3. Significant accounting policies

3.1 Basis of presentation -

The interim consolidated financial statements as of March 31, 2026 and December 31, 2025, have been prepared in accordance with IAS 34 “Interim Financial Reporting”.

The interim consolidated financial statements do not include all the information and disclosures required in the annual consolidated financial statements and should be read in conjunction with the Annual Consolidated Financial Statements as of December 31, 2025.

The accompanying interim consolidated financial statements have been prepared on the historical cost basis, except for investment property, derivative financial instruments, financial investments at fair value through profit or loss and through other comprehensive income, which have been measured at fair value. The interim consolidated financial statements are presented in Soles, which is the functional currency of the Group, and all values are rounded to the nearest thousand (S/(000)), except when otherwise indicated.

The preparation of the interim consolidated financial statements, in accordance with the International Financial Reporting Standards (henceforth “IFRS”) as issued by the International Accounting Standards Board (IASB), requires Management to make estimations and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses and the disclosure of significant events in the notes to the interim consolidated financial statements.

In that sense, the estimates and criteria are continually assessed and are based on historical experience, as well as other factors, including expectations of future events that are believed to be reasonable under the current circumstances. Existing circumstances and assumptions about future developments, however, may change due to markets’ behavior or circumstances arising beyond the control of the Group. Such changes are reflected in the assumptions when they occur. Actual results could differ from those estimates. The most significant estimates comprised in the accompanying interim consolidated financial statements are related to the calculation of the impairment of the portfolio of loan and financial investments, the measurement of the fair value of the financial investments and investment property, the assessment of the impairment of goodwill and the intangible of indefinite life, the liabilities for Insurance contracts and measurement of the fair value of derivative financial instruments; also, there are other estimates such as provisions for litigation, the estimated useful life of intangible assets and property, furniture and equipment, the estimation of deferred Income Tax and the determination of the terms and estimation of the interest rate of the lease contracts.

3.2 Basis of consolidation -

The interim consolidated financial statements of IFS comprise the financial statements of Intercorp Financial Services Inc. and Subsidiaries. The method adopted by IFS to consolidate its financial information with its Subsidiaries is described in Note 3.3 to the Annual Consolidated Financial Statements as of December 31, 2025 and has not changed since then.

(e) Equity for legal purposes (regulatory capital) -

Within the framework of the Consolidated Supervision set out by the Regulation for the Consolidated Supervision of Financial and Mixed Conglomerates, approved by SBS Resolution No. 11823-2010 and amendments, the Intercorp Group must meet certain capital requirements as well as global and concentration limits, among other requirements, which are applicable to its Financial Group, as defined by the SBS, is made up of Intercorp Financial Services Inc., its subsidiaries and InFinance XP S.A. (formerly Financiera Oh! S.A.), a related entity, subsidiary of Intercorp Perú Ltd.

On the other hand, as of March 31, 2026 and December 31, 2025, the regulatory capital required for Interbank, Interseguro and Inteligo Bank (a Subsidiary of Inteligo Group Corp.), is calculated based on the separate financial statement of each Subsidiary and prepared following the accounting principles and practices of their respective regulators (the SBS or the Central Bank of the Bahamas, in the case of Inteligo Bank).

As of March 31, 2026 and December 31, 2025, the Company and its subsidiaries have complied with the capital requirements and complementary provisions established by their regulators for consolidated and individual supervision purposes, as applicable.

14. Tax situation

- (a) IFS and its Subsidiaries are incorporated and domiciled in the Republic of Panama and the Commonwealth of the Bahamas (see Note 2), are not subject to any Income Tax, or any other taxes on capital gains, equity or property. The Subsidiaries incorporated and domiciled in Peru (see Note 2) are subject to the Peruvian Tax legislation; see paragraph (c).

Peruvian life insurance companies are exempt from Income Tax regarding the income derived from assets linked to technical reserves for pension insurance and pensions from the Private Pension Fund Administration System; as well as income generated through assets related to life insurance contracts with savings component.

In Peru, all income from Peruvian sources obtained from the direct or indirect sale of shares of stock capital representing participation of legal persons domiciled in the country are subject to income tax. For that purpose, an indirect sale shall be considered to have occurred when shares of stock or ownership interests of a legal entity are sold and this legal entity is not domiciled in the country and, in turn, is the holder — whether directly or through other legal entity or entities — of shares of stock or ownership interests of one or more legal entities domiciled in the country, provided that certain conditions established by law occur.

Notes to the interim consolidated financial statements (continued)

In this sense, the Act states that an assumption of indirect transfer of shares arises when in any of the 12 months prior to disposal, the market value of shares or participations of the legal person domiciled is equivalent to 50 percent or more of the market value of shares or participations of the legal person non-domiciled. Additionally, as a concurrent condition, it is established that in any period of 12 months shares or participations representing 10 percent or more of the capital of legal persons non-domiciled be disposed of.

Also, an indirect disposal assumption arises when the total amount of the shares of the domiciled legal person whose indirect disposal is performed, is equal or greater than 40,000 Taxation Units (henceforth "UIT", by its Spanish acronym).

- (b) Individuals domiciled in Peru, as well as individuals and legal entities not domiciled in Peru are subject to an additional tax (equivalent to 5 percent) on dividends received from entities domiciled in Peru. For this reason, dividends distributed by Peruvian subsidiaries to IFS are subject to the aforementioned withholding, which IFS records as an expense of the year. During the three-month periods ended as of March 31, 2026 and 2025, the Company has recorded a provision for S/13,651,000 and S/11,305,000, respectively, in the caption "Income Tax" of the interim consolidated statement of income.
- (c) IFS's Subsidiaries incorporated in Peru are subject to the payment of Peruvian taxes; hence, they must calculate their tax expenses on the basis of their separate financial statements. The Income Tax rate as of March 31, 2026 and December 31, 2025, was 29.5 percent, over the taxable income.
- (d) With regard to subsidiaries domiciled in Peru, the Tax Authority (henceforth "SUNAT", by its Spanish acronym) is legally entitled to perform tax audit procedures for up to four years subsequent to the date at which the tax return regarding a taxable period must be filed.

Following are the Income Tax periods subject to inspection by the main subsidiaries, in force as of March 31, 2026:

Subsidiary	Years subject to review
Interbank	From 2021 to 2025
Interseguro	From 2021 to 2025
Izipay	From 2021 to 2025
Procesos de Medios de Pago	From 2021 to 2025

Due to the possible interpretations that the SUNAT may have on the legislation in force, it is not possible to determine at this date whether or not the reviews performed will result in liabilities for the Subsidiaries; therefore, any higher tax or surcharge that may result from possible tax reviews would be applied to the results of the year in which it is determined.

In the normal course of their operations, some subsidiaries maintain various tax processes related to their activities in Peru. The most relevant tax processes for the main businesses are described below:

Interbank:

Notes to the interim consolidated financial statements (continued)

- *Tax periods from 2003 to 2006:*

For these periods, the most relevant matter subject to discrepancy with SUNAT corresponds to whether the “interest in suspense” are subject to Income Tax or not. In this sense, Interbank considers that the interest in suspense does not constitute accrued income, in accordance with the SBS’s regulations and IFRS accounting standards, which is also supported by a ruling by the Permanent Constitutional and Social Law Chamber of the Supreme Court issued in August 2009 and a statement from the month of June 2019.

In this context, regarding the tax period corresponding to 2003 and after a prolonged claims process in various instances, through a Resolution of Coactive Collection issued in October 2024, SUNAT required a payment of approximately S/17,800,000 (including taxes, fines and arrears), an amount that was paid in November 2024; however, the process continues in the Judiciary.

Regarding the tax period corresponding to 2004, through a Resolution of Coactive Collection issued in May 2025, SUNAT required Interbank to pay approximately S/7,000,000 (including taxes, fines and arrears), an amount that was paid in May 2025; however, the process continues in the Judiciary.

Regarding the tax period corresponding to 2005, through a Resolution of Coactive Collection issued in March 2025, SUNAT required a payment for approximately S/11,300,000 (including taxes, fines and arrears), an amount that was paid in April 2025; however, the process continues in the Judiciary.

On the other hand, regarding the tax period corresponding to 2006, through Resolutions of Coactive Collection issued in May and June of 2025, SUNAT required a payment for approximately S/3,100,000 and S/28,800,000, respectively, amounts that were paid by Interbank in June of 2025; however, the process continues in the Judiciary.

- *Tax period 2010:*

In February 2017, SUNAT closed the audit procedure corresponding to the Income Tax for the year 2010. Interbank paid the debt under protest and filed an appeal which is pending resolution by the Tax Court.

- *Tax period 2012:*

In July 2020, Interbank was notified of the Determination and Penalty Resolutions corresponding to the audit of the third-category Income Tax for the fiscal year 2012. As of March 31, 2026 and December 31, 2025, the tax debt claimed by the SUNAT amounted to S/14,700,000. As of the date of this report, the process is on appeal, pending resolution by the Tax Court.

- *Tax period 2013:*

In December 2022, SUNAT through Resolution of Coactive Collection, notified the payment of the third-category Income Tax debt corresponding to the period 2013, for approximately

Notes to the interim consolidated financial statements (continued)

S/62,000,000 (which includes the tax, fines and interest arrears), an amount that was paid by Interbank in February 2023; however, the process continues before the Judiciary.

In November 2025, SUNAT through a Compliance Resolution, notified Interbank of a new tax debt that, as of March 31, 2026 and December 31, 2025 amounted to S/36,600,000 and S/35,800,000, respectively; however, it is currently under appeal before the Tax Court and the Judiciary.

- *Tax periods 2014, 2015 and 2018:*

The tax audits for the 2014, 2015, and 2018 tax years are under appeal. The alleged tax debt related to Income Tax amounts to a total of S/97,180,000 and S/96,279,000 as of March 31, 2026 and December 31, 2025, respectively; pending resolution by the Tax Court.

- *Tax period 2019:*

In October 2023 and February 2024, SUNAT notified the beginning of the audit process to Interbank regarding the third-category Income Tax and Transfer Prices corresponding to the period 2019, respectively. In May 2025, Interbank was notified with Resolutions of Determination and Penalty corresponding to Income Tax and advance payments of the third category Income Tax for the 2019 fiscal year for approximately S/9,700,000, of which Interbank paid S/5,000,000. As of the date of this report, the Claim Appeal is pending resolution.

- *Tax period 2020:*

As of the date of this report, the 2020 tax period is under audit.

Procesos de Medios de Pago:

In December 2024, SUNAT concluded the definite audit procedure of the Income Tax for the period 2020, without material observations.

Izipay:

As of March 31, 2026 and December 31, 2025, Izipay maintains carryforward tax losses amounting to S/117,505,313 and S/104,290,500, respectively. In application of current tax regulations, Izipay opted for system "B" to offset its tax losses. Through this system, the tax loss may be offset against the net income obtained in the following years, up to 50 percent of said income until they are extinguished; therefore, they do not have an expiration date.

In the opinion of IFS Management, its Subsidiaries and its legal advisers, any eventual additional tax would not be significant for the consolidated financial statements as of March 31, 2026 and December 31, 2025.

- (e) **Global Minimum Tax:** In 2024, The Bahamas implemented a Qualified Domestic Minimum Top-Up Tax ("QDMTT") pursuant to the rules of the global minimum corporate tax rate, published by the Organization for Economic Cooperation and Development ("OECD"). For companies incorporated in the Bahamas belonging to the InterCorp Group, the QDMTT is applicable from the 2025 fiscal year onwards.

Notes to the interim consolidated financial statements (continued)

For its part, on December 21, 2024, Spain adopted the Income Inclusion Rule (“IIR”) and the QDMTT in accordance with the OECD global minimum tax rules, applicable to the fiscal years starting December 31, 2023. Spain also adopted the Undertaxed Profits Rule (“UTPR”), in accordance with the OECD global minimum tax rules for the fiscal years starting December 31, 2024.

These taxes are applicable to multinational groups with annual consolidated income of at least 750 million euros, which will be subject to a minimum effective tax rate of 15 percent.

In the opinion of IFS’ Management and its legal advisors, the application of this regulation would not have a significant impact on the Group's consolidated financial statements.

- (f) IFS’s Subsidiaries recognize the period’s Income Tax expense using the best estimate of the tax rate. The table below presents the amounts reported in the interim consolidated statements of income:

Segments’ performance is assessed based on operating profit or loss and is measured consistently with operating profit or loss in the consolidated financial statements. Transfer prices between operating segments are on an arm’s length basis in a manner similar to transactions with third parties.

23. Financial risk management

It comprises the management of the main risks, that due to the nature of their operations, IFS and its Subsidiaries are exposed to; and correspond to: credit risk, market risk, liquidity risk, insurance risk and real estate risk.

To manage the risks detailed above, every Subsidiary of the Group has a specialized structure and organization in their management, measurement systems, as well as mitigation and coverage processes, according to specific regulatory needs and requirements for the development of its business. The Group and its Subsidiaries, mainly Interbank, Interseguro and Inteligo Bank, operate independently but in coordination with the general provisions issued by the Board of Directors and Management of IFS. The Board of Directors and Management of IFS are ultimately responsible for identifying and controlling risks. The Company has an Audit Committee comprised of three independent directors, pursuant to Rule 10A-3 of the Securities Exchange Act of the United States; and one of them is a financial expert according to the regulations of the New York Stock Exchange. The Audit Committee is appointed by the Board of Directors and its main purpose is to monitor and supervise the preparation processes of financial and accounting information, as well as the audits over the financial statements of IFS and its Subsidiaries. Also, the Company has an Internal Audit Division which is responsible for monitoring the key processes and controls to ensure adequate low risk control according to the standards defined in the Sarbanes Oxley Act.

A full description of the Group's financial risk management is presented in Note 29 "Financial risk management" of the audited Annual Consolidated Financial Statements; related to credit risk management for the loan portfolio, offsetting of financial assets and liabilities, and foreign exchange risk.

(a) Credit risk management for loans –

Interbank's loan portfolio is segmented into homogeneous groups that shared similar credit risk characteristics. These groups are: (i) Retail Banking (consumer and mortgage loans), (ii) Business Banking (small and micro-business loans), and (iii) Commercial Banking (commercial loans). In addition, at Inteligo Bank, the internal model developed (scorecard) assigns 5 levels of credit risk classified as follows: low risk, medium low risk, medium risk, medium high risk, and high risk. These categories are described in Note 29.1(d) of the audited Annual Consolidated Financial Statements.

Additionally, Interbank monitors constantly the occurrence or not of certain events that might affect the behavior and performance of the expected credit losses of its clients. Therefore, certain subsequent adjustments to the expected loss model are recorded to be able to capture the effects of the current situation, which has generated a high level of uncertainty in the estimation of the loans' expected loss.

In compliance with the policy of monitoring the Group's credit risk, during 2025 Interbank performed the recalibration process of its risk parameters for the calculation of the expected credit losses.

The Group structures the levels of credit risk it undertakes by placing limits on the amount of risk accepted in relation to one borrower or groups of borrowers, geographical and industry segments. Said risks are monitored on a revolving basis and subject to continuous review.

Notes to the interim consolidated financial statements (continued)

(b) Offsetting of financial assets and liabilities -

The information contained in the tables below includes financial assets and liabilities that:

- Are offset in the statement of financial position of the Group; or
- Are subject to an enforceable master netting arrangement or similar agreement that covers similar financial instruments, regardless of whether they are offset in the consolidated statement of financial position or not.

Similar arrangements of the Group include derivatives clearing agreements. Financial instruments such as loans and deposits are not disclosed in the following tables since they are not offset in the consolidated statement of financial position.

The offsetting framework agreement issued by the International Swaps and Derivatives Association Inc. ("ISDA") and similar master netting arrangements do not meet the criteria for offsetting in the statement of financial position, because of such agreements were created in order for both parties to have an enforceable offsetting right in cases of default, insolvency or bankruptcy of the Group or the counterparties or following other predetermined events. In addition, the Group and its counterparties do not intend to settle such instruments on a net basis or to realize the assets and settle the liabilities simultaneously.

The Group receives and delivers guarantees in the form of cash with respect to transactions with derivatives; see Note 4.

(c) Foreign exchange risk -

The Group is exposed to fluctuations in the exchange rates of the foreign currency prevailing in its financial position and cash flows. Management sets limits on the levels of exposure by currency and total daily and overnight positions, which are monitored daily. Most of the assets and liabilities in foreign currency are stated in US Dollars. Transactions in foreign currency are made at the exchange rates of free market.

As of March 31, 2026, the weighted average exchange rate of free market published by the SBS for transactions in US Dollars was S/3.486 per US\$1 bid and S/3.495 per US\$1 ask (S/3.358 and S/3.368 as of December 31, 2025, respectively). As of March 31, 2026, the exchange rate for the accounting of asset and liability accounts in foreign currency set by the SBS was S/3.491 per US\$1 (S/3.363 as of December 31, 2025).

Notes to the interim consolidated financial statements (continued)

Financial assets included in Level 1 are those measured on the basis of information that is available on the market, to the extent that their quoted prices reflect an active and liquid market and that are available in some centralized trading mechanism, trading agent, price supplier or regulatory entity.

Financial instruments included in Level 2 are valued based on the market prices of other instruments with similar characteristics or with financial valuation models based on information of variables observable in the market (interest rate curves, price vectors, etc.).

Financial assets included in Level 3 are valued by using assumptions and data that do not correspond to prices of operations traded on the market. The valuation requires Management to make certain assumptions about the model variables and data, including the forecast of cash flow, discount rate, credit risk and volatility.

As of March 31, 2026 and December 31, 2025, there were no transfers to or from level 1 to level 2. Conversely, there were transfers of certain financial instruments from Level 2 to Level 1 for an amount of S/212,793,000 and S/19,763,000, respectively.

As of March 31, 2026 and December 31, 2025, there were no transfers of financial instruments to or from level 3 to level 1 or level 2.

The table below includes a reconciliation of fair value measurement of financial instruments classified by the Group within Level 3 of the valuation hierarchy:

The methodologies and assumptions used to determine fair values depend on the terms and risk characteristics of each financial instrument and they include the following:

- (i) Long-term fixed-rate and variable-rate loans are assessed by the Group based on parameters such as interest rates, specific country risk factors, individual creditworthiness of the customer and the risk characteristics of the financed project. Based on this evaluation, allowances are taken into account for the estimated losses of these loans. As of March 31, 2026 and December 31, 2025, the book value of loans, net of allowances, was not significantly different from the calculated fair values.
- (ii) Instruments whose fair value approximates their book value: For financial assets and financial liabilities that are liquid or have short-term maturity (less than 3 months) it is assumed that the carrying amounts approximate to their fair values. This assumption is also applied to demand deposits, savings accounts without a specific maturity and variable-rate financial instruments.
- (iii) Fixed-rate financial instruments: The fair value of fixed-rate financial assets and financial liabilities at amortized cost is determined by comparing market interest rates when they were first recognized with current market rates related to similar financial instruments for their remaining term to maturity. The fair value of fixed interest rate deposits is based on discounted cash flows using market interest rates for financial instruments with similar credit risk and maturity. For quoted debt issued, the fair value is determined based on quoted market prices. When quotations are not available, a discounted cash flow model is used based on the yield curve of the appropriate interest rate for the remaining term to maturity.

Notes to the interim consolidated financial statements (continued)

25. Fiduciary activities and management of funds

The Group provides custody, trustee, investment management and advisory services to third parties; therefore, the Group makes purchase and sale decisions in relation to a wide range of financial instruments. Assets that are held as trust are not included in the consolidated financial statements. These services give rise to the risk that the Group could eventually be held responsible of poor yielding of the assets under its management.

As of March 31, 2026 and December 31, 2025, the value of the managed off-balance sheet financial assets is as follows:

	31.03.2026 S/(000)	31.12.2025 S/(000)
Investment funds	20,293,785	19,418,061
Mutual funds	<u>9,852,318</u>	<u>9,340,950</u>
Total	<u>30,146,103</u>	<u>28,759,011</u>
