares are considered to share common risk with such company. Significant decision-making capability is deemed to be present when, among others, a person or group can exercise material and continuous influence upon the decisions of a company, when a person or company holds seats on the board of directors or has principal officers in another company, or when it can be assumed that one company or person is the beneficial recipient of credit facilities granted to another company.

The 10% limit indicated above may be raised to 15%, 20% and 30%, depending on the type of collateral securing the excess over each limit. For instance, the limit can be extended to 15% when the excess is secured by a mortgage; it may be raised to 20% when the excess is collateralized with securities listed in the Selective Index of the BVL (ISBVL); and it may be raised to 30% when the excess is secured with deposits that are maintained and pledged with the bank.

Other special lending limits must also be taken into account, such as lending to related parties or affiliates (30% of regulatory capital), to local banks (30%), and to foreign banks (from 5% for non-regulated banks to 30% for first category international banks, which may also be raised to 50% when backed by letters of credit). There are other limits that require banks to diversify their portfolio through different types of assets, benefiting liquid and low-risk assets.

### ***Lending to Related Parties***

The Peruvian Banking and Insurance Law regulates and limits transactions with related parties and affiliates of financial institutions, on an unconsolidated basis. In 2015, the SBS and the SMV enacted new regulations containing definitions of indirect ownership, related parties and economic groups, which serve as the basis for determining limits on transactions with related parties and affiliates. These regulations also provide the basis for the subsequent development of specific supervision standards of financial institutions and conglomerates formed by financial institutions.

Additionally, pursuant to Article 202 of the Peruvian Banking and Insurance Law, the aggregate amount of loans to related party borrowers may not exceed 30% of a bank's regulatory capital (exceptionally, according to Circular B-2148-2005, as amended, the amount of loans to related parties may not exceed 50% of a bank's regulatory capital if the excess of 30% is secured by credit letters from foreign financial institutions). For purposes of this test, related party borrower includes any person or an affiliate of that person holding, directly or indirectly, 4% or more of a bank's capital stock, directors, certain of the bank's principal executive officers or other persons in more junior positions affiliated with the bank's management.

All loans to related parties must be made on an arm's-length basis with terms no more favorable than the best terms that Interbank would offer to the public.

In addition, under Article 201 of the Peruvian Banking and Insurance Law, the total amount of loans extended to directors, officers, employees or close relatives of any such persons may not exceed 7% of a bank's regulatory capital. All loans made to any single such related party borrower may not exceed 0.35% of a bank's regulatory capital (i.e., 5% of the overall 7% limit) per each person, including such person's spouse and relatives. In addition, the Peruvian Banking and Insurance Law generally provides that banks may not extend credit to or guarantee the obligations of employees or members of the board of directors, except for home mortgage loans to employees and directors.

### ***Country Risk Reserve Requirements***

SBS Resolution No. 7932-2015, enacted in December 2015, requires the funding of reserves to cover exposure to country risk, which is defined to include sovereign risk, transfer risk and expropriation or nationalization risk, all of which may affect operations with companies or individuals in foreign countries. The SBS has also established guidelines indicating the procedures and responsibilities necessary for coping with country risk.

### ***Integral Risk Management***

Integral risk management is a process intended to identify potential events that can affect banks and to manage those events according to their nature and risk level. In January 2017, the SBS enacted the SBS Resolution No. 272-2017, which replaced SBS Resolution No. 037-2008. SBS Resolution No. 272-2017 (as amended from time to time) contains guidelines for integral risk management of financial institutions and covers all kinds of risks that could affect a banking operation, such as operational, market, credit, AML, liquidity and reputational risks. Furthermore, it introduced various changes, focusing on corporate governance practices including the following: (i) two or more independent directors must be appointed when boards are integrated by six or more members, (ii) a remunerations committee must be formed and (iii) concepts such as 'risk appetite', 'risk capacity' and 'risk limits' have been modeled after the Principles for an Effective Risk Appetite Framework of the Financial Stability Board.

### ***Credit Risk***

According to the Peruvian Banking and Insurance Law, as of July 1, 2009, financial institutions would have been allowed to use the IRB methodology instead of the standardized methodology for calculating their regulatory capital requirement for credit risk, after receiving prior approval from the SBS. However, regulations required for the full implementation of both standardized and IRB methodologies by Peruvian financial institutions were not enacted until November 4, 2009, with SBS Resolution No. 14354-2009.

Under SBS Resolution No. 14354-2009, enacted in November 2009, financial institutions are allowed to use the standardized methodology and, with the prior approval of the SBS, IRB methodologies for calculating their regulatory capital requirement for credit risk. Interbank has not decided if it will request approval from the SBS to adopt the IRB methodology.

In addition, according to SBS Resolution No. 3780-2011, financial institutions are required to implement an organizational structure and certain procedures in connection with control on interest management and strategic needs procedures in order to adequately manage credit risk. SBS Resolution No. 8548-2012, enacted in November 2012, establishes new guidelines for calculation of risk weighted assets for personnel (*planilla*), credit card and mortgage exposure resulting in more capital requirements for credit risk.

### ***Market Risk***

Regulations for the supervision of market risks, enacted in May 1998, require banks to establish internal policies and procedures to monitor these risks, as well as market risk exposure limits. Regulations define market risk as the probability of loss derived from exposure to various classes of commodities, securities, foreign exchange, derivative operations or commercial assets that banks may hold in their portfolio, which may, or may not, be accounted for in their statements of financial position. In June 2009, the SBS enacted SBS Resolution No. 6328-2009, which defines the methodology to be applied, and the requirements to be satisfied, to calculate the regulatory capital requirement for market risks under the standard methodology and the IRB methodology.

Since July 1, 2009, financial institutions have been allowed to use IRB methodology (subject to prior approval by the SBS) in substitution of the standardized methodology.

### ***Operational Risk***

SBS Resolution No. 2115-2009, enacted in April 2009, defines the methodology to be applied, and the requirements to be satisfied, by financial institutions in calculating their regulatory capital requirement for operational risk under the IRB methodology, the alternative standardized methodology and the advanced methodologies. The IRB methodology uses a bank's gross operational margin as an "exposure indicator," and its application does not require the prior approval by the SBS. Application of the alternative standardized methodology or the advanced methodologies requires compliance with certain provisions included in SBS Resolution No. 2115-2009 (as amended from time to time) and prior approval from the SBS.

SBS Resolution No. 2116-2009, enacted in April 2009, which approves the guidelines for managing operational risk, defines "operational risk" as the possibility of suffering losses due to inadequate procedures, failures of personnel, IT or external events, including, without limitation, legal risks (but excluding strategic and reputational risk). It also establishes that a bank's board of directors is responsible for designing the general policies to manage operational risk and that a bank's management is in charge of implementing such policies. Finally, it provides that each bank is obligated to create a database of all of such bank's losses due to operational risk, classifying such losses by event.

### ***Investments in Financial Instruments***

Investment in financial instruments by Peruvian banks is restricted to those financial instruments listed in the Peruvian Banking and Insurance Law, such as equity instruments traded on a stock exchange, debt instruments (to the extent that certain requirements are satisfied), sovereign debt instruments and quotas in mutual and investment funds, among others.

Pursuant to SBS Resolution No. 7033-2012, investments in financial instruments by Peruvian banks shall be classified into any of the following categories: (a) investments at fair value with changes in results (short-term), (b) investments available-for-sale, (c) investments until maturity (long-term) and (d) investments in subsidiaries and affiliates.

On July 2018, the SBS issued SBS Resolution No. 2610-2018, which entered into force as of October 1, 2018, and amended the regulation on classification and valuation of investments approved by SBS Resolution No. 7033-2012 and its amendments. The main amendment contained in this resolution is the introduction of standard methodology for the identification of impairment of financial instruments classified as available-for-sale investments and held-to-maturity investments.

### ***Reserve Requirements from the Central Reserve Bank of Peru***

Under the Peruvian Banking and Insurance Law, all financial institutions regulated by the SBS (except for small-business development non-bank institutions) are required to maintain a legal reserve (*encaje*) for certain obligations. The Central Reserve Bank of Peru may require additional marginal reserves. The exact level and method of calculation of these reserve requirements is set by the Central Reserve Bank of Peru, which has issued different sets of regulations for foreign and local currency-denominated obligations of banks. The following liabilities are subject to the reserve requirement: demand and time deposits, savings accounts, certain obligations, securities, certain bonds and funds administered by the bank. Subject to certain requirements, the regulation excludes mid-term and long-term funding (i.e., more than two years) from foreign financial institutions, other central banks, governments or multilateral lending agencies.

In April 2004, the Central Reserve Bank of Peru began requiring reserves on amounts due to foreign banks and other foreign financial institutions, which were not previously considered obligations.

Currently, the minimum legal reserve requirement for local and foreign currency deposits is 4.0% and 9.0%, respectively. Foreign currency deposits collected from the general public are subject to a marginal rate of 35% for funds that exceed a certain level set by the Central Reserve Bank of Peru. Local and foreign currency borrowings from certain foreign sources with an original maturity of two years or less are subject to a 50% special rate. Financial institutions may satisfy the minimum reserve requirements with funds that they hold in vaults or that they have deposited in their accounts at the Central Reserve Bank of Peru.

Subject to certain requirements, the regulation excludes from the reserve requirement mid-term and long-term funding (i.e., liabilities with a minimum average maturity of more than two years, subject to other conditions) through the issuance of securities.

They must also keep at least 0.75% and 3.0% of their local and foreign currency deposited in the Central Reserve Bank of Peru, respectively. The Central Reserve Bank of Peru oversees compliance with the reserve requirements.

The Central Reserve Bank of Peru also establishes the interest rate payable on reserves that exceed the minimum legal reserve requirement applicable to both local and foreign currency deposits. The current applicable interest rate: (a) for local currency

reserves, different from those described below, is the higher of 0.0% or the overnight deposits interest rate, minus 1.95%; and, (b) for foreign currency deposits, is the higher of 0.0% and 25.0% of the one-month LIBOR interest rate, minus 12.5 %. Currently, no interest rate is payable in respect of local currency deposits to certain foreign sources, such as financial institutions, hedge funds, brokerage firms, pension funds and others with a foreign parent company, except for those authorized by the SBS to collect deposits from the general public in Peru. The applicable interest rate is expected to be periodically revised by the Central Reserve Bank of Peru in accordance with monetary policy objectives.

In the past, the Central Reserve Bank of Peru has on numerous occasions changed the deposit reserve requirements applicable to Peruvian commercial banks and both the rate of interest paid on deposit reserves and the amount of deposit reserves on which no interest is payable by the Central Reserve Bank of Peru.

### ***Deposit Insurance Fund***

Bank deposits are protected by the *Fondo de Seguros de Depósito* (Deposit Insurance Fund), against bank failure. Specifically, savings deposit by natural persons, savings deposit accounts maintained by non-profit entities and checking accounts are covered in full up to an amount that is revised quarterly by the SBS. For the period between December 2020 and February 2021, the maximum coverage amount is S/101,522 per person per bank.

The Deposit Insurance Fund was established in 1991 and was organized as a private corporation in 1996. The Deposit Insurance Fund's governing body is led by a representative of the SBS. The additional members are appointed by the Central Reserve Bank of Peru (one member), the MEF (one member) and by the banks (three members). SBS provides the necessary administrative members and operational resources for the Deposit Insurance Fund.

The financial resources available to the Deposit Insurance Fund pursuant to the Peruvian Banking and Insurance Law include, among others, the original contribution from the Central Reserve Bank of Peru, insurance premiums paid by banks, unclaimed bank deposits (after 10 years) and fines imposed by the SBS for violations of the Peruvian Banking and Insurance Law.

In addition, the Deposit Insurance Fund may, in extraordinary situations, borrow funds with authorization from the Peruvian treasury, or it may borrow long-term government securities from the Peruvian treasury.

### ***Anti-Money Laundering Rules***

Money laundering is considered a criminal act in Peru. A special legal framework was established in April 2002, which follows the 40 recommendations of the Financial Action Task Force on Money Laundering, or "FATF," established by the G-7. Since then, this legal framework has been amended in order to improve and increase the efficiency of the Peruvian anti-money laundering system.

Money laundering includes a wide range of serious offenses such as tax evasion, terrorism, drug trafficking, corruption and other criminal activities. A special set of anti-money laundering rules applies specifically to banks, which includes specific rules for customer and employee due diligence and recordkeeping. In March 2008, the SBS enacted additional anti-money laundering provisions, pursuant to which, among other things, banks must establish a set of policies and procedures specifically aimed to prevent asset laundering and the financing of terrorist activities. In November 2008, the SBS modified the anti-money laundering provisions to include, among other changes, the obligations of Peruvian banks to verify that their branches and foreign subsidiaries comply with the anti-money laundering and terrorism financing provisions enacted by the SBS and with the recommendations of the FATF.

On February 17, 2011, the SBS modified current anti-money laundering provisions through SBS Resolution No. 2108-2011, as amended, in order to adapt these provisions to international standards established by the Financial Action Task Force of South America (*Grupo de Acción Financiera de Sudamerica*, or "GAFISUD"), in relation to due diligence in the identification of clients according to their risk and profile level, among other considerations. On May 14, 2015 and December 6, 2017, the SBS further amended and supplemented the aforementioned provisions through SBS Resolution No. 2660-2015 and SBS Resolution No. 4705-2017 (each as amended). SBS Resolution No. 2018-2011 was replaced by SBS Resolution No. 2891-2018, which came into force on October 1, 2018.

The government agency responsible for supervising the anti-money laundering system is the UIF, which was made part of the SBS in July 2007. The chairman of this agency is appointed by the chairman of the SBS. Additionally, Law No. 30424, enacted in April 2016 and which took effect on January 1, 2018, as amended, attributes criminal liability to legal entities when money laundering, terrorist financing and/or bribery (including multinational bribery) crimes are committed on its behalf or for its benefit by any legal representative or *de facto* or *de iure* executive. Such regulation establishes that criminal liability will be exempted or mitigated if the legal entity has adopted an adequate and suitable prevention model following the criteria and minimum guidelines outlined in Law No. 30424. On January 9, 2019, Supreme Decree 002-2019-JUS (*Reglamento de la Ley N° 30424*) was enacted and took effect, setting forth further regulations and guidelines related to, among other things, the suitable prevention model to be implemented in accordance with Law No. 30424.

### ***Disclosure of Material Information***

All banks that are organized as corporations (the only exception being the Peruvian branches of foreign banks) are listed on the BVL. As a result, they are subject to the disclosure and reporting rules contained in the Peruvian Securities Market Law and the internal regulations of the SMV and the BVL. Banks are also subject to full disclosure and reporting obligations under the banking regulatory framework. See “Regulation and Supervision—The Peruvian Financial and Insurance Systems—*The SMV*”.

### ***Intervention by the SBS and Liquidation***

Pursuant to the Peruvian Banking and Insurance Law, the SBS has the power to interrupt the operations of a bank in order to prevent, or to control and reduce the effects of, a bank failure. Accordingly, the SBS may intervene in a bank’s business by adopting either a temporary surveillance regime or a definitive intervention regime (“Intervention”) depending on how critical the situation is deemed to be by the SBS. Intervention will be taken upon the occurrence of certain events, including (a) suspension of payments, (b) failure to comply with the restructuring plan during the surveillance regime, (c) regulatory capital is less than 50% of the minimum regulatory capital required or (d) deficit or reduction of more than 50% of its regulatory capital in a 12-month period. Less drastic measures, such as (1) placing additional requirements, (2) ordering a capital increase or an asset divestiture or (3) imposing a financial restructuring plan, may be also adopted by the SBS when the situation allows for them.

An Intervention may halt a bank’s operations for up to 45 days, and may be extended for a second period of up to 45 additional days, during which time the SBS may institute measures such as: (a) canceling losses by reducing reserves, capital and subordinated debt, (b) segregating certain assets and liabilities for transfer to another financial institution and (c) merging the intervened bank with another acquiring institution. After an Intervention, the SBS will proceed to dissolve and liquidate the bank unless the preceding option (c) was applied.

Beginning on the date on which a resolution of the SBS subjecting a bank to an Intervention regime is issued, and continuing until such Intervention is concluded (which period ends when the liquidation process begins), the Peruvian Banking and Insurance Law prevents any creditor of the bank from (a) initiating any judicial or administrative procedure for the collection of any amount owed by the bank, (b) enforcing any judicial decision rendered against the bank to secure payment of any of its obligations, (c) constituting a lien or attachment over any of the assets of the bank to secure payment of any of its obligations or (d) making any payment, advance or compensation or assuming any obligation on behalf of the bank, with the funds or assets that may belong to it and are held by third parties, except for (i) set-off compensation payments that are made between regulated entities of the Peruvian banking and financial sector and insurance industry and (ii) set-off of reciprocal obligations arising from repurchase agreements and operations with financial derivatives entered into with local or foreign financial and insurance institutions.

During liquidation, claims of bank creditors rank as follows:

#### **First order—Labor claims:**

- *1<sup>st</sup>* Employee remunerations.
- *2<sup>nd</sup>* Social benefits, contributions to the private and public pension system and other labor claims against the bank accrued until the date when the dissolution is declared, retirement pensions or the capital required to redeem those pensions or to secure them by purchasing annuities.

**Second order**—Claims for bank deposits and other types of saving instruments provided under the Peruvian Banking and Insurance Law, in the portion not covered by the Deposit Insurance Fund and the contributions and resources used by such Deposit Insurance Fund to cover the above described claims for bank deposits and other types of saving instruments.

#### **Third order—Taxes:**

- *1<sup>st</sup>* Claims by the Peruvian social security administration (*Seguro Social de Salud del Perú EsSalud*) related to health care benefits for which the bank is responsible as employer.
- *2<sup>nd</sup>* Taxes.

#### **Fourth order—Unsecured and non-privileged credits:**

- *1<sup>st</sup>* All unsecured and non-privileged credits against the bank, ranked on the basis of (i) the date they were assumed or incurred by the bank whereby obligations assumed or incurred on an earlier date shall rank senior in right of

payment to obligations assumed or incurred by the bank at a later date, and (ii) obligations assumed or incurred by the bank on a date that cannot be determined shall rank junior in right of payment to all the obligations comprised in (i) above and *pari passu* among themselves.

- 2<sup>nd</sup> The legal interest on the bank's obligations that may accrue during the liquidation.
- 3<sup>rd</sup> Subordinated debt.

Except for the first and second categories under unsecured and non-privileged credits, all claims within an order will be ranked *pari passu* among themselves. Each category of creditors will collect in the order indicated above, whereby distributions in one order will be subject to completing full distribution in the prior order. Any security interest created before the issuance of the resolution declaring the bank's dissolution and the initiation of the liquidation process shall survive in order to guarantee the obligation it secures. The secured creditors shall retain the right to collect from the proceeds of the sale of the collateral, on a preferred basis (except with respect to labor claims, savings and deposits, which are privileged claims), subject to certain rules established under Article 119 of the Peruvian Banking and Insurance Law.

Peruvian banks are not subject to the regime of insolvency and bankruptcy otherwise applicable to Peruvian corporations in general.

## **Insurance Regulation and Supervision**

### ***Solvency Requirements and Regulatory Capital***

Pursuant to the Peruvian Banking and Insurance Law, the SBS regulates the solvency margin of Peruvian insurance companies. The solvency margin is based upon calculations that take into account the amount of premiums and the medium burden of claims during a specified period prior to the date on which calculation is made.

Insurance companies must also maintain a "solvency equity," which must be equal to the highest of (a) the solvency margin, (b) the minimum capital requirements, as established by law, or (c) the company's overall indebtedness, calculated in accordance with provisions of the Peruvian Banking and Insurance Law. The required amount of solvency equity is recalculated at least monthly and is adjusted for inflation. If the insurance company has operations subject to credit risk, part of the solvency equity should be segregated for their coverage.

The Peruvian Banking and Insurance Law provides that insurance companies should have at all times a regulatory capital that should not be lower than the solvency equity, which must be the higher than (a) the solvency margin or (b) the minimum capital required by law, or S/6,885,210 in accordance with Circular G-207-2020 for the period between October and December 2020.]

The regulatory capital of Peruvian insurance companies used to cover its operations may be conformed by: (a) the insurance company's paid-in-capital, voluntary and legal reserves and premium for the issue of shares; and (b) the computable portion of the subordinate debt meeting SBS requirements that such entity establishes for such purpose. The Peruvian Banking and Insurance Law provides the following procedure for the determination of the regulatory capital eligible to cover insurance risks: (a) sum of the paid-in-capital, supplementary capital premium and the legal and voluntary reserves, as applicable; (b) sum of the profit of previous fiscal years and of the fiscal year in course, including the commitment to capitalization of the fiscal year profits; (c) sum of the subordinated bonds issued by Interseguro; (d) subtraction of the amount of all the investment in subordinate bonds and shares of diverse nature made by insurance companies in other insurance companies engaged in different lines of business; and (e) subtraction of the losses of the previous fiscal years and the fiscal year in course.

Furthermore, insurance companies shall maintain a guarantee reserve equivalent to 35% of its solvency equity as a guarantee fund. According to the Peruvian Banking and Insurance Law, such guarantee fund is different and complementary to the portions of capital respectively directed to (a) constitute the solvency margin of the insurance risks; and, (b) as applicable, to cover credit risks.

### ***Reserves***

The Peruvian Banking and Insurance Law provides that insurance companies shall constitute, on a monthly basis, the following technical reserves: (a) for claims, including those that took place and were not reported, past-due capital and income or benefits of the insured parties, with pending liquidation or payment; (b) mathematical, over life or income insurance; (c) for risks in course or non-accrued premiums; and (d) for catastrophes and uncertain casualty risks.

Article 67 of the Peruvian Banking and Insurance Law also requires that all insurance companies establish a legal reserve by setting aside 10% of adjusted income before taxes, until the reserve reaches at least 35% of their capital stock.

Under SBS GAAP following the adoption of new mortality tables in 2018 the SBS allowed the adjustment of technical reserves to be spread over 10 years. Accordingly, since January 2019, pursuant to SBS GAAP we are adjusting our technical reserves over 10 years. In contrast, under IFRS, in 2018 we had a negative impact of S/144.8 million due to the aggregate effect recorded in technical reserves on insurance policies issued prior to the date of adoption of the new mortality tables. See “Presentation of Financial Information—Non-GAAP Financial Measures.”

### ***Limit of Indebtedness***

Insurance companies may only take credits, in the country or abroad, for a sum not exceeding an amount equivalent to its regulatory capital. In case such limit of indebtedness is surpassed, the insurance company shall submit to the SBS a program approved by its board of directors establishing the measures adopted to eliminate the excess within a term not exceeding three (3) months.

### ***Investment Requirements***

Pursuant to the Peruvian Banking and Insurance Law, the total amount of investments of a Peruvian insurance company shall cover the total amount of technical obligations at all times. For such purposes, technical obligations are defined as the sum of all obligations that an insurance company has vis-à-vis its insured clients plus the solvency equity, the guarantee fund and the regulatory capital for the economic cycle. The assets covering the technical obligations cannot be subject to any pledge, encumbrance or precautionary measure, which limits its free availability.

Peruvian insurance companies are allowed to invest in certain eligible assets such as instruments issued by the Peruvian Central Government, classified corporate bonds and shares, among others. However, in order to balance levels of risk, applicable regulations have imposed a number of limitations to insurance companies with respect to their investments (by issuer, economic group, type of instrument and nationality, among others). In general terms, no more than 15% of the total amount of an insurance company’s technical obligations may be invested in certain instruments (including, among others, stocks and bonds) issued by the same economic group. The investment regulations further specify that investment policies of Peruvian insurance companies shall consider maximum limits by issuer (calculated over the regulatory capital of each company) depending on the type of investment and the insurance industry in which the company operates.

Pursuant to the Investment of Insurance Companies Regulation approved by SBS Resolution No. 1041-2016 (as amended), Interseguro has implemented a plan to reduce its exposure to related parties and comply with the limits established by Article 13 of the *Reglamento de Supervisión Consolidada*, approved by Resolution No. 11823-2010 (as amended).

### ***Disclosure of Relevant Information***

All insurance companies that are organized as corporations (the only exception being the Peruvian branches of foreign insurance companies) have their shares listed on the BVL. As a result, they are subject to the disclosure and reporting rules contained in the Peruvian Securities Market Law and the internal regulations of the BVL. Insurance companies are also subject to full disclosure and reporting obligations under the insurance regulatory framework.

See “Regulation and Supervision—The Peruvian Financial and Insurance Systems—*The SMV*”.

### ***Ownership Restrictions***

The Peruvian Banking and Insurance Law establishes certain restrictions on the ownership of a bank and insurance company’s capital stock. Banks must have at least two unrelated shareholders at all times. Restrictions are placed on the ownership of shares of any bank or insurance company by persons that have committed certain crimes, as well as by public officials who have supervisory powers over banks or who are majority shareholders of an enterprise of a similar nature. All transfers of shares in a bank or insurance company must be reported to the SBS by the bank or insurance company.

Transfers involving the acquisition by any individual or corporation, whether directly or indirectly, of more than 10% of a bank or insurance company’s capital stock must receive prior authorization from the SBS. The SBS may deny authorization to such transfer of shares if the purchasers (or their shareholders in the case of legal persons) are legally disabled, have engaged in illegal activity in the areas of banking, finance, insurance or reinsurance, or if objections are raised on the basis of the purchaser’s moral fitness or financial solvency. The decision of the SBS on this matter is final and cannot be overturned in the courts. If a transfer is made without obtaining the prior approval of the SBS, the purchaser may be fined an amount equivalent to the value of the securities transferred. In addition, the purchaser will be required to sell the securities within 30 days, or the fine will double, and the purchaser is disqualified from exercising its voting rights at any shareholders’ meetings and to participate in the distribution of dividends. Foreign investors receive the same treatment as Peruvian nationals and are subject to the same limitations described above.

### ***Risk Rating***

The Peruvian Banking and Insurance Law and SBS Resolution No. 18400-2010, enacted in December 2010, require that all financial and insurance institutions be rated by at least two rating agencies (registered with the SBS) on a semiannual basis (updated in March and September), in addition to the SBS's own assessment. Criteria to be considered in the rating include risk management and control procedures, loan quality, financial strength, profitability, liquidity and financial efficiency. Five risk categories are assigned, from "A," lowest risk, to "E," highest risk, allowing for subcategories within each letter.

### ***Intervention by the SBS***

Pursuant to the Peruvian Banking and Insurance Law, the SBS has the power to interrupt the operations of an insurance company to prevent, or to control and reduce, the effects of its failure. Accordingly, SBS intervention may be of two levels, depending on how critical the situation is: a temporary supervision regime or a definitive intervention regime prior to liquidating the bank or insurance company. Intervention will be taken upon the occurrence of certain events including: (1) payment interruption; (2) failure to comply with the restructuring plan during the surveillance regime; (3) deficit or reduction of more than 50% of its regulatory capital in a 12-month period; or (4) deficit or reduction of its regulatory capital in excess of 50% of its solvency capital.

The intervention regime and the liquidation is the same as the one described above for banking entities. See "Item 4. Information on the Company—Business Overview—Regulation and Supervision—The Peruvian Financial and Insurance System—Intervention by the SBS and Liquidation". See "Item 4. Information on the Company—Business Overview—Regulation and Supervision—Investment Requirements" for a discussion of investment requirements and technical obligations.

### **General Overview of the Bahamian Financial Regulatory Framework**

The regulatory framework for the operation of the Bahamian bank and trust industry is set forth in the Central Bank of The Bahamas Act, 2020, as amended, and the Banks and Trust Companies Regulation Act, 2020, as amended, and their related rules and regulations and any related guidance or notices issued by The Central Bank of The Bahamas. The Central Bank of The Bahamas licenses and supervises all of the banks and trust companies in The Bahamas. Its objectives include promoting and maintaining monetary stability and ensuring a sound financial system through the effective application of international regulatory and supervisory standards. All banks must adhere to the Central Bank of The Bahamas' licensing and prudential requirements, ongoing supervisory programs and regulatory reporting requirements, and are subject to periodic onsite inspections. The regulatory framework for the securities industry in The Bahamas is set forth in the Securities Industry Act, 2011, as amended, and the Securities Industry Regulations, 2012. The relevant regulator for the securities industry is the Securities Commission of The Bahamas.

### ***Licensing***

Inteligo Bank has been granted a banking license by the Central Bank of The Bahamas and an International Banking License by the Superintendency of Banks of Panama. Under the BTCRA, the Central Bank of The Bahamas may revoke the license of a licensee if: in the opinion of the Central Bank of The Bahamas, the licensee (i) is carrying on its business in a manner detrimental to the public interest or the interests of its depositors or other creditors or (ii) contravening the provisions of Bahamian banking law or any other law, order or regulations made thereunder, or any term or condition subject to which the license was issued, either in The Bahamas or elsewhere; (iii) if Inteligo Bank has ceased to carry on its banking business; or (iv) if Inteligo Bank becomes bankrupt or goes into liquidation or is wound up or otherwise dissolved.

Inteligo Bank's asset management activities and securities custody and trading activities are subject to supervision by the Securities Commission of The Bahamas. Inteligo Bank holds the following licenses from the Securities Commission of The Bahamas: Dealing as Agent or Principal; Arranging Securities; Managing Securities; and Advising on Securities. Inteligo Bank is licensed to undertake all securities related activities that are ancillary to its banking business.

### ***Banking Regulation and Supervision***

Banking regulations on capital adequacy and regulatory framework in The Bahamas take into account the recommendations of the Basel Committee. The Central Bank of The Bahamas has adopted a Basel Implementation Program (the "Program") and has effectively implemented Pillar I, Pillar II and Pillar III of the Basel II framework. The Pillar I framework focuses on the capital adequacy ratio requirements. Pillar II focuses on the ICAAP (the guidelines in relation to the ICAAP were released in August of 2016), and Pillar III relates to Minimum Disclosures. The Central Bank of The Bahamas has rolled out the capital component of the Basel III framework and in 2017, began to implement other elements namely, the Capital Buffers, the Leverage Ratio, the Net Stable Funding Ratio and the Liquidity Coverage Ratio. It should be noted that the Basel implementation timeline with respect to these ratios extends into 2020. The Central Bank of The Bahamas has published the Second Round of Industry Consultation on The Draft Bahamas Capital Regulations, 2020, which would alter the requirements and composition of accepted regulatory capital for Bahamian licensed banks. If implemented in its current form, the new framework could require Inteligo Bank to make revisions to its capital structure and investments which could have an adverse effect on the profitability of Inteligo Bank.

## **Corporate Governance**

The *Guidelines for the Corporate Governance of Banks and Trust Companies Licensed to Do Business Within and From Within The Bahamas*, issued by the Central Bank of The Bahamas, list the minimum standards that banks must adopt in respect of their corporate governance framework. Generally, the guidelines require the board of directors to develop and implement policies and procedures to ensure (i) the competence and independence of board members, (ii) proper management of strategic, business and process-level risks, (iii) compliance with applicable laws, regulations and guidelines, and (iv) ongoing reporting to the Central Bank of The Bahamas.

## **Limits on Large Exposures**

Pursuant to the Banks and Trust Companies (Large Exposures) (Amendment) Regulations, 2012, no bank shall (i) incur exposures to any individual counterparty or group of connected parties which in the aggregate exceed 25% of the bank's capital base, (ii) hold non-capital investments in securities of a single issuer which exceed 10% of the bank's capital base, (iii) incur exposures to its related parties which in the aggregate exceed 15% of the bank's capital base, (iv) incur exposures to related parties unless approved by the bank's board of directors and negotiated on an arm's length basis, or, (v) incur non-exempt large exposures which in the aggregate exceed 800% of its capital base. There are certain exemptions listed in the regulations, and the Central Bank of The Bahamas may also exempt a bank from the exposure limits outlined in the regulations in certain circumstances.

## **Classification of Impaired Assets**

The *Guidelines for the Measurement, Monitoring and Control of Impaired Assets*, issued by the Central Bank of The Bahamas, provide the Central Bank of The Bahamas' minimum requirements for the recognition, measurement and classification of impaired assets. An impaired asset is defined as an asset where there is no longer a reasonable assurance of timely collection of the full amount of principal and interest due to a deterioration of credit quality of the counterparty. Banks are required to follow the requirements of the International Financial Reporting Standards relating to impaired assets, in particular International Accounting Standards 36 and IFRS 9.

## **Credit Risk**

The *Guidelines for the Management of Credit Risk*, issued by the Central Bank of The Bahamas, require banks to have a written statement of their credit risk strategy and policies and procedures to implement the strategy. The strategy and policies should be approved by the board of directors and should be consistent with the bank's degree of risk tolerance, the level of capital available for credit activities and credit management expertise. The Central Bank of The Bahamas endorses the Basel Committee's *Principles for the Management of Credit Risk* (September 2000).

## **Market Risk**

The *Guidelines on the Management of Market Risk*, issued by the Central Bank of The Bahamas, require banks that meet the stated threshold tests to establish sound policies and procedures for the management of market risk, to be supervised and controlled by the board of directors and senior management. Market risk is defined as the risk of losses in on and off-balance sheet positions arising from movements in market prices.

## **Operational Risk**

The *Guidelines for the Management of Operational Risk*, issued by the Central Bank of The Bahamas, require senior management of a bank, under the approval of the board of directors, to develop and implement an operational risk management framework that explicitly recognizes operational risk as a distinct risk to the institution and aims to effectively manage it. Operational risk is defined as the risk of loss resulting from inadequate or failed internal processes, people and systems from external events. The guidelines are based upon the *Principles for the Sound Management of Operational Risk*, issued by the Basel Committee on Banking Supervision in 2011.

## **Country Risk**

The *Guidelines for the Management of Country Risk*, issued by the Central Bank of The Bahamas, require banks to have a risk management process that focuses on the broadly defined concept of country risk and addresses certain minimum requirements listed therein. The guidelines reference the Basel Committee's *Core Principles for Effective Banking Supervision*.

## **Anti-Money Laundering Laws and Regulations**

Money laundering is a criminal act in The Bahamas. The laws of The Bahamas concerning money laundering and combatting the financing of terrorism are contained in the following legislation, as amended: (i) the Proceeds of Crime Act, 2018; (ii)

the Anti-Terrorism Act, 2004; (iii) the Financial Transactions Reporting Act, 2018; (iv) the Financial Transaction Reporting Regulations, 2018; (v) the Financial Transactions Reporting (Wire Transfers) Regulations, 2018; (vi) the Financial Intelligence Unit Act, 2000; and (vii) the Financial Intelligence (Transactions Reporting) Regulations, 2001. The *Guidelines for Licensees on the Prevention of Money Laundering & Countering the Financing of Terrorism*, issued by the Central Bank of The Bahamas, apply specifically to banks and other licensees of the Central Bank of The Bahamas. The guidelines require banks to establish clear responsibilities and accountabilities to ensure that policies, procedures and controls which deter criminals from using their facilities for money laundering or the financing of terrorism, are implemented and maintained, thus ensuring that they comply with their obligations under the law. Banks must have in place sufficient controls and monitoring systems for timely detection and reporting of suspicious activities, proper verification of their customers' identities, record keeping in accordance with applicable laws, and ongoing education and training for its employees.

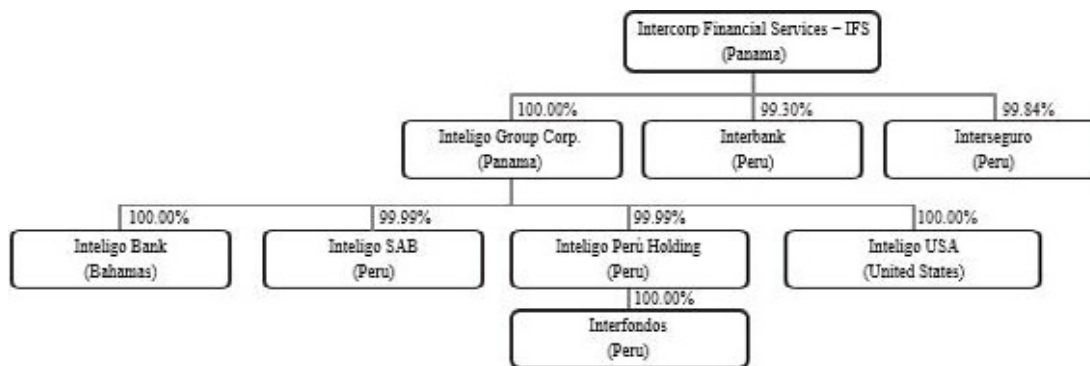

The Bahamas has enacted the Commercial Entities (Substance Requirements) Act, 2018 which requires substantial economic presence in The Bahamas for certain Bahamian entities that conduct relevant activities. A relevant activity includes the business of banking as conducted by Inteligo Bank. Inteligo Bank has made the appropriate registration in order to seek exemption from this legislation as it considers itself to be tax resident in another jurisdiction, Panama, despite being a licensed bank in The Bahamas. As a tax resident in Panama, Inteligo Bank would be exempt from the requirements of the Commercial Entities (Substance Requirements) Act, 2018 if it fulfills certain disclosure and governance requirements of the applicable legislation. If Inteligo Bank is not considered to be tax resident in Panama, or does not fulfill the requirements of the applicable legislation, it will have to enhance its economic and business presence in The Bahamas in order to comply with the Commercial Entities (Substance Requirements) Act, 2018.

### External Auditors

The *Guidelines on the Relationship between External Auditors of Licensees and the Central Bank of The Bahamas*, issued by the Central Bank of The Bahamas, require banks to inform the Central Bank of The Bahamas of the appointment of their external auditors. In addition to listing certain criteria to be used when appointing external auditors, the guidelines also provide examples of facts and matters of material significance that must be reported by an external auditor to the Central Bank of The Bahamas, such as material misstatements in financial statements or evidence of fraudulent activities. The guidelines take into account the aspects of the Basel Committee's paper, *The Relationship Between Banking Supervisors and Banks' External Auditors* (2002).

## C. Organizational Structure

The following chart presents our corporate structure, indicating our principal subsidiaries and respective ownership interests.

## D. Property, Plants and Equipment

We are based in Peru and our principal executive offices are located at Av. Carlos Villarán 140, Urbanización, Santa Catalina, La Victoria, Lima 13, Peru, which is owned by Interbank.

Our principal subsidiaries own or lease the following properties:

### Interbank

Interbank owns its headquarters, the Interbank Tower, located at Av. Carlos Villarán 140, Urbanización, Santa Catalina, La Victoria, Lima 13, Peru (approximately 46,585 square meters). Although most of its financial store facilities are leased, Interbank owned 49 financial store facilities as of December 31, 2020.

### ***Interseguro***

Interseguro owns its administrative office, located at Av. Javier Prado 492, San Isidro, Lima, Peru (approximately 2,482 square meters), as well as its main commercial office, located at Av. Paseo de la República 3071, San Isidro, Lima 27, Peru (approximately 1,650 square meters). Additionally, Interseguro leases one facility in the district of Los Olivos, Lima (approximately 140 square meters) and 16 facilities in different provinces of Peru. Most of Interseguro's facilities outside of Lima are subleased to Interbank.

### ***Inteligo***

Inteligo had seven offices as of December 31, 2020. Inteligo Bank owns its branch in Panama and leases the rest of the facilities where it operates (approximately 5,733 square meters). Inteligo Bank's registered headquarters are located at Inteligo Bank—Seventeen Shop Building, First Floor, Collins Avenue & Fourth Terrace, Centreville, Nassau, The Bahamas. Inteligo SAB's registered headquarters are located at Inteligo SAB—Av. Rivera Navarrete 501, San Isidro, Lima, Peru. Interfondos' registered headquarters are located at Interfondos—Av. Carlos Villaran 140, Sixth Floor, La Victoria, Lima, Peru.

## SELECTED STATISTICAL INFORMATION

The following tables present certain selected statistical information and ratios for IFS for the periods indicated. The following information is included for analytical purposes and should be read in conjunction with the information included in “Item 5. Operating and Financial Review and Prospects” and our audited annual consolidated financial statements and notes thereto included elsewhere in this Annual Report on Form 20-F. The statistical information and discussion and analysis presented below for the fiscal years ended December 31, 2020, December 31, 2019 and December 31, 2018 reflect our consolidated financial position with our subsidiaries, Inteligo, Interbank and Interseguro, as of December 31, 2020, 2019 and 2018 and their results of operations for 2020, 2019 and 2018.

Average annual balances are based on five quarterly balances. Nominal average interest rates have been calculated by dividing interest earned on assets or paid on liabilities by the corresponding average annual balances on such assets or liabilities.

On January 1, 2020, we adopted for the first time the following standards, interpretations or amendments: (i) Amendments to IFRS 3 “Business Combinations”, (ii) Amendments to IAS 1 “Presentation of Financial Statements” and IAS 8 “Accounting Policies, Changes in Accounting Estimates and Errors”, (iii) Conceptual Framework for Financial Reporting issued on March 29, 2018 and (iv) Amendments to IFRS 16 “Leases”. Such standards, interpretations or amendments have not had a significant impact on our consolidated financial statements. See Note 3.2 to our audited annual consolidated financial statements.

Since January 1, 2019, we have been applying: (i) IFRS 16 “Leases”, which accounting policies and impacts are described in Notes 3.4(j) and 8(e) to our audited annual consolidated financial statements; and (ii) Amendments to IFRS 9 “Financial Instruments”, IAS 39 “Financial Instruments: Recognition and Measurement”, and IFRS 7 “Financial Instruments: Disclosures”, in connection with the interest rate benchmark reform, which accounting policies and impacts are described in Notes 3.4(ag) and 10(b)(vi) to our audited annual consolidated financial statements.

Likewise, since January 1, 2018, we have been applying IFRS 9 “Financial Instruments”, effective for annual periods beginning on or after January 1, 2018. IFRS 9 replaces IAS 39 “Financial Instruments: Recognition and Measurement” for annual periods starting on or after January 1, 2018.

The adoption of IFRS 9 has fundamentally changed our accounting for loan loss impairments by replacing the incurred loss approach under IAS 39 with a forward-looking expected credit loss (ECL) approach. IFRS 9 requires us to record an allowance for expected credit loss for all loans and other debt financial assets not held at fair value through profit or loss, together with financial guarantee contracts. The allowance is based on the expected credit loss associated with the probability of default in the next 12 months unless there has been a significant increase in credit risk since origination. If the financial asset meets the definition of purchased or originated credit impaired (POCI), the allowance is based on the change in the expected credit loss over the life of the asset.

As permitted by IFRS 9, we have not restated the comparative information for prior years. Therefore, the comparative information for 2017 and prior periods is reported under IAS 39 and is not comparable to the information presented for subsequent periods.

### Average Balance Sheets, Income Earned from Interest-Earning Assets, Interest Paid on Interest-Bearing Liabilities

The tables below set forth, by currency of denomination, average balances for IFS prepared on a consolidated basis, and, where applicable, interest earned on interest-earning assets and interest paid on interest-bearing liabilities for the periods indicated. Except as otherwise indicated, average balances, when used, have been classified by currency (*soles* or foreign currency (primarily U.S. dollars)), regardless of the domestic or international origin of the relevant balances. In addition, unless otherwise set forth in this Annual Report on Form 20-F, such average balances are based on quarterly balances. Nominal average interest rates have been calculated by dividing interest earned on assets or paid on liabilities by the corresponding average balances on such assets or liabilities.

## Return on Equity and Assets

The following table sets forth our return on average total assets and average shareholders' equity and related information for the periods indicated:

	For the year ended December 31,		
	2020	2019	2018
Return on average total assets	0.5%	2.1%	1.8%
Return on average shareholders' equity	4.5%	18.3%	16.6%
Equity to assets ratio <sup>(1)</sup>	10.7%	11.7%	10.7%
Dividend payout ratio <sup>(2)</sup>	86.6%	48.2%	60.0%

(1) Average shareholders' equity as a percentage of average assets.

(2) Dividends divided by net profit. Dividends declared in 2020 will be paid in 2021, dividends declared in 2019 and 2018 were paid in 2020 and 2019, respectively. Dividends are declared and paid in U.S. dollars.

## Changes in Net Interest and Similar Income and Net Interest and Similar Expense: Volume and Rate Analysis

The following table sets forth, by currency of denomination, changes in our interest revenue and expenses between changes in the average volume of interest-earning assets and interest-bearing liabilities and changes in their respective nominal interest rates from the year ended December 31, 2018 to the year ended December 31, 2019 and from the year ended December 31, 2019 to the year ended December 31, 2020. Volume and rate variances have been calculated based on movements in average quarterly balances and changes in nominal interest rates, average interest-earning assets and average interest-bearing liabilities. The net change attributable to changes in both volume and rate has been allocated proportionately to the change due to volume and the change due to rate.

## Interest-Earning Assets: Net Interest Margin and Yield Spread

The following table set forth for each of the periods indicated, by currency of denomination, our levels of average interest-earning assets, net interest income, gross yield, net interest margin and yield spread, all on a nominal basis.

	For the year ended December 31,		
	2020	2019	2018
	(S/ in millions, except for percentages)		
<b>Average interest-earning assets</b>			
<i>Soles</i>	49,059.8	37,779.6	33,612.2
Foreign Currency	28,350.0	26,920.6	24,788.1
<b>Total</b>	<b>77,409.8</b>	<b>64,700.2</b>	<b>58,400.2</b>
<b>Net interest income<sup>(1)</sup></b>			
<i>Soles</i>	2,927.4	2,881.7	2,634.8
Foreign Currency	545.3	541.6	509.2
<b>Total</b>	<b>3,472.8</b>	<b>3,423.3</b>	<b>3,144.0</b>
<b>Gross yield<sup>(2)</sup></b>			
<i>Soles</i>	7.5%	9.9%	9.9%
Foreign Currency	3.4%	4.1%	4.0%
<b>Total</b>	<b>6.0%</b>	<b>7.5%</b>	<b>7.4%</b>
<b>Net interest margin<sup>(3)</sup></b>			
<i>Soles</i>	6.0%	7.7%	7.9%
Foreign Currency	1.9%	2.0%	2.1%
<b>Total</b>	<b>4.5%</b>	<b>5.3%</b>	<b>5.4%</b>
<b>Yield spread<sup>(4)</sup></b>			
<i>Soles</i>	5.4%	6.7%	6.9%
Foreign Currency	1.4%	1.4%	1.6%
<b>Total</b>	<b>3.9%</b>	<b>4.5%</b>	<b>4.6%</b>

(1) “Net interest income” is defined as interest and similar income less interest and similar expense.

(2) “Gross yield” is defined as interest and similar income divided by average interest-earning assets.

(3) “Net interest margin” is defined as net interest and similar income divided by average interest-earning assets.

(4) “Yield spread”, on a nominal basis, represents the difference between gross yield on average interest-earning assets and average cost of interest-bearing liabilities.

## Investment Portfolio

The following table sets forth our financial investment portfolio by type on the dates indicated. For more information on our financial investment portfolio as of December 31, 2020 and 2019, see Note 5 to our audited annual consolidated financial statements appearing elsewhere in this Annual Report on Form 20-F.

<b>Total gross loans</b>	<b>33,883.7</b>	<b>3,385.2</b>	<b>857.7</b>	<b>38,126.7</b>
Direct loan portfolio	30,382.2	2,858.4	814.7	34,055.2
Indirect loan portfolio	3,501.5	526.9	43.1	4,071.5
<b>Total gross loans</b>	<b>33,883.7</b>	<b>3,385.2</b>	<b>857.7</b>	<b>38,126.7</b>

Until December 31, 2017, IFS classified each client that is part of its credit portfolio in one of the following five risk categories, depending on the degree of risk of default in the payment of each debtor: (i) Normal—A, (ii) with potential problems—B, (ii) deficient—C, (iv) doubtful—D, and (v) loss—E.

The following tables provide the classification of our loans (calculated under the requirements of IAS 39) as of the end of the periods indicated:

	As of December 31,			
	2017		2016	
	S/ in millions	%	S/ in millions	%
A: Normal	30,964.5	92.6%	30,103.7	93.0%
B: With potential problems	909.9	2.7%	824.3	2.5%
C: Substandard	418.4	1.3%	366.2	1.1%
D: Doubtful	509.6	1.5%	514.7	1.6%
E: Loss	638.8	1.9%	549.0	1.7%
<b>Total</b>	<b>33,441.2</b>	<b>100.0%</b>	<b>32,357.9</b>	<b>100.0%</b>
Direct loan portfolio before impairment allowance for loans	29,174.7	87.2%	27,907.5	86.2%
Indirect loan portfolio before impairment allowance for loans	4,266.5	12.8%	4,450.5	13.8%
<b>Total</b>	<b>33,441.2</b>	<b>100.0%</b>	<b>32,357.9</b>	<b>100.0%</b>

### Impairment Allowance for Loans

The following tables show the allocation for our impairment allowance for loans as of December 31, 2020, 2019 and 2018 (under IFRS 9) and for 2017 and 2016 and under (IAS 39):

	As of December 31,									
	2020		2019		2018		2017		2016	
	S/ in millions	%	S/ in millions	%	S/ in millions	%	S/ in millions	%	S/ in millions	%
Commercial loans	294.7	9.7%	185.6	12.9%	255.8	17.9%	243.1	19.4%	221.1	18.6%
Consumer loans	2,413.4	79.3%	1,058.6	73.8%	987.0	69.2%	881.9	70.3%	851.9	71.5%
Mortgage loans	188.0	6.2%	121.7	8.5%	114.6	8.0%	66.5	5.3%	60.5	5.1%
Small and micro-business loans	146.5	4.8%	68.6	4.8%	69.5	4.9%	63.4	5.1%	57.2	4.8%
<b>Total<sup>(1)</sup></b>	<b>3,042.6</b>	<b>100.0%</b>	<b>1,434.5</b>	<b>100.0%</b>	<b>1,426.9</b>	<b>100.0%</b>	<b>1,255.0</b>	<b>100.0%</b>	<b>1,190.8</b>	<b>100.0%</b>

- (1) Includes impairment allowance for indirect loans amounting to S/57.7 million as of December 31, 2020, S/39.7 million as of December 31, 2019; S/62.1 million; S/52.8 million and S/23.9 million as of December 31, 2018, 2017 and 2016. See Note 6(d.2) to our audited annual consolidated financial statements.

The following table shows the changes in our impairment allowance for loans for the periods indicated.

	For the years ended December 31,				
	2020	2019	2018 <sup>(1)</sup>	2017	2016
	S/ in millions				
<b>Balance as of January 1</b>	<b>1,434.5</b>	<b>1,426.9</b>	<b>1,399.5</b>	<b>1,190.8</b>	<b>1,065.2</b>

## ETHICS AND CORPORATE COMPLIANCE

IFS is firmly committed to promoting a world-class ethics and compliance program ensuring a compliance culture within its subsidiaries, with the purpose of maintaining an ethically-oriented culture throughout its organizations. Thus, IFS has a Corporate Compliance Policy based on local and US regulations and international best practices.

The purpose of the compliance program is to promote corporate policies and procedures of effective internal controls to prevent, detect and report inappropriate behaviors, comply with laws and regulations, and mitigate reputational risk in order to maintain a sustainable business. In addition, this program complements corrective actions for inappropriate conduct and boost the ethics and compliance program through periodic training. Moreover, to ensure independence, the Chief Compliance Officer (CCO) reports directly to the board of directors and indirectly to the CEO, and the subsidiaries' Compliance Officers report directly to their respective board of directors and indirectly report to the CCO.

The Compliance Program has a risk-based approach, which focuses on mitigating the level of exposure to economic sanctions or other penalties that could negatively impact our reputation. This program includes the following policies:

### Anti-Money Laundering / Counter Financing of Terrorism (AML/CFT)

IFS' subsidiaries have implemented a risk-based AML/CFT Program.

The following are the principal laws and regulations regarding AML/CTF.

#### Peru:

- Law 26702, General Law of the Financial and Insurance System.
- Law 27693 (April 2002), Law Establishing the Financial Intelligence Unit (*Unidad de Inteligencia Financiera* or "UIF").
- Law 29038 (April 2007), Law incorporating the UIF into the SBS.
- Res. Conasev 033-2011 and related modifications, Rules for the Prevention of Money Laundering and Counter Financing of Terrorism.
- Res. SBS N° 3862-2016, Mechanisms and procedures of the UIF to freeze funds and assets of persons or entities linked to terrorism and terrorist financing, as well as those linked to the proliferation of weapons of mass destruction and their financing identified within the framework of UN Security Council resolutions.
- Res. SBS No. 2660-2015 and its modifications, Risk Management Regulation related to Anti-Money Laundering and Terrorist Financing.
- Res. SBS N° 4349-2016, Guidelines for politically exposed person clients regarding prevention of AML/CFT.

#### Bahamas:

- Central Bank of The Bahamas, Guidelines for Licensees on the Prevention of Money Laundering, Countering the Financing of Terrorism and Proliferation Financing (August 2018).

#### Panama:

- Superintendencia de Bancos de Panamá, Law 23: Prevent AML/CFT. Agreement 04-2015 and its modifications 10-2015, 1-2017, 13-2018, 001-2019, 002-2019, 014-2020.
- 001-2019 Red Flag to detect suspicious activity related to CFT.

Additionally, the risk-based AML/CFT Program takes into consideration the following:

#### USA:

- Bank Secrecy Act — 31 USC 5311 – 5330.
- Foreign Assets Control Regulations (OFAC) 31 CFR 500.

- USA PATRIOT Act.

The subsidiaries have implemented their policies and procedures in accordance with the IFS Corporate Compliance Policy and local regulation, approved by their respective boards of directors and reviewed on an annual basis at minimum, which includes but not limited to:

- AML/CFT policy and procedures.
- Customer Identification Program (CIP), Know Your Customer (KYC), and due diligence procedures.
- Know your employee and vendors policy.
- AML/CFT risk assessment methodology review on an annual basis at a minimum, which strengthens our internal policies, procedures, and controls.
- Monitoring automated systems based on client risk assessment. AML transaction monitoring system identifies unusual transactions and suspicious activities of our clients. This process may result in reporting to regulators and/or local authorities.

The due diligence risk-based program includes:

- KYC and CIP program for identification and verification that includes ultimate beneficial owner information.
- OFAC and Sanctions program.
- Continuous monitoring for red flags.
- Ongoing contact with clients and call memos.
- High risk customers are subject to annual review by our front office, top management and/or compliance team. This annual review includes but is not limited to transaction monitoring, adverse media, sanctions screening, supporting documents, and/or on-site contact.

Additionally, AML/CFT controls include:

- AML/CFT training for new employees.
- AML/CFT training on an annual basis for all employees.
- Front office tailored training.
- Mandatory AML/CFT training for compliance team members.
- Semi-annual reports, at a minimum, to board of directors.

### **Anti-Corruption Program**

IFS has zero tolerance for bribery and corruption and is committed to conducting its business in accordance with world class ethics and compliance standards and accordance with applicable laws, rules, and regulations. In line with this commitment, IFS internal policy mandates that it is prohibited to make political contributions on behalf of the company or its subsidiaries.

Our anti-corruption program contains policies and procedures that comply with the anti-corruption, local and FCPA laws and regulations including policies regarding government officials and other stakeholders. This program includes, but is not limited to, roles and responsibilities, guidelines, gift policy, conflict of interest, donations, hiring and appointing employees, officers and directors, violations reports and sanctions.

In line with this program, we comply with the following anti-corruption laws and regulations:

- Peruvian Law: Law 30424 and Supreme Decree 002-2019-JUS: regulates the sanctions imposed on entities relating to the corruption of foreign officials.
- Peruvian Law, DL 1352: regulates corruption of national officials, money laundering and counter terrorism financing.

- Peruvian Law, DL N° 30835: modify Law 30424 and establishes collusion and influence peddling.
- Peruvian Law, DL 1385: includes administrative and economic sanctions imposed on the private sector for failure to comply with anticorruption laws.
- US Law: Foreign Corrupt Practices Act (“FCPA”).

Additionally, this policy takes into consideration the following:

- UK Bribery Act.
- ISO 37001 Anti-bribery management systems.
- DOJ US Department of Justice Criminal Division (Evaluation of Corporate Programs).

The subsidiaries have implemented their respective anti-corruption programs based on the IFS Corporate Compliance Policy and local anticorruption regulations that encompass the AML/CFT policies and procedures, approved by their boards of directors and reviewed on an annual basis at a minimum, which include but are not limited to:

- Anti-corruption program policy and procedures.
- Procedure on anti-corruption due diligence for suppliers and third parties.
- Whistle-blower program and investigations procedure.
- Anti-corruption program risk assessment methodology review on an annual basis as minimum, which strengthens our internal policies, procedures, and controls.
- Monitoring controls for clients, employees, third parties aim to government officers, political parties, and politically-exposed persons.
- Hospitality, business entertainment and gift policy.
- Joint venture and acquisition policy.
- Awareness and training program.

## **Insider Trading**

Stock market rules and regulations applicable to publicly listed companies generally seek to ensure that all investors in a company have timely and equal access to information concerning the company when making a decision to buy, hold or sell its securities.

The policy includes the following regulations:

- SMV No. 005-2012, which regulates market abuse, inadequate use of privilege information and market manipulation.
- Decree Law 01-1999, including article 247 which regulates insider trading in Panama.

The purpose of the policy and procedures on insider trading is to define the restrictions and procedures applicable to the purchase and/or sale of securities of the group by persons having access to privileged information. The insider trading policy has been developed to guide IFS and its employees in avoiding any risk of violating securities laws or any applicable exchange regulations.

The subsidiaries have implemented their respective insider trading policies in accordance with the IFS Corporate Compliance Policy and local regulation, approved by their respective boards of directors and reviewed on an annual basis at a minimum, which includes but is not limited to:

- Insider trading policy and procedures including quiet period and black out period restrictions.
- Whistle-blower program and investigations procedure.

## **Consumer Data Privacy Program**

IFS is committed to the protection of personal data. Accordingly, we implemented a consumer data privacy policy to:

- ensure that the processing of personal data is carried out in accordance with the purpose for which it has been provided, with the expressed consent of the clients and in accordance with the local laws and regulations.
- protect the security and confidentiality of personal data provided to IFS subsidiaries, maintaining confidentiality and information security.

This policy includes the legal framework of Law No. 29733 Personal Data Protection Law and Supreme Decree No. 003-2013-JUS. The subsidiaries that are subject to this law have implemented their internal control in accordance with this law and the IFS Corporate Compliance Policy.

## **FATCA and Dodd Frank**

### ***FATCA***

IFS and its subsidiaries are FATCA compliant and their classification is Reporting Model 1. Intercorp is the lead of the Expanded Affiliated Group (EAG).

### ***Dodd Frank***

Being a counterpart of U.S. banks for operations with derivatives, IFS must adhere to the Dodd Frank Protocol. Such requirements include the settlement of certain operations through a clearing house and adherence to the International Swaps and Derivatives Association (ISDA) standards in order to comply, where applicable, with Dodd Frank regulations.

## **Whistleblower Hotline**

IFS and its subsidiaries have implemented a whistleblower hotline that helps stakeholders report improper conduct, fraudulent practices, violations of internal policies, and unlawful and unethical behavior. These behaviors can be reported through the web portal, e-mail, phone call and/or anonymously. Moreover, this hotline is managed by a third party in order to increase the transparency and reinforce the confidentiality of the complaint.

## **Training**

Compliance training is mandatory for all employees. In addition, the first line of defense in each subsidiary and members of the compliance team are required to take additional tailored training.

## **ITEM 4A. Unresolved Staff Comments**

None.

## **ITEM 5. OPERATING AND FINANCIAL REVIEW AND PROSPECTS**

### **A. Operating Results**

#### **Factors Affecting Our Results of Operations**

Substantially all of our subsidiaries' operations are conducted in Peru. Accordingly, our results of operations and financial condition are dependent on economic conditions, consumer spending and investment levels in Peru. During the 1980s, Peru experienced a severe economic crisis and high levels of inflation. Beginning in the 1990s, however, the Peruvian government implemented a series of structural reforms, which helped stabilize the Peruvian economy and foster continued GDP growth, lower inflation and interest rates, more stable currency and significantly improved public finances. Moreover, and as a result of the financial instability in 2008 and 2009, which was accompanied by the worst global economic downturn in many decades, the Peruvian economy, while affected, was one of the few economies in Latin America to experience growth in 2009. Peru's real GDP grew at a rate of 1.0% in 2009, supported by the Peruvian government's fiscal stimulus programs.

Nonetheless, the country has experienced a slowdown in recent years, mainly explained by lower domestic demand, as a result of a lower growth in private investment. This slowdown was intensified due to several factors, such as (i) a strong El Niño phenomenon, which adversely affected agricultural production, transportation services, tourism and commercial activity, and resulted

in a 1.5% drop in GDP growth in 2017; (ii) corruption scandals related to the activities of certain Brazilian and Peruvian companies in the construction sector, which resulted in suspension or delay of important infrastructure projects during 2018; (iii) political disputes between the government and the opposition, which resulted in the resignation of former President Pedro Pablo Kuczynski in March 2018 and the appointment of former Vice-President Martin Vizcarra as the new President of Peru; and (iv) political disputes between President Martin Vizcarra and Congress during 2019 and 2020, which ultimately led to the President's removal from office in November 2020, his replacement by the President of Congress, Manuel Merino de Lama, nationwide protests forcing President Merino to resign, and the replacement of President Merino with Francisco Sagasti, who was sworn in as President of the Republic for the remaining presidential term on November 17, 2020. Despite these factors and continued political corruption scandals, the Peruvian economy continued to outperform its peer countries in 2019, supported by solid macroeconomic fundamentals and strong fiscal and monetary policies.

In 2020, due to the global impact of the COVID-19 pandemic, the Peruvian economy contracted 11.1%.

The table below sets forth additional details regarding Peru's recent economic performance.

	2020	2019	2018	2017	2016
Peruvian real GDP growth rate	(11.1%)	2.2%	4.0%	2.1%	4.4%
Domestic demand growth	(9.8)	2.4%	4.2%	1.1%	1.4%
Private consumption growth	(8.7)	3.0%	3.8%	2.6%	3.7%
Fixed private investment (real growth)	(17.2)%	4.0%	4.5%	0.2%	(5.4)%
Reference interest rate	0.3%	2.3%	2.8%	3.3%	4.3%
Fiscal (deficit) (% of GDP)	(8.9)%	(1.6)%	(2.3)%	(3.0)%	(2.3)%
Variation in Consumer Price Index ("CPI")	2.0%	1.9%	2.2%	1.4%	3.2%
Unemployment rate (Metropolitan Lima)	13.0%	6.6%	6.7%	6.9%	6.8%
Disposable income growth	(7.5)%	2.5%	3.8%	2.8%	4.1%
Public external debt as a percentage of Peruvian GDP	15.0%	8.5%	8.9%	8.8%	10.3%
Net international reserves (U.S.\$ in millions)	74,707	68,316	60,121	63,621	61,686

Sources: Central Reserve Bank of Peru and INEI.

In this context, Peru continues to have its sovereign debt rated investment grade by S&P, Fitch and Moody's. The Peruvian government's conservative fiscal policy, coupled with the Central Reserve Bank of Peru's responsible management of inflation and international reserves has helped Peru to maintain its investment grade ratings by Moody's (A3), S&P (BBB+) and Fitch (BBB+). Peru's credit ratings are subject to periodic review, and may be revised or lowered in the future. On June 3, 2020, in light of the COVID-19 pandemic, Fitch reduced Peru's local currency rating from A- to BBB+.

Furthermore, in its most recent forecast as of March 2021, the Central Reserve Bank of Peru has estimated real GDP growth of 10.7% for 2021 and 4.5% for 2022, as compared to a 11.1% decrease registered in 2020 and a 2.2% increase registered in 2019. Based on Peru's strong macroeconomic base, during 2020, the government deployed various expansionary fiscal and monetary policies to control and mitigate the impact of COVID-19 on the Peruvian economy and population. As of the date of this Annual Report on Form 20-F, the COVID-19 global outbreak continues to negatively affect Peru's growth in 2021.

### Interest Rates

In general, increases in prevailing interest rates result in more interest revenue from loans. An increase of prevailing interest rates may, however, adversely affect Interbank as a result of reduced overall demand for loans and greater risk of default by its clients. In addition, relatively high interest rates affect Interbank's funding costs, and can adversely affect spreads on its loan portfolio if Interbank is unable to pass on the increased funding costs to its clients. On the other hand, a decrease in interest rates can reduce Interbank's revenue from its loan portfolio. This revenue decrease may be offset by an increase in the volume of loans resulting from higher demand and/or a decrease in Interbank's funding costs. As a result of the COVID-19 pandemic, on April 9, 2020, the Central Reserve Bank of Peru took several measures, such as reducing the reference interest rate by 200 basis points from 2.25% to 0.25%. This measure has affected both interest income and interest expense.

Increases in interest rates negatively affect the value of Interseguro's fixed income portfolio. However, higher rates allow Interseguro to reinvest new annuities at a higher yield. At the same time, increases in interest rates result in an increase in the discount rate Interseguro uses to calculate its reserve requirements, which has the effect of reducing Interseguro's required technical reserves. Conversely, if interest rates fall, Interseguro's portfolio will have a lower average interest rate, resulting in Interseguro having to record higher technical reserves.

Similar to Interbank, an increase in prevailing interest rates may adversely affect Inteligo as a result of reduced overall demand for loans, as well as lower interest margins if Inteligo is unable to pass on higher funding costs to its clients. On the other hand, a decrease in interest rates may reduce Inteligo's revenue from its loan portfolio. Furthermore, a portion of Inteligo's revenues corresponds to earnings from its investment portfolio and is therefore exposed to interest rates fluctuations that may affect revenue from fixed-income instruments.

Increases in interest rates result in additional interest income from Inteligo's variable-rate investments, but may also result in capital losses on its fixed-rate investments.

### ***Inflation***

Our performance may be impacted by inflation, because substantially all of our assets are not adjusted for the effects of inflation. During the 1980s, Peru experienced hyperinflation, negative economic growth and substantial currency devaluation. Inflation rates in Peru began to decrease in the 1990s and in the last 14 years Peru had one of the lowest average inflation rates in the region, partly due to the monetary policy implemented by the Central Reserve Bank of Peru and partly due to the conservative fiscal policy of the Peruvian government. In 2002, in order to maintain low inflation rates, the Central Reserve Bank of Peru established an annual inflation target of 2.5% within a range of one percentage point. In 2007, the target was lowered to 2%, within a range of one percentage point. The Central Reserve Bank of Peru has maintained its target inflation range ever since. The inflation rate in Peru, as measured by changes in the Metropolitan Lima consumer price index published by the INEI, was 3.2% in 2016, 1.4% in 2017, 2.2% in 2018, 1.9% in 2019 and 2.0% in 2020. In its most recent forecast as of March 2021, the Central Reserve Bank of Peru has estimated Peru's inflation to be 2.0% in 2021 and 1.6% in 2022.

### ***Depreciation and Appreciation of the Sol***

The *sol* floats freely against other currencies. Nevertheless, the Central Reserve Bank of Peru participates in the market (buying or selling *soles*) in order to avoid any large fluctuations in the exchange rate because of the effects that it could have on the Peruvian economy, which remains partly dollarized. Because a significant portion of our subsidiaries' assets and liabilities are denominated in U.S. dollars and our consolidated financial statements are prepared in *soles*, the results reflected in our consolidated financial statements are affected by fluctuations in the exchange rates between the *sol* and the U.S. dollar.

In 2015 the *sol* depreciated significantly against the U.S. dollar and remained relatively stable until the beginning of 2020. However, during 2020, the *sol* rapidly depreciated against the U.S. dollar as a result of the COVID-19 pandemic and is expected to remain at relatively high levels of depreciation during 2020. In this context, any future changes in the value of the *sol* against the U.S. dollar and other foreign currencies could adversely affect our financial condition and results of operations to the extent that our subsidiaries maintain a gap between foreign denominated assets and liabilities.

The Peruvian government adopted a policy to encourage the de-dollarization of the Peruvian economy. This policy included promoting the development of a *sol* capital market and local currency yield curves. The proportion of outstanding loans in the banking system denominated in U.S. dollars has fallen from 51.0% as of December 31, 2011 to 25.4% as of December 31, 2020, according to figures published by the SBS. The percentage of deposits in the banking system denominated in U.S. dollars was approximately 47.3% as of December 31, 2011 compared to 37.9% as of December 31, 2020. Interbank's proportion of loans in *soles* grew from 53.2% as of December 31, 2011 to 78.0% as of December 31, 2020, while deposits in *soles* increased from 56.8% as of December 31, 2011 to 68.8% as of December 31, 2020.

As of December 31, 2020, 61.8% of Interseguro's investment portfolio was invested in *soles* and 38.2% was invested in U.S. dollars. According to Interseguro's investment policy, it allocates the currency of its investment portfolio to mitigate potential currency volatility between its investment assets and its insurance liabilities as observed since the commencement of the COVID-19 outbreak.

Substantially all of Inteligo's financial assets and liabilities are denominated in U.S. dollars.

### ***Monetary Policy***

In April 2010, as a result of significant economic growth, the Central Reserve Bank of Peru began tightening its monetary policy, raising the reference rate and increasing reserve requirements. This tightening policy had the goal of mitigating speculative capital inflows and cooling the expansion of credit.

However, since the beginning of 2017, the Central Reserve Bank of Peru started loosening its monetary policy. In this context, from January 2017 up to December 2020, the minimum legal reserve requirements were reduced from 70.0% to 9.0% in foreign currency and from 6.5% to 4.0% in local currency; while the reference rate decreased from 4.25% to 0.25%. On March 19, 2020, the Central Reserve Bank of Peru reduced its reference rate by 100 basis points to 1.25%. Likewise, on March 26, 2020, the Central Bank reduced the minimum legal reserve requirements from 5.0% to 4.0% in local currency and from 50.0% to 9.0% for foreign currency obligations with foreign banks for tenors up to two years. These latest changes in reserve requirements came into effect in April 1, 2020. Furthermore, on April 9, 2020, the Central Reserve Bank of Peru took several measures as a result of the COVID-19 pandemic, including reducing the reference interest rate by another 100 basis points from 1.25% to 0.25%.

## ***Regulatory Changes***

In April 2016, a new law entered in force which allows retirees to withdraw 95.5% of their pension funds as a one-time transaction. As a second stage of this law, in October 2016, retirees were allowed to withdraw their pension fund in several transactions whenever desired. This regulatory change resulted in a 36% yearly contraction for the Peruvian insurance system in purchases of regular and private annuities from 2015 to 2016, according to the SBS. Interseguro was negatively affected by the law, with annuities collected of S/337.8 million in 2016, a 38% reduction compared to 2015.

However, as of December 2020, the annuities market seems to be stabilizing with the introduction of private annuities, a new type of annuity created to fill the loophole left by the law. This new product, pioneered by Interseguro in October 2016 and soon followed by other providers, helped the industry recover a portion of the lost market. In 2020, private annuities accounted for 54% of the premiums collected in 2020 for the insurance industry. For Interseguro, private annuities represented 40% of its S/365.6 million in collections in annuities as of December 31, 2020.

In December 2016, the Peruvian government passed a tax amnesty bill to promote the declaration and/or repatriation of funds held by Peruvians in offshore jurisdictions. This bill had a negative impact on Inteligo's assets under management in 2017, although it has not had a significant impact in subsequent years.

## ***COVID-19 Outbreak***

As previously mentioned, our business is dependent on our customers' willingness and ability to conduct banking and other financial transactions. In this sense, the spread of COVID-19 has impacted our operations in the following ways:

### Impacts on Balance Sheet Statement

- Higher loan portfolio growth due to Interbank's participation in the Reactiva Peru program, which was designed to ensure the continuity of payments to lenders and stabilize the economy by allowing Peruvian banks to originate low interest-rate, Central Bank-funded, commercial loans, guaranteed between 80% and 98% by the Peruvian government.
- Higher impairment allowances due to a decrease in asset quality and the implementation of the previously mentioned post-model adjustments in our expected loss models.
- Higher growth in deposits due to an increase in our clients' liquidity as the result of (i) partial cash withdrawals from CTS accounts and the private pension system, (ii) commercial deposits related to unused funds from the Reactiva Peru program, and (iii) the widespread adoption of a saving mindset in response to the crisis.
- Higher growth in investments as a result of an increase in the funding base and the low demand for non-Reactiva Peru loans.

### Impacts on Profit and Loss Statement

- Lower net interest and similar income due to reduced balances of high-yield assets, despite the lower cost of funds in a low rate environment and certain efficiencies from the execution of liability management transactions.
- Higher provision expenses and lower growth in recoveries due to a decrease in asset quality and the implementation of the previously mentioned post-model adjustments in our expected loss models.
- Lower fee income from financial services due to a slowdown in both the retail and commercial banking segments.
- Higher volatility in other income, mainly due to the impact of a decrease in net gain on financial assets at fair value through profit or loss on our investment portfolio and market conditions.
- Lower other expenses, mainly due to cost containment measures implemented to offset certain impacts of the COVID-19 pandemic.

## **Change in Accounting Estimates**

### ***Changes in the assumptions used in calculating interest rates to discount pension reserves and adoption of new mortality tables***

As of June 1, 2018, we modified the estimation used in calculating interest rates to discount pension reserves, using the risk-free rate due to the currency of Peruvian government's sovereign yield curves plus an illiquidity premium as a portion of the corporate bonds spread that is not related to loss given default or the cost of credit rating downgrade. These corporate bond spreads are calculated based on the performance of our insurance asset portfolio designated to cover our pension obligations. Likewise, we decided to use the updated Peruvian mortality and morbidity tables published by the SBS in March 2018 in the mathematical calculation of our pension reserves.

The purpose of changing the method to calculate the interest rate is to show the nature of the insurance business over the long term, therefore preventing changes in liability values in the short term caused by the fluctuation of the interest rate, which occurs due to market volatility, the speculative component and economic cycles.

The effects of the first application of interest rates and new mortality tables amounted to S/423.1 million and S/144.8 million, respectively, which, according to IAS 8, were prospectively recognized and were part of the financial statements in 2018. See Note 3.4(d) to our audited annual consolidated financial statements.

## **Adoption of New Standards and Disclosures**

During 2020, we have not early adopted any standard, interpretation or amendment that has been issued but is not yet effective.

We adopted for the first time in 2020 the following standards, interpretations or amendments: (i) Amendments to IFRS 3 "Business Combinations", (ii) Amendments to IAS 1 "Presentation of Financial Statements" and IAS 8 "Accounting Policies, Changes in Accounting Estimates and Errors", (iii) Conceptual Framework for Financial Reporting issued on March 29, 2018 and (iv) Amendments to IFRS 16 "Leases". Such standards, interpretations or amendments have not had a significant impact on our consolidated financial statements. See Note 3.2 to our audited annual consolidated financial statements.

Since January 1, 2019, we have been applying: (i) IFRS 16 "Leases", which accounting policies and impacts are described in Notes 3.4(j) and 25(c) to our audited annual consolidated financial statements; and (ii) Amendments to IFRS 9, IAS 39 and IFRS 7: "Interest rate benchmark reform", which accounting policies and impacts are described in Notes 3.4(ag) and 10(b)(vi) to our audited annual consolidated financial statements.

## **Critical accounting estimates and judgments**

In preparing our audited annual consolidated financial statements in accordance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB), we apply judgment and make estimates and assumptions that may involve significant uncertainty at the time they are made. We regularly reassess those estimates and assumptions, which encompass historical experience, expectations of the future and other pertinent factors, to determine their continuing relevance based on current conditions, and we update them as necessary. Changes in estimates and assumptions may have a significant effect on our consolidated financial statements. Furthermore, our actual results may differ significantly from our estimates, which could result in significant losses to us or our subsidiaries, beyond what we anticipated or provided for.

Key areas involving a high degree of judgment and areas where estimates and assumptions are significant to the consolidated financial statements include:

- the calculation of the impairment of the portfolio of loans and financial investments;
- the measurement of the fair value of the financial investments and investment properties;
- the assessment of the impairment of the goodwill;
- determination of the lease contracts with renewal and termination options;
- estimating the increase in borrowing rates for lease agreements;
- the liabilities for insurance contracts;
- the measurement of the fair value of derivative financial instruments;
- the estimated useful life of intangible assets, property, furniture and equipment, and
- the estimation of assets and liabilities for deferred income tax.

We believe that the judgments, estimates and assumptions we have made are appropriate under the circumstances and that our audited annual consolidated financial statements fairly present, in all material respects, the financial positions of IFS as of December 31, 2020 and 2019 and the results of our operations and cash flows for the years ended December 31, 2020, 2019 and 2018 in accordance with IFRS.

For more information about our critical accounting estimates and judgments, see:

- “Note 3 Significant accounting policies” to our audited annual consolidated financial statements for more information;
- “Note 3.6 Significant accounting judgments, estimates and assumptions” to our audited annual consolidated financial statements for more information on estimations and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses and the disclosure of significant events in the notes to the audited annual consolidated financial statements;
- “Note 30.1 Credit Risk” and “Note 30.2 Market Risk management” for a discussion of risk and sensitivity of certain items;
- “Item 3. Key Information—Risk Factors” of this Annual Report on Form 20-F for more information.

### **Principal Line Items in Consolidated Income Statements**

Below is a description of certain significant line items:

- interest and similar income includes interest from our loan portfolio plus interest and dividends from our investment portfolio and is composed of the following line items: (i) interest on loans, (ii) interest on financial investments, (iii) interest on due from banks and inter-bank funds, (iv) dividends on financial investments, and (v) other interest and similar income. See Note 19(a) to our audited annual consolidated financial statements;
- interests and similar expenses includes all financial expenses incurred to fund our operations and is composed of the following line items: (i) interest on deposits and obligations, (ii) interest on bonds, notes and other obligations, (iii) interest and fees on obligations with financial institutions, (iv) deposit insurance fund fees, (v) interest on lease payments, and (vi) other interest and similar expenses. See Note 19(a) to our audited annual consolidated financial statements;
- impairment loss on loans, net of recoveries includes provisions recognized as expense, net of recoveries. See Note 6(d) to our audited annual consolidated financial statements;
- (loss) recovery due to impairment of financial investments includes impairment loss recognized as expense, net of recoveries. See Note 5(c) to our audited annual consolidated financial statements;
- fee income from financial services, net includes primarily commissions and other fees we charge to our customers, net from related expenses, and is composed of the following line items: (i) maintenance and mailing of accounts, interchange fees, transfers and credit and debit card services, (ii) funds management, (iii) commissions from banking services, (iv) contingent loan fees, (v) collection services, and (vi) brokerage and custody services. See Note 20(a) to our audited annual consolidated financial statements;
- other income includes: (i) gain from sale of written-off loans, (ii) other technical income from insurance operations, (iii) income from investments in associates, (iv) services rendered to third parties; (v) income from ATM rentals, and (vi) other income. See Note 21(a) to our audited annual consolidated financial statements;
- total net premiums earned minus claims and benefits includes: (i) net premiums earned, adjustment of technical reserves, and (iii) net claims and benefits incurred for life insurance contracts and others. See Notes 22 and 23 to our audited annual consolidated financial statements; and
- other expenses include: (i) salaries and employee benefits, (ii) administrative expenses, (iii) depreciation and amortization, (iv) sundry technical insurance expenses and commission from insurance activities and (v) expenses related to rental income. See Notes 8(a), 9(a), 21, 24, and 25 to our audited annual consolidated financial statements.

## Financial Condition as of December 31, 2020 Compared to December 31, 2019

The following table sets forth the principal components of our consolidated statement of financial position as of December 31, 2020 and December 31, 2019.

	As of December 31, 2020	As of December 31, 2019 <sup>(1)</sup>	Change	
	(S/ in millions)		(S/ in millions)	%
<b>Assets</b>				
Cash, due from banks and inter-banks funds	18,783.6	11,213.9	7,569.7	67.5%
Financial investments	24,277.1	19,072.7	5,204.4	27.3%
Loans, net of unearned interest	43,504.3	38,531.6	4,972.6	12.9%
Impairment allowance for loans	(2,984.9)	(1,394.8)	(1,590.1)	114.0%
Investment property	1,044.0	972.1	71.9	7.4%
Property, furniture and equipment, net	844.4	950.9	(106.5)	(11.2)%
Intangibles and goodwill, net	1,042.6	979.3	63.3	6.5%
Other assets	1,724.9	1,236.5	488.4	39.5%
<b>Total assets</b>	<b>88,236.0</b>	<b>71,562.3</b>	<b>16,673.7</b>	<b>23.3%</b>
<b>Liabilities and equity</b>				
Deposits and obligations	47,149.3	38,093.2	9,056.1	23.8%
Due to banks and correspondents and inter-bank funds	9,689.8	4,148.8	5,541.1	133.6%
Bonds, notes and other obligations	7,778.8	6,890.3	888.5	12.9%
Insurance contract liabilities	12,501.7	11,426.6	1,075.1	9.4%
Other liabilities	2,162.5	2,099.9	62.6	3.0%
<b>Total liabilities</b>	<b>79,282.1</b>	<b>62,658.8</b>	<b>16,623.2</b>	<b>26.5%</b>
<b>Equity, net</b>				
Equity attributable to IFS's shareholders	8,908.1	8,856.9	51.2	0.6%
Non-controlling interest	45.8	46.6	(0.7)	(1.6)%
<b>Total equity, net</b>	<b>8,953.9</b>	<b>8,903.4</b>	<b>50.5</b>	<b>0.6%</b>
<b>Total liabilities and equity net</b>	<b>88,236.0</b>	<b>71,562.3</b>	<b>16,673.7</b>	<b>23.3%</b>

(1) In the consolidated financial statements as of December 31, 2020, balances related to the product “Renta Particular Plus – Vitalicio” (formerly recorded as a financial product) were reclassified to insurance accounts and the product was recognized as an insurance product. The accounting balances as of December 31, 2019 have been reclassified for comparative purposes, as described in Note 3.4(ah) to our audited annual consolidated financial statements.

Our assets were S/88.2 billion as of December 31, 2020, a 23.3% increase from S/71.6 billion as of December 31, 2019. This was mainly driven by growth of 67.5% in cash, due from banks and inter-bank funds, 27.3% in financial investments, 12.9% in loans, net of unearned interest, and 39.5% in other assets.

The increase in cash, due from banks and inter-bank funds was mainly due to higher deposits at the Central Bank from Interbank.

The increase in loans, net of unearned interest was mainly the result of higher commercial loans balances due to growth in short and medium-term loans at Interbank, primarily as a result of the disbursement of loans under the Reactiva Peru Program. This increase was partially offset by lower retail loans balances at Interbank, which was primarily due to decreases in credit cards and other consumer loans.

The increase in financial investments was mainly explained by higher balances of Peruvian sovereign bonds at Interbank.

Our liabilities reached S/79.3 billion as of December 31, 2020, a 26.5% increase from S/62.7 billion as of December 31, 2019. This was mainly driven by a more than two-fold increase in due to banks and correspondents and inter-bank funds, and a 23.8% increase in deposits and obligations. Growth in due to banks and correspondents and inter-bank funds was mostly explained by higher long-term funding from the Central Bank, associated with the bank's participation in the auctions of funds for the Reactiva Peru Program, and an increase in funding from COFIDE, at Interbank, while the increase in deposits and obligations was due to higher retail, commercial and institutional deposits at Interbank.

Our net equity was S/9.0 billion as of December 31, 2020, a 0.6% increase from S/8.9 billion as of December 31, 2019, mainly driven by higher reserves and net unrealized results, partially offset by lower retained earnings from net profit for 2020.

For more information of our liquidity, capital resources and commitments and obligations, see “Item 5. Operating and Financial Review and Prospects—Liquidity and Capital Resources.”

## Results of Operations for the Year Ended December 31, 2020 Compared to the Year Ended December 31, 2019

The following table sets forth the principal components of our consolidated profit for the years ended December 31, 2020 and 2019.

	For the year ended December 31,		Change	
	2020	2019 <sup>(1)</sup>	(S/ in millions)	%
	(S/ in millions)			
Interest and similar income	4,665.0	4,847.2	(182.2)	(3.8)%
Interest and similar expenses	(1,192.3)	(1,424.0)	231.7	(16.3)%
<b>Net interest and similar income</b>	<b>3,472.7</b>	<b>3,423.3</b>	<b>49.4</b>	<b>1.4%</b>
Impairment loss on loans, net of recoveries	(2,393.9)	(750.8)	(1,643.1)	218.8%

- (1) In our consolidated financial statements as of December 31, 2020, balances related to the product “Renta Particular Plus – Vitalicio” (formerly recorded as a financial product) were reclassified to insurance accounts and the product was recognized as an insurance product. The accounting balances as of December 31, 2019 have been reclassified for comparative purposes, as described in Note 3.4(ah) to our audited annual consolidated financial statements.

Our net profit was S/383.5 million for the year ended December 31, 2020, a 73.6% decrease as compared to 2019. The lower profits were mainly driven by an increase of S/1,643.1 million in impairment loss on loans and a decrease of S/202.4 million in net fee income from financial services. These results were partially offset by a S/184.7 million increase in other income and a S/49.4 million increase in net interest and similar income, in addition to a S/67.7 decrease in other expenses and a positive effect on deferred income tax.

The increase in net interest and similar income was mainly due to higher interest on investments at Interseguro and an increase in dividends received from investments at Inteligo. At Interbank, net interest and similar income remained relatively stable when compared to 2019.

Impairment loss on loans, net of recoveries increased from S/750.8 million as of December 31, 2019 to S/2,393.9 million as of December 31, 2020 mainly as a result of the post-model adjustments on the bank’s expected credit loss to address the impact of the COVID-19 pandemic, mainly for loans that have been rescheduled. The decrease in net fee income from financial services was mainly due to lower income from commissions from credit card services, maintenance and mailing of accounts, transfer fees and commissions on debit card services at Interbank. The increase in other income was mainly due to positive performance across all three subsidiaries, particularly from net gain on sale of securities at Interseguro and positive mark-to-market valuations on investments at Inteligo.

Other income grew as a result of recovery across all three subsidiaries, particularly from net gain on sale of securities at Interseguro and positive mark-to-market valuations on investments at Inteligo.

The decrease in other expenses is mainly due to decreases in salaries and employee benefits, as well as in marketing and credit card expenses, both at Interbank, in addition to lower administrative expenses at Interseguro. These decreases were driven by cost containment measures implemented to offset the impacts of the COVID-19 pandemic.

Our ROE was 4.5% in 2020, lower than the 18.3% reported in 2019, mainly due to an increase in impairment loss on loans, net of recoveries and a decrease in net fee income from financial services.

## Results of Operations by Segment

The following table presents an overview of certain consolidated income statement data for each of our segments for the years ended December 31, 2020 and 2019.

	Banking		Insurance		Wealth Management		Holding and eliminations		Consolidated

(1) In our consolidated financial statements as of December 31, 2020, balances related to the product “Renta Particular Plus – Vitalicio” (formerly recorded as a financial product) were reclassified to insurance accounts and the product was recognized as an insurance product. The accounting balances as of December 31, 2019 have been reclassified for comparative purposes, as described in Note 3.4(ah) to our audited annual consolidated financial statements.

The discussion below covers each of our reported segments, and corresponds to information before adjustments and eliminations for consolidation, as of and for the years ended December 31, 2020 and 2019, in accordance with IFRS.

### Banking

Interbank's net results were almost break-even for the year ended December 31, 2020, with a net loss of S/5.7 million compared to profits of S/1,228.5 million for the year ended December 31, 2019. The main factors that contributed to this result were the more than three-fold increase in impairment loss on loans and the 25.1% decrease in net fee income from financial services. These results were partially offset by a positive effect on deferred income tax and a decrease of 4.8% in other expenses due to cost containment measures implemented to offset certain impacts of the COVID-19 pandemic.

In addition, Interbank's results in 2020 were affected by (i) an S/130.4 million decrease in interest income as a result of the initial impact of the contractual cash flows modification due to the loan rescheduling schemes offered to customers affected by the COVID-19 pandemic, which does not consider any positive impact of the recovery between the date of initial recording and December 31, 2020; and (ii) the base effect of non-recurring transactions in 2019 such as the gain on sale of Interfondos, Interbank's former mutual funds subsidiary, to Inteligo for S/32.4 million after taxes; as well as the S/29.0 million after tax non-recurring impact of the liability management transaction in 2019.

Interbank's adjusted ROE, as presented in "Item 4. Information on the Company—Business Overview—Non-GAAP Financial Measures", was 2.0% for the year ended December 31, 2020, lower than the 21.3% recorded in the year ended December 31, 2019.

### Interest and Similar Income

The following table presents the components of interest and similar income for our banking segment for the years ended December 31, 2020 and 2019.

	For the year ended December 31,		Change	
	2020	2019	(S/ in millions)	%
	(S/ in millions)			
<b>Interest and similar income</b>				
Interest on loan portfolio	3,570.0	3,758.4	(188.3)	(5.0)%
Interest on financial investments	239.0	208.1	30.8	14.8%
Interest on due from banks and inter-bank funds	27.4	107.5	(80.1)	(74.5)%
<b>Total</b>	<b>3,836.4</b>	<b>4,074.0</b>	<b>(237.6)</b>	<b>(5.8)%</b>
<b>Nominal average rate</b>	6.3%	8.2%	—	—

Interest and similar income decreased 5.8% due to a 74.5% decrease in interest on due from banks and inter-bank funds, and a 5.0% decrease in interest on loans, partially offset by a 14.8% increase in interest on financial investments.

Interest on due from banks and inter-bank funds decreased by S/80.1 million, or 74.5%, primarily as a result of a 90 basis points decrease in the nominal average rate and a 43.4% increase in the average volume. The decrease in the nominal average rate was mainly due to lower returns on deposits and reserve funds at the Central Bank. The increase in the average volume was mainly due to higher deposits and reserve funds at the Central Bank, partially offset by a decrease in the average balance of inter-bank funds.

The decrease in interest on loan portfolio was mainly due to a 190 basis point decrease in the average rate, partially offset by a 14.9% increase in average volume. The higher average volume of loans was primarily the result of a 26.4% increase in commercial loans and 5.3% increase in retail loans. In the commercial portfolio, the higher average volume was mainly due to a 41.7% increase in short and medium-term loans, mainly due to the disbursement of loans under the Reactiva Peru Program, despite lower balances of leasing operations and trade finance loans. In the retail portfolio, average volumes grew due to a 9.0% increase in mortgages and a 4.3% increase in payroll deduction loans, partially offset by a 0.3% decrease in the average balance of credit cards.

The increase in interest on financial investments was primarily the result of an increase in the average volume, partially offset by a 50 basis point decrease in the average yield. The increase in the average volume was mainly the result of higher average balances of Peruvian sovereign bonds. The decrease in the nominal average interest rate, from 3.8% for the year ended December 31, 2019 to 3.3% for the year ended December 31, 2020, was mainly due to lower returns across most investments.

As a result of the above, the nominal average yield on interest-earning assets decreased 190 basis points, from 8.2% for the year ended December 31, 2019 to 6.3% for the year ended December 31, 2020.

### Interest and Similar Expenses

The following table presents the components of interest and similar expenses for our banking segment for the years ended December 31, 2020 and 2019.

	For the year ended December 31,		Change	
	2020	2019	(S/ in millions)	%
	(S/ in millions)			
<b>Interest and Similar Expenses</b>				
Interest and fees on deposits and obligations	(536.0)	(709.2)	173.2	(24.4)%
Interests on bonds, notes and other obligations	(344.7)	(416.4)	71.7	(17.2)%
Interest and fees on obligations with financial institutions and others	(172.6)	(164.5)	(8.1)	4.9%
<b>Total</b>	<b>(1,053.4)</b>	<b>(1,290.1)</b>	<b>236.7</b>	<b>(18.3)%</b>
<b>Nominal average rate</b>	2.0%	3.0%	—	—

Interest and similar expense decreased 18.3% mainly due a 24.4% decrease in interest on deposits and obligations, and 17.2% decrease in interest on bonds, notes and other obligations, partially offset by a 4.9% increase in interest on due to banks and correspondents.

Interest and fees on deposits and obligations decreased mainly due to an 80 basis point decrease in the average cost, from 2.1% for the year ended December 31, 2019 to 1.3% for the year ended December 31, 2020, partially offset by a 19.8% increase in the average volume. The lower average cost was due to a decrease on rates paid to institutional, commercial and retail deposits. The increase in volumes was observed across all client segments. By currency, average balances of soles-denominated deposits increased 27.8% while average dollar-denominated deposits increased 5.8%.

Interest on bonds, notes and other obligations decreased mainly due to: (i) a lower interest rate environment which was associated with liability management transactions executed throughout 2020, such as the redemption of international fixed-to-floating rate bonds in April 2020 followed by the issuance of a new international subordinated bond in July 2020 at a lower interest rate; (ii) lower interest expenses associated with the maturity of Certificates of Deposit for S/150.0 million in March 2020; and (iii) the base effect from the execution of an optional redemption of the prevailing “5.75% Senior Notes due 2020” corporate bonds during the fourth quarter of 2019, which implied a non-recurring financial expense of S/42.3 million in such quarter, as these bonds were being negotiated above its face value (above par).

Interest and fees on obligations with financial institutions and others increased mainly due to an 83.5% increase in the average volume, partially offset by a 180 basis point decrease in the average cost, from 4.2% for the year ended December 31, 2019 to 2.4% for the year ended December 31, 2020. The increase in the average volume was due to higher funding provided by the Central Reserve Bank of Peru, related to the bank’s participation in the Reactiva Peru Program. The decrease in the average cost was explained by lower rates paid on types of funding, especially inter-bank funds and those provided by the Central Reserve Bank of Peru.

The average cost of funds decreased 100 basis points, from 3.0% for the year ended December 31, 2019 to 2.0% for the year ended December 31, 2020, in line with the lower cost of interest-bearing liabilities.

### Impairment Loss on Loans, Net of Recoveries

The following table presents the components of impairment loss on loans, net of recoveries for our banking segment for the years ended December 31, 2020 and 2019.

	For the year ended December 31,		Change	
	2020	2019	(S/ in millions)	%
	(S/ in millions)			
<b>Impairment loss on loans, net of recoveries</b>	(2,393.9)	(750.8)	(1,643.1)	218.9%
Past-due loan ratio (at period end)	3.4%	2.6%	—	—
Provision expense as a percentage of average total loans	6.1%	2.2%	—	—
Coverage ratio	181.5%	117.7%	—	—
Impairment allowance for loans	2,984.7	1,394.7	—	—

Impairment loss on loans, net of recoveries increased from S/750.8 million as of December 31, 2019 to S/2,393.9 million as of December 31, 2020 mainly as a result of the post-model adjustments on the bank’s expected credit losses to address the impact of the COVID-19 pandemic, mainly for loans that have been rescheduled.

Interbank’s coverage ratio for the year ended December 31, 2020 increased to 181.5% from 117.7% as of the year ended December 31, 2019, as a result of higher impairment allowances for credit card loans mainly because the risks and uncertainties arising from COVID-19 have not been adequately reflected in the statistical models, mainly for loans that have been rescheduled. Interbank applied several post-model adjustments for these loans with the aim of determining the expected credit losses.

### Fee Income from Financial Services, Net

The following table presents the components of fee income from financial services, net for our banking segment for the years ended December 31, 2020 and 2019.

	For the year ended December 31,		Change	
	2020	2019		
	(S/ in millions)		(S/ in millions)	%
<b>Income</b>				
Maintenance and mailing of accounts, transfer fees and commissions on credit and debit card	473.8	648.4	(174.6)	(26.9)%
Commissions for banking services	293.4	329.4	(36.0)	(10.9)%
Fees from indirect loans	52.5	56.2	(3.7)	(6.6)%
Collection services fees	41.3	41.3	(0.0)	(0.1)%
Others	38.3	39.3	(1.1)	(2.7)%
<b>Total</b>	<b>899.3</b>	<b>1,114.6</b>	<b>(215.3)</b>	<b>(19.3)%</b>
<b>Expenses</b>				
Credit cards	(105.8)	(119.6)	13.8	(11.6)%
Debtor's life insurance premiums	(101.8)	(99.7)	(2.1)	2.1%
Fees paid to foreign banks	(15.1)	(17.2)	2.1	(12.0)%
Others	(56.8)	(51.1)	(5.6)	11.0%
<b>Total</b>	<b>(279.4)</b>	<b>(287.5)</b>	<b>8.1</b>	<b>(2.8)%</b>
<b>Net</b>	<b>619.8</b>	<b>827.1</b>	<b>(207.2)</b>	<b>(25.1)%</b>

The S/207.2 million, or 25.1%, decrease in net fee income from financial services was mainly attributable to lower income from commissions from credit card services, maintenance and mailing of accounts, transfer fees and commissions on debit card services, primarily related to reduced activity related to the effects of the COVID-19 pandemic.

#### Other Income

The following table presents the components of other income for our banking segment for the years ended December 31, 2020 and 2019.

	For the year ended December 31,		Change	
	2020	2019		
	(S/ in millions)		(S/ in millions)	%
Net gain on foreign exchange transactions	318.4	201.4	117.1	58.1%
Net gain on sale of financial investments	103.8	39.3	64.4	163.9%
Net gains on financial assets at fair value through profit or loss	(38.1)	64.8	(102.9)	(158.8)%
Other	60.0	128.9	(68.8)	(53.4)%
<b>Other income</b>	<b>444.1</b>	<b>434.3</b>	<b>9.8</b>	<b>2.3%</b>

Other income increased 2.3% for the year ended December 31, 2020 compared to the year ended December 21, 2019, mainly due to increases in net gain on sale of financial investments and in net gain of foreign exchange transactions and on financial assets at fair value through profit or loss.

#### Other Expenses

The following table presents the components of other expenses for our banking segment for the years ended December 31, 2020 and 2019.

	For the year ended December 31,		Change	
	2020	2019		
	(S/ in millions)		(S/ in millions)	%
Salaries and employee benefits	(594.4)	(659.6)	65.2	(9.9)%
Administrative expenses	(656.6)	(687.9)	31.4	(4.6)%
Depreciation and amortization	(234.5)	(227.1)	(7.4)	3.3%
Other	(48.1)	(36.9)	(11.2)	30.4%
<b>Total other expenses</b>	<b>(1,533.5)</b>	<b>(1,611.5)</b>	<b>78.0</b>	<b>(4.8)%</b>

Other expenses decreased 4.8% for the year ended December 31, 2020 compared to the year ended December 31, 2019, mainly as a result of lower salaries and employee benefits, as well as marketing and credit card expenses, all driven by cost containment measures implemented to offset the impacts of the COVID-19 pandemic, partially offset by higher depreciation and amortization expenses.

Our efficiency ratio was 38.6% for the year ended December 31, 2020 as compared to 38.9% recorded for the year ended December 31, 2019.

### Income Before Translation Result and Income Tax

For the year ended December 31, 2020, results before translation result and income tax were a loss of S/80.2 million for the reasons described above, which result was almost completely offset by the positive effect on deferred income tax. As a result of the above, our banking segment's results were a net loss of S/5.7 million for the year ended December 31, 2020 as compared to net profit of S/1,228.5 million for the year ended December 31, 2019.

### Insurance

Interseguro's profit attributable to shareholders for the year ended December 31, 2020 was S/141.1 million, compared to a S/130.4 million profit for the year ended December 31, 2019.

The main factors that contributed to this result were a S/32.7 million increase in other income, mainly due to net gain on sale of securities, and a S/30.9 million increase in net interest and similar income, as well as to a S/12.7 million decrease in other expenses, mainly related to cost containment measures implemented during the year to mitigate the impact of the COVID-19 pandemic. These results were partially offset by a S/36.4 million foreign exchange translation loss as a result of a depreciation in the foreign exchange rate and a S/27.6 million increase in loss due to impairment of financial investments.

### Net Interest and Similar Income

The following table presents the components of net interest and similar income for our insurance segment for the years ended December 31, 2020 and 2019.

	For the year ended December 31,		Change	
	2020	2019	(S/ in millions)	%
	(S/ in millions)			
Interest and similar income	655.0	612.5	42.4	6.9%
Interest and similar expense	(84.0)	(72.5)	(11.5)	15.9%
<b>Net interest and similar income</b>	<b>571.0</b>	<b>540.1</b>	<b>30.9</b>	<b>5.7%</b>

Net interest and similar income increased 5.7% mainly due to a S/42.4 million increase in interest and similar income, mainly due to a higher return on and organic growth of the fixed income portfolio and to incremental dividends, which increase was partially offset by a S/11.5 million increase in interest and similar expenses, mainly related to higher interest paid.

### Other Income, Net

The following table presents the components of other income for our insurance segment for the years ended December 31, 2020 and 2019.

	For the year ended December 31,		Change	
	2020	2019		
	(S/ in millions)	(S/ in millions)	(S/ in millions)	%
Net gain (loss) on sale of financial investments	105.0	39.2	65.8	N/M
Net gain (loss) on financial assets at fair value through profit or loss	39.2	18.6	20.6	N/M
Rental income	39.5	48.8	(9.3)	(19.1)%
Gain (loss) on sale of investment property	—	(7.2)	7.2	N/M
Net gain on investment property valuation	5.4	54.5	(49.1)	(90.0)%
Other	12.5	15.0	(2.6)	(17.1)%
<b>Other income, net</b>	<b>201.7</b>	<b>169.0</b>	<b>32.7</b>	<b>19.3%</b>

Other income increased S/32.7 million, mainly due to a S/65.8 million increase in net gain on sale of financial investments, a S/20.7 million increase in net gain on financial assets at fair value and the base effect of a non-recurring S/7.2 million loss on sale of investment property in 2019. These results were partially offset by a S/49.1 million decrease in net gain on valuation of real estate investments and S/9.3 million in rental income.

#### Recovery (Loss) due to Impairment of Financial Investments

Loss due to impairment of financial investments was S/33.8 million for the year ended December 31, 2020 as compared to a loss of S/6.2 million for the year ended December 31, 2019, a deterioration of S/27.6 million attributable to an additional provision for impairment on a fixed income investment that was downgraded in relation to the COVID-19 pandemic.

#### Total Net Premiums Earned Minus Claims and Benefits

The following table presents the components of total premiums earned minus claims and benefits for our insurance segment for the years ended December 31, 2020 and 2019.

	For the year ended December 31,		Change	
	2020	2019		
	(S/ in millions)	(S/ in millions)	(S/ in millions)	%
Premiums assumed	625.9	702.5	(76.6)	(10.9)%
Premiums ceded to reinsurers	(10.2)	(13.2)	3.0	(22.9)%
Adjustment of technical reserves	(100.8)	(268.7)	167.9	(62.5)%
Net claims and benefits incurred for life insurance contracts and others	(794.1)	(700.3)	(93.8)	13.4%
<b>Total net premiums earned minus claims and benefits</b>	<b>(279.1)</b>	<b>(279.6)</b>	<b>0.6</b>	<b>(0.2)%</b>

Total net premiums earned minus claims and benefits were S/279.1 million in 2020, slightly better than the S/279.6 million reported in 2019. These results were primarily due to a S/167.9 million decrease in adjustment of technical reserves, partially offset by a S/93.8 million increase in net claims and benefits incurred and a S/73.6 million decrease in net premiums.

## Net Premiums

Net premiums represent the difference between premiums assumed and premiums ceded to reinsurers. The following table presents net premiums by business line for our insurance segment for the years ended December 31, 2020 and 2019.

	For the year ended		Change	
	December 31,			
	2020	2019	(S/ in millions)	%
	(S/ in millions)			
Annuities <sup>(1)</sup>	256.9	324.7	(67.8)	(20.9)%
Individual Life	134.5	131.4	3.1	2.4%
Retail Insurance	224.4	233.3	(8.9)	(3.8)%
Credit Life Insurance	132.9	130.7	2.2	1.7%
Mandatory Traffic Accident (SOAT)	45.2	40.7	4.5	11.1%
Card Protection	32.7	46.0	(13.3)	(28.9)%
Others	13.6	15.9	(2.3)	(14.8)%
Net Premiums <sup>(2)</sup>	615.8	689.4	(73.6)	(10.7)%

(1) Annuities include premiums from pension-related insurance (disability and survivorship).

(2) Temporary Private Annuities are not included as premiums assumed. Net premiums are premiums assumed net of premiums ceded.

Net premiums decreased 10.7% mainly due to a S/67.8 million decrease in annuities and a S/8.9 million decrease in retail insurance, mostly associated with lower sales of card protection products, partially offset by a S/3.1 million increase in individual life premiums, due to an improvement in the collection of life insurance premiums.

## Adjustment of Technical Reserves

The following table presents adjustment of technical reserves by business line for our insurance segment for the years ended December 31, 2020 and 2019.

	For the year ended December 31,		Change	
	2020	2019	(S/ in millions)	%
	(S/ in millions)			
Annuities	(43.3)	(180.7)	137.4	(76.0)%
Individual Life	(62.0)	(82.3)	20.3	(24.7)%
Retail Insurance	4.5	(5.7)	10.2	(178.9)%
Adjustment of technical reserves	(100.8)	(268.7)	(167.9)	(62.5)%

Adjustment of technical reserves decreased 62.5% mainly due to decreases of S/137.4 million in annuities, S/20.3 million in individual life and S/10.2 million in retail insurance. The decrease in technical reserves for annuities was attributable to a release of technical reserves for annuities, mostly related to (i) a higher mortality rate resulting from the COVID-19 pandemic, and (ii) the effect of lower sales.

## Net Claims and Benefits Incurred for Life Insurance Contracts and Others

The following table presents net claims and benefits incurred for life insurance contracts and others by business line for our insurance segment for the year ended December 31, 2020 and 2019.

	For the year ended December 31,			
	2020	2019	Change	
	(S/ in millions)		(S/ in millions)	%
Annuities <sup>(1)</sup>	(668.0)	(630.5)	(37.5)	5.9%
Individual Life	(15.1)	(4.9)	(10.2)	210.4%
Retail Insurance	(111.0)	(64.9)	(46.1)	71.1%
Credit Life Insurance	(78.2)	(41.5)	(36.7)	88.6%
Mandatory Traffic Accident (SOAT)	(13.0)	(17.2)	4.2	(24.5)%

	For the year ended December 31,		Change	
	2020	2019		
	(S/ in millions)		(S/ in millions)	%
Card Protection	(0.9)	(2.1)	1.2	(57.8)%
Others	(18.9)	(4.1)	(14.8)	N/M
<b>Net claims and benefits incurred<sup>(2)</sup></b>	<b>(794.1)</b>	<b>(700.3)</b>	<b>(93.8)</b>	<b>13.4%</b>

(1) Annuities include claims from pension-related insurance (disability and survivorship).

(2) Temporary Private Annuities are not included as benefits incurred.

Net claims and benefits incurred for life insurance contracts and others increased 13.4% mainly due to a S/46.1 million increase in retail insurance claims, mostly explained by higher claims in credit life insurance related to the COVID-19 mortality in Peru, a S/37.5 million increase in annuity benefits and a S/10.2 million increase in individual life claims.

## Other Expenses

The following table presents the components of other expenses for our insurance segment for the year ended December 31, 2020 and 2019.

	For the year ended December 31,		Change	
	2020	2019		
	(S/ in millions)		(S/ in millions)	%
Salaries and employee benefits	(75.5)	(73.7)	(1.8)	2.5%
Administrative expenses	(39.5)	(54.0)	14.5	(26.9)%
Depreciation and amortization	(25.6)	(22.4)	(3.2)	14.3%
Expenses related to rental income	(2.0)	(3.5)	1.5	(42.3)%
Other	(143.4)	(145.2)	1.8	(1.2)%
<b>Total other expenses</b>	<b>(286.0)</b>	<b>(298.7)</b>	<b>12.8</b>	<b>(4.3)%</b>

Other expenses decreased S/12.8 million in 2020 when compared to 2019, mainly due to lower administrative expenses as a result of efficiencies implemented throughout the year to mitigate the impact of the COVID-19 pandemic.

## Wealth Management

Inteligo's net profit was S/243.1 million for the year ended December 31, 2020, a 21.4% increase compared to the year ended December 31, 2019. The main factor that contributed to this result was an increase in other income of 82.4%, mainly due to strong investment results for the year, partially offset by slightly higher other expenses.

Inteligo's ROE was 28.0% for the year ended December 31, 2020, higher than the 24.7% registered for the year ended December 31, 2019. This was mainly attributable to a higher net profit, which in turn was due to growth of 82.4% in other income, despite an increase in shareholders' equity due to an increase in retained earnings.

## Interest and Similar Income

The following table presents the components of interest and similar income for our wealth management segment for the years ended December 31, 2020 and 2019.

	For the year ended December 31,		Change	
	2020	2019		
	(S/ in millions)		(S/ in millions)	%
<b>Interest and similar income</b>				
Interest on loan portfolio	65.3	73.2	(7.9)	(10.7)%
Interest on financial investments	91.2	81.3	9.9	12.2%
Interest on due from banks and inter-bank funds	6.9	13.5	(6.6)	(49.2)%
<b>Total</b>	<b>163.4</b>	<b>168.0</b>	<b>(4.6)</b>	<b>(2.7)%</b>

	For the year ended December 31,		Change	
	2020	2019		
	(S/ in millions)		(S/ in millions)	%
<b>Nominal average rate</b>	<b>4.1%</b>	<b>4.5%</b>		

Interest and similar income decreased 2.7% mainly due to a 49.2% decrease in interest on due from banks and inter-bank funds and a 10.7% reduction in interest on loan portfolio, partially offset by a 12.2% increase in interest on financial investments.

Interest on loan portfolio decreased S/7.9 million mainly due to a decrease in the average rate despite an increase in average loans outstanding. Interest on financial investments increased S/9.9 million mainly due to higher dividends received from equity investments during 2020. Interest due from banks and inter-bank funds decreased S/6.6 million, mainly attributable to a decrease in the average rate of term deposits.

### Interest and Similar Expenses

The following table presents the components of interest and similar expenses for our wealth management segment for the years ended December 31, 2020 and 2019.

	For the year ended December 31,		Change	
	2020	2019		
	(S/ in millions)		(S/ in millions)	%
Interest and similar expenses				
Interest and fees on deposits and obligations	(46.0)	(48.2)	2.2	(4.6)%
Interests on bonds, notes and other obligations	(2.1)	(2.3)	0.2	(10.7)%
Interest and fees on obligations with financial institutions and others	(3.6)	(11.0)	7.4	(67.1)%
<b>Total</b>	<b>(51.7)</b>	<b>(61.5)</b>	<b>9.8</b>	<b>(16.0)%</b>
<b>Nominal average rate</b>	<b>1.6%</b>	<b>2.0%</b>		

Interest and similar expenses decreased 16.0% mainly due to a S/7.4 million, or 67.1%, decrease in interest and fees on obligations with financial institutions and others due to lower rates on loans with banks during 2020. Interest and fees on deposits and obligations decreased S/2.2 million primarily as a result of a decrease in rates.

### Impairment Loss on Loans, Net of Recoveries

Inteligo's loan portfolio had no delinquencies for the years ended December 31, 2020 and 2019. Inteligo's impairment loss on loans was S/0.0 million for the year ended December 31, 2020.

### Recovery (Loss) due to Impairment of Financial Investments

For the year ended December 31, 2020, Inteligo's impairment gain on financial investments was S/0.7 million, as compared to a S/0.7 million loss for the year ended December 31, 2019.

### Fee Income from Financial Services, Net

The following table presents the components of fee income from financial services, net for our wealth management segment for the years ended December 31, 2020 and 2019.

	For the year ended December 31,		Change	
	2020	2019		
	(S/ in millions)		(S/ in millions)	%
<b>Income</b>				
Maintenance and mailing of accounts, transfer fees and commissions on credit and debit card	1.1	2.9	(1.8)	(62.5)%
Funds management fees	152.5	149.2	3.3	2.2%
Brokerage and custody services fees	7.9	12.5	(4.6)	(36.9)%

	For the year ended December 31,		Change	
	2020	2019		
	(S/ in millions)	(S/ in millions)	(S/ in millions)	%
Others	4.0	1.5	2.5	N/M
<b>Total</b>	<b>165.4</b>	<b>166.1</b>	<b>(0.7)</b>	<b>(0.4)%</b>
<b>Expenses</b>				
Brokerage and custody services	(0.6)	(1.3)	0.7	(54.8)%
Others	(0.9)	(0.5)	(0.3)	63.6%
<b>Total</b>	<b>(1.5)</b>	<b>(1.8)</b>	<b>0.4</b>	<b>(19.6)%</b>
<b>Net</b>	<b>164.0</b>	<b>164.3</b>	<b>(0.3)</b>	<b>(0.2)%</b>

Fee income from financial services, net in 2020 was S/164.0 million, relatively stable as compared to 2019, though it decreased 0.2% mainly due to a S/4.6 million decrease in brokerage and custody service fees. This decrease was mainly attributable to lower brokerage activity amid higher volatility in global markets due to the COVID-19 pandemic.

### Other Income

The following table presents the components of other income for our wealth management segment for the years ended December 31, 2020 and 2019.

	For the year ended December 31,		Change	
	2020	2019		
	(S/ in millions)	(S/ in millions)	(S/ in millions)	%
Net gain on sale of financial investments	(23.4)	42.1	(65.6)	N/M
Net gain on financial assets at fair value through profit or loss	134.9	22.9	112.0	N/M
Other	(5.0)	(6.6)	1.7	(25.3)%
<b>Other Income</b>	<b>106.6</b>	<b>58.4</b>	<b>48.1</b>	<b>82.4%</b>

Other income increased S/48.1 million in 2020, mainly due to S/112.0 million growth in net gain on financial assets at fair value through profit or loss, attributable to higher mark-to-market valuations on Inteligo's proprietary portfolio.

### Other Expenses

The following table presents the components of other expenses for our wealth management segment for the years ended December 31, 2020 and 2019.

	For the year ended December 31,		Change	
	2020	2019		
	(S/ in millions)	(S/ in millions)	(S/ in millions)	%
Salaries and employee benefits	(75.0)	(64.8)	(10.3)	15.8%
Administrative expenses	(37.9)	(39.8)	1.8	(4.6)%
Depreciation and amortization	(14.5)	(18.3)	3.8	(21.0)%
Other	(0.6)	(0.4)	(0.2)	39.1%
<b>Total Other Expenses</b>	<b>(128.0)</b>	<b>(123.3)</b>	<b>(4.7)</b>	<b>3.8%</b>

Total other expenses grew 3.8% mainly due to increases in salaries and employee benefits, partially offset by a S/3.8 million decrease in depreciation and amortization. This decrease in depreciation and amortization was mainly attributable to ending of the amortization period in connection with expenses for Inteligo Bank's core banking system in January 2020.

Inteligo's efficiency ratio is calculated by dividing salaries and employee benefits plus administrative expenses plus depreciation and amortization by net interest and similar income plus net fee income from financial services plus other income. Our wealth management segment's efficiency ratio improved from 37.3% for the year ended December 31, 2019 to 33.3% for the year ended December 31, 2020, mainly due to higher net interest income and other income, despite the slight increase in expenses.

## Financial Condition as of December 31, 2019 Compared to December 31, 2018

The following table sets forth the principal components of our consolidated statement of financial position as of December 31, 2019 and December 31, 2018.

	As of December 31, 2019 <sup>(1)</sup>	As of December 31, 2018 <sup>(1)</sup>	Change	
	(S/ in millions)		(S/in millions)	%
<b>Assets</b>				
Cash, due from banks and inter-banks funds	11,213.9	8,875.4	2,338.4	26.3%
Financial investments	19,072.7	17,629.4	1,443.3	8.2%
Loans, net of unearned interest	38,531.6	34,325.7	4,205.9	12.3%
Impairment allowance for loans	(1,394.8)	(1,364.8)	(30.0)	2.2%
Investment property	972.1	986.5	(14.4)	(1.5)%
Property, furniture and equipment, net	950.9	622.5	328.4	52.8%
Intangibles and goodwill, net	979.3	954.5	24.7	2.6%
Other assets	1,236.5	1,715.0	(478.5)	(27.9)%
<b>Total assets</b>	<b>71,562.3</b>	<b>63,744.4</b>	<b>7,817.9</b>	<b>12.3%</b>
<b>Liabilities and equity</b>				
Deposits and obligations	38,093.2	33,682.0	4,411.3	13.1%
Due to banks and correspondents and inter-bank funds	4,148.8	4,293.4	(144.6)	(3.4)%
Bonds, notes and other obligations	6,890.3	6,496.8	393.5	6.1%
Insurance contract liabilities	11,426.6	10,350.7	1,076.0	10.4%
Other liabilities	2,099.9	1,833.2	266.7	14.6%
<b>Total liabilities</b>	<b>62,658.8</b>	<b>56,655.9</b>	<b>6,002.9</b>	<b>10.6%</b>
<b>Equity, net</b>				
Equity attributable to IFS's shareholders	8,856.9	7,048.1	1,808.8	25.7%
Non-controlling interest	46.6	40.4	6.2	15.3%
<b>Total equity, net</b>	<b>8,903.4</b>	<b>7,088.5</b>	<b>1,815.0</b>	<b>25.6%</b>
<b>Total liabilities and equity net</b>	<b>71,562.3</b>	<b>63,744.4</b>	<b>7,817.9</b>	<b>12.3%</b>

(1) In our consolidated financial statements as of December 31, 2020, balances related to the product “Renta Particular Plus – Vitalicio” (formerly recorded as a financial product) were reclassified to insurance accounts and the product was recognized as an insurance product. The accounting balances as of December 31, 2019 and 2018 have been reclassified for comparative purposes, as described in Note 3.4(ah) to our audited annual consolidated financial statements.

Our assets were S/71.6 billion as of December 31, 2019, a 12.3% increase from S/63.7 billion as of December 31, 2018. This was mainly driven by growth of 26.3% in cash, due from banks and inter-bank funds, 12.3% in loans, net of unearned interest, 8.2% in financial investments, and 52.8% in property, furniture and equipment mainly related to the adoption of IFRS 16.

The increase in cash, due from banks and inter-bank funds was mainly due to higher reserve funds and deposits at the Central Bank from Interbank.

The increase in loans, net of unearned interest was mainly the result of higher retail and commercial loans balances at Interbank. The increase in retail loans was due to growth in credit cards, other consumer loans and mortgages. Growth in commercial loans was due to higher trade finance loans and short and medium-term loans, also supported by higher loan repo transactions.

The increase in financial investments was mainly explained by the higher volume of Interseguro's investment portfolio, partially offset by lower balances of global and corporate bonds at Interbank.

Our liabilities reached S/62.7 billion as of December 31, 2019, a 10.6% increase from S/56.7 billion as of December 31, 2018. This was mainly driven by increases of 13.1% and 10.4% in deposits and obligations and insurance contract liabilities, respectively. Growth in deposits and other obligations was mostly explained by higher institutional, retail and commercial deposits at Interbank, while the increase in insurance contract liabilities was due to higher growth in annuities.

Our net equity was S/8.9 billion as of December 31, 2019, a 25.6% increase from S/7.1 billion as of December 31, 2018, mainly driven by higher retained earnings due to the net profit for 2019, our primary offering of common and treasury shares in the NYSE.

For more information of our liquidity, capital resources and commitments and obligations, see “Item 5. Operating and Financial Review and Prospects—Liquidity and Capital Resources.”

## Results of Operations for the Year Ended December 31, 2019 Compared to the Year Ended December 31, 2018

The following table sets forth the principal components of our consolidated profit for the years ended December 31, 2019 and 2018.

	For the year ended December 31,		Change	
	2019 <sup>(1)</sup>	2018 <sup>(1)</sup>	(S/ in millions)	%
Interest and similar income	4,847.2	4,321.3	525.9	12.2%
Interest and similar expenses	(1,424.0)	(1,177.3)	(246.7)	21.0%
<b>Net interest and similar income</b>	<b>3,423.3</b>	<b>3,144.0</b>	<b>279.3</b>	<b>8.9%</b>
Impairment loss on loans, net of recoveries	(750.8)	(660.1)	(90.7)	13.7%
Recovery (loss) due to impairment of financial investments	(6.8)	13.1	(19.9)	N/M
<b>Net interest and similar income after impairment loss</b>	<b>2,665.7</b>	<b>2,497.0</b>	<b>168.7</b>	<b>6.8%</b>
Fee income from financial services, net	925.9	874.4	51.5	5.9%
Other income	592.1	408.7	183.4	44.9%
<b>Total net premiums earned minus claims and benefits</b>	<b>(279.6)</b>	<b>(400.8)</b>	<b>121.1</b>	<b>(30.2)%</b>
<b>Total other expenses</b>	<b>(1,978.3)</b>	<b>(1,837.5)</b>	<b>(140.8)</b>	<b>7.7%</b>
<b>Income before translation result and income tax</b>	<b>1,925.7</b>	<b>1,541.9</b>	<b>383.8</b>	<b>24.9%</b>
Translation result	17.8	(35.0)	52.8	(150.8)%
Income Tax	(493.3)	(415.5)	(77.8)	18.7%
<b>Net profit for the year</b>	<b>1,450.1</b>	<b>1,091.4</b>	<b>358.7</b>	<b>32.9%</b>
<b>Attributable profit to:</b>				
<b>IFS' shareholders</b>	<b>1,441.3</b>	<b>1,084.3</b>	<b>357.0</b>	<b>32.9%</b>
<b>Non-controlling interest</b>	<b>8.9</b>	<b>7.1</b>	<b>1.7</b>	<b>24.5%</b>

- (1) In our consolidated financial statements as of December 31, 2020, balances related to the product “Renta Particular Plus – Vitalicio” (formerly recorded as a financial product) were reclassified to insurance accounts and the product was recognized as an insurance product. The accounting balances as of December 31, 2019 and 2018 have been reclassified for comparative purposes, as described in Note 3.4(ah) to our audited annual consolidated financial statements.

Our net profit was S/1,450.1 million for the year ended December 31, 2019, a 32.9% increase as compared to 2018. The higher profits were mainly driven by increases of S/279.3 million in net interest and similar income, S/183.4 million in other income, S/51.5 million in net fee income from financial services, and S/121.1 million in total premiums earned less claims and benefits, primarily reflecting the recognition in 2018 of the S/144.8 million non-recurring negative impact due to the change in mortality tables, which effect was not present for the year ended December 31, 2019. These results were partially offset by increases of S/140.8 million in other expenses and S/90.7 million in impairment loss on loans, net of recoveries.

The increase in net interest and similar income was mainly due to higher interest on loans at Interbank, attributable to double-digit loan growth combined with stable yields, partially offset by non-recurring expenses from liability management transactions in 2019.

Impairment loss on loans, net of recoveries increased from S/660.1 million as of December 31, 2018 to S/750.8 million as of December 31, 2019 mainly as a result of an increase in the loan portfolio and higher provision requirements for credit cards and mortgages, which were partially offset by lower requirements in the commercial portfolio particularly due to reduced exposure to the construction sector. This increase in impairment loss on loans, net of recoveries was partially offset by S/142.9 million reversal in provisions mainly during the fourth quarter of 2019 related to fine-tuning of IFRS9 models made as part of continuous efforts to reflect market developments, newly available data and improved customer risk profiles.

The increase in net fee income from financial services was mainly due to higher commissions from credit card services at Interbank.

The increase in other income was mainly due to positive performance across all three subsidiaries, particularly from foreign exchange transactions at Interbank and from sale of securities at Interseguro.

The increase in total premiums earned less claims and benefits mainly due to a decrease of S/93.5 million in adjustment of technical reserves, higher net premiums and lower net claims and benefits incurred.

The increase in other expenses is mainly due to increases in (i) depreciation and amortization charges due to the implementation of IFRS 16, (ii) salaries and employee benefits at Interbank and (iii) general expenses at Interseguro.

Our ROE was 18.3% in 2019, higher than the 16.6% reported in 2018, mainly due to increases in net interest and similar income and in other income.

## Results of Operations by Segment

The following table presents an overview of certain consolidated income statement data for each of our segments for the years ended December 31, 2019 and 2018.

	Banking		Insurance		Wealth management		Holding and eliminations		Consolidated	
	2019	2018	2019 <sup>(1)</sup>	2018 <sup>(1)</sup>	2019	2018	2019	2018	2019	2018
	(S/ in millions)									
Interest and similar income	4,074.0	3,559.1	612.5	611.0	168.0	154.1	(7.3)	(2.9)	4,847.2	4,321.3

(1) In our consolidated financial statements as of December 31, 2020, balances related to the product “Renta Particular Plus – Vitalicio” (formerly recorded as a financial product) were reclassified to insurance accounts and the product was recognized as an insurance product. The accounting balances as of December 31, 2019 and 2018 have been reclassified for comparative purposes, as described in Note 3.4(ah) to our audited annual consolidated financial statements.

The discussion below covers each of our reported segments, and corresponds to information before adjustments and eliminations for consolidation, as of and for the years ended December 31, 2019 and 2018, in accordance with IFRS.

### Banking

Interbank's net profit reached S/1,228.5 million for the year ended December 31, 2019, a 21.5% increase compared to the year ended

December 31, 2018. The main factors that contributed to this result were increases of (i) 40.2% in other income mainly due to the sale of Interfondos to Inteligo, (ii) 11.7% in net interest and similar income, and (iii) 8.9% in net fee income from financial services. These factors were partially offset by increases of 13.6% in loan loss provisions and 7.2% in other expenses.

Interbank's results in 2019 were affected by the gain on sale of Interfondos, Interbank's former mutual funds subsidiary, to Inteligo for S/32.4 million after taxes, the reversal of payroll deduction loan provisions for S/27.4 million after taxes, the reversal of loan loss provisions for S/73.4 million after taxes as well as the S/29.0 million after taxes non-recurring impact of the liability management transactions in 2019.

Interbank's ROE, excluding the gain on the sale of Interfondos and the non-recurring impact of the liability management transactions, as presented in “Item 4. Information on the Company—Business Overview—Non-GAAP Financial Measures”, was 21.3% for the year ended December 31, 2019, higher than the 20.2% recorded in the year ended December 31, 2018.

## Interest and Similar Income

The following table presents the components of interest and similar income for our banking segment for the years ended December 31, 2019 and 2018.

	For the year ended December 31,		Change	
	2019	2018	(S/ in millions)	%
	(S/ in millions)			
<b>Interest and similar income</b>				
Interest on loan portfolio	3,758.4	3,290.9	467.5	14.2%
Interest on financial investments	208.1	221.0	(12.9)	(5.8)%
Interest on due from banks and inter-bank funds	107.5	47.2	60.3	N/M
<b>Total</b>	<b>4,074.0</b>	<b>3,559.1</b>	<b>514.9</b>	<b>14.5%</b>
<b>Nominal average rate</b>	<b>8.2%</b>	<b>7.9%</b>		

Interest and similar income grew 14.5%, a more than two-fold increase in interest due from banks and inter-bank funds, and a 14.2% increase in interest on loans, partially offset by a 5.8% decrease in interest on financial investments.

Interest on due from banks and inter-bank funds grew by S/60.3 million, or 127.7%, a 60 basis points increase in the nominal average rate and a 10.5% increase in the average volume. The increase in the nominal average rate, from 0.5% in 2018 to 1.1% in 2019, was due to improved returns on reserve funds, inter-bank funds and deposits, in each case, at the Central Reserve Bank of Peru. The increase in the average volume was mainly due to higher balances of reserve funds and deposits at the Central Reserve Bank of Peru, partially offset by lower restricted funds associated with repo transactions with the Central Bank, as well as a reduction in inter-bank funds.

The increase in interest on loan portfolio was mainly due to a 14.1% increase in average volume of loans as the nominal average rate remained stable at 10.9%.

The higher average volume of loans was primarily the result of a 16.6% increase in retail loans and a 11.3% increase in commercial loans. In the retail portfolio, the increase was mainly due to a 23.5% increase in credit cards, a 13.1% increase in payroll deduction loans and a 12.8% increase in mortgages. In the commercial portfolio, the increase was mainly due to a 14.4% increase in trade finance loans and a 12.0% increase in short and medium-term loans, which results were partially offset by a 5.4% decrease in leasing operations.

The decrease in interest on financial investments was primarily the result of an 11.3% decrease in the average volume, which was partially offset by a 20 basis point increase in the average rate, from 3.6% for the year ended December 31, 2018 to 3.8% for the year ended December 31, 2019. The decrease in the average volume was mainly due to lower investments in global bonds, Central Bank Certificates of Deposits ("CDBCR"), and corporate bonds, which decrease was partially offset by higher balances of sovereign bonds. The increase in the average rate was the result of higher returns on corporate bonds from financial institutions and global bonds.

As a result of the above, the nominal average yield on interest-earning assets increased 30 basis points, from 7.9% for the year ended December 31, 2018 to 8.2% for the year ended December 31, 2019 in line with the higher nominal average rate on interest due from banks and on investments. Additionally, a higher proportion of credit card loans, within the total loan portfolio also contributed to the higher average yield on interest-earning assets, since this product returns a higher average yield than the rest of components.

## Interest and Similar Expenses

The following table presents the components of interest and similar expenses for our banking segment for the years ended December 31, 2019 and 2018.

	For the year ended December 31,		Change	
	2019	2018	(S/ in millions)	%
	(S/ in millions)			
<b>Interest and Similar Expenses</b>				
Interest and fees on deposits and obligations	(709.2)	(570.0)	(139.2)	24.4%
Interests on bonds, notes and other obligations	(416.4)	(330.7)	(85.7)	25.9%
Interest and fees on obligations with financial institutions and others	(164.5)	(167.1)	2.6	(1.5)%
<b>Total</b>	<b>(1,290.1)</b>	<b>(1,067.7)</b>	<b>(222.3)</b>	<b>20.8%</b>
<b>Nominal average rate</b>	<b>3.0%</b>	<b>2.7%</b>		

Interest and similar expense increased 20.8% mainly due to a 25.9% increase in interest on bonds, notes and other obligations and a 24.4% increase in interest on deposits and obligations, which increases were partially offset by a 1.5% decrease in interest and fees on obligations with financial institutions and others.

Interest on bonds, notes and other obligations increased mainly due to two bond issuances in the international market in September 2019, for S/312 million and U.S.\$ 400 million, both due in October 2026, in addition to other two issuances in the local market in March 2019 of: (i) S/150 million in certificates of deposit due March 2020, and (ii) S/150 million in corporate bonds due March 2029. In addition, these expenses also increased due to the exercise of the option to redeem the outstanding 5.75% Senior Notes due 2020 which resulted in a non-recurring expense of S/42.3 million before taxes (or S/29.0 million after taxes) given that the bonds were trading above their par value. See Note 13(f) to our audited annual consolidated financial statements.

Interest and fees on deposits and obligations increased mainly due to an 11.5% increase in the average volume and a 20 basis points increase in the nominal average cost. The increase in average volume was primarily attributable to increases in commercial, retail and institutional deposits. By currency, average balances of *soles* deposits grew 15.8% while average dollar deposits increased 4.7%. The increase in the nominal average cost from 19.1% for the year ended December 31, 2018 to 2.1% for the year ended December 31, 2019 was primarily due to increases in rates paid to institutional, commercial and retail deposits, particularly in time deposits, but also in commercial current accounts and retail savings accounts.

Interest and fees on obligations with financial institutions and others decreased mainly due to a 5.1% decrease in the average volume, partially offset by a 20 basis point increase in the average cost, from 4.0% for the year ended December 31, 2018 to 4.2% for the year ended December 31, 2019. The decrease in the average volume was mainly due to lower funding provided by the Central Reserve Bank of Peru and a decrease in inter-bank funds. The increase in the nominal average cost was explained by higher rates on funding from correspondent banks abroad and inter-bank funds, partially offset by a lower rate on funds provided by the Central Reserve Bank of Peru.

The average cost of funds increased 30 basis points, from 2.7% for the year ended December 31, 2018 to 3.0% for the year ended December 31, 2019, in line with the higher cost of interest-bearing liabilities.

#### Impairment Loss on Loans, Net of Recoveries

The following table presents the components of impairment loss on loans, net of recoveries for our banking segment for the years ended December 31, 2019 and 2018.

	For the year ended December 31,		Change	
	2019	2018	(S/ in millions)	%
	(S/ in millions)			
<b>Impairment loss on loans, net of recoveries</b>	(750.8)	(660.9)	(89.9)	13.6%
Past-due loan ratio (at period end)	2.6%	2.6%		
Provision expense as a percentage of average total loans	2.2%	2.2%		
Coverage ratio	117.7%	130.4%		
Impairment allowance for loans	1,394.7	1,364.7		

Impairment loss on loans, net of recoveries increased from S/660.9 million as of December 31, 2018 to S/750.8 million as of December 31, 2019 mainly as a result of an increase in the loan portfolio and higher provision requirements for credit cards and mortgages, which were partially offset by lower requirements in the commercial portfolio particularly due to reduced exposure to the construction sector. This increase in impairment loss on loans, net of recoveries was partially offset by S/142.9 million reversal in provisions mainly during the fourth quarter of 2019 related to fine-tuning of IFRS 9 models made as part of continuous efforts to reflect market developments, newly available data and improved customer risk profile.

Interbank's coverage ratio for the year ended December 31, 2019 decreased to 117.7% from 130.4% as of the year ended December 31, 2018, as a result of higher balances of loans classified as Stage 3 and refinanced. For 2018 and 2019, the ratio is defined as impairment allowance for loan losses divided by the sum of Exposure at Default in Stage 3 and refinanced loans.

### Fee Income from Financial Services, Net

The following table presents the components of fee income from financial services, net for our banking segment for the years ended December 31, 2019 and 2018.

	For the year ended December 31,		Change	
	2019	2018	(S/ in millions)	%
	(S/ in millions)			
<b>Income</b>				
Maintenance and mailing of accounts, transfer fees and commissions on credit and debit card	648.4	620.6	27.7	4.5%
Commissions for banking services	329.4	316.5	12.9	4.1%
Fees from indirect loans	56.2	61.8	(5.6)	(9.1)%
Collection services fees	41.3	37.3	4.0	10.8%
Others	39.3	30.0	9.3	31.0%
<b>Total</b>	<b>1,114.6</b>	<b>1,066.3</b>	<b>48.4</b>	<b>4.5%</b>
<b>Expenses</b>				
Credit cards	(119.6)	(103.6)	(16.0)	15.4%
Debtor's life insurance premiums	(99.7)	(143.4)	43.7	(30.5)%
Fees paid to foreign banks	(17.2)	(15.3)	(1.8)	12.1%
Others	(51.1)	(44.4)	(6.7)	15.1%
<b>Total</b>	<b>(287.5)</b>	<b>(306.7)</b>	<b>19.2</b>	<b>(6.3)%</b>
<b>Net</b>	<b>827.1</b>	<b>759.5</b>	<b>67.5</b>	<b>8.9%</b>

The S/67.5 million, or 8.9%, increase in fee income from financial services, net, was mainly attributable to higher income from maintenance of mailing of account, interchange fees, transfer fees and commissions on credit and debit cards, as well as to an increase in fees from banking services and lower expenses related to debtor's life insurance premiums.

### Other Income

The following table presents the components of other income for our banking segment for the years ended December 31, 2019 and 2018.

	For the year ended December 31,		Change	
	2019	2018	(S/ in millions)	%
	(S/ in millions)			
Net gain on foreign exchange transactions	201.4	228.2	(26.8)	(11.7)%
Net gain on sale of financial investments	39.3	16.4	23.0	N/M
Net gains on financial assets at fair value through profit or loss	64.8	(8.6)	73.4	N/M
Other	128.9	73.8	55.0	74.6%
<b>Other income</b>	<b>434.3</b>	<b>309.7</b>	<b>124.6</b>	<b>40.2%</b>

Other income increased 40.2% for the year ended December 31, 2019, mainly due to an overall S/46.6 million increase in net gain on foreign exchange transactions and on financial assets at fair value through profit or loss, and S/23.0 million in net gain on sale of financial investments. The gain from the sale of Interfondos to Inteligo recorded in this line is eliminated during the consolidation process.

### Other Expenses

The following table presents the components of other expenses for our banking segment for the years ended December 31, 2019 and 2018.

	For the year ended December 31,		Change	
	2019	2018		
	(S/ in millions)		(S/ in millions)	%
Salaries and employee benefits	(659.6)	(622.8)	(36.8)	5.9%
Administrative expenses	(687.9)	(693.7)	5.7	(0.8)%
Depreciation and amortization	(227.1)	(138.5)	(88.5)	63.9%
Other	(36.9)	(47.6)	10.8	(22.6)%
<b>Total other expenses</b>	<b>(1,611.5)</b>	<b>(1,502.7)</b>	<b>(108.8)</b>	<b>7.2%</b>

Other expenses increased 7.2% for the year ended December 31, 2019, mainly due to a 63.9% increase in depreciation and amortization, due to IFRS 16 implementation, and a 5.9% increase in salaries and employee benefits, which were partially offset by a 0.8% decrease in administrative expenses, mainly related to the implementation of IFRS 16 as rental expenses are no longer recorded in this line, and despite an increase in administrative expenses related to IT services and loyalty programs in connection with the bank's digital transformation efforts and higher credit cards activity.

Our efficiency ratio was 38.9% for the year ended December 31, 2019 as compared to 40.9% recorded for the year ended December 31, 2018.

### Income Before Translation Result and Income Tax

Income before translation result and income tax increased 20.5% for the year ended December 31, 2019, mainly due to an increase in translation result and a lower effective tax rate, from 27.1% for the year ended December 31, 2018 to 26.8% for the year ended December 31, 2019. As a result of the above, profit for the period increased 21.5% for the year ended December 31, 2019 as compared to the year ended December 31, 2018.

### Insurance

Interseguro's profit attributable to shareholders for the year ended December 31, 2019 was S/130.4 million, compared to a S/61.5 million loss for the year ended December 31, 2018.

The main factors that contributed to this result were the S/121.2 million increase in total premiums earned minus claims and benefits and the S/101.4 million increase in other income. The increase in total premiums earned minus claims and benefits was mainly due to a one-time adjustment of S/144.8 million in technical reserves in 2018, as a result of the full adoption of new mortality tables, which impact was not present in 2019. These results were partially offset by a S/25.0 million increase in other expenses, as well as a S/17.5 million increase due to impairment of financial investments.

### Net Interest and Similar Income

The following table presents the components of net interest and similar income for our insurance segment for the years ended December 31, 2019 and 2018.

	For the year ended December 31,		Change	
	2019	2018		
	(S/ in millions)		(S/ in millions)	%
Interest and similar income	612.5	611.0	1.6	0.3%
Interest and similar expense	(72.5)	(61.1)	(11.4)	18.7%
<b>Net interest and similar income</b>	<b>540.1</b>	<b>549.9</b>	<b>(9.9)</b>	<b>(1.8)%</b>

Net interest and similar income decreased 1.8% mainly due to a S/11.4 million increase in interest and similar expenses primarily as a result of higher interest due to banks and correspondents, which decrease was partially offset by a S/1.6 million increase in interest and similar income.

## Other Income, Net

The following table presents the components of other income for our insurance segment for the years ended December 31, 2019 and 2018.

	For the year ended December 31,		Change	
	2019	2018	(S/ in millions)	%
	(S/ in millions)			
Net gain (loss) on sale of financial investments	39.2	(30.7)	69.9	N/M
Net gain (loss) on financial assets at fair value through profit or loss	18.6	(1.4)	20.0	N/M
Rental income	48.8	32.9	16.0	48.5%
Gain on sale of investment property	(7.2)	4.7	(11.8)	N/M
Net gain on investment property	54.5	47.8	6.7	14.1%
Other	15.0	14.4	0.6	4.1%
<b>Other income, net</b>	<b>169.0</b>	<b>67.6</b>	<b>101.4</b>	<b>N/M</b>

Other income increased S/101.4 million, mainly due to a S/69.9 million increase in net gain on sale of financial investments, a S/20.0 million increase in net gain on financial assets at fair value through profit or loss and a S/16.0 million increase in rental income from real estate investments. These increases were partially offset by a S/11.8 million decrease in net gain on sale of investment property.

## Recovery (Loss) due to Impairment of Financial Investments

Loss due to impairment of financial investments was S/6.2 million for the year ended December 31, 2019 as compared to a recovery of S/11.3 million for the year ended December 31, 2018. This loss was mainly due to the impairment of certain bonds in Interseguro's portfolio due to a higher expected loss on such bonds.

## Total Net Premiums Earned Minus Claims and Benefits

The following table presents the components of total premiums earned minus claims and benefits for our insurance segment for the years ended December 31, 2019 and 2018.

	For the year ended December 31,		Change	
	2019	2018	(S/ in millions)	%
	(S/ in millions)			
Premiums assumed	702.5	798.5	(96.0)	(12.0)%
Premiums ceded to reinsurers	(13.2)	(116.7)	103.5	(88.7)%
Adjustment of technical reserves	(268.7)	(362.2)	93.5	(25.8)%
Net claims and benefits incurred for life insurance contracts and others	(700.3)	(720.3)	20.1	(2.8)%
<b>Total net premiums earned minus claims and benefits</b>	<b>(279.6)</b>	<b>(400.8)</b>	<b>121.1</b>	<b>(30.2)%</b>

Total net premiums earned minus claims and benefits increased S/121.1 million, mainly due to a S/93.5 million decrease in adjustment of technical reserves, in addition to higher net premiums and lower net claims and benefits incurred. The decrease in the adjustment of technical reserves for annuities reflects the impact of a one-time adjustment of S/144.8 million in 2018, which was not present in 2019.

## Net Premiums

Net premiums represent the difference between premiums assumed and premiums ceded to reinsurers. The following table presents net premiums by business line for our insurance segment for the years ended December 31, 2019 and 2018.

	For the year ended December 31,		Change	
	2019	2018		
	(S/ in millions)		(S/ in millions)	%
Annuities <sup>(1)</sup>	324.7	353.8	(29.2)	(8.2)%
Individual Life	131.4	126.7	4.7	3.7%
Retail Insurance	233.3	201.2	32.1	15.9%
Credit Life Insurance	130.7	105.1	25.6	24.4%
Mandatory Traffic Accident (SOAT)	40.7	33.6	7.1	21.1%
Card Protection	46.0	42.3	3.7	8.7%
Others	15.9	20.3	(4.4)	(21.4)%
<b>Net Premiums<sup>(2)</sup></b>	<b>689.4</b>	<b>681.8</b>	<b>7.5</b>	<b>1.1%</b>

(1) Annuities include premiums from pension-related insurance (disability and survivorship).

(2) Temporary Private Annuities are not included as premiums assumed. Net premiums are premiums assumed net of premiums ceded.

Net premiums increased 1.1% mainly due to a S/32.1 million increase in retail insurance and a S/4.7 million increase in individual life insurance, partially offset by a decrease of S/29.2 million in annuities. The decrease in annuities is net of a S/46.1 million decrease in disability and survivorship, associated with Seguros Sura's disability and survivorship contract that expired in December 2018.

### Adjustment of Technical Reserves

The following table presents adjustment of technical reserves by business line for our insurance segment for the years ended December 31, 2019 and 2018.

	For the year ended December 31,		Change	
	2019	2018		
	(S/ in millions)		(S/ in millions)	%
Annuities	(180.7)	(317.1)	136.4	(43.0)%
Individual Life	(82.3)	(40.9)	(41.4)	N/M
Retail Insurance	(5.7)	(4.2)	(1.5)	34.3%
<b>Adjustment of technical reserves</b>	<b>(268.7)</b>	<b>(362.2)</b>	<b>93.5</b>	<b>(25.8)%</b>

Adjustment of technical reserves decreased 25.8% mainly due to a S/136.4 million decrease in annuities, partially offset by a S/41.4 million increase in individual life and a S/1.5 million increase in retail insurance. The decrease in the adjustment of technical reserves for annuities reflects the impact of a one-time adjustment of S/144.8 million in 2018, which was not present in 2019.

### Net Claims and Benefits Incurred for Life Insurance Contracts and Others

The following table presents net claims and benefits incurred for life insurance contracts and others by business line for our insurance segment for the year ended December 31, 2019 and 2018.

	For the year ended December 31,		Change	
	2019	2018		
	(S/ in millions)		(S/ in millions)	%
Annuities <sup>(1)</sup>	(630.5)	(650.4)	19.9	(3.1)%
Individual Life	(4.9)	(6.1)	1.2	(20.6)%
Retail Insurance	(64.9)	(63.8)	(1.1)	1.7%
Credit Life Insurance	(41.5)	(45.0)	3.5	(7.8)%
Mandatory Traffic Accident (SOAT)	(17.2)	(14.3)	(2.9)	20.5%
Card Protection	(2.1)	(1.5)	(0.6)	40.6%
Others	(4.1)	(3.1)	(1.0)	34.9%
<b>Net claims and benefits incurred<sup>(2)</sup></b>	<b>(700.3)</b>	<b>(720.3)</b>	<b>20.1</b>	<b>(2.8)%</b>

(1) Annuities include claims from pension-related insurance (disability and survivorship).

(2) Temporary Private Annuities are not included as benefits incurred.

Net claims and benefits incurred for life insurance contracts and others decreased 2.8% mainly due to a S/19.9 million decrease in annuity benefits. Lower annuity benefits were the result of an S/48.5 million decrease in disability and survivorship claims, associated with Seguros Sura's disability and survivorship contract expiration in December 2018, net of a S/28.6 million increase in annuities.

## Other Expenses

The following table presents the components of other expenses for our insurance segment for the year ended December 31, 2019 and 2018.

	For the year ended December 31,		Change	
	2019	2018	(S/ in millions)	%
	(S/ in millions)		(S/ in millions)	%
Salaries and employee benefits	(73.7)	(74.8)	1.2	(1.6)%
Administrative expenses	(54.0)	(44.6)	(9.4)	21.0%
Depreciation and amortization	(22.4)	(17.0)	(5.4)	31.9%
Expenses related to rental income	(3.5)	(3.9)	0.4	(11.4)%
Other	(145.2)	(133.3)	(11.9)	8.9%
<b>Total other expenses</b>	<b>(298.7)</b>	<b>(273.7)</b>	<b>(25.1)</b>	<b>9.2%</b>

Total other expenses increased 9.2% mainly due to an S/11.9 million increase in other expenses, a S/9.4 million increase in administrative expenses and a S/5.4 million increase in depreciation and amortization.

## Wealth Management

Inteligo's net profit was S/200.3 million for the year ended December 31, 2019, a 1.4% increase compared to the year ended December 31, 2018. The main factor that contributed to this result was an increase in other income, which reflected strong gains on the valuation of financial investments in the year ended December 31, 2019, associated with a better performance of Inteligo's proprietary portfolio, in addition to a 0.1% increase in fee income from financial services. These effects were partially offset by a 3.2% decrease in net interest and similar income.

Inteligo's ROE was 24.7% for the year ended December 31, 2019, lower than the 25.7% registered for the year ended December 31, 2018. This was mainly attributable to a lower net profit due to the impact of the amortization of assets related to the acquisition of Interfondos at the beginning of 2019, in addition to a higher shareholders' equity due to an increase in retained earnings. Excluding the previously mentioned asset amortization, net profit was S/205.6 million and ROE was 25.3% in 2019.

## Interest and Similar Income

The following table presents the components of interest and similar income for our wealth management segment for the years ended December 31, 2019 and 2018.

	For the year ended December 31,		Change	
	2019	2018	(S/ in millions)	%
	(S/ in millions)		(S/ in millions)	%
<b>Interest and similar income</b>				
Interest on loan portfolio	73.2	65.9	7.3	11.0%
Interest on financial investments	81.3	83.7	(2.4)	(2.9)%
Interest on due from banks and inter-bank funds	13.5	4.5	9.0	N/M
<b>Total</b>	<b>168.0</b>	<b>154.1</b>	<b>13.9</b>	<b>9.0%</b>
<b>Nominal average rate</b>	<b>4.5%</b>	<b>4.8%</b>		

Interest and similar income increased 9.0% mainly due to an 11.0% increase in interest on loan portfolio and a S/9.0 million increase in interest due from banks and inter-bank funds.

Interest on loan portfolio increased S/7.3 million mainly due to an increase in the average rate along with an increase in average loans outstanding. Interest on financial investments decreased S/2.4 million mainly due to lower yields in fixed income investments that contributed with coupon payments to Inteligo's portfolio. Interest due from banks and inter-bank funds increased S/9.0 million, mainly attributable to excess liquidity during the period.

### Interest and Similar Expenses

The following table presents the components of interest and similar expenses for our wealth management segment for the years ended December 31, 2019 and 2018.

	For the year ended December 31,		Change	
	2019	2018	(S/ in millions)	%
	(S/ in millions)			
<b>Interest and similar expenses</b>				
Interest and fees on deposits and obligations	(48.2)	(36.6)	(11.6)	31.7%
Interests on bonds, notes and other obligations	(2.3)	(1.2)	(1.2)	98.9%
Interest and fees on obligations with financial institutions and others	(11.0)	(6.4)	(4.6)	72.7%
<b>Total</b>	<b>(61.5)</b>	<b>(44.1)</b>	<b>(17.4)</b>	<b>39.4%</b>
<b>Nominal average rate</b>	<b>2.0%</b>	<b>1.8%</b>		

Interest and similar expenses increased 39.4% mainly due to an increase in interest and fees on deposits and obligations, as well as a 72.7% increase in interest and fees on obligations with financial institutions and others. Interest and fees on deposits and obligations increased S/11.6 million primarily as a result of a S/90.1 million increase in deposit balances. Interest and fees on obligations with financial institutions and others increased S/4.6 million due to the incremental variable rates on loans with banks during the 2019.

### Impairment Loss on Loans, Net of Recoveries

Inteligo's loan portfolio had no delinquencies for the years ended December 31, 2019 and 2018. Inteligo's impairment loss on loans was S/0.0 million for the year ended December 31, 2019.

### Recovery (Loss) due to Impairment of Financial Investments

For the year ended December 31, 2019, Inteligo's impairment loss on financial investments was S/0.7 million, as compared to a S/1.8 million recovery for the year ended December 31, 2018.

### Fee Income from Financial Services, Net

The following table presents the components of fee income from financial services, net for our wealth management segment for the years ended December 31, 2019 and 2018.

	For the year ended December 31,		Change	
	2019	2018	(S/ in millions)	%
	(S/ in millions)			
<b>Income</b>				
Maintenance and mailing of accounts, transfer fees and commissions on credit and debit card	2.9	2.9	0.0	1.7%
Funds management fees	149.2	148.1	1.1	0.7%
Brokerage and custody services fees	12.6	12.3	0.3	2.6%
Others	1.5	3.8	(2.3)	(60.3)%
<b>Total</b>	<b>166.2</b>	<b>167.0</b>	<b>(0.8)</b>	<b>(0.5)%</b>
<b>Expenses</b>				
Brokerage and custody services	(1.3)	(2.4)	1.1	(46.5)%
Others	(0.6)	(0.4)	(0.2)	36.6%
<b>Total</b>	<b>(1.8)</b>	<b>(2.8)</b>	<b>1.0</b>	<b>(34.3)%</b>
<b>Net</b>	<b>164.3</b>	<b>164.2</b>	<b>0.2</b>	<b>0.1%</b>

Fee income from financial services, net increased 0.1% mainly due to an S/1.1 million increase in funds management fees and a S/0.3 million increase in brokerage and custody service fees. This increase was mainly attributable to higher brokerage activity amid higher volatility in global markets since December 2018 and increased issuances of structured products during 2019.

### Other Income

The following table presents the components of other income for our wealth management segment for the years ended December 31, 2019 and 2018.

	For the year ended December 31,		Change	
	2019	2018	(S/ in millions)	%
	(S/ in millions)		(S/ in millions)	%
Net gain on sale of financial investments	42.1	28.6	13.5	47.4%
Net gain on financial assets at fair value through profit or loss	23.0	14.3	8.7	60.7%
Other	(6.6)	(9.6)	3.0	(31.0)%
<b>Other income</b>	<b>58.4</b>	<b>33.2</b>	<b>25.2</b>	<b>75.8%</b>

Other income increased S/25.2 million mainly due to a S/8.7 million increase in net gains on financial assets at fair value through profit or loss and a S/13.5 million increase in net gain on sale of financial investments, attributable to an increase in mark-to-market valuations on Inteligo's proprietary portfolio and strong market conditions during 2019 that prompted the sale of certain investments.

### Other Expenses

The following table presents the components of other expenses for our wealth management segment for the years ended December 31, 2019 and 2018.

	For the year ended December 31,		Change	
	2019	2018	(S/ in millions)	%
	(S/ in millions)		(S/ in millions)	%
Salaries and employee benefits	(64.8)	(58.8)	(6.0)	10.2%
Administrative expenses	(39.8)	(40.2)	0.4	(1.0)%
Depreciation and amortization	(18.3)	(9.1)	(9.2)	N/M
Other	(0.4)	1.6	(2.1)	N/M
<b>Total other expenses</b>	<b>(123.3)</b>	<b>(106.5)</b>	<b>(16.8)</b>	<b>15.8%</b>

Total other expenses increased 15.8% mainly due to a 100.3% increase in depreciation and amortization and a 10.2% increase in salaries and employee benefits, partially offset by a 1.0% decrease in administrative expenses. Depreciation and amortization increased S/9.2 million primarily related to IT investments.

Inteligo's efficiency ratio is calculated by dividing salaries and employee benefits plus administrative expenses plus depreciation and amortization by net interest and similar income plus net fee income from financial services plus other income. Our wealth management segment's efficiency ratio deteriorated from 35.2% for the year ended December 31, 2018 to 37.3% for the year ended December 31, 2019, mainly due to the effect of the asset amortization of the Interfondos acquisition for S / 5.4 million, which is eliminated upon consolidation.

## B. Liquidity and Capital Resources

Our primary source of liquidity is dividends received from our subsidiaries and an issuance of senior debt and our primary use of funds is the payment of dividends to our shareholders and interest payments associated with the indebtedness described below.

As of December 31, 2020, our outstanding indebtedness included the following:

- U.S.\$300,000,000 aggregate principal amount of 4.125% senior notes due 2027 issued pursuant to the indenture, dated October 19, 2017 among the Registrant, The Bank of New York Mellon, as trustee, and The Bank of New York Mellon SA/NV, Luxembourg Branch, as Luxembourg transfer and paying agent.

The following discussion of liquidity and capital resources is on a segment basis. See “Item 8. Financial Information—Consolidated Statements and Other Financial Information—Dividends and dividends policy”.

### Interbank

The following table presents Interbank’s primary sources of funds as of December 31, 2020 and December 31, 2019:

	As of December 31, 2020	As of December 31, 2019	Change	
	(S/ in millions)		(S/ in millions)	%
Total deposits and obligations	44,576.8	35,577.8	8,999.1	25.3%
Due to banks and correspondents and inter-bank funds	9,388.1	3,831.4	5,556.7	145.0%
Bonds, notes and other obligations	6,491.9	5,805.5	686.4	11.8%
<b>Total</b>	<b>60,456.9</b>	<b>45,214.6</b>	<b>15,242.2</b>	<b>33.7%</b>

In our banking segment, our primary sources of funds have traditionally consisted of deposits and obligations, which amounted to S/44,576.8 million as of December 31, 2020. Interbank’s deposits include retail and commercial deposits, generated mainly through its financial stores distribution network, and its relationships with commercial clients.

Interbank is required to maintain deposits with the Central Reserve Bank of Peru, as legal reserves, in an amount determined by the percentage of deposits and other liabilities owed to its clients. For a description of the legal reserve (*encaje*) regulations, see “Item 4. Information on the Company—Business Overview—Regulation and Supervision—Banking Regulation and Supervision—Reserve Requirements from the Central Reserve Bank of Peru”.

At times, Interbank has utilized Peru’s short-term interbank loans market to satisfy liquidity needs. The Central Reserve Bank of Peru’s discount window, which makes short-term loans to banks at premium rates, is another potential, short-term funding source, although Interbank has used it infrequently. As part of Interbank’s liquidity management, it sometimes enter into repos on Central Reserve Bank of Peru certificates of deposit, which are a cost and tax efficient source of funds in Peruvian currency.

Amounts due to banks and correspondents of Interbank (including both short and long-term amounts) increased S/5,556.7 million, or 145.0%, to S/9,388.1 million as of December 31, 2020 from S/3,831.4 million as of December 31, 2019, as a result of inflows of long-term debt provided by the Central Bank, associated with the bank’s active involvement in the auctions of funds for the Reactiva Peru Program.

Interbank has issued senior, senior-subordinated, junior-subordinated, mortgage and leasing bonds in the Peruvian and international capital markets.

### Outstanding Indebtedness of Interbank

As of December 31, 2020, Interbank’s outstanding indebtedness included the following:

- U.S.\$300.0 million aggregate principal amount of 6.625% subordinated notes due 2029 issued by Interbank on March 18, 2014.
- U.S.\$200.0 million aggregate principal amount of 3.375% senior notes due 2023 (the “2023 notes”) issued by Interbank on January 18, 2018. Interbank executed an exchange offer that resulted in a further issuance of U.S.\$ 284.9 million of its 2023 notes. The total aggregate amount is U.S.\$ 484.9 million as of December 31, 2020. Furthermore, the exchange did not generate a substantial change in the terms and conditions of the financial liability; therefore, no new financial obligation was recognized. The transactional costs associated with these exchanged bonds will continue to be amortized based on the new issuance schedule.

- U.S.\$400.0 million principal amount of 3.250% senior notes due 2026 issued by Interbank on October 4, 2019, in connection with a tender offer for its 5.750% senior notes due 2020. Following the tender offer, Interbank redeemed the remaining 5.750% senior notes due 2020.
- S/312.0 million principal amount of 5.000% senior notes due 2026 issued by Interbank on October 1, 2019.
- U.S.\$300.0 million aggregate principal amount of 4.000% subordinated notes due 2030 issued by Interbank on July 8, 2020.
- U.S.\$35.0 million loan under a credit facility agreement between Interbank and Development Bank of Latin America – CAF dated as of March 2020. The credit facility agreement includes standard clauses regarding the compliance of financial ratios and other administrative matters, as described in our audited financial statements and related notes.

Additionally, the following represent individual amounts of local debt from a total amount of U.S.\$201.3 million, which includes local subordinated bonds of S/579.0 million (U.S.\$159.9 million) which qualify as second tier equity (“Tier 2”) in the determination of the regulatory capital, according to SBS, S/150.0 million (U.S.\$41.4 million) of local corporate inflation-linked bonds at the nominal exchange rate of S/3.621 as of December 31, 2020.

These bonds do not have specific guarantees:

- S/110.0 million aggregate principal amount of VAC + 3.50% -subordinated inflation-linked notes due 2023 issued by Interbank on September 10, 2008. The issuance does not have specific guarantees and, according to SBS regulation, qualify as Tier 2 in the determination of the regulatory capital, as described in our audited financial statements and related notes.
- S/137.9 million aggregate principal amount of 6.91% fixed rate subordinated notes due 2022 issued by Interbank on June 25, 2012. The issuance does not have specific guarantees and, according to SBS regulation, qualify as Tier 2 in the determination of the regulatory capital, as described in our audited financial statements and related notes.
- S/150.0 million aggregate principal amount of 5.81% fixed rate subordinated notes due 2023 issued by Interbank on January 11, 2013. The issuance does not have specific guarantees and, according to SBS regulation, qualify as Tier 2 in the determination of the regulatory capital, as described in our audited financial statements and related notes.
- U.S.\$50.0 million aggregate principal amount of 7.50% fixed rate subordinated notes due 2023 issued by Interbank on December 13, 2013. The issuance does not have specific guarantees and, according to SBS regulation, qualify as Tier 2 in the determination of the regulatory capital, as described in our audited financial statements and related notes.
- S/150.0 million aggregate principal amount of VAC + 3.41% corporate inflation-linked bonds due 2029 issued by Interbank on March 26, 2019, as described in our audited financial statements and related notes.

Additional outstanding indebtedness is mainly related to short term bank facilities for working capital and general purposes.

As of the date of this Annual Report on Form 20-F, Interbank complies with all the covenants described above and not subject to any other such obligations.

## **Interseguro**

Interseguro’s primary source of funds is premiums collected, carry from fixed income investments, dividends on equity investments and real estate leases.

Interseguro has issued subordinated bonds in the Peruvian market. As of December 31, 2020, Interseguro had S/235.4 million in bonds outstanding as compared to S/132.6 million for 2019. Additionally, Interseguro works with credit lines for promissory notes and letters of guarantee. As of December 31, 2020, the outstanding balance for lines with Banco de Crédito del Peru and Interbank was U.S.\$4.0 million and U.S.\$28.1 million, respectively.

## Inteligo

The following table presents Inteligo's primary sources of funds as of December 31, 2020 and as of December 31, 2019:

	As of December 31, 2020	As of December 31, 2019	Change	
	(S/ in millions)		(S/ in millions)	%
Total deposits and obligations	2,855.5	2,878.5	(23.0)	(0.8)%
Due to banks and correspondents and inter-bank funds	300.6	315.3	(14.7)	(4.7)%
<b>Total</b>	<b>3,156.1</b>	<b>3,193.9</b>	<b>(37.8)</b>	<b>(1.2)%</b>

In our wealth management segment, the primary source of funds has consisted of deposits and obligations, which amounted to S/2,855.5 million as of December 31, 2020. Inteligo Bank's deposits are retail deposits, from its private wealth clients. Retail deposits provide Inteligo with a low-cost, diverse and stable source of funding. Amounts due to banks and correspondents consist of the credit facilities provided to Inteligo Bank.

Deposits and obligations decreased S/23.0 million or 0.8% as of December 31, 2020 from December 31, 2019 as a result of a S/307.8 million decrease in interest bearing deposits. Funds due to banks and correspondents decreased slightly from S/315.3 million as of December 31, 2019 to S/300.6 million as of December 31, 2020.

## Outstanding Indebtedness of Inteligo

As of December 31, 2020, Inteligo's outstanding indebtedness included the following:

- U.S.\$60.0 million loan under a Lombard credit facility between Inteligo Bank and Credit Suisse AG. The framework agreement for the facility includes standard clauses regarding eligible collateral, compliance with covenants and other administrative matters.
- U.S.\$23.0 million loan under a credit facility between Inteligo Bank and Banque J. Safra Sarasin SA. The credit agreement includes standard clauses regarding eligible collateral.

## Regulatory Capital

We are not required to establish a regulatory capital for statutory purposes. However, Interbank and Interseguro are required to maintain minimum regulatory capital pursuant to guidelines issued by the SBS, and Inteligo Bank is required to maintain minimum regulatory capital pursuant to guidelines issued by the Central Bank of The Bahamas.

## Interbank

As of December 31, 2020, the minimum regulatory capital as a percentage of risk-weighted assets for Interbank was 10.7% and its ratio of regulatory capital to total risk weighted assets was 17.0%, the highest among the four largest banks in Peru, according to the SBS. As of December 31, 2019, the minimum regulatory capital as a percentage of risk-weighted assets for Interbank was 11.6% and its ratio of regulatory capital to total risk weighted assets was 15.2%, the highest among the four largest banks in Peru, according to the SBS. As of December 31, 2018, the minimum regulatory capital as a percentage of risk-weighted assets for Interbank was 11.7%. As of December 31, 2018, Interbank's ratio of regulatory capital to total risk weighted assets was 15.8%, the highest among the four largest banks in Peru. See Note 16(f) to our audited annual consolidated financial statements and "Item 4. Information on the Company—Business Overview—Regulation and Supervision" section in Annual Report on Form 20-F for a discussion of regulatory capital requirements applicable to Interbank.

The following tables present Interbank's regulatory capital as of December 31, 2020, 2019 and 2018, in accordance with SBS GAAP, as required by the Peruvian Banking and Insurance Law.

	As of December 31, 2020	As of December 31, 2019	Change	
	(S/ in (millions))		(S/ in millions)	%
Paid-in-capital	4,723.4	3,937.5	785.9	20.0%

(2) Corresponds to 1,986,233 IFS shares held by Interbank as of December 31, 2018.

## Interseguro

Interseguro is required to maintain a minimum regulatory capital, also known as solvency equity, pursuant to guidelines issued by the SBS. The capital requirement is the sum of solvency equity and the guarantee fund. Solvency equity is determined by the level of risk and the risk profile assumed by an insurance company in Peru in accordance with SBS regulations. The guarantee fund is equivalent to 35% of solvency equity. See Note 16(f) to our audited annual consolidated financial statements and “Item 4. Information on the Company—Business Overview—Regulation and Supervision” in this Annual Report on Form 20-F for a discussion of regulatory capital requirements applicable to Interseguro.

The following tables present Interseguro's solvency ratio as of December 31, 2020, 2019 and 2018 in accordance with SBS GAAP as required by the Peruvian Banking and Insurance Law. Seguros Sura is presented stand alone in the relevant table below as the merger with Interseguro did not take place until March 2018 and until that time, it was separately reporting to the SBS.

	As of December 31, 2020	As of December 31, 2019	Change	
	(S/ in millions)		(S/ in millions)	%
<b>Regulatory capital</b>	<b>1,359.4</b>	<b>1,106.6</b>	<b>252.8</b>	<b>22.8%</b>

Total risk-weighted assets	964.2	850.1	114.1	13.4%
<b>Capital ratio</b>	<b>24.7%</b>	<b>25.5%</b>		

Banking regulations on capital adequacy in The Bahamas take into account the recommendations of the Basel I Committee. The Central Bank of The Bahamas implemented Basel III requirements regarding capital adequacy in 2016. Its guidelines for the management of capital provide that Inteligo's regulatory capital must be equal to or greater than 8.0% of its total risk-weighted assets. Risk-weighted assets are the sum of (i) the total amount of credit risk weighted assets and indirect loans, (ii) 10 times the regulatory capital allocated to cover market risk, only if the bank's market risk position is higher than (a) 5% of the total on- and off-balance sheet assets, or (b) U.S.\$100 million, and (iii) 12.5 times the regulatory capital allocated to cover operational risk. As of December 31, 2020, Inteligo Bank's ratio of regulatory capital to total risk-weighted assets was 28.4%. In November 2020, the Central Bank of The Bahamas released a draft of The Bahamas Capital Regulations and reforms to the Guidelines for the Management of Capital and the Calculation of Capital Adequacy, which is currently going through a consultation period. The Bahamas Capital Regulations include changes to the methodology for the calculation of Risk-weighted Assets and Tier 1 Capital that could adversely impact Inteligo Bank's capital adequacy ratio. Currently, a date has not been defined for the implementation of these regulations. In 2018, the Central Bank of The Bahamas published two discussion papers focused on Minimum Disclosures (Pillar III of the Basel II framework) and the Net Stable Funding Ratio and the Liquidity Coverage Ratio (main components of Basel III).

In Peru, Inteligo SAB is regulated by the SMV, which is responsible for determining the minimum capital requirement for the companies under its supervision. As of December 31, 2020, the capital requirement for brokerage houses is the sum of (i) the minimum regulatory capital required of S/2.0 million; and (ii) the regulatory capital allocated to cover operational risks. As of December 31, 2020, Inteligo SAB held capital exceeding S/12.1 million.

### ***Commitments and Contractual Obligations***

For a description of our commitments and contractual obligations, see "Item 5. Operating and Financial Review and Prospects—Tabular disclosure of contractual obligations".

### ***Capital Expenditures Program***

We have made significant investments and in particular, in our banking segment. Interbank has made substantial investments in recent years targeting both digital and physical infrastructure. Some of the key investments include:

- significant improvements in our digital platform, including new functionalities and a complete new customer interface aimed to enhance user experience, in both retail and commercial segments;
- building up of data and implementation of tools to improve our CRM and risk analytical capabilities to better understand our customers;
- strengthening our data center through an outsourcing contract with IBM;
- the renewal of a large portion of our ATM network to be able to provide new functionalities with an omni-channel approach; and
- significant improvement of our operational efficiency.

Interbank believes that it has built the foundations to capture current and future market opportunities and continue to grow. It has a capital expenditure plan to ensure the accomplishment of its medium-term strategic plan, as it believes that not only operating efficiency and proximity to its customers, but also digital transformation and innovation, are key competitive advantages.

While we budget for investments across our subsidiaries, Interbank accounts for the substantial majority of our capital expenditures budget. We budget for year long periods. Interbank's budget for capital expenditures for the next three years is approximately S/736 million. Of this budget, approximately 85.6% is related to information technology expenditures including investments in our digital platform. Some of the key technological expenditures include:

- develop new business ideas and business models;
- intensify analytical capabilities through data, big data, artificial intelligence and real time decision, to enrich our understanding of Peruvian clients;
- improve customer experience through digital solutions, including products, services, and processes;
- strengthen operational efficiency and productivity through robotic process automation;
- update our cybersecurity standards to protect our customers; and
- migrate and develop new applications through the cloud.

Interseguro has invested in technology and projects to support its rapidly expanding operations. It has implemented an operations system in order to support Interseguro's planned growth in individual life and retail insurance products, a CRM platform, robotic process automation (RPA) to automate processes and look for operational efficiency, in addition to improving such processes and freeing up resources. Interseguro also has introduced its new 100% digital products such as car insurance, travel insurance, vida free and vida cash. Interseguro has also implemented and digitized the process of analysis of needs for life insurance products, which allows the company to issue insurance policies without a physical application form.

Additionally, Interseguro continues improving business intelligence capabilities such as Datalake which allows the consolidation of information from different Interseguro systems to generate a unique customer base for the creation of predictive models.

In our wealth management segment, Inteligo Bank implemented a new core system to support its rapidly expanding operations and has continued working on complementing its IT infrastructure and further developing of its technology platform, which will allow it to leverage its existing CRM platform and develop stronger business intelligence capabilities.

**C. Research and Development, Patents and Licenses, etc.**

Not Applicable.

**D. Trend Information**

As of December 31, 2020, we had total assets of S/88.2 billion (approximately U.S.\$ 24.4 billion), total gross loans of S/43.1 billion (approximately U.S.\$ 11.9 billion), total deposits of S/47.1 billion (approximately U.S.\$ 13.0 billion) and shareholders' equity of S/8.9 billion (approximately U.S.\$ 2.5 billion).

Substantially all of our subsidiaries' operations are conducted in Peru. Accordingly, our results of operations and financial condition are dependent on economic conditions, consumer spending and investment levels in Peru.

In 2020, Peru experienced an 11.1% GDP contraction as a result of the impact of the COVID-19 pandemic, and in particular the impact of the lockdown and mobility restrictions implemented by the Peruvian government to contain the spread of the pandemic, which in turn resulted in (i) lower employment, (ii) postponement of investment projects, and (iii) restricted access to goods and services. As a result of the reductions in private consumption and gross fixed investment, domestic demand decreased 9.8% during the year. The economic impacts of the COVID-19 pandemic were compounded by the slowdown that the Peruvian economy has experienced in recent years, which had already intensified due to several factors, including (i) a strong El Niño phenomenon, which adversely affected agricultural production, transportation services, tourism and commercial activity, and resulted in a 1.5% drop in GDP growth in 2017; (ii) corruption scandals related to the activities of certain Brazilian and Peruvian companies in the construction sector, which resulted in suspension or delay of important infrastructure projects during 2018; and (iii) political turbulence starting in 2018 which led to the resignation or dismissal of three Peruvian presidents and ultimately to the appointment of President Francisco Sagasti on November 17, 2020. President Sagasti's administration's priorities have been (i) ensuring economic stability and fiscal balance, (ii) reducing COVID-19 cases and securing the provision of vaccines for Peruvians, and (iii) ensuring that the 2021 presidential and congressional elections take place as scheduled. On April 11, 2021, Peru held its general elections. None of the presidential candidates reached the minimum percentage of votes required in order to be elected in the first round. As a result, a run-off election is scheduled to take place on June 6, 2021 between the two candidates that finished with the highest number of votes: José Pedro Castillo Terrones (*Partido Político Nacional Perú Libre*), a far-left candidate, and Keiko Sofia Fujimori Higuchi (*Fuerza Popular*), a center-right candidate.

At IFS and our subsidiaries, we are continuing to manage the impact of the COVID-19 pandemic by taking action across the various levels in the organization to provide continuity and flexibility to our clients. For example:

- Interbank participates in the Reactiva Peru Program and its clients have been able to request the rescheduling of their debts and postponement of their obligations under different schemes, some of which do not require payment of any additional interest or fees. In addition, Interbank has taken steps to protect its solvency and liquidity positions, by remaining active in the Central Bank's daily operations and using, renewing external lines of credit with correspondent banks abroad, reducing its 2019 earnings payout ratio from 45% to 25%, fully capitalizing first quarter earnings for 2020, issuing a U.S.\$300 million subordinated bond due in 2030 in July 2020, and agreeing to not distribute dividends and instead capitalize all distributable income for the year ended 2020.

- Interseguro has focused on identifying and reducing potential risks in its portfolio and looking for assets of solid companies with strong credit metrics. As a result of this strategy, the portfolio was rebalanced, which resulted in the sale of positions involving higher risk and the purchase of assets we believe have a safer risk-return profile. In addition, despite the negative impacts of the COVID-19 pandemic in 2020, the real estate portfolio performed well. Most contracts with tenants were renegotiated independently, resulting in arrangements designed to increase payment flexibility and reduce payment defaults. Interseguro also implemented cost control measures resulting in both one-off and ongoing savings to protect net income from potential impairments and increased claims as a result of the impact of higher mortality rates on our life insurance business. Finally, Interseguro is closely monitoring the collection of life insurance premiums and offering rescheduling of payments to life insurance policyholders, while advancing pension payments to annuity clients within the same month during which they were originally due, in order to ensure that the liquidity and security needs of its clients are met.
- Inteligo deployed its advanced technology to remain close to its clients, ensuring frequent communication and agile execution. Given the economic impact of the pandemic, Inteligo improved liquidity levels and strong capital adequacy ratios have been a business priority.

The following are the most important trends, uncertainties and events that are reasonably likely to affect us or that would cause the financial information disclosed herein not to be indicative of or have a material adverse effect on our future operating results or financial condition:

- Our businesses and prospects rely on a market-oriented economy, and potential political changes following the upcoming elections may alter the current economic model and business environment.
- Our subsidiaries are subject to extensive regulation and supervision, and changes in existing regulations or the implementation of future regulations.
- The adoption of new international banking and insurance guidelines may cause our subsidiaries to require additional capital and could cause their cost of funds to increase.
- Intense competition from other banking, insurance and financial institutions, and from other players including providers of emerging financial technologies.
- Our loans, deposits, asset quality and our profits have all experienced substantial growth, benefitting from growth in the Peruvian economy. However, economic, social and political developments in Peru, including political instability, high profile corruption investigations, inflation and unemployment may cease to support our historically strong growth.
- Our capital and funding requirements as well as our client activity and our clients' ability to repay loans could be affected by continued adverse developments and market uncertainties relating to the COVID-19 outbreak, which has resulted in significant and unexpected volatility in equity and credit markets.
- Cyber-security events, earthquakes, other natural disasters, health epidemics (including the current COVID-19 pandemic) and other outbreaks could negatively affect our reputation and the operations of Interbank, Interseguro, Interfondos and Inteligo SAB.

For more information regarding potential economic or regulatory factors that could affect our result of operations or financial condition, see "Item 3. Key Information—Risk Factors", "Item 4. Information on the Company—Business Overview—Strategy", "Item 5. Operating and Financial Review and Prospects—Operating Results" and "Forward-Looking Statements".

#### **E. Off-Balance Sheet Arrangements**

Our subsidiaries Interbank, Interseguro and Inteligo have various contractual arrangements, such as contingent operations, that are not recognized as liabilities in our audited annual consolidated financial statements but are required to be recorded as off-balance sheet items. See Note 18 to our audited annual consolidated financial statements.

We enter into contingent operations to generate fees from guarantees, stand-by letters of credit, import and export letters of credit, due from bank acceptances and foreign currency forward obligations.

### Off-Balance Sheet Arrangements as of December 31, 2020 and 2019

The following table presents our consolidated off-balance sheet arrangements as of December 31, 2020 and December 31, 2019.

	As of December 31,		Change	
	2020	2019	(S/ in millions)	%
	(S/ in millions)			
<b>Contingent credits—Indirect loans</b>				
Guarantees and standby letters	4,445.1	3,857.8	587.2	15.2%
Import and export letters of credit	166.9	244.1	(77.3)	(31.7)%
	<u>4,611.9</u>	<u>4,102.0</u>	<u>510.0</u>	<u>12.4%</u>
<b>Derivatives—Notional amounts Held for trading</b>				
Forward currency contracts—buy	2,317.1	2,993.7	(676.5)	(22.6)%
Forward currency contracts—sell	947.3	5,770.5	(4,823.3)	(83.6)%
Foreign currency forward contracts on currencies other than <i>sol</i>	396.7	525.7	(129.1)	(24.6)%
Interest rate swaps	4,382.5	4,238.1	144.4	3.4%
Currency swaps	2,520.8	1,727.9	792.8	45.9%

Due from customers on acceptances	139.7	—	—	—	139.7
Accounts payable, provisions and other liabilities	1,706.2	—	—	—	1,706.2
Lease liabilities	66.2	115.5	70.3	89.9	341.8
<b>Total<sup>(1)</sup></b>	<b>42,128.8</b>	<b>1,213.6</b>	<b>2,349.4</b>	<b>5,628.2</b>	<b>51,320.0</b>

(1) For insurance contract liabilities as of December 31, 2020 and 2019, see Note 14 of our audited annual consolidated financial statements.

All contractual obligations included in this table are recognized as liabilities on our consolidated statement of financial position and represent principal payments on an undiscounted basis without including payment of future interest.

## G. Safe Harbor

Not Applicable.

## ITEM 6. DIRECTORS, SENIOR MANAGEMENT AND EMPLOYEES

### A. Directors and Senior Management

#### General

Our business and affairs are managed by our board of directors in accordance with our articles of incorporation and Panamanian corporate law. Our articles of incorporation provide for a board of directors of no less than three members. Our current board of directors is comprised of seven directors and no alternates. The two-year term of our current board of directors will expire in April 2023.

If a director resigns or otherwise becomes unable to continue with its duties, a majority of our directors may appoint any other person to serve as director for the remaining term of the board.

The board of directors may establish one or more committees, to which it may delegate any or all of its responsibilities. Each committee shall be composed by two or more directors.

The board of directors typically meets in regularly scheduled quarterly meetings and when called by any dignitary (*dignatario*) or our Chief Executive Officer. Resolutions must be adopted by a majority of the directors present at the meeting.

### **Board of Directors**

Our board of directors consists of seven members, five of whom are independent. The business address of our board of directors is Av. Carlos Villarín 140, 5th floor Urbanización Santa Catalina, La Victoria, Lima 13, Perú. The following table sets forth certain information about our current directors.

<u>Name</u>	<u>Position</u>	<u>Year of Birth</u>	<u>Year Appointed</u>
Carlos Tomás Rodríguez Pastor Persivale	Chairman	1959	2007
Fernando Martín Zavala Lombardi	Secretary	1971	2019
Felipe Federico Roy Morris Guerinoni <sup>(1)</sup>	Treasurer	1953	2007
José Alfonso Bustamante y Bustamante <sup>(1)</sup>	Director	1941	2007
Lucía Cayetana Aljovín Gazzani <sup>(1)</sup>	Director	1966	2019
Hugo Antonio Santa María Guzmán <sup>(1)</sup>	Director	1963	2019
Guillermo Martínez Barros <sup>(1)</sup>	Director	1958	2019

(1) Independent director pursuant to Rule 10A-3 of the Securities Exchange Act of 1934, as amended (the “Exchange Act”).

The following sets forth selected biographical information for each of the members of IFS’ board of directors.

*Carlos Tomás Rodríguez-Pastor Persivale*, has served as IFS’ chairman since 2007. He also serves as Interbank’s chairman since 1995 and was Interbank’s interim Chief Executive Officer during 2010. In addition, Mr. Rodríguez-Pastor serves as director of Intercorp Peru, Inteligo Group Corp., Interseguro, Supermercados Peruanos, Tiendas Peruanas, Homecenters Peruanos, Colegios Peruanos, InRetail Peru Corp., InRetail Pharma, Financiera OH! S.A. and Universidad Tecnológica del Perú, among others. Mr. Rodríguez-Pastor received a bachelor’s degree in social science from the University of California at Berkeley and a master’s degree in business administration from the Amos Tuck School of Business at Dartmouth College.

*Fernando Martín Zavala Lombardi*, has served as an IFS director since his appointment on April 2019, and has been serving Interbank as director since March 2019. Mr. Zavala also serves as CEO and director of Intercorp Peru Ltd. and director of InRetail Peru Corp., Inteligo Group Corp., InRetail Pharma, Universidad Tecnológica del Perú, Colegios Peruanos, Interseguro, Tiendas Peruanas, Supermercados Peruanos, Financiera OH! S.A., Intertítulos, Homecenters Peruanos, and Inteligo Bank. He previously served as CEO in Peru and Panama of the multinational company SABMiller, as General Manager of Indecopi and has been director of several companies in Peru, and several business guilds and NGOs as well. In the public sector, he has been Prime Minister and Minister of Economy and Finance, the latest twice. Mr. Zavala received a bachelor’s degree in economics from Universidad del Pacífico in Lima, a master’s degree in business management from Universidad de Piura, and a master’s in business administration from University of Birmingham in England.

*Felipe Federico Roy Morris Guerinoni*, has served as one of IFS’ directors since 2007. Mr. Morris also serves as Chairman of Interseguro and Financiera OH!, as Vice-Chairman of Interbank and as Director of Intercorp Peru and Inteligo Bank. Mr. Morris received a bachelor’s degree in economics from the Universidad del Pacífico in Lima, a master’s degree in economics from the University of Pittsburgh and a master’s degree in finance from American University.

*José Alfonso Bustamante y Bustamante*, has served as one of IFS’ and Interbank’s directors since March 2007. Mr. Bustamante is the President of the Board of Corporación Financiera de Inversiones S.A. and also serves as a director of Agrícola Cerro Prieto S.A.C., Irrigadora Cerro Prieto S.A.C. and San Miguel Industrias Pet S.A. Mr. Bustamante was President of the Board of Telefónica del Perú and Banco Santander Central Hispano, formerly known as Bancosur, and of the Asociación de Bancos del Perú – ASBANC. In the public sector, Mr. Bustamante was the Prime Minister of Peru and Minister of Industry, Tourism, Integration and International Trade Negotiations (1993-1994) and was president of COPRI and Prom Perú during the same period. Mr. Bustamante received a bachelor’s degree in agricultural engineering from the Universidad Nacional Agraria La Molina in Lima and pursued his graduate studies at the University of Michigan, Ann Arbor.

*Lucía Cayetana Aljovin Gazzani*, has served as one of IFS' directors since her appointment in April 2019 and has been serving as Interbank's director since July 2018. She has also served as Foreign Affairs Minister, Minister of Energy and Mines and Minister of Social Inclusion. Mrs. Aljovin is the President of the National Fishing Society, Vice President of CONFIEP and Vice President of the Arbitral Tribunal of AMCHAM Perú. Previously, she was a partner at Miranda & Amado law firm, a member of the board of directors of the Lima Stock Exchange and served as director of other Peruvian companies and nonprofit organizations. Mrs. Aljovin received a degree in Law from the Pontificia Universidad Católica del Perú and a master's degree in business administration from Universidad Adolfo Ibáñez of Chile. She has also been a journalist and a professor at several Peruvian universities.

*Hugo Antonio Santa María Guzmán*, has served as one of IFS' directors since his appointment in April 2019, and has been serving as Interbank director since November 2016. Mr. Santa María is partner, manager of economic studies, and chief economist of APOYO Consultoría, where he runs the Business Advisory Service (SAE, for its acronym in Spanish). SAE is the leading economic and business (analysis) service in Peru. He is currently a member of the board of directors of Sociedad Agrícola Virú S.A. and Colegios Peruanos and serves as an alternate director of InRetail Perú Corp. Previously, he was a member of the boards of Banco Santander Peru, Grupo ACP, Compañía Minera Atacocha and the Consolidated Reserve Fund (investment fund of the Peruvian public pension system) and independent director and President of the board of Mibanco. Mr. Santa María has been a professor in graduate programs at Universidad del Pacífico, Universidad Peruana de Ciencias Aplicadas and Universidad de Piura. Mr. Santa María holds a bachelor's degree in economics from Universidad del Pacífico and Ph.D. from Washington University in St. Louis.

*Guillermo Martínez Barros*, has served as one of IFS's directors since 2019. He has also served as a director of Interseguro since 2008. Mr. Martínez serves as director of Financiera OH! S.A., Isapre Consalud in Chile, PrimAmérica Consultores S.A. in Chile and is a member of the Direction Committee of Centros de Salud Peruanos S.A.C. Mr. Martínez is also the chairman and owner of Inmobiliaria e Inversiones Siete Mares S.A. and the chairman of Scan S.A. and Ebench S.A. in Chile. Mr. Martínez received a bachelor's degree in business administration from the Universidad Católica de Chile, a master's degree in business administration from the University of Chicago and a master's degree in economics from the London School of Economics.

### **Executive Officers**

*Luis Felipe Castellanos López Torres*, Mr. Castellanos has served as IFS' Chief Executive Officer since April 2013 and as Interbank's Chief Executive Officer since January 2011. Mr. Castellanos is also one of Interseguro's directors since his appointment in April 2019. Mr. Castellanos joined Interbank in 2006 as the Chief Executive Officer of Interfondos. He has served as Interbank's Vice President for Retail Banking and Manager of the Mortgage and Real Estate Division. Previously, he was a Director in the investment banking division at Citigroup Global Markets in New York. Before joining Citigroup, Mr. Castellanos was responsible for the treasury department at Minera Yanacocha S.A. Mr. Castellanos received a bachelor's degree in business administration from the Universidad del Pacífico and a master's degree in business administration from the Amos Tuck School of Business at Dartmouth College.

*Gonzalo José Basadre Brazzini*, has served as IFS' Deputy Chief Executive Officer since April 2013. Mr. Basadre is also the General Manager/Chief Executive Officer of Interseguro since 2012. Previously, he was the Vice President of Investments (Chief Investment Officer) of Interseguro. He received a bachelor's degree in business administration from the Universidad del Pacífico in Lima and a master's degree of business administration from Harvard University.

*Michela Casassa Ramat*, has served as IFS' Chief Financial Officer and as Interbank's Chief Financial Officer since September 2012. Mrs. Casassa joined Interbank in September 2011 as Head of Strategic Planning. Prior to joining Interbank, she served as Head of Strategy for Corporate and Investment Banking at Banco de Crédito del Perú in Lima and Unicredit in Munich, and Head of Strategy for the International Division of Unicredit in Milan and Istanbul. She has also worked at The Boston Consulting Group in Milan and Citibank in Lima. Mrs. Casassa holds a bachelor's degree in business administration from the Universidad de Lima and a master's degree in business administration with a specialization in finance from the SDA Bocconi in Milan.

*Liliana Elcira Vera Villacorta*, has served as IFS' Chief Accounting Officer since our formation. Ms. Vera served as Accounting Manager of Interbank from 2003 to 2011. From 1998 to 2002, Ms. Vera was a senior analyst at EY Peru. Ms. Vera received a degree in accounting from the Pontificia Universidad Católica del Perú and a master's degree in business administration from INCAE Business School.

*Juan Antonio Castro Molina*. Mr. Castro is Legal Director for InterCorp Group, and General Counsel for IFS since its incorporation. Mr. Castro also serves as member of the board of Universidad Tecnológica del Peru and other companies of the InterCorp Group. Mr. Castro was previously employed at Wilmer, Cutler, Pickering, Hale and Dorr in Washington D.C. and has also served as chief of staff to the Prime Minister of Peru (2001). Mr. Castro received a degree in law from the Pontificia Universidad Católica del Perú, a master's of laws degree from the University of Virginia where he attended as a Fulbright scholar, a master's degree in business administration from Universidad Adolfo Ibañez, and he has attended senior management programs at Harvard Business School and the Wharton School of Business at the University of Pennsylvania.

*Ernesto Giancarlo Ferrero Merino*, was appointed IFS' Investor Relations Officer in July 2014. Previously he served as Interbank's Head of Financial Management since February 2012. Mr. Ferrero joined Interbank in November 2010 as Deputy Head of Corporate Finance. Prior to joining Interbank, he served as Corporate and Investment Banking Vice President at BBVA Banco Continental and General Manager at BBVA Continental Bolsa. Mr. Ferrero holds a bachelor's degree in economics from the Universidad del Pacífico, as well as a master's degree in business administration from the Rotterdam School of Management at Erasmus University, The Netherlands.

*Katia Mercedes Lung Won* was appointed as IFS' Chief Compliance Officer in March 2016. She also serves as Chief Compliance Officer of Interbank since 2012. Prior to joining Interbank, Ms. Lung served as Vice President Project Manager for Suntrust Bank in Miami, Florida in the International Wealth Management Division and as Vice President BSA/AML Compliance Officer for BNP Paribas Agency and the General Security Principal (Broker Dealer) for BNP Paribas Investment Services. Ms. Lung holds a bachelor's degree in business administration from Florida International University (*Cum Laude*), and a master's degree in business administration from Nova Southeastern University, as well as, a CP/AML FIBA and a Six Sigma Certification—Green Belt.

*Peter Roekaert Embrechts* was appointed as IFS' Internal Auditor in June 2020. Since September 2019 Mr. Roekaert has been in charge of SOX and internal control implementation at IFS and subsidiaries. Previously he served as Interbank's Head of Credit Risk Monitoring and Recovery – Commercial Banking since December 2006. Prior to that he was Deputy Head of Recovery – Commercial Banking since January 2004 and worked at Interbank's Corporate Banking Division since July 1996. Mr. Roekaert holds a bachelor's degree in economics from the Universidad del Pacífico, as well as a master's degree in business administration from the Johnson Graduate School of Management at Cornell University.

## Interbank

### Board of Directors

Interbank's board of directors consists of nine members, five of whom are independent. The business address of Interbank's board of directors is Av. Daniel Yagui Yoshimoto	Chief Financial Officer	1980	2020

*Reynaldo Roisenvit Grancelli*, See "Item 6. Directors, Senior Management and Employees—Directors and Senior Management—Inteligo—Board of Directors."

*Bruno Ferreccio Del Río*, has served as Inteligo SAB's Chief Executive Officer since July 2019. He also serves as Inteligo Bank's Chief Executive Officer since May 2019. Previously, he served as Deputy Chief Executive Officer of Inteligo SAB since April 2017, and before that as Chief Commercial Officer since December 2015. In addition, he served as Inteligo's Chief Financial Officer and as Inteligo SAB's Financial Vice President since April 2014. Before joining Inteligo in June 2010 as Inteligo SAB's Financial Manager and Chief of Products, Mr. Ferreccio was the Vice President of Futures and Derivates in Commodities at AAKOP LLC in New York, and Resident Engineer of HV S.A. CONTRATISTAS in Peru. He received a bachelor's degree in civil engineering from the University of Texas, Austin, a master's degree in business administration from the University of Michigan and completed the General Management Program at Harvard Business School.

*Victor Vinatea Cámere*, has served as Inteligo's Chief Operations Officer since 2017. Mr. Vinatea has more than 30 years of banking experience. Before joining Inteligo, Mr. Vinatea held management positions in commercial and retail banking as well as in operations at different banking institutions in Peru. He has been director of La Fiduciaria and Intertítulos. Mr. Vinatea received a degree in business administration from ESAN and holds a master's degree in business administration in Direction from INCAE and Universidad Adolfo Ibáñez and has participated in international seminars related to banking at Harvard Business School.

*Gianina Gotuzzo Oliva*, has served as Inteligo SAB's General Counsel since 2016 and Inteligo's General Counsel since 2017. She has also served as General Counsel of InRetail Perú Corp. and Legal Counsel of Intercorp Peru from 2010 to 2016. Mrs. Gotuzzo was previously a Senior Associate of Hernández & Cía. Mrs. Gotuzzo was a professor of corporate law at Pontificia Universidad Católica del Peru for seven years, where she received her law degree in 1999. Mrs. Gotuzzo holds an LL.M. from Cornell University and was admitted to the New York Bar in 2002.

*Daniel Yagui Yoshimoto*, has served as Chief Financial Officer of Inteligo since August 17, 2020. He has over sixteen years of professional experience in multinational companies, including ten years of experience in financial departments within several industries such as financial services, retail and consumer products, and over five years of experience leading business consulting projects performed in top companies in Peru, Argentina and Colombia. Mr. Yagui holds a master's degree in finance from Universidad Torcuato Di Tella in Argentina and a master's degree in business administration from Universidad Adolfo Ibáñez in Chile.

## **B. Compensation**

Our articles of incorporation provide that our shareholders are responsible for determining the compensation to be paid to members of our board. Consistent with Peruvian law, we do not disclose to our shareholders, or otherwise make public, information regarding the compensation of our executive officers. For the year ended December 31, 2020, aggregate annual compensation to board members of IFS and subsidiaries totalled S/3.7 million. For the year ended December 31, 2020, in the aggregate, the executive officers of IFS and subsidiaries received compensation from us and our subsidiaries of S/21.9 million.

For the year ended December 31, 2020, no amounts were set aside or accrued by us to provide pension, retirement or similar benefits for our directors and officers. None of our directors or any of the directors of our subsidiaries have entered into any service contracts with our company or our subsidiaries providing for benefits upon termination of their employment. As of the year ended December 31, 2020, we have not adopted any executive long-term incentive plan.

## **C. Board Practices**

Our board of directors and the board of directors at each of our subsidiaries (Interbank, Interseguro and Inteligo) is responsible for establishing an appropriate and integrated risk management system and for promoting an internal environment that facilitates the board of directors' supervision and risk management control. The board of directors is continuously informed about the degree of exposure of the diverse risks managed by each subsidiary and inherent to their businesses.

The boards of directors of Interbank, Interseguro and Inteligo Bank have created several specialized committees to which they have delegated specific tasks in order to enhance risk management and internal control. We list below the main committees established by the boards of directors of our subsidiaries.

For more information on board practices, see "Item 6.A. Directors, Senior Management and Employees—Directors and Senior Management—General."

### **Audit Committee**

Our audit committee is fully independent and complies with the criteria set forth under our "Audit Committee Charter" (as amended from time to time) the rules of the NYSE and Rule 10A-3(b)(1) of the Exchange Act, each as applicable to foreign private issuers. Our audit committee consists of three directors, all of whom are financially literate and one of whom is a financial expert. The current members of our audit committee are Guillermo Martínez Barros, Felipe Federico Roy Morris Guerinoni and José Alfonso Bustamante y Bustamante.

Felipe Federico Roy Morris Guerinoni, Guillermo Martínez Barros and José Alfonso Bustamante y Bustamante are independent under Rule 10A-3 under the Exchange Act. Felipe Federico Roy Morris Guerinoni is a financial expert in accordance with NYSE rules. Our audit committee oversees our corporate accounting and financial reporting process. The audit committee is responsible for:

- reviewing our financial statements;
- evaluating our internal controls and procedures, and identifying deficiencies;

- the appointment of our external auditors, determining their compensation, retention and oversight, and resolving any disagreement that may arise between management and our external auditors;
- evaluating the Company's compliance with the Board of Director's internal regulation, as well as with general principles of corporate governance;
- informing our board of directors regarding any issues that arise with respect to the quality or integrity of our financial statements, our compliance with legal or regulatory requirements, the performance and independence of the external auditors, or the performance of the internal audit function;
- establishing procedures for the reception, retention and treatment of complaints regarding accounting, internal controls or other auditing matters, including the confidential, anonymous submission by our employees of concerns regarding questionable accounting or auditing matters;
- independently engaging its own counsel and any other advisers it deems necessary to fulfill its functions; and
- establishing policies and procedures to pre-approve audit and permissible non-audit services.

## **Other Committees**

### ***Comprehensive Risk Management Committee and Risk Committee***

At Interbank, the Integral Risk Management Committee is a corporate body created by resolution of the board of directors. It is responsible for approving the policies and organization of the comprehensive risk management system, as well as any amendments to said policies. The Integral Risk Management Committee defines the risk appetite and level of tolerance that each subsidiary is willing to take in its business and the actions needed to implement the required corrective measures necessary to maintain adequate levels of risk tolerance. The Integral Risk Management Committee is comprised of four members of the board of directors (two of whom are independent directors), the Chief Executive Officer and the Vice-Presidents. The committee reports monthly to the board of directors the main issues it has discussed and the agreements adopted in the previous meeting.

In the case of Inteligo Bank, the Integral Risk Management Committee is comprised of at least two members of the board of directors, one of which must be independent (as defined pursuant to the Bahamian regulation), who will oversee the Committee. Other members are the Chief Executive Officer of the Panamanian Branch, the Finance Manager, the Legal Manager and the Risk Officer. The Committee reports quarterly to the board of directors the main issues it has discussed and the agreements adopted in the previous meeting.

Instead of an Integral Risk Management Committee, Interseguro has a Risk Committee, which is a corporate body created by board of directors resolution responsible for defining risk limits for Interseguro's business, approving risk policies and approving required corrective measures necessary to maintain adequate levels of risk tolerance. The Risk Committee is comprised of four board members, the Chief Executive Officer and the Risk Manager.

### ***Assets and Liabilities Committee***

The Assets and Liabilities Committee (the "ALCO") is a corporate body created by resolution of the board of directors of Interbank and Inteligo. In the case of Interbank, the ALCO is comprised exclusively of officers.

At Interbank, the ALCO's main purpose is to manage the structure of Interbank's financial position considering its profitability and risk targets. The ALCO is also responsible for the proposition of new products or operations that contain components of market risk. Additionally, it serves as the communication channel with units that generate market risks. The ALCO meets monthly and is comprised of the Chief Executive Officer, the Vice Presidents of Risks, Channel of Distribution, Retail, Operations, Commercial, Finance and Capital Markets and the Manager of Treasury/Position Desk.

Inteligo Bank holds positions that are not actively traded, but are part of its assets and liabilities. These positions include a loan portfolio, customer deposits and bank loans. These positions are also exposed to interest rate risk, exchange rate risk and liquidity risk. The main purpose of the ALCO at Inteligo Bank is to manage its financial position, considering its profitability and risk targets. The ALCO meets quarterly and is comprised of at least two board members, one of whom must be independent (as defined pursuant to Bahamian regulations), the Chief Executive Officer of the Panamanian Branch, Finance Manager, Legal Manager and the Risk Officer.

At Interseguro, the functions of the ALCO committee are assumed by the Investment Committee.

### ***Investment Committee***

The Investment Committee is responsible for approving the limits of each security or real estate which could be included in Interseguro's investment portfolio. This Committee is comprised of several members of the board and the Chief Executive Officer. The Risk Manager also participates as an advisor.

Inteligo Bank created an Investment Committee in 2017. The Investment Committee is responsible for reviewing and approving the strategy of Inteligo Bank's investment portfolio and approving new investment products. The Investment Committee meets quarterly and is comprised of one board member, the Chief Executive Officer, the Chief Executive Officer of the Panamanian Branch, the Chief Financial Officer and the Risk Officer.

### **Internal Audit**

At our segments level, the Internal Audit Division reports to the board of directors at each subsidiary. It supports the Company in meeting its objectives through the application of a systemic and disciplined approach to assess and enhance the efficiency of its governance processes, risk management and control processes.

### **D. Employees**

#### ***IFS***

As of December 31, 2020, IFS had no employees. However, its operations are carried out by employees from its subsidiaries and affiliates.

#### ***Interbank***

As of December 31, 2020, Interbank had 6,408 employees, 2,607 work in financial stores and 3,801 work at the headquarters and in operational centers of Interbank. Of the total employees, 3,415 are dedicated to sales force. We have been optimizing our distributional channels and have reduced full time employees at financial stores. Interbank's employees are not unionized, are not a party to any collective bargaining agreement and since Interbank's privatization in 1994, have never been involved in a strike or work stoppage.

#### ***Interseguro***

As of December 31, 2020, Interseguro had a total of 678 employees, which included officers and administrative staff, as well as sales agents and representatives. Interseguro's employees are not unionized, are not a party to any collective bargaining agreement and have never been involved in a strike or work stoppage.

Interseguro provides its employees with benefits that exceed the requirements of Peruvian labor laws, including school allowance, specialized training programs, general health base plan and oncology plan, each covered at 100%. Interseguro also provides wellness programs for its employees, as well as a full portfolio of development, family inclusion, and social programs.

#### ***Inteligo***

As of December 31, 2020, Inteligo and its subsidiaries had 321 employees, which included officers and administrative staff, as well as commercial representatives. Inteligo's senior management is located in Peru. Inteligo's and its subsidiaries' employees are not unionized, are not a party to any collective bargaining agreement and have never been involved in a strike or work stoppage.

### **E. Share Ownership**

Except as described under "Item 7. Major Shareholders and Related Party Transactions—Major shareholders", none of our directors or senior management beneficially owns our common shares other than three directors and two senior executives of IFS, who own a 0.1% interest in IFS.

We do not have any arrangements for involving employees in our capital, including any arrangements that involve the issue or grant of options of our shares or securities.

## **ITEM 7. MAJOR SHAREHOLDERS AND RELATED PARTY TRANSACTIONS**

### **A. Major Shareholders**

Our only outstanding equity securities are our common shares. As of December 31, 2020, IFS had issued 115,447,705 common shares, of which 72,867,619 were registered in CAVALI and 42,580,086 were registered in DTC. As of December 31, 2020, 354,086 common shares registered in CAVALI were held by 24 U.S. citizens and/or residents in the United States.

The following table sets forth certain information regarding the ownership of outstanding shares as of April 7, 2021 for the following:

- each person or entity who is known by us to own beneficially more than 5% of our outstanding shares capital or voting rights;
- our directors and members of our executive management group, as a group.

Shareholders	Common Shares Owned	
	Number of Shares	Percentage owned
InterCorp Perú Ltd. <sup>(1)(2)</sup>	81,532,547	70.6%
Other Directors and Officers <sup>(3)</sup>	158,010	0.1%
Float	33,732,324	29.3%
<b>Total</b>	<b>115,422,881</b>	<b>100.0%</b>

- (1) International Financial Holdings Group Inc. (“IFH”), representing 77.3% of the voting rights of InterCorp Peru and the right to appoint the majority of the members of the board of directors of InterCorp Peru, has entered into an irrevocable proxy agreement (the “Irrevocable Proxy Agreement”) appointing Carlos Tomás Rodríguez Pastor Persivale, George Pastor and Anne Marie. See (the “Agents”) as its agents, acting by majority vote, with respect to any matters relating to IFH’s ownership interest in InterCorp Peru, including, among other matters, any InterCorp Peru’s shareholder votes that is, any votes by an InterCorp Peru Shareholder, which would include a vote by IFH as a shareholder of InterCorp Peru and separately, any decisions pertaining to the purchase or sale of shares in InterCorp Peru (and through InterCorp Peru, InterCorp Peru’s interest in IFS). The three Agents are siblings. The initial period of the Irrevocable Proxy Agreement is two years commencing June 2019 automatically renewable for six-month periods unless otherwise terminated upon 90 days’ notice. As a result, the three Agents are deemed to beneficially own all of InterCorp Peru’s beneficial ownership in IFS, as well as control InterCorp Peru and IFS.
- (2) IFH Capital Corp. and InterCorp Capital Investments Inc. are the record holders of 9,747,706 and 9,747,707 respectively of our common shares, or 8.44% each, and are both wholly-owned subsidiaries of InterCorp Peru and therefore InterCorp Peru beneficially owns their shares.
- (3) Excluding Carlos Tomás Rodríguez Pastor Persivale.

As of December 31, 2020, IFS and its subsidiaries held 24,824 common shares in treasury stock. For more details regarding these shares, see “Item 16E – Purchases of Equity Securities by the Issuer and Affiliated Purchasers” and Note 16(b) to our audited annual consolidated financial statements.

## B. Related Party Transactions

In the ordinary course of business, we and our subsidiaries, Interbank, Interseguro and Inteligo, engage in a variety of transactions among ourselves and with certain of our affiliates and related parties. All material transactions between us or our subsidiaries and our other affiliates or related parties are evaluated by our senior management and our board in accordance with specific regulations and internal rules applicable to all third-party transactions. These transactions are subject to prevailing market conditions and transfer pricing regulations.

Interbank extends loans to related parties, including its executive officers and directors and executive officers and directors of our affiliates, in accordance with Peruvian law and regulations established by the SBS. According to the SBS, loans to related parties cannot be made on more favorable terms than those offered to the public, with the exception of mortgage loans granted to workers for housing purposes. As a result, all related-party loans have been made in the ordinary course of business, on an arm’s-length basis and on substantially the same terms, including with respect to interest rates and collateral, as those prevailing at the time for comparable transactions offered to the public. In addition, related-party loans do not involve greater collection risk nor present other features unfavorable to Interbank as compared to loans offered to the public. Peruvian law and SBS regulations also set forth limitations on the amount of credit loans that may be extended to related parties based on Article 201 and Article 202 of the Peruvian Banking and Insurance Law. The law establishes that the total amount of loans to be extended to directors, employees and close relatives of any such persons may not exceed 7.0% of the bank’s regulatory capital. All loans extended to any director or employee of the company (including close relatives of such person) may not exceed 0.35% of the regulatory capital (i.e., 5.0% of the overall 7.0% limit discussed above).

In addition, under Article 202 of the Peruvian Banking and Insurance Law, no loans extended to related parties or affiliates may exceed 30.0% of a bank’s regulatory capital. Under these laws, related-party borrowers include any corporation holding, directly or indirectly, 4.0% or more of a bank’s shares, such bank’s directors, certain of its principal executive officers or other persons affiliated with such bank’s management or any individual or entity that is deemed to have a significant influence in its operations.

Peruvian regulations also set forth limits on the investments of insurance companies. Pursuant to SBS regulations, the aggregate amount of investments that Interseguro may have with any member of its economic group cannot exceed 7.0% of its technical obligations, being that any excess will be considered as non-eligible investment.

Furthermore, under Peruvian law, board members and executive officers of Interbank and Interseguro, may not (i) receive loans (in money or goods) from the company unless approved by the board of directors, (ii) use for their own benefit, the company’s assets, services or credits unless approved by the board of directors, (iii) disclose or use, inappropriately, for their own benefit, privileged information, and (iv) participate in any corporate decision that presents a conflict of interest with the company. In all cases, the execution of agreements that involve at least 5.0% of the assets of the company with persons or entities related to directors,

managers or shareholders that own, directly or indirectly, more than 10.0% of the share capital requires the prior authorization of the board of directors (with no participation of the director(s) involved in the transaction, if any). In addition, the execution of agreements with a party controlled by the company's controlling shareholder requires the prior authorization of the board of directors and an evaluation of the terms of the transaction by an external independent company (audit companies or other evaluator to be determined by the SMV).

During 2018, 2019 and 2020, IFS's directors, officers and key management had been involved, directly and indirectly, in credit transactions with certain subsidiaries of IFS, as permitted by applicable Peruvian laws and regulations that regulate and limit certain transactions with employees, directors and officers of financial entities. As of December 31, 2020, 2019 and 2018, direct loans by IFS or its subsidiaries to employees, directors, officers, and key management of IFS and its subsidiaries amounted to S/222.1 million, S/231.5 million, S/223.4 million, respectively. These loans are current and accrue interest at market rates. Payment dates vary, and may be monthly, quarterly, or at maturity. See "Item 4. Information on the Company—Business Overview—Regulation and Supervision" for information on the regulation of IFS and its subsidiaries and on the protection of deposits.

Inteligo Bank is operating pursuant to its original license, with a related party exposure of up to 25% of its capital.

For additional information about loans, including tabular disclosure, to, and certain other transactions with, related parties and affiliates including directors and officers, see Note 27 to our audited annual consolidated financial statements.

In the normal course of our operations, related party transactions are evaluated in accordance with Peruvian banking and securities regulations, as described in this section. These transactions are subject to prevailing market conditions and transfer pricing regulations. We and our subsidiaries have a number of such transactions with our parent company, subsidiaries of our parent company, affiliates pursuant to the criteria of the SBS and other related parties. See "Presentation of Financial Information" for a brief description of a number of these parties. For additional information including tabular disclosure, about loans, to, and certain other transactions with, related parties and affiliates including directors and officers, see Note 27 to our audited annual consolidated financial statements.

## **IFS**

### ***Bonds in InRetail Shopping Malls.***

Since September 20, 2019, IFS holds S/39.0 million in bonds of InRetail Shopping Malls. The annual interest rate for these bonds is 7.88% and they mature on July 20, 2034.

### ***Investment in InRetail Perú Corp.***

Since 2012, IFS holds 2,396,920 shares from InRetail Perú Corp., a subsidiary of Intercorp, valued at U.S.\$39.20 per share, as of December 31, 2020, which had an aggregate value of U.S.\$94.0 million.

## **Interbank**

### ***Lease Agreements between Interbank and Supermercados Peruanos, S.A. ("Supermercados Peruanos")***

During 2020, Interbank and Supermercados Peruanos entered into a lease agreement under which Supermercados Peruanos granted Interbank the right to use supermarket space for the operation of their stores (Money Markets format) and ATMs for a term of five years. Under the terms of such agreement, Supermercados Peruanos agreed to grant an area of 2,000 square meters of floor space for the first two years of the agreement and 1,800 square meters of floor space for the following three years.

The agreed monthly rent is as follows: (i) for stores located inside the premises (Money Markets format) the rent is S/248.00 per square meter plus taxes, (ii) for stores located outside the premises, the rent is S/165.00 per square meter plus taxes, (iii) for ATMs located inside the premises, the rent is S/1,800.00 plus taxes and, (iv) for ATMs located outside the premises, the rent is S/1,300.00 plus taxes.

In addition, Interbank has made a security deposit of US\$1.0 million (approximately S/3.4 million), which shall be applied as a guarantee of payment of the monthly rent. Finally, Supermercados Peruanos has granted an exclusivity right to Interbank for the operation of up to 51 stores (Money Market format) and for ATMs located inside the supermarket premises.

### ***Loan Agreement between Interbank and GTP Inversionistas S.A.C.***

In May 2017, Interbank and GTP Inversionistas S.A.C. an affiliate, pursuant to the criteria of the SBS, entered into a loan agreement under which Interbank disbursed to the latter U.S.\$32.6 million for the indirect acquisition of 24.95% of the capital stock of Universidad Tecnológica del Perú S.A.C. ("UTP"). The loan was granted for a term of five years to be repaid in five annual

payments with an effective annual interest rate of 7.875%. The collateral granted consisted on a pledge agreement of 24.95% of the capital stock of UTP. In May 2020, the loan agreement was amended, increasing the remaining term to seven years. As of December 31, 2020, the total outstanding debt under such loan agreements amounts to U.S.\$ 30.2 million.

#### ***Lease Agreements with Supermercados Peruanos***

Interbank and Supermercados Peruanos, a subsidiary of InterCorp, have entered into several lease agreements whereby Interbank leased real estate property, machinery and equipment to Supermercados Peruanos. These lease agreements are amended from time to time, most recently in October 2019. As of December 31, 2020, the outstanding debt under such lease agreements amounts to S/102 million.

#### ***Loan Agreement with Supermercados Peruanos***

On September 27, 2018, Interbank and Supermercados Peruanos entered into a medium-term loan agreement under which Interbank granted a loan for up to S/95 million to be paid in 28 installments at a monthly interest rate of 5.85%. In October 2019, the loan agreement was amended. As of December 31, 2020, the outstanding debt under such loan agreement amounts to S/198 million.

#### ***Lease Agreements with Homecenters Peruanos (“HPSA”)***

Interbank and HPSA, a subsidiary of InterCorp, have entered into several lease agreements whereby Interbank leased machinery and equipment to HPSA. As of December 31, 2020, the total outstanding debt under such lease agreements amounts to S/56.5 million.

#### ***Loan Agreements with HPSA***

In November, 2019, Interbank and HPSA, a subsidiary of InterCorp, entered into a term loan agreement for S/25 million at annual interest rate of 5.30%. As of December 31, 2020, the loan had been fully disbursed and the total outstanding debt under such loan agreement amounts to S/23.2 million.

#### ***Loan Agreement with InRetail Pharma***

Interbank and InRetail Pharma, a subsidiary of InterCorp, have entered into a syndicated secured loan agreement for up to S/161.9 million due on April 2025. The collateral granted consisted on mortgage over real estate properties and guarantees (*fianzas solidarias*) granted by several of its subsidiaries. As of December 31, 2020, the total outstanding debt under such loan agreement amounts to S/104.1 million at an interest rate of 4.7%.

#### ***Loan Agreement with UTP***

In September 2018, Interbank and UTP, a subsidiary of InterCorp, entered into a loan agreement under which Interbank disbursed to the latter S/80.0 million at an interest rate of 6.9%. The loan was granted for a term of seven years, which included a two years grace period. The collateral consisted of a mortgage over real estate properties and assignment of surface rights. In September 2020, as a result of the result of the spin-off of UTP and IDAT, the loan was split and assigned as follows: S/62.0 million to UTP and S/18.0 million to IDAT.

In March 2020, Interbank and UTP, a subsidiary of InterCorp, entered into a loan agreement under which Interbank disbursed to the latter S/112.0 million at an interest rate of 5.60%. The loan was granted for a term of seven years, which includes a one year grace period for principal payments. The collateral consisted of trust flow money. In June 2020, interest payments were rescheduled, capitalizing the interest.

As of December 31, 2020, the aggregate amount outstanding under the loan agreement with UTP amounted to S/172.9 million.

#### ***Interseguro***

##### ***Agreements with Colegios Peruanos S.A. (“CPSA”)***

In September 2016, Interseguro and CPSA, a subsidiary of InterCorp, signed a usufruct agreement for a period of 20 years, according to which Interseguro granted in usufruct the property located in Trujillo, Peru in favor of CPSA, in order for CPSA to operate a school under the commercial name of “Innova School”. Interseguro will construct the building in four stages; each stage will be carried out of a period of one year. The first stage was completed in April 2017. Currently, CPSA pays Interseguro a monthly rent which amounts to S/118,985 before taxes, adjusted annually by 3% plus 9.1% on the total investment accumulated on the date incurred by Interseguro on the property. Due to COVID-19, in 2020, payment of the monthly rent was renegotiated such that CPSA will pay a percentage of the monthly amount, with the remaining balance for each such month in 2020 to be paid in a period of 18 months.

In October 2017, Interseguro and CPSA signed a usufruct agreement for a period of 25 years, according to which Interseguro leased the property located in Cusco, Peru, in order to operate a school under the commercial name of “Innova School”. Interseguro constructed the building, which was completed in January 2018. In April 2018, CPSA began paying Interseguro a monthly rent. The current rent amounts to S/206,385 before taxes, adjusted annually by 3% plus 9.3% on the total investment accumulated on the date incurred by Interseguro on the property. Due to COVID-19, in 2020, payment of the monthly rent was renegotiated such that CPSA will pay a percentage of the monthly amount, with the remaining balance for each such month in 2020 to be paid in a period of 18 months.

In June 2008, Interseguro bought a certificate of participation in the trust Patrimonio en Fideicomiso D.S 093-2002-EF Interproperties Perú (“Interproperties”), which is managed by Internacional de Titulos Sociedad Titulizadora S.A. (“Intertitulos”), corresponding a real estate project that was developed in a property located in Ate, Lima, Peru. Also, in October 2012, Interproperties and CPSA signed a surface right agreement, according to which Interproperties granted this property in surface right, in order to operate a school under the commercial name of “Innova Schools”. As of December 31, 2020, the fair value of the property amounts to S/4.6 million.

#### ***Agreements with HPSA***

In November 2012, HPSA, a subsidiary of InterCorp, and Hebraica Asociación Cultural Deportiva y Social (“Hebraica”) signed a surface right agreement according to which Hebraica granted a surface right in favor of HPSA over the commercial space located in Ate, Lima. In October 2015, HPSA assigned its contractual position to Interseguro. In April 2016, Interseguro and HPSA entered into a 30-year usufruct agreement, according to which HPSA was granted in usufruct the property, in order to operate a home improvement store under the commercial name of “Promart”. The monthly lease payment under agreement since January 2017, is comprised of a payment of S/164,744 before taxes, adjusted annually by 3%, and the payment made by Interseguro to Hebraica for the surface right agreement that both parties signed in October 2015. The current monthly rent amounts to S/194,593.20 before taxes.

In July 2017, HPSA and Interseguro signed a surface right agreement according to which HPSA granted a surface right in favor of Interseguro over the commercial space located in Ica, Perú. In addition, in July 2017, Interseguro and HPSA signed a usufruct agreement for a period of 30 years, according to which Interseguro granted in usufruct the property located in Ica, Perú, in order to operate a home improvement store under the commercial name of “Promart”. Interseguro constructed the building, and works finished in December 2018. Currently, Homecenters Peruanos pays Interseguro monthly rent equivalent to (i) 9.4% of the total investment accumulated on the date incurred by Interseguro on the property before taxes which is adjusted annually by 3%, and (ii) S/98,889 plus corresponding VAT, adjusted annually by 3%. The current monthly rent amounts to S/289,197.

In October 2015, Interseguro contributed in trust the property located in Talara, Piura, Peru in favor of Interproperties, which is managed by Intertitulos. Accordingly, Intertitulos issued in favor of Interseguro a certificate of participation representing 100% of the property ownership. In addition, in October 2015, Interproperties Perú and HPSA signed a usufruct agreement for a period of 30 years, according to which Interproperties granted in usufruct this property, in order to operate a home improvement store under the commercial name of “Promart”. As of December 31, 2020, the fair value of the property amounts to S/35.0 million.

#### ***Agreements with UTP***

In June 2018, Interseguro and UTP signed a usufruct agreement for a period of 30 years, according to which Interseguro granted in usufruct to UTP the property located in Ate, Lima, Peru, for it to operate a university campus under the commercial name of “UTP”. The annual rent is equivalent to 8.5% of the total investment before taxes which is adjusted annually according to CPI variation. This annual rent will be paid to Interseguro in four quarterly installments. The current quarterly rent amounts to S/1,646,905.72 before taxes. Due to COVID-19, in 2020, payment of the monthly rent was renegotiated such that UTP will pay a percentage of the monthly amount, with the remaining balance for each such month in 2020 to be paid in a period of 12 months.

In November 2019, Interseguro and UTP signed an usufruct agreement for a period of 30 years, according to which Interseguro granted in usufruct to UTP the property located in Nuevo Chimbote, Ancash, Peru, for it to operate a university campus under the commercial name of “UTP”. Interseguro finished constructing the building in the last quarter of 2020, and commencing in 2021, UTP will pay an annual rent to Interseguro in four quarterly installments, ascending to S/950,393 before taxes, adjusted annually according to CPI variation.

In April 2020, Interseguro and UTP signed a usufruct agreement for a period of 30 years, pursuant to which Interseguro granted in usufruct to UTP the property located in Piura, Peru, for it to operate a university campus under the commercial name of “UTP”. Interseguro is currently constructing the building, which is expected to be completed during the first quarter of 2021. UTP agreed to pay to Interseguro a quarterly rent ascending to S/1,552,596 before taxes, adjusted annually according to CPI variation.

### ***Agreements with Supermercados Peruanos***

In October 2015, Interseguro contributed in trust the property located in Talara, Piura, Peru in favor of Interproperties, which is managed by Intertitulos. Accordingly, Intertitulos issued in favor of Interseguro a certificate of participation representing 100% of the property ownership. In addition, in January 2016, Interproperties and Supermercados Peruanos signed a usufruct agreement for a period of 30 years, according to which Interproperties granted in usufruct to Supermercados Peruanos this property, for it to operate a home improvement store under the commercial name of “Plaza Vea”. As of December 31, 2020, the fair value of the property amounts to S/35.0 million.

#### **C. Interests of Experts and Counsel**

Not Applicable.

### **ITEM 8. FINANCIAL INFORMATION**

#### **A. Consolidated Statements and Other Financial Information**

See “Item 17. Financial Statements.”

#### **Legal Proceedings**

We are not involved in any legal or arbitration proceedings which could have a material adverse effect on our financial position.

Interbank is involved in a number of legal proceedings in the ordinary course of its banking activities. Interbank is also a party to a number of legal proceedings related to labor disputes with former employees and tax disputes with the tax authority.

Interseguro is routinely involved in legal or arbitration proceedings with respect to liabilities that are the subject of policy claims. These liabilities are taken into account in setting Interseguro’s technical reserves.

Inteligo Bank is involved in legal proceedings in the ordinary course of its banking operations. Inteligo Bank has been named as a defendant in the following litigation matters:

- A lawsuit filed on September 2, 2010 by the liquidators of Fairfield Sentry Limited (“Fairfield”).
- A lawsuit filed on October 6, 2011 by Irving Picard, the Trustee for Bernard L. Madoff Investment Securities LLC (“BLMIS”).

These lawsuits seek the return of approximately U.S.\$11 million in redemption payments received by Inteligo Bank in connection with investments in Fairfield, a BLMIS feeder fund.

On March 6, 2017, the U.S. Bankruptcy Court for the Southern District of New York (the “Bankruptcy Court”) dismissed the lawsuit filed by Irving Picard. On February 25, 2019 the U.S. Court of Appeals for the Second Circuit (the “Second Circuit”) issued a decision reversing that dismissal. On May 2, 2019, the Second Circuit granted a motion filed by defendants, including Inteligo Bank, to stay issuance of its mandate in the appeal pending the U.S. Supreme Court’s decision on the defendants’ petition for certiorari. On August 30, 2019, Inteligo Bank, together with other defendants, filed a joint petition for certiorari, seeking U.S. Supreme Court review of the Second Circuit’s decision. On June 1, 2020, the U.S. Supreme Court denied the petition for certiorari, and the Second Circuit issued a mandate remanding these matters to the Bankruptcy Court for further proceedings.

A motion to dismiss the Fairfield liquidators’ lawsuit was filed on January 13, 2017. On December 6, 2018, the Bankruptcy Court granted the motion to dismiss with some specific exceptions, resulting in the dismissal of most of the liquidators’ claims against Inteligo Bank. On April 2, 2019, the Bankruptcy Court issued an order that dismissed most of the Fairfield liquidator’s claims against Inteligo Bank and established a briefing schedule for subsequent motion to dismiss briefing to address whether the liquidators’ remaining claims should also be dismissed. On May 2, 2019, the liquidators filed a notice of appeal in this action reflecting their intention to appeal the Bankruptcy Court’s partial dismissal to the United States District Court for the Southern District of New York (the “District Court”). The liquidators filed equivalent notices of appeal in the many other actions in which claims had been dismissed pursuant to the December 6, 2018 decision. That appeal was fully briefed with the District Court as of April 23, 2020. Separately, on March 16, 2020, Inteligo Bank, together with other defendants, filed a renewed motion to dismiss with the Bankruptcy Court seeking dismissal of the remaining claims that had not been dismissed pursuant to the December 6, 2018 decision. On December 14, 2020, the Bankruptcy Court granted that motion to dismiss the liquidators’ remaining claims, with some specific exceptions not applicable to Inteligo Bank. On March 8, 2021 the Bankruptcy Court dismissed all other claims in this proceeding and ruled in favor of all defendants. On March 29, 2021, the liquidators filed a notice of appeal.

## Dividends and Dividends Policy

We are a holding company and, as such, our ability to pay dividends is subject to the ability of our subsidiaries to pay dividends to us.

Our annual dividend is proposed by our board of directors and approved at our annual ordinary meeting of shareholders, in accordance with our dividend policy which for year 2020 consists of distributing to shareholders at least 20% of any profit earned for the relevant year, subject to regulatory capitalization requirements and our financial condition. Dividends are paid to shareholders who held common shares as of the record date preceding the date set for payment of the dividend. The shares go ex-dividend two business days prior to the record date. Dividends are declared and paid in U.S. dollars.

IFS's dividends for the fiscal years ended December 31, 2020, 2019, and 2018 were U.S.\$88.9 million (S/332.1 million), U.S.\$202 million (S/698.2 million), and U.S.\$197.2 million (S/654.5 million), and will be or were paid in May of 2021, 2020, and 2019, respectively. Dividend per share amounted to U.S.\$0.77, U.S.\$1.75 and U.S.\$1.75 for fiscal years 2020, 2019 and 2018, respectively.

## Interbank

Interbank's dividends are proposed annually by its board of directors and are subject to approval by the general shareholders' meeting. The 2019 dividend policy established that Interbank will pay dividends of at least twenty percent of its net profits in 2019, 2020 and 2021. However, on November 10, 2020, the shareholder's meeting amended the dividend policy as follows: At least 20% of the distributable profits of Interbank recorded in the fiscal year will be distributed among the shareholders, provided that the following rules are observed: (a) the profit capitalization commitment agreements adopted by the general shareholders' meeting or by the board of directors (as delegated by the shareholders' meeting), are not affected, (b) both the legal requirements applicable to Interbank and its appetite for equity growth are satisfied, in accordance with the board of directors' proposal, and (c) the board of directors deems such distribution to be advisable based on the economic and financial conditions of Interbank and the business environment. In accordance with the foregoing, if during any year any of the aforementioned rules is not satisfied, the general shareholders' meeting may agree to distribute a lower percentage of dividends than indicated or decide not to distribute dividends for such year. Any dividends would be distributed within sixty calendar days following their declaration and approval at the general shareholders' meeting. For the fiscal year ended 2020, Interbank did not distribute dividends as the general shareholders' meeting agreed to capitalize all distributable income (net income minus the required legal reserves which may be up to 10% of net profit). For the fiscal year ended 2019, Interbank declared and distributed as dividends approximately 28%, of its distributable income (net income minus the required legal reserves which may be up to 10% of net profit). For the fiscal year ended 2018, Interbank declared and distributed as dividends approximately 50% of its distributable income (net income minus the required legal reserves which may be up to 10% of net profit).

Dividends are declared based on Interbank's financial statements prepared under SBS GAAP. The following table shows Interbank's distribution of net profit for the three fiscal years ended December 31, 2020, 2019 and 2018 under SBS GAAP.

	For the fiscal years ended December 31,		
	2020	2019	2018
	(S/ in millions)		
Net profit	264.9	1,221.5	1,040.1
Reserves	26.5	120.9	103.8
Capitalized earnings	238.4	785.9	467.0
Dividends	—	302.3	467.0

## Interseguro

Interseguro's dividends are proposed annually by its board of directors and are subject to approval by the general shareholders' meeting. Current dividend policy establishes that Interseguro will pay as dividends at least 30% of its net profits attained in any given year. Dividend distributions depend on several factors, including (1) approval by Interseguro's shareholders of the proposal to distribute dividends, (2) Interseguro's earnings, (3) protection of Interseguro's equity growth, (4) capital and legal reserve requirements, and (5) prevailing market conditions.

The following table shows Interseguro's distribution of net profit for the three fiscal years ended December 31, 2020, 2019 and 2018 under SBS GAAP.

	For the fiscal years ended December 31,		
	2020	2019	2018
	(S/ in millions)		
Net profit	256.6	435.9	361.1
Reserves	22.0	16.9	100.0
Capitalized earnings <sup>(1)</sup>	63.0	48.1	—
Dividends	200.0	200.0	245.0

(1) Includes capitalization of earnings net of accumulated losses.

## Inteligo

Inteligo Bank's dividends are proposed annually by its board of directors and are subject to approval by the general shareholders' meeting. Dividend distributions depend on several factors, including (1) approval by Inteligo's shareholders of the proposal to distribute dividends, (2) Inteligo Bank's earnings, (3) Inteligo Bank's capital expenditure program, and (4) prevailing market conditions.

The following table shows Inteligo Bank's distribution of net profit and dividends for the three fiscal years ended December 31, 2020, 2019 and 2018 under IFRS.

	For the fiscal years ended December 31,		
	2020	2019	2018
	(S/ in millions)		
Net profit	250.2	193.9	184.7
Dividends	137.6	99.4	134.9

For additional information regarding risks that could materially adversely affect our ability to pay dividends, see "Item 3. Key Information—Risk Factors—Risks Relating to Our Business—We are a holding company, and all of our operations are conducted by our subsidiaries. Our ability to pay dividends to holders of our common shares will depend on the ability of our subsidiaries to pay dividends to us".

For additional information regarding taxation of dividends, see "Item 10. Additional Information—Taxation—Peruvian Tax Considerations" and "Item 10. Additional Information—Taxation—United States Federal Income Tax Considerations—Distributions".

## B. Significant Changes

No significant changes in our financial condition have occurred since the date of the most recent audited consolidated financial statements included in this Annual Report on Form 20-F.

## ITEM 9. THE OFFER AND LISTING

### A. Offer and Listing Details

#### Our Shares

Our common shares are registered in the Public Registry of Securities held with the SMV and are listed on the Lima Stock Exchange and on the NYSE under the symbol "IFS".

### B. Plan of Distribution

Not Applicable.

### C. Markets

#### Trading in the Peruvian Securities Market

##### Lima Stock Exchange

As of December 31, 2020, there were 267 companies listed on the Lima Stock Exchange. Established in 1970, the Lima Stock Exchange is Peru's only securities exchange.

Trading on the Lima Stock Exchange is primarily done on an electronic trading system that became operational in August 1995. From the first Sunday of November through the second Sunday of March of each year, trading hours are Monday through Friday (except holidays) as follows: 9:00 a.m.–9:30 a.m. (pre-market ordering); 9:30 a.m.–3:52 p.m. (trading); 3:52 p.m.–4:00 p.m. (after-market sales); and 4:02 p.m.–4:10 p.m. (after-market trading). At all other times, trading hours are from Monday to Friday (except holidays) as follows: 8:20 a.m.–8:30 a.m. (pre-market ordering); 8:30 a.m.–2:52 p.m. (trading); 2:52 p.m.–3:00 p.m. (after-market sales); and 3:02 p.m.–3:10 p.m. (after-market trading).

Substantially all of the transactions on the Lima Stock Exchange are traded on the electronic system. Transactions during the electronic sessions are executed through brokerage firms and stock brokers on behalf of their clients. The orders must specify the type of security as well as the amount and price of the proposed sale or purchase. The exchange is authorized to halt the trading of certain securities or the whole market, under certain circumstances, for example, when a significant fluctuation occurs with the price of a security, without apparent justification. In this case, the exchange may impose a 15 minutes halt, which may be extended depending on the nature of the event.

Moreover, under the exchange's market margin rule, when the market price for a particular security reaches a 15% variation (vis a vis the last closing price or proposal, whichever is higher), trading on that particular security is halted for the rest of the session. The exchange may exceptionally authorize further negotiation. The market margin rule is not applicable for securities cross-listed in certain markets, including the United States.

Certain information regarding trading on the Lima Stock Exchange is set forth in the table below:

	(S/ in millions)				
	2016	2017	2018	2019	2020
Market capitalization <sup>(1)</sup>	416,167	526,354	479,301	537,308	599,007
Volume	15,307	29,123	20,208	18,127	19,938
Average daily trading volume	62	117	81	72	79

**ITEM 10. ADDITIONAL INFORMATION**

**A. Share Capital**

As of December 31, 2020, our authorized capital consists of 150,000,000 common shares, and our issued capital stock consists of 115,447,705 outstanding common shares, with no par value. All of our common shares are fully paid and non-assessable. Non-residents of Panama may hold and vote shares.

**B. Memorandum and Articles of Association**

The information under the heading "Description of Common Shares" except for the information under the subheading "—General;" in Amendment No. 1 to our Registration Statement on Form F-1 (333-232554) filed on July 15, 2019 is incorporated herein by reference. There have been no changes to the Company's Articles, as reflected in the Company's financial statements.

**C. Material Contracts**

The following is a brief summary of our current material contracts. A copy of each of these contracts has been included as exhibit hereto. See "Item 19. Exhibits."

## **Irrevocable Proxy Agreement**

On June 12, 2019, International Financial Holdings Group Inc. (“IFH”), representing 77.3% of the voting rights of Intercorp Peru and the right to appoint the majority of the members of the board of directors of Intercorp Peru, entered into an irrevocable proxy agreement (the “Irrevocable Proxy Agreement”) appointing Carlos Tomás Rodríguez Pastor Persivale, George Pastor and Anne Marie See (the “Agents”) as its agents, acting by majority vote, with respect to any matters relating to IFH’s ownership interest in Intercorp Peru, including, among other matters, any Intercorp Peru’s shareholder votes that is, any votes by an Intercorp Peru Shareholder, which would include a vote by IFH as a shareholder of Intercorp Peru and separately, any decisions pertaining to the purchase or sale of shares in Intercorp Peru (and through Intercorp Peru, Intercorp Peru’s interest in IFS). The three Agents are siblings. The initial period of the Irrevocable Proxy Agreement is two years commencing in June 2019, automatically renewable for six-month periods unless otherwise terminated upon 90 days’ notice. “Item 7. Major Shareholders and Related Party Transactions—Major Shareholders.”

## **IFS Indenture**

On October 19, 2017 we entered into an indenture among us, The Bank of New York Mellon, as trustee, and The Bank of New York Mellon SA/NV, Luxembourg Branch, as Luxembourg transfer and paying agent in connection with the issuance of U.S.\$300,000,000 aggregate principal amount of 4.125% senior notes due 2027. The use of proceeds was to fund the acquisition of 100% of the capital stock of Seguros Sura S.A. and Hipotecaria Sura Empresa Administradora Hipotecaria S.A. See “Item 5. Operating and Financial Review and Prospects—Liquidity and Capital Resources.”

## **D. Exchange Controls**

The Peruvian *sol* is freely traded in the exchange market. Current Peruvian regulations on foreign investment allow foreign equity holders of Peruvian companies to receive and repatriate 100% of the cash dividends distributed by these companies. Non-Peruvian equity holders are allowed to purchase foreign currency at free market currency rates through any member of the Peruvian banking system and transfer such foreign currency outside Peru without restriction. Peruvian law in the past, however, has imposed restrictions on the conversion of Peruvian currency and the transfer of funds abroad, and we cannot assure holders of our common shares that Peruvian law will continue to permit such payments, transfers, conversions or remittances without restrictions. In addition, under Panamanian law, there are currently no exchange control restrictions imposed on payments made in U.S. dollars. There can be no assurance, however, that Peruvian and Panamanian laws will continue to permit such payments, transfers, conversions or remittances without restrictions.

## **E. Taxation**

The following discussion summarizes the material Peruvian, U.S. federal and Panamanian income tax consequences of acquiring, holding and disposing of our shares.

This discussion is not a comprehensive discussion of all the tax considerations that may be relevant to a decision to purchase our shares and is not applicable to all categories of investors, some of which may be subject to special rules, and does not specifically address all of the Peruvian, U.S. federal and Panamanian income tax considerations applicable to any particular holder. It is based upon the tax laws of Peru, the United States and Panama as in effect on the date of this Annual Report on Form 20-F, which are subject to change, possibly with retroactive effect, and to differing interpretations. Holders of our common shares are urged to consult its independent tax advisor about the particular Peruvian, U.S. federal and Panamanian income tax consequences to it of an investment in our shares.

## **Peruvian Tax Considerations**

The following summary of certain Peruvian tax matters as in force on the date of this Annual Report on Form 20-F describes the principal tax consequences of an investment in our common shares or the beneficial interest therein by non-Peruvian shareholders. This summary is not intended to be a comprehensive description of all of the tax considerations that may be relevant to a decision to make an investment in our common shares or the beneficial interest therein. In addition, it does not describe any tax consequences: (a) arising under the laws of any taxing jurisdiction other than Peru or (b) applicable to anyone different from a non-Peruvian shareholder.

For purposes of this section, “non-Peruvian shareholder” means either: (i) a legal entity which has neither been incorporated nor established in Peru, provided that it does not conduct any trade or business through a permanent establishment in Peru or holds our shares or the beneficial interest therein through a Peruvian branch or (ii) an individual who is not a Peruvian tax resident. For Peruvian tax purposes, an individual is deemed to be a Peruvian tax resident if such individual is (a) a Peruvian citizen who has a regular residence in Peru, or (b) a non-Peruvian citizen who has resided or remained in Peru for more than 183 calendar days during any 12-month period. Any change in the residency condition will be effective as of January 1 of the following calendar year in which such conditions are met.

The discussion in this summary is not intended or written to be used, and cannot be used or relied upon by any person, for the purpose of avoiding Peruvian taxation, and was written to support the promotion or marketing of this offering. Holders of our common shares should consult an independent tax advisor with respect to the Peruvian tax consequences of participating.

### **Peruvian Income Tax**

#### ***Payment of Dividends***

Dividends paid by legal entities incorporated in Peru are subject to a Peruvian withholding tax at a 5% rate. Our Peruvian subsidiaries are required to act as withholding agents for any income tax due with respect to dividends on their shares. We have not agreed to assume the withholding payments nor pay additional amounts so that the non-Peruvian shareholder of our common shares or the beneficial interest therein receives an amount equal to the sum it would have received had no such deductions or withholdings been made.

Dividends paid on our common shares will not be subject to a Peruvian withholding.

#### ***Sale of our common shares***

As a general rule, under the current Peruvian income tax laws and regulations, proceeds received by a non-Peruvian shareholder on the sale, exchange or disposition of our common shares will not be subject to any Peruvian withholding or capital gains tax, since our common shares are deemed to be issued by a legal entity not incorporated in Peru.

However, capital gains accrued and received by a non-Peruvian shareholder on the sale, exchange or disposition of our common shares will be subject to Peruvian income tax at a 30% rate if such transaction consists of an indirect transfer of shares issued by a Peruvian entity ("Peruvian shares"). An indirect transfer of Peruvian shares takes place in the transfer of the shares of a non-Peruvian entity that owns, directly or indirectly, shares of a Peruvian company provided that the following conditions are met:

- (i) the fair market value of the Peruvian shares, whether owned directly or indirectly by the foreign parent company, is equal to 50% or more of the fair market value of the capital stock issued by the foreign parent entity at any time during the 12-month period prior to the transfer; and,
- (ii) in any 12-month period, 10% or more of the shares issued by the foreign parent company are transferred.

Applicable regulations provide specific rules to determine the fair market value and cost of the stock issued by the foreign parent entity.

There is a rebuttable presumption that both conditions are met if the foreign parent company whose shares are transferred resides in a low-tax, zero-tax or un-cooperative jurisdiction pursuant to Peruvian legislation.

An indirect transfer of Peruvian shares also takes place in the transfer of the shares of a non-Peruvian entity that owns, directly or indirectly, shares of a Peruvian company provided the aggregate amount of the Peruvian shares being indirectly transferred by the transferor and its related parties in any 12-month period reaches or exceeds 40,000 Tax Units (the applicable Tax Unit for fiscal year 2020 was equal to S/4,300 and for fiscal year 2021 is equal to S/4,400). This new rule is effective as from January 1, 2019 and applies irrespective if conditions (i) and (ii) abovementioned are not met.

A 5% preferential rate would be applicable if (i) such shares are registered with the SMV; and (ii) such sale is performed through trading sessions (*rueda de bolsa*) of the Lima Stock Exchange.

A further tax exemption would be applicable provided (i) such shares are registered with the SMV; (ii) such sale is performed through trading sessions (*rueda de bolsa*) of the Lima Stock Exchange, (iii) such shares have a stock market presence as of the transfer date (ensuring share liquidity and continuous price quotations); and (iv) the transferor and its related parties have not transferred 10% or more of the aggregate shares issued by the foreign parent company in any 12-month period. This tax exemption is set to expire in its entirety on December 31, 2022.

### **Value added tax**

Dividends resulting from the shares issued by our Peruvian subsidiaries are not subject to Peruvian Value Added Tax (*Impuesto General a las Ventas*, or "VAT").

The sale, exchange or disposition of shares issued by our Peruvian subsidiaries is not subject to VAT.

### **Financial Transaction Tax**

Deposits in and withdrawals from accounts held in Peruvian banks or other financial institutions, whether in *soles* or foreign currency, are levied with a financial transactions tax (“FTT”) at a 0.005% rate. Therefore, FTT will be levied on the price paid for and the dividends resulting from the shares issued by our Peruvian subsidiaries if deposited in or withdrawn from a Peruvian bank or other financial institution, as the case may be.

### **United States Federal Income Tax Considerations**

The following discussion is a summary of certain material U.S. federal income tax consequences of acquiring, owning and disposing of our common shares. Except where otherwise noted, this discussion applies only to U.S. Holders (as defined below) of our common shares that hold such shares as “capital assets” (generally, property held for investment). This discussion is based on the Internal Revenue Code of 1986, as amended (the “U.S. Code”), its legislative history, existing final, temporary and proposed U.S. Treasury regulations, administrative pronouncements by the Internal Revenue Service (the “IRS”) and judicial decisions, all as of the date hereof and all of which are subject to change (possibly on a retroactive basis) and to different interpretations.

This discussion does not purport to address all U.S. federal income tax consequences that may be relevant to a particular holder and holders are urged to consult their own tax advisors regarding their specific tax situations. The discussion does not address the tax consequences that may be relevant to holders subject to special tax rules, including, for example:

- insurance companies;
- tax-exempt organizations;
- dealers in securities or currencies;
- traders in securities that elect the mark to market method of accounting with respect to their securities holdings;
- banks or other financial institutions;
- partnerships or other pass-through entities or arrangements for U.S. federal income tax purposes;
- U.S. Holders whose functional currency for U.S. federal income tax purposes is not the U.S. dollar;
- real estate investment trusts or regulated investment companies;
- persons that, directly or indirectly, hold 10% or more of our stock by vote or value;
- U.S. expatriates; or
- persons for whom the common shares may form part of a hedge, straddle, conversion or other integrated transaction.

Further, this discussion does not address the U.S. federal estate and gift tax, or alternative minimum tax consequences, or the Medicare tax on net investment income, or any state, local and non-U.S. tax consequences of acquiring, owning and disposing of the common shares.

As used herein, the term “U.S. Holder” means a beneficial owner of the common shares that is, for U.S. federal income tax purposes:

- an individual who is a citizen or resident of the United States;
- a corporation, or any other entity taxable as a corporation, created or organized in or under the laws of the United States, any state thereof or the District of Columbia;
- an estate the income of which is subject to U.S. federal income tax regardless of its source; or
- a trust if (i) a court within the United States is able to exercise primary supervision over its administration and one or more U.S. persons have the authority to control all substantial decisions of the trust or (ii) the trust has a valid election in effect under current U.S. Treasury regulations to be treated as a U.S. person.

If a partnership (or any other entity or arrangement treated as a partnership for U.S. federal income tax purposes) holds the common shares, the tax treatment of the partnership and a partner in such partnership generally will depend on the status of the partner and the activities of the partnership. Such partner or partnership should consult its own tax advisor as to its consequences of acquiring, owning and disposing of the common shares.

Except where specifically described below, this discussion assumes that we are not a passive foreign investment company (“PFIC”) for U.S. federal income tax purposes. Please see the discussion under “Item 10. Additional Information—Taxation—United States Federal Income Tax Considerations—Passive Foreign Investment Companies” below.

### ***Distributions***

Subject to the discussion below under “Item 10. Additional Information—Taxation—United States Federal Income Tax Considerations—Passive Foreign Investment Companies,” distributions of cash or property (other than our common shares, if any, distributed pro rata to all of our shareholders) paid out of our current or accumulated earnings and profits (as determined for U.S. federal income tax purposes) with respect to our common shares, including the net amount of any tax withheld on the distribution, will be includible in gross income as ordinary dividend income on the date on which the U.S. Holder receives the distributions. To the extent that the amount of any distribution exceeds our current and accumulated earnings and profits as determined for U.S. federal income tax purposes, such excess amounts will be treated first as a non-taxable return of capital to the extent of such U.S. Holder’s tax basis in our common shares and, thereafter, as capital gain. We do not intend to maintain calculations of our earnings and profits under U.S. federal income tax principles. Unless and until these calculations are made, distributions should be presumed to be taxable dividends for U.S. federal income tax purposes. As used below, the term “dividend” means a distribution that constitutes a dividend for U.S. federal income tax purposes.

A dividend paid in a non-U.S. currency will be includible in the gross income of a U.S. Holder in a U.S. dollar amount calculated by reference to the exchange rate in effect on the day the dividend is received by the U.S. Holder, regardless of whether the payment is in fact converted to U.S. dollars. If a dividend paid in a non-U.S. currency is converted into U.S. dollars on the day the dividend is received by the U.S. Holder, the U.S. Holder generally will not be required to recognize foreign currency gain or loss in respect of the dividend income. Any gain or loss resulting from currency exchange fluctuations during the period from the date the dividend payment is included in the gross income of a U.S. Holder through the date such non-U.S. currency is converted into U.S. dollars (or otherwise disposed of) generally will be treated as U.S. source ordinary income or loss. U.S. Holders should consult their own tax advisors regarding the treatment of foreign currency exchange gain or loss, if any, with respect to non-U.S. currency received by the U.S. Holder which is not converted into U.S. dollars on the date of receipt.

Dividends paid to corporate U.S. Holders with respect to our common shares will not be eligible for the dividends received deduction allowed to corporations under the U.S. Code. Dividends received by certain non-corporate U.S. Holders with respect to the common shares will be subject to U.S. federal income tax at preferential rates if the dividends constitute “qualified dividend income” for U.S. federal income tax purposes. Dividends paid on the common shares will be treated as qualified dividend income if (i) the common shares are readily tradable on an established securities market in the United States, (ii) the U.S. Holder satisfies certain holding period and other requirements and (iii) we were not, in the year prior to the year in which the dividend was paid, and are not, in the year in which the dividend is paid, a PFIC.

Our common shares are listed on the NYSE, and therefore we expect that the common shares should qualify as readily tradable on an established securities market in the United States.

Moreover, as discussed below under “Item 10. Additional Information—Taxation—United States Federal Income Tax Considerations—Passive Foreign Investment Companies,” we believe that we will not be treated as a PFIC for U.S. federal income tax purposes with respect to our 2020 and current taxable years, and we do not anticipate becoming a PFIC in the future. However, there can be no assurance in this regard because the PFIC determination is made annually and is based on the portion of our assets (including goodwill) and income that is characterized as passive under the PFIC rules and our continued qualification for an exception to the PFIC rules for certain foreign banks and insurance companies.

Subject to generally applicable limitations and conditions under the U.S. Code (including a minimum holding period requirement), any non-U.S. income tax withheld from dividends may be treated as a foreign income tax eligible for credit against a U.S. Holder’s U.S. federal income tax liability. Dividends paid on our common shares generally will constitute foreign source income, and for purposes of calculating the foreign tax credit, as “passive category income,” for most U.S. Holders. Alternatively, a U.S. Holder may be able to deduct foreign income taxes paid with respect to dividends on our common shares against its taxable income, assuming such U.S. Holder does not take a credit for any foreign income taxes paid or accrued during the taxable year and certain other conditions are met. U.S. Holders should consult their own advisors concerning the implications of these rules in light of their particular circumstances.

### ***Sale, Exchange or Other Taxable Disposition of our Common Shares***

Subject to the discussion below under “Item 10. Additional Information—Taxation—United States Federal Income Tax Considerations—Passive Foreign Investment Companies,” gain or loss realized by a U.S. Holder on the sale, exchange or other taxable disposition of our common shares generally will be capital gain or loss and generally will be long-term capital gain or loss if our common shares have been held for more than one year. The amount of gain or loss realized will be the difference between (i) the amount realized on the sale, exchange or other taxable disposition of our common shares over (ii) the U.S. Holder’s adjusted tax basis in such common shares, in each case determined in U.S. dollars. A U.S. Holder’s adjusted tax basis in a common share generally will equal the cost of the common share to the U.S. Holder. Long-term capital gain realized by certain U.S. Holders (including individuals) generally is eligible for favorable rates of U.S. federal income tax. The deductibility of capital losses is subject to significant limitations under the U.S. Code.

Any gain or loss realized by a U.S. Holder on such a sale, exchange or other taxable disposition of our common shares generally will be treated as U.S. source income or loss for U.S. foreign tax credit purposes. If any non-U.S. income tax is withheld on such sale, exchange or other taxable disposition, a U.S. Holder generally would not be able to utilize foreign tax credits in respect of such non-U.S. income tax unless the U.S. Holder has other income from foreign sources, for purposes of the foreign tax credit limitation rules. Alternatively, a U.S. Holder may be able to deduct non-U.S. income tax paid with respect to a disposition of our common shares against its taxable income, assuming such U.S. Holder does not take a credit for any foreign income taxes paid or accrued during the taxable year and certain other conditions are met. U.S. Holders should consult their own tax advisors regarding the application of the foreign tax credit limitation rules to their investment in, and disposition of, our common shares.

### ***Passive Foreign Investment Companies***

U.S. Holders should carefully consider the discussion below regarding our potential treatment as a PFIC for U.S. federal income tax purposes.

In general, if, during any taxable year of a non-U.S. corporation, 75% or more of the corporation’s gross income consists of certain types of “passive income,” or the average value during the taxable year of the “passive assets” of the corporation (generally, assets that produce or are held for the production of passive income) is 50% or more of the average value of all of its assets, the corporation will be classified as a PFIC under U.S. federal income tax law. Passive income for this purpose generally, among other things, includes interest, dividends, royalties, rents and gains from commodities and securities transactions. Certain exceptions are provided, however, for passive income derived in the conduct of an active business.

The PFIC provisions also contain a look-through rule under which a non-U.S. corporation shall be treated as if it received directly its proportionate share of the income and as if it held its proportionate share of the assets of any other corporation in which it owns at least 25% of the value of the stock. Under the look-through rule, we should be deemed to own a proportionate share of the assets and to have received a proportionate share of the income of our principal subsidiaries, including Interbank, Interseguro and Inteligo Bank, for purposes of the PFIC determination. As noted below, the assets and income of Interbank, Interseguro and Inteligo Bank are subject to special rules under the PFIC regime. Further, the PFIC test is performed on an annual basis and it is therefore possible that our PFIC status may change from year to year due to changes in income or asset composition.

### ***Assets and Income of Interbank and Inteligo Bank under the PFIC Rules***

The application of the PFIC rules to banks is unclear under present U.S. federal income tax law. Banks generally derive a substantial part of their income from assets that are interest-bearing or that otherwise could be considered passive assets under the PFIC rules. The IRS has issued a notice and has proposed U.S. Treasury regulations that exclude from passive income any income derived in the active conduct of a banking business by a qualifying foreign bank (the “active bank exception”). The IRS notice and proposed U.S. Treasury regulations have different requirements for qualifying as a foreign bank, and for determining the banking income that may be excluded from passive income under the active bank exception. Moreover, the proposed U.S. Treasury regulations have been outstanding since 1995 and may not be finalized in their current form. Our PFIC status may be impacted if and when these U.S. Treasury regulations are finalized.

Because final U.S. Treasury regulations have not been issued and because the notice and the proposed U.S. Treasury regulations are inconsistent in certain respects, Interbank’s, Inteligo Bank’s and (as a result) our status under the PFIC rules is subject to uncertainty. While Interbank and Inteligo Bank conduct, and intend to continue to conduct, a significant banking business, there can be no assurance that they will satisfy the specific requirements for the active bank exception under either the IRS notice or the proposed U.S. Treasury regulations. It is therefore possible that a significant portion of the assets and income of Interbank or Inteligo Bank may be treated as passive.

### ***Assets and Income of Interseguro under the PFIC Rules***

While passive income generally includes interest, dividends, annuities and other investment income, the PFIC rules provide that income “derived in the active conduct of an insurance business by a qualifying insurance corporation” is not treated as passive

income. A qualifying insurance corporation is a foreign corporation (i) which would be taxable as an insurance company if it were a U.S. corporation and (ii) the applicable insurance liabilities of which constitute more than 25% of its total assets, as determined for financial reporting purposes. Additionally, if a corporation meets the first prong of this test, but not the second, a U.S. Holder can still elect to treat the corporation as a qualifying insurance company if at least 10% of its assets are applicable insurance liabilities and it meets certain alternative facts and circumstances tests. Under these tests, the corporation must be predominantly engaged in an insurance business and the failure to meet the 25% test described above must be due solely to run-off related or rating-related circumstances involving such insurance business. Proposed U.S. Treasury regulations were issued in 2019 that provide guidance about the definitions of “active conduct” and “insurance business.” The proposed regulations were withdrawn in part and subsequent U.S. Treasury regulations were proposed in 2020 that provide explanation of the active insurance income exception as modified under changes to the U.S. Code as a result of the Tax Cuts and Jobs Act of 2017. We expect, for purposes of the PFIC rules, that Interseguro will meet the requirements to be considered a qualifying insurance corporation. No assurance can be provided, however, that changes in Interseguro’s business operations or in the application of U.S. federal income tax law, including the finalization of the proposed U.S. Treasury regulations, will not affect the ability of Interseguro to qualify for the active insurance income exception.

### ***Consequences of PFIC Status***

Although the matter is not free from doubt, based on our current expectations regarding our subsidiaries meeting the PFIC exceptions discussed above, the value and nature of the assets of our subsidiaries, the sources and nature of the income of our subsidiaries, relevant market and shareholder data and our current business plans, we believe that we will not be treated as a PFIC for U.S. federal income tax purposes with respect to our 2020 and current taxable years and we do not anticipate becoming a PFIC in the future. If we are classified as a PFIC for any taxable year during which a U.S. Holder holds our common shares, such a U.S. Holder would be subject to special rules (and may be subject to increased tax liability) with respect to (a) any gain realized on the sale or other disposition of our common shares, and (b) any “excess distribution” made by us to the U.S. Holder (generally, any distribution during a taxable year in which distributions to the U.S. Holder on our common shares exceed 125% of the average annual distributions the U.S. Holder received on the shares during the preceding three taxable years or, if shorter, the U.S. Holder’s holding period for the shares). Under those rules, (a) the gain or excess distribution would be allocated ratably over the U.S. Holder’s holding period for our common shares, (b) the amount allocated to the taxable year in which the gain or excess distribution is realized and to taxable years before the first year in which we became a PFIC would be taxable as ordinary income, (c) the amount allocated to each prior year in which we were a PFIC would be subject to U.S. federal income tax at the highest tax rate in effect for that year and (d) the interest charge generally applicable to underpayments of U.S. federal income tax would be imposed in respect of the tax attributable to each prior year in which we were a PFIC. In addition, in the event that we are classified as a PFIC, similar rules would apply to “excess distributions” or gains with respect to subsidiary PFICs held directly or indirectly by us (“Lower-tier PFICs”), even if the proceeds are not distributed to our shareholders. A U.S. Holder generally will be required to file IRS Form 8621 if it holds our common shares in any year in which we are classified as a PFIC.

A U.S. Holder may be able to mitigate these tax consequences by electing mark to market treatment for its common shares, provided the relevant shares constitute “marketable stock” as defined in U.S. Treasury regulations. Our shares will be “marketable stock” if they are “regularly traded” on a “qualified exchange or other market” within the meaning of the U.S. Treasury regulations. Our common shares are listed on the NYSE, and therefore we expect that our common shares should qualify as regularly traded on a qualified exchange or other market. No assurance can be given, however, that our common shares will be considered regularly traded on a qualified exchange or other market. A U.S. Holder electing the mark to market regime generally would, during any year in which we are treated as a PFIC, compute gain or loss at the end of such year as if the shares had been sold at fair value. Any gain recognized by the U.S. Holder under the mark to market election, including on an actual sale, would be treated as ordinary income, and the U.S. Holder would be allowed an ordinary deduction for any decrease in the value of shares as of the end of any taxable year and for any loss recognized on an actual sale, but only to the extent, in each case, of previously included mark to market income not offset by previously deducted decreases in value. Any loss on an actual sale of shares would be a capital loss to the extent in excess of previously included mark to market income not offset by previously deducted decreases in value. A U.S. Holder’s tax basis in shares would increase or decrease by gain or loss taken into account under the mark to market regime.

A mark to market election under the PFIC rules applies to all future years of an electing U.S. Holder during which the shares are regularly traded on a qualifying exchange or other market, unless revoked with the IRS’s consent. A mark to market election under the PFIC rules with respect to shares would not apply to a Lower-tier PFIC, and a U.S. Holder would not be able to make such a mark to market election in respect of its indirect ownership interest in that Lower-tier PFIC. Consequently, U.S. Holders of shares could be subject to the PFIC rules with respect to income of the Lower-Tier PFIC the value of which already had been taken into account indirectly via mark to market adjustments.

A U.S. Holder may in certain circumstances mitigate the adverse tax consequences of the PFIC rules by filing an election to treat the PFIC as a qualified electing fund (“QEF”). However, in the event that we are or become a PFIC, we do not intend to comply with the reporting requirements necessary to permit U.S. Holders to elect to treat us as a QEF.

### ***Backup Withholding and Information Reporting***

Dividends paid on, and proceeds from the sale or other disposition of, our common shares that are paid to a U.S. Holder generally will be subject to the information reporting requirements of the U.S. Code and may be subject to backup withholding unless the U.S. Holder provides an accurate taxpayer identification number and makes any other required certification or otherwise establishes an exemption. Backup withholding is not an additional tax. The amount of any backup withholding from a payment to a U.S. Holder will be allowed as a credit against the U.S. Holder's U.S. federal income tax liability and may entitle the U.S. Holder to a refund, provided that certain required information is timely furnished to the IRS.

In addition, U.S. Holders may be required to comply with certain reporting requirements, including filing an IRS Form 8938, Statement of Specified Foreign Financial Assets, with respect to the holding of certain foreign financial assets, including stock of foreign issuers, either directly or through certain foreign financial institutions, if the aggregate value of all such assets exceeds U.S.\$50,000. U.S. Holders should consult their own tax advisors regarding the application of the information reporting rules to our common shares and the application of these reporting requirements to their particular situations.

### ***FATCA Withholding Taxes***

Pursuant to sections 1471 through 1474 of the U.S. Code (provisions commonly known as "FATCA"), a "foreign financial institution" may be required to withhold U.S. tax on certain "passthru payments" made on or after the date that is two years after the date of publication in the Federal Register of applicable final regulations defining foreign passthru payments to the extent such payments are treated as attributable to certain U.S. source payments. Holders should consult their own tax advisors on how these rules may apply to their investment in the common shares. In the event any withholding under FATCA is imposed with respect to any payments on the common shares, there will be no additional amounts payable to compensate for the withheld amount.

HOLDERS OF OUR COMMON SHARES SHOULD CONSULT THEIR OWN TAX ADVISORS AS TO THE U.S. FEDERAL INCOME AND OTHER TAX CONSEQUENCES OF THE ACQUISITION, OWNERSHIP AND DISPOSITION OF OUR COMMON SHARES, INCLUDING, IN PARTICULAR, THE EFFECT OF ANY NON-U.S. STATE OR LOCAL TAX LAWS.

### ***Panamanian Taxation***

The following is a summary of the principal Panamanian income tax consequences resulting from the beneficial ownership and disposition of our common shares by certain persons. This summary is based on the Panamanian Tax Code of 1956, as amended, other applicable tax laws, decrees and regulations issued thereunder, and judicial and administrative interpretations thereof, all as in effect on the date hereof, and is subject to any changes in these or other laws, decrees, regulations and interpretations occurring after such date, possibly with retroactive effect. This summary is intended as a descriptive summary only and is not a complete analysis or listing of all potential Panamanian income tax consequences to purchasers of our common shares. The summary does not address the tax treatment of potential purchasers that may be subject to special income tax and withholding rules. The summary is not intended as tax advice to any particular person, nor does it purport to furnish information on the level of detail or with attention to a purchaser's specific tax circumstances that would be provided by a purchaser's own tax advisor. Holders of our common shares are urged to consult their own tax advisors as to the precise Panamanian and other tax consequences of acquiring, owning and disposing of our common shares.

### ***Panamanian Income Tax Structure***

Panama's income tax regime is essentially territorial. Consequently, income tax is levied only upon income or gains derived from income deemed to arise from Panamanian sources, while income not deemed to be Panamanian source income is not subject to Panamanian income taxes.

### ***Taxation of Dividends***

In light of the above, dividend income is not subject to income tax in Panama if the profits to which the dividends relate are not Panamanian source income. Moreover, further distributions of dividend income received by the direct shareholders of a Panamanian company to such direct shareholders' own shareholders are not subject to income tax in Panama. Accordingly, because we are a holding company that does not perform income generating activities in Panama and our income is generated exclusively from activities outside of Panama, dividend payments made with respect to our common shares would not be subject to income tax or withholding requirements in Panama.

The offering and sale of our common shares and the use of proceeds therefrom herein described will all take place outside of Panama, and we do not intend to place, invest or economically utilize in Panama the proceeds that we will receive upon the issuance and sale of our common shares, or to conduct business activities in Panama.

### ***Taxation of Capital Gains***

Under the tax principles set forth above, because we generate income only from foreign or non-Panamanian sources, any capital gains realized by a holder of our common shares on the sale or other disposition thereof will be exempt from income or capital gains tax in Panama.

### ***Stamp and Other Taxes***

Because we are a holding company that does not perform income generating activities in Panama and our income is generated exclusively from activities outside of Panama, our common shares, and any document containing an agreement providing for the sale or disposition thereof, are not subject to stamp, registration or similar taxes, unless the respective documents shall be used before the courts or administrative authorities of Panama, in which case the stamp tax shall be paid at that time at a rate of U.S.\$0.10 for each U.S.\$100.00 or fraction of U.S.\$100.00 of the face value of the obligations stated therein.

In light of the above, there are no sales, transfer or inheritance taxes in Panama applicable to the sale or disposition of our common shares.

### ***Foreign Investors***

Because the gains realized on the sale and disposition of our common shares are not subject to income tax in Panama as indicated above, a person domiciled outside of Panama is not required to file an income tax return in Panama solely by reason of his or her purchase or ownership of our common shares.

### **ITEM 11. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

For quantitative and qualitative information related to market risk, in addition to the information presented below, see Note 30.2 to our audited consolidated financial statements as of and for the year ended December 31, 2020, 2019 and 2018, appearing elsewhere in this Annual Report on Form 20-F.

## RISK MANAGEMENT

Our goal is to attain sustainable long-term growth, through a balance between risk policies and profitability. As a result, our senior management places great emphasis on risk management.

In order to manage the risks described below, we have a specialized risk management structure, measurement systems and mitigation and remediation processes in place for each of our business segments. We incorporate analytics into our decision-making process and make use of tools and methodologies that allow us to identify and manage risk efficiently.

### Banking Segment

#### *Main Types of Risks*

The main types of risk inherent in Interbank's businesses are credit, market, liquidity and operational risk.

- *Credit risk*: probability of loss due to inability or lack of willingness to pay by debtors, counterparts or third parties bound by contractual obligations.
- *Market risk*: probability of loss in positions on and off-balance sheets derived from variations in market conditions. It generally includes the following risk types: exchange rates, interest rates and prices.
- *Liquidity risk*: potential inability to meet contractual and contingent obligations, both on- or off-balance sheet, as they come due.
- *Operational risk*: probability of loss due to inadequate processes, personnel and information technology failures, or external events.

In order to manage the above risks, Interbank has a specialized risk management structure, measurement systems and mitigation and remediation processes. It uses different models and rating tools at the client or product level to manage risks. These tools measure and value the risk with a prospective vision, thus allowing the organization to make better risk decisions in the different stages or life cycle of each loan.

These tools are continuously monitored and periodically validated to ensure that appropriate levels of prediction and performance are being maintained and to take corrective action or make adjustments to the models when needed.

The risk management indicators are continuously reviewed and assessed to identify possible deviations in risk profile with respect to the established risk appetite and apply timely corrective actions as needed. This information is submitted to the Risk Management Committee monthly and to the board of directors periodically.

#### *Credit Risk*

The main risk Interbank must manage is credit risk. In order to mitigate exposure to credit risk and provide adequate risk coverage, Interbank has established the following measures, among others:

- policies, procedures, methodologies, models, parameters and expert judgement to identify, measure, control and report credit risk;
- review and assessment of credit risk through specialized units of risk screening, which are independent from Interbank's Commercial Division, and which assess credit risk prior to loan approvals or prior to the acquisition of specific investments;
- timely monitoring and tracking of credit risk and maintenance of pre-defined tolerance levels;
- compliance with regulatory limits and establishment of internal limits to minimize exposure to debtors and counterparties, such as those related to sector concentration (for loans), by issuer, credit rating and liquidity;
- procedures for the management of loan guarantees.

Interbank also uses different models and rating tools for each type of client and/or product. Interbank constantly monitors and reviews these tools to ensure that adequate levels of prediction and performance are maintained and if necessary, to make adjustments or take corrective measures.

Through its policies and procedures, Interbank establishes the patterns and mechanisms needed to prevent excessive risk concentration and maintain a diversified portfolio.

Interbank manages its credit risk by means of three main processes: underwriting, monitoring and recovery. These processes are applied accordingly in different business lines.

The underwriting process is fundamentally based on comprehensive knowledge of the client and their economic activity and evaluating their repayment capacity, solvency and credit history. This process uses risk management methodologies and tools, which measures and assesses the quality of the risk to be granted, based on models and automatic rating systems for the admission of credits.

The monitoring process is used for early detection of credit risk to identify clients with potential risks that would affect their ability to pay which can possibly impact the debtor's credit development. This process uses an integrated system of alerts, which is used to determine whether immediate actions need to be taken.

Actions include preventative, corrective or follow-up measures. This process utilizes systems, models and guidelines to assess the evolution of the debtor's detected risks and determine their management for standardization or collection.

The recovery process is carried out through a set of coordinated actions for the appropriate and timely recovery of the loans, which aim to minimize losses in exposures with a high credit risk.

### ***Commercial Banking***

The following table presents the approval levels required for commercial loan applications at Interbank.

<b><u>Approval requirement</u></b>	<b><u>Amount</u></b>	<b><u>Executive required to be present at committee meeting</u></b>	<b><u>Minimum quorum</u></b>
Interbank related companies credit committee	Any transaction with related companies	Two Directors	3
Director credit committee	According to business segment and statistical rating situation Corporate Banking -With updated statistical rating AAA-A greater than U.S.\$50,000,000 BBB-B greater than U.S.\$40,000,000 CCC-C greater than U.S.\$30,000,000 -Without statistical rating updated Greater than U.S.\$30,000,000 Medium-sized Banking, Institutional Banking and Real Estate Business Greater than U.S.\$30,000,000	Two Directors and CEO	3
Central credit committee	According to business segment and statistical rating situation Corporate Banking -With statistical rating updated AAA-A up to U.S.\$50,000,000 BBB-B up to U.S.\$40,000,000 CCC-C up to U.S.\$30,000,000 -Without statistical rating updated Up to U.S.\$30,000,000 Medium-sized Banking, Institutional Banking and Real Estate Business Up to U.S.\$30,000,000	CEO and VP of Risk Management	3

<u>Approval requirement</u>	<u>Amount</u>	<u>Executive required to be present at committee meeting</u>	<u>Minimum quorum</u>
Executive credit committee	<p>According to business segment and statistical rating situation Corporate Banking</p> <p>-With statistical rating updated AAA-A: up to U.S.\$25,000,000 BBB-B up to U.S.\$20,000,000 CCC-C up to U.S.\$15,000,000</p> <p>-Without statistical rating updated Up to U.S.\$15,000,000</p> <p>Medium-sized Banking, Institutional Banking and Real Estate Business Up to U.S.\$15,000,000</p>	VP of Risk Management, VP Business and Other VP	3

Credit approval is determined by the applicant's repayment ability, which is defined primarily by their cash flow and credit history. The decision whether or not to approve an extension of credit takes into account the applicant's economic environment, its ability to meet its obligations, collateral, management and the credit ratings assigned to the applicant by other companies of the financial system.

In order to rate credit risk within the commercial portfolio, Interbank uses a credit risk management system, the Statistical Rating System. This system measures credit risk by classifying companies based on their expected default probability, without taking into account the facility's amount, loan conditions or collateral. The Statistical Rating System is supported by a statistical model that predicts default probability from historical default data, based on the company's qualitative information, financial performance and internal and external credit behavior. Currently, the system is designed to rate companies from our commercial banking business line with at least S/3.0 million in annual sales.

For government entities or project finance, Interbank uses the Weighted Rating System. This methodology considers six different areas: (1) product, demand and industry; (2) shareholders and management; (3) access to credit; (4) profitability; (5) generation of resources; and (6) solvency. The final rating is the weighted sum of these areas.

In the case of financial institutions, Interbank uses an Expert Judgment Analysis Methodology. This methodology considers aspects such as shareholders, management, profitability, solvency, risk rating information, etc.

The Watchlist System monitors clients that have risk potential that needs to be addressed. Based on internal and external alerts, historical financial data and client behavior and market conditions, clients are classified into one of four categories: (1) surveillance; (2) guarantee (increase collateral), (3) reduce exposure and (4) exit or collect.

The Non-Performing Assets Monitoring System monitors the status of non-performing loans and defines categories and related strategies. This system allows Interbank to focus recovery efforts on those loans which do not have a well-defined recovery strategy and also permits periodic evaluations of outstanding loans that already have a recovery plan in order to take timely corrective action. The recovery portfolio is divided into rescheduled and refinanced credit, judicial recoveries and restructured credit.

Credit risk management includes strategies related to proper recovery of defaulted loans. Depending on whether the recovery strategy is based upon the client's cash flow or collateral foreclosure, loans are assigned to the recovery division. This division has two units, special credit and judicial recovery. Judicial recovery may include the sale of recovered or foreclosed assets, which are managed by the asset sales unit that is in charge of selling these assets.

#### *Small Business Banking*

The following table presents the approval levels required for small business banking loan applications by principal amount in U.S. dollars.

<u>Approval levels</u>	<u>Amount</u>
Vice President of Risk Management	Over U.S.\$308,000
Risk Manager	Up to U.S.\$308,000
Risk Assistant Manager	Up to U.S.\$180,000

Approval levels	Amount
Zonal Risk Officer	Up to U.S.\$105,000
Master Risk Analyst	Up to U.S.\$60,300
Senior Risk Analyst	Up to U.S.\$45,000
Risk Analyst	Up to U.S.\$14,500

In small business banking, credit approval is determined by the applicant's credit history and repayment ability, which is in turn determined primarily by the applicant's cash flow and credit history. Approvals of loans depend on the applicant's economic conditions, its ability to meet its obligations, collateral, management and the credit ratings assigned by a scoring system applied to new and current clients.

An independent unit is responsible for ensuring proper compliance with risk policies, the methodologies applied in the evaluation of creditors and the performance of scoring models and ensuring that the quality of the portfolio does not exceed risk limits.

Interbank has developed specific risk management tools to respond efficiently to new schemes and constraints that arise in the market for small business banking. Interbank refers to these tools as the Small Business Banking Management and Monitoring Process, which consist of:

- *Scoring Small Banking Enterprises*: is an analysis tool in the credit evaluation process aimed at reducing risk rates and process times and assigning a score to the credit proposal evaluated.
- *Indebted Customers Methodology Small Business Banking*: identifies customers who have high leverage exposure.
- *Special Surveillance Portfolio*: monitors the customer's credit historical behavior using a series of variables that identify, measure and separate the portfolio, determining the customer's level of risk, while suggesting actions to take, preventive measures and/or commercial incentives.
- *Field Audit and Monitoring*: is used to assess quality by selecting samples of credit loans granted and poor performing portfolios and reviewing supporting documentation, with a final risk report presentation.

During collection of early stage (1-90 days), Interbank uses collection scores that allow Interbank to define the collection strategy: phone collection, text message collection, mail or personal collection.

Recovery in small business banking occurs in two phases. Early collection is based on and supported by admission risk officers for the first 90 days. During this time, a customer in default is contacted and recovery efforts are made in the form of letters, telephone calls and direct negotiations. After the first 90 days, the defaulted loan is transferred to the Recovery Unit.

#### Retail Banking

The following table presents the approval levels required for retail loan applications by principal amount in U.S. dollars. Approval levels also vary according to product.

	Credit Card	Cash Credit	Pay-roll Loans	Loans for Diplomats Amount	With Collateral	Automobile	Mortgage
Approval Levels	Greater than	Greater than	Greater than	Greater than	Greater than	Greater than	Greater than
Vice President Risk Management	38,000	53,000	53,000	45,000	440,000	70,000	800,000
Central Manager	38,000	53,000	53,000	—	440,000	70,000	800,000
Risk Manager	29,000	44,000	44,000	44,000	293,000	60,000	600,000
Risk Assistant Manager	22,000	29,300	35,200	26,400	220,000	50,000	450,000
Risk Officer	17,600	23,500	29,300	26,400	147,000	40,000	300,000
Senior Risk Analyst	13,000	17,600	20,500	17,600	117,000	30,000	250,000
Risk Analyst	7,600	13,200	15,000	8,800	59,000	25,000	150,000
Junior Risk Analyst	3,500	7,300	10,000	5,900	29,300	16,000	50,000

The approval process in retail banking is supported by world class tools, a workflow that includes a parameterized decision making system, including risk policies and limits, as well as statistical models for all main retail banking products: credit cards, payroll deduction loans, mortgages and consumer loans.

In retail banking, credit approval is determined by the applicant's repayment ability, credit history and risk profile. An independent unit is responsible for monitoring the performance of the customer's portfolio, identifying and controlling risk across the customer's life cycle, keeping track of the performance of credit policies at originations and behavior in customer management and collections. For this purpose, Interbank uses data mining and cluster analysis, stress testing for likelihood of defaults, vintage and roll rate analysis and credit risk scoring.

During collection of early stage (1-90 days) due loans in retail banking, Interbank uses collection scores that allow it to choose the appropriate collection strategy: phone collection, text message collection, mail or personal collection.

Unpaid debts with a 90 day stay are deemed defaulted loans. Depending on whether the recovery strategy is based on the client's cash flow or collateral foreclosure, loans are assigned to Interbank's recovery division. The recovery division has two units, pre-judicial and judicial stage of recovery. During the judicial stage of recovery, accounts are assigned to recovery attorneys. Recovery may include the sale of foreclosed assets.

Defaulted loans that are 100% accounted for under loan loss reserves are written-off and managed through external judicial recovery.

Collections and recoveries are undertaken through advanced collection systems from world class suppliers and predictive dialers. The recovery portfolio is segmented into various groups that are divided according to the specific phase of the recovery process. Collections and recovery efforts are made by letters, SMS text messages, IVR (Interactive Voice Response), telephone and personal contact with the customer.

### ***Market Risk***

Market risk is the probability of loss due to variations in financial market conditions. The main variations to which Interbank is exposed are: (i) exchange rates, (ii) interest rates and, (iii) prices. Said variations can affect the value of financial assets and liabilities. As part of the risk management system, in certain circumstances Interbank uses derivative financial instruments to mitigate the risk exposure which arises from the variations in interest rates and exchange rates.

#### *Exchange Rate*

Management sets limits on exposure levels by currency and monitors them on a daily basis. Transactions in foreign currency are accounted for by using exchange rates prevailing on the market.

Interbank manages exchange rates by matching its assets and liabilities, overseeing the global exchange position on a daily basis. Interbank's global foreign exchange position is equivalent to the result of long positions minus short positions in currencies different from the *sol*. The global foreign exchange position includes spot positions and derivative positions.

#### *Interest Rate*

Interest rates continuously fluctuate on the market. These fluctuations affect Interbank in two ways: first, through the change in the valuation of assets and liabilities; and second, through cash flows at repricing. The variation in the valuation of assets and liabilities is increasingly sensitive as the term at which the asset or liability repricing increases. This process consists of the assessment of the repricing periods. On the other side, cash flows are affected when the instruments reach maturity, given that they are invested or placed at the new market interest rates.

The interest rate risk tracking is reported to the Integral Risk Management Committee, as well as the ALCO. The Integral Risk Management Committee approves the various limits applicable to the management of financial instruments. The tracking process is performed by the Division of Market Risk.

#### *Repricing Gap*

An analysis of repricing gaps is performed in order to determine the impact of interest rate movements on the valuation of assets and liabilities into different time gaps.

The following tables summarize Interbank's exposure to interest rate risks. Financial instruments are presented at book value, classified by the period of the contract's interest rate repricing or maturity date, whichever occurs first:

	Repricing Gap at December 31, 2020						Past-due loans / Equities	Banking

Interbank separates exposures to market risk into two blocks: (i) trading book, which comprises positions in liquid investments, and (ii) banking book, which comprises banking assets and liabilities inherent to the intermediation business whose market risk exposure stems from the changes in the portfolio's structural positions.

#### Trading Book

In order to control and monitor the risks arising from the volatility of risk factors, Interbank has established maximum exposure limits by currency, investment type, Value-at-Risk (VaR) and tolerance to expected maximum loss (Stop Loss), which are monitored on a daily basis. Likewise, reports from the Integral Risk Management Committee and the ALCO are submitted regularly to Interbank's board of directors.

The validity of VaR calculation is proven through a back-testing proof, which uses historical data to ensure that the model adequately estimates potential losses. Additionally, it calculates risk factor sensitivity, which shows potential portfolio losses resulting from interest rate shocks, exchange rate shocks and price shocks, among others.

As of December 31, 2020, December 31, 2019 and December 31, 2018, Interbank's VaR calculated for its trading book, classified by type of risk, was as follows:

	<u>December 31, 2020</u>	<u>December 31, 2019</u>	<u>December 31, 2018</u>	<u>Change</u>	
	<u>(S/ in millions)</u>			<u>Dec 20 / Dec 19</u>	<u>Dec 19 / Dec 18</u>
<b>By type of risk</b>					
Exchange rate	3.3	0.4	5.6	2.9	(5.2)
Interest rate	0.4	1.2	2.4	(0.8)	(1.1)
Price	—	—	—	—	—
Diversification effect	<u>(0.2)</u>	<u>(0.1)</u>	<u>(1.7)</u>	<u>(0.1)</u>	<u>1.6</u>
<b>Total</b>	<u><u>3.4</u></u>	<u><u>1.4</u></u>	<u><u>6.2</u></u>	<u><u>2.0</u></u>	<u><u>(4.7)</u></u>

Interbank's VaR increased from S/1.4 million as of December 31, 2019 to S/3.4 million as of December 31, 2020, mainly due to higher exchange risk volatility due to the COVID-19 pandemic and political crisis, which was partially offset by a lower interest rate risk due to stable low rates during the year.

Interbank's VaR decreased from S/6.2 million as of December 31, 2018 to S/1.4 million as of December 31, 2019, mainly due to a lower global net foreign exchange position which decreased from S/239.6 million as of December 31, 2018 to S/90.8 million as of December 31, 2019.

For the periods presented Interbank did not have back-testing exceptions.

### **Banking Book**

Interbank also holds positions that are not actively traded. These positions include all loan placements and funds raised through Interbank's intermediation business, as well as certain investments that are not deemed trading.

### ***Foreign Exchange Risk***

Foreign exchange rate risk is the risk due to exchange rates movements. Management sets limits on exposure levels by currency, and monitors them on a daily basis. Transactions in foreign currency are accounted for by using exchange rates prevailing on the market.

Interbank manages exchange rate risk by matching its assets and liabilities, overseeing the global exchange position on a daily basis. Interbank's global foreign exchange position is equivalent to the result of long positions minus short positions in currencies different from the *sol*. The global foreign exchange position includes spot positions and derivative positions.

### ***Liquidity Risk***

Interbank's liquidity risk arises from the potential inability to comply with financial obligations. This risk may arise as a result of diverse events such as the unexpected loss of funding sources or the inability to rapidly settle assets, among others.

Interbank takes short-term deposits and transforms them into longer-term loans, which also increases its exposure to liquidity risk. Interbank keeps a set of deposits that historically represent a stable funding source.

Interbank's liquidity is managed by the Vice President of Capital Markets, which leads the ALCO. Liquidity risk is overseen by the Integral Risk Management Committee, which defines the risk level that Interbank is willing to take and reviews the corresponding indicators, limits and controls.

Interbank has a set of indicators that establish minimum short-term liquidity and reflect several risk aspects, such as concentration, stability, position by currency, main depositors, etc. The Market Risk Division is responsible for tracking such indicators.

Interbank also assesses medium-term and long-term liquidity through a structural analysis of its funds inflows and outflows on diverse maturity terms. This process allows it to identify, for each currency, the funding sources, how liquidity needs increase and which terms are mismatched. For both assets and liabilities, Interbank makes assumptions for operations without specific maturity dates, including revolving loans and savings. These assumptions also include the estimated obligations arising from contingent liabilities such as guarantee letters or non-used credit lines. On the basis of this information, necessary actions are taken to maintain the target liquidity levels.

### ***Operational Risk***

Interbank has launched several initiatives to strengthen its risk culture, adopt international best practices in risk management, and lay the groundwork for adapting the New Capital Accord (Basel II) standard.

Interbank manages operational risk through a specialized unit that is guided by banking best-practices, including Basel II policies. The objectives of the operational risk unit are to:

- reduce operational losses by identifying potential process risks;
- identify operational risk in the development of new products;
- manage control risk and self-assess critical processes; and
- monitor and measure operational risk.

Interbank's methodology is based on three tools for identifying and measuring risks that calculate the exposure level to risk and facilitate the decision-making process to mitigate exposures within certain limits of risk tolerance: (i) risks and controls self-assessment; (ii) collection of loss event; and (iii) risk indicators.

## **Insurance Segment**

Interseguro has the following risk management objectives:

- protect shareholder value by monitoring that exposure to probable losses does not exceed approved limits;
- protect policyholders so that their rights will not be affected by losses that exceed the value of Interseguro's equity;
- support the decision making processes in Interseguro, by providing consistent, reliable and timely risk information; and
- promote a successful company culture of risk awareness and informed risk-taking.

To this end, Interseguro uses tools and methodologies to identify and manage risk efficiently, incorporating analytics into its decision-making process.

## **Main Types of Risks**

The main risks faced by Interseguro are insurance risk, credit risk, market risk, liquidity risk, real estate risk and operational risk. Other risks include interest rate risk and foreign exchange risk.

### **Insurance Risk**

As an insurance company, Interseguro is exposed to the risk that the assumptions it employs to price a particular insurance policy, such as the frequency of losses or the severity of losses may be incorrect. Flaws in these assumptions may lead to premium mispricing and the miscalculation of the amount of funds necessary to cover such insurance policy. Particularly, upon the sale of an annuity, Interseguro records a reserve that is calculated on the basis of an updated discount rate obtained by a matching adjustment methodology and mortality data.

### **Credit Risk**

Interseguro holds a large portfolio of debt investments and fixed income securities and is therefore exposed to the risk that the issuer may default on its interest or principal payments. This risk is mitigated through a three step process. Initially, regulations established by the SBS (1) limit the types of investments Interseguro can make, (2) set minimum credit ratings that securities must have, and (3) limit Interseguro's investments with respect to a single issuer. Secondly, Interseguro performs a careful analysis on the securities it purchases. Finally, Interseguro's investment committee, which is comprised of both internal and independent members of its board of directors, is responsible for approving any new investment and periodically reviews Interseguro's investment portfolio.

### **Market Risk**

Interseguro is exposed to the risk that the value of its investments decreases due to changing market conditions. Market risk drivers include equity prices, interest rates and real estate prices. Interseguro manages this risk by setting limits on individual issuer concentration, on type and liquidity of assets and on deviations from the terms of the technical liabilities they should cover. The risk management unit regularly assesses market risk to verify its alignment to Interseguro's risk appetite. This assessment includes VaR analysis, contribution and sensitivity analysis of each risk driver and stress tests in different extreme scenarios.

The VaR analysis is a statistical measurement that quantifies the maximum loss expected for the investment portfolio for a period of time and a determined significance level under normal market conditions. For VaR calculation Interseguro uses a historical simulation model, with a 10 day period of time and a 99% significance level. The VaR is calculated for the entire market portfolio, and for market risk factors, such as interest rate, equity price and foreign exchange.

The validity of the VaR calculation is proven through back-testing, which uses historical data to ensure that the model adequately estimates the potential losses. Additionally, Interseguro employs sensitivity analysis to show potential portfolio losses derived from price, foreign currency and interest rate fluctuations.

As of December 31, 2020, December 31, 2019 and December 31, 2018 Interseguro's VaR calculated for its investment portfolio, classified by type of risk, was as follows:

	December 31, 2020	December 31, 2019	December 31, 2018	Change	
	(S/ in millions)			Dec 20 / Dec 19	Dec 19 / Dec 18
<b>By type of risk</b>					
Exchange rate	14.0	(1.7)	(3.3)	15.7	1.5
Interest rate	1,123.0	225.9	172.0	897.1	53.9
Price	32.6	6.4	28.6	26.1	(22.1)
Diversification effect	(456.9)	0.2	2.6	(457.1)	(2.4)
<b>Total</b>	<b>712.7</b>	<b>230.9</b>	<b>200.0</b>	<b>481.8</b>	<b>30.9</b>

Between December 31, 2019 and December 31, 2020, the value of Interseguro's investment portfolio in financial instruments increased by more than S/1,431.3 million, which also led to an increase in exposure to market risk represented by the VaR, principally in interest rate risk and price risk.

Due to the acquisition of Seguros Sura in November 2017 Interseguro's portfolio increased considerably as of December 31, 2017; however the risk profile of debt investments was modified throughout 2018, causing a reduction in the VaR as of December 31, 2018, principally in interest rate risk and in minor effect price risk.

For the periods presented Interseguro did not have back-testing exceptions.

### Interest Rate Risk

The following tables set forth all the assets and liabilities that are sensitive to interest rate movements.

In addition to fixed income investments, Interseguro has almost no interest-bearing assets or liabilities. Consequently, the interest rate risk of Interseguro is already incorporated into the market risk of the portfolio.

	Repricing Gap at December 31, 2020						Past-due loans / Equities	Insurance

### Foreign Exchange Risk

Interseguro has mainly assets and liabilities denominated in U.S. dollars. Interseguro manages its foreign exchange rate exposure by matching assets and liabilities by currency.

### Liquidity Risk

Interseguro controls its liquidity needs in the short, medium and long term with the application of Asset Adequacy Tests. In simple terms, these are exercises in which the projected flows of the contracted annuities and insurance policies, are compared with the cash flows of the assets allocated for their coverage, and the present value of the surpluses, dynamically calculated, represents the level of liquidity adequacy of Interseguro.

### Real Estate Risk

Interseguro manages the risk associated with its real estate investment portfolio by constantly evaluating the financial position of prospective and current tenants to reduce the risk of losing rental income.

### Operational Risk

Operational risk is defined as the possibility of losses due to inadequate processes, faulty personnel, information technology, or external events. To manage these risks, Interseguro uses tools for identification, evaluation and treatment of risks similar to the tools used by banks to comply with Basel II. The goals of these risk management tools may be summarized as follows:

- reduce operational losses by identifying potential process risks;
- identify operational risk in the development of new products;
- manage control risk and self-assessment of critical processes; and
- monitor and measure operational risk.

### Wealth Management Segment

Inteligo's risk management policies are guided by an emphasis on maintaining growth that is both sustainable, profitable and aligned to adequate levels of risk. In order to accomplish this, Inteligo has developed analytic tools and methodologies aiming to identify and manage risk efficiently. Inteligo monitors and reviews these tools to ensure that adequate levels of prediction and performance are maintained and, if necessary, to make adjustments or take corrective measures.

In order to manage the above risks, Inteligo has a specialized risk management structure, measurement systems and mitigation and coverage processes.

Inteligo uses different key risk indicators ("KRI") to measure its exposure to risk factors. These KRI are continuously monitored and reviewed monthly by senior management and quarterly by the Integral Risk Management Committee and the board of directors to identify possible deviations from the stipulated risk appetite and apply timely corrective actions if needed.

Both credit and market risk are the main risks to be managed by Inteligo and, in order to mitigate its exposure and provide adequate risk coverage, it has established the following measures, among others:

- policies, procedures, methodologies, and parameters aimed to identify, measure, control and report market and credit risk;
- review and assessment of credit risk through a specialized risk department which is independent from the commercial unit and which assesses all credit risks prior to loan approvals;
- compliance with regulatory limits and establishment of internal limits for concentration exposure to counterparties and financial instruments, such as concentration to industry, issuer, credit rating and type of investment; and
- procedures for the management of loan guarantees.

Through these measures, Inteligo establishes the patterns and mechanisms needed to maintain a diversified portfolio and prevent excessive risk concentration.

### **Main Types of Risks**

The main risks faced by Inteligo are credit risk, market risk, interest rate risk, foreign exchange risk, liquidity risk and operational risk.

### **Credit Risk**

In our wealth management segment, only Inteligo Bank is exposed to credit risk. The substantial majority of loans we make are fully collateralized by time deposits or investment securities. Nevertheless, we have implemented strict credit risk management policies, which have contributed to the fact that in our entire history there has not been a non performing loan.

The following table presents the approval levels required for loan applications by total exposure amount in U.S. dollars.

Approval levels	Amount
Board of Directors	Over U.S.\$20,000,000
Executive Committee	Up to U.S.\$20,000,000
Credit Committee	Up to U.S.\$10,000,000
Chief Executive Officer	Up to U.S.\$3,000,000
Chief Operating Officer	Up to U.S.\$1,000,000
Operations Manager	Up to U.S.\$300,000

Credit approval is determined by the applicant's repayment ability, which is determined primarily by the applicant's credit history and cash flow generation for commercial loans or monthly net profit for retail loans.

The decision whether or not to approve an extension of credit takes into account the applicant's economic environment, its ability to meet its obligations, collateral, management and character. We developed a credit risk scorecard system in 2013, which classifies applicants based on several variables such as leverage ratio, debt service as a percentage of monthly income and collateral quality, among others.

The Risk Unit is responsible for periodical monitoring of our credit portfolio and early detection of possible deviations in the credit performance and financial condition of clients in order to maintain a healthy loan portfolio and take timely and necessary actions to reduce or avoid losses. To this end, the Risk Unit reviews Inteligo Bank's loan portfolio on a monthly basis and calculates an expected credit loss according to internal models. Additionally, it is responsible for the regulatory classification of all bank customers and appropriate allocation of reserves.

Although Inteligo Bank has a recovery process for the collection of unpaid loans, there has not been a non-performing or defaulted loan.

### **Market Risk**

Market risk is the probability of loss due to variations in financial market conditions. The main variations to which Inteligo is exposed to are: interest rates and market pricing of financial instruments. Said variations can affect the value of Inteligo's financial assets and liabilities. Exchange rate risk is minimal because of the small exposure to other currencies.

### *Inteligo Investment Portfolio*

In order to monitor the risks within each instrument of its investment portfolio, Inteligo has established maximum exposure limits by individual issuer, investment type and currency that are calculated on a monthly basis.

The main technique used to measure and control market risk is VaR, which is a statistical measurement that quantifies the maximum loss expected for the investment portfolio for a period of time and a determined significance level under normal market conditions. Inteligo uses the historic VaR model for a period of one month with a 99% confidence level. The VaR is calculated for each risk factor (price, interest rate and exchange rate) and investment type (fixed income, equity and alternative investments).

Additionally, Inteligo calculates the marginal contribution to VaR of each instrument in the portfolio. The validity of the VaR calculation is verified through a back-testing methodology, which uses historical data to ensure that the model adequately estimates potential losses. Inteligo has also developed a sensitivity analysis to show potential portfolio losses from price variations in its investment portfolio or interest rates fluctuations.

The primary source of Inteligo's market risk is Inteligo Bank's investment portfolio, as it represents over 95% of Inteligo's VaR results. As of December 31, 2020, December 31, 2019 and December 31, 2018 Inteligo's VaR, classified by type of risk was as follows:

	December 31, 2020	December 31, 2019	December 31, 2018	Change	
		(S/ in millions)		Dec 20 / Dec 19	Dec 19 / Dec 18
<b>By type of risk</b>					
Exchange rate	5.4	0.5	0.1	4.9	0.4
Interest rate	1.3	(8.4)	(4.5)	9.6	(3.9)
Price	213.3	29.2	46.5	184.1	(17.3)
Diversification effect	(8.4)	(0.0)	(0.1)	(8.3)	0.0
<b>Total</b>	<b>211.5</b>	<b>21.3</b>	<b>42.0</b>	<b>190.3</b>	<b>(20.8)</b>

Inteligo's VaR increased S/190.3 million as of December 31, 2020, mainly as a result of the higher levels of volatility during March and April amid the uncertainty caused by the COVID-19 pandemic and the policies adopted by several countries to slow its spread and reduce its economic impact, when compared to December 31, 2019.

Inteligo's VaR decreased S/20.8 million as of the year ended December 31, 2019, mainly as a result of a reduction in market volatility, when compared to December 31, 2018.

For the periods presented Inteligo did not have back-testing exceptions.

### *Assets and Liabilities Management*

Inteligo holds positions that are not actively traded, including its loan portfolio, customer deposits, and bank loans. These positions are also exposed to interest rate risk, exchange rate risk and liquidity risk.

### *Interest Rate Risk*

Interest rates continuously fluctuate on the market. These fluctuations affect Inteligo in two ways: firstly, through the change in the valuation of assets and liabilities; and secondly, affecting the cash flows at repricing dates. The variation in the valuation of assets and liabilities is increasingly sensitive as the term at which the asset or liability repricing increases.

An analysis of the repricing gaps is performed in order to determine the impact of interest rates movements. Said analysis consists of classifying all the interest earning assets and interest bearing liabilities in several time ranges according of their repricing date. The impact of the variation in the valuation of assets and liabilities on each range (the repricing gap) is calculated in function of this analysis.

The following tables summarize Inteligo's exposure to interest rate risks. Inteligo's financial instruments are presented at book value, classified by the period of the contract's interest rate repricing or maturity date, whichever occurs first:

	Repricing Gap at December 31, 2020							
	Up to 1 month	From 1 to 3 months	From 3 Months - 1 Year	From 1 Year - 3 Years	From 3 Years - 5 Years	Over 5 Years	Past-due loan/ Equities	Wealth Management

### Foreign Exchange Risk

Exchange rate risk is related to the variation of the positions both on- and off-balance sheet that may be negatively affected by exchange rates movements. Inteligo Bank's main business is performed in U.S. dollars, its functional currency. Management sets a limit to exposure levels in other currencies and monitors it monthly.

Inteligo SAB uses both *soles* and U.S. dollars in its trading operations and maintains positions in both currencies. Interfondos manages mutual funds in both *soles* and U.S. dollars.

### Liquidity Risk

Liquidity risk consists of Inteligo's inability to comply with the maturity of its obligations, thus incurring losses that affect its equity position. This risk may arise as result of diverse events such as the unexpected decrease of funding sources or the inability to rapidly settle assets, among others.

Although Inteligo takes short-term deposits, most of the deposits have historically been renewed or maintained, and consequently they represent a stable funding source. Additionally, the average loan term is less than a year and more than a half of the investment portfolio can be easily liquidated, so liquidity risk is low.

Nevertheless, Inteligo assesses medium-term and long-term liquidity through a structural analysis of its funds inflows and outflows on diverse maturity terms. This process allows it to know the diverse funding sources, how liquidity needs to be increased, and which terms are mismatched. On the basis of this information, the necessary decisions to maintain adequate liquidity levels are taken.

Inteligo Bank's financial assets include unlisted equity investments, which generally are illiquid. In addition, Inteligo Bank holds investments in closed (unlisted) and open-ended investment funds, which may be subject to redemption restrictions such as "side pockets" and redemption limits. As a result, Inteligo Bank may not be able to settle some of its investments in these instruments in due time in order to meet its liquidity requirements.

### ***Operational Risk***

Inteligo manages operational risk through its risk unit, guided by banking best-practices, including Basel II policies. The objectives of the operational risk management are to:

- reduce operational losses by identifying potential process risks;
- identify operational risk in the development of new products; and
- manage control risk and self-assess critical processes;
- monitor and measure operational risk.

Inteligo's methodology is based on two tools for identifying and measuring risks that calculate the exposure level and facilitates decision-making to mitigate exposures within certain limits of risk tolerance. These tools are risks and controls self-assessment, and collection of loss event.

Inteligo Bank uses the Basic Indicator Approach for operational risk management under Basel II, according to the Central Bank of The Bahamas' regulation. In recent years, Inteligo launched several initiatives to strengthen the risk culture among the employees.

Not Applicable.

### **C. Other Securities**

None.

### **D. American Depositary Shares**

None.

## PART II

### ITEM 13. DEFAULTS, DIVIDEND ARREARAGES AND DELINQUENCIES

None.

### ITEM 14. MATERIAL MODIFICATIONS TO THE RIGHTS OF SECURITY HOLDERS AND USE OF PROCEEDS

None.

### ITEM 15. CONTROLS AND PROCEDURES

#### Disclosure Controls and Procedures

Disclosure controls and procedures are designed to ensure that information required to be disclosed by us in reports filed or submitted under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. We have evaluated, with the participation of our chief executive officer and chief financial officer, the effectiveness of our disclosure controls and procedures as of December 31, 2020.

There are inherent limitations to the effectiveness of any system of disclosure controls and procedures, including the possibility of human error and the circumvention or overriding of the controls and procedures. Accordingly, even effective disclosure controls and procedures can only provide reasonable assurance of achieving their control objectives. Based upon our evaluation, our chief executive officer and chief financial officer concluded that our disclosure controls and procedures were effective to provide reasonable assurance that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the applicable rules and forms, and that it is accumulated and communicated to our management, including our chief executive officer and chief financial officer, as appropriate to allow timely decisions regarding required disclosure.

#### Management's Annual Report on Internal Control Over Financial Reporting

Management, under the supervision and with the participation of the chief executive officer and chief financial officer, is responsible for establishing and maintaining adequate internal control over financial reporting. Our internal control over financial reporting is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with IFRS as adopted by IASB and includes policies and procedures that pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of our assets; provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with IFRS as adopted by IASB, and that receipts and expenditures are being made only in accordance with authorizations of our management and directors; and provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of our assets that could have a material effect on the consolidated financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Therefore, effective control over financial reporting cannot and does not provide absolute assurance of achieving our control objectives. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Management assessed the effectiveness of the Company's internal control over financial reporting (as defined in Rules 13(a)-13(f) and 15(d)-15(f) under the U.S. Securities Exchange Act of 1934) as of December 31, 2020. In making this assessment, it used the criteria established in Internal Control—Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). Based on our assessment, management concluded that, as of December 31, 2020, the Company's internal control over financial reporting is effective based on those criteria.

EY Peru, an independent registered public accounting firm, has issued an unqualified opinion on the effectiveness of the Company's internal control over financial reporting, which is included in this Annual Report on Form 20-F under "Item 18. Financial Statements—Report of independent registered public accounting firm."

#### Changes in Internal Control over Financial Reporting

There has been no change in our internal control over financial reporting during 2020 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

**ITEM 16. [RESERVED]****Item 16A. Audit Committee Financial Expert**

Our board of directors has determined that Felipe Federico Roy Morris Guerinoni, a member of our audit committee, meets the requirements of an “audit committee financial expert,” as defined by the SEC, and is an independent member of the audit committee under applicable SEC and NYSE rules.

See Item 6: “Directors, Senior Management and Employees—Board Practices—Audit Committee.”

**Item 16B. Code of Ethics**

In 2020, we updated our code of ethics, as defined in Item 16B of Form 20-F under the Exchange Act which applies to all directors, officers, employees, consultants and contractors without exception. The code is publicly available on the corporate governance section of our website at <https://www.ifs.com.pe/>. The information on our website is not incorporated into this Annual Report on Form 20-F.

The Code of Ethics is available to the general public on our web page at [www.ifs.com.pe](http://www.ifs.com.pe). This URL is intended to be an inactive textual reference only. It is not intended to be an active hyperlink to our website. The information on our website, which might be accessible through a hyperlink resulting from this URL, is not and shall not be deemed to be incorporated into this Annual Report on Form 20-F.

**Item 16C. Principal Accountant Fees and Services****Audit and Non-Audit Fees**

The following table sets forth the fees billed to us by our independent auditors, EY Peru, during the fiscal years ended December 31, 2019 and 2020:

	Year ended December 31,	
	2020 <sup>(1)</sup>	2019 <sup>(1)</sup>
	(S/ in millions)	
Audit fees	11.5	10.4
Audit-related fees	0.1	0.2
Tax fees	0.9	0.8
Other fees	0.2	0.3
<b>Total fees</b>	<b>12.7</b>	<b>11.6</b>

(1) Including taxes.

“Audit fees” in the above table are the aggregate fees billed by EY Peru in connection with the audit of our annual financial statements. This line item includes: the audit of our and our subsidiaries’ statutory accounts, the audit of the consolidated financial statements required by Item 18 of Form 20-F, the limited reviews of financial statements of our subsidiaries and procedures related to the issuance of comfort letters.

“Audit related fees” in the above table are the aggregate fees billed by EY Peru for assurance and related services that are reasonably related to the performance of the audit or review of IFS financial statements and are not reported under “audit fees”. This line item includes services such as attestation reports for our subsidiaries as required by statute or regulations.

“Tax fees” related to tax services which include all services performed by IFS’s independent auditor’s tax personnel, except those services specifically related to the review and preparation of IFS’s financial statements, and which principally consist of tax compliance and advisory service.

“All Other fees” includes other advisory services to our subsidiaries.

**Audit Committee Pre-Approval Policies and Procedures**

Our audit committee is responsible for the appointment of our external auditors, determining their compensation, retention and oversight, and resolving any disagreement that may arise between management and our external auditors. Our audit committee annually pre-approves the services that may be retained with our external auditor, considering the independence rules for the external auditor described in section I of Annex A of the Audit Committee Policy. These previously approved services are ratified and/or

adjusted once a year by the audit committee. In addition, our audit committee may, at any time, add or eliminate services from the pre-approval list. We may engage our external auditors for all services contained in the pre-approval list without additional audit committee approval, provided that they do not exceed the amount of U.S.\$50,000. Any services not included in such pre-approval list or which, having been previously approved, exceed the amount indicated above, need to be specifically reviewed and approved by our audit committee before any such engagement.

All proposed services carried out by our external auditors as well as corresponding fees related to audit and non-audit services, have been presented to our audit committee, which has determined they are reasonable and consistent with our policies.

Our audit committee's main duties are disclosed in "Item 6. Directors, Senior Management and Employees—Board Practices." Furthermore, the authorization to hire external auditors is subject to approval by our shareholders at the ordinary annual shareholders' meeting although our audit committee is responsible for their appointment and oversight.

**Item 16D. Exemptions from the Listing Standards for Audit Committees**

Not applicable.

**Item 16E. Purchases of Equity Securities by the Issuer and Affiliated Purchasers**

The following table sets out certain information concerning purchases of our previously issued shares by us or any affiliated purchaser during the fiscal year ended December 31, 2020.

<u>Period</u>	<u>Total number of shares purchased<sup>(1)</sup></u>	<u>Average price paid per share (S/)<sup>(2)</sup></u>	<u>Total number of shares purchased as part of publicly announced plans or programs</u>	<u>Maximum number of shares that may yet be purchased under the plans or programs</u>
January 2020	—	—	—	—
February 2020	500	135.1	N/A	N/A
March 2020 <sup>(3)</sup>	2,100	114.1	N/A	N/A
April 2020	—	—	—	—
May 2020	—	—	—	—
June 2020	—	—	—	—
July 2020	—	—	—	—
August 2020	—	—	—	—
September 2020	—	—	—	—
October 2020	—	—	—	—
November 2020	—	—	—	—
December 2020	24,324	111.1	N/A	N/A
<b>Total<sup>(4)</sup></b>	<b>26,924</b>	<b>—</b>	<b>—</b>	<b>—</b>

(1) All shares were purchased other than through a publicly announced plan or program via open-market transactions.

(2) For convenience purposes only, amounts in soles in this column have been converted from U.S. dollars using a rate of S/3.621 to US\$1.00, which was the exchange rate reported for December 31, 2020 by the SBS. These translations should not be construed as representations that the U.S. dollar amounts have been, could have been or could be converted into soles at that or at any other exchange rate.

(3) During March 2020, the Company bought and sold 2,100 shares.

(4) As of December 31, 2020, the Company and some Subsidiaries hold an aggregate of 24,824 shares issued by IFS.

**Item 16F. Change in Registrant's Certifying Accountant**

During the years ended December 31, 2020, 2019 and 2018 and through the date of this Annual Report on Form 20-F, EY Peru, has not resigned, has not indicated that it will decline to stand for re-election after the completion of its current audit nor has it been dismissed.

**Item 16G. Corporate Governance****Corporate Governance**

As a foreign private issuer, we are subject to different corporate governance requirements than those followed by a U.S. company with shares listed on the NYSE that follow NYSE listing standards. With certain exceptions, foreign private issuers are permitted to follow their home country corporate governance standards.

We are registered with the SMV and although there is no legal obligation to comply with Peruvian corporate governance practices, we are required to report our degree of compliance with Peruvian corporate governance practices for Peruvian publicly-held companies to the SMV. Because we are not subject to Panamanian securities laws as we have not offered any securities in Panama and because general corporate law in Panama does not impose any meaningful restrictions on our corporate governance, a comparison to Panamanian corporate governance practices is not applicable. Additionally, we have adopted a set of additional corporate governance guidelines as contemplated by the U.S. Sarbanes-Oxley Act of 2002 and our articles of incorporation, which include the establishment of:

- principles and duties relating to the conduct of our management, including as with respect to confidentiality and conflicts of interest;
- internal accounting controls systems;
- corporate governance guidelines;
- amendments to the audit committee charter;
- a code of business conduct and ethics;
- corporate anti-corruption policies and guidelines, including compliance with the FCPA; and
- amendments to corporate compliance policies.

Pursuant to Section 303A.11 of the Listed Company Manual of the NYSE, we are required to provide a summary of the significant ways in which our corporate governance practices differ from those required for U.S. companies under the NYSE listing standards. The following is a comparison between our corporate governance policies under Peruvian law and those of the NYSE listing standards.

**NYSE Standards**

*Director Independence.* A majority of the board of directors must be independent, except in the case of a “controlled” issuer. §303A.01 of the NYSE Listed Company Manual

*Executive Sessions.* Non-management directors must meet regularly in executive sessions without management. Independent directors should meet alone in an executive session at least once a year. §303A.03 of the NYSE Listed Company Manual

***Our Corporate Governance Practices***

Our articles of incorporation provide for a minimum of three members for our board of directors. Currently, our board of directors is composed of seven members.

The criteria for determining independence under our corporate governance standards has been defined in accordance with Rule 10A-3 under the Exchange Act.

Under our articles of incorporation and applicable laws non-management directors are not required to meet in executive sessions without management.

## NYSE Standards

*Audit committee.* An audit committee satisfying the requirements of Rule 10A-3 under the Exchange Act. §303A.06 of the NYSE Listed Company Manual

*Audit committee additional requirements.* §303A.07 of the NYSE Listed Company Manual requires that an audit committee must consist of at least three members, each of whom are financially literate and at least one of whom is a financial expert, and that the audit committee have a written charter outlining the committee's responsibilities.

*Nominating/corporate governance committee.* A nominating/corporate governance committee of independent directors is required. The committee must have a charter specifying the purpose, duties and evaluation procedures of the committee. §303A.04 of the NYSE Listed Company Manual

*Compensation committee.* A compensation committee of independent directors is required. The committee must approve executive officer compensation and must have a charter specifying the purpose, duties and evaluation procedures of the committee. §303A.05 of the NYSE Listed Company Manual

*Code of Ethics.* A code of business conduct and ethics are required, as is disclosure of any waiver for directors or executive officers. §303A.10 of the NYSE Listed Company Manual

### **Item 16H. Mine Safety Disclosure**

Not applicable.

## *Our Corporate Governance Practices*

Our audit committee complies with the criteria set forth under our "Audit Committee Charter," the rules of the NYSE and Rule 10A-3(b)(1) of the Exchange Act, each as applicable to foreign private issuers. Our audit committee consists of three directors, all of whom are financially literate and one of whom is a financial expert. Our audit committee is fully independent in compliance with NYSE rules and Rule 10A-3(b) of the Exchange Act.

Our audit committee complies with the criteria set forth under our "Audit Committee Charter," the rules of the NYSE and Rule 10A-3(b)(1) of the Exchange Act, each as applicable to foreign private issuers. Our audit committee consists of three directors, all of whom are financially literate and one of whom is a financial expert. The three members of the audit committee are independent.

We do not have a nominating/corporate governance committee. Our board of directors has the power to establish such a committee in the future on the terms it deems appropriate.

We do not have a compensation committee. Our Board of Directors may establish a compensation committee in the future on the terms it deems appropriate.

We have adopted a code of business conduct and ethics, as contemplated by the NYSE. Our board of directors has the obligation to verify compliance with the provisions of such code.

## **Report of Independent Registered Public Accounting Firm**

### **To the Shareholders and Board of Directors of Intercorp Financial Services Inc.**

#### **Opinion on the Consolidated Financial Statements**

We have audited the accompanying consolidated statements of financial position of Intercorp Financial Services Inc. and subsidiaries (the “Company”) as of December 31, 2020 and 2019, and the related consolidated statements of income, other comprehensive income, changes in equity and cash flows for each of the three years in the period ended December 31, 2020, and the related notes (collectively referred to as the “consolidated financial statements”). In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of the Company at December 31, 2020 and 2019, and the consolidated results of its operations and its cash flows for each of the three years in the period ended December 31, 2020, in conformity with International Financial Reporting Standards as issued by the International Accounting Standards Board.

We also have audited, in accordance with the standards of the Public Accounting Oversight Board (United States) (PCAOB), the Company’s internal control over financial reporting as of December 31, 2020, based on criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (2013 framework) and our report date on April 26, 2021 expressed an unqualified opinion thereon.

#### **Basis for Opinion**

These consolidated financial statements are the responsibility of the Company’s management. Our responsibility is to express an opinion on the Company’s consolidated financial statements based on our audits. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement, whether due to error or fraud. Our audits included performing procedures to assess the risks of material misstatement of the consolidated financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements. We believe that our audits provide a reasonable basis for our opinion.

#### **Critical audit matters**

The critical audit matters communicated below are matters arising from the current period audit of the financial statements that were communicated or required to be communicated to the audit committee and that: (1) relate to accounts or disclosures that are material to the financial statements and (2) involved our especially challenging, subjective or complex judgments. The communication of critical audit matters does not alter in any way our opinion on the consolidated financial statements, taken as a whole, and we are not, by communicating the critical audit matters below, providing separate opinions on the critical audit matters or on the accounts or disclosures to which they relate.

## **Expected credit loss on loan portfolio**

### *Description of the matter*

As described in Note 6(a) to the consolidated financial statements, the amount recognized as impairment allowance for loans is S/2,984,851,000 as of December 31, 2020. Also, as disclosed by management in Notes 3.4(h) and 30.1(d) to the consolidated financial statements, the allowance is calculated using an expected credit loss model (ECL). The ECL model determines the credit losses that are expected to arise for loans as a result of a significant increase in credit risk (SICR) from the initial date of the loan or when there is objective evidence of impairment. ECL allowances are measured at amounts equal to either (i) 12-month ECL; or (ii) lifetime ECL. The ECL is based upon the probability of default, the exposure to the default and the loss given default; which are based on supportable information about past events, current conditions and forward looking information (FLI). When estimating the ECLs, the Company considers three scenarios (optimistic, base and pessimistic), each of these is associated with different probability of default. Also, the Company currently is challenging to incorporate the specific effects of Covid-19 and government support measures on a reasonable and supportable basis. Therefore, the effects of Covid-19 cannot be reflected in ECL model, and management adjustments were considered in order to capture the uncertainty surrounding the economic impact of COVID-19.

Auditing the impairment allowance for loans was complex and required the application of significant judgment and involvement of specialists due to the inherent complexity of the models, assumptions, judgments, the forward-looking nature of key assumptions and the interrelationship of the critical variables in measuring the ECL. Significant assumptions and judgments with respect to the estimation of the allowance for credit losses include (i) the determination of when a loan has experienced a SICR; (ii) the forecast of FLI for multiple economic scenarios and the probability weighting of those scenarios; (iii) the calculation of both 12-month and lifetime credit losses; and (iv) the application of expert credit judgment, specially due to the economic effects of COVID-19. The allowance for credit losses is a significant estimate for which variations in model methodology, assumptions and judgments can have a material effect on the measurement of expected credit losses.

### *How we addressed the matter in our audit*

We obtained an understanding, evaluated the design, and tested the operating effectiveness of management's controls over the calculation of the ECL and the significant assumptions describe above, including the allowance related to the models and management adjustments due to economics effects of COVID-19. The controls we tested included, amongst others, controls over the identification of indicators of impairment, the determination of significant changes in credit risk, and management's review and approval of models used to calculate the ECL, including the data inputs and outputs of those models; testing controls over the risk-rating process, and the governance and oversight controls over the review of the overall ECL.

To test the ECL, our audit procedures included, amongst others, involving our credit risk specialist to assess whether methodology and assumptions used to estimate ECL were consistent with the requirements of IFRS. Likewise, we assessed significant changes in credit risk triggers, management's forecasting methodology and compare management's forward-looking information to publicly available information from independent sources. Also, we assessed management adjustments included due to uncertainty surrounding the economic impact of COVID-19; the probability-weighted scenarios used in the ECL and perform independent recalculations and we tested the completeness and accuracy of data used in the measurement of the ECL. We also assessed the adequacy of the related financial statement disclosures.

## **Valuation of insurance contracts liabilities**

### *Description of the matter*

As described in Note 14(a) to the consolidated financial statements, the amount recognized as insurance contracts liabilities was S/12,501,723,000 as of December 31, 2020. This amount includes technical reserves for insurance premiums amounting to S/12,298,075,000 and technical reserves for claims amounting to S/203,648,000. The valuation of these liabilities was made based on the actuarial assumptions and data used in the calculation. The key actuarial economic assumptions used in the valuation of the insurance contracts are critical and include, amongst others, the mortality and morbidity tables and interest rates.

Auditing the Company's insurance contract liabilities was complex and required the application of significant auditor judgment and involvement of specialists due to the actuarial models and highly judgemental nature of the actuarial assumptions used by management to estimate the liabilities. The key actuarial assumptions include mortality and morbidity tables, discount rates, and expenses. Changes in these assumptions could have significant effects on the valuation of the insurance contracts liabilities.

### *How we addressed the matter in our audit*

We obtained an understanding, evaluated the design, and tested the operating effectiveness of the management's controls, related to the valuation of insurance contract liabilities. This included testing the governance and oversight controls over the review of the actuarial models, the actuarial assumptions, and the data inputs used.

To test the valuation of the insurance contract liabilities, our audit procedures included, amongst others, comparing the methodology, actuarial models and actuarial assumptions used by the Company to recognized actuarial practices and testing the completeness and accuracy of the underlying insurance policy data used in the valuation. We involved our actuarial specialists to assist us in assessing the reasonableness of the assumptions and the appropriateness of the methodologies and models. Our actuarial specialists also performed an independent calculation of the insurance contract liabilities. In addition, our actuarial specialists assessed the reasonableness of the movement of insurance contracts liabilities considering changes in the actuarial assumptions in the reporting period. We also assessed the adequacy of the related financial statement disclosures.

**Lima, Peru**

**April 26, 2021**

**To the Shareholders and Board of Directors of InterCorp Financial Services Inc.**

**Opinion on Internal Control Over Financial Reporting**

We have audited InterCorp Financial Services Inc. and subsidiaries internal control over financial reporting as of December 31, 2020, based on criteria established in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (2013 framework), (the COSO criteria). In our opinion, InterCorp Financial Services Inc. and subsidiaries (the Company) maintained, in all material respects, effective internal control over financial reporting as of December 31, 2020, based on the COSO criteria.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the consolidated statements of financial position of the Company as of December 31, 2020 and 2019, and the related consolidated statements of income, other comprehensive income, changes in equity and cash flows for each of the three years in the period ended December 31, 2020, and the related notes and our report dated on April 26, 2021, expressed an unqualified opinion thereon.

**Basis for Opinion**

The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying Management's Report on Internal Control Over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects.

Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

**Definition and Limitations of Internal Control Over Financial Reporting**

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance International Financial Reporting Standards as issued by the International Accounting Standards Board. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

## **Intercorp Financial Services Inc. and Subsidiaries**

Notes to the consolidated financial statements

As of December 31, 2020 and 2019

### **1. Business activity and Initial Public Offering**

(a) Business activity -

Intercorp Financial Services Inc. and Subsidiaries (henceforth “IFS”, “the Company” or “the Group”), is a limited liability holding company incorporated in the Republic of Panama on September 19, 2006, and is a Subsidiary of Intercorp Perú Ltd. (henceforth “Intercorp Perú”), a holding Company incorporated in 1997 in the Commonwealth of the Bahamas. As of December 31, 2020 and 2019, Intercorp Perú holds directly and indirectly 70.64 and 70.62 percent of the issued and outstanding capital stock of IFS, respectively.

IFS’s legal domicile is located at Av. Carlos Villarán 140 Urb. Santa Catalina, La Victoria, Lima, Peru.

As of December 31, 2020 and 2019, IFS holds 99.30 percent of the capital stock of Banco Internacional del Perú S.A.A. – Interbank (henceforth “Interbank”), 99.84 percent of the capital stock of Interseguro Compañía de Seguros S.A. (henceforth “Interseguro”), 100 percent of the capital stock of Inteligo Group Corp. (henceforth “Inteligo”).

The operations of Interbank and Interseguro are concentrated in Peru, while the operations of Inteligo and its Subsidiaries (Interfondos S.A. Sociedad Administradora de Fondos, Inteligo Sociedad Agente de Bolsa S.A. and Inteligo Bank Ltd.) are mainly concentrated in Peru and Panama.

The main activities of IFS’s Subsidiaries and their assets, liabilities, equity, operating income, net income, balances and other relevant information are presented in Note 2.

The consolidated financial statements of IFS and Subsidiaries as of December 31, 2019, and for the year then ended, were approved by the Board of Directors on April 22, 2020. The consolidated financial statements as of December 31, 2020, and for the year then ended, have been approved and authorized for issuance by Management and the Audit Committee on April 26, 2021, and will be submitted for approval by the Board of Directors. In Management’s opinion, the accompanying consolidated financial statements will be approved by the Board of Directors without modifications.

(b) Global pandemic Covid-19 -

(b.1) State of National and Sanitary Emergency

In December 2019, a new coronavirus strain (SARS-CoV-2) was identified in Wuhan, China, which causes the coronavirus disease 2019 known as “Covid-19”, and subsequently, in March 2020, it was declared a global pandemic by the World Health Organization. Covid-19 has had a significant impact on the world economy. Many countries imposed travel bans, social isolation, and even people in many places have been and are subject to quarantine measures.

In the case of Peru, in March 2020, the Government declared a State of National and Sanitary Emergency ordering the closure of borders, mandatory social isolation, the closure of businesses considered non-essential (the exceptions were the production, distribution and commercialization of food and pharmaceuticals, financial services and healthcare), among other measures related to the health and well-being of citizens.

Subsequently, in May 2020, through Supreme Decree No. 080-2020, the government approved the gradual resumption of economic activities in order to mitigate the economic negative effects of the pandemic. The proposed reactivation would be in four phases based on the impact of each sector on the economy, being mining and industry, construction, services and tourism and commerce the first ones to restart, followed by manufacturing. The last phase had considered the reopening of the entertainment sector with reduced capacity.

Notwithstanding the aforementioned, due to the increase in the number of infections at national level, through Supreme Decree No. 009-2021, dated February 19, 2021, the Peruvian Government extended the State of Sanitary Emergency until September 2, 2021. Likewise, through Supreme Decree No. 036-2021-PCM, the State of National Emergency was also extended through March 31, 2021, with measures focused by region in the areas of health care and traffic restrictions on movement.

(b.2) Economic measures adopted by the Peruvian Government

Within this context, the Ministry of Economy and Finance (henceforth “MEF”), the Central Reserve Bank of Peru (henceforth “BCRP”) and the Superintendence of Banking and Insurance and private Pension Fund Administrators (henceforth “SBS”), activated extraordinary measures aimed to alleviate the financial and economic impact of Covid-19, in particular on customers of the financial system (due to the closure of most sectors of economic activity), as well as some additional measures focused on securing the continuity of the economy’s payment chain.

The main measures implemented in the financial system are related to facilities for loan rescheduling (payment deferrals), suspension of counting of past due days, partial withdrawal of deposits from compensation from service time accounts, setting of Repo operations with the BCRP and the launching of credit programs guaranteed by the Peruvian Government, such as “Reactiva Peru”, created through Legislative Decree No. 1455-2020 and expanded through Supreme Decree No. 1486-2020, which has the purpose to secure the continuity of companies’ payment chain to face the impact of Covid-19.

Such program grants guarantees to companies to obtain working capital loans and thus fulfill their short-term obligations to their workers and suppliers of goods and services. This program manages guarantees for the entire Peruvian financial system whose total amounted to S/60,000 million.

As of December 31, 2020, Interbank holds loans of the “Reactiva Peru” program for an amount of S/6,615,768,000, from which S/5,855,826,000 are guaranteed by the Peruvian Government.

(b.3) Measures adopted by the Company and Subsidiaries

Management and the Board of IFS monitors the situation closely and is focusing on four fundamental pillars which is going to allow the continuity of its operations; taking the following measures in each one of these pillars:

i) Liquidity and solvency

Active participation in the BCRP’s daily operations, thus raising funds through loan reporting operations represented by securities. These funds were aimed to loans under the “Reactiva Peru” program, which in turn allowed a higher collection in the levels of deposits. Likewise, in order to strengthen its capital and regulatory capital to face with the volatile environment, the Group implemented the following measures:

Notes to the consolidated financial statements (continued)

- The General Shareholders' Meeting of Interbank held on April 3, 2020, approved the reduction in the percentage of distributable dividends for the 2019 period, from 45 percent to 25 percent. In addition, it was agreed that the net profit generated in the first quarter of 2020 would be capitalized, which amounted to S/231,887,000 and will be capitalized within the deadlines established by law for the holding of the General Shareholders' Meeting.
- On June 30, 2020, Interbank placed an International subordinated bonds for US\$300,000,000.
- In the Board's Session held on June 30, 2020, Interseguro agreed to the capitalization of S/50,000,000 with charge to the period's net profit. The capitalization of this amount will be performed in the year 2021 within the deadline established by law for the holding of the General Shareholders' Meeting.
- On September 30, 2020, Interseguro placed subordinated bonds for US\$25,000,000.
- In the General Shareholders' Meeting held on December 24, 2020, Interseguro agreed to the capitalization of S/48,148,000 with charge to the retained earnings.

ii) Operations

In order to sustain the Group's operations, the following measures have been taken:

- Provide to employees with technological tools.
- Implementation of new protocols for business continuity under the current circumstances.
- Monitoring of supplier operations related to the supply of cash.
- Reinforcement of IT systems and cybersecurity.

iii) Distribution channels

- Financial stores – implementation of flexible opening hours.
- ATMs – Maintenance and cash availability of cash at full capacity.
- Call center – Increase of telephone operators.
- Apps and home banking

iv) Employees

- Implementation of Covid-19 protocols and health surveillance.
- Home office implementation
- Testing kits to detect Covid-19 acquired for the Group's employees and daily health tracking in case of contagion

Due to the nature of its operations, the subsidiary Inteligo, was not significantly impacted by the Covid-19 pandemic.

In Management's opinion, these and other additional measures implemented will sufficiently enable IFS to address the negative effects of the Covid-19 pandemic.

(c) Initial Public Offering

On July 3, 2019, the Board of IFS approved the filing with the Securities and Exchange Commission of the United States of America (henceforth "SEC"), of a Registration Statement under Form F-1 of the Securities Exchange Act of 1933 of the United States of America, in relation with a proposal of an Initial Public Offering (henceforth "Offering") of IFS's common shares.

## Notes to the consolidated financial statements (continued)

On July 18, 2019, IFS announced the placement of the Offering for approximately 9,000,000 common shares at a price of US\$46.00 per common share. The sale was performed by (i) IFS, (ii) Interbank, (iii) Intercorp Perú; and (iv) a non-related shareholder. Additionally, IFS granted the Offering placers a 30-day call option for up to 1,350,000 new common shares, as an additional initial issuance.

As result of said Offering, IFS sold 2,418,754 common shares held as treasury stock (including shares sold by Interbank), as well as approximately 1,150,000 new common shares to be issued. Intercorp Perú sold 2,531,246 shares, and the non-related shareholder sold 3,000,000 shares. Additionally, the placers exercised the call option regarding 1,186,841 new common shares.

In this sense, IFS and Subsidiaries combined, sold, 4,755,595 shares at US\$46.00 per share. The sale value amounted to approximately US\$218,757,000 (before issuance expenses).

The total impact of the Offering on the Company's net equity, after discounting the issuance expenses, amounted to S/684,125,000 (approximately US\$208,384,000), mainly explained by:

- (i) Issuance of 2,336,841 shares, for an amount of S/336,950,000, out of which S/74,571,000 correspond to capital stock and S/262,379,000 to capital surplus (net of issuance expenses for S/15,957,000), see Note 16(a).
- (ii) Sale of 2,418,754 share held as treasury stock, including shares sold by Interbank, for a total amount of S/347,175,000, which were recorded in captions "Treasury stock" and "Retained earnings", see Note 16(b).

## 2. Subsidiaries

IFS's Subsidiaries are the following:

- (a) Banco Internacional del Perú S.A.A. - Interbank and Subsidiaries -

Interbank is incorporated in Peru and is authorized by the Superintendence of Banking, Insurance and Private Pension Funds (henceforth "SBS", by its Spanish acronym) to operate as a universal bank in accordance with Peruvian legislation. The Bank's operations are governed by the General Act of the Banking and Insurance System and Organic Act of the SBS – Act No. 26702 (henceforth "the Banking and Insurance Act"), that establishes the requirements, rights, obligations, restrictions and other operating conditions that financial and insurance entities must comply with in Peru.

As of December 31, 2020, Interbank had 215 offices (255 offices and a branch established in the Republic of Panama as of December 31, 2019). Regarding said branch, the Board's Session held on April 23, 2019, approved the voluntary closure. In this sense, on October 1, 2020, the Superintendency of Banks of the Republic of Panama issued Resolution SBP-0115-2020 through which it cancelled the international banking license it had granted to Interbank to operate a branch in such country. Lastly, on December 14, 2020, the dissolution of the branch was registered in the Public Registry of Panama; at such date, the main asset held by the branch was a financial loan with Interbank itself.

Notes to the consolidated financial statements (continued)

Additionally, IFS holds approximately 100 percent of the shares of the following Subsidiaries:

Entity	Activity
Internacional de Títulos Sociedad Titulizadora S.A. -Intertítulos S.T.	Manages securitization funds.
Compañía de Servicios Conexos Expressnet S.A.C.	Services related to credit card transactions or products related to the brand “American Express”.
Inversiones Huancavelica S.A.	Real estate activities. Through a process of merging by absorption, which was authorized by the SBS in September 2019, the entity was absorbed by Banco Internacional del Perú S.A.A.
Contacto Servicios Integrales de Créditos y Cobranzas S.A.	Collection services. Through a process of merging by absorption, which was authorized by the SBS in September 2019, the entity was absorbed by Banco Internacional del Perú S.A.A.

(b) Interseguro Compañía de Seguros S.A. and Subsidiary -

Interseguro is incorporated in Peru and its operations are governed by the Banking and Insurance Act. It is authorized by the SBS to issue life and general risk insurance contracts.

Interseguro holds participations in Patrimonio Fideicometido D.S.093-2002-EF, Interproperties Perú (henceforth “Patrimonio Fideicometido – Interproperties Perú”), that is a structured entity, incorporated in April 2008, and in which several investors (related parties to the Group) contributed investment properties. Each investor or investors have ownership of and specific control over the contributed investment property. The fair values of the properties contributed by Interseguro, which were included in this structured entity as of December 31, 2020 and 2019, amounted to S/118,892,000 and S/114,058,000, respectively; see Note 7. For accounting purposes and under IFRS 10 “Consolidated Financial Statements” the assets included in said structure are considered “silos”, because they are ring-fenced parts of the wider structured entity (the Patrimonio Fideicometido - Interproperties Perú). The Group has ownership and decision-making power over these properties and the Group has the exposure or rights to their returns; therefore, the Group has consolidated the silos containing the investment properties that it controls.

In June and September 2019, Interseguro sold the entirety of its participation, equivalent to 15 percent, of the land lot located in Miraflores (Lima) called “Cuartel San Martín” to Urbi Propiedades S.A.C., a related entity, for an amount of S/63,132,000, through said sale, it transferred the ownership of said property; Note 7(a) and (e).

Additionally, in November 2019, Interseguro and Interproperties Perú transferred an investment property (Lilystone lot, located in San Isidro) in favor of Interseguro, as well as the annulment of the corresponding certificates of participation. The amount of the transferred property amounted to S/253,557,000; see Note 7(a).

Notes to the consolidated financial statements (continued)

(c) Inteligo Group Corp. and Subsidiaries -

Inteligo is an entity incorporated in the Republic of Panama. As of December 31, 2020 and 2019, it holds 100 percent of the shares of the following Subsidiaries:

Entity	Activity
Inteligo Bank Ltd.	It is incorporated in The Commonwealth of the Bahamas and has a branch established in the Republic of Panama that operates under an international license issued by the Superintendence of Banks of the Republic of Panama. Its main activity is to provide private and institutional banking services, mainly to Peruvian citizens.
Inteligo Sociedad Agente de Bolsa S.A.	Brokerage firm incorporated in Peru.
Inteligo Perú Holding S.A.C.	Financial holding company incorporated in Peru in December 2018. As of December 31, 2020, it holds 99.99 percent interest in Interfondos S.A. Sociedad Administradora de Fondos, company that manages mutual funds and investment funds, which was Subsidiary of Interbank until December 2018, and subsequently was sold to Inteligo Perú Holdings S.A.C.
Inteligo USA, Inc.	Incorporated in the United States of America in January 2019 and provides investment consultancy and related services.
(d) Negocios e Inmuebles S.A. and Holding Retail Perú S.A. -	These entities were acquired by IFS as part of the purchase of Seguros Sura and Hipotecaria Sura in 2017; Note 9(b). As of December 31, 2020 and 2019, as a result of the merger between Interseguro and Seguros Sura, both companies hold 8.50 percent of Interseguro's capital stock. Likewise, as of December 31, 2018, these entities held collectively 30.0 percent of the capital stock of Hipotecaria Sura, which was extinguished in October 2019.
(e) San Borja Global Opportunities S.A.C. -	Its corporate purpose is the marketing of products and services through Internet, telephony or related and it operates under the name of Shopstar, an online marketplace dedicated to the sale of products from different stores locally.
(f) IFS Digital S.A.C. -	Entity incorporated in August 2020, its corporate purpose is to perform any type of investments and related services.
(g) Hipotecaria Sura Empresa Administradora Hipotecaria S.A. -	Company dedicated to grant mortgage loans and acquired as part of the acquisition of the Sura Group in 2017. Since 2015 it has not granted loans and was extinguished in October 2019.

Notes to the consolidated financial statements (continued)

The information below presents a summary of the consolidated financial statements of the main Subsidiaries, before adjustments and eliminations for consolidation, as of December 31, 2020 and 2019, in accordance with the IFRS. For information on business segments, see Note 28:

### 3. Significant accounting policies

#### 3.1 Basis of presentation -

The consolidated financial statements have been prepared in accordance with the International Financial Reporting Standards (henceforth “IFRS”) as issued by the International Accounting Standards Board (henceforth “IASB”) and are presented in Soles, which is the functional currency of the Group. All values are rounded to the nearest thousand (S/(000)), except when otherwise indicated.

The preparation of the consolidated financial statements in conformity with the IFRS requires Management to make estimations and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses, as well as the disclosure of significant events in the notes to the consolidated financial statements; see Note 3.6.

#### 3.2 Adoption of new standards and disclosures -

In these consolidated financial statements, the Group has not early adopted any standard, interpretation or amendment that has been issued but is not yet effective.

The following standards, interpretations or amendments have been adopted for the first time in 2020, but they have not had a significant impact on the Group’s consolidated financial statements

- Amendments to IFRS 3 “Business Combinations”

The amendment to IFRS 3 clarifies that to be considered a business, an integrated set of activities and assets must include, at a minimum, an input and a substantive process that, together, significantly contribute to the ability to create output. Furthermore, it clarifies that a business can exist without including all of the inputs and processes needed to create outputs.

These amendments did not have any impact on the Group’s consolidated financial statements, but may impact future periods if the Group enters into any business combinations.

- Amendments to IAS 1 “Presentation of Financial Statements” and IAS 8 “Accounting Policies, Changes in Accounting Estimates and Errors”

The amendments provide a new definition of “material” that states, “information is material if omitting, misstating or obscuring it could reasonably be expected to influence decisions that the primary users of general financial statements make on the basis of those financial statements, which provide financial information about a specific reporting entity”. The amendments clarify that materiality will depend on the nature or magnitude of information, either individually or in combination with other information, reported in the context of the financial statements. A misstatement of information is material if it could reasonably be expected to influence decisions made by the primary users.

These amendments did not have any significant impact on the Group’s consolidated financial statements.

- Conceptual Framework for Financial Reporting issued on March 29, 2018

Although the Conceptual Framework is not a standard, its purpose is to assist the IASB in developing standards, to help preparers develop consistent accounting policies where there is no applicable standard in place and to assist all parties to understand and interpret the standards.

The revised Conceptual Framework includes some new concepts, updated definitions and recognition criteria for assets and liabilities and clarifies some important concepts. These amendments did not have any impact on the Group's consolidated financial statements.

- Amendments to IFRS 16 "Leases"

In May 2020, the IASB issued amendment to IFRS 16 that provide relief to lessees from the application of said standard, which are related to lease modification accounting for rent concessions for Covid-19 pandemic. These amendments require a lessee applying the practical expedient, to record Covid-19 related rent concessions as if they were not a lease modification. Likewise, a lessee may elect not to assess whether a Covid-19 related rent concession is a lease modification.

This amendment did not have an impact on the Group's consolidated financial statements.

Since January 1, 2019, the Group is applying: (i) IFRS 16 "Leases", whose accounting policies and impacts are described in Notes 3.4 (j) and 8(e); and (ii) the first phase of the amendments to IFRS 9 "Financial Instruments", IAS 39 "Financial Instruments: Recognition and Measurement", and IFRS 7 "Financial Instruments: Disclosures"; referred to the Interest rate benchmark reform, whose accounting policies and impacts are described in Notes 3.4(ag) and 10(b)(vi).

### 3.3 Basis of consolidation -

The consolidated financial statements comprise the financial statement of IFS and its Subsidiaries (see Note 2).

For accounting consolidation purposes, control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns. Specifically, the Group controls an investee if and only if the Group has:

- Power over the investee (i.e., existing rights that give it the current ability to direct the relevant activities of the investee);
- Exposure, or rights, to variable returns from its involvement with the investee; and
- The ability to use its power over the investee to affect its returns.

Generally, it is presumed that a majority of voting rights entitles to control. In order to support this presumption and when the Group has less than the majority of votes or similar rights in the investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement with the other vote holders of the investee;
- Rights arising from other contractual arrangements; and
- The Group's voting rights and potential voting rights.

The Group assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation with a Subsidiary begins when the Group obtains control over the Subsidiary and ceases when the Group loses control of the Subsidiary.

For consolidation purposes, profit and loss and each component of other comprehensive income (“OCI”) are attributed to the equity holders of the Group’s parent Company and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. All assets and liabilities, income, expenses and cash flows relating to transactions between members of the Group are fully eliminated. When necessary, adjustments are made to the financial statement of Subsidiaries to bring their accounting policies into line with the Group’s accounting policies.

The subsequent acquisition of the non-controlling interest is directly recorded in the consolidated statement of changes in equity; the difference between the paid amount and the acquired net assets is registered as an equity transaction. Therefore, the Group reports no additional goodwill after the purchase of the non-controlling interest and recognizes no profit or loss for the sale of the non-controlling interest.

Assets in custody or managed by the Group, such as investment funds and others, are not part of the Group’s consolidated financial statements; see Note 3.4(ab).

### 3.4 Summary of significant accounting policies

#### (a) Foreign currency translation -

Functional and presentation currency:

The Group has determined that its functional and presentation currency is the Sol, because it reflects the economic substance of the underlying events and circumstances relevant to most of the Group’s entities, insofar as its main operations and/or transactions, such as loans granted, financing obtained, sale of insurance premiums, interest and similar income, interest and similar expenses and an important percentage of purchases are established and settled in Soles; in addition, it corresponds to the functional currency to most of the Subsidiaries; except for Inteligo Bank, whose functional currency is the US Dollar.

Because Inteligo Bank has a functional currency different from the Sol, its balances were translated for consolidation purposes using the methodology established by IAS 21 “The Effects of Changes in Foreign Exchange Rates”, as follows:

- Assets and liabilities at the closing rate at the date of each consolidated statement of financial position.
- Income and expenses, at the average exchange rate for each month.

As a result of the translation, the Group has recorded the difference in the caption “Exchange differences on translation of foreign operations” in the consolidated statement of other comprehensive income.

Foreign currency balances and transactions:

Foreign currency transactions and balances are those performed in currencies different from the functional currency. Transactions in foreign currencies are initially recorded in the functional currency using the exchange rate at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency using the exchange rate in effect on the reporting date. The differences between the closing rate at the date of each consolidated statement of financial position presented and the exchange rate initially used to record the transactions in foreign currency are recognized in the consolidated statement of income in the period in which they arise, in the caption “Translation result”. Non-monetary assets and liabilities acquired in a foreign currency are recorded at the exchange rate at the date of the initial transaction.

(b) Interest income -

(b.1) Effective interest rate method -

Interest income is recorded using the effective interest rate (“EIR”) method for all financial assets measured at amortized cost, interest rate derivatives for which hedge accounting is applied and the related amortization/recycling effect of hedge accounting. The interest income of financial assets that accrue interests measured at fair value through other comprehensive income according to IFRS 9 is also recorded using the EIR method. Interest expenses are also calculated using the EIR method for all financial liabilities held at amortized cost. EIR is the rate that exactly discounts estimated future cash flows through the expected life of the financial instrument or, when appropriate, a shorter period at the net carrying amount of the financial asset.

The EIR is calculated by taking into account transaction costs and any discount or premium on the acquisition of the financial asset, as well as fees and costs that are an integral part of the EIR. The Group recognizes interest income using the best estimate of a constant rate of return over the expected life of the financial asset. Therefore, the EIR calculation also takes into account the effect of potentially different interest rates that may be charged at various stages of the financial asset’s expected life, and other characteristics of the product’s life cycle (including prepayments, penalty interest and charges).

If expectations of fixed rate financial assets’ or liabilities’ cash flows are revised for reasons other than credit risk, then changes to future contractual cash flows are discounted at the original EIR, and the adjustment is recorded as a positive or negative adjustment of the carrying amount of the financial asset in the consolidated statement of financial position with an increase or decrease in Interest revenue.

For floating-rate financial instruments, periodic re-estimation of cash flows to reflect the movements in the market rates of interest also alters the effective interest rate, but when instruments were initially recognized at an amount equal to the principal, re-estimating the future interest payments does not significantly affect the carrying amount of the asset or the liability.

(b.2) Interest income and similar -

The Group calculates the interest income by applying the EIR to the gross carrying amount of non-impaired financial assets.

When a financial asset becomes impaired, and, therefore, it is classified as Stage 3 (as established in Note 3.4(h)), the Group calculates the interest income by applying the EIR at the amortized cost of the asset. If the financial assets “recover”, as detailed in Note 30.1(d), and is no longer impaired, the Group recalculates the interest income in gross figures.

For purchased or originated credit-impaired (POCI) assets, as established in Note 30.1(d), the Group calculates the interest income by determining the credit-adjusted EIR at the amortized cost of the asset. The credit-adjusted EIR is the interest rate that, in the initial recognition, discounts the estimated future cash flows (including credit losses) at the amortized cost of POCI assets.

The interest income for all trading assets, that is, for those that are measured at fair value through profit or loss, are presented under the caption “Net gain (loss) of financial assets at fair value through profit or loss” of the consolidated statement of income.

(c) Banking services commissions -

The Group earns fee and commission income from a diverse range of financial services it provides to its customers. Fee and commission income is recognized at an amount that reflects the consideration to which the Group expects to be entitled in exchange for providing the services.

The performance obligations, as well as the timing of their satisfaction, are identified and determined at the inception of the contract. The Group's income from contracts do not typically include multiple performance obligations.

When the Group provides a service to its clients, the consideration is invoiced and generally due immediately upon satisfaction of a service provided at a point in time or at the end of the contract period for a service provided over time.

The Group has generally concluded that it is the principal in its revenue arrangements because it typically controls the services before transferring them to the customer.

The fees included in the caption "Fees for banking services, net" that make up part of the consolidated statement of income include fee income where performance obligations are satisfied at a specific time or over a period of time.

Fee income where performance obligations are satisfied over a period of time include, among others, collection services, funds management, memberships, fees for contingent loans and credit card insurance. Likewise, fee income where performance obligations are satisfied at a specific time include, among others, banking service fees, brokerage and custody services, and credit card fees.

Below is the main income from contracts with customers that are recognized in the consolidated statement of financial position:

- Fees receivable for credit cards and certain fees receivable for letters of guarantee included in the caption "Other accounts receivable and other assets, net", represent the Group's right to an unconditional consideration (i.e., it only requires the passing of time for the consideration payment). This income is measured at amortized cost and is subject to impairment specifications under IFRS 9.
- Deferred income from commissions for letters of guarantee included in the caption "Other accounts payable, provisions and other liabilities", represent the Group's obligation to render services to a customer, from whom the Group has received a consideration (or a due amount). A liability for unearned fees and commissions is recognized when the payment is made or when the payment is due (whichever happens first). Unearned fees and commissions are recognized as income when the Group renders the service.

(d) Insurance contracts –

Accounting policies for insurance activities:

The Group applies to insurance contracts the existing accounting policies prior to the adoption of IFRS (i.e., accounting standards established by the SBS for financial and insurance entities in Peru) with certain modifications as described below:

- Incurred but not reported claims reserves (IBNR): These reserves are calculated and applied at each recording period using the Chain Ladder methodology, which considers past experience based on cumulative claims losses to estimate future claims developments.
- Technical reserves for life annuities and retirement, disability and survival pensions: Until May 31, 2018, to calculate the reserve of insurance contracts; the Group considered the Chilean current mortality and morbidity tables (improved RV –2009, B–2006 and MI–2006). In addition, to discount the future cash flows of these liabilities, for portfolio's debt instruments, the Group set an average rate for matching periods and a 3-percent rate for non-matching periods. From June 2018, the Group uses the Peruvian mortality tables SPP-S-2017 and SPP-I-2017 (men and women), published by the SBS through Resolution No. 886-2018 dated March 7, 2018, and set the discount interest rate through the Matching Adjustment method plus an illiquidity premium to discount all the pension cash flows; see Note 14(e).

As previously mentioned, in 2018, the Group's Management decided to modify its accounting policy and reflect the effect of the change in the value of liabilities coming from retirement, disability and survival pensions, caused by the variations in the market interest rate used to discount these liabilities, in the consolidated statement of other comprehensive income (formerly reflected in the consolidated statement of income). This change was made to reduce the volatility in the profits or losses associated to the effect of changes in market interest rates, as the financial assets supported such insurance liabilities were measured at fair value through other comprehensive income. Likewise, it modified the assumptions used in the determination of the discount rate with the purpose of reflecting the business nature in the long term.

The effect of the first application of SPP-S-2017 and SPP-I-2017 tables as of June 1, 2018, amounted to S/144,777,000; which, in accordance with IAS 8, has been recognized prospectively affecting the results of the year within the caption "Net premiums earned" in the year 2018.

The effects of the first application of "Matching Adjustment" interest rates as of June 1, 2018, amounted to S/423,080,000; which, according to IAS 8, was prospectively recognized and was part of the year's movement in other comprehensive results within the caption "Unrealized results, net", in the year 2018.

**Product classification:**

Insurance contracts are those contracts where the Group (the insurer) has accepted significant insurance risk from another party (the policyholder) by agreeing to compensate the policyholder for a specified uncertain future event (the insured event) that adversely affects the policyholder. As a general guideline, the Group determines whether it has significant insurance risk by comparing benefits paid with benefits payable if the insured event did not occur. Insurance contracts may also transfer a financial risk. When the contract has a financial component and transfers no relevant insurance risk as established by IFRS 4 "Insurance Contracts", the contract is recorded based on IFRS 9 "Financial Instruments". These contracts are presented in the caption "Other accounts payable, provisions and other liabilities" as "Contract liability with investment component" of the consolidated statement of financial position; see Note 10(a).

Once a contract has been classified as an insurance contract, it remains as an insurance contract for the remainder of its life, even if the insurance risk is reduced significantly during this period, unless all rights and obligations are extinguished or expire.

Life insurance contracts offered by the Group include retirement, disability and survival insurance, annuities and group and individual life. Non-life insurance contracts mainly include SOAT (mandatory individual car accident insurance) and credit card insurance, among others.

Insurance receivables:

Insurance receivables are initially recognized when due and are measured at the fair value of the consideration received or receivable. Consequently, in its initial recognition, insurance receivables are measured at amortized cost. As of December 31, 2020 and 2019, the carrying value of the insurance receivables is similar to their fair value due to their short-term maturity. The carrying value of insurance receivables is reviewed for impairment whenever events or circumstances indicate that the carrying amount may not be recoverable, with the impairment loss recorded in the consolidated statement of income.

Reinsurance:

The Group cedes the insurance risk in the normal course of its operations mainly due to pension fund risks and life insurance risks (individual and group). The reinsurance assets represent balances due and payable by reinsurance companies. Reinsurance is ceded on a proportional basis.

The amounts recoverable from the contracts with reinsurers are estimated consistently with the loss reserve pending settlement or losses settled and with the premiums ceded, associated with policies ceded, in accordance with the clauses established in the related reinsurance contracts.

Reinsurance assets are reviewed for impairment at each date of the consolidated statement of financial position or more frequently when necessary. Impairment arises when there is objective evidence the Group cannot receive all of the outstanding amounts receivable under the contract terms and the event has a reliably measurable impact on the amounts that the Group will obtain from the reinsurer. Impairment loss is registered in the consolidated statement of income.

Reinsurance contracts ceded do not release the Group from its obligations to the insured.

The liabilities from reinsurance contracts represent balances due and payable to reinsurance companies. The amounts payable are estimated consistently with the related reinsurance contract.

Premiums and claims are presented as gross amounts for the reinsurance ceded. Reinsurance assets or liabilities are written off when the contractual rights are extinguished, expire, or when the contract is transferred to a third party.

Reinsurance commissions:

The commissions from the reinsurance contracts for premiums ceded are amortized on a straight-line basis over the term of the related insurance contract.

Insurance contract liabilities:

Life insurance contract liabilities are recognized when contracts are entered into.

The technical reserves for retirement, disability and survival insurance and annuities are determined as the sum of the discounted value of expected future pensions to be paid during a defined or non-defined period, computed on the basis of current mortality and morbidity tables and current discount interest rates described in Note 14(e).

Individual life technical reserves are determined as the sum of the discounted value of expected future benefits, administration expenses, policyholder options and guarantees and investment income, less the discounted value of the expected premiums that would be required to meet the future cash outflows. Furthermore, the technical reserves for group life insurance contracts comprise the provision for unearned premiums and unexpired risks.

Insurance claims reserves include reserves for reported claims and an estimate of the IBNR. As of December 31, 2020 and 2019, IBNR reserves were determined on the basis of the Chain Ladder methodology, whereby the weighted average of past claims' development is projected into the future. Adjustments to the liabilities at each reporting date are recorded in the consolidated statement of income. The liability is derecognized when the contract expires, is discharged or cancelled.

At each reporting date an assessment is made on whether the recognized life insurance liabilities are sufficient, by using an existing liability adequacy test as established by IFRS 4. In the case of annuities and retirement, disability and survival insurance, this test was conducted by using current assumptions for mortality and morbidity tables and interest rates. As of December 31, 2020 and 2019, Management determined that liabilities were sufficient and therefore, it has not recorded any additional life insurance contract liability.

The accounts payable to reinsurers and coinsurers arise from the ceded premiums issued based on the evaluation of the risk assumed and the losses coming from the reinsurance contracts accepted as well as from the clauses executed for the coinsurance received, and are registered in the item "Accounts payable to reinsurers and coinsurers" that is part of the caption "Other accounts payable, provisions and other liabilities" of the consolidated statement of financial position.

Income recognition:

Life insurance contracts:

Gross premiums on life insurance are recognized as revenue when due from the policyholder. For single premium products, revenue is recognized on the date when the policy is effective. The net premiums earned include the annual variation of technical reserves.

Property, casualty and group life insurance contracts:

Unearned premiums are those proportions of premiums written in a year that relate to periods of risk afterwards the reporting date. Unearned premiums are calculated on a daily pro rata basis. The proportion attributable to subsequent periods is deferred as a provision for unearned premiums.

Recognition of benefits, claims and expenses:

(i) Gross benefits and claims

Gross benefits and claims for life insurance contracts include the cost of all claims arising during the year, including internal and external claims handling costs that are directly related to the processing and settlement of claims.

Death, survival and disability claims are recorded on the basis of notifications received. Annuities payments are recorded when due.

Notes to the consolidated financial statements (continued)

- (ii) Reinsurance premiums

Reinsurance premiums comprise the total premiums payable for the whole coverage provided by contracts entered into in the period and are recognized at the date at which the policy is effective. Unearned ceded premiums are deferred during the period of the related insurance contract.
  - (iii) Reinsurance claims

Reinsurance claims are recognized when the related gross insurance claim is recognized according to the terms of the relevant contract.
  - (iv) Acquisition costs

Acquisition costs related to the sale of new policies are recognized when incurred.
- (e) Financial instruments: Initial recognition -
  - (e.1) Date of recognition

Financial assets and liabilities, with the exception of loans, are initially recognized at the trading date. This includes regular transactions of purchases or sales of financial assets that require the delivery of assets within the time frame generally established by regulation or convention on the marketplace. Loans are recognized when the funds are transferred to the customers while deposits and obligations are recognized when the funds are received by the Group .
  - (e.2) Initial measurement of financial instruments

The classification of financial instruments at initial recognition depends on the characteristics of the business model and contractual flows for managing the instruments, as described in Notes 3.4(f.1.1) and 3.4(f.1.2). Financial instruments are initially measured at their fair value (as defined in Note 3.4(e.4)), except in the case of financial assets and financial liabilities recorded at fair value through profit or loss, transaction costs are added to, or subtracted from, this amount. Accounts receivable are measured at the transaction price. When the fair value of financial instruments at initial recognition differs from the transaction price, the Group accounts for the Day 1 profit or loss, as described below.
  - (e.3) Day 1 profit or loss

When the transaction price of the instrument differs from the fair value at origination and the fair value is based on a valuation technique that only uses inputs observable in market transactions, the Group recognizes the difference between the transaction price and fair value in the net trading income. In those cases where fair value is based on models for which some of the inputs are not observable, the difference between the transaction price and the fair value is deferred and is only recognized in profit or loss when the inputs become observable, or when the instrument is derecognized. It should be noted that during the years 2020 and 2019, the Group did not originate any differences related to these characteristics.

(e.4) Measurement categories of financial assets and liabilities

The Group classifies all of its financial assets based on the business model and the contractual terms, measured at either:

- Amortized cost, as explained in Note 3.4(f.1).
- Fair value through other comprehensive income, as explained in Notes 3.4(f.4) and (f.5).
- Fair value through profit or loss, as explained in Note 3.4(f.7).

The Group classifies and measures its derivative and trading portfolio at fair value through profit or loss as explained in Notes 3.4(f.2) and (f.3). The Group may designate financial instruments at fair value through profit or loss, if so doing eliminates or significantly reduces measurement or recognition inconsistencies, as explained in Note 3.4(f.7).

Financial liabilities, other than financial guarantees, are measured at amortized cost or at fair value through profit or loss when they are held for trading, are derivative instruments or the fair value designation is applied, as explained in Note 3.4(f.6). It should be noted that during 2020 and 2019, the Group only presents derivative financial instruments measured in this way.

(f) Financial assets and liabilities -

Following is the description of the assets and liabilities held by the Group, as well as the criteria for their classification:

(f.1) Assets measured at amortized cost -

As required by IFRS 9, the Group measure cash and due from banks inter-bank funds, financial investments in debt instruments, loans and other financial assets at amortized cost if the following two conditions are met:

- The financial asset is held within a business model with the objective to hold financial assets in order to collect contractual cash flows, and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

The details of these conditions are presented below:

(f.1.1) Business model assessment -

The Group's business model is assessed at a higher level of aggregated portfolios, and not instrument by instrument, and is based on observable factors such as:

- How the performance of the business model and the financial assets held within that business model are assessed and reported to the entity's key management personnel.
- The risks that affect the performance of the business model (and the financial assets held within that business model) and, in particular, the way those risks are managed.

The expected frequency, value and timing of sales are also important aspects of the Group's assessment. The business model assessment is based on reasonably expected scenarios without taking "worst case" or "stress case". If cash flows after initial recognition are realized in a way that is different from the Group's original expectations, the classification of the

remaining financial assets that remain in that business model will not be changed, but incorporates such information when assessing newly purchased financial assets.

(f.1.2) The SPPI test (Solely payments of principal and interest) -

As a second step of its classification process, the Group assesses the contractual terms to identify whether they meet the SPPI test.

“Principal”, for the purpose of this test, is defined as the fair value of the financial asset at initial recognition and may change over the life of the financial asset (for example, if there are repayments of principal or amortization of the premium/discount).

The most significant elements within a lending arrangement are the time value of money and credit risk. To perform the SPPI assessment, the Group applies judgement and considers relevant factors such as the currency in which the financial asset is denominated, and the period for which the interest rate is set. In contrast, contractual terms that introduce volatility in the contractual cash flows that are unrelated to a basic lending arrangement do not give rise to contractual cash flows that are solely payments of principal and interest on the amount outstanding. In such cases, the financial asset is required to be measured at fair value through profit or loss.

(f.2) Derivatives recorded at fair value through profit or loss -

A derivative is a financial instrument or other contract with the following three characteristics:

- Its value changes in response to the change in a specified interest rate, financial instrument price, commodity price, foreign exchange rate, index of prices or rates, credit rating or credit index, or other variable; provided that, in the case of a non-financial variable, it is not specific to part of the contract (i.e., the “underlying”).
- It requires no initial net investment or an initial net investment that is smaller than the required for other types of contracts expected to have a similar response to changes in market factors.
- It is settled at a future date.

The Group enters into derivative transactions with various counterparties, such as: interest rate swaps, cross-currency swaps, foreign currency options and foreign currency forward contracts. Derivatives are recorded at fair value and carried as assets when their fair value is positive and as liabilities when their fair value is negative. The notional amount and fair value of such derivatives are presented separately in Note 10(b). Changes in the fair value of derivatives are included in net trading income unless hedge accounting is applied. Hedge accounting disclosures are presented in Note 3.4(i).

(f.2.1) Embedded derivatives -

An embedded derivative is a component of a hybrid instrument that also includes a non-derivative host contract with the effect that some of the cash flows of the combined instrument vary in a way similar to a stand-alone derivative. An embedded derivative causes some or all of the cash flows that otherwise would be required by the contract to be modified according to a specified interest rate, financial instrument price, commodity price, foreign exchange rate, index of prices or rates, credit rating or credit index, or other variable, provided that, in the case of a non-financial variable, it is not specific to a party to the contract. A derivative that is attached to a financial instrument, but is contractually transferable

independently of that instrument, or has a different counterparty from that instrument, is not an embedded derivative, but a separate financial instrument.

Embedded derivatives in financial assets, liabilities and non-financial host contracts, were treated as separate derivatives and recorded at fair value if they met the definition of a derivative (as defined above), their economic characteristics and risks were not closely related to those of the host contract, and the host contract was not itself held for trading or designated at fair value through profit or loss. The embedded derivatives separated from the host contract are carried at fair value in the trading portfolio with changes in the fair value recognized in the consolidated statement of income.

In the case of embedded derivatives in financial assets, they are not separated from the financial asset and, therefore, the classification rules are applied to the hybrid instrument in its entirety, as described in Note 3.4(e.4).

As of December 31, 2020 and 2019, the Group does not present embedded derivatives needed to be separated from the host contract for being closely related.

(f.3) Financial assets or financial liabilities held for trading -

The Group classifies financial assets or financial liabilities as held for trading when they have been purchased or issued primarily for short-term profit making through trading activities or form part of a portfolio of financial instruments that are managed together, for which there is evidence of a recent pattern of short-term profit taking. Held-for-trading assets and liabilities are recorded and measured in the consolidated statement of financial position at fair value. Changes in fair value are recognized in the statement of income. Interest income or expense and dividend are recorded in the statement of income according to the terms of the contract, or when the right to payment has been established. Included in this classification are debt securities, equities and short positions that have been acquired mainly for the purpose of selling them in the short term.

(f.4) Debt instruments at fair value through other comprehensive income -

The Group applies the category of debt instruments measured at fair value through other comprehensive income when both of the following conditions are met:

- The instrument is held within a business model, the objective of which is achieved by collecting contractual cash flows and selling financial assets.
- The contractual terms of the financial asset meet the SPPI test.

Debt instruments at fair value through other comprehensive income are subsequently measured at fair value through other comprehensive income. Interest income and foreign exchange gains and losses are recognized in profit or loss in the same manner as for financial assets measured at amortized cost, as explained in Note 3.4(f.1). The expected credit loss calculation for debt instruments at fair value through other comprehensive income is explained in Note 3.4(h) (iii). When the Group holds more than one investment in the same security, they are deemed to be disposed of on a "first-in first-out" basis. On derecognition, cumulative gains or losses previously recognized in other comprehensive income are reclassified to income.

(f.5) Equity instruments at fair value through other comprehensive income -

Upon initial recognition, the Group occasionally elects to classify irrevocably some of its equity investments as equity instruments at fair value through other comprehensive income when not held for trading. Such classification is determined on an instrument-by-instrument basis.

Gains and losses on these equity instruments are never recycled to profit even when the asset is sold. Dividends are recognized in the consolidated statement of income as income when the right of the payment has been established, except when the Group benefits from such proceeds as a recovery of part of the cost of the instrument, in which case, such gains are recorded in other comprehensive income. Equity instruments at fair value through other comprehensive income are not subject to impairment assessment.

(f.6) Financial liabilities -

After initial measurement, financial liabilities, except those measured at fair value through profit or loss; see (f.7), are measured at amortized cost. Amortized cost includes commissions and interest, transaction cost and any other premium or discount. A compound financial instrument which contains both a liability and an equity component is separated at the issuance date.

The Group first establishes whether the instrument is a compound instrument and classifies such instrument's components separately as financial liabilities, financial assets, or equity instruments in accordance with IAS 32. Classification of the liability and equity components of a convertible instrument is not revised as a result of a change in the likelihood that a conversion option will be exercised, even when exercising the option may appear to have become economically advantageous to some holders. When allocating the initial carrying amount of a compound financial instrument to the equity and liability components, the equity component is assigned as the residual amount after deducting from the entire fair value of the instrument, the amount separately determined for the liability component. The value of any derivative features (such as call options) embedded in the compound financial instrument, other than the equity component (such as an equity conversion option), is included in the liability component. Once the Group has determined the split between equity and liability, it further assesses whether the liability component has embedded derivatives that must be split for accounting purposes.

(f.7) Financial assets and financial liabilities at fair value through profit or loss -

Financial assets and financial liabilities in this category are those that are not held for trading and have been either designated by Management upon initial recognition or are mandatorily required to be measured at fair value under IFRS 9. Management designates an instrument at fair value through profit or loss upon initial recognition when one of the following criteria is met:

- The designation eliminates, or significantly reduces, the inconsistent treatment that would otherwise arise from measuring the assets or liabilities or recognizing gains or losses on them on a different basis, or
- The liabilities are part of a group of financial liabilities which are managed and their performance evaluated on a fair value basis, in accordance with a documented risk management or investment strategy, or
- The liabilities contain one or more embedded derivatives, unless they do not significantly modify the cash flows that would otherwise be required by the contract.

Financial assets and liabilities at fair value through profit or loss are recorded in the consolidated statement of financial position at fair value. Changes in fair value are recorded in profit and loss with the exception of movements in fair value of liabilities designated at fair value through profit or loss due to changes in the Group's own credit risk. Such changes in fair value are recorded in other comprehensive income and do not get reclassified to profit or loss. Interest accrued on assets that must be measured at fair value through profit or loss is recorded using the contractual interest rate. Dividend income from equity instruments measured at fair value through profit or loss is recorded in profit or loss as "Interest and similar income"; see Note 19, when the right to the payment has been established.

(f.8) Financial guarantees and letters of credit -

The Group issues financial guarantees, and letters of credit.

Financial guarantees are initially recognized in the consolidated financial statements (within provisions) at fair value, which is equivalent to the commission received. Subsequent to initial recognition, the recognized liability is measured at the higher amount between: a) amount initially recognized less its cumulative amortization; and b) an Expected Credit Loss ("ECL") provision determined as set out in Note 3.4(h)(ii).

The commission received is recognized in the consolidated statement of income in the caption "Fee income from financial services, net" on a straight-line basis over the life of the guarantee.

Letters of credit are commitments under which, over the duration of the commitment, the Group is required to provide a loan with pre-specified terms to the customer. Similar to financial guarantee contracts, these contracts are within the scope of the ECL requirements.

The nominal contractual value of financial guarantees and letters of credit, where the loan agreed to be provided is on market terms, is not recorded in the consolidated statement of financial position. The nominal values of these instruments together with the corresponding ECLs are disclosed in Note 6(d).

(f.9) Reclassification of financial assets and liabilities -

The reclassification of financial assets will take place as long as the business model that manages the financial assets is changed. It is expected that this change is very rare. These changes are determined by Management as a result of external or internal changes and must be significant for the Group's operations and demonstrable to third parties. Consequently, a change in the Group's business model will take place only when it begins or ceases to carry out an activity that is significant for its operations. As of December 31, 2020 and 2019, the Group has not reclassified its financial assets after their initial recognition. Financial liabilities are never reclassified.

(f.10) Repurchase agreements -

Securities sold under repurchase agreements on a specified future date are not derecognized from the consolidated statement of financial position since the Group retains substantially all of the risks and rewards inherent to its ownership. Cash received is recognized as an asset with the corresponding obligation to return it, including accrued interest, as a liability, reflecting the transaction's economic substance as a loan to the Group. The difference between the sale and repurchase price is recorded as interest expense and is accrued over the life of the agreement using the effective interest rate and is recognized in the caption "Interest and similar expenses" of the consolidated statement of income.

As of December 31, 2020 and 2019, the Group did not keep any repurchase agreements.

(g) Derecognition of financial assets and liabilities -

(g.1) Derecognition due to substantial change in terms and conditions -

The Group derecognizes a financial asset, such as a loan to a customer, when the terms and conditions have been renegotiated to the extent that, substantially, it becomes a new loan, with the difference recognized as a derecognition gain or loss, to the extent that an impairment loss has not already been recorded.

When assessing whether or not to derecognize a loan to a customer, among others, the Group considers the following factors:

- Change in the loan's currency.
- Introduction of an equity feature.
- Change in customer's credit risk.
- If the modification is such that the instrument would no longer meet the SPPI criterion.

Regarding the financial liabilities, the Group considers a substantial amendment based on qualitative factors and provided it exists a difference between the present value of the discounted cash flows under the new conditions and the original book value of the financial liability is larger than ten percent.

If the modification does not result in cash flows that are substantially different, the modification does not result in derecognition. Based on the change in cash flows discounted at the original EIR, the Group records a modification gain or loss, to the extent that an impairment loss has not already been recorded.

(g.2) Derecognition other than for substantial modification -

(g.2.1) Financial assets

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is derecognized when the rights to receive cash flows from the financial asset have expired.

The Group has transferred the financial asset if, and only if, either:

- Has transferred its contractual rights to receive cash flows from the financial asset, or
- It retains the rights to the cash flows, but has assumed an obligation to pay the received cash flows in full without material delay to a third party under a "pass-through" arrangement.

Pass-through arrangements are transactions whereby the Group retains the contractual rights to receive the cash flows of a financial asset (the 'original asset'), but assumes a contractual obligation to pay those cash flows to one or more entities (the 'eventual recipients'), when all of the following conditions are met:

- The Group has no obligation to pay amounts to the eventual recipients unless it has collected equivalent amounts from the original asset.
- The Group cannot sell or pledge the original asset other than as security to the eventual recipients.

- The Group has to remit any cash flows it collects on behalf of the eventual recipients without material delay. In addition, the Group is not entitled to reinvest such cash flows, except for investments in cash or cash equivalents including interest earned, during the period between the collection date and the date of agreed revision with the eventual recipients.

A transfer only qualifies for derecognition if either:

- The Group has transferred substantially all the risks and rewards of the asset, or
- The Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

The Group considers that control is transferred if, and only if, the transferee has the ability to sell the asset in its entirety to an unrelated third party and is able to exercise that ability unilaterally.

When the Group has neither transferred nor retained substantially all the risks and rewards and has retained control of the asset, the asset continues to be recognized only to the extent of the Group's continuing involvement, in which case, the Group also recognizes an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group retains.

When the continuing involvement takes the form of a guarantee over the transferred asset, the amount of the Group's continuing involvement will be the lowest between the asset amount and the maximum amount of consideration the Group may be required to pay.

When the continuing involvement takes the form of a written or purchased option (or both) over the transferred asset, the amount of the Group's continuing involvement will be the amount of the transferred asset that the Group could repurchase. In the case of a written put option on an asset that is measured at fair value, the amount of the Group's continuing involvement will be limited to the lowest between the fair value of the transferred asset and the option exercising price.

The net loss originated as consequence of the derecognition of financial asset accounts measured at amortized cost is calculated as the difference between the book value (impairment included) and the amount received.

As of December 31, 2020 and 2019, the Group did not recognize net losses as a consequence of derecognition of financial assets accounts.

(g.2.2) Financial liabilities

A financial liability is derecognized when the obligation under the liability has been discharged, cancelled or has expired. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability. The difference between the carrying value of the original financial liability and the consideration paid is recognized in profit or loss of the period.

(h) Impairment of financial assets -

(i) Overview of the expected credit loss principles -

The Group records an allowance for expected credit losses for all loans and other debt financial assets not held at fair value through profit or loss, together with financial guarantee contracts. Equity instruments are not subject to impairment under IFRS 9.

The determination of the expected credit loss is based on the credit losses expected to arise over the life of the asset, unless there has been no significant increase in credit risk since origination, in which case, the allowance is based on the 12-month expected credit loss as described in (ii) below. The policies for determining whether there has been a significant increase in credit risk are set out in Note 30.1(d).

Both lifetime expected credit loss and 12-month expected credit loss are calculated on either an individual basis or a collective basis, depending on the nature of the portfolio. The Group's policy for grouping financial assets measured on a collective basis is explained in Note 30.1(d).

The Group has established a policy to perform an assessment, at the end of each reporting period, of whether a financial instrument's credit risk has increased significantly since initial recognition. This is further explained in Note 30.1(d).

Based on the above mentioned process, IFS groups its loans into "Stage 1", "Stage 2", "Stage 3" and purchased or originated credit impaired financial assets ("POCI"), as described below:

Stage 1: When loans are first recognized, the Group recognizes an allowance based on the 12-month expected credit loss. Stage 1 also includes loans whose credit risk has improved and the loan has been reclassified from Stage 2.

Stage 2: When a loan has shown a significant increase in credit risk since inception, the Group records an allowance based on the expected credit loss for the entire lifetime of the financial asset. Stage 2 also includes loans whose credit risk has improved and the loan has been reclassified from Stage 3.

Stage 3: Loans considered credit impaired (as outlined in Note 30.1(d)). The Group records an allowance for the entire lifetime of the financial asset.

POCI: Purchased or originated credit impaired assets are financial assets that are impaired on initial recognition. POCI assets are recorded at fair value at original recognition and interest income is subsequently recognized based on a credit-adjusted EIR. ECLs are only recognized or released to the

extent that there is a subsequent change in the expected credit losses. It should be noted that during the year 2020 and 2019, the Group has not purchased or originated POCI financial assets.

For financial assets for which the Group has no reasonable expectations of recovering either the entire outstanding amount, or a proportion thereof, the gross carrying amount of the financial asset is reduced. This is considered a (partial) derecognition of the financial asset.

The Group recognizes a value correction for expected credit losses on the following financial assets:

- Financial assets that are measured at amortized cost.
- Financial assets that are measured at fair value with changes in other comprehensive income if the following two conditions are met:
  - (i) The financial asset is maintained within a business model whose objective is achieved by obtaining contractual cash flows and selling financial assets; and
  - (ii) The contractual terms of the financial asset give rise, on specified dates, to cash flows that are only payments of the principal and interest on the outstanding principal amount.
- Accounts receivable from leases.
- Assets from contracts.
- Financial guarantee contracts.

In this regard, as of December 31, 2020 and 2019, the Group's financial assets subject to a correction for expected credit loss are the following:

- Cash and due from banks.
- Inter-bank funds.
- Financial investments; see Notes 3.4(f), 5 and 30.1(e).
- Loans; see Notes 3.4(f.1), 6 and 30.1(d).
- Due from customers on acceptances.
- Other accounts receivable and other assets.

Due to the Covid-19 pandemic, the Group has been periodically assessing impairment signs to timely identify an increase in the credit loss risk. Thus, for those financial assets other than financial investments and the loan portfolio, Group Management has estimated the expected credit loss, concluding that it is neither significant nor relevant, given that the maximum period considered for measuring expected credit losses is very small or, even if it implies a longer term, because the main debtor is the Central Reserve Bank ("BCRP", by its Spanish acronym) or corresponds to cash in vaults of the Group.

(ii) Calculation of ECL -

The Group calculates ECL based on three probability-weighted scenarios to measure the expected cash shortfalls, discounted at an approximation to the EIR. A cash shortfall is the difference between the cash flows that are due to an entity in accordance with the contract and the cash flows that the entity expects to receive.

The mechanics of the ECL calculations are described below, and the key elements are the following:

- PD (“Probability of default”) is an estimate of the likelihood of default over a given time horizon. A default may only happen at a certain time over the assessed period, if the financial asset has not been previously derecognized and is still in the portfolio. The definition of PD is further explained in Note 30.1(d).
- EAD (“Exposure at default”) is an estimate of the exposure at a future default date, taking into account expected changes in the exposure after the reporting date, including repayments of principal and interest, whether scheduled by contract or otherwise, expected drawdowns on committed facilities, and accrued interest from missed payments. The definition of EAD is further explained in Note 30.1(d).
- LGD (“Loss Given Default”) is an estimate of the loss arising in the case where a default occurs at a given time. It is based on the difference between the contractual cash flows due and those that the lender would expect to receive, including from the realization of any collateral. It is usually expressed as a percentage of the EAD. The definition of LGD is further explained in Note 30.1(d).

When estimating the ECLs, the Group considers three scenarios (optimistic, base and pessimistic). Each of these is associated with different PDs, as presented in Note 30.1(d). When is relevant, the assessment of multiple scenarios also incorporates how defaulted loans are expected to be recovered, including the probability that the loans will “cure” and the value of collateral or the amount that might be received for selling the asset.

With the exception of credit cards, for which the treatment is separately set out in (iv) below, the maximum period for which the credit losses are determined is the contractual life of a financial instrument (considering the prepayments) unless the Group has the legal right to call it earlier.

Impairment losses and reversals are accounted for and disclosed separately from modification losses or gains that are accounted for as an adjustment of the financial asset’s gross carrying value.

The criteria followed for calculating the ECL based on each stage are described below:

- Stage 1: The provision for credit losses of those financial instruments that do not show a significant increase in risk since the initial recognition, will be calculated as the expected credit losses in the following 12 months. The group calculates the expectation that there is a probability of default (PD) in the 12 months after the reporting date. To this probability of default is multiplied and expected loss in case of default (LGD) and exposure on the date of default (EAD) and discounting the original effective interest rate. This calculation is made for each of the three scenarios (optimistic, base and pessimistic) defined by the Group.
- Stage 2: When the financial instrument shows a significant increase in credit risk since initial recognition, the provision of credit losses of this financial instrument will be calculated as the expected credit loss throughout the life of this asset. The calculation method is similar to that for Stage 1, including the use of multiple scenarios, but expected credit loss is estimated over the lifetime of the instrument.

- Stage 3: When there is objective evidence that the financial instrument is impaired, the provision of credit losses will be calculated as the expected credit loss over the life of the asset. The method is similar to that for Stage 2, with the PD set at 100 percent.

Financial guarantee contracts

The Group measures each financial guarantee as the highest of the amount initially recognized minus cumulative amortization recognized in the consolidated statement of income, and the ECL provision. For this purpose, the Group estimates ECL based on the present value of the expected payments to reimburse the holder for a credit loss that it incurs. The deficits are discounted by the risk-adjusted interest rate relevant to the exposure. The ECLs related to financial guarantee contracts are recognized in provisions.

(iii) Debt instruments measured at fair value through other comprehensive income -

The ECLs for debt instruments measured at fair value through other comprehensive income do not reduce the carrying amount of these financial assets in the consolidated statement of financial position, which remains at fair value. However, the expected losses that arise at each measurement date must be reclassified from other comprehensive income to results of the period.

(iv) Credit cards -

The Group calculates the expected losses in a period that reflects the Group's expectations regarding the client's behavior, probability of default and the Group's future risk mitigation procedures that could include the reduction or cancellation of lines of credit. Based on past experience and the Group's expectations, the period during which the Group calculates the expected lifetime losses of this product is 17 months.

The assessment of whether there has been a significant increase in credit risk for revolving products is similar to other credit products. This is based on changes in the customer's credit rating, as explained in Note 30.1(d).

The interest rate used to discount the ECL for credit cards is based on the average effective interest rate that is expected to be charged over the expected period of exposure to the facilities. This estimation takes into account that many facilities are repaid in full each month and are consequently not charged interest.

Notes to the consolidated financial statements (continued)

(v) Forward-looking information -

In its expected credit loss models, the Group relies on the following macroeconomic variables as forward-looking information inputs as of December 31, 2020 and 2019:

	2020	2019
GDP growth	X	X
Unemployment rate	X	X
Consumer price index		X
Consumer	X	
Inflation		X
Domestic demand	X	X
Exchange rate		X
Purchase capacity	X	X
Real compensation	X	X
Unit labor cost	X	

The inputs and models used, see Note 30.1, for calculating ECLs may not always capture all characteristics of the market at the date of the consolidated financial statements. To reflect this, qualitative adjustments or overlays are occasionally made as temporary adjustments when such differences are significantly material. Detailed information about these inputs are provided in Note 30.1(d).

(vi) Valuation of guarantees -

To mitigate the credit risks on financial assets, the Group generally uses three types of guarantees: physical guarantee, personal guarantees and title guarantees.

The guarantee, unless recovered, is not recorded in the Group's consolidated statement of financial position. However, the fair value of the guarantee affects the calculation of the expected losses, and because of that, it is assessed periodically.

The nominal contract value of the guarantees and the letters of credit not used where the loan was agreed to be granted is in market terms, is not recorded in the consolidated statement of financial position. The nominal values of these instruments together with the corresponding expected losses are disclosed in Note 30.1(d).

To the extent possible, the Group uses active market data for valuing financial assets held as guarantees. Non-financial guarantees, such as real estate, is valued based on data provided by third parties such as appraisers.

(vii) Write-offs -

Financial assets are written off only when the Group has stopped pursuing the recovery, at which time the cumulative provision recorded coincides with the total amount of the asset.

(viii) Refinanced and modified loans -

The Group may make concessions or modifications to the original terms of loans as a response to the borrower's financial difficulties, rather than taking possession or to otherwise enforce collection of guarantees. Once the terms have been renegotiated, any impairment is measured using the original EIR (as calculated before the modification of terms). It is the Group's policy to monitor refinanced loans to help ensure that future payments continue to be likely to occur.

A refinanced asset is initially classified into Stage 2 and there will be no clean-up period. However, if the financial asset presents a default mark, it will be reclassified from Stage 2 to Stage 3.

During 2020 and due to the Covid-19 pandemic, Interbank granted reschedulings to its clients, which consisted of modifying payment schedules and/or granting grace periods to mitigate the financial and economic impact. Likewise, on the basis of a detailed monitoring of the economic situation of the country as consequence of the Covid-19 pandemic, increases in the credit risk of said clients were identified and, therefore, additional provisions were constituted through subsequent adjustments to the expected loss model based on expert judgments for each of the loans types. See Note 30.1(d).

(i) Hedge derivatives -

Derivatives are initially recognized at fair value at the date a derivative contract is entered into and are subsequently remeasured at their fair value. All derivatives are recognized as assets when the fair value is positive and they are recorded as "Accounts receivables related to derivative financial instruments" under "Other accounts receivable and other assets, net" and as liabilities when they are negative and they are recorded as "Accounts payable related to derivative financial instruments" under "Other accounts payable, provisions and other liabilities" in the consolidated statement of financial position.

Derivatives can be designated as hedging instruments under hedge accounting and in the event they qualify, depending upon the nature of the hedged item, the method for recognizing gains or losses from changes in fair value will be different. These derivatives, which are used to hedge exposures to risk or modify the characteristics of financial assets and liabilities and that meet IFRS 9 criteria, are recognized as hedging accounting.

Derivatives not designated as hedging instruments or that do not qualify for hedging accounting are initially recognized at fair value and are subsequently remeasured at their fair value, which is estimated based on the market exchange rate and interest rate. Gains or losses due to changes in their fair value are recorded in the consolidated statement of income, see Note 3.4(f.2).

In accordance with IFRS 9, to qualify for hedge accounting, all of the following conditions must be met:

- (i) The hedging relationship consists of only hedging instruments and eligible hedged items.
- (ii) At the inception of the hedge, there is formal designation and documentation of the hedging relationship and the entity's risk management objective and strategy for undertaking the hedge. This documentation will include the identification of the hedging instrument, the hedged item, the nature of the risk being hedged, and the way the entity will assess if the hedging relationship meets the hedge effectiveness requirements.

(iii) The hedging relationship meets all the following hedge effectiveness requirements:

- There is an economic relationship between the hedged item and the hedging instrument.
- The effect of the credit risk does not dominate the value changes that result from that economic relationship.
- The hedge ratio of the hedging relationship is the same as that resulting from the quantity of the hedged item that the entity actually hedges and the quantity of the hedging instrument that the entity actually uses to hedge that quantity of the hedged item.

IFRS 9 presents three hedge accounting categories: fair value hedge, cash flow hedge, and hedge of net investments in a foreign operation. The Group uses derivatives as hedging instruments under cash flow hedges, as detailed in Note 10(b).

For derivatives that are designated and qualify as cash flow hedge, the effective portion of derivative gains or losses is recognized in other comprehensive income for cash flow hedge, and reclassified to income in the same period or periods in which the hedge transaction affects income. The portion of gain or loss on derivatives that represents the ineffective portion or the hedge components excluded from the assessment of effectiveness is recognized immediately in income. Amounts originally recorded in other comprehensive income and subsequently reclassified to income are recorded in the corresponding income or expenses lines in which the related hedged item is reported.

When a hedging instrument expires, is sold, when a hedge no longer meets the criteria for hedge accounting or when the Group re-designates a hedge, the cumulative gain or loss existing in other comprehensive income is kept and recognized in income when the hedged item is ultimately recognized in the consolidated statement of income. When a projected transaction is no longer expected to occur, the cumulative gain or loss recognized in other comprehensive income is immediately transferred to the consolidated statement of income.

(j) Leases -

The determination of whether an arrangement is a lease, or contains a lease, is based on the substance of the arrangement at contract inception: whether the fulfilment of the arrangement is dependent on the use of a specific asset or assets or whether the arrangement conveys a right to use the asset., even if it is not explicitly specified in the contract in exchange for consideration.

(i) The Group as a lessee -

The Group, as a lessee, applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets.

- Right-of-use assets -

The Group recognizes right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment loss, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognized, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. The Group holds as right-of-use assets: land lots, buildings and facilities and furniture and equipment. Land lots do not depreciate; buildings and facilities and furniture and equipment depreciate based on the straight-line method during the lease

term and are presented in Note 8 “Property, furniture and equipment, net”, and are subject to impairment.

- Lease liabilities -

The Group recognizes lease liabilities measured at the present value of lease payments to be made over the lease term. Given that this interest rate implicit in the lease agreement is not easily determinable, in the calculation of the present value of the lease payments, the Group uses the rate it applies to its loans. The lease payments include fixed payments (less any lease incentives receivable), variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for terminating the lease, if the lease term reflects exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognized as expenses in the period in which the event or condition that triggers the payment occurs. Lease liabilities are presented in Note 10 as “Lease liabilities” in the caption “Other accounts payable, provisions and other liabilities”.

The Group performs accounting estimates related to the determination of terms and rates of the lease agreements, as detailed below:

- Determination of the lease term for lease contracts with renewal and termination options The Group as a lessee determines the lease term as the non-cancellable term of the lease, together with any periods covered by an option to extend the lease if it is reasonably certain to be exercised, or any periods covered by an option to terminate the lease, if it is reasonably certain not to be exercised. The Group applies judgement in evaluating whether it is reasonably certain whether or not to exercise the option to renew or terminate the lease. That is, it considers all relevant factors that create an economic incentive for it to exercise either the renewal or termination. After the commencement date, the Group reassesses the lease term if there is a significant event or change in circumstances that is within its control that affects its ability to exercise or not to exercise the option to renew or to terminate (e.g., construction of significant leasehold improvements or significant customisation of the leased asset).
- Estimating the incremental borrowing rate In order to determine the interest rate implicit in the lease, the Group uses its incremental borrowing rate - “IBR” to measure lease liabilities. The IBR is the rate of interest that the Group would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment. The IBR therefore reflects what the Group ‘would have to pay’, which requires estimation when no observable rates are available or when they need to be adjusted to reflect the terms and conditions of the lease (for example, when leases are not in the subsidiary’s functional currency). The Group estimates the IBR using observable inputs such as the free-risk interest rates, Peruvian government yield curves of global bonds (in Dollars) and sovereign bonds (in Soles), and a credit risk differential, using a spread on the most recent debt issuance.

The Group used the exemption proposed by the standard for short term and low value assets; thus, short term and low value lease agreements are kept classified as operating leases, and the disbursements

incurred due to these leases are recorded in the caption “Administrative expenses” of the consolidated statement of income.

Until December 31, 2018, leases in which a significant portion of the asset’s risks and benefits was retained by the lessor were classified as operating leasing according to IAS 17 “Leases”. Under this concept, the Group held mainly rented facilities used as offices and agencies of the Group’s Subsidiaries; see Note 25(c).

(ii) The Group as a lessor –

As of December 31, 2020 and 2019, the Group holds the following types of leases:

- Financial leases –

Leases in which the Group substantially transfers all risks and benefits related to the ownership of the asset are classified as financial leases.

Financial leases are recognized as loans at the present value of the installments. The difference between the total value receivable and the present value of the loan is recognized as accrued interest. This income is recognized during the term of the lease using the effective interest rate method, which reflects a constant rate of return.

As of December 31, 2020 and 2019, leasing receivables are subject to the financial asset impairment policy; see Notes 3.4(f.1) and (h).

- Operating leases –

Leases in which the Group does not substantially transfers all risks and benefits related to the ownership of the asset are classified as operating leases.

Lease revenues obtained from investment properties are recorded using the straight-line method for the contract terms, and they are recorded as a revenue in the consolidated statement of income due to their operative nature, except for contingent lease revenues, which are recorded when realized.

The lease term is the non-cancelable period, together with any other additional period for which a lessee has the option of continuing with the lease, where, at the start date of the lease, Management is reasonably confident that a lessee will exercise such option.

Amounts received from tenants to terminate leases or to compensate impairment of leased facilities are recognized as revenues in the consolidated statement of income when the right to receive them arises.

Service charges, administration expenses and other recoverable expenses paid by the lessees and the revenues resulting from expenses charged to the lessees are recognized in the period in which the compensation becomes an account receivable. Service charges and administration expenses and other receipts are included in the gross revenues from rentals of the related costs, given that Management considers that the Group acts as principal party.

(k) Customer Loyalty Program -

The Group has a customer loyalty program, which allows customers to accumulate points that can be exchanged for products. Loyalty points give rise to a separate performance obligation, since they provide a material right to the customer. A part of the transaction price is allocated to the loyalty points granted to customers on the basis of the relative independent selling price and is recognized as a contractual liability until the points are redeemed and presented as "Other accounts payable" in the item "Other accounts payable, provisions and other liabilities" of the consolidated statement of financial position. Expenses are provisioned monthly regardless of the customer's redemption of products.

By estimating the selling price independent of the loyalty points, the Group considers the probability of a client will use the cumulated points. The Group updates the estimates of points to be monthly redeemed and any adjustment to the liability balance will be recognized in the caption "Administrative expenses" of the consolidated statement of income.

(l) Services of purchase-sale of financial investments "principal versus agent"-

The Group has contracts with customers to buy and sell, on their behalf, financial investments in the stock market and over-the-counter market. The Group acts as an agent in these agreements.

When another party participates in the supply of services to their client, the Group determines whether it is a principal or an agent in these transactions when evaluating the nature of its agreement with the client. The Group is a principal and records the revenue by gross amounts if it controls the committed services before transferring to the customer. However, if the Group's role is only to arrange for another entity to provide the services, then the Group is an agent and records the revenues for the net amount it retains for its services as an agent.

(m) Investments in associates -

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the entity, but without having control over those policies. The considerations taken for determining significant influence are similar to those needed to determine control over Subsidiaries.

The Group's investments in its associates are recognized initially at cost and then are accounted for using the equity method. The Group's investments in associates are included in the caption "Other accounts receivable and other assets, net" of the consolidated statement of financial position, see note 10. Gains resulting from the use of the equity method of accounting are included in the caption "Other income" of the consolidated statement of income.

(n) Investment property -

Investment property comprises land and buildings (mainly shopping malls, educational institutions and offices) that are not occupied substantially for use in the operations of the Group, nor for sale in the ordinary course of business, but are held primarily to earn rental income and capital appreciation. These buildings are substantially rented and not intended to be sold in the ordinary course of business. Investment property comprises completed property and property under construction or re-development.

The Group measures its investment property at fair value according to the requirements of IAS 40 "Investment Property", as it has chosen to use the fair value model as its accounting policy.

Investment property is measured initially at cost, including transaction costs, that include transfer taxes, professional fees for legal services and initial leasing commissions to bring the property to the condition necessary to start operating. The carrying amount also includes the cost of replacing part of an existing investment property at the time that cost is incurred if the recognition criteria are met.

Properties under construction are measured based on estimates prepared by independent real estate valuation experts, except where such values (e.g. work-in-progress incurred on properties under construction) cannot be readily determined. Accordingly, the work-in-progress incurred on properties under construction is measured at cost until either its fair value becomes reliably measurable or construction is completed (whichever is earlier). Investment property under construction includes the value of land, which is determined by appraisals performed by an accredited appraiser using the price per square meter as a market comparable method.

Subsequent to initial recognition, investment property is recorded at fair value. Gains or losses arising from changes in fair values are included in the caption "Net gain on investment property" of the consolidated statement of income in the year in which they arise.

Fair values are assessed periodically by Management, based on the discounted cash flows that are expected to be obtained from these investments. Fair values of investment properties under construction or investment properties held to operate in the future are assessed by an independent external appraiser, through the application of a recognized valuation model. See Note 7 for details of fair value and related assumptions.

Transfers to or from Investment property are made only when there is a change in the use of the asset. In case of assets transferred from Investment property to Property, furniture and equipment, the reclassified amount corresponds to the asset's fair value at the date when the asset's use was changed. If an item of Property, furniture and equipment moves to Investment property, the Group transfers the fixed asset's net cost to Investment property and the asset is subsequently measured at fair value according to the policies established by the Group.

During 2020, and considering the new rented properties, the Group transferred part of the "Orquídeas" building, located in San Isidro, Lima, from "Property, furniture and equipment" to "Investment property", for S/5,201,000.

Likewise, during 2018, the Group transferred "Las Orquídeas" building, located in San Isidro, Lima, from "Investment property" to "Property, furniture and equipment" for S/20,029,000. In addition, the Group transferred part of the "Pardo y Aliaga" building and part of the "Sede Wiese", both located in San Isidro, Lima, from "Property, furniture and equipment" to "Investment property" for S/6,453,000 and S/4,037,000, respectively.

Investment property is derecognized when it has been disposed or withdrawn from use and no future economic benefit is expected from its disposal. The difference between the net disposal proceeds and the carrying amount of the asset would result in either gains or losses at the retirement or disposal of investment property. Any gains or losses are recognized in the consolidated statement of income of the year of retirement or disposal.

(o) Property, furniture and equipment, net -

Property, furniture and equipment are stated at historical acquisition cost less residual value, cumulative depreciation and impairment losses, if applicable. The historical acquisition cost includes the expenses that are directly attributable to the acquired property, furniture or equipment. Maintenance and repair costs are charged to the consolidated statement of income; significant renewals and improvements are capitalized when it is probable that future economic benefits, in excess of the originally assessed standard of performance, will result from the use of the acquired property, furniture or equipment.

Land does not depreciate. Depreciation of property, furniture and equipment is calculated using the straight-line method over the estimated useful lives, which are as follows:

	Years
Buildings and facilities	40 - 75
Leasehold improvements	5
Furniture and equipment	10
Vehicles	5

An item of property, furniture and equipment and any significant part initially recognized, is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising from the derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the consolidated statement of income.

The residual value of each asset, its useful life and the selected depreciation method are periodically reviewed to ensure that they are consistent with current economic benefits and useful life expectations.

(p) Assets seized through legal actions -

Assets seized through legal actions are recorded in the item "Others" of the caption "Other accounts receivable and other assets, net" of the consolidated statement of financial position, see note 10; and are recognized at the lower value between the cost or the estimated market value (minus cost to sell), determined from valuations made by independent appraisers. Reductions in book value are recorded in the consolidated statement of income.

(q) Intangible assets with finite useful lives -

Generally, the intangible assets with finite useful lives are included in the caption "Intangibles and goodwill, net" of the consolidated statement of financial position and they are mainly costs incurred in connection with the acquisition of computer software used in operations and other minor intangible assets. The amortization expense is calculated following the straight-line method over the useful life estimated between 4 and 5 years; see Note 9.

On the other hand, when an insurance contract portfolio is acquired, whether directly from another insurance company or as part of a business combination (in the case of the Group, the acquisition of Seguros Sura), the difference between the fair value of the insurance contract liability and the value of the insurance contract liability, as measured with the acquirer's accounting policies, is recognized as an intangible asset named "Present Value of In-Force Business" (henceforth "PVIF").

In this sense, PVIFs resulting from the acquisition of Seguros Sura are recognized in the consolidated statement of financial position at their estimated market value at the acquisition date. After the initial recognition, the PVIF is recorded at cost, minus the cumulative amortization and cumulative impairment loss, if any. The PVIF is amortized on a linear basis over the useful life of the acquired policies, which has been estimated in ten years.

The recoverability of PVIF is considered as part of the liability adequacy test performed at each reporting period. PVIF is derecognized when the related contracts are settled or disposed of.

Changes in the estimated useful life or in the pattern of consumption of the expected future economic benefits embedded in the intangible asset (PVIF) are recorded by changing the amortization period or method and are treated as a change in an accounting estimate.

Gains or losses arising from the derecognition of an intangible asset are measured as the difference between the net amount of the disposal of the asset and the book value of said asset and they are recognized in the consolidated statement of income at the derecognition date.

(r) Goodwill -

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred and the amount recognized for non-controlling interests, and any previous interest held, if any, over the net identifiable assets acquired and liabilities assumed. If the fair value of net assets acquired is in excess of the aggregate consideration transferred, the Group re-assesses whether it has correctly identified all of the assets acquired and all the liabilities assumed and reviews the procedures used to measure the amounts to be recognized at the acquisition date. If the reassessment still results in an excess of fair value of net assets acquired over the aggregate consideration transferred, then the gain is recognized in the consolidated statement of income.

After initial recognition, goodwill is measured at cost less any cumulative impairment loss, if any. A goodwill impairment testing is performed on a yearly basis. To perform an impairment testing, goodwill acquired in a business combination is allocated, since the acquisition date, to one of the Group's cash-generating units (henceforth "CGU") that are expected to benefit from the business combination, irrespective of whether other assets or liabilities of the acquirer are assigned to those units.

Goodwill impairment is determined by assessing the recoverable amount of each CGU (or group of CGUs) to which the goodwill relates. When the recoverable amount of the CGU is less than its carrying amount, an impairment loss is recognized. Impairment losses relating to goodwill cannot be reversed in future periods.

Where the goodwill has been allocated to the CGU and part of the operation within that unit is disposed of, the goodwill associated to the disposed operation is included in the carrying amount of the operation when determining the gain or loss of disposal. Goodwill disposed in these circumstances is measured based on the relative values of the disposed operation and the withheld portion of the CGU retained.

Goodwill, recorded by the Group; see Note 9(b), arises from the acquisition of Seguros Sura and, considering that this entity was merged with Interseguro, has been allocated to the CGU of the insurance business.

(s) Business combinations -

Business combinations are accounted for using the acquisition method established by IFRS 3 “Business Combinations”. The cost of an acquisition is measured as the aggregate of the consideration transferred, which is measured at the acquisition date’s fair value, and the amount of any non-controlling interests in the acquiree. For each business combination, the Group chooses whether to measure the non-controlling interests in the acquiree at fair value or at the proportionate share of the acquiree’s identifiable net assets. Acquisition-related costs are expensed as incurred and included in the caption “Administrative expenses” of the consolidated statement of income.

The Group determines that it has acquired a business when the the acquired set of activities and assets include an input and a substantive process that together significantly contribute to the ability to create outputs . The acquired process is considered substantive if it is critical for the capacity to the ability to continue producing outputs , and the inputs acquired include an organized workforce with the necessary skills, knowledge or experience to performe that process or it significantly contributes to the ability to continue producing outputs and is considered unique or scarce or cannot be replaced without incurring in significant costs, effort or delay in the ability of continue producing outputs.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions at the acquisition date. This includes the separation of embedded derivatives in host contracts by the acquiree.

Any contingent consideration to be transferred by the acquirer shall be recognized at fair value at the acquisition date. Contingent consideration classified as an asset or liability that is a financial instrument and within the scope of IFRS 9 “Financial Instruments: Recognition and Measurement”, is measured at fair value with the changes in the consolidated statement of income or in the consolidated statement of other comprehensive income. If the contingent consideration is not within the scope of IFRS 9, this shall be measured according to the applicable IFRS. The contingent consideration that is classified as equity must not be measured again and its subsequent settlement shall be recorded in equity. As of December 31, 2020 and 2019, there have been no contingencies arising from business combinations.

A business combination between entities or businesses under common control is beyond the scope of IFRS 3, because it corresponds to a business combination in which all entities or businesses that are combined are ultimately controlled by the same part or parts, both before and after the business combination. In these transactions, the Group recognizes the assets acquired under the method of unification of interest, whereby the assets and liabilities of the combined companies are reflected in their book values and no commercial credit is recognized as a result of the combination.

(t) Impairment of non-financial assets -

Property, furniture and equipment and intangible assets with a finite life are assessed to determine whether there are any indications of impairment as of the closing of each period. If any indication exists, the Group estimates the asset's recoverable value. The recoverable amount of the assets is the highest between the value of an asset or a CGU less the costs of sale and its use value, and it is determined for an individual asset, unless the asset does not generate cash revenues that are largely independent from those of other assets or groups of assets.

When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value minus costs to sell, an appropriate valuation model is used.

(u) Due from customers on acceptances -

Due from customers on acceptances corresponds to accounts receivable from customers for import and export transactions, whose obligations have been accepted by the Group. The obligations that must be assumed by the Group for such transactions are recorded as liabilities.

(v) Defined contribution pension plan -

The Group only operates a defined contribution pension plan. The defined contribution payable in the pension plan is in proportion to the services rendered to the Group by the employees and it is recorded as an expense in the caption "Salaries and employee benefits" of the consolidated statement of income. Unpaid contributions are recorded as liabilities.

(w) Provisions -

Provisions are recognized when the Group has a present obligation (legal or implicit) as a result of a past event, and it is probable that an outflow of resources embodying economic benefits will be required in order to settle the obligation and a reliable estimate can be made of the amount of the obligation. The expense relating to any provision is presented in the consolidated statement of income, net of any reimbursement. If the effect of the time value of money is material, provisions are discounted using a pre-tax rate that reflects, where appropriate, the specific risks of the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a financial expense.

(x) Contingencies -

Contingent liabilities are not recognized in the consolidated financial statements, but are disclosed in notes to the consolidated financial statements, unless the probability of an outflow of resources is remote. Contingent assets are not recorded in the consolidated financial statements, but they are disclosed if it is probable that an inflow of economic benefits will emerge.

(y) Fair value measurement -

Fair value is the price that would be received for the sale of an asset or paid for the transfer of a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- On the principal market for the asset or liability; or
- In the absence of a principal market, on the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Group. Also, the fair value of a liability reflects its non-performance risk.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

When possible, the Group measures the fair value of a financial instrument using the quoted price in an active market for that instrument. A market is regarded as active if transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis.

If there is no quoted price on an active market, then the Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure the fair value, maximizing the use of relevant and observable data and variables, and minimizing the use of unobservable data and variables.

The chosen valuation technique incorporates all of the factors that market participants would take into account in pricing a transaction.

In the case of investment property, the Group has considered the specific requirements relating to highest and best use, valuation of premises and principal (or most advantageous) market. The determination of investment property fair value requires the use of estimations such as the future cash flows of the assets (e.g., leases, sales, fixed rents for the different lessees, variable rents based on the sales percentage, operating costs, construction costs, maintenance costs, and the use of discount rates). Additionally, real estate development risks (such as construction and abandonment) are also taken into account when determining the fair value of the land related to the investment property under construction.

The fair value of investment property in the consolidated statement of financial position must reflect the volatile nature of real estate markets; therefore, Management and its appraisers use their market knowledge and professional criteria and do not depend solely on historical comparable transactions. In this sense, there is a higher degree of uncertainty than when a more active market exists for the estimation of fair value. Significant methods and assumptions used in the estimation of fair value of investment property are detailed in Note 7.

All assets and liabilities for which the fair value is measured or disclosed in the consolidated financial statements are categorized within the fair value hierarchy described below:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2 - Valuation techniques for input that is significant to the fair value measurement is directly or indirectly observable.
- Level 3 - Valuation techniques for which data and variables of the lowest significant level to measure fair value are unobservable.

For assets and liabilities that are recognized at fair value in the consolidated financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization at the end of each reporting period.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of hierarchy of the fair value, as explained above.

Fair values of financial instruments measured at amortized cost are disclosed in Note 31(b).

(z) Income Tax -

Income Tax is computed based on the separate financial statement of each Subsidiary.

Deferred Income Tax is accounted for in accordance with IAS 12 "Income Taxes". In this sense, the deferred Income Tax reflects the effects of temporary differences between the carrying amounts of assets and liabilities for accounting purposes and the amounts determined for tax purposes. Deferred assets and liabilities are measured using the tax rates that are expected to be in force in the years in which such temporary differences are expected to be recovered or settled. Consequently, the deferred Income Tax has been calculated by applying the rates that are in force; see Note 17(c). The measurement of deferred tax assets and deferred tax liabilities reflects the tax consequences that arise from the manner in which each individual entity of the Group expects, at the consolidated statement of financial position dates, to recover or settle the carrying amount of their assets and liabilities.

Deferred tax assets and liabilities are recognized regardless of when the temporary differences are likely to reverse. Deferred tax assets are recognized when it is probable that sufficient taxable income will be generated against which the deferred tax assets can be offset. At each consolidated statement of financial position date, unrecognized deferred assets and the carrying amount of deferred tax assets registered are assessed. A previously unrecognized deferred tax asset is recognized to the extent that it has now become probable that future taxable income will allow the deferred tax asset to be recovered. Likewise, the carrying amount of a deferred tax asset is reduced when it is no longer probable the generation of a sufficient taxable income that allow the application of the tax deferred asset.

According to IAS 12, the deferred Income Tax is determined by applying the Income Tax rate applicable to the retained earnings, recognizing any additional tax on distribution of dividends that may arise on the date when the liability is recognized.

(aa) Segment information -

IFRS 8 "Operating Segments" requires that the information of operating segments be disclosed consistently with information provided by the chief operating decision maker, who allocates resources to the segments and assesses their performance. Segment information is presented in Note 28.

(ab) Fiduciary activities and management of funds -

The Group provides trust management, investment management, advisory and custody services to third parties that result in the holding of assets on their behalf. These assets and the income arising thereon are excluded from these consolidated financial statements, as they are not assets of the Group; see Note 32.

Commissions generated from these activities are included in the caption "Fee income from financial services, net" of the consolidated statement of income.

Notes to the consolidated financial statements (continued)

(ac) Earnings per share -

The amount of basic earnings per share is calculated by dividing the net profit for the year attributable to common shareholders by the weighted average number of common shares outstanding during the year. As of December 31, 2020 and 2019, the Group does not have financial instruments with dilutive effect, therefore, basic and diluted earnings per share are identical for the years reported.

(ad) Capital surplus -

It is the difference between the nominal value of shares issued and their public offering price made in 2007 and 2019; see Note 1(c). Capital surplus is presented net of expenses incurred in the issuance of shares.

(ae) Treasury stock -

Shares repurchased are recorded in the shareholders' equity under treasury stock caption at their purchase price. No loss or gain is recorded in the consolidated statement of income arising from the purchase, sale, issuance or amortization of these instruments. Shares that are subsequently sold are recorded as a reduction in treasury stock, measured at the average price of treasury stock held at such date; and the resulting gain or loss is recorded in the consolidated statement of changes in net equity in the caption "Retained earnings".

(af) Cash and cash equivalents -

Cash presented in the consolidated statement of cash flows includes cash and due from banks balances with original maturities lower than three months, excludes the restricted funds, which are subject to an insignificant risk of changes in value. The cash and cash equivalent item does not include accrued interest.

On the other hand, the cash collateral committed as part of a repurchase agreement is included in the "Cash and due from banks" caption of the consolidated statement of financial position; see Note 4(d).

(ag) Amendments to IFRS 9, IAS 39 and IFRS 7: "Interest Rate Benchmark Reform" - Phase 1 -

Since 2019, the Group applies the exceptions of the Interest Rate Benchmark reform to all affected hedging relationships. A hedging relationship will be affected if the reform generates uncertainty about the moment or the amount of the cash flows related to the hedged account of the hedging instrument in the period prior to the replacement of the rate benchmark with the alternate rate benchmark, given that this rate can be almost risk free. With exceptions applied, the Group has the intention of avoiding any disruption in the existing relationships in the hedge accounting of cash flows and the fair value of interest rate risk which, in the absence of these amendments, would result in the ineffectiveness of the hedge and potential inconsistencies in the hedge accounting as result of the interest rate benchmark reform.

The exceptions provided by the amendments are:

- "Highly probable" requirement for cash flow hedges: If the hedged item is a forecast transaction, it will be determined that the forecast transaction is highly probable by assuming that the interest rate benchmark on which the hedged cash flows are based is not altered as result of the interest rate benchmark reform.
- Reclassification of the cash flow hedge reserve to statement of income: In order to determine if it is not expected that the hedged cash flows occur, it is assumed that the interest rate benchmark on which the hedged cash flows are based is not altered as result of the interest rate benchmark reform.

- Economic relationship between the hedged item and the hedge instrument: It is assumed that the interest rate benchmark on which the hedged cash flows are based, and/or the interest rate benchmark on which the cash flows of the hedge instrument are based, is not altered as result of the interest rate benchmark reform.

At the end of the periods 2019 and 2020, the Group has exposure to mainly USD-Libor rates; thus, the impact will be the change into other interest rate benchmark.

The main affected items within the Group are the derivative positions (interest rate swaps – IRS, and cross currency swaps – CCS, outstanding as of the transition date which accrue USD-Libor interest).

Additionally, the Group holds some financial instruments with exposure to the inter-bank Euribor rate (Euro Interbank Offered Rate). The calculation methodology of Euribor changed during the year 2019 through the adoption of a hybrid methodology based mainly, to the extent possible, on observable market data and, in case they are not sufficient, on other market price sources, in order to assure the strength of the Euribor inter-bank rate. In July 2019, the Belgian Authority of Financial Services and Markets granted an authorization regarding the applicability of the Euribor inter-bank rate under the European Union Benchmark Regulation, thus allowing market participants to continue using this rate after January 1, 2020, for both existing and new contracts. The Group expects that the Euribor inter-bank rate will continue existing as rate benchmark in the foreseeable future. Because of this, the Group does not consider that this index benchmark may be directly affected as result of the interest rate benchmark reform.

Note 10(b)(vi) details the nominal value and the average term in years of derivative financial instruments that are subject to the interest rate benchmark reform.

(ah) Reclassifications on financial statements as of December 31, 2019 and 2018 –

During 2020, the Management performed a detailed analysis on the nature of the products “Renta Particular Plus” and “Renta Particular Plus - Vitalicio”, considering the important growth they have had during the last years; and which were being recorded on “Other accounts payable, provisions and other liabilities”, considering mainly the financial component included in these products. This analysis had the purpose to separate these products based on their main characteristics. In this regard, the product “Renta Particular Plus”, for which a majority of contracts (policies) have an important financial component, remained as a financial liability, while the product “Renta Particular Plus - Vitalicio”, which has a significant insurance component, was determined to reclassify and present it as insurance product according to IFRS 4 (insurance contract liabilities).

In this sense, the balances of the product “Renta Particular Plus - Vitalicio” were reclassified from “Other accounts payable, provisions and other liabilities” into the caption “Insurance contracts liabilities” of the consolidated statement of financial position, see Notes 10 and 14, respectively; and its respective effects on income from the captions “Net premiums earned” and “Net claims incurred for life insurance and others” into the caption “Interest and similar expenses” of the consolidated statement of income, see Notes 22 and 19, respectively. Lastly, with the purpose of making comparable the consolidated financial statements, the balances of previous periods were modified, as presented below:

	Before reclassification S/(000)	Reclassification S/(000)	After reclassification S/(000)
<b>Year 2019</b>			
<b>Consolidated statement of financial position</b>			
Insurance contract liabilities	11,338,810	87,821	11,426,631
Other accounts payable, provisions and other liabilities	2,048,048	(87,821)	1,960,227
<b>Consolidated statement of income</b>			
Interest and similar expenses	(1,407,897)	(16,066)	(1,423,963)
Net premiums earned	426,608	(5,975)	420,633
Net claims and benefits incurred for life insurance contracts and others	(722,305)	22,041	(700,264)
<b>Year 2018</b>			
<b>Consolidated statement of income</b>			
Interest and similar expenses	(1,170,586)	(6,708)	(1,177,294)
Net premiums earned	328,566	(8,987)	319,579
Net claims and benefits incurred for life insurance contracts and others	(736,032)	15,695	(720,337)

In Group Management's opinion, these reclassifications allow a better presentation in the consolidated financial statements.

### 3.5 Standards issued but not yet effective -

Following is the description of the new and amended standards and interpretations issued, but which are not yet in force at the date of issuance of these consolidated financial statements. The Group intends to adopt these new and amended standards and interpretations, if applicable, when they become effective:

- IFRS 17 "Insurance contracts"

In May 2017, the IASB issued IFRS 17 "Insurance Contracts", a comprehensive new accounting standard for insurance contracts, covering recognition and measurement, presentation and disclosure. Once effective, IFRS 17 will replace IFRS 4 "Insurance Contracts", issued in 2005. IFRS 17 applies to all types of insurance contracts (i.e., life, non-life, direct insurance and re-insurance), regardless of the type of entities that issue them, as well as to certain guarantees and financial instruments with discretionary participation features. A few scope exceptions will apply. The overall objective of IFRS 17 is to provide an accounting model for insurance contracts that is more useful and consistent for insurers. In contrast to the requirements in IFRS 4, which are based to a large extent on the compliance of previous local accounting policies, IFRS 17 provides a comprehensive model for insurance contracts, covering all relevant accounting aspects. IFRS 17 is a general model which is complemented by:

- (i) A specific adaptation for contracts with direct participation features (the variable fee approach).
- (ii) A simplified approach (the premium allocation approach) mainly for short-duration contracts.

IFRS 17 is effective for reporting periods beginning on or after 1 January 2023, with the presentation of comparative figures required. Early application is permitted, provided the entity also applies IFRS 9 and IFRS 15 on or before the date that it first applies IFRS 17.

The Group's Management is assessing the impact of this standard on the consolidated financial statements.

- Amendments to IAS 1 "Presentation of Financial Statements: Classification of Liabilities as Current or Non-Current"

In January 2020, the IASB issued amendments to IAS 1 with the purpose of specifying the requisites for the classification of liabilities as current or non-current. The amendments clarify:

- What is meant by a right to defer a settlement arrangement.
- That a right to defer must exist at the end of the reporting period.
- That liability classification unaffected by the likelihood that an entity will exercise its deferral right.
- That only if an embedded derivative in a convertible liability is itself an equity instrument would the terms of a liability not impact its classification.

The amendments are effective for annual periods beginning on January 1, 2023 and must be applied retrospectively. These amendments are not applicable to the Group because given the nature of its operations (mainly banking and insurance), it does not perform the classification of current and non-current in its financial statements.

- Amendments to IFRS 3 "Business Combinations: References to the Conceptual Framework"

In May 2020, the IASB issued amendments to IFRS 3 "Business Combinations: References to the Conceptual Framework". The amendment is intended to replace a reference to the Framework for the preparation and presentation of the financial statements, issued in 1989, with a reference to the conceptual framework for financial reporting issued in March 2018, without significantly changing its requirements.

The IASB also added an exception to the recognition principle of IFRS 3 to avoid the recognition of potential gains or losses arising for contingent assets and liabilities that would be within the scope of IAS 37 or IFRIC 21, if incurred separately.

At the same time, the IASB decided to clarify existing guidance in IFRS 3 for contingent assets that would not be affected by replacing the reference to the Framework for the preparation and presentation of the financial statements.

The amendments are effective for annual periods beginning on or after January 1, 2022 and apply prospectively.

It is not expected that the amendments will have a significant impact on the Group's consolidated financial statements.

- Amendments to IAS 16 "Property, Plant and Equipment: Proceeds Before Intended Use"

In May 2020, the IASB issued an amendment to IAS 16 "Property, Plant and Equipment: Proceeds Before Intended Use", which prohibits entities deducting from the cost of an item of fixed asset, any proceeds from selling items produced while bringing that asset to the location and condition necessary for it to be capable of operating in the way intended by management. Instead, an entity recognizes the proceeds from selling such items, and the costs of producing those items, in the statement of income.

The amendments are effective for annual reporting periods beginning on or after January 1, 2022 and must be applied retrospectively to items of fixed assets made available for use on or after the beginning of the earlier period presented when the entity first applies the amendment.

It is not expected that the amendments will have a significant impact on the Group's consolidated financial statements.

- Amendments to IAS 37 "Provisions, Contingent Liabilities and Contingent Assets: Onerous Contracts – Cost of Fulfilling a Contract"

In May 2020, the IASB issued an amendment to IAS 37 to specify which costs an entity needs to include when assessing whether a contract is onerous or loss-making.

The amendments are applied on a "directly related costs approach". The costs that relate directly to a contract to provide goods or services include both the incremental costs and an allocation of costs directly related to the contractual activities. General and administrative costs do not relate directly to a contract and are excluded unless they are explicitly chargeable to the counterparty under the contract.

The amendments are effective for annual reporting periods beginning on or after January 1, 2022.

The Group will apply these amendments to contracts for which it has not yet fulfilled all its obligations at the beginning of the annual reporting period in which it first applies the amendments.

It is not expected that the amendments will have a significant impact on the Group's consolidated financial statements.

- IFRS 1 "First-time Adoption of International Financial Reporting Standards – Subsidiary as a First-time Adopter"

As part of its 2018-2020 annual improvements to IFRS standards process, the IASB issued an amendment to IFRS 1 "First-time Adoption of International Financial Reporting Standards". This amendment permits a subsidiary that elects to apply paragraph D16 (a) of IFRS 1 to cumulative translation differences using the amounts reported by the parent, based on the parent's date of transition into IFRS. This amendment is also applied to an associated or joint venture that elects to apply paragraph D16(a) of IFRS 1.

The amendment is effective for annual reporting periods beginning on or after January 1, 2022, with early adoption permitted.

- IFRS 9 "Financial Instruments – Fees in the '10 per cent' Test for Derecognition of Financial Liabilities"

As part of 2018-2020 annual improvements to IFRS standards process, the IASB issued an amendment to IFRS 9. The amendment clarifies the fees that an entity includes when assessing whether the terms of a new or modified financial liability are substantially different from the terms of the original financial liability. These fees include only those paid or received between the borrower and the lender, including fees paid or received by either the borrower or lender on the other's behalf. An entity applies the amendment to financial liabilities that are modified or exchanged on or after the beginning of the annual reporting period in which the entity first applies the amendment.

The amendment is effective for annual reporting periods beginning on or after 1 January 2022 with earlier adoption permitted. The Group will apply the amendments to financial liabilities that are modified or exchanged on or after the beginning of the annual reporting period in which the entity first applies the amendment.

It is not expected that the amendment will have a significant impact on the Group's consolidated financial statements.

- Amendments to IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16 "Interest Rate Benchmark Reform – Phase 2"

Phase 2 of the Interest Rate Benchmark Reform includes a series of reliefs and additional disclosures. The reliefs apply to financial instruments when the interest rate benchmarks are replaced by alternate interest rates (practically risk-free rates). As practical relief, it is permitted that the entities apply prospectively the change in the cash flows basis; that is, as though it was an asset or liability at a floating interest rate, and provided that it was a direct consequence of the Reform and on an economically equivalent basis.

Phase 2 of the Interest Rate Benchmark Reform provides temporary reliefs which allow the hedging relationships to continue upon the replacement of an existing interest rate benchmark with an alternate interest rate. The reliefs require entities to amend hedge designations and hedge documentation. This includes redefining the hedged risk, redefining the description of the hedging instrument and/or the hedged item (noting the new alternate rate) and amending the method for assessing hedge effectiveness. Updates to the hedging documentation must be made by the end of the reporting period in which a replacement takes place. An alternate rate benchmark designated as component of contractually non-specified risk that is not identifiable separately at the date it is designated, has complied with that requirement at that date, if and only if, the entity expects reasonably that the alternative rate benchmark will be identifiable separately within a 24-month period since the date at which the alternative rate benchmark is designated as a risk component.

As of December 31, 2020, Interbank holds exposure mainly to USD-Libor rates, thus the impact will be the change to another benchmark rate. In the United Kingdom, the Financial Conduct Authority ("FCA") is responsible for the regulation of the Libor rates. It is expected that the publication of Libor rates by the FCA will end after 2021. In the United States, the Federal Reserve Bank of New York is leading the transition of the USD-Libor into the robust rate benchmark Secured Overnight Financial Rate ("SOFR"). In that sense, it has been planned the transition into the new rate benchmarks will be implemented before December 31, 2021. However, at the end of November 2020, LIBOR administrator, the ICE Benchmark Administration, placed on consultation a proposal to continue with the publication of the LIBOR rates until June 2023, and it is expected that the proposal will be approved.

Regarding the exposures, among the items potentially affected at Interbank are commercial loans, funding liabilities and derivative positions. The positions within the balance sheet that accrue interest at the USD-Libor rate are not significant and represent less than 3% of the asset or liability, respectively. In the case of commercial loans, the agreements have been reviewed and the majority corresponds to syndicated loans where the leading banks do not yet define the rate at which to migrate. In the case of liabilities, there are exposures in loans and bonds. In the case of loans, the last date of interest calculation will be before December 31, 2021, thus there will not be positions exposed to Libor. In the case of issued bonds, there is an issuance that could pay interest based on Libor in the future, but this issuance has a fallback clause, which determines the conditions governing contracts when indices are not available. In derivative products, the "ISDA Protocol", to which the Bank is expected to adhere in order to be aligned to the global market standard is under review. Considering that in all of Interbank's products global banks take part, the process of negotiation with clients will develop in line with advances at the global level, considering that it is highly probable that the Libor publication date may continue until June 2023.

Notes to the consolidated financial statements (continued)

3.6 Significant accounting judgments, estimates and assumptions -

The preparation of the consolidated financial statement of the Group requires Management to make judgments, estimates and assumptions that affect the reported amount of income, expenses, assets and liabilities, and the accompanying disclosures, as well as the disclosure of contingent liabilities. In the process of applying the Group's accounting policies, Management has used judgments and assumptions about the future and other key sources to make its estimates at the reporting date, which have a significant risk that may cause a material adjustment to the value in books of assets and liabilities within the next financial year. The estimates and existing assumptions may change due to circumstances beyond the control of the Group and are reflected in assumptions if they occur. The items with the most impact recognized in the consolidated financial statements with judgements and/or considerable estimates are the following: the calculation of the impairment of the portfolio of loans and financial investments, the measurement of the fair value of the financial investments and investment properties, the assessment of the impairment of the goodwill, the liabilities for insurance contracts and the measurement of the fair value of derivative financial instruments; also, there are other estimates such as provisions for litigation, the estimated useful life of intangible assets, and property, furniture and equipment, and the estimation of assets and liabilities for deferred Income Tax, and the determination of terms and estimation of the interest rate of lease agreements. The accounting criteria used for each of these items are described in Note 3.4.

4. Cash and due from banks and inter-bank funds

(a) The detail of cash and due from banks is as follows:

	2020 S/(000)	2019 S/(000)
Cash and clearing (b)	2,152,432	1,877,843
Deposits in the BCRP (b)	14,102,067	5,861,570
Deposits in banks (c)	1,891,420	2,112,316
Accrued interest	1,879	6,209
	<u>18,147,798</u>	<u>9,857,938</u>
Restricted funds (d)	617,684	1,270,937
<b>Total</b>	<b><u>18,765,482</u></b>	<b><u>11,128,875</u></b>

Notes to the consolidated financial statements (continued)

- (b) In accordance with rules in force, Interbank is required to maintain a legal reserve in order to honor its obligations with the public. This reserve is comprised of funds kept in Interbank and in the BCRP and is made up as follows:

	2020 S/(000)	2019 S/(000)
<b>Legal reserve (*)</b>		
Deposits in the BCRP	4,603,067	4,998,770
Cash in vaults	1,958,921	1,757,917
Subtotal legal reserve	6,561,988	6,756,687
<b>Non-mandatory reserve</b>		
Term deposits in the BCRP (**)	9,499,000	—
Overnight deposits in the BCRP	—	862,800
Cash and clearing	193,461	119,859
Subtotal non-mandatory reserve	9,692,461	982,659
Cash balances not subject to legal reserve	50	67
<b>Total</b>	<b>16,254,499</b>	<b>7,739,413</b>

- (\*) The legal reserve funds maintained in the BCRP are non-interest bearing, except for the part that exceeds the minimum reserve required that accrued interest at a nominal annual rate. As of December 31, 2020, the excess in foreign currency accrued interest in US Dollars at an annual average rate of 0.01 percent (annual average rate of 1.25 percent as of December 31, 2019). During 2020 and 2019, Interbank did not maintain excess reserves in national currency.

In Group Management's opinion, Interbank has complied with the requirements established by the rules in force related to the computation of the legal reserve.

- (\*\*) As of December 31, 2020, corresponds to six term deposits in local currency that Interbank holds in the BCRP, have maturity in the first days of January 2021, and accrue an annual interest rate of 0.25 percent.

- (c) Deposits in domestic banks and abroad are mainly in Soles and US Dollars, they are freely available and accrue interest at market rates.

Notes to the consolidated financial statements (continued)

- (d) The Group maintains restricted funds related to:

	2020 S/(000)	2019 S/(000)
Repurchase agreements with the BCRP (*)	542,922	1,208,506
Derivative financial instruments, Note 10(b)(i)	70,559	57,816
Others	4,203	4,615
<b>Total</b>	<u>617,684</u>	<u>1,270,937</u>

- (\*) As of December 31, 2020, correspond to deposits maintained in the BCRP which guarantee agreements amounting to S/520,000,000 (guaranteed agreements amounting to S/1,205,200,000 as of December 31, 2019); see Note 12(b).

Cash and cash equivalents presented in the consolidated statements of cash flows exclude the restricted funds and accrued interest; see Note 3.4(af).

- (e) Inter-bank funds

These are loans made between financial institutions with maturity, in general, minor than 30 days. As of December 31, 2020, Inter-bank funds assets accrue interest at an annual rate of 0.25 percent in foreign currency and Inter-bank funds liabilities accrue interest at an annual rate of 0.25 percent in foreign currency (annual rate of 2.26 percent in national currency for Inter-bank funds assets and annual rate of 2.25 percent in national currency and 1.75 percent in foreign currency for Inter-bank funds liabilities, as of December 31, 2019) and do not have specific guarantees.

**5. Financial investments**

(a) This caption is made up as follows, as of December 31, 2020 and 2019:

	2020 S/(000)	2019 S/(000)
Debt instruments measured at fair value through other comprehensive income (b) and (c)	17,902,352	14,010,029
Investments at amortized cost (d)	2,650,930	2,160,775
Investments at fair value through profit or loss (e)	2,042,777	1,551,537
Equity instruments measured at fair value through other comprehensive income (f)	1,373,548	1,125,722
<b>Total financial investments</b>	<b>23,969,607</b>	<b>18,848,063</b>
Accrued income		
Debt instruments measured at fair value through other comprehensive income (b)	251,140	178,444
Investments at amortized cost (d)	56,368	46,211
<b>Total</b>	<b>24,277,115</b>	<b>19,072,718</b>

In the determination of the expected loss in the financial investments' portfolio, the Group has not needed to apply any subsequent adjustment to the model through the expert judgment to reflect the impact of uncertainty of the Covid-19 pandemic, because the most significant investments held as of December 31, 2020 are permanently evaluated by local and international credit-rating agencies, in an individual manner. Said agencies modify the ratings of the issuers in accordance with the risk increase of each of the financial instruments, which they contemplate periodically based on the particular situation of issuers.

Notes to the consolidated financial statements (continued)

(b) Following is the detail of debt instruments measured at fair value through other comprehensive income:

	Amortized cost S/(000)	Unrealized gross amount		Estimated fair value S/(000)	Maturity	Annual effective interest rates

- (\*) As of December 31, 2020 and 2019, Inteligo holds corporate bonds and mutual funds from different entities for approximately S/393,364,000 and S/440,409,000, respectively, which guarantee loans with Credit Suisse First Boston and Bank J. Safra Sarasin; see Notes 12(d)
- (\*\*) As of December 31, 2020, Interbank holds Sovereign Bonds of the Republic of Peru for approximately S/320,713,000, which guarantee loans with the BCRP, see Note 12(b).
- (\*\*\*) As of December 2020, 2019 and 2018, the Group recognized net gains from the sale of financial investments for S/185,383,000, S/112,215,000 and S/14,240,000, respectively, due to the sale of sovereign bonds, corporate bonds and global bonds for S/1,387,643,000, S/1,497,451,000 and S/1,197,115,000, respectively, in each of these years.

Notes to the consolidated financial statements (continued)

The following table shows the credit quality and maximum exposure to credit risk based on the Group's internal credit rating of debt instruments measured at fair value through other comprehensive income as of December 31, 2020 and 2019. The amounts presented do not consider impairment.

	2020				2019			
	Stage 1 S/000	Stage 2 S/000	Stage 3 S/000	Total S/000	Stage 1 S/000	Stage 2 S/000	Stage 3 S/000	Total S/000
<b>Not impaired</b>								
High grade	7,051,739	—	—	7,051,739	6,482,810	—	—	6,482,810
Standard grade	10,638,473	31,939	—	10,670,412	7,194,044	333,175	—	7,527,219
Sub-standard grade (*)	—	180,201	—	180,201	—	—	—	—
<b>Impaired</b>								
Individual	—	—	—	—	—	—	—	—
<b>Total</b>	<u>17,690,212</u>	<u>212,140</u>	<u>—</u>	<u>17,902,352</u>	<u>13,676,854</u>	<u>333,175</u>	<u>—</u>	<u>14,010,029</u>

(\*) As of December 31, 2020, correspond to the investment in Rutas de Lima whose expected loss, amortized cost and unrealized loss amounted to S/61,059,000, S/295,720,000 and S/115,519,000, respectively.

(c) The Group, according to the business model applied to these debt instruments, has the capacity to hold these investments for a sufficient period that allows the early recovery of the fair value, up to the maximum period for the early recovery or the due date.

The following table shows the analysis of changes in fair value and the corresponding expected credit loss:

Gross carrying amount of debt instruments measured at fair value through other comprehensive income	2020			
	Stage 1 S/(000)	Stage 2 S/(000)	Stage 3 S/(000)	Total S/(000)
<b>Beginning of year balances</b>	13,676,854	333,175	—	14,010,029
New originated or purchased assets	6,361,898	7,956	—	6,369,854
Assets matured or derecognized (excluding write-offs)	(3,024,176)	—	(9,780)	(3,033,956)
Change in fair value	388,695	(129,146)	(15,318)	244,231
Transfers to Stage 1	—	—	—	—
Transfers to Stage 2	—	—	—	—
Transfers to Stage 3	(25,098)	—	25,098	—
Write-offs	—	—	—	—
Foreign exchange effect	312,039	155	—	312,194
<b>End of year balances</b>	<u>17,690,212</u>	<u>212,140</u>	<u>—</u>	<u>17,902,352</u>

Movement of the allowance for expected credit losses for debt instruments measured at fair value through other comprehensive income	2020			
	Stage 1 S/(000)	Stage 2 S/(000)	Stage 3 S/(000)	Total S/(000)
<b>Expected credit loss at the beginning of the period</b>	6,849	27,894	—	34,743
New originated or purchased assets	120	—	—	120

<b>End of year balances</b>	<u>13,676,854</u>	<u>333,175</u>	<u>—</u>	<u>14,010,029</u>

Movement of the allowance for expected credit losses for debt instruments measured at fair value through other comprehensive income	2019			
	Stage 1 S/(000)	Stage 2 S/(000)	Stage 3 S/(000)	Total S/(000)
<b>Expected credit loss at the beginning of the period</b>	6,446	21,604	—	28,050
New originated or purchased assets	1,588	—	—	1,588
Assets matured or derecognized (excluding write-offs)	(987)	(303)	—	(1,290)
Transfers to Stage 1	—	—	—	—
Transfers to Stage 2	(4)	4	—	—
Transfers to Stage 3	—	—	—	—
Effect on the expected credit loss due to the change of the stage during the year	—	—	—	—
Others (*)	(109)	6,601	—	6,492
Write-offs	—	—	—	—
Recoveries	—	—	—	—
Foreign exchange effect	(85)	(12)	—	(97)
<b>Expected credit loss at the end of the period</b>	<u>6,849</u>	<u>27,894</u>	<u>—</u>	<u>34,743</u>

(\*) It corresponds mainly to the effects on the expected loss as a result of changes in investment ratings and that not necessarily have resulted in stage transfers during the year.

In the determination of the expected loss for the portfolio of financial investments, it has not been necessary to perform a subsequent adjustment to the model because it captures the expected loss in a satisfactory manner considering the Group portfolio investments.

As a result of the assessment of the impairment of its debt instruments at fair value through other comprehensive income, the Group recorded an expense of S/32,904,000 and S/6,790,000 during 2020 and 2019, respectively, and a reversal of the impairment of S/13,077,000 during the year 2018, which are presented in the caption “(Loss) recovery to impairment of financial investments” in the consolidated statement of income. The movement of unrealized results of investments at fair value through other comprehensive income, net of Income Tax and non-controlling interest, is presented in Notes 16(d) and (e).

Notes to the consolidated financial statements (continued)

- (d) As of December 31, 2020 and 2019, investments at amortized cost corresponds to Sovereign Bonds of the Republic of Peru issued in Soles, for an amount of S/2,707,298,000 and S/2,206,986,000, respectively, including accrued interest. Said investments present low credit risk and the expected credit loss is not significant.

As of December 31, 2020, these investments have maturity dates that range from September 2023 to August 2037, have accrued interests at effective annual rates ranging from 4.29 percent and 5.15 percent, and estimated fair value amounting to approximately S/2,988,539,000 (as of December 31, 2019, their maturity dates ranged from September 2023 to August 2037, accrued interests at effective annual rates between 4.29 percent and 6.26 percent, and its estimated fair value amounted to approximately S/2,328,303,000).

During the year 2019, the Government of the Republic of Peru performed public offerings to buyback certain sovereign bonds, with the purpose of renewing its debt and funding the fiscal deficit. Considering the purpose of this offering, subsequently to it, there should not be existing remaining sovereign bonds of the repurchased issuances or, in case of existing, they would become illiquid on the market. In that sense, Interbank took part of these public offerings and sold to the Government of the Republic of Peru sovereign bonds classified as investments at amortized cost for approximately S/340,518,000, generating a gain amounting to S/8,474,000, which was recorded in the caption "Net gain from derecognition of financial investments at amortized cost" of the consolidated statement of income.

Notwithstanding the aforementioned, with the purpose of maintaining its asset management strategy, the Bank purchased simultaneously other sovereign bonds of the Republic of Peru for approximately S/340,432,000 and classified them as investments at amortized cost. In Management's opinion and pursuant to IFRS 9, said transaction is congruent with the Group's business model because although said sales were significant, they were infrequent and were performed with the sole purpose of facilitating the debt renewal and the funding of the fiscal deficit of the Republic of Peru, and thus the business model regarding these assets has always been the collection of the contractual cash flows.

As of December 31, 2020 and 2019, Interbank keeps loans with the BCRP that are guaranteed with these sovereign bonds, classified as restricted, for approximately S/1,071,740,000 and S/762,347,000, respectively; see Note 12(b).

Notes to the consolidated financial statements (continued)

- (e) The composition of financial instruments at fair value through profit or loss is as follows:

	2020 S/(000)	2019 S/(000)
<b>Equity instruments</b>		
Local and foreign mutual funds and investment funds participations	1,212,259	1,083,079
BioPharma Credit PLC (g)	131,623	132,054
Royalty Pharma (h)	107,530	117,682
Ishares (*)	90,647	72,835
Dhani Services Limited	53,557	—
LendUp and Mission Lane	48,670	23,375
ViaSat Inc.	43,626	26,683
Others	91,635	30,575
<b>Debt instruments</b>		
Indexed Certificates of Deposit issued by the BCRP	182,888	—
Corporate, leasing and subordinated bonds	80,342	65,254
<b>Total</b>	<u>2,042,777</u>	<u>1,551,537</u>

- (\*) Corresponds to shares of Ishares, whose investment purpose is aimed mainly to Japan, Russia, Latin America and emerging and developed Asian countries.

As of December 31, 2020 and 2019, investments at fair value through profit or loss include investments held for trading for approximately S/357,325,000 and S/194,535,000, respectively; and those assets that are necessarily measured at fair value through profit or loss for approximately S/1,685,452,000 and S/1,357,002,000, respectively.

As of December 31, 2020, 2019 and 2018, the Group recognized gains from valuation of instruments at fair value through profit or loss for approximately S/205,090,000, S/41,027,000 and S/25,103,000, respectively, which are part of caption “Net gain from financial assets at fair value through profit or loss” of the consolidated statement of income.

Notes to the consolidated financial statements (continued)

- (f) The following is the composition of equity instruments measured at fair value through other comprehensive income as of December 31, 2020 and 2019:

	2020 S/(000)	2019 S/(000)
BioPharma Credit PLC (g)	358,848	336,338

	<u>43,081,904</u>	<u>38,257,144</u>
<b>Plus (minus)</b>		
Accrued interest from performing loans	445,122	316,171
Unearned interest and interest collected in advance	(22,752)	(41,683)
Impairment allowance for loans (d)	(2,984,851)	(1,394,779)
<b>Total direct loans, net</b>	<u>40,519,423</u>	<u>37,136,853</u>
<b>Indirect loans, Note 18(a)</b>	<u>4,611,931</u>	<u>4,101,977</u>

(\*) As of December 31, 2020, Interbank maintains operations of loan reports represented in securities according to the BCRP's definition. In consequence, loans provided as guarantee is presented in the caption "Loan, net", and the related liability is presented in the caption "Accounts payable for repurchase agreements" of the consolidated statement of financial position.

Notes to the consolidated financial statements (continued)

(b) The classification of the direct loan portfolio is as follows:

	2020 S/(000)	2019 S/(000)
Commercial loans (c.1)	22,001,567	17,479,006
Consumer loans (c.1)	11,416,175	12,821,567
Mortgage loans (c.1)	7,721,267	7,206,445
Small and micro-business loans (c.1)	1,942,895	750,126
<b>Total</b>	<b>43,081,904</b>	<b>38,257,144</b>

During the year 2020, the balance of the direct loans includes disbursements made by Interbank within the “Reactiva Peru” program for approximately S/6,617 million, out of which S/5,159 million were granted to clients of its commercial loans and S/1,458 million to clients of its small and micro-business loans, see Notes 1(b.2) and 30.1. As of December 31, 2020, the balance of loans under said program amounts to S/6,616 million.

During 2019, Interbank acquired a commercial loan from Sumitomo Mitsui Banking Corporation for an amount of S/164,950,000.

For purposes of estimating the impairment loss in accordance with IFRS 9, the Group’s loans is segmented into homogeneous groups that share similar risk characteristics; the Group determined these 3 types of portfolios: Retail Banking (consumer and mortgage loans), Commercial Banking (commercial loans) and Small Business Banking (loans to small and micro-business).

Notes to the consolidated financial statements (continued)

- (c) The following table shows the credit quality and maximum exposure to credit risk based on the Group's internal credit rating as of December 31, 2020 and 2019. The amounts presented do not consider impairment.

- (\*) Corresponds mainly to: (i) the variation between the amortized cost of the loan at the beginning of the year and its amortized cost at the end of the year (partial amortizations that did not represent a reduction or derecognized of the loan), and (ii) the execution of contingent loans (conversion of indirect debt into direct debt).
- (\*\*) Corresponds mainly to: (i) the variation between the amortized cost of the loan at the beginning of the year and its amortized cost at the end of the year (variation in the provision recorded for partial amortizations that did not represent a reduction or derecognized of the loan), (ii) variations in credit risk that did not generate transfers to other stages; and (iii) the execution of contingent loans (conversion of indirect debt into direct debt).
- (\*\*\*) With the purpose of reflecting the impact of the uncertainty due to the Covid-19 pandemic, see Note 1(b), the Group decided to apply the expert judgment to perform migrations of clients with higher risk from Stage 1 to Stage 2 and Stage 3, and from Stage 2 to Stage 3. These migrations into higher risk Stages led to incurrence of higher provisions for expected loss during 2020 compared to the year 2019; see Note 30.1(d.4).

Notes to the consolidated financial statements (continued)

(d.1.1) The following tables show the movement of the allowance for expected credit losses for each classification of the direct loan portfolio:

Commercial loans	2020				2019

(\*) Corresponds mainly to: (i) the variation between the amortized cost of the loan at the beginning of the year and its amortized cost at the end of the year (partial amortizations that did not represent a reduction or derecognized of the loan), and (ii) the execution of contingent loans (conversion of indirect debt into direct debt).

(\*\*) Corresponds mainly to: (i) the variation between the amortized cost of the loan at the beginning of the year and its amortized cost at the end of the year (variation in the provision recorded for partial amortizations that did not represent a reduction or derecognized of the loan), (ii) variations in credit risk that did not generate transfers to other stages; and (iii) the execution of contingent loans (conversion of indirect debt into direct debt).

(\*\*\*) With the purpose of reflecting the impact of the uncertainty due to Covid-19 pandemic, see Note 1(b), the Group decided to apply the expert judgment to perform migrations of clients with higher risk from Stage 1 to Stage 2 and Stage 3, and from Stage 2 to Stage 3. These migrations to higher risk stages led to incurrence of higher provisions for expected losses during the year 2020 compared to the year 2019; see Note 30.1(d.4).

Notes to the consolidated financial statements (continued)

- (e) In Management's opinion, the allowance for loan losses recorded as of December 31, 2020 and 2019, has been established in accordance with IFRS 9; and it is sufficient to cover incurred losses on the loan portfolio.
- (f) Interest generated by loans are agreed upon freely considering prevailing market interest rates. It should be noted that as of December 31, 2020, the Congress of the Republic of Peru, approved a law that allows BCRP be the entity in charge to determine the maximum and minimum interest rates that can be charged in the Peruvian financial system. However, as of the date of this report, the BCRP has not yet applied the changes to the General Act of the Banking and Insurance System and Organic Act of the SBS, in order to incorporate the change approved by the Peruvian Congress, nor has established maximum and minimum interest rates.
- (g) Interest income from loans classified in Stage 3 is calculated through the effective interest rate adjusted for credit quality at amortized cost.
- (h) The refinanced loans during the 2020 period amounted to approximately S/188,311,000 (S/178,695,000, as of December 31, 2019) which had no significant impact on the consolidated statement of income.

During 2020, the Group has modified the contractual conditions of a determined number of loans as relief for its clients' liquidity as consequence of the Covid-19 pandemic, for a total of approximately S/12,663,960,000. Said loans are not considered as refinanced loans. As of December 31, 2020, the balances of the rescheduled loans amount to approximately S/10,489,296,000; see further detail in Note 30 (d.5).

- (i) The table below presents the maturity of direct loan portfolio without including accrued interest, interest to be accrued and interest collected in advance as of December 31, 2020 and 2019:

	2020 S/(000)	2019 S/(000)
<b>Outstanding</b>		
Up to 1 month	3,107,011	3,918,788
From 1 to 3 months	4,197,570	4,791,404
From 3 months to 1 year	9,619,503	8,409,336
From 1 to 5 years	19,720,158	15,189,733
Over 5 years	5,032,477	5,004,715
	<u>41,676,719</u>	<u>37,313,976</u>
<b>Past due and under legal collection loans, see (i.1) -</b>

<b>Mortgage loans</b>		
Up to 4 months	42,906	39,409
Over 4 months	124,480	92,899
Under legal collection	146,697	123,463
	<u>314,083</u>	<u>255,771</u>
<b>Small and micro-business loans</b>		
Up to 4 months	36,855	13,750
Over 4 months	9,047	19,938
Under legal collection	39,904	22,306
	<u>85,806</u>	<u>55,994</u>

See credit risk analysis in Note 30.1

- (j) Part of the loan portfolio is collateralized with guarantees received from clients, which mainly consist of mortgages, trust assignments, financial instruments as well as industrial commercial pledges.

Notes to the consolidated financial statements (continued)

(k) The following tables present the maturities of direct and indirect loans of Stages 2 and 3 as of December 31, 2020 and 2019, as follows:

- Stage 2: Loans with maturity longer or shorter than 30 days, regardless the criteria that caused their classification into Stage 2.
- Stage 3: Loans with maturity longer or shorter than 90 days, regardless the criteria that caused their classification into Stage 3.

The Group decided to apply the expert judgment to perform migrations of clients with higher risk from Stage 1 to Stage 2 and Stage 3, and from Stage 2 to Stage 3 to capture the uncertainty and risks due to the pandemic situation. These migrations to higher risk Stages led to incurrence of higher provisions for expected losses during the year 2020 compared to the year 2019; see Note 30.1(d.4).

## 7. Investment property

<b>Total</b>	<u>1,043,978</u>	<u>972,096</u>			

DCF: Discounted cash flow

- (i) During 2020 and 2019, there were no transfers between levels of hierarchy, see Note 3.4(y)
- (ii) As of December 31, 2020 and 2019, there are no liens on investment property.

Notes to the consolidated financial statements (continued)

- (b) The net gain on investment properties as of December 31, 2020, 2019 and 2018, consists of the following:

	2020 S/(000)	2019 S/(000)	2018 S/(000)
Income from rental of investment property	39,491	48,839	32,878
Gain on valuation of investment property	5,438	54,493	47,765
(Loss) gain on sale of investment property (e)	—	(7,164)	4,655
<b>Total</b>	<u>44,929</u>	<u>96,168</u>	<u>85,298</u>

- (c) The movement of investment property for the years ended December 31, 2020, 2019 and 2018, is as follows:

	2020 S/(000)	2019 S/(000)	2018 S/(000)
<b>Beginning of year balances</b>	972,096	986,538	1,118,608
Additions (d)	61,243	60,865	55,795
Sales (e)	—	(129,800)	(226,091)
Valuation gain	5,438	54,493	47,765
Net transfers, Note 3.4(n)	5,201	—	(9,539)
<b>End of year balances</b>	<u>1,043,978</u>	<u>972,096</u>	<u>986,538</u>

- (d) During 2020, it mainly corresponds to outlays related to the purchase of the “Piura” building, which was purchased from a related entity and in cash.  
During 2019, main additions are outlays related to the construction of the “Chimbote” and “Chorrillos” educational centers.  
During 2018, main additions are outlays related to the construction of the buildings “Orquídeas” (San Isidro) and “Chorrillos” (both located in Lima).
- (e) During 2019, Interseguro sold to related entities, in cash and at market value, two land lots located in Miraflores and Huaral. Likewise, Interseguro sold to third parties, in cash and at market value, an educational center and offices located in San Juan de Lurigancho and San Isidro. For these sales, Interseguro reported a net loss of about S/7,164,000.  
In January 2018, Interseguro sold, in cash and at market value, the Real Plaza Pucallpa shopping center, a parcel located in Lurín and a building through a surface rights agreement to related entities. Likewise, in October 2018, Interseguro sold, in cash and at market value, a parcel located in Arequipa to a related entity. For these sales, Interseguro recorded net profits amounting to S/4,655,000.
- (f) Fair value measurement – Investment property and investment property under construction  
Valuation techniques -  
The discounted cash flow (“DCF”) method is used for completed shopping malls, buildings and investment property built on land leases and own lands.

Notes to the consolidated financial statements (continued)

This method involves the projection of a series of periodic cash flows at present value through a discount rate. The periodic calculation of the cash flows is normally determined as rental income net of operating expenses. The series of periodic net operating income, together with an estimation of the terminal value (which uses the traditional valuation method) at the end of the projection period, is discounted at present value. The sum of the net current values is equal to the investment property's fair value.

The fair value of land is determined based on the value assigned by an external appraiser. The external appraiser uses the market comparable method, under this method a property's fair value is estimated based on comparable transactions. The unit of comparison applied by the Group is the price per square meter. Following are the minimum ranges, maximum ranges and the average price for the land, before any adjustment:

	Minimum range US\$ per m2	Maximum range US\$ per m2	Average US\$ per m2
San Isidro – Lima	2,799	8,000	5,855
San Martin de Porres – Lima	1,332	1,611	1,540
Piura	1,000	1,200	1,100
Ate Vitarte - Lima	800	2,057	899
Others	230	313	257

Main assumptions

Below is a brief description of the assumptions considered in the determination of cash flows as of December 31, 2020 and 2019:

- **ERV (Estimated Rental Value) -**  
Corresponds to the Estimated Rental Value, that is, the rent for which the space could be rented under the market conditions prevailing on the valuation date.
- **Long-term inflation -**  
It is the increase of the general level of prices expected in Peru for the long term.
- **Long-term occupancy rate -**  
It is the expected occupancy level of lessees in the leased properties.
- **Average growth rate of rental income -**  
It is the rate that expresses the rental income growth and includes growth factors of the industry, inflation rates, stable exchange rate, per capita income and increasing expenses.
- **Average Net Operating Income (NOI) margin -**  
It is projected from the rental income from leasable areas, by property and marketing income, minus costs related to administration fees, other administrative expenses, insurance, taxes and other expenses.
- **Discount rate -**  
It reflects the current market risk and the uncertainty associated to obtaining cash flows.

Notes to the consolidated financial statements (continued)

The main assumptions used in the valuation and estimation of the market value of investment property are detailed below:

	US\$ / Percentage	
	2020	2019
Average ERV	US\$82.3	US\$88.7
Long-term inflation	2.2%	2.6%
Long-term occupancy rate	98.7%	99.3%
Average growth rate of rental income	2.4%	2.6%
Average NOI margin	92.0%	93.8%
Discount rate	8.7%	8.7%

Sensitivity analysis -

The sensitivity analysis on the valuation of investment property, against changes in factors deemed relevant by Management, is presented below:

		2020 S/(000)	2019 S/(000)
Average growth rate of rental income (basis) -			
Increase	+0.25%	15,735	16,045
Decrease	-0.25%	(15,154)	(15,306)
Long-term inflation (basis) -			
Increase	+0.25%	18,529	15,132
Decrease	-0.25%	(17,125)	(13,906)
Discount rate (basis) -			
Increase	+0.5%	(44,597)	(43,733)
Decrease	-0.5%	52,029	51,703

Likewise, a significant increase (decrease) in the price per square meter of the land lots could result in a significantly higher (lower) fair value measurement.

- (g) Below are the nominal amounts of the future minimum fixed rental income of the Group's investment property (operating leases):

Year	2020 S/(000)	2019 S/(000)
Within 1 year	38,264	40,920
After 1 year but not more than 5 years	175,967	149,263
Over 5 years	840,000	689,715
<b>Total</b>	<u>1,054,231</u>	<u>879,898</u>

The minimum rental income is computed considering a period between 20 and 25 years.

Notes to the consolidated financial statements (continued)

## 8. Property, furniture and equipment, net

- (a) The movement of property, furniture and equipment and depreciation for the years ended December 31, 2020, 2019 and 2018, is as follows:

Description	Right-of-use assets													
	Buildings, facilities and leasehold improvements			Furniture and equipment		In-transit equipment and work-in-progress		Buildings and facilities		Furniture and equipment		Total 2020	Total 2019	Total 2018

- (b) Financial entities in Peru are prohibited from pledging their fixed assets.

- (c) Management periodically reviews the residual values, useful life and the depreciation method to ensure they are consistent with the economic benefits and life expectation of property, furniture and equipment. In Management's opinion, there is no evidence of impairment in property, furniture and equipment as of December 31, 2020, 2019 and 2018.

- (d) During the years 2020 and 2019, correspond mainly to assets fully depreciated and written-off, except for right-of-use assets. Right-of-use write-offs are related to the early termination of lease agreements due to the closing of offices and lower number of ATMs (which were located inside facilities whose operations were interrupted by the Covid-19 pandemic, see Note 1(b)). In that sense, the Group has derecognized the cost for right-of-use and the cumulative depreciation of the assets related to early terminated agreements; in the same way, the Group has derecognized the future installments of said obligations, which were recorded as financial lease liabilities; see (e) below. The early termination of these agreements has not had impacts on the Group's results.

Notes to the consolidated financial statements (continued)

- (e) The following table shows the book values of lease liabilities (included in the caption “Other accounts payable, provisions and other liabilities”); see Note 10(a) and the movement of the year:

	2020 S/(000)	2019 S/(000)
<b>As of January 1, 2019 – effect of IFRS 16 adoption</b>	341,836	341,746
Additions	19,935	66,960
Interest expenses, Note 19(a)	15,288	16,568
Disposals (*)	(37,766)	—
Exchange differences	5,070	—
Payments	(74,608)	(83,438)
<b>As of December 31</b>	<b>269,755</b>	<b>341,836</b>

(\*) These disposals are related to the early termination of lease agreements; see (d) above.

As of December 31, 2020 and 2019, the amortization schedule of these obligations is as follows:

	2020 S/(000)	2019 S/(000)
2020	—	60,812
2021	50,771	55,212
2022 onwards	218,984	225,812
<b>Total</b>	<b>269,755</b>	<b>341,836</b>

Notes to the consolidated financial statements (continued)

The following table shows the amounts recognized in the consolidated statement of income:

	<b>2020</b> S/(000)	<b>2019</b> S/(000)
Depreciation expenses of right-of-use assets	65,815	73,740
Interest expenses of lease liabilities, Note 19(a)	15,288	16,568
Expenses related to short term and low value assets leases (included in administrative expenses, see Note 25 (c))	6,781	5,072
<b>Total amount recognized in the consolidated statement of income</b>	<b><u>87,884</u></b>	<b><u>95,380</u></b>

During the year 2020, the Group had cash outflows for leases for approximately S/89,162,000, out of which S/74,608,000 correspond to financial lease installments recorded according to IFRS 16 “Leases”, see letter (e) above, and S/14,554,000 correspond to financial lease installments recorded according to IAS 17 “Leases” (as of December 31, 2019, cash outflows for S/117,643,000, related to leases according to IFRS 16 for S/83,438,000 and financial leases according to IAS 17 for S/34,025,000).

Notes to the consolidated financial statements (continued)

## 9. Intangible assets and goodwill, net

### (a) Intangible assets

The movement of intangible assets and amortization for the years ended December 31, 2020, 2019 and 2018, is as follows:

Description	Software S/(000)	In-transit-software S/(000)	2020		2019		2018	
			Present value of acquired in-force business (PVIF) S/(000)	Other intangible assets S/(000)	Goodwill (b) S/(000)	Total S/(000)	Total S/(000)	Total S/(000)
<b>Cost</b>								
<b>Balance as of January 1</b>	821,097	131,704	137,900	32,602	430,646	1,553,949	1,414,612	1,288,206
Additions and transfers	77,429	69,740	—	48,887	—	196,056	142,539	127,928
Disposals and write-offs	(281)	(1,499)	—	(3)	—	(1,783)	(3,202)	(1,522)
<b>Balance as of December 31</b>	<u>898,245</u>	<u>199,945</u>	<u>137,900</u>	<u>81,486</u>	<u>430,646</u>	<u>1,748,222</u>	<u>1,553,949</u>	<u>1,414,612</u>
<b>Amortization</b>								
<b>Balance as of January 1</b>	(529,045)	—	(29,878)	(15,764)	—	(574,687)	(460,066)	(366,612)
Amortization of the year	(110,426)	—	(13,790)	(6,983)	—	(131,199)	(114,964)	(93,454)
Disposals and write-offs	249	—	—	—	—	249	343	—
<b>Balance as of December 31</b>	<u>(639,222)</u>	<u>—</u>	<u>(43,668)</u>	<u>(22,747)</u>	<u>—</u>	<u>(705,637)</u>	<u>(574,687)</u>	<u>(460,066)</u>
<b>Net book value</b>	<u>259,023</u>	<u>199,945</u>	<u>94,232</u>	<u>58,739</u>	<u>430,646</u>	<u>1,042,585</u>	<u>979,262</u>	<u>954,546</u>

Management assesses periodically the amortization method used with the purpose of ensuring that it is consistent with the economic benefit of the intangible assets. In Management's opinion, there is no evidence of impairment in the Group's intangible assets as of December 31, 2020, 2019 and 2018.

(b) Goodwill

In 2017, IFS acquired 99.39 percent of Seguros Sura's capital stock and 99.42 percent of Hipotecaria Sura's capital stock. In March 2018, Interseguro merged with Seguro Sura, using the method of absorption, originating the transfer of all the assets and liabilities of Seguros Sura to the absorbing company and extinguishing without having to liquidate.

The goodwill resulting from the purchase of Seguros Sura and Hipotecaria Sura represents the future synergies that are expected to arise from the combination of operations, distribution channels, workforce and other efficiencies not included in the intangible assets of the present value of acquired in-force business.

The goodwill recorded by the Group has been allocated to the CGU (cash generated unit) comprised of the merged entity.

The recoverable amount for the CGU was determined based on the income approach, specifically the dividend discount model.

As of December 31, 2020 and 2019, the key assumptions used for the calculation of fair value are:

- Perpetuity growth rate: 4.5%.
- Discount rate: 12.5% (2020) and 12.0% (2019)

10-year cash flows and a perpetuity estimates were included in the dividend discount model. The estimated growth rates are based on the historical performance and the expectations of Management over the development of the market. Long-term perpetuity growth rate was determined based on reports from the sector.

The discount rate represents the assessment of the CGU specific risks. The discount rate was established considering the Company's capital structure, the cost of capital coming from the benefits that the Group's investors expect to obtain, from the specific risk incorporated by applying comparable individual beta factors adapted to the CGU's debt structure and from the country and market specific risk premiums for the CGU. Beta factors are assessed on an annual basis using available market information.

The key assumptions described above can change if the market conditions and the economy change. As of December 31, 2020 and 2019, the Group estimates that the reasonableness of possible changes in these assumptions would not make the recoverable amount of the CGU decrease to an amount lower than its book value.

As detailed in Note 2(g), as of December 31, 2019, Hipotecaria Sura has been extinguished; due to this, the decrease in its corresponding goodwill was recorded for an amount of S/2,233,000 in "Other expenses" of the consolidated statement of income; see Note 21.

**10. Other accounts receivable and other assets, net, and other accounts payable, provisions and other liabilities**

(a) These captions are comprised of the following:

	2020 S/(000)	2019 S/(000)
<b>Other accounts receivable and other assets</b>		
<b>Financial instruments</b>		
Accounts receivable related to derivative financial instruments (b)	395,249	220,776

		<u>12,827</u>	<u>14,881</u>	<u>2,256,834</u>	<u>(50,669)</u>			
		<u>220,776</u>	<u>222,305</u>	<u>17,730,023</u>	<u>(50,669)</u>			

- (\*) As of December 31, 2020, 2019 and 2018, the Group recognized losses for S/39,207,000, gains for S/62,183,000 and losses for S/13,124,000, respectively, for valuation of derivative financial instruments held for trading, which were recorded in the caption “Net gain from financial assets at fair value through profit or loss” in the consolidated statement of income.
- (\*\*) As of December 31, 2020, it corresponded to derivative financial instruments whose hedge items were cancelled in 2020.
- (i) As of December 31, 2020 and 2019, certain derivative financial instruments required the establishment of collateral deposits; see Note 4 (d).
- (ii) For the designated hedging derivatives mentioned in the table above, changes in fair values of hedging instruments completely offset the changes in fair values of hedged items; therefore, there has been no hedge ineffectiveness in 2020 and 2019. During the year 2019, two hedges were discontinued for a total nominal value of US\$20,000,000 because of the early redemption of the senior bonds denominated “5.750% Senior Notes due 2020”; see Nota 13(f). During 2020, there were no discontinued hedges accounting.
- (iii) Derivatives held for trading are traded mainly to satisfy clients’ needs. The Group may also take positions with the expectation of profiting from favorable movements in prices or rates. Also, this caption includes any derivatives which do not comply with IFRS 9 hedging accounting requirements.
- (iv) The future effect of current cash flow hedges on the consolidated statement of income, net of the deferred Income Tax, which will be included in the caption “Net gain of financial assets at fair value through profit or loss” when realized, is presented below:

	As of December 31, 2020				As of December 31, 2019			
	Up to 1 year S/(000)	From 1 to 3 years S/(000)	Over 5 years S/(000)	Expected effect S/(000)	Up to 1 year S/(000)	From 1 to 3 years S/(000)	Over 3 years S/(000)	Expected effect S/(000)
Consolidated statement of income – Income (expense)	<u>(1,123)</u>	<u>(15,653)</u>	<u>(20,332)</u>	<u>(37,108)</u>	<u>(2,891)</u>	<u>(492)</u>	<u>(19,375)</u>	<u>(22,758)</u>

The transfer of net unrealized losses on cash flow hedges to the consolidated statement of income is presented in Note 16(d) and (e).

Notes to the consolidated financial statements (continued)

- (v) The gain (loss) for cash flow hedges reclassified to the consolidated statement of income for the year ended as of December 31, 2020 and 2019, is as follows:

	2020 S/(000)	2019 S/(000)
Interest expenses from cash flow hedges	(80,954)	(85,431)
Interest income from cash flow hedges	56,208	61,338
Expenses for exchange differences from cash flow hedges	(53,058)	(167,780)
Income for exchange differences from cash flow hedges	234,195	137,508
	<u>156,391</u>	<u>(54,365)</u>

These amounts offset the effects of interest rate risk and exchange rate risk of the hedged item.

The following table shows hedging instruments that the Group uses in its cash flow hedges due to maturities:

December 31, 2020	3 to 12 months	1 to 5 years	Over 5 years	Total
<b>Cross currency swaps (CCS)</b>

6-month Libor	315,045	9.4	314,073	10.3
	<u>1,745,665</u>		<u>1,900,521</u>	
<b>Cross currency swaps</b>				
6-month Libor	289,680	2.6	199,840	3.7
<b>Total</b>	<u>2,035,345</u>		<u>2,100,361</u>	
<b>Position sold (Libor is received)</b>				
<b>Interest rate swaps</b>				
3-month Libor	1,628,689	7.1	1,497,632	8.5
6-month Libor	593,862	3.2	297,503	5.9
	<u>2,222,551</u>		<u>1,795,135</u>	
<b>Cross currency swaps</b>				
6-month Libor	586,602	2.5	231,980	3.6
<b>Total</b>	<u>2,809,153</u>		<u>2,027,115</u>	

As of December 31, 2020, the Group does not present derivative financial instruments classified as hedge accounting that are subject to the interest rate benchmark reform; see Note 3.4(ag).

- (c) As of December 31, 2020 and 2019, corresponds to accounts receivable and payable for the sale and purchase of financial investments negotiated during the last days of the month, which were settled during the first days of the following month. As of said dates, the balance corresponds mainly to the purchase and sale of Sovereign Bonds issued by the Peruvian Government.
- (d) Operations in process include transactions made during the last days of the month and other types of similar transactions that are reclassified to their corresponding accounting accounts in the following month. These transactions do not affect the consolidated statement of income.

# 11. Deposits and obligations

- (a) This caption is made up as follows:

	2020 S/(000)	2019 S/(000)
Saving deposits	17,852,282	11,384,876
Demand deposits	13,832,262	11,716,035
Time deposits (e)	13,534,993	13,053,033
Compensation for service time (c)	1,923,698	1,933,052
Other obligations	6,040	6,228
<b>Total</b>	<b>47,149,275</b>	<b>38,093,224</b>

- (b) Interest rates applied to deposits and obligations are determined based on the market interest rates.
- (c) On March 27, 2020, the Peruvian government issued the Emergency Decree No. 033-2020, according to which, clients could withdraw up to S/2,400 of their compensation for service time accounts. As of December 31, 2020, approximately 56,000 clients have withdrawn an amount of S/85,493,000.
- (d) As of December 31, 2020 and 2019, approximately S/14,020,602,000 and S/10,725,904,000, respectively, of deposits and obligations are covered by the Peruvian Deposit Insurance Fund.
- (e) The table below presents the balance of time deposits classified by maturity as of December 31, 2020 and 2019:

	2020 S/(000)	2019 S/(000)
Up to 1 month	6,983,091	4,698,615
From 1 to 3 months	2,208,207	2,171,194
From 3 months to 1 year	3,531,496	5,235,906
From 1 to 5 years	539,586	812,719
Over 5 years	272,613	134,599
<b>Total</b>	<b>13,534,993</b>	<b>13,053,033</b>

## 12. Due to banks and correspondents

- (a) This caption is comprised of the following:

	2020 S/(000)	2019 S/(000)
<b>By type -</b>		
Banco Central de Reserva del Perú- BCRP (b)	7,736,322	1,897,568
Promotional credit lines (c)	1,453,397	1,422,067
Loans received from foreign entities (d)	427,278	613,090
Loans received from Peruvian entities	1,117	2,049
	<u>9,618,114</u>	<u>3,934,774</u>
Interest and commissions payable	<u>42,763</u>	<u>44,863</u>
	<u>9,660,877</u>	<u>3,979,637</u>
<b>By term -</b>		
Short term	1,769,403	2,666,530
Long term	7,891,474	1,313,107
<b>Total</b>	<u>9,660,877</u>	<u>3,979,637</u>

- (b) As part of the exceptional measures implemented to mitigate the financial and economic impact generated by the Covid-19 pandemic, see Note 1(b), the BCRP issued a series of regulations related to the loans repurchase agreements. In this sense, during 2020, Interbank took part in the public auction of funds of the BCRP within the framework “Reactiva Peru” program, Note 1(b).

As of December 31, 2020, it includes operations of loan reports represented by securities according to which Interbank receives a debt in local currency for approximately S/5,887,938,000, and gives as guarantee, commercial and micro and small business loans; see Note 6(a). As of December 31, 2020, these obligations have maturities between May 2023 and December 2023, and accrue interest at effective rates between 0.50 percent and 0.51 percent. These operations accrued interest payable for approximately S/14,602,000.

Likewise, as of December 31, 2020 and 2019, corresponds to currency repurchase operations according to which Interbank receives Soles for approximately S/520,000,000 and S/1,205,200,000, respectively, and delivers US Dollars to the BCRP (for an amount equivalent to the one received). The US Dollars delivered are recorded as restricted funds; see Note 4(d). As of December 31, 2020, these obligations have maturities between March 2021 and March 2022 and bear an effective interest rate between 2.74 and 3.46 percent; these operations generated interest payable for approximately S/12,656,000 (with maturities between March and July 2020, and bear and effective interest rate between 1.19 and 1.75 percent; these operations generated interest payable for approximately S/12,719,000, as of December 31, 2019).

Additionally, as of December 31, 2020, it includes repurchase agreements whereby Interbank receives Soles for approximately S/1,328,384,000 and delivers securities of its investment portfolio as guarantees. In relation to said operations, Interbank delivered Peruvian Sovereign Bonds as guarantee, which are recorded as investments at fair value through other comprehensive income and investments at amortized cost; see Note 5(b) and (d), respectively. These operations have a maturity between March 2021 and July 2024 and bear interest at effective interest rates between 0.50 percent and 2.92 percent. These operations bear interest payable for approximately S/12,197,000 (as of December 31, 2019, Interbank received Soles for approximately S/692,368,000, and gave as guarantee Peruvian Sovereign Bonds,

Notes to the consolidated financial statements (continued)

which are recorded as investments at amortized cost, see Note 5(d), with maturities between April and July 2020, and bear interest at effective interest rates between 3.03 percent and 4.72 percent, and bear interest payable for approximately S/26,731,000).

- (c) Promotional credit lines are loans in Soles and US Dollars from the Corporación Financiera de Desarrollo (“COFIDE”) and Fondo Mivivienda (“FMV”) whose purpose is to promote development in Peru. These liabilities are guaranteed by a loan portfolio up to the amount of the line and include specific agreements on the use of funds, the financial conditions to be met and other management issues. In Management’s opinion, Interbank is meeting these requirements.

As of December 31, 2020, COFIDE’s loans accrued, in local currency, an effective annual interest rate that fluctuated between 7.55 percent and 7.67 percent, and maturities between January 2027 and in foreign currency fluctuated between 5.99 and 8.39 percent, and maturities between October 2029 and October 2034 (as of December 31, 2019, they accrued, in local currency, an effective annual interest rate that fluctuated between 7.55 percent and 10.00 percent, and maturities between January 2027 and November 2031, and in foreign currency fluctuated between 6.70 percent and 8.56 percent, and maturities between April 2028 and October 2034).

As of December 31, 2020, FMV’s loans accrued, in local currency, an effective annual interest rate that fluctuated between 5.00 percent and 8.30 percent, and maturities between January 2021 and December 2045 and in foreign currency, 7.75 percent, and maturities between January 2021 and November 2028 (as of December 31, 2019, they accrued, in local currency, an effective annual interest rate between 5.00 and 8.30 percent, and maturities between January 2020 and December 2039, and in foreign currency, 7.75 percent and maturities between January 2020 and November 2028).

- (d) As of December 31, 2020 and 2019, corresponds to the following funding in foreign currency:

Entity	Country	Final maturity	2020 S/(000)	2019 S/(000)
Credit Suisse First Boston (e)	Switzerland	2021/2020	217,260	238,608
Development Bank of Latin America (f)	Supranational	2022	126,735	—
Bank J. Safra Sarasin (g)	Switzerland	2021/2020	83,283	76,222
Development Bank of Latin America (h)	Supranational	2020	—	132,560
Wells Fargo Bank & Co. (i)	United States of America	2020	—	82,850
Citibank N.A. (j)	United States of America	2020	—	82,850
			<u>427,278</u>	<u>613,090</u>

As of December 31, 2020, the operations with foreign entities accrue interests at effective annual rates between 0.69 and 2.87 percent (effective annual rates between 2.29 percent to 3.68 percent during 2019).

- (e) As of December 31, 2020, it corresponds to a loan received by Inteligo Bank in December 2020 for US\$60,000,000, which accrues interest at an effective annual rate of 0.69 percent, guaranteed by corporate bonds. As of December 31, 2019, corresponded to a loan received by Inteligo Bank in December 2019 for US\$72,000,000, which accrued interest at an effective annual rate of 2.29 percent and it was guaranteed by corporate bonds. See Note 5(b).
- (f) As of December 31, 2020, it corresponds to a loan received in March 2020 for US\$35,000,000, which accrues interest at a 6-month Libor rate plus 1.40 percent.

Notes to the consolidated financial statements (continued)

- (g) As of December 31, 2020, it corresponds to a loan received by Inteligo Bank in December 2020 for US\$23,000,000, which accrues interest at an effective annual rate of 0.85 percent, which is guaranteed by corporate bonds. As of December 31, 2019, it corresponded to a loan received by Inteligo Bank in December 2019 for US\$23,000,000, which accrued interest at an effective annual rate of 2.44 percent and it was guaranteed by corporate bonds. See Note 5(b).
- (h) As of December 31, 2019, it corresponded to a loan received by Interbank in October 2018 for US\$40,000,000, which accrued interest at a 6-month Libor rate plus 0.85 percent. Regarding this loan, in November 2018, Interbank signed an interest rate swap for US\$40,000,000, which was designated as cash flow hedge, see Note 10(b); through this operation, the loan was economically converted at a fixed rate of 4.00 percent.
- (i) It corresponded to a loan received by Interbank in November 2018 for US\$25,000,000, which accrued interest at a 3-month Libor rate plus 0.90 percent and expired in December 2020. Regarding this loan, in December 2018, Interbank signed an interest rate swap, which was designated as cash flow hedge, see Note 10(b); through this operation, the loan was converted economically at a fixed rate of 3.93 percent.
- (j) It corresponded to a loan received by Interbank in November 2018 for US\$25,000,000, which accrued interest at a 3-month Libor rate plus 0.90 percent and expired in December 2020. Regarding this loan, in December 2018, Interbank signed an interest rate swap, which was designated as cash flow hedge, see Note 10(b); through this operation, this loan was converted economically at a fixed rate of 3.93 percent.
- (k) Some of the loan agreements received include standard clauses regarding the compliance of financial ratios, disposal of assets and transactions among companies under certain conditions, the use of funds and other management matters.

As of December 31, 2019, the Group mainly maintained the following obligations:

- (i) Periodic presentation of annually audited financial statements and quarterly unaudited financial statements (both in Spanish and English).
- (ii) Maintain a minimum global capital ratio.
- (iii) Maintain a minimum coverage margin of non-performing loan portfolio.
- (iv) Maintain a maximum past due loans rate.

In the opinion of Group Management and its legal advisers, all covenants have been met by the Group regarding its due to banks and correspondents as of December 31, 2019.

As of December 31, 2020, the Group is not subject to any clause requiring compliance with financial ratios because the obligations with foreign entities matured during the year 2020.

- (l) As of December 31, 2020 and 2019, maturities are the following:

Year	2020 S/(000)	2019 S/(000)
2020	—	2,666,530
2021	1,769,403	108,772
2022	616,029	106,077
2023 onwards	7,275,445	1,098,258
<b>Total</b>	<b>9,660,877</b>	<b>3,979,637</b>

Notes to the consolidated financial statements (continued)

(\*) The Spanish term “Valor de actualización constante” is referred to amounts in Soles indexed by inflation.

Notes to the consolidated financial statements (continued)

- (b) Subordinated bonds do not have specific guarantees and in accordance with SBS rules, qualify as second level equity (Tier 2) in the determination of the effective equity; see Note 16(f).
- (c) On September 30, 2020, Interseguro issued subordinated bonds denominated “Third Issuance of the Third Program of Subordinated Bonds Interseguro (Single Series)” for the amount of US\$25,000,000, recorded in Section “Transferable Securities and Issuance Programs” of the Public Registry of the Stock Market, under the Third Program of Subordinated Bonds of Interseguro.
- (d) On June 30, 2020, Interbank placed subordinated bonds called “4.00% Subordinated Notes due 2030” for an amount of US\$300,000,000, under Rule 144A and Regulation S of the U.S. Securities Act of 1933 of the United States of America. The issuance date of these bonds was July 8, 2020.

This issuance is redeemable, from July 8, 2025, with prior authorization by the SBS, having to pay a redemption price of 100 percent of the issued subordinated bonds. From that date onwards, in case the Bank does not redeem bonds, the interest rate will increase by 371.1 basis points. After July 8, 2025, with prior authorization by the SBS, Interbank will be able to redeem the entirety of the bonds, having to pay a redemption price of 100 percent of the issued subordinated bonds plus the present value of each scheduled coupon payment, discounted at the redemption date.

- (e) On September 24, 2019, Interbank placed corporate bonds denominated “5.00% Senior Notes due 2026” for S/312,000,000, under Rule 144A and Regulation S of the U.S. Securities Act of 1993 of the United States of America. These bonds were issued on October 1, 2019.
- (f) On September 25, 2019, Interbank placed corporate bonds denominated “3.05% Note due 2026” for US\$400,000,000, under Rule 144A and Regulation S of the U.S. Securities Act of 1993 of the United States of America. These bonds were issued on October 4, 2019.

As part of said program, on September 19, 2019, Interbank announced of a buyback offering in cash of the senior bonds denominated “5.750% Senior Notes Due 2020” issued by the Panama Branch; however, until October 2, 2019, only approximately 37.52 percent of the holders had accepted the buyback offering in cash.

In this sense, for the remaining bondholders that did not accept the buyback offering, Interbank communicated them its decision to exercise the early redemption option of said instruments; the redemption date was November 4, 2019.

In this regard, Interbank incurred in expenses for the partial buyback of the bonds and for the early redemption option amounting to US\$12,755,000 (equivalent to approximately S/42,270,000), which were recorded as “Interest for bonds, notes and other obligations” in the caption “Interest and similar expenses” in the consolidated statement of income.

- (g) In January 2018, Interbank issued corporate bonds called “3.375 Senior Unsecured Notes” for US\$200,000,000, under Rule 144A and Regulation S of the U.S. Securities Act of 1993 of the United States of America.

Likewise, as part of that program, Interbank made an exchange offer addressed to the holders of the corporate bonds denominated “5.750% Senior Notes due 2020” issued by the Panama Branch, managing to exchange bonds for an amount of US\$263,322,000, which generated an exchange premium of approximately US\$21,573,000, which are presented together in the caption “Bonds, notes and other obligations” for an amount of US\$284,895,000.

Notes to the consolidated financial statements (continued)

In this regard, considering the issuance of bonds in January 2018 and the exchange of bonds made, the total balance of the “3.375 Senior Unsecured Notes” amounted to US\$484,895,000.

The Group concluded that the aforementioned exchange did not generate any substantial modification in the terms and conditions of the financial liability; therefore, it did not recognize a new financial liability. Additionally, according to IFRS 9, the Group reported a gain of approximately US\$4,762,000 (equivalent to S/15,286,000), caused by the difference between the present values of both obligations, which were discounted at the effective interest rate of the original financial liability and included in the caption “Interest and similar expenses” of the consolidated statement of income, thus decreasing the interest expenses generated by these issuances.

As of December 31, 2020, Interbank maintains fourteen cross-currency swaps for a total of US\$441,000,000 (equivalent to approximately S/1,596,861,000), which were designated as cash flow hedges (fourteen cross-currency swaps for US\$441,000 equivalent to approximately S/1,461,474,000 as of December 31, 2019); see Note 10(b). Through these operations, part of the issued amount by these bonds was economically converted into Soles at a fixed rate of 4.88 percent.

As of December 31, 2020, Management does not intend to redeem these bonds before their maturity date; said situation may change in the future, depending on market conditions.

- (h) Starting in March 2024, the applicable interest rate will be a floating rate of 3-month Libor plus 576 basis points payable quarterly. Starting on that date and on any interest payment date, Interbank can redeem all the notes without penalties.

In accordance with SBS regulation, this issuance qualifies as second level equity (Tier 2) in the determination of the effective equity; see Note 16(f).

As of December 31, 2020, Management does not intend to redeem these bonds before their maturity date; said situation may change in the future, depending on market conditions.

- (i) From 2018 until July 2027, IFS, on any time, can redeem these bonds, paying a penalty equal to the United States Treasury rate plus 30 basis points. The payment of principal will take place on the maturity date of the bonds or when IFS redeems them.

In October 2017, IFS entered a cross currency swap for US\$150,000,000 (As of December 31, 2020 and 2019, equivalent to approximately S/543,150,000 and S/497,100,000, respectively), which was designated as a cash flow hedge, see Note 10(b); through this operation part of the issued amount of these bonds was economically converted to Soles at a fix rate of 5.06 percent.

As of December 31, 2020, Management does not intend to redeem these bonds before their maturity date; said situation may change in the future, depending on market conditions.

- (j) Starting in April 2020, the applicable interest rate will be a floating rate of 3-month Libor plus 674 basis points payable on a semi-annual basis, provided that the floating rate for any interest period will not be less than 10.5 percent per annum. Starting at that date, Interbank could redeem all the notes, without penalties.

Notes to the consolidated financial statements (continued)

This issuance qualified as first level equity (Tier 1), nevertheless, the SBS establishes a 17.65 percent limit, which is computed over the capital, reserves and retained earnings pending capitalization of Interbank in the determination of its effective equity; any excess qualified as second level equity (Tier 2); see Note 16(f).

In a Board Session held on January 28, 2020, Interbank agreed to redeem the entirety of these instruments. Said redemption was made on April 23, 2020.

- (k) The international issuances are listed at the Luxembourg Stock Exchange. On the other hand, the local and international issuances include standard clauses of compliance with financial ratios, the use of funds and other administrative matters.

As of December 31, 2020 and 2019, the international issuances maintain mainly this clause: "Submit audited financial statements on an annual basis and unaudited financial statements on a quarterly basis (both in Spanish and English)". In the opinion of Group Management and its legal advisers, this clause has been met by the Group as of December 31, 2020 and 2019.

- (l) As of December 31, 2020 and 2019, the repayment schedule of these obligations is as follows:

Year	2020 S/(000)	2019 S/(000)
2020	—	235,128
2021	104,078	—
2022	137,900	136,908
2023	2,171,241	1,988,369
2024 onwards	5,365,532	4,529,885
<b>Total</b>	<u>7,778,751</u>	<u>6,890,290</u>

#### 14. Insurance contract liabilities

- (a) This caption is comprised of the following:

	2020 S/(000)	2019 S/(000)
Technical reserves for insurance premiums (b)	12,298,075	11,223,456
Technical reserves for claims (c)	203,648	203,175
	<u>12,501,723</u>	<u>11,426,631</u>
<b>By term -</b>		
Short term	1,035,915	948,316
Long term	11,465,808	10,478,315
<b>Total</b>	<u>12,501,723</u>	<u>11,426,631</u>

## Notes to the consolidated financial statements (continued)

(b) The movement of technical reserves for insurance premiums (disclosed by type of insurance) for the years ended December 31, 2020, 2019 and 2018, is as follows:

	2020						2019						2018					
	Retirement, disability and survival annuities			Life insurance			Retirement, disability and survival annuities			Life insurance			Retirement, disability and survival annuities			Life insurance

(\*) In December 2019, SBS authorized the transfer of risk insurance contracts from Complementary Insurance for High-risk Activities ("SCTR", by its Spanish acronym), of Mapfre Perit Vida Compañía de Seguros y Reaseguros S.A. (henceforth "Mapfre", an unrelated entity), which entered into force on January 2, 2020. The assets received by said contracts were cash and financial debt instruments of a value equivalent to S/246,101,000; also recognized a liability for technical reserves of premiums for S/292,499,000, the difference amounting to S/46,398,000, was recorded in the caption "Intangibles and goodwill, net", as part of the "Other Intangibles", see Note 9(a).

(\*\*) The table below presents the composition of the adjustments due to time passage as of December 31, 2020, 2019 and 2018:

	2020						2019						2018

Exchange difference	(5)	—	(194)	(9)	—	(208)
<b>End of year balances</b>	<u>3,691</u>	<u>116,130</u>	<u>60,032</u>	<u>13,250</u>	<u>10,072</u>	<u>203,175</u>

	2018					
	Annuities S/(000)	Retirement, disability and survival annuities S/(000)	Life insurance S/(000)	General insurance S/(000)	SCTR S/(000)	Total S/(000)
<b>Beginning of year balances</b>	1,320	171,574	45,461	10,321	11,939	240,615
Claims of the period	558,191	(25,568)	33,870	12,981	236	579,710
Adjustments to prior years claims	—	240,784	22,365	3,848	990	267,987
Payments	(558,093)	(172,728)	(42,775)	(15,564)	(3,019)	(792,179)
Exchange difference	394	(1)	(3,048)	30	—	(2,625)
<b>End of year balances</b>	<u>1,812</u>	<u>214,061</u>	<u>55,873</u>	<u>11,616</u>	<u>10,146</u>	<u>293,508</u>

- (d) In Management's opinion, these balances reflect the exposure of life and general insurance contracts as of December 31, 2020, 2019 and 2018, in accordance with IFRS 4.

Notes to the consolidated financial statements (continued)

- (e) The main assumptions used in the estimation of retirement, disability and survival annuities and individual life reserves as of December 31, 2020 and 2019, are the following:

Type	Mortality table		Interest rate	
	2020	2019	2020	2019
Annuities and Lifetime RPP	SPP-S-2017, SPP-I-2017 with improvement factor for mortality		3.53% in US\$ 2.05% in S/ VAC 5.07% adjustable in S/	4.54% in US\$ 1.89% in S/ VAC 5.10% adjustable in S/
Retirement, disability and survival	SPP-S-2017, SPP-I-2017 with improvement factor for mortality		2.05% in S/ VAC	1.89% in S/ VAC
SCTR insurance	SPP-S-2017, SPP-I-2017 with improvement factor for mortality		2.05% in S/ VAC	1.89% in S/ VAC
Individual life insurance contracts (included linked insurance contracts)	CSO 80 ajustable		4.00 - 5.00%	4.00 - 5.00%

The sensitivity of the estimates used by the Group to measure its insurance risks is represented primarily by life insurance risks; the main variables as of December 31, 2020 and 2019, are the interest rates and the mortality tables. The Group has assessed the changes of the reserves related to its most significant life insurance contracts included in the reserves of annuities, retirement, disability and survival of +/- 100 basis points (bps) in the interest rates and of +/- 500 basis points (bps) of the mortality factors, being the results as follows:

Variables	2020			2019		
	Reserves S/(000)	Variation in reserves		Reserves S/(000)	Variation in reserves	
		Amount S/(000)	Percentage %		Amount S/(000)	Percentage %
<b>Annuities -</b>						
<b>Portfolio in S/ and US Dollars - basis amount</b>						
Changes in interest rate: + 100 bps	9,363,723	(1,084,732)	(10.38)	8,727,695	(1,013,546)	(10.40)

Changes in mortality table at 95%	323,233	3,091	0.97	31,205	319	1.03

**15. Deferred Income Tax asset and liability**

- (a) As indicated in Note 3.4(z), the net tax position has been met based on the separate financial statement of each Subsidiary domiciled in Peru. The following table presents a summary of the items comprising the Subsidiaries' deferred Income Tax:

	2020 S/(000)	2019 S/(000)
<b>Deferred asset</b>		
Provision for loan portfolio and other provisions	457,799	140,741
Deferred income from stand-by letters	3,973	7,625
Unrealized losses from derivatives	8,688	5,872
Net unrealized losses from fluctuation in investments through other comprehensive income	—	44
Right-of-use assets	2,613	2,085
Others	31,961	28,657
<b>Deferred liability</b>		
Deemed cost of fixed assets	(59,478)	(57,822)
Amortization of intangible assets, net	(81,101)	(74,439)
Unrealized net gain from fluctuation in investments through other comprehensive income	(5,332)	(2,070)
Others	(5,558)	(5,710)
<b>Total deferred Income Tax asset, net</b>	<u>353,565</u>	<u>44,983</u>
<b>Deferred liability</b>		
Unrealized net gain from fluctuation in investments through other comprehensive income	—	239
Others	11	(226)
<b>Total deferred Income Tax liability, net</b>	<u>11</u>	<u>13</u>

- (b) In Management's opinion, the deferred Income Tax assets will be recovered from the taxable income that will be generated by the Group over the coming years, including the portion that is recorded in the consolidated statement of changes in equity.

Notes to the consolidated financial statements (continued)

- (c) The table below presents the amounts reported in the consolidated statement of income for the years 2020, 2019 and 2018:

	2020 S/(000)	2019 S/(000)	2018 S/(000)
Current – Expense	235,134	454,772	401,788
Deferred – Expense (Income)	(308,067)	38,554	13,727

## 16. Equity

### (a) Capital stock and distribution of dividends -

IFS's shares are listed on the Lima Stock Exchange and, since July 2019, they are also listed on the New York Stock Exchange. IFS's shares have no nominal value and their issuance value was US\$9.72 per share.

As consequence of the Offering detailed in Note 1(c), in July 2019, IFS issued 2,336,841 common shares, thus increasing its capital stock by S/74,571,000 (approximately US\$22,714,000). In this sense, as of December 31, 2020 and 2019, IFS's capital stock is represented by 115,447,705 subscribed and paid-in common shares.

The General Shareholders' Meeting of IFS held on March 31, 2021, agreed to distribute dividends for the year 2020 for approximately US\$88,891,000 (equivalent to approximately S/332,096,000), equivalent to US\$0.77 per share, which will be paid on May 6, 2021.

The General Shareholders' Meeting of IFS held on April 7, 2020, agreed to distribute dividends for the year 2019 for approximately US\$202,033,000 (equivalent to approximately S/698,228,000), equivalent to US\$1.75 per share, which were paid on May 6, 2020.

The General Shareholders' Meeting of IFS held on April 1, 2019, agreed to distribute dividends for the year 2018 for approximately US\$197,187,000 (equivalent to approximately S/654,464,000), US\$1.75 per share, which were paid on May 3, 2019.

The General Shareholders' Meeting of IFS, held on April 2, 2018, agreed to distribute dividends from the year 2017 for approximately US\$157,750,000 (equivalent to approximately S/510,688,000), US\$1.40 per share, which were paid on May 3, 2018.

### (b) Treasury stock -

As of December 31, 2020 and 2019, the Company and some Subsidiaries held 24,824 and 1,400 shares issued by IFS, respectively, with an acquisition cost equivalent to S/2,769,000 and S/196,000, respectively.

Sale of treasury stock (2018-2019)

As indicated in Note 1(c), in July 2019, Interbank and IFS sold a combined 2,418,754 shares. Said sale was recorded by decreasing the caption "Treasury stock" for an amount of S/208,178,000, and the highest value collected due to said sale amounted to S/138,997,000 and was recorded in the caption "Retained earnings".

On the other hand, in 2018 Interbank sold 3,009,490 shares of IFS at their market price for approximately S/382,727,000 through the Lima Stock Exchange. Said sale was recorded by decreasing the caption "Treasury stock" for an amount of S/259,022,000 and the highest amount collected due to the sale, amounting to S/123,705,000, was recorded in the caption "Retained earnings".

### (c) Capital surplus -

Corresponds to the difference between the nominal value of the shares issued and their public offerings price, which were performed in 2007 and 2019; see Note 1(c). Capital surplus is presented net of the expenses incurred and related to the issuance of such shares.

Notes to the consolidated financial statements (continued)

(d) Unrealized results, net -

This item is made up as follows:

	Unrealized gain (loss)

## (f) Shareholders' equity for legal purposes (regulatory capital) -

IFS is not required to establish a regulatory capital for statutory purposes. As of December 31, 2020 and 2019, the regulatory capital required for Interbank, Interseguro and Inteligo Bank (a Subsidiary of Inteligo Group Corp.), is calculated based on the separate financial statement of each Subsidiary prepared following the accounting principles and practices stated by their regulators (the SBS or the Central Bank of the Bahamas, in the case of Inteligo Bank).

The regulatory capital required for Interbank, Interseguro and Inteligo Bank is detailed below:

**Interbank's regulatory capital -**

According to Legislative Decree No. 1028 and amendments, Interbank's regulatory capital must be equal to or higher than 10 percent of the assets and contingent credits weighted by total risk represented by the sum of: the regulatory capital requirement for market risk multiplied by 10, the regulatory capital requirement for operational risk multiplied by 10 and the assets and contingent credits weighted by credit risk.

Notes to the consolidated financial statements (continued)

As of December 31, 2020 and 2019, Interbank maintains the following amounts related to the assets and contingent credits weighted by risk and regulatory capital (basic and supplementary):

	2020 S/(000)	2019 S/(000)
Total risk weighted assets and credits	51,451,816	50,673,786
Total regulatory capital	8,742,126	7,679,278
Basic regulatory capital (Level 1)	5,930,657	5,721,707
Supplementary regulatory capital (Level 2)	2,811,469	1,957,571
<b>Global capital to regulatory capital ratio</b>	<b>16.99%</b>	<b>15.15%</b>

As of December 31, 2020 and 2019, Interbank has complied with SBS Resolutions No.2115-2009, No.6328-2009 and No.14354-2009, “Regulations for the Regulatory Capital Requirement for Operational Risk”, “Market Risk” and “Credit Risk”, respectively, as amended. These resolutions establish, mainly, the methodologies to be applied by financial entities to calculate the assets and credits weighted per type of risk.

In July 2011, the SBS issued Resolution No. 8425-2011, which states that financial entities must determine an additional regulatory capital level and develop a process to assess the adequacy of their regulatory capital in relation with their risk profile, which must follow the methodology described in said resolution. The additional regulatory capital requirement shall be equivalent to the amount of regulatory capital requirements calculated for each of the following components: economic cycle, concentration risk, market concentration risk and interest rate risk in the bank book, among others. As of December 31, 2020 and 2019, the additional regulatory capital estimated by Interbank amounts to approximately S/341,328,000 and S/803,717,000, respectively.

On March 26, 2020, the SBS issued Resolution No. 1264-2020, establishing that the calculation of regulatory capital requirements for mortgage loans and non-revolving consumer loans will not be increased. Likewise, such Resolution authorizes to the financial entities to use the additional regulatory capital accumulated for the economic cycle component; see Note 1(b). In that sense, Interbank has granted loan reschedulings to its clients, such rescheduling consisted of performing changes in payment schedules and/or granting of grace periods so that the original term of loans was postponed; however, according to the SBS’s indications, this term postponement has not generated that Interbank needs higher regulatory capital requirements.

In Group Management’s opinion, Interbank has complied with the requirements established by the aforementioned Resolution.

**Interseguro's regulatory capital -**

In accordance with SBS Resolution No. 1124-2006, and its amendments, Interseguro is required to maintain a level of regulatory capital in order to maintain a minimum equity to support technical risks and other risks that could affect it. The regulatory capital must be higher than the amount resulting from the sum of the solvency net equity, the guarantee fund and the regulatory capital intended to cover credit risks.

The solvency net equity is represented by the higher amount between the solvency margin and the minimal capital. As of December 31, 2020 and 2019, the solvency net equity is represented by the solvency margin. The solvency margin is the complementary support that insurance entities must maintain to deal with possible situations of excess claims not foreseen in the establishment of technical reserves. The total solvency margin corresponds to the sum of the solvency margins of each branch in which Interseguro operates.

Also, the guarantee fund represents the additional equity support that insurance companies must maintain to deal with the other risks that can affect them and that are not covered by the solvency net equity, such as investment risks and other risks. The monthly amount of said fund must be equivalent to 35 percent of the solvency net equity, calculated in accordance with SBS Resolution No. 1124-2006.

As of December 31, 2020 and 2019, Interseguro's surplus equity is as follows:

	2020 S/(000)	2019 S/(000)
<b>Regulatory capital</b>	1,359,414	1,106,609
<b>Less</b>		
Solvency equity (solvency margin)	607,841	567,348
Guarantee fund	212,744	198,572
<b>Surplus</b>	<u>538,829</u>	<u>340,689</u>

**Inteligo Bank's regulatory capital -**

The Central Bank of the Bahamas requires Inteligo Bank to maintain a regulatory capital of not less than 8 percent of its risk weighted assets. Inteligo Bank's capital ratio as of December 31, 2020 and 2019 is the following:

	2019 US\$(000)	2018 US\$(000)
Total eligible capital	270,709	238,281
Total risk weighted assets	953,009	964,156
<b>Capital adequacy ratio (in percentage)</b>	<u>28.41</u>	<u>24.71</u>

In Group Management's opinion, its Subsidiaries have complied with the requirements set forth by the regulatory entities.

(g) **Reserves -**

The Board of Directors of IFS session held on April 22, 2020, agreed to constitute reserves for S/500,000,000 charged to retained earnings.

The Board of Directors of IFS sessions held on June 25, 2018, and May 9, 2018, agreed to constitute a reserve of up to S/1,000,000,000 charged to retained earnings.

(h) Subsidiaries' legal and special reserves -

The Subsidiaries domiciled in Peru are required to establish a reserve equivalent to a certain percentage of their paid-in capital (20 or 35 percent, depending on their economic activity) through annual transfers of not less than 10 percent of their net income. As of December 31, 2020 and 2019, these reserves amounted to approximately S/1,344,250,000 and S/1,205,297,000, respectively.

**17. Tax situation**

- (a) IFS and its Subsidiaries incorporated and domiciled in the Republic of Panama and the Commonwealth of the Bahamas (see Note 2), are not subject to any Income Tax, or any other taxes on capital gains, equity or property. The Subsidiaries incorporated and domiciled in Peru (see Note 2) are subject to the Peruvian Tax legislation; see paragraph (c).

Peruvian life insurance companies are exempt from Income Tax regarding the income derived from assets linked to technical reserves for pension insurance and annuities from the Private Pension Fund Administration System.

In Peru, all income from Peruvian sources obtained from the direct or indirect sale of shares of stock capital representing participation of legal persons domiciled in the country are subject to income tax. For that purpose, an indirect sale shall be considered to have occurred when shares of stock or ownership interests of a legal entity are sold and this legal entity is not domiciled in the country and, in turn, is the holder — whether directly or through other legal entity or entities — of shares of stock or ownership interests of one or more legal entities domiciled in the country, provided that certain conditions established by law occur.

In this sense, the Act states that an assumption of indirect transfer of shares arises when in any of the 12 months prior to disposal, the market value of shares or participations of the legal person domiciled is equivalent to 50 percent or more of the market value of shares or participations of the legal person non-domiciled. Additionally, as a concurrent condition, it is established that in any 12 months period, shares or participations representing 10 percent or more of the capital of legal persons non-domiciled be disposed.

Notes to the consolidated financial statements (continued)

- (b) Legal entities or individuals not domiciled in Peru are subject to an additional tax (equivalent to 5 percent) on dividends received from entities domiciled in Peru. The corresponding tax is withheld by the entity that distributes the dividends. In this regard, since IFS controls the entities that distribute the dividends, it recognizes the amount of the additional Income Tax as expense of the financial year of the dividends. In this sense, as of December 31, 2020 and 2019, the Company has recorded an expense recovery for S/2,017,000 and expenses for S/36,361,000, respectively, in the caption "Income Tax" of the consolidated statement of income. The recovery recognized in the year 2020 resulted from: (i) the decrease in the percentage of dividends distribution by Interbank in April 2020, as indicated in Note 1(b)(b.3), which generated that IFS recorded in the year 2020 a rebate of the provision constituted as of December 31, 2019, and; (ii) lower recognition of expenses for Income Tax provision over dividends due to a lower income in Interbank for the year 2020.
- (c) IFS's Subsidiaries incorporated in Peru are subject to the payment of Peruvian taxes; hence, they must calculate their tax expenses on the basis of their separate financial statements. The Income Tax rate as of December 31, 2020, 2019 and 2018, was 29.5 percent, over the taxable income.
- (d) The Tax Authority (henceforth "SUNAT", by its Spanish acronym) is legally entitled to perform tax audit procedures for up to four years subsequent to the date at which the tax return regarding a taxable period must be filed.

As of December 31, 2020, the following taxable periods are subject to inspection by the Tax Authority:

- Interbank: Income Tax returns for the years 2015 to 2020, and Value-Added-Tax returns for the years 2015 to 2020.
- Interseguro: Income Tax returns for the years 2015, 2017, 2018, 2019 and 2020, and Value-Added-Tax returns for the years 2015 to 2020.
- Hipotecaria Sura Income Tax returns for the years 2015 to 2018, and Value-Added-Tax returns for the years 2015 to 2018.
- Seguros Sura: Income Tax returns for the years 2015 to 2018, and Value-Added-Tax returns for the years 2015 to 2018.

Given the possible interpretations that SUNAT may give to the legislation in effect, up to date it is not possible to determine whether or not any review to be conducted would result in liabilities for the Subsidiaries; any increased tax or surcharge that could arise from possible tax audits would be applied to the results of the period in which such tax increase or surcharge may be determined.

Following is the description of the main ongoing tax procedures for the Subsidiaries:

**Interbank:**

In April 2004, June 2006, February 2007, June 2007, November 2007, October 2008 and December 2010, Interbank received a number of Tax Determination and Tax Penalty notices corresponding mainly to the Income Tax determination for the fiscal years 2000 to 2006. As a result, claims and appeals were filed and subsequent contentious administrative proceedings were started, with the exception of Income Tax 2006, which is still pending of being filed.

Regarding the tax litigations followed by Interbank related to the annual Income Tax returns for the years 2000 to 2006, the most relevant matter subject to discrepancy with SUNAT corresponds to whether the “interest in suspense” are subject to Income Tax or not. In this sense, Interbank considers that the interest in suspense do not constitute accrued income, in accordance with the SBS’s regulations, which is also supported by a ruling by the Permanent Constitutional and Social Law Chamber of the Supreme Court issued in August 2009 and a pronouncement in June 2019.

Notwithstanding the foregoing, in February 2018, the Third Transitory Chamber of Constitutional and Social Law of the Supreme Court issued a ruling regarding a third bank that impacted the original estimation regarding the degree of contingency for this discrepancy. Subsequently, in June 2019, the Permanent Chamber of Constitutional and Social Law of the Supreme Court, in a case followed by another financial entity, but identical to Interbank’s case, ruled in favor of the tax treatment over the interest in suspense followed by said entity. Likewise, on July 6, 2020 and December 28, 2020, the Permanent Chamber of Constitutional and Social Law of the Supreme Court notified to Interbank its ruling regarding Interbank’s Income Tax 2003 and prepaid income tax for the year 2003, declaring groundless the cassation appeals filed by SUNAT and the MEF, thus reaffirming the position held by Interbank regarding that interest in suspense does not constitute taxable income.

As of December 31, 2020, the tax liability requested for this concept and other minor contingencies amounts to approximately S/382,000,000, which includes the tax, fines and interest arrears, of which S/293,000,000 corresponded to interest in suspense and S/89,000,000 corresponded to other minor repairs. From the tax and legal analysis performed, Interbank’s Management and its external legal advisers consider that there exists sufficient technical support for the prevailing of Interbank’s position; as consequence, no provision has been recorded for this contingency as of December 31, 2020 and 2019.

On February 3, 2017, SUNAT closed the audit process corresponding to the Income Tax for the year 2010. Interbank paid the debt under protest and filed a claim procedure. Subsequently, on November 6, 2018, SUNAT closed again the audit process corresponding to the Income Tax 2010, which had been reopened due to invalidity; Interbank filed a claim procedure and afterwards a tax appeal. Currently, the appeal is pending resolution by the Tax Court.

On January 14, 2019, Interbank was notified of the Determination and Penalty Resolutions corresponding to the audit of the Income Tax for the fiscal year 2013. To such date, the tax debt requested by SUNAT amounts to approximately S/50,000,000. The main concept observed was the deduction of loan write-offs without proof by the SBS. As of December 31, 2020 and 2019, the tax debt requested for this concept and other minor contingencies amounts to approximately S/40,000,000 and S/39,000,000, respectively, which comprises the tax, penalties and moratorium interest.

On April 26, 2019, SUNAT notified about the commencement of the definitive audit process on Income Tax withholdings of non-domiciled entities corresponding to the year 2018. To date, said audit is under process and SUNAT has not issued any resolutions.

Notes to the consolidated financial statements (continued)

On September 11, 2019, SUNAT notified Interbank about the beginning of the definitive audit process on Income Tax corresponding to the year 2015. To date, said audit is under process and SUNAT has not issued any resolutions.

On December 12, 2019, SUNAT notified the Bank about the beginning of the definitive audit process on Income Tax corresponding to the year 2015. To date, said audit is under process.

On July 31, 2020, Interbank was notified of the Determination and Penalty Resolutions corresponding to the audit of the Income Tax for the fiscal year 2012. To date, the tax debt requested by SUNAT amounted to approximately S/13,000,000. On August 27, 2020, Interbank filed a complaint appeal which is pending resolution.

On February 12, 2021, Interbank was notified with the Resolution of Compliance related to the Income Tax and prepaid income tax of the year 2006 (related to litigations about interest in suspense). Through such Resolution, SUNAT increased the alleged tax debt from S/1,000,000 to S/35,000,0000, because as a consequence of such Resolution of Compliance certain deductions previously recognized by SUNAT were unrecognized. Interbank's Management and its legal advisors will appeal such Resolution before the Tax Court, and in its opinion, no additional liabilities for Interbank will result as consequence of this matter.

In the opinion of Interbank's Management and its legal advisors, any eventual additional tax settlement would not be significant for the financial statements as of December 31, 2020 and 2019.

Interseguro:

On January 4, 2019, Interseguro was notified through a Tax Determination notice about the partial audit of the Income Tax for non-domiciled entities for Sura corresponding to January 2015; see Note 2. The tax debt requested by SUNAT amounts to approximately S/19,000,000. On January 30, 2019, the Company filed an appeal against the Resolution of Determination claimed by SUNAT. Considering that this debt corresponds to a period prior to the acquisition of Sura by the Group and according to the conditions of the purchase and sale agreement of this entity, this debt, if confirmed after the legal actions that Management is to file, would be assumed by the sellers. On November 12, 2020, the Tax Court issued a favorable opinion to Interseguro, revoking the Determination Resolution issued by SUNAT. Interseguro is awaiting for the corresponding appeal deadline to be notified whether SUNAT intends to appeal the Tax Court's resolution.

In the opinion of Management and its legal advisers, any eventual additional tax would not be significant for the financial statements as of December 31, 2020 and 2019.

- (e) For the purpose of determining the Income Tax, the transfer prices of transactions with related companies and with companies domiciled in countries or territories that are non-cooperating or low or zero tax countries or territories, or with entities or permanent establishments whose income, revenues or gains from said contracts are subject to a preferential tax regime, must be supported by documented information on the valuation methods used and the criteria considered for their determination. On the basis of the analysis of the operations of the Group, Management and its internal legal advisors believe that, as a consequence of the application of these standards, contingencies of importance will not arise as of December 31, 2020 and 2019.

Through Legislative Decree No. 1312, published on December 31, 2016, the formal obligations for entities included within the scope of application of transfer pricing are modified, thus incorporating three new information requirements: the first is a Local Report; the second is a Master Report; and the third is a Country Report. The first entered into effect since 2017 for the operations that occurred during 2016 and the last two since 2018 for the operations that have occurred since the fiscal year 2017.

Notes to the consolidated financial statements (continued)

- (f) Through Legislative Decree No.1381, published on August 24, 2018, it was incorporated in the Income Tax Act the concept of “non-cooperating” countries or territories and preferential tax regimes to which defensive measures already existing for countries and territories with low or zero taxation are imposed.

As of December 31, 2019 Interbank maintained a branch in Panama, a country that is considered “non-cooperating”, in accordance with the Legislative Decree No. 1381. Notwithstanding the aforementioned, as detailed in Note 1, to the date of this report, the branch is no longer operating.

- (g) In July 2018, Act No. 30823 was published, whereby the Congress delegated power to the Executive Branch to legislate on various issues, including tax and financial matters. In this sense, the main tax regulations issued are the following:
- (i) Beginning on January 1, 2019, the treatment applicable to royalties and remuneration for services rendered by non-domiciled persons was modified, eliminating the obligation to pay the amount equivalent to the withholding due to the accounting record of the cost or expense. Now the Income Tax is withheld at the payment of the compensation. In order for said cost or expense to be deductible for the local company, the remuneration must have been paid to the filing date of the annual tax return for the Income Tax (Legislative Decree No. 1369).
  - (ii) The rules that regulate the obligation of legal persons and/or legal entities to inform the identification of their final beneficiaries (Legislative Decree No. 1372) were established. These rules are applicable to legal entities domiciled in the country, in accordance with the provisions of Article 7 of the Income Tax Act, and legal entities established in the country. The obligation covers non-domiciled legal entities and legal entities established abroad, provided that: a) they have a branch, agency or other permanent establishment in the country; b) the natural or juridical person who manages the autonomous patrimony or the investment funds from abroad, or the natural or legal person who has the status of trustee or administrator, is domiciled in the country; c) any of the members of a consortium is domiciled in the country. This obligation will be fulfilled through the presentation to SUNAT of an informative Sworn Statement, which must contain the information of the final beneficiary and be submitted, in accordance with the regulations and within the deadlines established by Superintendence Resolution issued by SUNAT.
  - (iii) The Tax Code was amended with the purpose of offering taxpayers more assurance regarding the application of the general anti-avoidance rule (Rule XVI of the Preliminary Title of the Tax Code); as well as to provide SUNAT with tools for its effective implementation (Legislative Decree No.1422).

As part of this amendment, a new assumption of joint and several liability is envisaged, when the tax debtor is subject to the application of the measures provided by Rule XVI in the event that presumed tax avoidance cases are detected; in such case, the joint and several liability shall be attributed to the legal representatives provided that they have collaborated with the design or approval or execution of actions or situations or economic relations viewed as tax avoidance in Rule XVI. In the case of companies that have a Board of Directors, it is up to this corporate body to define the tax strategy of the entity, having to decide on the approval or not of actions, situations or economic relations to be carried out within the framework of tax planning, this power being non-delegable. The actions, situations and economic relations carried out within the framework of tax planning and implemented on the date of entry into force of Legislative Decree No. 1422 (September 14, 2018) and which

continue to have effect, must be evaluated by the Board of Directors of the entity for the purpose of ratification or modification until March 29, 2019, without prejudice to the fact that the management or other managers of the company have approved the aforementioned actions, situations and economic relations.

Likewise, it has been established that the application of Rule XVI, regarding the re-characterization of tax avoidance assumptions, will take place in the final inspection procedures in which acts, events or situations produced since July 19, 2012.

- (iv) Amendments to the Income Tax Act were included, effective as of January 1, 2019, to improve the tax treatment applicable to the following (Legislative Decree No. 1424):
- Income obtained from the indirect transfer of shares of stock or capital representing participations of legal persons domiciled in the country. Among the most significant changes is the inclusion of a new indirect sale assumption, which is triggered when the total amount of the shares of the domiciled legal entity whose indirect disposal is made is equal to or higher than 40,000 Taxation Units.
  - Permanent establishments of sole proprietorships, companies and entities of any nature incorporated abroad. For this purpose, new cases of permanent establishment have been included, among them, when the rendering of services in the country occurs, with respect to the same project, service or related one, for a period that exceeds 183 calendar days in total within any period of twelve months.
  - The system of credits against Income Tax for taxes paid abroad, to be included in the indirect tax credit (corporate tax paid by foreign subsidiaries) as credit applicable against the Income Tax of domiciled legal persons, in order to avoid double economic taxation.
  - The deduction of interest expenses for the determination of corporate Income Tax. In the years 2020 and 2021, it shall be applicable the debt limit set at up to three times the net equity as of December 31 of the previous year will be applicable, both to loans with related parties, and to loans with third parties contracted since September 14, 2018. Beginning in 2022, the limit for the deduction of financial expenses shall be equivalent to 30 percent of the entity's EBITDA (Earnings Before Interest, Taxes, Depreciation and Amortization).
- (v) Regulations have been established for the accrual of income and expenses for tax purposes beginning on January 1, 2019 (Legislative Decree No. 1425). Until 2018, there was no rule definition of this concept, so in many cases accounting rules were used for its interpretation. In general terms, with the new criterion, for the purpose of determining the Income Tax, it shall be considered whether the substantial events for the generation of income or expense agreed upon by the parties have occurred, provided they are not subject to a subsequent condition, in which case the recognition shall take place when it is fulfilled and when collection or payment is to take place will not be taken into account; and, if the determination of the consideration depends on a future action or event, the total or part of the corresponding income or expense will be deferred until that action or event occurs.

Notes to the consolidated financial statements (continued)

- (h) Supreme Decree No. 430-2020-EF, published on December 31, 2020, approved the Regulation that establishes the financial information that companies of the financial system must provide to SUNAT in the fight against tax evasion and avoidance pursuant to Legislative Decree No. 1434. Such Regulation entered into force on January 1, 2021.

Considering that, said Regulation established the concepts that the financial entities must report to SUNAT, which are, among others, cumulative balances and/or amounts, averages or highest amounts and the returns generated in the accounts during the reporting period that are equal or higher than S/30,800 in said period. The information shall be provided to SUNAT semi-annually through informative declarations containing monthly information.

- (i) Law No. 31106 extends until December 31, 2023, the validity of all exemptions in force to date contained in Article 19 of the Income Tax Act.

On this matter, among the aforementioned extended exemptions that are applicable or related to Interbank's operations are subparagraph i) of Article 19 which indicates that shall be exempted any type of fixed or variable interest rate, in local or foreign currency, that is paid for any deposit or levy pursuant to the General Act of the Banking and Insurance System and Organic Act of the Superintendence of Banking, Insurance and Private Pension Funds, Law No. 26702, as well as the capital increases of said deposits and levies, in local or foreign currency, except when said income constitute third category income.

**18. Off-balance sheet accounts**

<b>Total</b>	<u>27,505,656</u>	<u>32,793,494</u>

- (b) In the normal course of its operations, the Group performs contingent operations (indirect loans). These transactions expose the Group to additional credit risks to the amounts recognized in the consolidated statement of financial position.

The Group applies the same credit policies for granting and evaluating the provisions required for direct loans when performing contingent operations (see Note 6(a)), including obtaining guarantees when deemed necessary. Guarantees vary and include deposits in financial institutions or other assets.

Taking into account that most of the contingent operations are expected to expire without the Group having to disburse cash, the total committed amounts do not necessarily represent future cash requirements.

Notes to the consolidated financial statements (continued)

- (c) Responsibilities under credit lines agreements include consumer credit lines and other consumer loans that are cancellable by the Bank.
- (d) Corresponds to commitments of disbursement of future loans that Interbank has committed to carry out; provided that the borrower complies with the obligations under the corresponding loan agreements, however, they may be cancelled by Interbank.

**19. Interest income and expenses, and similar accounts**

- (a) This caption is comprised of the following:

	2020 S/(000)	2019 S/(000)	2018 S/(000)
<b>Interest and similar income</b>			
Interest on loan portfolio	3,769,716	3,830,595	3,356,718
Impact from the modification of contractual cash flows due to the loan rescheduling schemes (*)	(134,376)	—	—
Interest on investments at fair value through other comprehensive income	769,718	723,796	761,411
Interest on investments at amortized cost	116,338	93,454	86,215
Dividends on financial instruments	103,294	74,698	61,725
Interest on due from banks and inter-bank funds	35,906	121,550	51,592
Other interest and similar income	4,371	3,123	3,621
<b>Total</b>	<b>4,664,967</b>	<b>4,847,216</b>	<b>4,321,282</b>
<b>Interest and similar expenses</b>			
Interest and fees on deposits and obligations	(522,357)	(705,824)	(562,495)
Interest on bonds, notes and other obligations	(390,586)	(455,784)	(386,747)
Interest and fees on obligations with financial institutions	(181,675)	(175,753)	(173,740)
Deposit insurance fund fees	(56,177)	(45,199)	(40,697)
Interest on lease payments, Note 8(e)	(15,288)	(16,568)	—
Other interest and similar expenses	(26,201)	(24,835)	(13,615)
<b>Total</b>	<b>(1,192,284)</b>	<b>(1,423,963)</b>	<b>(1,177,294)</b>

- (\*) For rescheduled loans, Interbank recalculated the carrying amount of these financial assets as the present value of the modified contractual cash flows, discounted at the loan's original effective interest rate, thus recognizing a modification loss in the income of the period because this resulting amount has been lower than the gross carrying amount before rescheduling, see Note 30.1 (d.5).

Notes to the consolidated financial statements (continued)

- (b) The amounts shown in literal (a) above, include interest income and expenses calculated using the effective interest rate (EIR), which are related to the following items:

	2020 S/(000)	2019 S/(000)	2018 S/(000)
Financial assets measured at amortized cost	3,787,584	4,045,599	3,494,525
Financial assets measured at fair value through other comprehensive income	769,718	723,796	761,411
<b>Total interest from financial assets calculated at EIR</b>	<b>4,557,302</b>	<b>4,769,395</b>	<b>4,255,936</b>
<b>Financial liabilities measured at amortized cost</b>	<b>1,109,906</b>	<b>1,353,929</b>	<b>1,122,982</b>

20. Fee income from financial services, net

- (a) For the years ended December 31, 2020, 2019 and 2018, this caption is comprised of the following:

	2020 S/(000)	2019 S/(000)	2018 S/(000)
<b>Income</b>			
Accounts maintenance, carriage, transfers, and debit and credit card fees	474,822	651,255	623,480

(\*) It includes the annual variation of technical reserves and unearned premiums.

(\*\*) The variation of the adjustment of technical reserves is due mainly to aging over time; see Note 14(b).

(\*\*\*) In April 2016, the Congress of the Republic of Peru approved the amendment of the Private Pension System Act, through which the affiliates of the Pension Fund Administrators (AFPs) who turn 65 and retire, can choose, among other existing retirement modalities, the return of 95.5 percent of the total fund available from their Individual Capitalization Account ("CIC", by its Spanish acronym). During 2017, in order to offset the contraction of retirement income as a result of the aforementioned amendment to the SPP Act, Interseguro launched the products "Renta Particular Plus" and "Renta Particular Plus – Vitalicio", Note 3.4(ab). During 2020 and 2019, premiums collected for "Renta Particular Plus – Vitalicio" amounted to S/30,310,000 and S/40,216,000, respectively, and for "Renta Particular Plus" amounted to S/117,619,000 and S/137,626,000, respectively. As of December 31, 2020, retirement premiums amounted to S/1,750,000 (in 2019 and 2018 retirement premiums amounted to S/3,841,000 and S/10,469,000, respectively). The liability related to "Renta Particular Plus – Vitalicio" is presented in the caption "Insurance contracts liabilities" of the consolidated statement of financial position considering that it contains an important component of insurance; and the liability of the "Renta Particular Plus" is presented in the caption "Other accounts payable, provisions and other liabilities" of the consolidated statement of financial position considering that it does not contain an important insurance component.

## 23. Net claims and benefits incurred for life insurance contracts and others

This caption is comprised of the following:

	Gross claims and benefits			Ceded claims and benefits			Net insurance claims and benefits

**24. Salaries and employee benefits**

This caption is comprised of the following:

	2020 S/(000)	2019 S/(000)	2018 S/(000)
Salaries	526,909	565,057	538,190
Vacations, health insurance and others	72,405	47,412	45,781
Social security and pensions	55,408	53,840	50,244
Workers' profit sharing	52,829	90,658	81,837
Severance indemnities	41,695	41,807	39,862
<b>Total</b>	<u>749,246</u>	<u>798,774</u>	<u>755,914</u>

The average number of employees for the years 2020, 2019 and 2018 was 7,610, 7,763 and 7,742 respectively.

**25. Administrative expenses**

(a) This caption is comprised of the following:

	2020 S/(000)	2019 S/(000)	2018 S/(000)
Services received from third parties (b)	704,255	743,362	648,176
Taxes and contributions	37,581	37,928	34,993
Rental expenses (c) and Note 8(e)	6,781	5,072	92,085
<b>Total</b>	<u>748,617</u>	<u>786,362</u>	<u>775,254</u>

- (b) Services received from third parties correspond mainly to computer equipment maintenance services, credit cards associated expenses, securities transportation services, advertising, among others.
- (c) During the years 2020 and 2019 corresponds to disbursements made by the Group for short term and low value assets, see Note 3.4(j). During 2018, correspond to disbursements made by the Group for leases installments, mainly of stores (agencies), which were classified as operating leases according to IAS 17 "Leases", which was in force until December 31, 2018.

**26. Earnings per share**

The following table presents the calculation of the weighted average number of shares and the basic and diluted earnings per share, determined and calculated based on the earnings attributable to the Group, as described in Note 3.4(ac):

	Outstanding shares (in thousands)	Shares considered in computation (in thousands)	Effective days in the year	Weighted average number of shares (in thousands)
<b>Year 2018</b>				
Balance as of January 1, 2018	107,682	107,682	365	107,682
Sale of treasury stock	3,010	3,010	334	2,754

Others, net	6,853	15,294	17,114

Notes to the consolidated financial statements (continued)

(b) As of December 31, 2020 and 2019, the detail of loans is the following:

	2020			2019		
	Direct Loans S/(000)	Indirect Loans S/(000)	Total S/(000)	Direct Loans S/(000)	Indirect Loans S/(000)	Total S/(000)
Controlling	—	—	—	17	—	17
Affiliated	931,746	46,967	978,713	847,993	59,267	907,260
Associates	264,397	77,399	341,796	266,201	75,391	341,592
	<u>1,196,143</u>	<u>124,366</u>	<u>1,320,509</u>	<u>1,114,211</u>	<u>134,658</u>	<u>1,248,869</u>

(c) As of December 31, 2020 and 2019, the directors, executives and employees of the Group have been involved in credit transactions with certain subsidiaries of the Group, as permitted by Peruvian law, which regulates and limits on certain transactions with employees, directors and executives of financial entities. As of December 31, 2020 and 2019, direct loans to employees, directors and executives amounted to S/222,076,000 and S/231,546,000, respectively; said loans are repaid monthly and bear interest at market rates.

There are no loans to the Group's directors and key personnel guaranteed with shares of any Subsidiary.

Notes to the consolidated financial statements (continued)

- (d) The Group's key personnel basic remuneration for the years ended December 31, 2020, 2019 and 2018, is presented below:

	2020 S/(000)	2019 S/(000)	2018 S/(000)
Salaries	21,859	22,180	22,295
Board of Directors' compensations	3,719	2,438	1,925
<b>Total</b>	<b>25,578</b>	<b>24,618</b>	<b>24,220</b>

- (e) As of December 31, 2020 and 2019, the Group holds participations in different mutual funds managed by Interfondos that are classified as investment at fair value through profit or loss and amount to S/342,000 and S/701,000, respectively.
- (f) During the year 2020, the Bank signed a framework contract to cede the use of commercial spaces for the installation of Money Market stores and/or ATMs in the facilities of Supermercados Peruanos S.A. for a period of 5 years. As of December 31, 2020, the balance corresponds to a cash guarantee granted to Supermercados Peruanos S.A. for an amount of US\$1,000,000, equivalent to approximately S/3,400,000.
- As of December 31, 2019 corresponded to a cash guarantee granted to Supermercados Peruanos S.A. for an amount of US\$2,000,000, equivalent to approximately S/6,628,000 corresponded to a concession contract of space use for the installation of financial services modules and others in the facilities of Supermercados Peruanos S.A.
- (g) It corresponds to a loan with maturity in 2046 and bears interest at market rates.
- (h) As of December 31, 2020 and 2019, corresponds to a financial lease for the construction of educational facilities in San Juan de Lurigancho and Ate Vitarte districts.
- (i) As of December 31, 2020, corresponds to a loan granted by Interfondos to Compañía Iberoamericana de Plásticos for an amount of US\$3,000,000 in September 2020 and with maturity in March 2021. This loan bears interest at an annual rate of 3.9 percent.
- (j) In Management's opinion, transactions with related companies have been performed under market conditions and within the limits permitted by the SBS. Taxes generated by these transactions and the taxable base used for computing them are those customarily used in the industry and they are determined according to the tax rules in force.

**28. Business segments**

The Chief Operating Decision Maker (“CODM”) of IFS is the Chief Executive Officer (“CEO”). The Group presents three operating segments based on products and services, as follows:

Banking -

Mainly loans, credit facilities, deposits and current accounts.

Insurance -

It provides annuities and conventional life insurance products, as well as other retail insurance products.

Wealth management -

It provides brokerage and investment management services. Inteligo serves mainly Peruvian citizens.

The operating segments monitor the operating results of their business units separately for the purpose of making decisions on the distribution of resources and performance assessment. Segment performance is evaluated based on operating profit or loss and it is measured consistently with operating profit or loss in the consolidated financial statements.

Transfer prices between operating segments are on an arm’s length basis in a manner similar to transactions with third parties.

No revenue from transactions with a single external customer or counterparty exceeded 10 percent of the Group’s total revenues in the years 2020, 2019 and 2018.

Notes to the consolidated financial statements (continued)

The following table presents the Group's financial information by business segments for the years ended December 31, 2020, 2019 and 2018:

	2020

### 30. Financial risk management

It comprises the management of the main risks, that due to the nature of their operations, IFS and its Subsidiaries are exposed to; and correspond to: credit risk, market risk, liquidity risk, insurance risk and real estate risk.

- Credit risk: possibility of loss due to inability or lack of willingness to pay of debtors, counterparts or third parties bound to comply with their contractual obligations.
- Market risk: probability of loss in positions on and off the consolidated statement of financial position derived from variations in market conditions; it generally includes the following types of risk: exchange rate; fair value by interest rate, price, among others.
- Liquidity risk: possibility of loss due to noncompliance with the requirements of financing and fund application that arise from mismatches of cash flows.
- Insurance risk: possibility that the actual cost of claims and payments will differ from the estimates.
- Real estate risk: possibility of significant loss in rental income due to the insolvency of the lessee or, a decrease in the market value of real estate investments.

In order to manage the risks detailed above, every Subsidiary of the Group has a specialized structure and organization in their management, measurement systems, as well as mitigation and coverage processes, according to specific regulatory needs and requirements for the development of its business. The Group and its Subsidiaries, mainly Interbank, Interseguro and Inteligo Bank, operate independently but in coordination with the general provisions issued by the Board of Directors and Management of IFS; however, the Board of Directors and Management of IFS are ultimately responsible for identifying and controlling risks. The Company has an Audit Committee comprised of three independent directors, pursuant to Rule 10A-3 of the Securities Exchange Act of the United States; and one of them is a financial expert according to the regulations of the New York Stock Exchange. The Audit Committee is appointed by the Board of Directors and its main purpose is to monitor and supervise the preparation processes of financial and accounting information, as well as the audits over the financial statements of IFS and its Subsidiaries.

Also, the Audit Committee is responsible of assisting the Board of Directors in the monitoring and supervising, thus helping to ensure:

- The quality and comprehensiveness of IFS's financial statements, including its disclosures.
- The existence of adequate procedures to assess, objectively and periodically, the effectiveness of the internal control system over the financial report.
- The compliance with the legal and regulatory framework.
- The qualification and independence of external auditors.
- The performance of external auditors.
- The implementation by Management of an adequate internal control system, in particular the internal control system over the financial report.

Likewise, the Company has an Internal Audit Division which is responsible for monitoring the key processes and controls to ensure an adequate low risk control according to the standards defined in the Sarbanes Oxley Act.

Management is responsible of the preparation, presentation and comprehensiveness of the Group's consolidated financial statements, the suitability of the accounting principles and information policies it uses, the establishment and upkeeping of the internal control over the financial information, as well as the facilitation of communications among external auditors, IFS's managers and the Board of Directors.

(a) Structure and organization of risk management -

The Group's risk management structure and organization for each of its Subsidiaries is as follows:

(i) Interbank -

Board of Directors

Interbank's Board of Directors is responsible for establishing an appropriate and integral risk management and promoting an internal environment that facilitates its development. The Board is continuously informed about the exposure degree of the various risks managed by Interbank.

The Board has created several specialized committees to which it has delegated specific tasks in order to strengthen risk management and internal control.

Audit Committee

The Audit Committee's main purpose is to monitor that the accounting financial reporting processes are appropriate, as well as to evaluate the activities performed by the auditors, both internal and external. The Committee is comprised of three members of the Board and the Chief Executive Officer, the Internal Auditor, the Vice-President of Corporate and Legal Affairs and other executives may also participate therein, when required. The Committee meets at least six times a year in ordinary sessions and informs the Board about the most relevant issues discussed.

Comprehensive Risk Management Committee

The Comprehensive Risk Management Committee ("GIR", by its Spanish acronym) is responsible for approving the policies and organization for comprehensive risk management, as well as the amendments to said policies. This Committee defines the level of tolerance and the exposure degree to risk that Interbank is willing to assume in its business and also decides on the necessary actions aimed at implementing the required corrective measures in case of deviations from the levels of tolerance to risk. The Committee is comprised of two Directors, the Chief Executive Officer and the Vice-Presidents. The Committee reports monthly to the Board of Directors the main issues it has discussed and the resolutions taken in the previous meeting.

#### Assets and Liabilities Committee

The main purpose of the Assets and Liabilities Committee (“ALCO”) is to manage the financial structure of the statement of financial position of Interbank, based on profitability and risk targets. The ALCO is also responsible for the proposal of new products or operations that contain components of market risk. Likewise, it is the communication channel with the units that generate market risk. The ALCO meets monthly and it is comprised of the Chief Executive Officer, the Vice-Presidents of Risks, Commercial, Finance, Operations, Distribution Channels, Capital Market and the Manager of Treasury / Position Desk.

#### Internal Audit Division -

Risk management processes of Interbank are monitored by the Internal Audit Division, which examines both the adequacy of the procedures and the compliance with them. The Internal Audit Division discusses the results of all assessments with Management and reports its findings and recommendations to the Audit Committee and Board of Directors.

#### (ii) Interseguro -

##### Board of Directors

The Board of Directors is responsible for the overall approach to risk management and it is responsible for the approval of the policies and strategies currently used. The Board of Directors provides the principles for overall risk management, as well as the policies prepared for specific areas, such as foreign exchange risk, interest rate risk, credit risk and the use of derivative and non-derivative financial instruments.

##### Audit Committee

The main purpose of the Audit Committee is to monitor that the accounting and financial reporting process are appropriate, as well as to assess the activities performed by External and Internal Auditors. The Audit Committee is comprised of three Board members who do not fulfil any executive position within Interseguro, being at least one of them an Independent Director, who leads the Committee and cannot lead any other Committee within Interseguro. The Committee sessions can be attended by the Chief Executive Officer, the Audit Manager, the External Auditors and other executives when required. The Committee meets at least six times a year in ordinary sessions and informs the Board on the most relevant issues it has addressed.

##### Risk Committee

The Risk Committee is a corporate body created by the Board. It is responsible of defining the business risk limits of Interseguro through the approval of risk policies and the corrective measures needed to maintain adequate levels of risk tolerance. The Risk Committee is comprised of four Board members, the Risk Manager and the Chief Executive Officer.

#### Investment Committee

The Investment Committee is responsible of approving the limits of each security or real estate that may be included in Interseguro's investment portfolio. This Committee is comprised of several Board Members, the Chief Executive Officer and the Vice-President of Investments.

#### Internal Audit Division

Risk management processes throughout Interseguro are monitored by the Internal Audit Division, which reviews and assesses the design, scope and functioning of the internal control system and verifies the compliance of the legal requirements, policies, standards and procedures. The Internal Audit Division discusses the results of all assessments with Management and reports its findings and recommendations to the Audit Committee and Board of Directors.

(iii) Inteligo Bank -

Inteligo Bank's Board of Directors is responsible for the establishment and monitoring of the risk administration policies. In order to manage and monitor the various risks Inteligo Bank is exposed to, the Board of Directors has created the Credit and Investment Committee, the Assets and Liabilities Committee, the Credit Risk Committee and the Audit Committee.

Due to the Covid-19 pandemic, the Group, through its different risk management bodies, has been monitoring and implementing diverse measures to address and counter the negative effects of the pandemic on its subsidiaries. See Note 1(b.3).

(b) Risk measurement and reporting systems -

The Group uses different models and rating tools. These tools measure and value the risk with a prospective vision, thus allowing the making of better risk decisions in the different stages or life cycle of client or product.

Said models and tools are permanently monitored and periodically validated in order to assure that the levels of prediction and performance are being maintained and to make the corrective actions or adjustments, when needed.

(c) Risk mitigation and risk coverage -

In order to mitigate its exposure to the various financial risks and provide adequate coverage, the Group has established a series of measures, among which the following stand out:

- Policies, procedures, methodologies, models and parameters aimed to allow for the identification, measurement, control and reporting of diverse financial risks;
- Review and assessment of diverse financial risks, through specialized units of risk screening;
- Timely monitoring and tracking of diverse financial risks and their maintenance within a defined tolerance level;
- Compliance with regulatory limits and establishment of internal limits for exposure concentration; and
- Procedures for guarantees management.

Likewise, as part of its comprehensive risk management, in certain circumstances the Group uses derivative financial instruments to mitigate its risk exposure, which arises from the variations in interest rates and foreign exchange rates.

(d) Risk concentration -

Through its policies and procedures, the Group has established the guidelines and mechanisms needed to prevent excessive risk concentration. In case any concentration risk is identified, the Group works with specialized units that enable it to control and manage said risks.

30.1 Credit risk

- (a) The Group opts for a credit risk policy that ensures sustained and profitable growth in all its products and business segments it operates. In doing so, it applies assessment procedures for the adequate decision-making, and uses tools and methodologies that allow the identification, measurement, mitigation and control of the different risks in the most efficient manner. Likewise, the Group incorporates, develops and reviews regularly management models that allow an adequate measurement, quantification and monitoring of the loans granted by each business unit and also encouraging the continuous improvement of its policies, tools, methodologies and processes. Additionally, as consequence of the Covid-19 pandemic, the behavior and performance of the expected credit losses of the retail and commercial clients has been affected, thus requiring a greater monitoring of results, which has also implied to perform certain subsequent adjustments to the expected loss model in order to be able to capture the effects of the current situation, which has generated a high level of uncertainty in the estimation of the loans expected loss.
- (b) The Group is exposed to credit risk, which is the risk that a counterparty causes a financial loss by failing to comply with an obligation. Credit risk is the most important risk for the Group's business; therefore, Management carefully manages its exposure to credit risk, which arise mainly in lending activities that lead to loans and investment activities that contribute with securities and other financial instruments to the Group's asset portfolio. There is also credit risk in the financial instruments out of the consolidated statement of financial position, such as contingent credits (indirect loans), which expose the Group to risks similar to those of direct loans, being mitigated with the same control processes and policies. Likewise, credit risk arising from derivative financial instruments is, at any time, limited to those with positive fair values, as recorded in the consolidated statement of financial position.

As of the date of the consolidated statement of financial position and under IFRS 9, impairment allowances are established for expected credit losses. Significant changes in the economy or in the particular situation of an economic sector that represents a concentration in the Group's portfolio could result in losses that are different from those provisioned for as of the date of the consolidated statement of financial position.

The Group structures the levels of credit risk it undertakes by placing limits on the amount of risk accepted in relation to one borrower or groups of borrowers, geographical and industry segments. Said risks are monitored on a revolving basis and subject to continuous review.

The Group's exposure to credit risk is managed through the regular assessment of debtors and their potential capability to pay the principal and interest of their obligations, and through the change in exposure limits, when appropriate.

The exposure to credit risk is also mitigated, in part, through the obtaining of personal and corporate collateral. Nevertheless, there is a significant part of the financial instruments where said collateral cannot be obtained. Following is a description of the procedures and policies related to collateral management and valuation of collateral.

Policies and procedures for management and valuation of guarantees -

Collateral required for financial assets other than the loan portfolio are determined according to the nature of the instrument. However, debt instruments, treasury papers and other financial assets are in general not guaranteed, except for securities guaranteed with similar assets and instruments.

The Group has policies and guidelines established for the management of collateral received to back loans granted. The assets that guarantee loan operations bear a certain value prior to the loan approval and the procedures for their updating are described in the internal rules. In order to manage guarantees, the Group operates specialized divisions for the establishment, management and release of guarantees.

Collateral that backs loan operations include different goods, property and financial instruments (including cash and securities). Their preferential status depends on the following conditions:

- Easy convertibility into cash.
- Proper legal documentation, duly registered with the corresponding public registry.
- Non-existence of previous obligations that could reduce their value.
- Their fair value must be updated.

Long-term loans and fundings granted to corporate entities are generally guaranteed. Consumer loans granted to small companies are not generally guaranteed.

Management monitors the fair value of collateral, and with the purpose of mitigating credit losses, requests additional collateral to the counterparty as soon as impairment evidence exists. The proceeds from the settlement of the collateral obtained are used to reduce or repay the outstanding claim.

In the case of derivative financial instruments, the Group maintains strict control limits on net open derivative positions (the difference between purchase and sale contracts), both in amount and term. The amount subject to credit risk is limited to the current fair value of instruments that are favorable to the Group (for example, an asset when its fair value is positive), which in relation to derivatives is only a small fraction of the contract, or notional amount used to express the volume of instruments outstanding. This credit risk exposure is managed as part of the overall lending limits with customers, together with potential exposures from market movements. Collateral or other securities are not usually obtained for credit risk exposures on these instruments.

Settlement risk arises in any situation where a payment in cash, securities or equity is made in the expectation of a corresponding receipt in cash. Daily settlement limits are established for each counterparty in order to cover the aggregate of all settlement risk arising from the Group's market transactions on any single day.

(c) Maximum exposure to credit risk -

As of December 31, 2020 and 2019, Management estimates that the maximum credit risk to which the Group is exposed is represented by the book value of the financial assets which show a potential credit risk and consist mostly of deposits in banks, inter-bank funds, investments, loans (direct and indirect), without considering the fair value of the collateral or guarantees, derivative financial instruments transactions, receivables from insurance transactions and other monetary assets. In this sense, as of December 31, 2020 and 2019, the main captions were formed as follows:

- 89.5 percent and 80.4 percent, respectively, of cash corresponds to amounts deposited in the Group's vaults or in the BCRP;
- 85.5 percent and 89.3 percent, respectively, of the loan portfolio is classified into the two lower credit risk categories defined by the Group under IFRS 9 (high and standard grade);
- 88.4 percent and 91.8 percent, respectively, of loans is deemed non-past-due and non-impaired; it is worth mentioning that, because of the effects of Covid-19, the Group has rescheduled loans that met certain requirements. The balance of rescheduled loans as of December 31, 2020 amounts approximately to S/10,489,000,000.
- 89.0 percent and 89.8 percent, respectively, of investments at fair value through other comprehensive income and investments at amortized cost have at least an investment grade (BBB- or higher) or are debt instruments issued by the BCRP or the Peruvian Government; and
- 97.6 percent and 97.7 percent of accounts receivable from insurance premiums and leases of the investment properties is deemed non-past due and non-impaired.
- In addition, as of December 31, 2020, the Group holds loans (direct and indirect) and investments in fixed income instruments issued by entities related to the infrastructure sector that, in recent years, have been exposed to local and international events, for an amount of approximately of S/1,073,875,000 (S/225,373,000 in direct loans and S/848,502,000 in indirect loans) and S/850,003,000, respectively (S/808,290,000 (S/186,095,000 in direct loans and S/622,195,000 in indirect loans) and S/928,742,000, respectively, as of December 31, 2019).

(d) Impairment assessment for loan portfolios -

The main objective of the impairment requirements is to recognize expected credit losses during the average life of financial instruments when there has been a significant increase in credit risk after the initial recognition — as evaluated on a collective or individual basis — considering all reasonable and sustainable information, including that which refers to the future. If the financial instrument does not show a significant increase in credit risk after the initial recognition, the provision for credit losses shall be calculated as 12-month expected credit losses (Stage 1), as defined in Note 3.4(h).

Under some circumstances, entities may not have reasonable and sustainable information available without disproportionate effort or cost to measure the expected credit losses during the lifetime of the asset on an individual instrument basis. In that case, expected credit losses during the asset's lifetime shall be recognized on a collective basis considering information about the overall credit risk. The financial assets for which the Group calculates the expected loss under a collective assessment include:

- All direct and indirect (contingent) loans related to stand-by letters, guarantees, bank guarantees and letters of credit. Except for short-term reasons, certain clients that belong to the infrastructure sector.
- Debt instruments measured at amortized cost or at fair value through other comprehensive income.

The expected credit loss is estimated collectively for each loan portfolio with shared similar risk characteristics. Not only default indicators, but all information such as: macroeconomic projections, type of instrument, credit risk ratings, types of guarantees, date of initial recognition, remaining time to maturity, among other indicators.

For the collective impairment assessment, the financial assets are grouped based on the Group's internal credit rating system, which considers credit risk characteristics, such as: type of asset, economic sector, geographical location, type of guarantee, among other relevant factors.

Expected losses are calculated under the identification and multiplication of the following risk parameters:

- Probability of Default (PD): It is the likelihood of a default over a particular time horizon that a counterpart will be unable to meet its debt obligations and with it is cataloged as default.
- Loss Given Default (LGD): Measures the loss in percentage terms on total exposure at default (see Exposure at default).
- Exposure at Default (EAD): Represents the total value that the Group can lose upon default of a counterpart.

(d.1) Definition of default:

In accordance with IFRS 9, the Group determines that there is default on a financial asset when:

- The borrower is unlikely to pay their credit obligations to the Group in full, without recourse by the Group to actions such as realizing guarantee (if applicable); or
- The borrower is past due by more than 90 days on any material credit obligation to the Group.

In assessing whether a borrower presents default, the Group considers the following indicators:

- Qualitative: contracts in judicial and prejudicial proceedings.
- Quantitative: contracts in default for more than 90 days.
- Based on data prepared internally and obtained from external sources such as:
  - Significant changes in indicators of credit risk
  - Significant changes in external market indicators
  - Real or expected significant change in the external and/or internal credit rating
  - Existing or forecast adverse changes in the business, economic or financial conditions that are expected to cause a significant change in the borrower's ability to meet their debt obligations
  - Real or expected significant change in the operating results of the borrower
  - Existing or future adverse changes in the regulatory, economic or technological environment of the borrower that results in a significant change in their ability to meet their debt obligations.

Likewise, losses recognized in the period are affected by several factors, such as:

- Financial assets moving from Stage 1 to Stage 2 or Stage 3 because there has been a significant increase in their risk since initial recognition or they present impairment at the analysis date, respectively. As a result, lifetime expected losses are calculated.
- Impact on the measurement of expected losses due to changes in PD, EAD and LGD resulting from the update of the inputs used.
- Impact on the measurement of expected losses due to changes in the models and assumptions used.
- Additional provisions for new financial instruments reported during the period.

Notes to the consolidated financial statements (continued)

- Periodic reversion of the discount of expected losses due to the passage of time, as they are measured based on the present value.
- Financial assets written off during the period.
- Exchange difference arising from financial assets denominated in foreign currency.

(d.1.1) Internal rating and PD:

The Group's loans are segmented into homogeneous groups with shared similar credit risk characteristics as detailed below:

- Personal Banking (credit cards, mortgages, payroll loans, consumer loans and vehicular loans)
- Small Business Banking (segments S1, S2 and S3)
- Commercial Banking (Corporate, Institutional, Companies and Real estate)

In the case Interbank, Credit Risk Department determines its risk level according to the following classification, as of December 31, 2020 and 2019:

		2020		
Banking	Segment	High grade	Standard grade	Grade lower than
		PD less than or equal (*)	PD range (*)	PD equal to or higher than (*)
	Credit card	8.01%	8.02% - 20.72%	20.73%
	Mortgage	1.98%	1.99% - 7.41%	7.42%
	Payroll loans	2.27%	2.28% - 5.58%	5.59%
Personal Banking	Consumer	10.04%	10.05% - 23.77%	23.78%
	Vehicular	3.95%	3.96% - 12.62%	12.63%
	Segments S1 and S2	8.73%	8.74% - 21.12%	21.13%
Small Business Banking	Segments S3	6.37%	6.38% - 17.13%	17.14%

- (\*) It is worth mentioning that the probability of default indicated are exclusively those determined by the statistical model and, therefore, do not include the subsequent adjustments to the model that have been originated as consequence of the pandemic, see further detail in 30.1 (d.6)

The main objective is to generate statistical models that allow forecasting the applicant's level of credit risk. The development of these models incorporates both qualitative and quantitative information, as well as client specific information that may affect their performance.

These rating models are monitored on a regular basis because with the passage of time some factors may have a negative impact on the model's discriminating power, and stability due to changes in the population or its characteristics.

Each rating has an associated PD, which is adjusted to incorporate prospective information. This is replicated for each macroeconomic scenario, as appropriate.

To calculate the PD, two differentiated methodologies have been developed, which are described below:

- Transition matrixes

Its objective is to determine the probability of default over a 12-month horizon based on the maturity of the operation, by analyzing the conditional probability of transition from one credit rating state to another. This method is suitable for loans with high exposure and wide data availability. The intention is to calculate the PD based on the maturity of the operation.

- Default ratio

Its objective is to determine the probability of default over a 12-month horizon based on the level of risk with which the operation begins, based on a counting analysis and the percentage of cases that report a default mark. This method is suitable for loans with poor data availability by type of maturity.

Given the nature of the portfolios and the availability of historical information, the method to estimate the PD for each portfolio is presented below:

Banking / Segments	Transition matrix	Default ratio
<b>Personal banking:</b>		
Credit cards	X	
Mortgage	X	
Payroll loans	X	
Consumer		X
Vehicular		X
<b>Small business banking</b>		X
<b>Commercial banking</b>		
Corporate		X
Institutional		X
Companies	X	
Real estate		X

Likewise, Interbank has implemented a system to monitor its commercial sector clients in a more personalized way, based on warnings, changes in rating, reputation problems, among others.

At each reporting date, for indirect loans (contingent), as happens for direct loans, the expected loss is calculated depending on the stage in which each operation is located; that is, if it is in Stage 1, the expected loss is calculated with a 12-month view. If it is in Stage 2 (if the operation shows a significant risk increase since the initial recognition) or Stage 3 (if the operation has a default), the expected loss is calculated for the remaining life of the asset.

The Group considers the changes in credit risk based on the probability that the obligor will fail to comply with the loan agreement.

As of December 31, 2020 and 2019, the Group holds stand-by letters and guarantees with entities related to the infrastructure sector that, in recent years, has been exposed to national and international events. To determine the expected losses of these entities, the Group, in a complementary manner, has performed an individual assessment to determine if the operation is in Stage 1, Stage 2 or Stage 3.

The criteria established to assign the risk to each one of the operations that are evaluated under an individual evaluation use the following combination of factors: quantitative, qualitative and financial.

To estimate the PD for the lifetime of a financial asset, a transformation to a 12-month PD is made according to the year of remaining life. That is, the PD is determined for a lifetime by an exponentiation of the 12-month PD.

At Inteligo Bank, both for Personal Banking and Commercial Banking, the internal model developed (scorecard) assigns 5 levels of credit risk: low, medium low, medium, medium high, and high. This methodology evaluates the scoring, increase or decrease of risks, taking into consideration the loan structure and the type of client; therefore, there is one scorecard for Personal Banking and another for Commercial Banking.

(d.2) Loss Given Default (LGD):

It is an estimated loss in case of default. It is the difference between contractual cash flows due and those expected to be received, including guarantees. Generally, it is expressed as an EAD percentage.

In the case of Interbank, the calculation of the LGD has been developed under three differentiated methods, which are described below:

- Closed recoveries  
Those in which a client entered and left default (due to debt settlement, application of penalty or refinancing) over a course of up to 65 months.
- Open recoveries  
Those in which a client entered and did not manage to exit default over a course of up to 65 months. This method identifies the adjustment factor that allows to simulate the effect of a closed recovery process. Thus, a recovery curve is built from the information of closed recovery processes and a recovery rate curve is estimated based on the number of months of each process.  
  
This methodology is applied to the Mortgage and Commercial Banking loan portfolios.  
  
In the case of Inteligo Bank, for those credits that are classified in Stage 1 or Stage 2 at the reporting date, the regulatory recoveries of the Central Bank of the Bahamas and the Superintendence of Banks of Panama are used, using stressed scenarios for each type of guarantee.

(d.3) Exposure at default (EAD):

Exposure at default represents the gross carrying amount of financial instruments subject to impairment, which involves both the client's ability to increase exposure as default approaches and possible early repayments. To calculate the EAD of a loan in Stage 1, potential default events are evaluated over a 12- month horizon. For financial assets in Stage 2 and Stage 3, exposure at default is determined over the life of the instrument.

A calculation methodology has been developed for those portfolios that present a defined schedule, differentiating those transactions that consider prepayment and those that do not consider prepayment; and another methodology that is based on building the credit risk factor for those portfolios that allow

the client the ability to use a line of credit (revolving products) and, therefore, the percentage of additional use of the credit line that the client could use in the event of a default must be calculated.

(d.4) Significant increase in credit risk:

The Group has established a framework that incorporates quantitative and qualitative information to determine whether the credit risk on a financial instrument has significantly increased since initial recognition, both for loans and investments. The framework is aligned with the Group's internal credit risk management process.

In certain cases, using its expert credit judgment and, where possible, with relevant historical experience, the Group may determine that an exposure has experienced a significant increase in credit risk when certain qualitative indicators that may not be captured by a timely quantitative analysis.

At each reporting date, expected losses are calculated depending on the stage of each loan, as each one is evaluated with a different life period.

- Stage 1 -  
12-month expected losses are calculated. For this, the following risk parameters are multiplied: the 12-month forward-looking PD for year 1 of the remaining life, the client's LGD, and the EAD for year 1 of the remaining life for operations with payment schedule or the balance as of the reporting date for operations without payment schedule.
- Stage 2 -  
Lifetime expected losses are calculated for the entire remaining life of the asset. For operations with payment schedule, they are calculated in each year of remaining life by multiplying the following risk parameters: 12-month forward-looking PD, the client's LGD, and the EAD of the corresponding year of remaining life, and then the summation is done. For operations without payment schedule, they are calculated by multiplying the lifetime forward-looking PD, the client's LGD, and the balance as of the reporting date.
- Stage 3 -  
Expected losses are calculated by multiplying the PD (equal to 100 percent) by the client's LGD and the balance as of the reporting date.

The Group classifies the operations with a significant increase in the risk of each portfolio such as marked refinanced operations, operations with arrears longer than 30 days (for all portfolios except Mortgages that considers arrears longer than 60 days), or operations marked "Leave" or "Reduce" in the surveillance system for the Commercial Banking portfolio.

Likewise, the evaluation of the significant risk increase is made by comparing the 12-month PD to the date of origin and the 12-month PD to the date of the report adjusted by the forward-looking factor, according to the quantitative criteria of absolute variation and relative variation. The Group has established a range of average absolute variation of 2% and an average relative variation of 600%, depending on the type of portfolio.

The Group periodically evaluates the following warning signs and criteria to assess whether the placement presents a significant increase in credit risk (Stage 2):

- Rescheduled loans.
- Infractions to the covenants.
- Forced interventions by governments in the primary and secondary markets of obligors.
- Involvement of the borrower in illicit, political and fraud business.
- Impairment of guarantees (underlying assets).
- Arrears or short and frequent failures to pay installments.
- Significantly adverse macroeconomic, regulatory, social, technological and environmental changes.
- Other assessments and/or warnings (financial statements, EBIT evaluation, financial indicators by industry, regulatory criteria, others).

On the other hand, the Group monitors the effectiveness of the criteria used to identify significant increases in credit risk through periodic reviews to confirm that:

- Criteria are able to identify significant increases in credit risk before an exposure is in default;
- Criteria do not align with point in time (PiT) when an asset is more than 30 days past due. In particular, as consequence of the great and unprecedented uncertainty caused by the Covid-19 pandemic, in order to comply with the regulatory requirements, the risk parameter PiT has been adjusted for rescheduled loans by using the expert judgment (see (d.5) in this Note);
- The average time between the identification of a significant increase in credit risk and default is reasonable;
- Exposures usually do not transfer directly from the measurement of 12-month expected losses to impaired loans; and
- There is no unjustified volatility in the allocation of expected credit losses between the measurement of 12-month expected credit losses and lifetime expected credit losses.

Subsequently, the expected loss of each scenario (optimistic, base and pessimistic) is calculated as the sum of the expected loss of each Stage. Finally, the expected loss of the portfolio is calculated by assigning weights to each scenario based on their respective probability of occurrence.

An operation shall migrate from Stage 1 to Stage 2 due to significant risk increase, if comparing the current PD with the PD at the moment it was generated it is observed an increase (relative and absolute variation) in the PD that exceeds the established thresholds.

On the other hand, the methodology introduces the concept of cure for the Mortgage, Corporate and Business portfolios. According to this concept, a loan in Stage 3 that has been recovered through the payment of the debt, does not migrate directly to Stage 1, instead continuing in Stage 2 during an observation window of 12 months, in order to secure a consistent behavior in the transaction's risk, as well as to mitigate the migration volatility between risk stages.

(d.5) Rescheduled loans:

Because of the pandemic scenario as consequence of Covid-19 explained in Note 1(b), the SBS, through Official Multiple Letters No. 10997-2020, 11150-2020 and 11170-2020, authorized financial entities to grant credit facilities (rescheduling) to clients that meet certain requirements specified by the mentioned regulations. In application of said rule, Interbank determined three types of rescheduling:

- Unilateral: loans that Interbank reschedules proactively over part of the loan's balance.
- Landing: loans rescheduled at the client's request over part of the loan's balance.
- Structural: loans rescheduled proactively by the Bank or at the client's request and over the entire loan's balance.

These rescheduled loans granted payment facilities to clients, for instance: modification of payment schedules, granting of grace periods, decrease of interest rates, fractioning and reduction of payment installments, among other measures.

Interbank performed an assessment to define whether these rescheduled contracts represented, or not, a substantial modification under IFRS 9 - Financial Instruments. From that assessment, the new cash flows of the rescheduled loans did not generate substantial nor significant changes in the conditions initially contracted by the client; therefore, the adjustments in the conditions did not generate any substantial modification and, thus, neither a derecognition of the financial asset.

With the purpose of reflecting the effect of the non-substantial contractual modification, Interbank calculated the modification loss as the difference between the present net values of:

- The cash flows prior to the modification, discounted at the original effective interest rate, that is, the gross book value prior to the modification; and
- The modified cash flows (based on the installments updated by the revised effective interest rate) discounted at the original effective interest rate, that is, the gross book value posterior to the modification.

Following is the effect of the adjustment performed by Interbank in order to reflect the impact of the modification of the contractual cash flows due to rescheduled loans as of December 31, 2020:

	Customers thousands	Rescheduled balances S/(000)	Adjustment S/(000)
Commercial loans	5	2,593,219	—
Consumer loans	370	4,727,904	115,274
Mortgage loans	15	2,806,953	19,102
Small and micro-business loans	10	361,220	—
<b>Total</b>	<b>400</b>	<b>10,489,296</b>	<b>134,376</b>

(d.6) Subsequent adjustments to the model

The risks and uncertainties arising from Covid-19 have not been adequately reflected in existing statistical model parameters to calculate the expected loss of the Group, mainly for the loans that have been rescheduled. Due to the fact that there is no historical precedent of said event and with significant rescheduled loan volumes, Interbank assessed a series of expert judgment for each rescheduled loan with the purpose to calculate the expected loss in compliance with the regulating requirement.

It is worth mentioning that Interbank initially considered to identify rescheduled subgroups with higher risk characteristics in Stage 1 to migrate them to Stage 2. However, due to the large increase in the number of rescheduled loans, government measures and the evolution of the pandemic itself, it was required to migrate more rescheduled loans to higher-risk stages according to expert judgement (migration from Stage 2 to Stage 3), which also included increases of higher default probabilities.

Following is the detail of the subsequent adjustments to the model of expected loss that were made to incorporate in the computation the effects of the uncertainty and risks generated by these rescheduled loans in the recent scenario of Covid-19 pandemic:

Retail Banking

Expert judgments were established based on the previous experience and the historical information of events that may have some sort of similarity, although restricted to certain sectors and/or geographical areas, with the current scenario such as: Financial Crisis of 2008 and El Niño event of 2016. Thus, an analysis of non-performing rates was carried out in order to obtain a risk ranking. This way, the historical non-performing rates were allocated through transition matrices by number of past due days.

Based on this, the following criteria were defined:

- Landing rescheduled loans: in relation with Credit Cards and Consumer loans presenting past-due installments or multiple reschedulings of this type, it was determined the migration of loans from Stage 1 to Stage 2, and from Stage 2 to Stage 3 given that such events would justify a significant increase in the loans risk or in default indicators, respectively. For the rest of the portfolios, the statistical model was followed and, therefore, no expert judgment was applied. This is because the model itself already captured the expected risks and uncertainty.
- Structural rescheduled loans: for all portfolios, a percentage of their total balance classified in Stage 1 and Stage 2 migrated to Stage 3. Likewise, the remaining percentage in Stage 1 that was not migrated to Stage 3, due to expert judgment was migrated to Stage 2. That is, for all the structural rescheduled loans that in the moment of rescheduling were classified in Stage 1, the entirety of their balance was migrated to one of the two subsequent stages (Stage 2 or Stage 3). This considering the potential risk that this type of rescheduling represents, for it presents a significant increase in risk because payment difficulties are being shown in a wider manner and/or signs of default are already being identified in certain clients.
- Unilateral rescheduled loans: for all portfolios, it was established the automatic migration criteria to the next superior Stage; that is, from Stage 1 to Stage 2, and from Stage 2 to Stage 3; considering the analysis conducted by the Bank in order to grant unilateral rescheduling in function of the credit record of the client, its economic sector, among other factors.

Notes to the consolidated financial statements (continued)

It is worth mentioning that, in order to carry out migrations for each expert judgement, average risk parameters have been considered according to the stage at which the operation migrates and the portfolio to which it belongs. This way, for the Credit Cards loans, Consumer loans and Vehicular loans, which concentrate the highest rescheduled balance amounts and are more fragmented, it was decided a more granular methodology for the calculation of the PD's risk parameter used, specifically for the migration to Stage 2. The average PDs for each portfolio are shown below:

	<b>Landing</b>	<b>Structural</b>	<b>Unilateral</b>
Credit Cards	40.2%	40.5%	41.6%
Consumer	28.1%	31.8%	34.8%
Vehicular	—	14.8%	16.6%

Related to mortgage loans, it was considered that their risk profile to mature and impaired because people prioritize the payments of this type of loans over other financial products. Thus, in determining the PD to be used in the migration from Stage 1 to Stage 2, it was considered the smallest PD of Stage 2 because of the nature of the portfolio, which at the time of establishing this methodology corresponded to the refinanced group (43%):

For this same portfolio (Mortgage) in December 2020 it was established, through a stress analysis that considered the impact level of the Covid-19 pandemic by economic sectors, to make a post-model adjustment. Said stress analysis consisted of, in the first place, establishing 4 levels of impact (High, Medium High, Medium and Low) depending on the economic sector to which the customer belongs and, after that, performing a migration of clients from Stage 1 to Stage 2 and those who were in Stage 2 to Stage 3, but exclusively those most vulnerable sectors (high and medium high impact categories).

It is worth mentioning that the expert judgments were not applied to the Payroll Loans (loans are aimed to people working for state-run institutions) because this portfolio presents a low risk of collection considering that the collection of credit fees is charged directly on the payroll and that government institutions have the least personnel turnover.

Finally, the expert judgments detailed in the paragraphs above have mainly been applicable to rescheduled loans because for loans that were not rescheduled, the results of the statistical models used by Interbank are within the stability thresholds and, therefore, the expected loss model under IFRS 9 captures their risk. That is, the economic situation of these loans, in general, has not been significantly impacted during the year 2020.

#### Small Business Banking

Two expert judgments were defined, both considering the migration from Stage 1 to Stage 2. The first expert judgment is based on the analysis of the past-due days, risk level and business vulnerability of businesses to the current situation. It should be noted that the mentioned risk is defined by the Credit Bureau scoring models, which predict the probability that the client enters into a non-performing situation of more than 90 days past due.

The second criteria is based on the large impact that the pandemic has had on small businesses, identifying that approximately 60% of the operating businesses presented a decrease in sales at least of two digits. Therefore, the same percentage of the loans rescheduled migrated from Stage 1 to Stage 2.

Based on the above, there were signs of an expected impairment and thus it should be considered a PD high enough for Stage 2 which allows to capture this effect, because sufficient information was not available to determine the payment behavior of these clients.

#### Commercial Banking

The expert judgment applied for Commercial Banking consisted of migrating the rescheduled clients from Stage 1 to Stage 2. The analysis of said clients was performed individually and it was considered whether the sector to which they belong is seriously affected as it is the case of tourism, restaurants and textile sectors; it was also evaluated the tax liability or unregularized notices they have, and whether the level of sales or financial ratios were negatively impacted.

#### Subsequent adjustment to the model for all portfolios - Macroeconomic projections

Interbank's projections anticipated in the last days of the year 2020, a moderation of the country's economic growth rate during the first quarter of the year 2021, mainly due to the acceleration of contagions, the crisis of the health system, the second wave in Europe, the new variant of coronavirus detected in the United Kingdom and the high probability of a new quarantine in the country. Because of this, Interbank revised and adjusted its estimates as of December 31, 2020.

Notes to the consolidated financial statements (continued)

The following is the amount of the expected loss as of December 31, 2020 as determined by the model and the post-model adjustments explained in previous paragraphs:

	Model S/(000)	Post-model adjustments S/(000)	Post-model adjustments – macro projections S/(000)	Total S/(000)
<b>Retail Banking</b>				
Credit Cards	762,212	739,036	222,851	1,724,099
Mortgage	80,858	101,871	5,250	187,979
Consumer	241,363	206,460	74,641	522,464
Payroll loans	145,511	—	—	145,511
Vehicular	17,222	3,323	852	21,397
<b>Total Retail Banking</b>	<u>1,247,166</u>	<u>1,050,690</u>	<u>303,594</u>	<u>2,601,450</u>
<b>Small Business Banking</b>	<u>162,171</u>	<u>79,129</u>	<u>(13,419)</u>	<u>227,881</u>
<b>Commercial Banking</b>				
Corporate	80,952	1,972	4,524	87,448
Institutional	89,348	493	10,423	100,264
Business	2,477	2	686	3,165
Real estate	18,479	—	3,887	22,366
<b>Total Commercial Banking</b>	<u>191,256</u>	<u>2,467</u>	<u>19,520</u>	<u>213,243</u>
<b>Total</b>	<u>1,600,593</u>	<u>1,132,286</u>	<u>309,695</u>	<u>3,042,574</u>

(d.7) Reactiva Peru

The National Government Guarantees Program “Reactiva Peru”, created by Legislative Decree 1455, and amended by Legislative Decree 1457, aims to provide a quick and effective response to the liquidity needs faced by companies due to the impact of Covid-19.

Thus, the Program seeks to ensure the continuity of the payment chain, pledging guarantees to micro, small, medium and large companies so that they can access working capital loans, and, therefore, fulfill their short-term obligations to their workers and suppliers of goods and services.

The Government of Peru, through the Ministry of Economy and Finance, guarantees the loans granted by the Companies of the Financial System (“ESF” by its Spanish acronym). The program was initiated with S/30,000,000,000 in guarantees, subsequently, Legislative Decree 1485 extended the amount of guarantees by S/30,000,000,000 additional, reaching S/60,000,000,000.

The term of the loan guaranteed by “Reactiva Peru” is 36 months, with a 12-month grace period. The maximum loan amount for each beneficiary company is S/10,000,000.

Interest is recorded in a cumulative basis and the collateral execution is made 90 calendar days after the first past due payment. The collateral granted by “Reactiva Peru” covers the outstanding balance of the loan, with a coverage which depending on the loan’s amount, ranges between 80% and 98%.

(d.8) Prospective information

Expected credit losses consider information about the overall credit risk. Information about the overall credit risk must incorporate not only information on delinquency, but also all relevant credit information, including forward-looking macroeconomic information.

In order to comply with the regulatory requirement, it has been determined that the methodology includes the aforementioned effects within the expected loss.

The estimation of expected credit losses will always reflect the possibility of a credit loss, even if the most likely result is not credit loss. Therefore, estimates of expected credit losses are required to reflect a weighted, unbiased amount that is determined by evaluating a range of possible outcomes.

To capture these effects, the Group uses internally developed stress models that seek to stress the probability of default based on different macroeconomic variable projection scenarios.

The Group has defined three possible scenarios for each portfolio: optimistic, base and pessimistic, assigning the following weights to each of them:

- Base – 40%
- Optimistic – 30%
- Pessimistic – 30%

Within the analysis carried out for the projection of probability of default, the projection period determined is 36 months (3 years). For projections after that period, the same information of that last year is considered, because it is deemed that projections beyond this period lose statistical significance, as evidenced by observing thresholds of confidence levels.

## Notes to the consolidated financial statements (continued)

## Macroeconomic variables used as of December 31, 2020

	Scenario	2021	2022	2023
Gross domestic product (annual % var.)	Optimistic	7.7%	9.9%	6.7%
	Base	5,6%	9.4%	6.5%
	Pessimistic	(9.8%)	9.7%	10,4%
Unemployment rate (annual % var.)	Optimistic	8.3%	7.1%	6.0%
	Base	9.3%	7,7%	6.4%
	Pessimistic	14.5%	12.4%	9.1%
Consumption (annual % var.)	Optimistic	11.3%	15.5%	10.7%
	Base	10.3%	15.0%	10.7%
	Pessimistic	0.9%	21.3%	13.6%
Domestic demand (annual % var.)	Optimistic	11.4%	12.3%	8.4%
	Base	10.8%	11.7%	8.4%
	Pessimistic	0.5%	17.7%	11.1%
Purchasing power (annual % var.)	Optimistic	(6.8)%	9.5%	12.2%
	Base	(8.7)%	8.0%	12.3%
	Pessimistic	(16.3%)	0.4%	13.2%
Real compensation (annual % var.)	Optimistic	8.2%	18.5%	14.0%
	Base	5.3%	18.1%	14.5%
	Pessimistic	(5.1%)	13,7%	19.0%
Unit labor costs (annual % var.)	Optimistic	(1.9%)	8.6%	8.4%
	Base	(3.9%)	8.7%	9.0%
	Pessimistic	(5.2%)	(0.7%)	10.3%

Notes to the consolidated financial statements (continued)

Macroeconomic variables used as of December 31, 2019

	Scenario	2020	2021	2022
Gross domestic product (annual % var.)	Optimistic	4.9%	4.2%	3.8%
	Base	2.9%	3.7%	3.6%
	Pessimistic	(2.2%)	2.4%	5.1%
Unemployment rate (annual % var.)	Optimistic	3.3%	(4.7%)	2.7%
	Base	10.4%	(1.5%)	(2.2%)
	Pessimistic	30.9%	28.3%	(17.5%)
Public consumption (annual % var.)	Optimistic	4.3%	3.7%	3.0%
	Base	2.7%	3.0%	2.7%
	Pessimistic	(1.9%)	1.4%	3.8%
Inflation (CPI annual % var.)	Optimistic	2.5%	2.1%	2.2%
	Base	2.3%	2.1%	2.2%
	Pessimistic	4.5%	0.7%	2.1%
Domestic demand (annual % var.)	Optimistic	3.9%	3.8%	4.0%
	Base	2.3%	3.4%	3.6%
	Pessimistic	(2.4%)	2.3%	5.3%
Exchange rate (annual % var.)	Optimistic	(3.5%)	0.7%	0.9%
	Base	(0.4%)	(0.0%)	0.0%
	Pessimistic	18.0%	(6.9%)	(5.9%)
Purchasing power (annual % var.)	Optimistic	1.1%	1.2%	1.8%
	Base	2.2%	0.8%	1.1%
	Pessimistic	1.7%	(0.7%)	(1.7%)
Real compensation (annual % var.)	Optimistic	1.2%	2.9%	3.7%
	Base	2.0%	1.9%	3.0%
	Pessimistic	0.2%	(1.6%)	2.3%

For the determination of these macroeconomic variables, different external sources of recognized prestige have been considered. The impact of these macroeconomic variables on the expected loss differs for each portfolio depending on the sensitivity in each of them.

Notes to the consolidated financial statements (continued)

The following tables summarize the impact of multiple scenarios on the expected credit loss of direct and indirect loans (optimistic, base and pessimistic):

	%	<b>Total</b> S/(000)
<b>December 31, 2020</b>		
Optimistic	30	890,525
Base	40	1,201,155
Pessimistic	30	950,894
<b>Total</b>		<u><u>3,042,574</u></u>

	%	<b>Total</b> S/(000)
<b>December 31, 2019</b>		
Optimistic	30	420,908
Base	40	558,451
Pessimistic	30	455,114
<b>Total</b>		<u><u>1,434,473</u></u>

During 2020, the Group, given the recent context, stressed the model of economic projections in order to capture the uncertainty generated by the Covid-19 pandemic and opted to change the pessimist scenario to a more severe scenario, thus the impact of this change was approximately S/23,000,000.

(\*) Includes the total fair value of the guarantees held by the Group as of December 31, 2020 and 2019, regardless the balance of the loan it guarantees.

Notes to the consolidated financial statements (continued)

(e) Credit risk management for investments

(e.1) Scoring or internal rating and PD:

For this type of financial instruments, the Group analyzes the public information available from international risk rating agencies such as: Fitch, Moody's and Standard & Poor's, and assigns a rating to each instrument.

For each rating agency, the ratings associated with higher to lower credit quality are shown:

<b>Fitch</b>	<b>Moody's</b>	<b>Standard &amp; Poor's</b>
AAA	Aaa	AAA
AA+	Aa1	AA+
AA	Aa2	AA
AA-	Aa3	AA-
A+	A1	A+
A	A2	A
A-	A3	A-
BBB+	Baa1	BBB+
BBB	Baa2	BBB
BBB-	Baa3	BBB-
BB+	Ba1	BB+
BB	Ba2	BB
BB-	Ba3	BB-
B+	B1	B+
B	B2	B
B-	B3	B-
CCC	Caa1	CCC+

The Group determines its risk level according to the following classification as of December 31, 2020 and 2019:

2020	<b>High grade</b> Rating: from AAA to A <b>PD less than or equal to:</b>	<b>Standard grade</b> Rating: from BBB to B <b>PD range</b>	<b>Grade lower than standard</b> Rating: from CCC to C <b>PD equal or higher to:</b>
Global	0.05% - 0.12%	0.13% - 1.96%	22.12%
Latin America	0.00%	0.12% - 3.00%	23.47%
Sovereigns	0.00%	0.00% - 1.26%	26.47%

2019	<b>High grade</b> Rating: from AAA to A <b>PD less than or equal to:</b>	<b>Standard grade</b> Rating: from BBB to B <b>PD range</b>	<b>Grade lower than standard</b> Rating: from CCC to C <b>PD equal or higher to:</b>
Global	0.05% - 0.12%	0.14% - 2.02%	21.68%
Latin America	0.00%	0.14% - 2.87%	25.75%
Sovereigns	0.00%	0.28% - 1.19%	28.13%

Finally, each instrument is assigned a PD according to the transition matrices published by Fitch.

(e.2) Loss given default (LGD):

For those issuers that are classified in Stage 1 or Stage 2 at the reporting date, the Group uses the recovery matrix published by Moody's.

For those investments in Stage 3, an evaluation must be made to determine the severity of the expected loss according to the progress of the recovery process initiated.

(e.3) Exposure at default (EAD):

EAD represents the gross book value of the financial instruments subject to impairment. To calculate the EAD of an investment in Stage 1, possible non-compliance events are evaluated within 12 months. For financial assets in Stage 2 and Stage 3, exposure at default is determined for events throughout the life of the instrument.

(e.4) Significant increase in credit risk:

The Group has assumed that the credit risk of a financial instrument has not increased significantly since the initial recognition if it is determined that the investment has a low credit risk at the reporting date, which occurs when the issuer has a strong ability to meet its contractual cash flow obligations in the near term and adverse changes in economic and business conditions in the long term may reduce, but not necessarily, the ability of the issuer to meet its cash flow obligations contractual cash.

In accordance with the assignment of ratings to each debt instrument, the Group determines whether there is a significant increase in credit risk by comparing the rating at the date of acquisition with the rating at the reporting date, and designates the Stage in which each debt instrument is classified according to the quantitative and qualitative criteria, defined as follows:

(i) Quantitative criteria -

The Group holds an investment that does not present a significant increase in risk if there is a movement of its credit risk rating within the investment grade. In case there is a movement of its credit risk rating outside the investment grade, it is deemed that the instrument presents a significant increase in risk.

(ii) Qualitative criteria -

The Group periodically evaluates the following warning signs and criteria to assess whether the financial instrument presents a significant risk increase (stage 2) at the reporting date:

- Significant decrease (30 percent of its original value) and prolonged (12 months) of the market value of the investment.
- Infringements of covenants without a waiver from the bondholders committee.
- Forced interventions by governments in the primary and secondary markets of the issuers.
- Linkage of the issuer in illicit, political and fraud activities.
- Impairment of collateral (underlying assets) in the case of securitized instruments.
- Delays or short and frequent breaches in the payment of coupons.
- Macroeconomic, regulatory, social, technological and environmental changes are significantly adverse.
- Other evaluations and/or alerts made by each Subsidiary (financial statements, evaluation of EBIT, financial indicators by industry, regulatory criteria, others).

Notes to the consolidated financial statements (continued)

(g) Offsetting of financial assets and liabilities

The information contained in the tables below includes financial assets and liabilities that:

- Are offset in the statement of financial position of the Group; or
- Are subject to an enforceable master netting arrangement or similar agreement that covers similar financial instruments, regardless of whether they are offset in the consolidated statement of financial position or not.

Similar arrangements of the Group include derivatives clearing agreements. Financial instruments such as loans and deposits are not disclosed in the following tables since they are not offset in the consolidated statement of financial position.

The offsetting framework agreement issued by the International Swaps and Derivatives Association Inc. ("ISDA") and similar master netting arrangements do not meet the criteria for offsetting in the statement of financial position, because of such agreements were created in order for both parties to have an enforceable offsetting right in cases of default, insolvency or bankruptcy of the Group or the counterparties or following other predetermined events. In addition, the Group and its counterparties do not intend to settle such instruments on a net basis or to realize the assets and settle the liabilities simultaneously.

The Group receives and delivers guarantees in the form of cash with respect to transactions with derivatives; see Note 4.

Notes to the consolidated financial statements (continued)

(g.1) Financial assets subject to offsetting, enforceable master netting arrangements and similar agreements as of December 31, 2020 and 2019, are presented below:

	Gross amounts of recognized financial assets S/(000)	Gross amounts of recognized financial liabilities and offset in the consolidated statement of financial position S/(000)	Net amounts of financial assets presented in the consolidated statement of financial position S/(000)	Related amounts not offset in the consolidated statement of financial position		Net amount S/(000)
				Financial instruments (including non-cash guarantees) S/(000)	Cash guarantees received S/(000)	
<b>2020</b>

### 30.2 Market risk management

Market risk is the possibility of loss due to variations in the financial market conditions. The main variations to which the Group is exposed to are exchange rates, interest rates and prices. Said variations can affect the value of the Group's financial assets and liabilities.

During the Covid-19 pandemic crisis, market risks were affected by increased market volatility, as well as changes related to government action. Regarding the Trading Book, the portfolios were affected since March 2020 by increased volatility in asset prices; however, since the Group's position in the Trading Book is relatively small, the impacts were not significant.

On the other hand, the Banking Book was also impacted by the pandemic and the government program "Reactiva Peru" promoted the placement of guaranteed credits with funding through repurchase agreements, whose effect was that both Interbank's assets and liabilities are increased with maturity positions between one and three years. Likewise, this program had a significant positive impact on the liquidity level of the entire financial system. Even though these new positions were relevant, the rate risk indicators remained stable as the new positions basically offset each other.

The Group separates its exposure to market risk into two blocks: (i) the one that arises from the fluctuation of the value of the trading investment portfolios, due to movements of market rates or prices ("Trading Book") and; (ii) the one that arises from the changes in the structural positions ("Banking Book") due to movements in interest rates, prices and exchange rates.

#### (a) Trading Book -

In order to control and monitor the risks arising from the volatility of risk factors involved within each instrument, maximum exposure limits by currency, by type of investment and Value-at-Risk ("VaR"), which are controlled on a daily basis, have been established.

The main measurement technique used to measure and control market risk is VaR, which is a statistical measurement that quantifies the maximum loss expected for a period of time and a determined significance level under normal market conditions. The Group uses the VaR model for a period of one day, and a 99-percent confidence level. VaR is calculated by risk factor: interest rate, price or exchange rate and by type of investment: derivatives, fixed income and variable income.

VaR models are designed to measure the market risk within a normal market environment. Since VaR is based mainly on historical data to provide information and does not clearly predict future changes and modifications in risk factors, the probability of big market movements may be underestimated. VaR can also be under or overestimated due to the hypotheses made on the risk factors and the relation among these factors with the specific instruments. In order to determine the reliability of VaR models, the actual results are regularly monitored to prove the validity of the assumptions and parameters used in the calculation of VaR.

The Group includes within the VaR calculation the potential loss that may arise from the exposure to exchange rate risk. This risk is included in the VaR calculation because the exchange position is the result of the spot position plus the position in derivative products. Likewise, the total VaR includes the diversification effect that arises as a result of the interaction of the various market risk factors to which the Group is exposed.

Notes to the consolidated financial statements (continued)

The validity of the VaR calculation is proven through back-testing, which uses historical data to ensure that the model adequately estimates the potential losses. Additionally, the sensitivity of risk factors is calculated, which shows the potential portfolio losses in the event of certain fluctuations in factors. Said fluctuations include: interest rate shocks, exchange rate shocks and price shocks.

The VaR results of the Group's portfolio by type of asset are presented below:

	2020 S/(000)	2019 S/(000)
Equity investments	49,623	13,225
Debt investments	5,473	1,405
Derivatives and/or exchange position	6,549	3,942
Diversification effect	(15,785)	(4,434)
Consolidated VaR by type of asset (*)	<u>45,860</u>	<u>14,138</u>

The Group's VaR results by type of risk are the following:

	2020 S/(000)	2019 S/(000)
Exchange rate risk	7,251	10,655
Interest rate risk	2,648	1,126
Price risk	55,257	3,865
Diversification effect	(19,296)	(1,508)
Consolidated VaR by type of risk (*)	<u>45,860</u>	<u>14,138</u>

(\*) The total VaR is lower than the sum of its components due to the benefits of risk diversification.

(b) Banking Book -

The portfolios which are not for trading are exposed to different financial risks, since they are sensitive to movements of the market rates, which can result in a negative effect on the value of the assets compared to its liabilities and; therefore, on its net value.

(i) Interest rate risk

Interest rates fluctuate permanently on the market. These fluctuations affect the Group in two ways: first, through the change in the valuation of assets and liabilities; and secondly, affecting the cash flows at repricing. The variation in the valuation of assets and liabilities is increasingly sensitive as the term at which the asset or liability is repriced is extended. This process consists in the assessment of repricing periods. On the other hand, cash flows are affected when the instruments reach maturity, when they are invested or placed at new interest rates effective in the market.

Repricing gap

An analysis of the repricing gaps is performed in order to determine the impact of the interest rates movements. Said analysis consists of assigning the balances of the operations that will change the interest rate into different time gaps. Based on this analysis, the impact of the variation in the valuation of assets and liabilities on each gap is calculated.

Notes to the consolidated financial statements (continued)

- (i.1) The following table summarizes the Group's exposure to interest rate risk. The Group's financial instruments are presented at book value (including interest accrued), classified by the repricing period of the contract's interest rate or maturity date, whichever occurs first:

	As of December 31, 2020						Total S/(000)
	Up to 1 month S/(000)	From 1 to 3 months S/(000)	From 3 to 12 months S/(000)	From 1 to 5 years S/(000)	More than 5 years S/(000)	Non-interest bearing S/(000)

(i.2) Sensitivity to changes in interest rates -

The exposure to the interest rate is supervised by the GIR Committee and the ALCO Committee. The GIR Committee approves the various limits applicable to the financial instruments' management. The ALCO Committee analyzes and monitors the results of the asset and liability management strategies and decisions implemented. Likewise, it defines the strategies and analyzes the sources of financing, as well as the coverage of the balance executed by the Bank. In particular, the latter could be considered to cover the exposure due to the variation in cash flows attributed to changes in variable market rates, to fix the cost of funds considering the global context of future movement of rates in the currencies under evaluation, to transform the cost of funds from foreign currency to the functional currency, among other casuistic as reviewed and approved by the Committee, considering the risk limits.

In this regard, the effect of movements in interest rates is analyzed on the basis of the Regulatory Model and takes into account: (i) the financial margin for the next 12 months or Earning at Risk (EaR) and (ii) the Equity Value at Risk (EVaR), as detailed below:

- Earning at Risk indicator, calculated as a percentage of the equity
- Cash, the legal limit of 5 percent and an early warning of 4 percent are set.
- Value at Risk indicator, calculated as a percentage of the effective equity, establishes the internal limit of 15 percent and an early warning of 13 percent.

Thus, interest rate risk is managed and supervised by monitoring the aforementioned indicators, which allows Management to assess the potential effect of interest rates movements on the Group's financial margin and thus manage the terms and the fixed and/or variable yields generated by the financial instruments held by the Group, including strategies on the derivative financial instruments designated as hedge accounting.

For its part, the GIR Committee oversees the approval levels of structural interest-rate risk capacity and appetite, which are detailed in the Bank's Risk Appetite Framework.

In the case of Interseguro and Inteligo Bank, their Boards establish limits, which are controlled by their respective Investment Risk Unit.

Notes to the consolidated financial statements (continued)

The table below presents the sensitivity to a possible change in interest rates, with all other variables kept constant, in the consolidated statement of income and in the consolidated statement of changes in equity, before Income Tax and non-controlling interest.

Currency	Changes in basis points	As of December 31, 2020	
		Sensitivity of net income S/(000)	Sensitivity of other net comprehensive income S/(000)
US Dollar	+/-25	+/- 6,182	+/- 141,881
US Dollar	+/-50	+/- 12,363	+/- 284,009
US Dollar	+/-75	+/- 18,541	+/- 426,629
US Dollar	+/-100	+/- 24,717	+/- 569,991
Sol	+/-50	-/+ 25,111	-/+ 408,975
Sol	+/-75	-/+ 37,661	-/+ 614,760
Sol	+/-100	-/+ 50,207	-/+ 821,425
Sol	+/-150	-/+ 75,291	-/+ 1,239,666

Currency	Changes in basis points	As of December 31, 2019	
		Sensitivity of net income S/(000)	Sensitivity of other net comprehensive income S/(000)
US Dollar	+/-25	+/- 3,489	+/- 98,418
US Dollar	+/-50	+/- 6,977	+/- 197,039
US Dollar	+/-75	+/- 10,464	+/- 296,072
US Dollar	+/-100	+/- 13,950	+/- 395,726
Sol	+/-50	-/+ 17,240	-/+ 436,439
Sol	+/-75	-/+ 25,857	-/+ 655,985
Sol	+/-100	-/+ 34,473	-/+ 876,509
Sol	+/-150	-/+ 51,700	-/+ 1,322,800

The interest rate sensitivities shown in the tables above are only illustrative and are based on simplified scenarios. The figures represent the effect of the pro-forma movements in the net interest income based on the projected scenarios yield curve and the Group's current interest rate risk profile. However, this effect, does not include actions that would be taken by Management to mitigate the impact of this interest rate risk. In addition, the Group seeks proactively to change the interest rate risk profile to minimize losses and optimize net revenues. The above projections also assume that interest rate of all maturities move by the same amount and, therefore, do not reflect the potential impact on net interest income of some rates changing while others remain unchanged. The projections also include assumptions to facilitate calculations, such as that all positions are held to maturity.

Notes to the consolidated financial statements (continued)

(i.3) Sensitivity to price variation -

Shares classified as investments at fair value through other comprehensive income, for the years 2020 and 2019, are not considered as part of the investments for interest rate sensitivity calculation purposes. However, a calculation of sensitivity in market prices and the effect on expected unrealized gain or loss in the consolidated statement of other comprehensive income, before Income Tax and non-controlling interest, as of December 31, 2020 and 2019, is presented below:

	Changes in market price %	2020 S/(000)	2019 S/(000)
<b>Sensitivity to market price</b>			
Shares	+/-10	137,355	112,572
Shares	+/-25	343,387	281,431
Shares	+/-30	412,064	337,717

Notes to the consolidated financial statements (continued)

(ii) Foreign exchange risk

The Group is exposed to fluctuations in the exchange rates of the foreign currency prevailing in its financial position and cash flows. Management sets limits on the levels of exposure by currency and total daily and overnight positions, which are monitored daily. Most of the assets and liabilities in foreign currency are stated in US Dollars. Transactions in foreign currency are made at the exchange rates of free market.

As of December 31, 2020, the weighted average exchange rate of free market published by the SBS for transactions in US Dollars was S/3.618 per US\$1 bid and S/3.624 per US\$1 ask (S/3.311 and S/3.317 as of December 31, 2019, respectively). As of December 31, 2020, the exchange rate for the accounting of asset and liability accounts in foreign currency set by the SBS was S/3.621 per US\$1 (S/3.314 as of December 31, 2019).

The table below presents the detail of the Group's position:

	As of December 31, 2020			
	US Dollars S/(000)	Soles S/(000)	Other currencies S/(000)	Total S/(000)

Notes to the consolidated financial statements (continued)

As of December 31, 2020, the Group granted indirect loans (contingent operations) in foreign currency for approximately US\$634,242,000, equivalent to S/2,296,590,000 (US\$683,214,000, equivalent to S/2,264,171,000 as of December 31, 2019); see Note 18.

The Group manages the exchange rate risk through the matching of its active and passive operations, supervising its global exchange position daily. The global exchange position of the Group is equivalent to long positions minus short positions in currencies other than the Sol. The global exchange position includes balance positions (spot) and the positions in derivatives, including the positions of derivatives that have been designated as accounting hedges with the purpose of covering the exposure due to the variation of the exchange rate; see Note 10(b). Any depreciation/appreciation of the foreign currency would affect the consolidated statement of income. An imbalance in the monetary position would make the Group's consolidated statement of financial position vulnerable to the fluctuation of the foreign currency (exchange rate "shock").

The table below shows the analysis of variations of the US Dollar, the main foreign currency to which the Group has exposure as of December 31, 2020 and 2019. The analysis determines the effect of a reasonably possible variation of the exchange rate US Dollar to the Sol, considering all the other variables constant in the consolidated statement of other comprehensive income before Income Tax. A negative amount shows a potential net reduction in the consolidated statement of income, while a positive amount reflects a net potential increase:

Sensitivity analysis	Changes in currency rates %	2020 S/(000)	2019 S/(000)
<b>Devaluation</b>			
US Dollar	5	(22,242)	(27,837)
US Dollar	10	(44,483)	(55,674)
US Dollar	15	(66,725)	(83,511)
<b>Revaluation</b>			
US Dollar	5	22,242	27,837
US Dollar	10	44,483	55,674
US Dollar	15	66,725	83,511

### **30.3 Liquidity risk**

Liquidity risk consists in the Group's inability to comply with the maturity of its obligations, thus incurring in losses that significantly affect its equity position. This risk may arise as a result of various events such as: the unexpected decrease of funding sources, the inability to rapidly settle assets, among others.

The Group has a set of indicators that are controlled and reported daily, which establish the minimum liquidity levels allowed for the short-term and reflect several risk aspects such as: concentration, stability, position by currency, main depositors, etc.

Likewise, the Group assesses medium-term and long-term liquidity through a structural analysis of its funds inflows and outflows in different maturity terms. This process allows to know, for each currency, the various funding sources, how liquidity needs increase and which terms are mismatched. Both for assets and liabilities, assumptions are considered for the operations that do not have determined maturity dates, such as revolving loans, savings and similar ones, as well as contingent liabilities, such as non-used letters of credit or lines of credit. Based on this information, the necessary decisions to maintain target liquidity levels are made.

In the case of Interbank, liquidity is managed by the Vice-Presidency of Capital Markets, which chairs the ALCO Committee, where positions, movements, indicators and limits on liquidity management are presented. Liquidity risk is supervised by the GIR Committee, defining the risk level that Interbank is willing to take and the corresponding indicators, limits and controls are reviewed. The Market Risk Division is in charge of tracking said indicators. Interbank takes short-term deposits and transforms them into longer-term loans. Therefore, its exposure to liquidity risk increases. Interbank maintains a set of deposits that are historically renewed or maintained, and which represent a stable funding source.

In the case of Interseguro, it is exposed to requirements other than their cash resources, mainly claims resulting from their short-term insurance contracts. The Board of Directors of the company establishes limits on the minimum proportion of the maturity funds available to meet these requirements and in a minimum level of lines of credit that must be available to cover claims at unexpected claim levels.

With regards to long-term insurance contracts, considering the types of products offered and the long-term contractual relationship with clients (the liquidity risk is not material) the emphasis is on sufficient availability of flow of assets, and the term matching of the latter with the liability obligations (mathematical technical reserves), for which there are sufficiency and adequacy indicators.

In the case of Inteligo Bank, the Board of Directors has established liquidity levels as to the minimum amount of available funds required to meet such requirements and the minimum level of inter-banking facilities and other loan mechanisms that should exist to cover unexpected withdrawals. Inteligo Bank holds a short-term asset portfolio comprised of loans and investments to ensure sufficient liquidity.

Inteligo Bank's financial assets include unlisted equity investments, which generally are illiquid. In addition, Inteligo Bank holds investments in closed (unlisted) and open-ended investment funds, which may be subject to redemption restrictions such as "side pockets" and redemption limits. As a result, Inteligo Bank may not be able to settle some of its investments in these instruments in due time in order to meet its liquidity requirements.

Notes to the consolidated financial statements (continued)

The following table presents the Group's undiscounted cash flows payable according to contractual terms agreed (including the payment of future interest):

	As of December 31, 2020					Total S/(000)
	Up to 1 month S/(000)	From 1 to 3 months S/(000)	From 3 to 12 months S/(000)	From 1 to 5 years S/(000)	Over 5 years S/(000)	
<b>Financial liabilities by type -</b>

30.4 Operational risk

Operational risk is the risk of loss arising from systems failure, human error, fraud or external events. When internal controls fail, operational risks can cause damage to reputation, have legal or regulatory implications, or lead to financial loss. The Group cannot expect to eliminate all operational risks, but through a control framework and by monitoring and responding to potential risks, the Group is able to manage these risks. Controls include mainly the segregation of duties, accesses, authorization and reconciliation procedures, staff training and assessment processes, including the review by Internal Audit.

The Group's Management has focused its attention on the implications of the Covid-19 pandemic on the development of its operations. In this regard, a number of measures were implemented that ensured the remote work of its workers within the optimal parameters of information technology and cybersecurity systems.

30.5 Insurance risk management

The risk under an insurance contract, in any of its various forms, is the possibility that the insured event occurs and; therefore, uncertainty is realized in the amount of the resulting claim. Given the nature of the insurance contract, this risk is aleatory and; therefore, unpredictable.

Regarding a portfolio of insurance contracts where the theory of large numbers and probabilities for pricing and provisions is applied, the main risk faced by the insurance business of the Group, managed by Interseguro, is that claims and/or payments of benefits covered by the policies exceed the book value of insurance liabilities. This could happen to the extent that the frequency and/or severity of claims and benefits are higher than estimated. The factors that are considered to perform the assessment of insurance risks are the following:

- Frequency and severity of claims;
- Sources of uncertainty in the calculation of payment of future claims;
- Mortality tables for different coverage plans in the life insurance segment;
- Changes in market rates of investments that directly affect the discount rates to calculate mathematical reserves; and
- Specific requirements established by the SBS according to insurance plans.

On the other hand, Interseguro has signed contracts of automatic reinsurance coverage mainly in credit life, retirement and life insurances that protect it from losses due to frequency and severity. The objective of this reinsurance negotiation is that the total net insurance losses do not affect the equity and liquidity of Interseguro. Interseguro's policy is to sign contracts with companies with international rating determined by SBS rules. Annuities contracts do not have reinsurance coverage.

(a) Life insurance contracts -

Interseguro has developed its insurance underwriting strategy in order to diversify the type of insurance risks accepted. Factors that aggravate the insurance risk include lack of risk diversification in terms of type and amount of risk and geographic location. The underwriting strategy aims to ensure that underwriting risks are well diversified in terms of type and amount of risk. Underwriting limits serve to implement the selection criteria for appropriate risk. As of December 31, 2020 and 2019, most of the insurance contracts entered into by Interseguro are located in the city of Lima.

The sufficiency of reserves is a principle of insurance management. Technical reserves for claims and premiums are estimated by Interseguro's actuaries and reviewed by independent experts when deemed necessary.

Interseguro's Management constantly monitors trends in claims, which allows it to perform estimates of claims incurred but not reported (IBNR) that are supported by recent information.

On the other hand, Interseguro is exposed to the risk that mortality and morbidity rates associated with customers do not reflect the actual mortality and morbidity and may cause the premium calculated for the coverage offered to be insufficient to cover claims. For this reason, Interseguro performs a careful risk selection or underwriting when issuing policies, because by doing so it can classify the degree of risk presented by a proposed insured, analyzing characteristics such as gender, smoking condition, health condition, among others.

In the particular case of annuities, the risk assumed by Interseguro is that the real life expectancy of the insured population is greater than that estimated when determining income, which would mean a deficit of reserves to comply with the payment of pensions.

On the other hand, insurance products do not have particularly relevant terms or clauses that could have a significant impact or represent significant uncertainties over Interseguro's cash flows.

(b) Real estate risk management -

Real estate risk is defined as the possibility of losses due to changes or volatility of market prices of properties; see Note 7. Investment properties are held by Interseguro in order to manage its long term inflows and match its technical reserves. SBS Resolution No. 2840-2012, dated May 11, 2012, "Regulations on Real Estate Risk Management in Insurance Companies", requires that insurance companies adequately identify, measure, control and report the real estate risk level they are exposed to.

Notes to the consolidated financial statements (continued)

Additionally, Interseguro has identified the following risks associated with its real estate portfolios:

- The cost to develop a project may increase if there are delays in the planning process; however, Interseguro receives services from advisors in order to reduce the risks that may arise in the planning process.
- A major lessee may become insolvent thus causing a significant loss in rental income and a reduction in the value of the associated property. To reduce this risk, Interseguro reviews the financial position of all prospective lessees and decides on the appropriate level of safety required, such as lease deposits or guarantees.
- The fair values of the investment property could be affected by the cash flows generated by the tenants and/or lessees, as well as by the economic conditions of Peru and future expectations

30.6 Capital management

The Group manages in an active manner a capital base in order to cover the risks inherent to its activities. Capital adequacy of the Group is monitored by using regulations and ratios established by the different regulators. See Note 16(f).

**31. Fair value**

- (a) Financial instruments measured at their fair value and fair value hierarchy

The following table presents an analysis of the financial instruments that are measured at their fair value, including the level of hierarchy of fair value. The amounts are based on the balances presented in the consolidated statement of financial position:

	As of December 31, 2020			
	Level 1 S/(000)	Level 2 S/(000)	Level 3 S/(000)	Total S/(000)
<b>Financial assets</b>				
<b>Financial investments</b>				
At fair value through profit or loss (*)	577,438	986,627	478,712	2,042,777
Debt instruments measured at fair value through other comprehensive income	10,247,432	7,654,920	—	17,902,352
Equity instruments measured at fair value through other comprehensive income	1,329,471	7,867	36,210	1,373,548
<b>Derivatives receivable</b>	—	395,249	—	395,249
	<u>12,154,341</u>	<u>9,044,663</u>	<u>514,922</u>	<u>21,713,926</u>
Accrued interest				251,140
<b>Total financial assets</b>				<u>21,965,066</u>
<b>Financial liabilities</b>				
<b>Derivatives payable</b>	<u>—</u>	<u>271,326</u>	<u>—</u>	<u>271,326</u>

- (\*) As of December 31, 2020 and 2019, correspond mainly to participations in mutual funds and investment funds.

	As of December 31, 2019			
	Level 1 S/(000)	Level 2 S/(000)	Level 3 S/(000)	Total S/(000)
<b>Financial assets</b>				
<b>Financial investments</b>				
At fair value through profit or loss (*)	682,341	381,844	487,352	1,551,537
Debt instruments measured at fair value through other comprehensive income	10,779,395	3,230,634	—	14,010,029
Equity instruments measured at fair value through other comprehensive income	1,119,620	6,102	—	1,125,722
<b>Derivatives receivable</b>	—	220,776	—	220,776
	<u>12,581,356</u>	<u>3,839,356</u>	<u>487,352</u>	<u>16,908,064</u>
Accrued interest				178,444
<b>Total financial assets</b>				<u>17,086,508</u>
<b>Financial liabilities</b>				
<b>Derivatives payable</b>	<u>—</u>	<u>222,305</u>	<u>—</u>	<u>222,305</u>

- (\*) As of December 31, 2020 and 2019, correspond mainly to participations in mutual funds and investment funds.

Notes to the consolidated financial statements (continued)

Financial assets included in Level 1 are those measured on the basis of information that is available on the market, to the extent that their quoted prices reflect an active and liquid market and that are available in some centralized trading mechanism, trading agent, price supplier or regulatory entity.

Financial instruments included in Level 2 are valued based on the market prices of other instruments with similar characteristics or with financial valuation models based on information of variables observable in the market (interest rate curves, price vectors, etc.).

Financial assets included in Level 3 are valued by using assumptions and data that do not correspond to prices of operations traded on the market. The valuation requires Management to make certain assumptions about the model variables and data, including the forecast of cash flow, discount rate, credit risk and volatility.

During the year 2020, there were transfers of certain financial instruments from Level 1 to Level 2 for the amount of S/4,116,507,000, because they stopped being actively traded during the year and, therefore, fair values were obtained by using observable market data. There were no transfers of financial instruments from Level 3 to Level 1 or Level 2 or viceversa.

During the year 2019, there were neither transfers of financial instruments from Level 3 to Level 1 or Level 2, nor from Level 1 to Level 2.

The table below presents a description of significant unobservable data used in valuation:

	Valuation technique	Significant unobservable inputs	Valuation	Sensitivity of inputs to fair value
Royalty Pharma	DCF Method	NAV	215.19	10 percent increase (decrease) in the NAVs would result in increase (decrease) in fair value by S/10,754,000.
Private equity funds	DCF Method	NAV	Depends on each investment	10 percent increase (decrease) in the NAVs would result in increase (decrease) in fair value by S/27,983,000.
Zipline International Inc.	Equity method	—	According to credit risk	500 basis points increase (decrease) in the discount rate would result in a decrease in fair value of S/1,811,000.

The Group determined the fair values of investments included in Level 3 mainly by using methods such as the discounted cash flow, comparable multiples and/or equity method. Starting in 2020, the Group performed changes in the determination of the estimates for the fair value of these investments considering the nature of themselves, as well as the underlying assets and the information to which it had access on the valuation date; concluding that the best valuation method for these investments is the use of the net asset value ("NAV"). It should be noted that the change in this estimate did not have a significant impact with respect of the valuation as of December 31, 2019.

The table below includes a reconciliation of fair value measurement of financial instruments classified by the Group within Level 3 of the valuation hierarchy:

	2020 S/(000)	2019 S/(000)
<b>Initial balance as of January 1</b>	<b>487,352</b>	<b>407,957</b>
Purchases	155,198	222,098
Sales	(272,711)	(150,575)
Gain recognized on the consolidated statement of income	145,083	7,872
<b>Balance as of December 31</b>	<b>514,922</b>	<b>487,352</b>

Notes to the consolidated financial statements (continued)

(b) Financial instruments not measured at their fair value -

The table below presents the disclosure of the comparison between the carrying amounts and fair values of the Group's financial instruments that are not measured at their fair value, presented by level of fair value hierarchy:

	As of December 31, 2020					As of December 31, 2019				
	Level 1 S/(000)	Level 2 S/(000)	Level 3 S/(000)	Fair value S/(000)	Book value S/(000)	Level 1 S/(000)	Level 2 S/(000)	Level 3 S/(000)	Fair value S/(000)	Book value S/(000)
<b>Assets</b>

Due to banks and correspondents	—	9,686,361	—	9,686,361	9,660,877	—	3,982,373	—	3,982,373	3,979,637
Bonds, notes and other obligations	6,856,829	1,405,383	—	8,262,212	7,778,751	5,073,917	2,044,630	—	7,118,547	6,890,290
Due from customers on acceptances	—	16,320	—	16,320	16,320	—	139,685	—	139,685	139,685
Insurance contract liabilities	—	12,501,723	—	12,501,723	12,501,723	—	11,426,631	—	11,426,631	11,426,631
Other accounts payable and other liabilities	—	1,732,461	—	1,732,461	1,732,461	—	1,546,422	—	1,546,422	1,546,422
<b>Total</b>	<u>6,856,829</u>	<u>72,517,296</u>	<u>—</u>	<u>79,374,125</u>	<u>78,868,378</u>	<u>5,073,917</u>	<u>57,408,520</u>	<u>—</u>	<u>62,482,437</u>	<u>62,245,027</u>

The methodologies and assumptions used to determine fair values depend on the terms and risk characteristics of each financial instrument and they include the following:

- Long-term fixed-rate and variable-rate loans are assessed by the Group based on parameters such as interest rates, specific country risk factors, individual creditworthiness of the customer and the risk characteristics of the financed project. Based on this evaluation, allowances are taken into account for the estimated losses of these loans. As of December 31, 2020 and 2019, the book value of loans, net of allowances, was not significantly different from the calculated fair values.
- Instruments whose fair value approximates their book value: For financial assets and financial liabilities that are liquid or have short-term maturity (less than 3 months) it is assumed that the carrying amounts approximate to their fair values. This assumption is also applied to demand deposits, savings accounts without a specific maturity and variable-rate financial instruments.
- Fixed-rate financial instruments: The fair value of fixed-rate financial assets and financial liabilities at amortized cost is determined by comparing market interest rates when they were first recognized with current market rates related to similar financial instruments for their remaining term to maturity. The fair value of fixed interest rate deposits is based on discounted cash flows using market interest rates for financial instruments with similar credit risk and maturity. For quoted debt issued, the fair value is determined based on quoted market prices. When quotations are not available, a discounted cash flow model is used based on the yield curve of the appropriate interest rate for the remaining term to maturity.

**32. Fiduciary activities and management of funds**

The Group provides custody, trustee, investment management and advisory services to third parties; therefore, the Group makes purchase and sale decisions in relation to a wide range of financial instruments. Assets that are held in trust are not included in the consolidated financial statements. These services give rise to the risk that the Group could eventually be held responsible of poor yielding of the assets under its management.

As of December 31, 2020 and 2019, the value of the managed off-balance sheet financial assets is as follows:

	<b>2020</b> S/(000)	<b>2019</b> S/(000)
Investment funds	15,008,109	13,243,888
Mutual funds	5,980,724	5,049,034
<b>Total</b>	<b>20,988,833</b>	<b>18,292,922</b>

**DESCRIPTION OF SECURITIES REGISTERED PURSUANT TO SECTION 12 OF  
THE SECURITIES EXCHANGE ACT OF 1934**

The following summary provides material information concerning our common shares and briefly describes significant provisions of our *pacto social* (articles of incorporation) and Panama corporate law.

**Dividend and Liquidation Rights**

Payment of dividends is proposed by our board of directors and authorized by our shareholders at a general meeting of the shareholders. According to Panama's Corporation Law (Law 32 of 1927), dividends may be paid to our shareholders from the net earnings or profits of the company or from the surplus of its assets over its liabilities, but not otherwise. In accordance with Article 37 of Panama's Corporation Law, we may declare and may pay out dividends on the basis of the amount actually paid on partially paid shares of stock. Since we are not subject to payment of Panamanian income tax, dividends payable by us are not subject to a Panamanian income or dividend tax nor to any Panamanian withholding tax. See the section entitled "Taxation—Panamanian Taxation" in our annual report on Form 20-F for the year ended December 31, 2020.

Upon our liquidation, our shareholders would be entitled to receive proportionately any assets remaining after payment of our debt, taxes and liquidation expenses.

**Shareholders' Meetings and Voting Rights**

Pursuant to Panamanian corporate law, general meetings of shareholders, whether ordinary or extraordinary, shall be held in the Republic of Panama, unless the articles of incorporation or bylaws of the corporation shall provide for such meetings to be held elsewhere.

Our articles of incorporation provide that general meetings of shareholders, whether ordinary or extraordinary, may be held in any place or country. Meetings of shareholders shall be held at such dates and in such places as our board of directors shall determine. However, the general shareholders' meeting must be held on an annual basis during the four months following the closing of the Company's fiscal year. Extraordinary meetings may be called by the board of directors or by the president, whenever they deem convenient. Furthermore, an extraordinary general meeting of shareholders must be called by the board of directors or the president whenever so requested in writing by one or more shareholders representing at least 20% of all our shares issued and outstanding. Pursuant to Article 420 of the Commercial Code (*Código de Comercio*) of Panama, one or more shareholders whose shares represent at least one twentieth of the share capital, if the Articles of Incorporation or the Statutes (*Estatutos*) do not grant this right to shareholders with less representation, can request a judicial call for a shareholders' meeting.

Only such matters that have been included in the notice of meeting may be dealt with at the extraordinary general meeting of shareholders.

Notice of any general meeting of shareholders, whether ordinary or extraordinary, shall be given at least five days and not more than 60 days prior to the date of the meeting by publishing the notice once in a newspaper of general circulation in the city of Panama, Republic of Panama.

Action is taken at ordinary meetings on the following matters: the approval of the management carried out by our directors, the approval of the annual accounts from the previous fiscal year, the application of the previous fiscal year's income or loss, the election of the members of our board of directors and the determination of their remuneration, the election of the president of the Company, the designation of our external auditors or their appointment by our board of directors, when necessary, and any other matter within the powers of the shareholders as set forth in our articles of incorporation as included in the agenda approved by the board of directors for each shareholders meeting.

Action is taken at extraordinary meetings on the following matters: the removal of members of the Board of Directors and the appointment of their replacements, the amendment of the by-laws, the increase or reduction of share capital, the issuance of obligations, the agreement on the disposal, in a single act, of assets which accounting value exceeds 50% of the registered share capital of the company, the arrangement of investigations and special audits, the agreement on the transformation, merger, division, reorganization or dissolution of the company, as well as its liquidation, or any other matter within the powers of the shareholders specified in the agenda.

Our articles of incorporation further provide that shares have the same rights and privileges and, except for the provisions regarding the election of directors, in which the articles of incorporation provides for cumulative voting, each shall have one vote. Only holders of common shares are entitled to attend general meetings of shareholders.

The shareholders may be counted as present and may vote at any meeting either by way of their legal representatives or by way of proxies appointed by public or private document, with or without the power of substitution.

Our articles of incorporation provide that, on the first call of any ordinary or extraordinary general shareholders' meeting, the presence in person or by proxy of shareholders representing at least one-half plus one of the shares issued and outstanding will constitute a quorum. If on the first call a quorum is not present, the meeting can be reconvened through a second call, at which meeting a quorum shall be obtained with the number of shareholders present or represented therein.

All resolutions of a general meeting of shareholders shall be adopted by the affirmative vote of a shareholder or shareholders representing one-half plus one of the shares present, except those enumerated hereunder, for which the affirmative vote of one-half plus one of the shares issued and outstanding shall be necessary: (a) to amend the articles of incorporation; (b) to issue obligations for more than 50% of the registered capital of the Company; (c) to encumber or pledge the property of the Company to secure obligations of others for an amount exceeding 50% of the registered capital of the Company as the same has been determined by the external auditors of the company; (d) to approve mergers with other corporations; (e) to dissolve or liquidate the company or spin-off assets; and (f) to remove the directors of the Company from office.

In the election of members of the board of directors, each shareholder shall be entitled to cast a number of votes equal to the number of shares held by or for him, multiplied by the number of directors to be elected, it being understood that such shareholder may cast all his/her votes for a single candidate, or distribute them among the total number of directors to be elected or among two or more thereof, as he/she may deem appropriate.

According to provisions of Panama corporate law, a resolution passed in a shareholders' meeting is binding on all shareholders, but in no case can a vote of the majority deprive the shareholders of vested rights or impose upon them a resolution of any kind inconsistent with the corporation's constitutive documents, except as provided by law. Any shareholder shall be entitled to protest against resolutions passed in a general meeting of shareholders in violation of the law, the articles of incorporation or the bylaws, and may sue in a competent court to have the same annulled. Within a peremptory 30 days, if requested by the plaintiff, and should the court deem the matter urgent, a judge may stay the execution of the resolution until the petition has been adjudged. Such a stay of execution shall not be ordered if the shareholder upon suing does so by ordinary proceedings.

### **Shareholder Suits**

Under Panama corporate law, directors shall not be personally liable for the obligations of the company, but they shall be individually or severally liable, as the case may be, to the company and to third parties for the effectiveness of payments, which appear as having been made by the shareholders, the existence of the dividends declared, the sound management of the company's accounting and, in general, for the

wrongful execution or poor performance of their mandate or the violation of laws, the articles of incorporation, the by-laws or resolutions of the general shareholders' meeting. Such directors as may have protested within proper time against the resolutions of the majority, or those who have not been present at the meeting with justifiable cause, shall be exempt from liability.

Our articles of incorporation state that we shall indemnify and hold our directors and officers harmless with respect to any action, judicial expense, loss, damage or cost which they may incur or suffer as a consequence of acts or omissions in the performance of their duties, and neither of them will be liable for any acts, omissions, or negligence of the other directors and/or officers, except in the case of the gross negligence or inexcusable wrongdoing by the director or officer.

#### **Registration and Transfers**

Our shares are indivisible. Joint holders of one share must designate a single person to exercise their shareholders' rights, but they are jointly and severally liable to us for all the obligations flowing from their status as shareholders, such as the payment of any pending capital calls.

Shares represented shall be transferable on the books of the corporation but in no case shall the transfer of stock be binding on the corporation unless it shall have been registered in the corporation's books.

#### **Restrictions on Foreign Investment**

Panama does not restrict foreign currency movements and foreign investments. Foreign investors may freely invest in shares of Panamanian companies as well as transfer invested capital, capital gains and dividends out of Panama without limitation (subject to applicable taxes).

#### **Preemptive Rights and Increase of Share Capital**

Our articles of incorporation state that our shareholders do not have a preferential right to subscribe shares issued pursuant to a capital increase, nor do they have a first option or preferential right to purchase or acquire shares that any of our other shareholders may wish to sell or otherwise dispose of.

#### **Reporting Requirements**

Since our shares are not registered with the Panamanian SMV or listed on the Panamanian stock exchange, agreements adopted with respect to the acquisition or disposition of our shares do not need to be reported to any Panamanian regulatory agency, provided that such transfers are not made in violation of Panama's securities laws and regulations.

**CERTIFICATION**

I, Luis Felipe Castellanos Lopez Torres, certify that:

1. I have reviewed this annual report on Form 20-F of InterCorp Financial Services Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the company as of, and for, the periods presented in this report;
4. The company's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15(d)-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the Company and have:
  - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the company, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - (c) Evaluated the effectiveness of the company's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - (d) Disclosed in this report any change in the company's internal control over financial reporting that occurred during the period covered by the annual report that has materially affected, or is reasonably likely to materially affect, the company's internal control over financial reporting; and
5. The company's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the company's auditors and the audit committee of the company's board of directors (or persons performing the equivalent functions):
  - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the company's ability to record, process, summarize and report financial information; and
  - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the company's internal control over financial reporting.
